

How To Pick A Winner

R. H. Weaver, co-captain of the Big Spring Quarterback Club, has no trouble picking a winner on the gridiron—the Steers, of course. But when it comes to making his pick for Fall Hat Day on Friday, he couldn't reach such a quick decision. They were all winners, he figured, and not until Elmo Wasson piled hats as high as Weaver's

head was the erstwhile Quarterback able to call the signals on a smart wide brim number. Stores for men's wear all over the city have similarly large stocks from which men can get into the fall swing Friday by switching to a felt hat. When they do, they'll smile, too. (Photo by Keith McMillin).

800 Are Feared Dead In Algerian Earthquake

Stricken Town Heavily Damaged

ALGIERS, Algeria (AP)—A tremendous earthquake early today leveled about a fifth of the city of Orleanville in northern Algeria and nearly wiped out several nearby villages. Unofficial estimates put the number of dead at 800 and the injured at over 1,000. Authorities described it as North Africa's worst quake in 40 years. Some unofficial death estimates ran as high as 1,000. The exact figures remain uncertain because communications between Algiers and Orleanville were knocked out. One report said that in Orleanville alone there were 200 dead and 1,000 injured. Eyewitnesses

Lamesa Jurors Declare Rogers Guilty Of Arson

The celebrated arson trial of J. S. Rogers came to another verdict in its third round Wednesday at Lamesa. A 106th District Court jury found Rogers guilty of having burned the Gosnell Hotel June 16, 1951. His punishment was recommended at two years in prison, but Judge Lewis B. Read of Lamesa likely will not pronounce sentence until later. Rogers was tried originally in 32nd District Court in Colorado City, but the jury there was unable to reach a verdict. Then the case was transferred to 118th District Court in Big Spring, where the jury returned a finding of guilty. Term was fixed at two years.

Defense attorneys Del and Perry Barber appealed the case and it was subsequently reversed and remanded.

Prosecution, headed by Dist. Atty. Eldon Mahon of Colorado City, contended that the presence of several jars filled with inflammable material, in a number of the closets indicated that the hotel had been purposely burned. Defense contended that there was nothing to establish arson and even so, it could not be attributed to Rogers. He had acquired the hotel, formerly the Barcroft, during the Snyder boom when many workers were staying in Colorado City.

Assisting Mahon at Colorado City were Carl Clayton, Lamesa, 106th District Attorney, Del Barber was joined by Stansel Clement, Lamesa, on the defense.

STRIP BUYER BEFORE SALE

ANNAPOLIS, Md. (AP)—Want a nudist camp? There's one near here for sale—\$30,000 asked. The owners choose to remain anonymous. They make it clear, however, that prospective buyers will have to strip if they want to look over the place, which consists of 110 acres, a 2 1/2-story house, swimming pool and five grassy acres for sunning. They're determined that the camp is not going to degenerate into a rendezvous for people who wear clothes. Nudists have used the camp for 18 years.

McCarthy Loses In Probe Ruling

By JACK BELL

WASHINGTON (AP)—Senators weighing censure charges against Sen. McCarthy refused today to let the defense testify about the use of secret government information by other senators, and McCarthy's lawyer said this ruling barred the "very heart and soul" of the defense on this issue.

Edward Bennett Williams, McCarthy's lawyer, offered a brief which contended that Vice President Nixon, Sen. Ferguson (R-Mich) and others had taken stands that Congress members had a right to use information which the White House sought to withhold.

Williams suggested Nixon and Ferguson could be called as witnesses if there was any question as to their positions. But Chairman Watkins (R-Utah) ruled the committee would not go into activities of any legislators other than McCarthy. If this was done, he said, the Congress members would have to be called and the hearings could go on indefinitely.

In a brief closed-door session, the committee upheld the chairman's ruling. Watkins said the action was unanimous. Dramatically then, Williams declared "we cannot go forward with our defense" on the two censure counts dealing with McCarthy's alleged attempts to incite government employees to give him secret information.

Williams, his voice rising, tried to state for the record what he said McCarthy had expected to establish in his defense.

He declared that McCarthy had expected to show especially that "the chief policy makers of the Senate—Vice President Nixon, the chairman of the Republican Policy Committee (Ferguson), and you, yourself, Mr. Chairman"—had taken "precisely the same position time and again" on issues in which McCarthy is now involved.

Watkins interrupted with asperity to state the committee was prepared only to give judicial notice to official actions of the Senate. "You can't go around quoting every individual member of the Senate as a precedent," Watkins said, observing that sometimes members of Congress were on both sides of the same question.

Williams said Watkins' ruling had prevented McCarthy from answering the charge of improperly soliciting government employees to reveal wrong-doing because McCarthy's whole case rested around another Senate precedent.

On the matter of the 2 1/2-page FBI memorandum, Williams said, McCarthy was prevented from showing what was an "almost

identical action by Congress in 1948."

This action, Williams said, was taken by Vice President Nixon while a member of the House Un-American Activities Committee in a case involving Dr. Edward U. Condon, then director of the U. S. Bureau of Standards.

The 2 1/2-page memorandum is a document which McCarthy sought to use in the McCarthy-Army hearings. It was identified then as a summary of a confidential FBI report to Army intelligence, but was never put into the record.

Watkins said McCarthy could introduce an action of the House as a proper precedent, but that a speech by Nixon or any other member of Congress was "not enough."

Williams said the defense would be ready at the afternoon session to go ahead with its testimony on the remaining two charges—that McCarthy showed contempt for a Senate committee that investigated his financial affairs and other matters in 1951 and 1952, and that he had been abusive of his Senate colleagues.

When the hearing convened, there was a brief reversion to a charge which McCarthy dealt with yesterday—the accusation that he

THREE SURVIVE

Local Man's Jersey Bears Quadruplets

A six-year-old crossbred Holstein-Jersey cow gave birth to quadruplets Wednesday afternoon at the D. C. Buchanan dairy farm, northeast of Big Spring. There were two bulls and two heifers. The two bulls and one of the heifers survived, and Dr. H. F. Schwarzenbach, Big Spring veterinarian who visited them this morning, said mother and babies are doing fine and that he doesn't see any reason why the remaining triplets shouldn't make it all right.

Buchanan says twins have frequently been born in his herd but that this is his first experience with more than that at a time. This is the fourth time this cow has calved and always heretofore there has been but one new calf on such occasions. When he found Blackie with her

BLACKIE... With Three Of Her Quads

Talmadge Friend Wins In Georgia

ATLANTA (AP)—Lt. Gov. Marvin Griffin, the self-styled "white people's candidate", was swept to an apparently overwhelming victory in yesterday's Democratic primary for the nomination as governor of Georgia.

Running with the blessing of Gov. Herman Talmadge whose white supremacy championship he is pledged to continue, Griffin piled up a huge lead for all-important county unit votes—alotted to the counties on the basis of two units for each seat in the House of Representatives.

Former Gov. M. E. Thompson, who twice unsuccessfully opposed Talmadge, was far back in second place, still clinging to a fading hope that later returns might pull him into a run-off.

But on the basis of latest returns, from 1,197 of 1,809 precincts in 148 of 159 counties, Griffin had an apparently insurmountable total of 149,814 popular votes which gave him the lead in counties with 270 of the state's 410 county unit votes. Only 206 unit votes are required for nomination.

Thompson had 100,564 and the lead for 64 unit votes.

Behind the leaders were Fred Hand, speaker of the House of Representatives with 56,218 and 22 State Agriculture Commissioner Tom Linder with 44,417 and 24; and State Rep. Charles Gowen with 54,564 and 4.

Fire Razes Wichita Falls Building Row

WICHITA FALLS (AP)—Fire raced through a row of buildings in the southern portion of the Wichita Falls business district early today, destroying automobiles, farm goods, auto parts and a neon sign company.

No injuries were reported. Destroyed were the one-story Traynham Building which housed farm implements, auto parts and grain and seed products; a new car warehouse belonging to Mattingly & Grace Buick Co. and in which were nine new Buicks and a 1904 model Buick; the Mims Bearing Co.; and the Glo-Lite Neon and Manufacturing Co.

A complete estimate of the damage could not be obtained but it appeared several hundred thousand dollars would be correct. Fire Capt. Joe Counts said the blaze apparently started somewhere in the Traynham Building. He said "some sort of explosion" had blown windows out of the building by the time fireman arrived. A watchman had checked the building at 11:15 last night. The first alarm was turned in at 11:58 p.m. The last piece of fire fighting equipment left the scene at 7:30 a.m.

Dulles Pledges Aid To Chiang

By SPENCER MOOSA
TAIPEH, Formosa (AP)—Nationalist warships and planes pounded the Red China coast again today, even as U.S. Secretary of State John Foster Dulles pledged that Nationalist China "doesn't stand alone against the forces of aggression."

Dulles flew here from the Southeast Asia security conference in Manila and spent 3 hours and 15 minutes closeted with President Chiang Kai-shek. A high Nationalist official said "they exchanged views on questions affecting the two countries. The result was satisfactory to both." U.S. Ambassador Carl Rankin described the talk as very cordial and longer than expected.

Only five hours after Dulles' special plane landed here he and his party were airborne again, headed for Tokyo. In a statement read to newsmen at the airport, he reiterated that the U.S. 7th Fleet is under orders to guard Formosa.

He said Communist China now is intensifying military and propaganda activity against the Nationalists "but we shall not be intimidated." A Defense Ministry communique issued as Dulles and Chiang were talking said Nationalist warplanes bombed and strafed military targets at Amoy and along the coast. At the same time, the communique said, Nationalist warships bombarded Amoy and nearby Wuyu Island and patrolled waters off Quemoy and Amoy.

The ministry said yesterday's operations, in which U.S.-supplied F84 Thunderjets took part for the first time, destroyed two Red gunboats and over 100 wooden military boats and damaged other craft. Nationalist warships were credited with sinking 6 motorized junks, damaging 20 others and capturing 3 in waters between Wuyu Island and Cape Chenhai on the mainland, another target for Nationalist bombardment.

HCJC 'Swamped' With Enrollees

Howard County Junior College registration was off to a good start Thursday—possibly the best ever. Although no tabulation had been made at noon, President W. A. Hunt said that "we have been swamped all morning."

Besides a large number of Big Spring High School graduates, there were registrants from Coahoma, Forsan, Knott, Stanton, Lamesa and other area points, as well as some from extreme Southeast Texas and even out-of-state. Night school enrollment will get into swing this evening and Dr. Hun is anticipating a good response there. Registration continues until 10 p.m. Thursday and Friday and until noon Saturday.

Miss America Judging Opens

ATLANTIC CITY, N.J. (AP)—A California charmer with a knock-out figure and a Washington, D.C., lass who can sing held the lead today in the race to rite Miss America 1955 crown.

Security Council Session Is Called

DENVER (AP)—National Security Council members meeting with President Eisenhower in extraordinary session here Sunday reportedly will chart strategy for dealing with a broad range of Far Eastern problems created by Russia and Red China.

And an hour in advance of that special meeting, the summer White House announced today, the President will confer with Atty. Gen. Brownell and FBI Director J. Edgar Hoover on how to smash Communist infiltration at home.

The Brownell-Hoover conference with Eisenhower will center on how best to use the new Communist control weapons the 83rd Congress put on the law books. Plans for the National Security Council meeting—the first full-scale session of that top policy-making unit ever to be held outside of Washington—were announced yesterday by James C. Hagerty, presidential press secretary.

He said Eisenhower was summing the council, which he headed to hear a first-hand report from Secretary of State Dulles on the new Southeast Asia security pact, signed yesterday at Manila by the United States and seven other nations.

Mississippi Moves Nearer To Closing Public Schools

By The Associated Press
Mississippi stood a step closer to abolishing its public school system Thursday as advocates and opponents of school segregation continued to spar throughout the South.

The Mississippi House of Representatives voted 109-24 yesterday for a constitutional amendment which would allow the state to abolish public schools. And in Alabama a group of legislators and lawyers asked Gov. Gordon Persons to call a special session of the Legislature to remove the state constitution's provision requiring the state to support public schools.

The Mississippi Legislature is in a special session called by Gov. Hugh White to deal with the school segregation situation. The Senate is expected to follow the House in passing the "private school" enabling amendment, which would then be submitted to voters in a referendum.

A spokesman for the Alabama group said its plan would involve taking the word "public" from the school requirements in the state constitution, opening the way possibly for a private school system. He said the plan also might entail designating school officials as judicial officers in a move to make them immune from damage suits. In Texas yesterday a school superintendent refused requests from Negro parents to enroll their

Miriam Stevenson, '54 Miss Universe, Shuns Film Studio

HOLLYWOOD (AP)—Miriam Stevenson, Miss Universe of 1954, has shunned Hollywood to go back to school. The wholesome, country-reared Miriam, 21, announced yesterday she was terminating her six-month \$250-a-week contract at Universal-International Studios, the chief prize she won with her title last July 24.

