

# Citizens Are Urged To Cooperate In Cleanup Campaign

Progress is reported in plans for the cleanup program being sponsored by the Littlefield Rodent Club, in which the City is participating, and which has been under way since the week of March 26-31. The committee, with J. O. Gar-

lington as chairman, has been named. Assisting Mr. Garlington are: Dr. Ira Woods, I. T. Shotwell, Sr., and Ernest Cundiff. In an interview with Mr. Garlington Tuesday he said: "The City is anxious to coop-

erate and are 100 per cent behind the program, but in view of war conditions, they cannot get enough trucks or help to haul all trash to the dump grounds, which are 12 miles southwest of town, but if all citizens will burn as much

trash as will burn, and put the balance in containers, the City will do their utmost to haul that trash or refuse that will not burn. "The City cannot make a definite commitment, but will do the best they can. It is up to the peo-

ple to cooperate and burn all trash possible, and get as many vacant lots cleaned up and the trash burned as soon as possible. "Care should also be taken about setting out boxes with papers, which high winds will blow

over the city. "Citizens are also cautioned about setting fires late in the evening, as there exists the danger of the blaze re-kindling late at night, and being scattered causing loss of property and possibly lives."

## Crop Insurance Be Available

General Crop Insurance will be available in 1945. The maximum coverage of such insurance will be 50 per cent of the average yield of cotton for the farm. The insurance shall cover the loss of cotton if the producer applies for coverage. Application for insurance may be made by any person who covers his interest in cotton grown in 1945 if he is a landowner, tenant, or sharecropper. General Crop Insurance insures the producer against drought, hail, fire, flood, or similar threats to his crops. It is a program backed by the Government offering farmers an opportunity to work to make the good years take up for the bad years. With crop insurance, a farmer can plan and work with assurance of a return on his investment and his work. Without crop insurance, a farmer must stand all the cost the year loss occurs—at the time when he least affords it. With crop insurance he spreads the cost of the low or high yields over several

years. Applications shall be submitted to the Lamb County ACA office on or before April 25, which is the closing date for accepting applications in Lamb County. Producers are urged to contact their local community leaders or call at the Lamb County ACA office for rates and conditions on their individual farms.

L. B. Green of Pontiac, is also visiting her parents, and Mrs. G. W. Ross, and her husband, Captain Ross, during his leave.

he has only "Two Days to Marry." Why must he marry within two days? You'll want to see the play to find out. The play has an excellent plot, and seven characters.

Each character has a good role. Georgia Lou Smith plays the part of Imogene M. Shane, Dave's sweetheart, he hopes. Pat Mitchell plays the part of Walter M. Blair, Dave's millionaire uncle, and executor of the will. Shelby Bewley plays the part of Dave's lawyer. He's good. He gets his client into scrapes as well as out of them. Mary Helen Hayhurst plays the part of Sadie L. Hoise from Iowa. Dave becomes acquainted with her through a matrimonial agency.

We know you don't want to miss this side-splitting comedy. Tickets are already on sale by members of the Senior class. We'll see you Friday night, March 30, in the Littlefield High School auditorium at 8:30 p. m.

**All-Day Session To Be Staged At Amherst April 10**

**Meeting Takes Place Of District P.T.A. Annual Conference**

A P.T.A. School of Instruction will be held in an all-day meeting at Amherst Tuesday, April 10, at the High School auditorium.

This session will be held in place of the District Conference of P.T.A. which had previously been scheduled to take place in Slaton.

Due to OPA regulations, conferences where more than 50 persons attend cannot be held. The census is in full swing but school officials believe that there are many families with school age children who have not been contacted. The help of every citizen is courteously solicited.

## Introducing the Seniors of Spring Lake High School

Following are part of a series of articles introducing Seniors of Spring Lake High School. These articles were prepared for publication by Sophomores of Spring Lake High School.

### AN ALL-AROUND SENIOR

Jean Wilson was born at Burkburnett, Texas, in nineteen hundred twenty-eight. She with her mother, father, and brother moved to Earth, Texas, when Jean was two years old. She is now a senior at Spring Lake High school. She is secretary of this class, and a very good student. Jean is popular with all her classmates.

Jean's hobby is to take pictures. She also collects pictures, and especially likes those of people, foreign places, and unusual scenes. Another hobby of hers is collecting stamps.

Music is Jean's interest. At first she wanted to study voice and be a singer, but since she has had no training of this kind, she thinks it wise not to take music. Jean, her friends think, is gifted with an unusually talented and sweet voice.