The termination was by mutual consent, but Universal spokesmen insist it is all Miriam Stevenson's idea. Did she have any talent? Those who worked with her say: As much as any girl with a nontheatrical background can display in a few weeks of coaching. Didn't she like pictures? She says she did, and she says she enjoyed meeting a lot of interesting people—the kind she doesn't see around her home town of Winnsboro, S. C.

Miriam has had three years at Lander College for Girls at Greenwood, S. C. She's always been an A and B student. "But I don't know how good an actress I'd make," she said. "But," she added, "after I finish school maybe I'll take another crack at acting."

Prisoner Not Able To Trade Sentence For Trip To Russia

JESSUP, Md. (AP)—A young prisoner who wants to trade the iron bars of Maryland's House of Correction here for the Iron Curtain of Russia was advised today he would have to stay in jail. The desperate offer was made by Lawrence Banton, who has served half of a one-year sentence for attempted robbery.

He read a newspaper article on a proposed amendment being studied by the last Congress which provided, in effect, foreign aid funds to pay for one-way tickets to Russia for citizens of the United States who want to go to Russia and stay there permanently. However, by the time Banton's inquiry reached its destination, the amendment had been killed in a congressional conference.

THE WEATHER

BIG SPRING AND VICINITY: Partly cloudy this afternoon, tonight and Friday. Light scattered showers and evening thunderstorms. High today 90, low tonight 75, high tomorrow 82. Highest temperature this date 100 in Texas since this date in 1918; maximum rainfall this date 6.5 in 1906.

CLOUDY

Sterling West Durham Area Gets Completion; Mitchell Site Set

A small completion was reported in the West Durham area of Sterling County today, and field locations were spotted in Mitchell and Howard.

Pumping operations continued this morning at Woodson No. 1-A Creighton just east of Big Spring, recovery being some oil and water.

Pete Thomas No. 1 Lee Hunt is the Sterling project which finished for a 24-hour pumping potential of 20 barrels of oil and no water. Robertson No. 1 O'Daniel, in the Snyder field, is the new Howard location. In Mitchell County, J. L. Cooper of McCamey spotted his No. 3 Georgia Tech on the south edge of the Westbrook field.

Borden

J. D. Wrather Jr. No. 1 T. J. Good, C NW NE, 15-32-2n, T&P survey, is reported drilling at 7,373 feet in lime and shale. Projected drilling depth on this wildcat is set at 8,400 feet. Location is about 4 1/2 miles northeast of Vesalmer. Hanley No. 1 Higginbotham, 680 from north and 393 from east lines, 9-31-2n, T&P survey, reached 5,450 feet in lime.

Howard

Swains Robertson No. 1 O'Daniel has been spotted as a Snyder field try about 12 miles southeast of Coahoma. It will be drilled to 3,000 feet by rotary, starting at once. Location is 330 from north and east lines, 40-30-1s, T&P survey.

Woodson Producing Company No. 1-A C. W. Creighton, 330 from north and 1,215 from east lines, 8 1/2-acre lease, southside, 25-33-1n, T&P survey, is still pumping in day. Reports indicate that some recovery is oil and other water.

Woodson No. 1-B C. W. Creighton, 330 from south and west lines, northeast quarter, 29-39-1n, T&P survey, is making hole at 1,400 feet. This new location is about two miles west of Big Spring also, and is slated for depth of 3,200 feet.

Callihan No. 1-90 Creighton, 330 from north and west lines, southeast quarter, 30-32-1n, T&P survey, was being treated with sand oil today. This project proved 42 feet of pay on a core yesterday. Total depth is 3,031 feet.

Bowden-Hunter et al No. 1 C. W. Creighton, 330 from south and east lines, southwest quarter, 29-33-1n, T&P survey, reached 2,700 feet.

Warren No. 2 Ellis Iden, 1,320 from south and 330 from east lines, northeast quarter, 25-32-2n, T&P survey, is boring below 7,532 feet in lime and shale.

Texas Pacific Coal and Oil No. 1 Ruby L. Graham, C SE SE, 15-32-2n, T&P survey, hit 6,278 feet in lime and shale.

Dawson

Western Drilling Company has completed its No. 1 Willis a Welch field producer. The 24-hour pumping potential was 72 barrels of oil plus 19 per cent water. Gravity of oil is 31.4 degrees, and the gas-oil ratio is 120-1. Operator acidified with 14,000 gallons of acid. Elevation is 3,155.9, total depth is 4,960, the 5 1/2-inch is at 4,775, and the pay top is 4,830 feet. Location is 467 from south and east lines, 15-C38-FSL survey.

Glasscock

Hunt No. 1 A. R. Houston, 330 from south and west lines, 23-35-2s, T&P survey, is now having roads built and operator is preparing to move in.

Kimble

Skelly No. 1 M. T. Riech has been spotted as a 2,500-foot wildcat about 3 1/2 miles southeast of Roosevelt. Drillsite is 330 from

McCARTHY

(Continued From Page 1)

abused Brig. Gen. Ralph W. Zwicker.

At one point during a closed door hearing in New York last February, McCarthy told Zwicker, "Don't be coy with me, general."

Sen. Ervin (D-NC) told McCarthy he (Ervin) wouldn't be so bold as to say that either to a general or a top sergeant.

McCarthy replied that he felt justified in using the language, saying: "He had been trying to be coy and evasive."

Ervin asked whether McCarthy thought the language was calculated to "encourage the general" to cooperate with him.

"That was my system of cross-examination," McCarthy said.

McCarthy suggested Ervin might use different language, but "that was my system of trying to pull teeth."

McCarthy testified yesterday that congressional committees "certainly should not abuse" witnesses. He defended what he considered was a "vigorous cross-examination" of Brig. Gen. Ralph W. Zwicker. He had been accused of abusing Zwicker by Sens. Flinders (R-Vt), Fulbright (D-Ark) and Morse (Ind-Ore) all of whom have charged him with conduct unbecoming a senator.

McCarthy described Zwicker, a decorated war hero, as "one of the most arrogant, one of the most evasive witnesses that I have ever had before my committee — one of the most irritating."

Zwicker, in the hearing room, flushed but declined comment. He later was closeted with Chairman Watkins (R-Utah) and caucus committee attorneys. Watkins declined to say if Zwicker would be called to the stand.

Seven Charged In County Court

Misdemeanor criminal charges have been filed in County Court against seven persons since noon Wednesday, and pleas have been entered by four of the defendants.

Ray Hyer pleaded guilty to charges of aggravated assault. He was fined \$75 and costs of court.

James Hipp entered a plea of guilty to charges of unlawfully carrying arms. Judge R. H. Weaver assessed the minimum fine of \$100, to which costs of court were added.

Otis Homer Petty pleaded not guilty to charges of driving while intoxicated. His bond was set at \$500.

A. D. Smith entered a not guilty plea to charges of aggravated assault. His bond also was set at \$500.

Others charged were Jackie Heldreth, B. H. Smith and Mrs. Charles Eldridge, all in connection with complaints alleging fraud by worthless check.

Search For Swimmer Is Abandoned

DOVER, England (AP)—The air-sea search for Ted May, 44-year-old steel worker who vanished on his second attempt to swim the English Channel unescorted, was abandoned today.

As the day wore on, hope for the 230-pound father of nine children faded. The Dover lifeboat was called back to its base at 10 a.m. and orders were sent out to Royal Air Force planes and launches to return to their stations.

The swimmer entered the water at Cap Gris Nez at 4:45 a.m. Wednesday, towing an inner tube equipped with canvas top, brandy, sandwiches and signal lights. He had hoped to reach the English coast by 7:30 last night.

"After more than 20 hours in the water, it was presumed that May is lost," said an official. "A longer search in this worsening weather would be useless. The only hope is that he might have been picked up by some little fishing craft which has no radio outfit."

May's wife, Florence, and 19-year-old daughter, Patricia, took up watch early today on Dover's chalk cliffs.

\$229,000 Asked In Suit For Damages

W. L. Holt has filed suit for \$229,000 in damages against Pinkie Lignor, Shover and Mr. and Mrs. John McCown.

He alleges injuries suffered in an automobile accident north of Big Spring last March 9 were due to negligence on the part of Mrs. McCown. The McCowns earlier had filed suit against Holt as a result of the same mishap.

Holt's petition claims that the collision between his car and that of Mrs. McCown occurred after wind had blown open the hood of his car and he had stopped the vehicle in the left traffic lane. He asks \$180,000 for loss of earnings, \$54,000 for pain and suffering and \$4,000 for medical expenses.

The McCown suit, filed Aug. 18, alleges negligence on the part of Holt was responsible for the crash. Mrs. McCown claimed her car was stopped at the time of the collision judgment for \$10,000 for loss of earnings and \$1,517.35 for medical expenses.

Forgery Charges Filed Against Two

Forgery charges have been filed against two persons in Justice Court.

Jessie L. Clark is named in a complaint filed by F. C. Eppner. It is alleged he forged a check for \$34 or \$38, payable to Clark and bearing the name of J. E. Pickle.

Nelda Brown was charged with forgery and with passing a forged instrument in connection with a complaint made by Freda Grant. The charges involve a \$10 check payable to Mrs. Brown and bearing the name of Morris Stanefer. It was drawn on a Stanton bank.

Gay Hill School Has New Faculty

LUTHER—An entirely new faculty is on duty in the Gay Hill School this year.

Teachers are Mrs. L. B. Patterson, first and second grades; Mrs. Doyle Finn, third and fourth grades; L. B. Patterson, fifth and sixth grades; Mrs. Doyle Finn, Mrs. C. A. Boyd, music teacher.

Bus drivers are O. B. Crow, J. H. Milford and J. W. Kilpatrick. Janitor is Milford and Mrs. Milford and Mrs. Weldon McCormick operate the cafeteria.

Seventy-one pupils enrolled for first-day classes Wednesday. School is dismissed at 3:30 p.m. daily.

Enrollment In City Schools Climbs Toward 5,000 Mark

School enrollment crawled upward Thursday and by the end of the week nearly 5,000 will be on the rolls.

W. C. Blankenship, superintendent, said that the Big Spring elementary schools showed 3,028 enrolled Wednesday afternoon, a gain of 98 over the opening day. Junior high had 953, an increase of four, while the high school was up to 890, a gain of eight. Total white enrollment was 4,971. Lakeview showed 248 registered, which was up 13 over the opening day's total.

Total now in school is 4,919 as compared with 4,798 the first day. Junior High had five new ones Thursday morning, high school three. There were several additional enrollees in elementary schools but no exact report was available. Blankenship said he expected the next significant surge in enrollment would come on Monday.

So far a few transfers have been necessary between elementary schools. In most cases these involved youngsters who were not

1-AAA Eligibility Lists Approved

Eligibility lists of member schools were approved Wednesday at the meeting of the District 1-AAA executive committee in Snyder.

Question was raised on only one boy, a Vernon lad who had taken part in a rodeo scramble. The committee, however, cleared him for participation.

Elected chairman of the committee was C. W. Tarter, superintendent of the Lamesa schools. Weldon Mrcum, Levelland superintendent, was named vice chairman and put in line for the chairmanship a year hence. The secretary-treasurer post went to Abe Holder, Lamesa high school principal. Snyder school officials were host to the meeting.

Rev. Shumake Dies In Houston

The Rev. Amos Wilson Shumake, 73, pastor of the Baptist Church in Tarsan, died in a hospital at Houston on Wednesday.

Three weeks ago the Rev. Shumake entered John Sealy Hospital for surgery, but he failed to rally. The veteran minister was widely known throughout West Texas.

Remains are being brought here in an Eberley-River coach, and arrangements will be completed with arrival of Mrs. Shumake and the children. Meanwhile, remains will be in state at the Eberley-River Chapel.

The Rev. Shumake is survived by his wife; nine sons, R. E. Slaton; A. W. Shumake and Marvin Shumake, Oakland, Calif.; J. B. Shumake and J. D. Shumake, Odessa; Alfred Shumake and George Shumake, Tarsan; Elvert Shumake and Bill Shumake, Dallas; and two daughters, Mrs. Luther Cross and Mrs. Chester Studer, Dallas.

Stirling

Pete Thomas No. 1 Lee Hunt, 330 from north and west lines, 2-T&P survey, has been finished in the West Durham field. The 24-hour pumping potential was 20 barrels of oil and no water. Gravity of oil is 26 degrees. The pay section, open hole, was treated with 1,500 gallons of acm. Total depth is 1,436 feet, and the 4 1/2-inch casing is bottomed at 1,417.

Boykin Brothers No. 5 Bade, 1,323 from south and 1,728 from west lines, 22-22-H&T survey, has been temporarily abandoned at 1,700 feet. This is a parochial Bade field project.

San Angelo Man Is Injured In Accident

Johnny Lee Childress, San Angelo, suffered a hand injury about 2:30 a.m. today when his pickup truck left the highway, smashed through a fence and hit a ditch.

Deputy Sheriff Miller Harris said the driver apparently fell asleep. The mishap occurred about seven miles south of Big Spring on the San Angelo highway.

Childress was taken to Cowper Hospital for treatment.

MARKETS

NEW YORK (AP)—The stock market declined slightly in early trading today. There was selective strength in the oil and copper, but other groups were mixed. Trading was quiet.

COTTON NEW YORK (AP)—Wool cotton prices were unchanged to 80 cents a bale higher than the previous close. Oct 34.54, Dec 34.94 and March 35.32.

LIVESTOCK PORT WORTH (AP)—Cattle 3,000; calves 600; cattle steady, calves strong. Medium to good beef steers and yearlings 20.00-22.00; planer hinds 12.00-14.00; plane head cows 8.00-10.00, better grades 10.00-11.50; choice slaughter calves 15.00-16.00; medium choice slaughter steers 8.00-10.00; medium to good steer calves 14.00-16.00; butcher hogs 20-75; lower, 15-20; 100-150; choice 100-150; butchers 20-50; medium to choice 100-150; hogs 18.00-19.75; thin butcher pigs 16.00; sows 12.00-17.00.

Sheep 1.000; steady. Good and choice slaughter spring lambs 17.00-19.00; cull and utility springers 8.00-10.00; utility and good slaughter yearlings 11.00-12.00; good aged wethers 18.00; cull and utility slaughter ewes 3.00-5.00; small lone stocker and feeder lambs 11.00-14.00.

THE WEATHER

NORTH CENTRAL TEXAS: Partly cloudy through Friday with widely scattered thunderstorms. A little cooler in extreme northwest portion Thursday night.

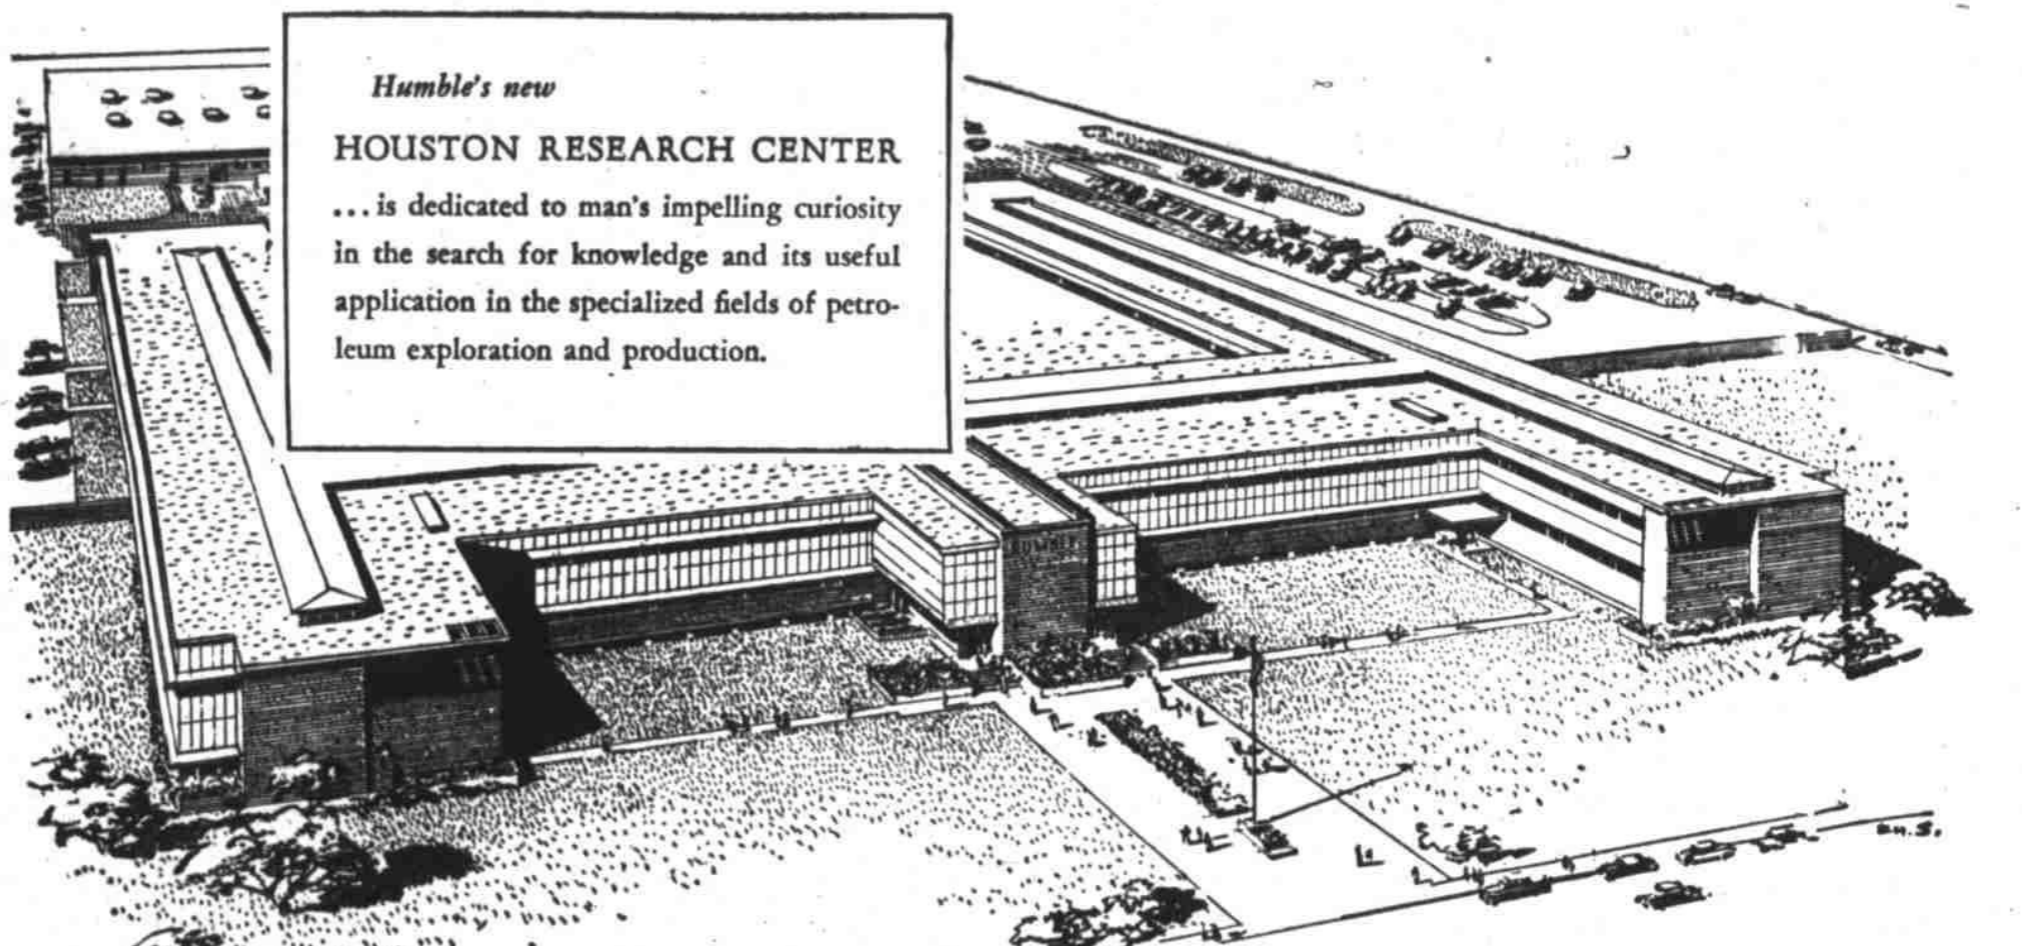

PORT TEXAS: Partly cloudy through Friday with widely scattered afternoon and evening thunderstorms. A little cooler in Panhandle and Upper South Plains Thursday night.

Thief Of Gasoline, Pistol Reported

Theft of a .32 caliber pistol was reported to police Wednesday evening by Francis Warren, 407 Douglas. Warren said the pistol was taken from the glove compartment of his automobile sometime Monday while the vehicle was parked in the 100 block of East Third.

H. L. Wilkinson, trucking contractor, reported to officers that someone has been taking gasoline from his trucks lately at night.

Humble's new HOUSTON RESEARCH CENTER ... is dedicated to man's impelling curiosity in the search for knowledge and its useful application in the specialized fields of petroleum exploration and production.

Dedicated to Man's Impelling Curiosity

Most of us interpret the value of research in terms of immediate benefits. Research means that we get a better automobile, an improved gasoline, or an outstanding motor oil.

At Baytown Refinery, the Humble Company maintains one of the finest laboratories in the petroleum industry for that kind of research.

But behind the study that goes into the improvement of the products it sells, Humble for years has fostered basic research related to the discovery and production of oil and natural gas.

The United States uses so much oil from day to day, and needs so much more to provide for the emergencies of national defense, that studies leading to the discovery of new supplies and the more efficient management of existing reservoirs are more important than ever before. Consequently, Humble's expenditures on this sort of research are the heaviest in the Company's history and its staff of research scientists is larger than it has ever been.

To house the expansion of these research sections, Humble recently completed its new Research Center at Houston and will formally dedicate it this week end.

Here the scientists of the various departments involved in the discovery and production of oil will utilize common facilities, and here they will have the stimulation of close association with other scientists whose efforts are dedicated to a common end.

- The new Houston Research Center will provide facilities for research in:
- Fluid Mechanics
 - Geophysics
 - Geology
 - Geochemistry
 - Drilling Muds
 - Well Log Interpretation
 - Subsurface Instruments
 - Reservoir Behavior
 - Well Stimulation
 - Well Cementing

HUMBLE OIL & REFINING COMPANY

Valley Begins Drive To Kill Mosquitoes

EDINBURG, Tex. (U) — A big campaign to kill every mosquito in the southern half of Hidalgo County, beset by an outbreak of encephalitis, began yesterday.

Five thousand pounds of insecticide dust arrived. Fifteen county, state and federal scientists were here to direct operations.

Dr. Charles H. Miller Jr., county health officer, said that mosquitoes "might be" the carrier of the virus causing the encephalitis, or sleeping sickness.

Texas Factory Pay Increases This Year

DALLAS (U) — The Bureau of Labor Statistics said Tuesday Texas factory workers are taking home \$72.86 a week average pay, up about \$2 from a year ago. That is \$1.94 more than the national average of \$70.92.

The Texas work week averaged 41.4 hours last year compared to 39.4 hours for the national norm. The Texas weekly pay a year ago was \$70.89.

The bureau said employment is rising in Texas particularly in the oil and gas industries.

Sen. Ives, Harriman Likely Foes In New York Governor Campaign

By WATSON SIMS
NEW YORK (U) — Republican Sen. Irving M. Ives and Averell Harriman, himself a former GOP voter, are likely rivals for governor of New York.

With the state conventions two weeks away and apparently many shots still to be fired on the Democratic side, Ives and Harriman were tabbed yesterday as the choices of their respective party leaders.

Ives had only his own desires to contend with. He was endorsed unanimously by the State Republican Executive Committee. Retiring Gov. Thomas E. Dewey urged him to accept.

With no major opponent in sight, Ives promised to make up his mind by today. Most observers predicted his answer would be yes.

Harriman may be in for a stiff convention fight from Rep. Franklin D. Roosevelt Jr., who has the support of state CIO leaders and many upstate segments of the Democratic party.

Several Roosevelt backers spoke

rebelliously last night after it was reported that Tammany Hall, traditional bellwether of the state party, had decided on Harriman.

Roosevelt claimed to have run away with most of the upstate party groups. Harriman said only that he was a candidate. And the leaders of the five counties that make up New York City remained silent.

These five counties, dominated

LETTER TO EDITOR

Says Change In Attitudes Hurt Morals

To the Editor:

I read some weeks ago the editorial in the Herald as to the unwed mothers and the juvenile delinquency. I decided 20 or more years ago that if the picture shows, and the press, kept on in the way they were going, we would arrive at the very place we now occupy. The public school has followed in the same trail but hasn't done as much harm as the other two institutions.