Jean plans to go to college when she graduates this spring. She will go, or is planning to go to Texas Technological college at Lubbock. Her mother will finance her college education. Jean is going to college

because she wants the things that it offers that business school does not, such as living in a dorm and having school activities, like basketball teams, football teams, and other sports. She may take a business course in college. Jean wants an education because if in later years she should become a widow, she will be well prepared to support herself. Jean likes red headed men or, better still, men, fairly tall, who is loads of fun, yet is blessed with a fine intellect.

### INTRODUCING A SENIOR

Marlene is the daughter of a minister, Rev. W. E. McGraw, and so has had the thrill and experience of making several moves, of meeting and knowing personally many, many people—and in being a friend to all.

She started to school in one of her new home towns, Wilson. Two years ago her father accepted the church at Earth and moved his fam-

ily here. Since then Merlene has been one of ours and will graduate in May.

Later on Merlene will take a business course majoring stenography. Some "favorites" of Merlene's:

Food—fried chicken with plenty of gravy.

Desert—ice cream.

Movie star—Van Johnson.

Car—one that will run.

Type of boy—tall, dark and handsome. He must be of grand physique, like all sports, dynamic personality, fine intellect.

Show—a combination of war, romance, and comedy.

Study—English.

Books—romance, fiction.

Songs—Sleight Ride in July, Good-night, Sweetheart.

By popular vote Merlene was declared Queen of the 1945 Senior Class. She is an active member in the local Chapter of F.H.T. (Future Homemakers of Texas).

Each Sunday morning finds Merlene in the nursery room of the First Baptist Church, Earth, Texas, where she is in charge of the little ones too young for regularly organized classes.

Merlene declares war news sounds better right now than it has for sometime and predicts the time is not far distant when "Johnny will come marching home again, tra la!"

north of Earth, Texas, in 1928.

At the ripe old age of six years, Dwane had his first day in school—Yes, 'twas Springlake, and so it has been for these 12 years. He graduates in May.

After graduating from school, Dwane plans to attend Texas Technological college at Lubbock. He will be in school one year and then will begin farming, if he doesn't enter military service. He is going to get a job in his spare time to help finance his college work.

Dwane is president of the local F.F.A. chapter, and treasurer of the State F.F.A. This recognition came to him in October '44. Not only Dwane but all his classmates are glad of this state honor.

His favorite sports are baseball and basketball; his favorite study, Speech.

To the question, "What is in store for F.F.A. boys after the war?" Dwane surmised:

"I believe that great opportunities are in store for F.F.A. boys after the war. There will probably be a great demand for agricultural products with which to supply both the U. S. and foreign countries. There will also be a demand for more pure-bred animals. I believe the farming industry will be about as profitable as any during post war times. I for one am going to establish my home on a West Texas farm."

## Last Rites Held For Chas. H. Nichols

Charles Henry Nichols, 55, passed away Friday at 3 a. m. at his home in Sudan, following an illness of several months duration. He underwent an operation in a Dallas hospital for tumor of the brain, and later was a patient for a time in the Amherst Hospital.

Mr. Nichols was a prominent resident and business man of Sudan, and leaves a large circle of friends, as well as relatives to mourn his passing.

He was a resident of that city for 20 years, was in the grocery business for a number of years, and at the time of taking ill he was secretary of the Sudan School board. He was born November 5, 1890, at Waco, Texas.

Funeral services were conducted Sunday afternoon, March 18, at 3 o'clock, at the First Methodist Church, Sudan, with Rev. R. M. Walker, pastor, officiating, assisted by Rev. Hartzell, Church of Christ pastor.

Burial, in charge of Hammons-Smith Funeral Home, took place in the Sudan Cemetery.

The high esteem with which deceased and his family are held was indicated by the large crowd which gathered at the church to pay their last respects, and the very elaborate floral offering. The Sudan Methodist church was not nearly sufficient to accommodate the large numbers who attended the funeral service.

Pallbearers were: J. E. Dryden, Joe Salem, Robert Masten, John Dean, Frank Bryant, Nibs Warren and Francis Miller.

Flower bearers were: members of Sudan Girl Scout organization. Mr. Nichols was survived by his

wife and four sons. The sons are:

C. E. Nichols of Sudan, who served overseas about two years, and received a medical discharge; Sgt. Milton H. Nichols, called home at his father's death, has served overseas in North Africa and Italy 2 1/2 years, and is returning to Italy; Radney Nichols, who received a medical discharge from the service, and is now in the grocery business in Sudan; and Nelson Nichols, U.S.N.R., in Naval Dental school at Dallas.