The great harm has been in the attitude and beliefs of the middle-aged people, the fathers and mothers of the present "teen-agers," has been changed (and, of course, changed that of the child). Sixty years ago no decent young woman would have exposed her limbs to the gaze of her own father. Parents don't seem to realize they are doing the least thing wrong in allowing it. After the "fall" when man's mind has become corrupted, God clothed people and He meant for them to stay clothed, at least through this division of time. He knew it was best for all of us—sinner and saint.

Some of us know that every nation that has gone down has done so half or two-thirds naked—drunk and nude. God will stand for things just so long and no longer.

The television, it seems, is trying to fill up the measure of evil remaining to be done. The promiscuous kissing is wrong, dead wrong, even dangerous, and should not be seen by children.

Yours for the truth,
MRS. CORA HOLMES

Feline Can Thank Pals

NEW YORK (U) — Minnie the Mocher, the best rat-catching cat on Pier 33, has at least a hundred longshoremen for friends. Otherwise, she wouldn't be alive to meow about it.

Minnie, a white cat with dark spots, was born on the Brooklyn pier six years ago. Her favorite hunting ground was an air space beneath and between the wooden planks of the pier. But some workmen who didn't know about this came to repair the pier last Thursday and reinforced it with a 15-inch coat of concrete.

Several days passed and no one knew what had happened to the waterfront pet. Then someone heard faint meows from a three-inch standpipe set in the sturdy concrete.

After that, the longshoremen took matters into their own hands. They borrowed a huge electric drill from a construction gang and bored a 10-inch hole right through the concrete Tuesday.

After being starved for eight days, now she had been half frightened to death. She was so upset from the noise of the drill that she wouldn't come near the door to freedom.

Finally, everybody went away, leaving milk near the hole. Minnie finally crawled out and started gobbling.

And the longshoremen cheered and went back to their jobs.

Government Seeks Bids On Gulf Leases

WASHINGTON (U) — The Interior Department will open bids Oct. 13 on oil and gas and sulphur leasing in the outer continental shelf off Louisiana. About 199 tracts of 748,000 acres are being offered.

These are the first federal offerings of leases of offshore lands in the continental shelf since Congress restored last year the title of the tidelands to the states.

More Federal Aid Due For Laredo

AUSTIN (U) — Applications for another \$35,808 in federal aid for Rio Grande flood disaster projects have received federal approval, the governor's division of defense and disaster relief was advised yesterday.

The approval brought total federal contributions to date in the disaster operation to \$61,729.

Prisoner Turns Out 'Cash' While In Cell

MEXICO CITY (U) — Luis Eduardo Shelly, serving seven years for counterfeiting, had another eight years added to his sentence today. Officials charged he kept in practice by running off bills on a portable press concealed in his cell.

Wardens at the national penitentiary said Shelly had been selling the homemade currency to prisoners as they completed their sentences.

UNCLE RAY'S CORNER

Picking cohune nuts in Costa Rica.

As nuts, but they differ from the common type of dry nuts.

The Torrid Zone provides a big variety of nuts besides cohune nuts and Brazil nuts. Other kinds include kola nuts, dika nuts, ben nuts, boomah nuts, sassafras nuts and physic nuts. Africa is the native home of kola nuts, but they have been grown with success in warm parts of the New World.

Several other kinds of Old World nuts also grow well in the New World.

Besides providing food which is rich in protein, the nuts of the world are used in many other ways. Soapnuts grown in the West Indies and are used in washing clothes. Africa's boomah nuts supply juice for tanning leather.

Cocorns grow in northern parts of South America. They are employed, at times, in making toys.

In addition to having plenty of protein, most nuts provide fat and starch. Hickory nuts have about 12 per cent starch, 15 per cent protein.

The average person is familiar with perhaps a dozen kinds of nuts. Not counting peanuts (which are related to garden peas) we have walnuts, butternuts, hickory nuts, almonds, pecans, hazelnuts and Brazil nuts. Coconuts are classed

Remarkable new milk development makes it easy for you to be sure your children get their daily requirement of

9 VITAMINS and MINERALS THEY NEED TO GROW STRONG

3 GLASSES DAILY OF GAIL BORDEN FORTIFIED MILK ASSURES YOUR DAILY NEEDS OF ALL KNOWN ESSENTIAL VITAMINS AND MINERALS EXCEPT VITAMIN C

Your children's growing bodies need vitamins and minerals every day just as surely as they need water. You know they get their daily requirement of water because you can see water. You can't see vitamins and minerals. That's why millions of children who are well fed . . . who are "good eaters" do not get

all the vitamins and minerals they need to grow strong and healthy. Modern cooking methods often cook or boil away the vitamins and minerals from your food. Now you can be sure that your children get the vitamins and minerals they need to grow strong and robust. One quart of Gail Borden Milk per day assures each child his or her daily needs of all known essential vitamins and minerals except Vitamin C. You can easily assure them their Vitamin C by serving some fruit juice every day. Gail Borden Milk is Borden's Premium Quality at its delicious best, then fortified with extra vitamins and minerals.

Jane Blissard Makes Entry For District Contest

When Jane Blissard won the 4-H Dress Contest in Howard County, she was awarded a \$25 certificate at a local store as a prize. With this she bought material for another dress which she will enter in a District contest to be held in Lubbock on Sept. 12.

Her entry for this contest is a tailored dress of silk wool, black with a pale blue random pebble. The collar and cuffs are of matching shade of blue velvet. With this costume, Miss Blissard plans to wear a black hat, shoes, bag and gloves.

Jane, who is a sophomore in Stanton High School, is the daughter of Mr. and Mrs. Doris Blissard of the Lomax Community. She has done most of the work under the supervision of Mrs. Sue Newman, former HD agent for Howard County. Winner in the contest in Lubbock will enter the contest to be held in October during the State Fair.

JANE BLISSARD

Coahoma Hosts To Number Of Guests

COAHOMA—Mrs. George Whitaker of Houston visited her father, W. M. Spears here. She also visited other friends and relatives.

Mr. and Mrs. Wayne DeVaney of Lubbock spent the weekend holidays here with her parents, Mr. and Mrs. A. D. Shive.

Mr. and Mrs. R. L. Miller of Pampa visited in the home of Mr. and Mrs. J. D. Miller.

Connie Morrison and Rodney Cramer, both stationed at Ft. Bliss, visited here with their parents, Mr. and Mrs. Raymond Morrison and Mr. and Mrs. Boone Cramer.

Mr. and Mrs. Carl Bates visited in Menard with his brother and wife, Mr. and Mrs. Vernon Bates. Mr. and Mrs. Smith Cochran and Phil were in Anson visiting his parents, the Rev. and Mrs. J. M. Cochran.

Mr. and Mrs. Jack Roberts, Mrs. Hiram Reid and Mrs. Nancy Reid will spend the next several weeks in Hot Springs, Ark.

Mr. and Mrs. J. E. Conaway, Neida and Bita of Haskell visited in the home of Mr. and Mrs. Sullivan and family.

BPO Does Selling Tickets To Review

Tickets are now on sale by the BPO does for the book review to be given Sept. 29 by Mrs. Clyde Angel. Proceeds will go to the Texas Elks' Home for Crippled Children.

The group held a regular meeting Wednesday evening at the Elks' Lodge at which time Mrs. Pat Lehman was elected into membership.

It was announced that the money made from the watermelon feast would go to the Emergency March of Dimes. The amount was \$12.35.

In October there will be two meetings of the group each month, on the second and third Wednesdays. Thirteen members attended.

Newcomers To Have Bridge For Couples

Plans for a Couples Night party were made at the meeting of the Newcomers Bridge Club Wednesday when they met at Smith's Restaurant. It will be a dessert bridge, beginning at 7:30 on the evening of Sept. 17 at the restaurant.

Hostesses for yesterday's meeting were Mrs. Charles D. Youree Jr. and Mrs. J. A. Welch. Winners in bridge games were Mrs. R. C. McKenzie, first prize, Mrs. Newton D. Hagins, second and Mrs. D. A. Brazel, traveling prize.

Anyone interested in joining the club may call Mrs. A. J. Conrad at 4-7773.

Talks About Clothes

Dolores Donlon, the girl who won a coveted role in "The Long Walt" and is now on her way to stardom, talks to Lydia Lane about clothes and make-up.

HOLLYWOOD BEAUTY

Simplicity Keynote In Dressing Beautifully

By LYDIA LANE
HOLLYWOOD—The other evening at a Hollywood party flash-bulbs were popping constantly around a glamorous blond. Everyone was asking: "Who is she?" Dolores Donlon was the girl who was raving all of the attention. Later in the evening Dolores told me she enjoyed this experience of being in the spotlight.

"When I first came to Hollywood people used to ask me what pictures I had been in and when I replied, 'I'm a model from New York and have not worked in pictures yet,' they always walked away. But tonight this same ques-

tion was put to me and I was able to tell them. 'I've just finished the film version of Mickey Spillane's "The Long Walt" and that did it; the bulbs began to pop.'

I asked if modeling helped her in improving her appearance.

"One thing modeling has emphasized is the importance of a good brassiere. For low cut gowns I like a half bra because of the support it gives."

"Have you ever taken exercise to develop your bust line?" I asked. "No, but I have friends who have been able to give up wearing falsies because of a good exercise routine. And why not? We know that muscles are developed through exercise."

Dolores was wearing a beautifully cut black dress which I admired. "I love clothes," she admitted. "I know what a difference it makes when you are well dressed both in the way you feel and the way people look at you. I learned a lot being around high fashion in New York. The emphasis is always on simplicity, and nothing is as smart as black. Men don't like it in evening clothes but they accept it for cocktails or dinner."

"I like to use a light make-up with black. A girl has to be clever in picking out the things which will do the most for her, whether it is a hair cut, make-up or a pair of shoes."

"Shoes," Dolores added, "are tremendously important. You should always buy the best. Cheap shoes not only don't fit but they do not last."

"It's economy to invest in the best shoes, belts and gloves. You can get away with a simple skirt and blouse, or a neat, well fitting little dress if," Dolores said with finality, "you have a good belt, shoes and fresh white gloves."

Luther Residents Attend Reunion

LUTHER—Mr. and Mrs. Virgil Little and Betty Lou, Mr. and Mrs. John Couch and daughters, Mrs. E. N. Phipps attended the Dietz family reunion at San Angelo recently.

Juanita Hamlin of Big Spring visited Mrs. John Couch the latter part of this week.

Billy Hanson is ill and in a Big Spring hospital.

Mr. and Mrs. John Couch and daughters visited Mr. and Mrs. G. J. Couch in Big Spring Monday.

Several from this community attended the wrestling in Big Spring Monday night. Among the group were Mr. and Mrs. Art Gary and daughters and Mr. and Mrs. A. G. Smith.

Edward Simpsons Barbecue Hosts

LUTHER—Mr. and Mrs. Edward Simpson gave a barbecue for the rig crew and friends recently.

John Couch was in Fort Worth to consult a bone specialist.

Howard Smith has been visiting his parents, Mr. and Mrs. N. M. Smith, until school opens at Texas Tech in Lubbock.

Mrs. Ruby Simpson and Nolan have returned from Trona, Calif., where they visited Mrs. Simpson's sister, Mrs. Elsie Harris.

Visitors of Mr. and Mrs. J. H. Milford and Mr. and Mrs. Hollis Puckett have been Mr. and Mrs. Billy Gill Sr. of Hereford; Mr. and Mrs. Walter Love of Anson; Mrs. Lou Lambert of Abilene; Mrs. Billy Gill Jr. and son of San Antonio; Mr. and Mrs. Stanley Cameron and children of Austin.

Speaker Scheduled At Bethel Church

LUTHER—The Rev. James Gammond of Big Spring preached at Bethel Baptist Church recently. Mrs. Gammond and two children were here with him.

Everyone is invited to attend the services at Bethel Sunday to hear the message to be given by Bill Cook of Big Spring.

Mr. and Mrs. Neil Spencer and Skipper spent several days at Comanche visiting his parents Mr. and Mrs. Tom Spencer. Mrs. Tom Spencer is ill and in a hospital.

Mr. and Mrs. J. T. McGee were recent visitors of Mr. and Mrs. John Couch.

Mrs. O. E. Hamlin, Mrs. Meda Owens and Norvin Hamlin were dinner guests of Mrs. Una Dunnigan in Big Spring recently.

Men Finding Their Place In The Home

ANN ARBOR, Mich. (U.S.)—The male president of a women's college says husbands are "doing more housework than ever before."

Two Elected For HD Craft School

At a meeting of the Elbow Home Demonstration Club, Wednesday, Mrs. Pershing Morton and Mrs. Bobbie Hooper were elected as delegates to the Craft School to be held for the Home Demonstration women on Sept. 22 in the HD office.

Mrs. Hooper was hostess for the meeting, which was held in the Elbow School cafeteria. Elizabeth Pace, HD agent, gave a demonstration of using canned meats, and she made meat-ot patties.

"The Most Interesting Thing I've Read Lately" was the answer to roll call by 10 members.

The next meeting will be held on Sept. 22 with Mrs. Neal Bryant as hostess.

Oklahoman Visiting Daughter In Forsan

FORSAN—Mr. and Mrs. H. L. Gibson, Kent and Dickie have as their guest, Mrs. Gibson's mother, Mrs. Annie Woodward of Chickasha, Okla.

Mr. and Mrs. Henry Greer and children have returned home from a visit in Tyler and Gladewater.

Music Study Club Resumes Meetings, Plans Year's Work

The first fall meeting of the Music Study Club was held Wednesday in the home of Mrs. Don Newsom.

Roberta Gay, program chairman, presented the yearbooks and the study course for the year—"Our Musical Workshop."

The club voted to continue being responsible for the music at church services held each Sunday morning at the VA Hospital. Plans were made for a Young Artists' Concert to be presented Dec. 26. The purpose of the concert is to feature local senior voice and piano majors.

Officers who will serve for the coming term are Mrs. Newsom, president; Mrs. Nell Frazier, first vice president; Mrs. H. M. Jarratt, second vice president; Mrs. Dan Conley, corresponding secretary; Mrs. Ruth Burnam, treasurer; Mrs. C. A. Boyd, reporter-historian and Mrs. Harold Talbott, parliamentarian.

Mrs. Shankle Feted At Bridal Shower

STANTON—A bridal shower for Mrs. Jerry Shankle, nee Virginia Wooley will be held Tuesday in the home of Mrs. D. E. Bloomer. Hostesses will be Mrs. Joy Morgan, Mrs. W. R. Butcher, Mrs. E. Polson, Mrs. Tull Ray Louder, Mrs. H. H. Padgett, Mrs. Irvin Myrick, Mrs. C. W. Straub, Mrs. George Cornelius, Mrs. Clint Barrett, Mrs. Bloomer, Mrs. M. D. Coggin and Mrs. Minnie Williams.

Anita and Gennie Beth Newman, who are moving to Big Spring, were honored with a picnic at the City Park by the Primary Department of the First Methodist Church.

Teachers of the department are Mrs. O. B. Bryan, Mrs. Grady Standerfer, and Mrs. Aaron Donelson.

Ice cream and cake were served to Mrs. Lawrence Adkins, Mrs. Ralph Newman, Kay Bryan, Anita Newman, Gennie Beth Newman, Elizabeth Pickett, Ann Yater, Nina Yater, Jo Ann Byus, Smitty Smith, Larry Davis and two visitors, Emma Kay Bauch and Marilyn Sale.

Smith Cochran's Are Hosts At Barbecue

COAHOMA—Mr. and Mrs. Smith Cochran entertained with a barbecue Friday evening. Those attending were Mr. and Mrs. A. M. Sullivan, Mr. and Mrs. Ray Hall, Mr. and Mrs. Lawson of Big Spring, Mrs. Gertrude Rush of Boise, Idaho, and Sgt. Johnson B. Hall of Camp Edwards, Calif.

Mr. and Mrs. J. D. Spears spent Monday fishing at Lake Thomas.

Mr. and Mrs. Leon Menser enjoyed a barbecue in their home Monday evening. Attending were Mr. and Mrs. Howard Reid, Mr. and Mrs. Quinon Reid, Quinette and Ronnie, Mr. and Mrs. A. C. Menser and Mr. and Mrs. Bill Mimms of Big Spring.

Mr. and Mrs. Mitchell Hoover of Pecos visited here in the home of her parents Mr. and Mrs. C. A. Coffman.

Spray Safely

After you spray plants with insecticide, wash all containers thoroughly in hot soapsuds. Then you can reuse the holders without fear of chemical reaction, and also protect children and pets from the injurious sprays.

For Spring Flowers, Plant Bulbs Soon

By ANNE LEFVER
In the spring, when your neighbors' yards are a riot of color with tulips, jonquils, daffodils and other spring flowering bulbs at their loveliest, do you suddenly remember that you had planned to have the same beauty in your yard?

If you did, this is the time to begin on that dream. For an early spring garden, start now to plant what bulbs you want to plant, in what location you will want them and then choose your bulbs.

First should come the choice of where they will be planted. The Bulb Growers of Midland stress the fact that for the earliest bulbs a sunny location is a must. The ideal location would be in full sun with a protection from the wind by shrubbery, a wall or the house.

Another must is good drainage, especially during the winter months. When the bulbs begin to grow and bloom, they need quite a bit of water, but they like "dry feet" in cold weather.

Snowdrops, which bloom early, will do well in rock gardens and peeping out from low shrubbery, as do crocuses. One way to plant crocus bulbs is to scatter them around the yard by handfulls and plant each tiny bulb just where it falls.

While tulips prefer full sun, some of the bulbs that will grow and thrive in partial shade are daffodils, hyacinths and iris. Now is the time to divide and reset iris rhizomes in case you have not done this. Or you can plant new

ones. If you are looking for a good plant to make a low border, order oxalis bulbs.

For best results, buy bulbs of good quality, and choose them early. That way, you will be sure of getting your first preference in colors and types.

Plastics Precaution

Be careful when using kitchen plastics. Not only will they melt when exposed to excess heat but certain plastics are inflammable.

Washable Crib

You can take your baby for a spin in a washable crib on wheels. It has a protective nylon net canopy, outside covering and inside lining of washable plastic.

Leeds Shoe Store Holding Formal Opening This Week

Having its formal opening today, Friday and Saturday is the new Leeds Shoe Store, 323 Main.

A feature of the opening is the presentation of hose to ladies for each purchase of \$3.99 or more ago by men making similar purchases. The new store, situated immediately south of the new Woolworth store, stocks the popular priced Leeds shoes, for both men and women, and hosiery, handbags and other accessories. Men's work shoes also are available. A special order service is maintained for hard-to-find shoe sizes, said S. A. Osman, district supervisor for the company which was started in Denver about 35 years ago by Herman and Nyal Roe. The new Big Spring store is the 40th in the Southwest District. The local establishment also is the

farthest southeast expansion of the concern which has headquarters in Beverly Hills, Calif.

Manager of the new store is Ben Amparan, who has been associated with Leeds for the past five years. Amparan started with the company and has also worked in Albuquerque. He is married and has twin sons, Robert and George, 2, and a daughter, Carmen, 6. Rudy Bustamante, also formerly of El Paso, is assistant manager. He has been with Leeds two years and has a daughter, Mary Alice, three weeks of age. Osman is assisting with the three-day opening program. Other company officials were expected from Beverly Hills.

Show Cause Order Is Entered In Race Case

BALTIMORE (AP)—Superior Court Judge John T. Tucker has given the Board of School Commissioners 15 days to show why they should not be required to put Baltimore schools back on a segregated basis. Schools opened Tuesday with Negroes and whites in the same classes for the first time in history. Judge Tucker's order was signed on a suit filed yesterday in which seven parents of six schoolchildren and two organizations seek to force the city to maintain separate schools.

Riding

THE GRUB LINE

With Franklin Reynolds

Parents with small children won't have to worry about what to do with those kids if they want to attend the Fiesta de Lamesa on Sept. 18.

All the privately owned playground equipment in Lamesa will be moved down to the Court House Yard that day by members of the Lamesa Fire Department and a group of Lamesa mothers, with lots of experience, will be on hand to take charge of the youngsters and entertain them and supervise their play.

According to the smoke signals being sent up from Lamesa there will be quite a delegation of big shot politicians on hand for the occasion. These will include dignitaries from both Mexico and Texas. Several members of Congress will be there.

At midnight, Sept. 15, after the burning of "Old Man Gloom," the Square will be roped off and no cars, except those working with the Fiesta, will be allowed inside the Square until after all the downtown events are over the night of Fiesta Day.

Concession stands will be set up all around The Square. The main one of these will be under the Band Stand in the Court House yard.

Willie Joe Largent, well known Hereford breeder from Merkel, will serve as judge of the annual National Polled Hereford Show and Sale, Nov. 1-3, at the State Fairgrounds in Columbus, Ohio, according to an announcement.

Largent has judged at many of the nation's foremost livestock shows, including previous National Polled Hereford Shows. Headquarters for the Polled event will be the Deshler-Hilton Hotel. Additional information may be gotten from the American Polled Hereford Association, 1110 Grand Avenue.

Many a farmer or rancher, without irrigation, has said to himself, and to others, that if he could be sure of getting enough rain to germinate the seed and bring the grass up that he would plant some grasses.

Sam Preston, who lives south of Midland, had that particular problem and so he figured out a way to do something about it. He drilled the seed in and then brought in enough water, with a portable sprinkler system to wet the ground sufficiently to get the

Nashville Mayor Frees Prisoners

NASHVILLE, Tenn. (AP)—Mayor Ben West emptied the city workhouse late yesterday by turning 30 prisoners loose and transferring six others to the county workhouse, on the heels of a court order to close the jail and workhouse. City Workhouse Supt. E. F. Benderman quoted West as saying he took the unprecedented action in an effort to comply with a Chancery Court ruling yesterday which enjoined the city from operating the jail and workhouse until the building is made habitable.

Among the 30 prisoners released was Andrew T. Stone, 21-year-old Negro, convicted recently on 32 counts of threatening to kidnap, rape and murder a young Nashville white woman.

City Judge Andrew J. Doyle immediately questioned the mayor's authority to free the prisoners.

"Unless the mayor orders the police chief to rearrest these prisoners immediately," Doyle said, "he will be responsible for any tragedy that can and might result from his precipitate action."

Special Chancellor E. J. Walsh, acting at the request of the Davidson County Board of Health, had granted a temporary injunction forbidding the city from keeping prisoners in the jail and workhouse "until and unless" corrective measures are instituted to improve sanitary conditions.

City Council voted a \$100,000 bond issue Tuesday to repair the jail. Benderman said repairs should be finished within six weeks.

Ava Gardner Has Tizzy; Rio Hotel Asks Her To Move

RIO DE JANEIRO, Brazil (AP)—Ava Gardner, an South American good will tour, recuperated from what her press agent called a "nervous crisis" today in the Copacabana Palace, her second hotel in three days in Rio de Janeiro.

The management of the swank Gloria Hotel asked the dark-haired Hollywood star to leave yesterday, charging she threw things and shouted in her room.

Miss Gardner's press secretary, David Hanna, denied the charges of boisterousness. His story: She suffered an attack of nerves after 700 unruly fans mobbed her when she arrived at the airport Tuesday. Gloria's management said the property damage was slight.

Farmer, 92, Credits Whisky, His Stomach

EAST LIVERPOOL, Ohio (AP)—Berry farmer John Green, who celebrated his 92nd birthday yesterday by going fishing in Beaver Creek, says he was such a fragile infant that his mother carried him around on a pillow. His subsequent good health and longevity, said he, is due to "a copper-lined stomach and good whisky."

job done. The water came from a storage tank elsewhere on his place.

From a planting made last spring he now has a dense grass cover, more than knee-high, on about 10 acres, and a good stand established on another 10 acres. Last April and May he planted a mixture of Lovegrasses, Sidecoats Grama and Bluestems on a bare area, and kept the germinated seeds growing with the portable sprinkler.

The Weeping Lovegrass made the most spectacular growth and has been producing seed heads for some weeks now. At this time the Sidecoats Grama has started heading out.

On the other 10 acres, where a good stand has been obtained, the mixture was composed of King Ranch Bluestem, Blue Grama, Buffalo Grass, Sand Lovegrass and Lehman's Lovegrass. Lewis Carroll, who farms the Preston land in the Valley View Community, did the planting and cared for the grass.

Now that farmers have started taking cotton to the gins there is something that is important to them that may become even more important in the future, and that they should bear in mind.

Cotton that is ginned in a county other than the county in which it is grown should be credited to the county in which it has been produced and not to the county in which it is ginned.

Cotton grown in Glasscock County, for example, but ginned in Martin or Howard County should be credited to Glasscock County and the farmer producing it should see that this is done.

The matter of future cotton acreage allotments and production and marketing controls appears to be in unsettled state. Next year, or even two, or three or four or five years hence, some forms of controls might be imposed that will take into account the amount of cotton produced by a certain county in 1954.

If cotton grown in Glasscock is ginned in Howard and credited to Howard County's production, the Glasscock County farmer could possibly find himself penalized in acreage to that degree some time in the future.

See to it that your cotton is credited to the county in which it is produced, not to the county in which it is ginned if it is ginned in another county.

It looks like Blue Panle, a known perennial, has almost taken the measure of Buffel Grass in this section.