He is also survived by a brother, three sisters, his mother, and one grandson, Charles Radney Nichols.

Pvt. Estep, however, had already written his parents that he was shot February 14 while in Manila in the left thigh and hip, and that bullet lodged in hip.

Pvt. Estep has been about two years in the service. Previous to entering the military service he assisted his father in the operation of his farm.

He was visiting his grandfather, J. A. Lackey, at Mangum, Okla., at the age of 18, when he volunteered for the service.

When advising his parents of being wounded he said "I got my share of the Japs before they got me."

### Stansell Decorated

Richard N. Stansell of Littlefield recently returned from 23 overseas in the European Operations on the U. S. Ship Blanche F. Sigman. Stansell was temporarily being treated at General Hospital prior to being transferred to another Army hospital for definitive treatment. He is in an Infantry division, and is the son of W. C. Stansell.

Stansell has been decorated several times. He wears the American and Mediterranean Theatre Infantry Combat Badge, the Purple Heart and the Bronze Star Medal.

Stansell was decorated for keeping communication lines between the 143rd Infantry Regiment and the 36th Division during the fighting on Hill 1205 during the 1943, near San Vito, Italy, the 143rd Regiment was by an estimated one hundred German artillery pieces. The Germans were wreaking severe damage to the regiment, but the Americans refused to be pushed from the position.

The Jerries kept blasting the communication wires which were lines of the Infantrymen. Stansell, a squad leader in a reconnaissance platoon, decided that he would try to repair the wires.

The terrain was rocky, the wires were unable to dig foxholes. Exposing himself to greater dangers than the rest of the outfit, Stansell dug the hill under heavy machine gun and mortar fire. For a while he crawled and ran until he found the wire break, he fixed it.

During the same conditions on the hill, Sgt. Stansell managed to reach his unit. For several days the regiment fought the enemy then another break occurred. Stansell voluntarily made a run to the broken communication wire.

When the battle ended on the day, Stansell had performed a dangerous mission for the third time for daring to face the strong-armed Jerries could must the risk of his life, not once but three times, Sgt. Stansell was awarded the Silver Star.

On December 11, 1944, while in Southern France, Stansell was sent to seek out the German breakthrough. In the process his squad was ambushed and Stansell was hit in the right leg. The wound was later amputated.

Because of this wound, Stansell was transferred to Stark aboard the ship Blanche F. Sigman and arrived in the Charleston Port recently.

Stansell was given basic training at Camp Bowie, Texas, after his induction in January 1941. In the Texas camp, the sergeant of the 36th Division, and in 1943, the outfit was shipped to Europe.

Dick Stansell has been wounded twice, the last time on March 12. He has his right foot amputated, and a wound in his left leg had been in a cast since December until March 5, when he arrived at McCloskey Hospital. His left arm has also suffered in-

### Cleston Lee Orr Wounded In Action

Cleston Lee Orr, 17, Hospital Apprentice 1-C, on U.S.S. Dickens, is reported wounded in the Philippines, according to a telegram received Saturday from the War Department by the serviceman's mother, Mrs. Don Massey.

The message also stated that he was being given the best medical care possible, and that if they heard anything more definite they would let her know, and that they hoped to be able to let her know how he was getting along later on.

He has been in service a year March 13 last, and overseas since October.

### Citizens Urged To Bury Or Burn Their Dead Poultry

February 5, Floyd A. Thompson, of the United States Game Management, was out around Soda Lake when he found a number of dead ducks. He immediately buried the ducks with the exception of some that he sent to the Biologist of Game Management, Brigham City, Utah. There it was found that the ducks had died of cholera, caused from people throwing dead chickens and ducks out along the roads and fields. A serum taken from the dead birds was given to a few chickens and ducks and the result was they all died immediately, 18 hours being the longest any lived after the injection.

On the 26th of February, Mr. Thompson went back to Soda Lake to check on the ducks again. This time he found only nine dead ones. The reason for the decrease in number of dead ones was: when he buried the first ones he found, that lessened the chances of the disease being transferred to other ducks.

The game management reports that this territory is the worst they have noticed for having dead poultry, birds, etc., along the roads. To help control and prevent this disease people should bury or burn their dead poultry or ducks so they can't be found by live birds.

### Announce New Price Regulations

A new price regulation covering apparel, dry goods and house furnishings was announced by the Office of Price Administration on Tuesday of this week. The local War Price and Rationing board stated today that the principal provision of the regulation is that each retailer must prepare a pricing chart showing the costs and selling prices of the goods he offered for sale on March 19, 1945 (base date). The job of calculating ceiling prices for apparel, dry goods, and house furnishings will be greatly simplified

by these pricing charts. Copies of the regulation which explains how to prepare these charts have been sent to all local retailers of clothing and house furnishings. Additional copies are available at the local board for all merchants who desire them.

The new regulation is a follow-up on the OPA-WPB clothing program announced in January, and should mean that more of the clothing appearing in stores this summer will be in the low and medium-price ranges.

"Flying unarmed and unescorted" the citation reads in part, "at altitudes as low as 25 feet, the pilots of the 10th Group fearlessly flew their aircraft over the difficult photographic runs in the face of intense fire from some of the strong-

The 316th, a unit of the 91st "Powder River" Division, arrived in North Africa in April, 1944, and landed in Italy two months later. Company A went into action at Veletri to cut trails and develop river fords for doughboys moving on Rome. The rest of the outfit entered the line in July. Company C blazed the trail into Leghorn, while the rest of the battalion cleared mines in the neighborhood of Pontedera along the Arno River.

The entire outfit was busy brushing aside the widest variety of obstacles as the 91st pushed into the Gothic Line at Futa Pass.

### With South Plains Men In The Armed Forces

Sgt. Harold Pollard, son of Mr. and Mrs. L. E. Pollard of Enochs, who is recovering from pneumonia, and was for a time a patient in a hospital in Luxembourg, is now in a hospital in England. Included in a letter to his parents recently was the following:

"I have just got back from the show and am in the day room now. The Red Cross furnishes us all kinds of reading matter, but I still like to get some home town news such as the Lamb County Leader. As I have said before, the American Red Cross has helped the boys over here a lot during our stay overseas.

"The movie I just saw was a kind of ghost tale and not worth a hoot in my estimation. Haven't seen a very good one in sometime, except for Ernest Haycox's 'Tall in the Saddle.' I remember reading that in Collier's some few years ago.

"The food is good here, today we had chicken three times. I've had ice cream since I came back to England. Of course, there for a while back in Belgium we ate quite a lot of it, but it was as could be expected not nearly so good as our own products.

"The boys here represent most every branch of service, so we have quite an assortment. I still think the AA is about as good an outfit to be in as I know of on the field.

"Do you ever see Jesse Mann at Muleshoe? I remember all that bunch who went from Muleshoe that August 28. The only one I know where he is, is Kindred, who of course, is still over here, or was when I left.

"Well, I am still hoping to be back with the outfit shortly, as I am fairly certain I'll be back there

within a month. You had better start using my old address again, and now I'll just get back to reading 'We Pointed Them North,' a western which I still find the most interesting of any.

"So Long and Cheerio,  
"HARRY."

WITH THE FIFTH ARMY, Italy.—Col. Robert P. Wilson, surgical technician, Littlefield, is a member of the 4th Tank Battalion, which is jabbing German defenders in the most northerly Apennine Mountains in Italy, keeping them off balance. His outfit, poised below the crest of the last Apennine barriers, is one of those on which high hopes are placed for a thrust across the Po Valley.

The 4th Tank Battalion, as such, is a new outfit, but its elements, the 1st and 3rd Battalions of the 13th Armored Regiment and the 1st Battalion of the old 1st Armored Regiment—have been fighting Germans since the first day American forces were committed to battle against their European enemies.

These elements, which were recognized under the 1st Armored Division in Italy as the 4th Tank Battalion, sailed for Northern Ireland May 10, 1942, tarined in England and landed in North Africa on African D-Day, November 8, 1942.

After playing a leading role in the taking of Oran, Northern Algeria, they moved into Tunisia, where they learned bitter lessons at Paid Pass and Kasserine Pass as the Germans drove on the great supply base at Tebessa. When the resurgent Allied forces had stopped this drive, men of the 4th Battalion made a sensational comeback as a chief factor in the "mousetrap" ma-

neuver at Mateur and in the capture of Ferryville.