However, some stockmen are quite enthusiastic about the potential in Buffel Grass.

One of the questions they have asked about this fastgrowing, luxuriant and palatable forage has been: Will it survive winters in this country and come again the next year from the crowns or seed that fall to the ground?

In 1952 we kicked a small pill

box full of this fluffy seed into the ground in a flower bed in front of the Herald Building with a boot toe. That year it produced a bountiful crop of grass that spread from the crowns and seed that fell to the ground. Without any cultivation the grass came back in full measure last year. This year

Big Spring (Texas) Herald, Thurs., Sept. 9, 1954

we have the third prolific stand all from that little pinch of seed. We can answer that question about winter weather by saying this little patch of Buffel Grass survived the last two winters without a loss, doing its comebacks from the crowns and from the seed that fell by the wayside.

A Bible Thought For Today—

But the multitude preferred him to Christ. Don't follow the crowd in frenzied hatred and brutality. "Now Barabas was a robber." — John 18:40.

When Strength Is Dissipated, Reds Invariably Strike Again

The war of nerves such as exemplified by Red China's threat to take Formosa in spite of the U. S. 7th Fleet, the shelling of Nationalist-held Quemoy Island with the death of two American Army officers in line of duty, the knocking down of a British airliner by Red Chinese warplanes with the loss of Anglo-American lives, and the shooting down of a U. S. Navy plane off Siberia by Soviet MIGs, may be expected to continue indefinitely and with increasing boldness.

In April, 1948, and was lifted in September, 1949, when Russia capitulated.

Once more we started our precipitate disarmament. The Truman administration, with the eager assistance of Congress and a great deal of popular sentiment for economy, cut our military appropriations to the bone.

Once more the Communists provided the spark that jarred us out of our lethargy and produced a feverish rearmament drive, by North Korea's attack on South Korea. That was finally dragged to a halt, and once the pressure eased we were off again on a program of economizing at the expense of our military strength, this time under leadership of the Eisenhower administration.

As soon as we started dissipating our military strength, the Communists struck again—this time in a successful all-out drive to take over Indochina.

Will we ever learn that the best insurance of peace is a strong military establishment, as George Washington said? Can we always depend on the Reds to drag us back from the chasm of disarmament by committing some outrage?

Their object is to keep the world stirred up, to terrify the weak, to whittle away at Western prestige. Always they are deliberate and calculated. Always they follow a design.

But history supports the theory that such tactics react on the perpetrators. They serve to keep the free world alert and on its toes, determined to create and maintain maximum military strength against aggression.

The Berlin blockade had been imposed

On the Soviets paid dearly for the Berlin blockade, in the long run. That incident shocked the free world into the consciousness of Russia's aggressive intent, and caused a halt in the West's wild rush to disarm.

Roll Call Has Its Duplications But It Is Ever Changing Thing

Gov. Byrnes of South Carolina has named Charles E. Daniel, a Greenville construction man, as U. S. senator vice Burnet R. Maybank, who died last week. This will make the second Daniel in the U. S. Senate, the other being Price Daniel, her junior senator.

Queen, two Browns and a Brownson, a Belcher, a Bender, two Bennetts, two Allens, two Brooks, two Coles, three Curtises, two Davises, two Dawsons, two Dorns, two Hagens, two Mackes, seven O'Somebods, four of the Rogers boys (oops, sorry! One of them's a girl), three Thompasons and one with a double name, Horace Seely-Brown Jr. of Connecticut.

There are two Johnsons, Lyndon of Texas and Big Ed of Colorado, in the Senate and one Johnston, Olin of South Carolina. There are two Smiths, Alexander of New Jersey, and Margaret Chase of Maine. The Daniels, the Johnsons and the Smiths are the only duplicates in the upper body.

But only one Sam Rayburn. Scotch-Irish-English names still predominate, but there are plenty of others including Spanish, French, German, Polish, Italian, Scandinavian, Dutch and Slavic.

In the House it's different. There is no Daniel or Daniels there, but two Johnsons, three Joneses, four Smiths, three Wilsons, five Millers, two Martins, nine Mcs or Macs, three Harrisones, two Hoffmans, a Kelley and a Kelly, two Kings but no

A lot of names in the House will be changed after Nov. 2, and several in the Senate. Now none of this changes the course of the world or solves or creates any crises, but it is interesting to kick around in a moment of relaxation.

These Days—George Sokolsky

Ideals Of Religion, Nationalism May Be Lacking In Youth Today

In two separate areas the subject is being widely discussed that our youth has grown soft. Sociologists are deeply concerned over the increase in juvenile delinquency which is indicative of a lowering of moral standards. Military authorities are studying the moral weakness of many of our soldiers in the Korean War.

which usually motivate men's actions. Human beings form most of their ideas around the core of religion or nationalism. Religion includes a moral concept of life, often referred to broadly as the natural law. Whether one believes in a religion which insists that God revealed the moral requisites of a good life to man, or in a religion which accepts morality as an evolution in civilization, it is these aspects of religion that set the ideas of a generation.

No one can have all the correct answers for what seems to be a trend. For instance, vandalism in the New York schools and parks is too widespread to be ignored. Obviously there is a lack of respect for authority and for property. To what is this lack of respect to be attributed? It is not accidental because it is becoming too usual. It must be in the training, in the education, in the home life of the children. Perhaps it is due to a total lack of ideals.

Morality is based upon respect and responsibility. If parents are not respected, the household is anarchistic; if teachers are not respected, the school suffers from vandalism; if the clergy are not respected, murder, rape and every indecency will increase. If property is not respected, waste and degeneration set in.

Hanson Baldwin, the military expert, once wrote a significant paragraph on this subject, referring to World War II: "Perhaps the deficiency in determination reflects the changing spirit of our nation — the substitution of easy living for a pioneer psychology; the weakening virus of 'work less and make more'; the substitution of collective security for individual initiative. Perhaps it reflects the failure of our way of life to dramatize itself in terms of values worth fighting for — our boys fought for 'blueberry pie' and the right to go home. The Japs fought for a Shinto Valhalla — death in battle meant life in heaven. The Germans died the death of martyrdom — a Wagnerian end-to-perpetuity 1,000 years of Hillerian rule. The Russians fought for the motherland and died with some of the Oriental fatalism so peculiar to the eyes of the West."

Nationalism is another phase of this problem. The man who does not respect his country's flag cannot respect its laws, its customs, its traditions. He may not be a coward, but he will not place the glory of his country above his small private interests. He laughs at those who shed a tear on Memorial Day; he manages to keep out of the military services just as he manages everything in life from a strictly personal standpoint. I would say that the moral effect of the recent FIA disclosures was devastating because it shows that come good times or bad, Old Deal or New Deal, there are always smart guys who know the angles, can hire lawyers to help them to get away with anything. And young people wonder what they can get away with.

And then he said: "...most of our boys fought because they were drafted and had to fight; they did no more than they had to do. They were not cowards in a collective sense; rather, they fought for no positive goal, but for a negative fear of the opinion of their fellow men."

It is for this reason that I have been advocating the opening of all public gatherings, concerts, baseball, football and basketball games, and all sorts of meetings with the playing of "The Star-Spangled Banner," in peace as well as war. It provides a moment to think of nation instead of self, to stand at attention for something bigger than self. It gives pause for a little humility, a quality of which we are quite deficient.

Positive goals are ideals, lofty spiritual factors which negate the selfish criteria

No nation has long sustained the worship of a man. Napoleon, Hitler, Stalin, Mussolini — they went their various ways into the history books. But the ideals of religion and nationalism have shown durability even in times of confusion.

Short Is Short

SARGENT, Minn. (AP)—Theodore Knutson, the village banker, got his rifle and shot down two sputtering utility wires to prevent a possible fire, after they had been shorted by a falling tree during a storm.

Transaction Incomplete

PITTSBURGH (AP)—A man carefully selected an assortment of groceries at George Parker's store. The bill came to more than \$10. Instead of handing over the money, the man asked Parker—at gunpoint—to open the cash register. Parker refused. The fellow put his revolver in his pocket, picked up the bag of groceries and fled from the store.

The World Today — James Marlow

Current McCarthy Hearings Different From Previous TV Circus In Procedure

WASHINGTON (AP) — Sen. McCarthy said "I felt that..." Sen. Watkins cut him short. "Let's not get into what you felt," said Watkins. In a sentence Watkins pointed out the difference between last spring's televised McCarthy-Army hearings and the present untelevised hearings by a Senate committee on demands that McCarthy be censured for his official conduct.

enormously dull as the committee attorney dropped evidence from past proceedings into the record. Yesterday for the first time McCarthy took the stand in his own defense. The television audience which watched him last spring would have been astonished at the difference: the low voice, the "yes, sir" and "no, sir," the subdued voice, the lack of protest at interruption.

The Wisconsin Republican is in an icebox. Washington has been sweating in a savage burst of summer. But the Caucus Room, where the present hearings are held, is cold. It's not the temperature. It's the attitude.

It isn't Watkins alone who insisted that McCarthy keep personal feelings out of the hearings. Other committee members rapped him too, if gently. At one point in his testimony yesterday, when McCarthy began drawing conclusions from what he had just said, Sen. Ervin (D-NC) broke in.

He told McCarthy: "Let us draw our own conclusions." Again when McCarthy drew conclusions, which has been a regular practice with him, Sen. Case (R-SD) cut in with: "Let's get the evidence and let the committee draw the conclusions." But the coldness of these hearings isn't directed at McCarthy alone. It pervades the Caucus Room and extends to the members of the committee, too, in their relations with one another. When Case tried to interrupt McCarthy's lawyer, Edward B. Williams, Watkins, icily polite to everyone, stopped him in mid-flight. "Mr. Case," he said, "will you wait a moment until Mr. Williams has finished?" Case said he would, and did.

Notebook — Hal Boyle

Courtship Led To TV For Quiz, News Star

BY RELMAN MORIN (FOR HAL BOYLE) NEW YORK (AP)—Screen-print of a fellow on your TV screen: John Charles ("What's My Line") Daly has two sons, both named John. He has a brother named John. They solve the problem around John's House by calling the younger John "Charlie." The boys are 16 and 13 respectively, and both taller than John, who is 6-foot-1. In addressing him, they say "sir," which is a refreshing thing to hear when you read about teen-agers in the papers these days. He reciprocates by treating them as adults on a man-to-man basis. There are also two ladies around the house... Helene, otherwise "Buncie," is nine. Margaret, nickname of "Kit," is the handsome ex-Washington girl who changed John's life. He was learning to be a wool merchant in Boston when he met her some 17 years ago. She was living in Washington and John tried courting by commuting, but couldn't afford it. So he gave up the rams and lambs and got a job

as a bus dispatcher in the capital. He went into radio there. As you may know, very few announcers are capable of talking into a "hot mike"—meaning, to talk without a script, simple describing an event as it unfolds. Daly is one who can. He got his training the hard way—covering such exciting events as the birth of a penguin, the annual marble-shooting tournaments, and an occasional fence-whitewashing contest. During the late unpleasantness in Europe, John was a pretty good war correspondent... rapped up a flossy beat on the fall of Messina, in Sicily, by talking the late Gen. Patton's personal pilot into flying him back to Algiers. ... You guys from the 3rd Division probably remember him. He hasn't changed much since then... Still sleeps late, has a weakness for inside straight and holds his hand too long, waiting for his gun... He has just turned 40 for summer and is still a chow hound... Steak and roast beef, mainly... So he never gains any weight, a slim 165 stripped... He's a good swimmer, and getting surprisingly accurate with age on the tennis court... Takes his TV successes calmly and in stride. On Sunday nights, he goes to the theater about an hour before "What's My Line" comes on... Says he never knows who the challengers will be... "I make it a point not to." He meets them a few minutes before camera time... Eases them over the usual nervousness... Also, "if I'm completely unfamiliar with what they do, I get some pointers about their business." Then they go on... The show he says is completely unrehearsed... All ad-libbing... That's where the old penguin-and-marble-shooting experience comes in. He has only one signal for the panel... Watch for it... when he pulls the lobe of his right ear, he is warning the panel that the conversation is getting what he calls "blue"—meaning, off-color... It occasionally happens by accident because the challenger, not knowing the business of the challenger, innocently asks questions that could be misinterpreted. For example, the time the challenger was a man who makes Pullman cars... lots of room for double-entendre there, so John yanked his ear. "What's My Line" is only one of his jobs. He is also a vice president in charge of news for ABC.

GRIN AND BEAR IT

"Are we applauding the 'Star-Spangled Banner'... or are we knowing all the words?"

Around The Rim — The Herald Staff

Dust Admittedly Disagreeable, But It Won't Hurt Your Health

The opinions contained in this and other articles in this column are solely those of the writers who sign them. They are not to be interpreted as necessarily reflecting the opinions of The Herald—Editor's Note.

It's disagreeable, all right, but dust is no threat to a person's health.

That is the conclusion of Dr. Jean S. Felton of the University of Oklahoma medical school. He is a professor of industrial medicine and knows all about allergies and human ills caused by smoke, chemicals, etc.

Dr. Felton may have been referring to Oklahoma and Kansas dust, but some of that blows down here and apparently is no different from the Howard County and South Plains variety. So why worry, except on cleaning days when you have trouble seeing.

"Nuisance dust" is what the doctor calls the stuff that flies around when the wind gets up.

"If the dust is strictly pure—being blown up from exposed earth—it will do no harm other than the nuisance effect and slight irritation to breathing," he said. Dust does not become a health threat until chemicals are mixed with it, and a com-

munity would soon find out about it if a duster were loaded with chemicals.

The physician also dumped cold water on the widely accepted theory that the more dust there is the worse a person's hay fever becomes.

Actually, he said, folks who have allergies to dust won't suffer any more during a no-visibility dust storm than they would in a room full of dusty furniture.

"The degree of irritation won't be stepped up, just because the stuff is blowing around," he assured.

Dr. Felton also said there's no need to worry about catching "dust pneumonia," widely believed to be caused by breathing dust. There is no such disease, he said. People collect dust in their lungs, but it doesn't do them any harm.

As the doctor estimates, there are worse things than dust storms. As someone asked here before, who ever heard of mosquitoes breeding and fenders rusting off in a sand storm?

—WAYLAND YATES

Michigan Credits National Guard Patrol With Cutting Holiday Toll

By JAMES A. O. CROWE LANSING, Mich. (AP)—Michigan spent about \$30,000 to call out the National Guard to help in Labor Day traffic patrols and thereby saved 10 to 15 lives, Gov. C. Messersmith said today.

For the first time in the state's history, the governor declared a state of traffic emergency over the holiday weekend, and 668 guardsmen were ordered to duty.

The use of guardsmen for this purpose followed the example of Tennessee, where the device has been in use over holidays for some years. Wisconsin also experimented with the device this year.

The Michigan guardsmen's services permitted the full complement of state police and sheriff's deputies to hold the death toll to 21 over the holiday. This compared to 35 over the Fourth of July weekend this year and 31 over Labor Day 1953.

Williams said the experiment was a success. This was demonstrated, he said, by the fact that only five persons died on state trunklines, where the augmented patrols were concentrated. Over Labor Day

1953, 21 died on the trunklines. The governor said traffic was apparently as heavy over the weekend as a year ago, but that "the facility of travel was better because of the point control by National Guardsmen directing the flow of traffic at congested points."

The assignment of one guardsman and one policeman or deputy in a patrol car permitted a quadrupling of the number of cars combing the highways. State Police Commissioner Joseph M. Childs said.

There were nearly 500 cars in action over the weekend. They were supplemented by point control posts, manned by guardsmen, at congested intersections. In addition, nine aircraft, including two helicopters, provided air cover for the operation. In radio communication with the ground forces, they watched for developing congestions and trouble spots and even reported violations.

Childs reported a record 5,209 violations tickets were issued over the weekend, compared to 2,832 last Labor Day weekend.

Inez Robb's Column

Wouldn't Be Too Bad If Schools Added The Fourth R—For Rod

Does anyone else remember 'way back to the Age of Innocence when the height of teen-age, schooltime devilry was being a calf into the school cupola on April 17?

And when the very limit of malicious mischief was the use of limburger cheese as a lacquer on the hot-water pipes and radiators of the little red schoolhouse?

This latter bit of derring-do usually got us out of the classroom for from 24 to 48 hours while the heating system was pumped and the schoolhouse aired. But we were pikers as juvenile delinquents. Today's teen-age critics of the education system to which they are subjected are not content unless they destroy the textbooks, chop up the furniture and apply a match to the building.

One more-subtle group of malcontents in New York City succeeded in putting a school out of commission merely by entering it one weekend last spring and turning on all the water faucets.

Well, sir, the school bell is echoing all over the nation as of now. The annual reign of classroom terror is about to begin, and God help the teacher who dares raise a hand to discipline any of his scholars, even those who come equipped with zip guns, switch-blade knives and brass knuckles.

Nine hundred and ninety-nine times out of a thousand, momma and poppa won't stand for it. In my classroom days, the application of a little willow switch by a teacher in the interest of discipline did not bring instant charges that he was a spiritual descendant of Genghis Khan, Nero and Thomas de Truquemada.

If the principal whacked some mis-

creant with a ruler, the municipal skies did not fall in and the principal was not forced to stand trial in court or before the school board on charges of conduct unbecoming Ivan, the Terrible.

I attended school in a day when a kid who got into trouble in class was certain to get into trouble as much at home when his parents learned the awful truth that he had been caught pelting the music teacher with spit balls.

If my cousins and I were punished in school, we got a double dip of same at home on the sound theory that the teacher hadn't exorcised the youthful devil lurking in our unregenerate hides.

And the adults in my family fit into the neighborhood pattern. No one ran for the police and then the family lawyer if Little Willie came home with a whacked palm or a smacked rear. The loving eyes of our elders were not deceived. We were regarded as uncivilized cubs whom the schools and teachers were trying to lick into shape, one way or another.

One generation later and we are a nation reeling under the impact of juvenile delinquents to whom torture and murder is a pastime.

In a way, the schools are themselves to blame for lack of discipline in the young. Their emphasis on progressive education for a quarter of a century taught little except to spare the rod.

The home quickly reflected this philosophy. Now, when it is imperative that schools enforce discipline, they find no general support from parents who enforce no discipline in the home. The vicious circle has completed its course.

The schools this autumn need to launch a whale of an adult-education project, all right: one that will teach parents and public the efficacy of the four Rs — readin', ritin', rithmetic and rod.

Don't Fix That Horn!

SPRINGFIELD, Mass. (AP)—Many professional musicians play horns and woodwinds that are about to fall apart and they don't want them touched, says Harvey Larose. He's a repair man for all types of orchestra instruments except violins, and has discovered he is wiser not to make any repairs the professionals do not specify.

His is an interesting and complicated job because some woodwinds have as many as 400 parts, including tiny screws, he says. Also a good repair man cannot do an adequate job unless he can play the instrument, he reports.

Detectors Save Saws

FT. JACKSON, S. C. (AP)—Mine detectors, the kind they use in wars, will be used to save timber saws from damage. Workers will take the gadgets into 12,000 acres of timberland at this Army post to detect shrapnel embedded in some of the trees in ranging areas. Dr. Leo Labyak, the Ft. Jackson forestry chief, estimates thousands of dollars in saw damage will be avoided.

Biggest Airplane Pilot

OAKLAND, Calif. (AP)—Joe Solum, an employee of the Tribune education department, thinks he is the biggest airplane pilot in the country. Six feet tall, he weighs 383 pounds.

POTOMAC FEVER

By FLETCHER KNEBEL WASHINGTON, D. C.—Gov. Byrnes of South Carolina appoints an Eisenhower Democrat to the Senate. The average Eisenhower Democrat is a consistent fellow. He wanted a change in 1952... and he asks now is another one.

C. I. O. Secretary Jim Carey calls the Eisenhower team the "Cadillac and Country Club Set." Carey speaks for the have-nots... those who apparently have no very real issues this year.

Tit for tat: two Russian MIGs shoot down a U. S. Navy plane. America shoots off two notes at Russia.

Times are better? A prominent Washingtonian reports that, in a burst of faith for the Republican administration, he bought a new wood-trimmed station wagon and already he has termite in it.

Independent Senator Morse calls for the election of a Democratic Congress. Morse is tired of the Republicans. He wants somebody new in charge to heckle.

Like rejects Senator Knowland's demand that we break diplomatic relations with Russia. A compromise might be to keep the Russian relations... and then kidnap her diplomats.

Andrews Lettermen

Out to stop the Big Spring Steers Friday night in the season's opener for both football teams will be these 18 Andrews lettermen and their teammates. Left to right, front row, are Jack DeShazo, Gerald Pilgrim, Charles Brewer, Choc Carruth, Leslie Hudgens. In the back row, left to right, are Randy Pendleton, Carl Holloman, James Durbin, Jimmy Darland, J. R. Janese. Letterman Luther Hale was not present.

COLEMAN WANTS MORE 'FIGHT'

Night Work For Steers On Eve Of Opener At Andrews

Easing up for a short breather on the eve of their opening game, the Big Spring Steers will work out under the lights this evening. Cutting out contact work for Thursday, Coach Carl Coleman said that the squad would be given a break workout, nevertheless, in preparation for the tilt in Andrews Friday at 8:15 p.m. The rehearsal here is set to start at 7 p.m. While his charges are showing satisfactory progress for this stage of the game, Coleman and Wayne Bonner, assistant, indicated a chief source of worry was a lack of fire. There were signs in Wednesday's workout, however, that the enthusiasm and team spirit which carried the squad to a triple-A final spot last year were beginning to return. Lefty Don Reynolds continued to set the pace in this department. Coleman and Bonner agreed that the left-hander was setting a splendid example not only in hustle but in steady improvement. Continuing at his present tempo, Reynolds will be one of the standouts of the district. His defensive work is vastly improved; his pass-catching is looking up and his downfield blocking is the nearest thing yet

seen to that punishing brand displayed by the departed J. C. Armistead last year. Dickie Milam has been blossoming in workouts this week and his defensive work has looked especially sharp. Coleman and Bonner were pleased by the transformation of Calvin Daniels into guard. Shifted to that spot only a few days ago, he is beginning to get the feel of the place and could be pure poison before the season gets far along. Coleman said his starting lineup against the Andrews Mustangs likely would see Lefty Don Reynolds and Joe Liberty, who has been snagging passes with brilliance, at ends; John Davenport and Bob Jones anchoring at tackles to fill the shoes of J. W. Thompson and Louis Stipp; Dickie Milam and Calvin Daniels at guards; Jerry Graves, towering, rough and ready lad at center; Tommy McAdams at quarterback; Brick Johnson and Frosty Robison at halves; and Ronnie Wooten at full. Wooten is lighter than most men-tors would like for the fullback spot, but he has speed and fire. Coleman said that Wooten may not hit the line as frequently as did Armistead last year, and in-

stead would be floated for pitch-outs. With Johnson and Robison in their senior year, Coleman was not willing to risk a shift from positions they have played through their careers. One thing seems to be shaping definitely—the best passing attack that Big Spring has had in several years. Key to this is young McAdams. Wednesday he was hitting receivers with almost unerring accuracy. Coaches say all he will need is for blockers to give him ample protection. The Steers still retain the masters' touch in executing the famed belly play. Wednesday they worked through a series of this bit of deception and McAdams and his understudy Charley Johnson, were handling the ball with much finesse. For the first time this season, the Steers worked their Sally pass, a double reverse which sends Frosty Robison back to heave the ball deep downfield. Although it was reminiscent of the famous reverse which somehow managed to bog most of the time last year, the pass version was clicking sharply. It scored a touchdown against Gainesville last season and could produce others this season.

Wynn Joins 20-Game Winners Club

By BEN PHEGAR AP Sports Writer

The 20-Game Club, that exclusive circle of pitchers, probably will wind up with six members this season. Four have made the grade so far, with Early Wynn of the fast-moving Cleveland Indians the newest recruit. Wynn passed his entrance exams with flying colors last night, throwing an eight-hit 5-2 victory over the Philadelphia Athletics. And a long-time associate of the elite, Warren Spahn of Milwaukee,

moved next in line by winning No. 19 for the rip-roaring Braves, 5-2, over Pittsburgh. On hand to greet Wynn, who has won 20 or more twice before, were teammate Bob Lemon, a six-time member; Robin Roberts of the Philadelphia Phillies, who has been in good standing for five consecutive seasons; and newcomer Johnny Antonelli of the New York Giants. With Spahn, a member five times previously, almost certain to join soon, the only other five prospects appear to be Virgil Trucks (18-8) of the Chicago White Sox, who won 20 last season, and rookie Bob Grim (17-6) of the New York Yankees. Wynn's victory last night kept Cleveland 4½ games ahead of the Yankees, who beat Baltimore, 8-2, in Tommy Byrne's return to the majors. Milwaukee moved within four games of the rain-idled Giants while Brooklyn slipped six games back by losing to St. Louis, 6-5.