The 4th took up positions along the Rapids River in readiness for a drive through the Liri Valley but, when the Germans held at Cassino, the tankers were shifted to the beachhead around Anzio, from where they jabbed the enemy flank and kept the Jerries guessing. They broke out of the isolated Anzio front last May 23 and, in quick succession, smashed German forces in Cisterna, Cori, Velletri, Lanuvio, Albano and Rome.

They fought on through Grosseto, Montecatini and Volterra and helped bridge the Arno River.

The 4th's medium tanks were "sicked on" the Germans again last fall to pierce the Gothic Line.

### No Restriction On Selling Live Poultry

WFA's 100 per cent set-aside order on canned poultry for the Armed Forces does not restrict producers from selling live poultry, Dan L. Boyd, District Representative, WFA's office of supply, has explained.

Marketing of live turkeys and chickens can proceed as usual without violation of the order, he said. Poultry dressed for home consumption or canned for home use also are not violations.

Poultry also may be placed in food lockers if the capacity is not more than 15 cubic feet.

Boyd was informed of the interpretations by C. M. Evans, WFA's regional dairy and poultry representative, who said the set-aside order was a joint move by WFA and the Quartermaster Corps to supply

U. S. military demands for about 70,000,000 pounds of canned chicken and poultry during 1945. Under the order eviscerators and canners must have the authority from WFA to process poultry.

## G. I. Bill of Rights

Certain educational privileges are extended upon discharge to men who have served for a period of 90 days on or after Sept. 16, 1940, and prior to the termination of the present war, and who are discharged under conditions other than dishonorable, and who were not over 25 years of age at the time they entered the service. Men over 25 at the time they entered the service are also eligible if their education was interrupted by their entry into the service. Veterans must meet the regular entrance and scholarship requirements. Application must be made for schooling within two years after discharge. The Government will pay to the school of the veteran's choice up to \$500 per year for tuition and books, and will pay to the veteran \$50 per month maintenance if without dependants and \$75 if he has dependents. In no event shall the total period of education exceed four years. There is also a provision for part-time attendance in a course of education or training at a reduced subsistence allowance or without allowance, but with payment of tuition and other expenses.

A veteran also has the right to vocational rehabilitation for service-incurred disabilities, extended to those who served during the period from Sept. 16, 1940, to the termination of the present war.

Application for education and training should be made to the Director, Vocational Rehabilitation and Education Service, Veterans' Administration, Washington, D. C.

### Loans for the Purchase or Construction of Homes, Farms, and Business Property

The act does not provide that the Veterans' Administration shall make loans to returning servicemen for the above-mentioned purposes but it does provide that loans for such purposes or for the alteration or improvement of buildings or equipment may be partially guaranteed by the Government. The guarantee cannot exceed 50 per cent of the loan, except in cases where the loan is made, guaranteed, or insured by a Federal agency. The total amount guaranteed cannot exceed \$2,000. Loans may be made by an individual or by private or public—State or Federal—lending

agencies or institutions. The interest rate must not exceed 4 per cent. The loan must be practicable and suitable to veterans' circumstances. The loan must be repaid within 20 years. Application for the guarantee of loans must be made to the Administrator of Veterans' Affairs, Veterans' Administration, Washington, D. C.

### Employment of Veterans

The act directs the Veterans' Administration to assist returning service men and women in securing jobs. This is to be done principally through the State and local United States Employment Service offices and under the Veterans' Placement Service Board created by the act.

### Unemployment Compensation

There is a provision in the act for returning service men and women which provides for unemployment allowances of \$20 per week while unemployed. Benefits in any case could not be paid for a period in excess of 52 weeks. A payment of less than \$20 per week is authorized in certain cases where the person is employed but for less than \$20 per week. To be eligible, the person must reside in the United States, be completely unemployed, or, if partially unemployed, at wages less than \$23 per week, be registered with and report to a public employment office, be able to work, and available for suitable work. Benefits are also payable in some cases to self-employed veterans.

Any person will be disqualified if he leaves suitable work voluntarily without good cause or is suspended or discharged for misconduct; if he, without good cause, fails to apply for suitable work offered; if he fails, without good cause, to attend an available free training course; if he is participating in a strike or labor dispute causing a work stoppage.

### Hospitalization

A \$500,000,000 program for additional veterans' hospitals and facilities is authorized, insuring more adequate hospitalization privileges for veterans.

For veterans who have lost limbs, artificial limbs are provided for along with necessary fitting and training in the use of the appliances, including institutional training.

He received a discharge after a year of training, worked for several months in Sudan for a dry goods store, and after Pearl Harbor was recalled into service.