Knott To Start Grid Play Friday

KNOTT, (SC)—Richard Parker and Roosevelt Shaw have been selected co-captains of the Knott Hill Billies. Parker was a co-captain on the team last year. Edwin Ditto has been named team manager, Coach Bill Bolin announced. The Hill Billies, all in good physical condition, open their 1954 grid season Friday night with a game against New Home. The contest will be played in New Home, northwest of Tahoka, starting at 8 p.m. First home game of the season will be Friday night, Sept. 17, against Divide, of Nolan County. That game is set for 7:30 p.m. Knott squadmen are E. B. Paige, Richard Parker, Franklin Shaw, Delano Shaw, Roosevelt Shaw, John Shanks, C. J. Shockley, Don Roman, Woody Long, Bruce Parker, Delbert Conway, Thomas Day, Jimmy Peacock, Warren Wilburn, Mike Shockley, Fred Graham.

700 TICKETS TO GAME SOLD

About 700 tickets to the Andrews game had been sold by this morning, Don Crockett of the School Tax Office reported. The tickets go off sale Friday afternoon at 1:45. They are reserved seat tickets and sell for \$1.25 apiece. Student tickets, which cost 50 cents, are on sale at the junior and senior high schools. They will go off sale at the same time.

Class AA Schoolboy Race Getting Into Full Swing

A bristling 128 games involving 165 teams will bring the Class AA division of Texas schoolboy football into virtual full action this week. A smattering of games last week got this class off to the season start but none of them was of particular importance. There are some real headlines this week. Huntville, the defending champion with another strong team, opens the campaign against Liberty. Colorado City, another top-rated team, plays the 1953 Class A champion, Ranger, which has been advanced to Class AA this year. Phillips opens with Brownfield, Seymour plays Holliday, Comanche

tangles with McGregor, Terrell meets Ennis, Mexia plays Marlin and Westaco, the rated power of the Rio Grande Valley, rolls against a Class AAA team that's picked as tops in its district—McAllen. There are 180 teams in Class AA

Illness Keeps Babe Out Of Tournament

ST. LOUIS (AP)—Illness will keep Mrs. Babe Zaharias from taking part in the St. Louis Women's Open golf tournament this weekend, tournament officials reported yesterday. Nature of the illness was not reported.

Klondike Cougars Invade Sterling City Friday Night

KLONDIKE—Riddled by loss of 11 lettermen, the bi-district championship Klondike Cougars bite off a big chunk in their opener Friday. A. Hucklebee takes his eager but inexperienced boys to Sterling City. They will rate as the underdogs, for some observers are picking the Cougars for the cellar. However, they could prove surprising as the season rolls along. Hucklebee is hard put to find replacements for such stalwarts as L. Singleton, defensive end; Bob Mitchell offensive end; D. Wilson, linebacker, Doyle Archer, classy halfback, and Charles Tibbit and Stubby Dossey, all - district center and back. Last year Klondike sailed through to a district 6-B championship, then clipped Fort Davis, 49-19, for the bi-district crown. The rebuilding job is shaping around seven lettermen, four of them seniors. N. Milstead, center, and D. Alrbart, have two years experience. Seniors out for the squad are R. Voglar, 150-pound end; Milstead, 140; Alrbart, 145; B. Ellison 147-

and D. Snell 160-pound center. Snell is the only senior who is not a letterman. Juniors include J. Slatton, 135 pounds, end, letterman; J. Kimbrell, 155, back, letterman; R. Scott, 125, back. Sophomores on the squad are Rod Matthews, 135, back, letterman; C. Freeman, 130, back; J. Beam, 155, end; L. Edwards 130, back. Freshmen out for the team are B. Davis, 150, center; A. Keller, 135, back; D. Schindler, 120, back; J. Freeman 120 back. The Cougar schedule follows: Sept. 10 Sterling City at Sterling City Sept. 17 Open Sept. 24 Forsan at Forsan *Oct. 1 Ackerly at Klondike Oct. 8 Open *Oct. 15 Knott at Klondike *Oct. 22 Flower Grove at Flower Grove. *Oct. 29 Loop at Loop *Nov. 5 Dawson at Klondike *Nov. 12 Gall at Gall *Nov. 19 Courtney at Courtney *Conference game.

HEAVY FAVORITES

Texas Stacked With Veteran Standouts

(This is another in a series discussing Southwest Conference football prospects.) AUSTIN (AP)—With a few exceptions, it seems the same old story at the University of Texas. For one thing, the Longhorns are favorites again. That is not Coach Ed Price's choosing, although he admits he will field one of the leading contenders in the Southwest Conference race. But the story has a familiar ring for other reasons. Seven of those players likely to appear in the starting lineup against Louisiana State nine days hence were regulars on last year's co-championship team. And 15 other candidates lettered on the team that made a strong finish after losing three of its first six games. Before they swing into defense of their third visit to the throne-room within four years, they play a nonconference schedule that includes the nation's most consistent winners for the past decade—Notre Dame and Oklahoma. Sandwiched between is Washington State, while LSU, the first foe, is a notorious early-season nemesis. Although graduation took few from the ranks, it took a lot of quality. Current replacement problems involve the two end positions, right guard and fullback. It appears two juniors, one soph and a senior will have responsibility of taking over chores performed last year by seniors Carlton Massey, Gilmer Spring, Phil Branch and Dougal Cameron. Massey was All-America, while Spring and Branch were all-Southwest Conference, and Cameron was the team's leading ball carrier. Leaders at those vacated positions now are ends Mian Schriever and Don Jones, junior lettermen; Guard Ben Woodson, a sophomore, and Billy Quinn, a converted right halfback who was all-Southwest Conference as a soph. Except at fullback, where letterman Bill Long is impressing, soph-

omores appear to be the next best replacements at four spots. Ends Morton Moriarty of Dallas and Mike Trant of Tyler are showing up well as is guard Vernon Person of Gonzales. If his arm injury, which cost him more than half of last season, mends properly, Howard Moon, a 2-year letterman, may be at one of the ends.

Gun Enthusiasts Asked To Meeting Of Sportsmen Club

All gun enthusiasts are being asked to the meeting of the Western Sportsmen Club here Monday. Fred Beckham, president, said that one of the things up for consideration would be the possibility of fostering a junior rifle club. Several have expressed an interest in teaching youths the proper and safe handling of firearms. The club's range, in the pit area of the Buffalo Trail Road Up area southeast of the City Park, is all laid out, and final plans will be developed Monday for completing the facilities. Several events have been planned, including a turkey shoot and a session for sighting in deer rifles. The deer rifle practice round may be held early in October. Beckham invited all persons interested in handling rifles and shotguns to participate in the meeting regardless of whether they are club members. The session will be held at 7 p.m. in Room 202 at Howard County Junior College.

CHARLES CARAWAY

Caraway Joins Coaching Staff

Charles Caraway, of Tulsa, has joined the coaching staff for the Big Spring Junior High School. An E-varsity letterman in basketball with the McMurry College Indians, Caraway will coach eighth grade footballers an eighth grade basketballers here. He said he expects to average six feet, two inches in height this winter. Caraway stands only 5-5, but his speed and determination won him the Indianhead, letterman's award, at McMurry. He also was manager of the football team at the Ahilene school, and was member of Future Teachers of America. He will teach general science at the junior high here. His eighth grade football team is to play six games this season, against Colorado City, Odessa, Snyder, and Sweetwater. Caraway works under Head Coach Carl Coleman, Johnny Johnson, high school basketball coach; and Roy Baird, also a former McMurry athlete who coaches B teams for Big Spring High School.

Ackerly Eagles To Play Forsan

ACKERLY—The Ackerly Eagles open their 1954 football season Friday night with a non-conference game with the Forsan Buffaloes. The game will be played in Forsan.

HERE COMES THE BIG SPRING INSURANCE AGENCY

WILL YOU GET THE JOB...if they look up your Credit Record

EMPLOYERS nowadays often check with the local Credit Bureau before they hire a person for a responsible, high-salaried position. They know that the man with a reputation for paying his bills promptly is a better prospect.

The man with an unsatisfactory credit record usually has two strikes against him when he applies for a job that involves financial or management responsibilities. Employers and their personnel managers are not usually willing to entrust important business affairs to those who cannot efficiently manage their personal affairs.

There is only one way to maintain a good credit record and that is to buy only what you can pay for—and pay for it when it is due.

Buy Wisely . . . Pay Promptly

Tomorrow Is The 10th of the Month

North-South Tilts Feature State Football Card Friday

By HAROLD V. RATLIFF Associated Press Sports Editor A thunderous 282 games send Texas schoolboy football teams into action from Panhandle to Gulf in the first big week of the budding campaign.

The four divisions that play to state championships will be filled with important battles but the headlines will be at Port Arthur where the Yellow Jackets, rated by some as likely state finalists, meet Odessa's Bronco, who did go to the Class AAAA finals last season.

This Friday night game will give an indication of the strength of North vs South and will be watched with great interest by two other teams of high rating—Abilene, favored in Odessa's district, and Baytown, the big one Port Arthur must overturn to win its district crown.

Other important games send Highland Park of Dallas, a veteran outfit, to Abilene, and Galena Park against well-ranked Miller of Corpus Christi in the AAAA class. An inter-class battle vies with the other games for interest as Corsicana of AAA tries Waco, a

ranking power of Class AAAA, at Waco Friday night. Port Neches, champion of Class AAA, doesn't open the season this week but Big Spring, the team Port

Richards Offered A Salary Increase

CHICAGO (AP)—Chuck Comiskey, Chicago White Sox vice president, says contract negotiations with Paul Richards have ended and the manager has been tendered a new pact "at a slight increase" in salary and "for more than a year." Richards' current two-year contract, reportedly at from \$30,000 to \$40,000 annually and a bonus based on attendance, expires at the end of the year. He receives "a nickel a head" on every paying customer in excess of one million. The Sox already have passed the million mark and on the basis of a 250,000 excess Richards' 1954 bonus would be \$12,500. Comiskey said the next move is up to Richards, adding that he had asked for a decision in a "reasonable" length of time.

Neches beat for the title, does. The West Texans go into Class AA to swipe at Andrews. Lamar of Houston, the Class AAAA king, also waits a week before opening the campaign. Lamar then will play mighty Baytown.

Pampa Cinches Top Spot In WT-NM

By The Associated Press The Pampa Oilers clinched top spot in the West Texas - New Mexico League last night with a 6-5 decision over the Amarillo Gold Sox. It was the last game of the regular season for the Oilers. They ended the schedule with 81 wins and 54 losses. The Clovis Pioneers, who headed the league most of the season, can't catch Pampa. The Pioneers have 77 victories and 53 losses and two more games to play. In the other games, last year's champs, the Albuquerque Dukes, fell under an Abilene onslaught, 5-2, and Clovis Tumbled Plainview, 5-1.

J. L. Baugh Is Named To FHA Panel In County

J. L. Baugh of Coahoma has been appointed a member of the Howard County Farmers Home Administration committee. It has been announced by Carlton Chapman, manager of the Big Spring FHA office.

Baugh is a livestock farmer. His place is north of Coahoms. The other two members of the three-man committee are Charlie Nichols and W. J. Rogers.

At the same time Chapman said that Edwin J. Bednar, a farmer in the St. Lawrence Community, has been named as member of the Glasscock County FHA committee, to serve with Isidore Hoelscher and Edward M. Teale.

Committee members are named for three-year terms, and one appointment expires each year. No member completing a three-year term can succeed himself.

During the past year, Chapman said, the Howard and Glasscock committees approved 146 loans out of a total of 152 applications. The FHA makes loans to family-type farm operators to buy, improve or operate their farms more efficiently.

Special livestock loans are made where temporary credit is needed to enable the operator to stay in business. The FHA also makes emergency loans in counties that have been designated by the Secretary of Agriculture as areas where emergency credit is needed. However, the FHA does not make loans of any type to any applicant whose needs can be handled from other sources of credit. All loans must be approved by these county committees.

Women grape pickers in many French vineyards still wear headgear of the type called "kiss-not hats" by soldiers in the 100 Years' War because the sharp brims made it impossible to steal a kiss.

12 Big Spring (Texas) Herald, Thurs., Sept. 9, 1954

Additional FHA Funds Made Available For Area Counties

Additional Farmers Home Administration funds have been made available for assistance to farm families in Howard, Martin, Glasscock, Midland, Ector and Andrews counties, according to Carlton J. Chapman, the agency's county supervisor, whose office is in the basement of the Big Spring Post Office.

Farm families in this area, he said, have made good use of FHA credit and services this past year and have thus been enabled to step up efficiency of their farm operations.

"We now have additional funds

to make loans for the ensuing year," he stated.

Chapman said that a large portion of the money loaned in these counties during the past 12 months has been to veterans and other young farm families who are establishing better farm setups. Their greatest needs, he commented, were for adequate credit and some help in developing sound systems of farming, and in adopting efficient farm management practices. No loans have been made to farmers who have been able to obtain the financing they need from other local sources.

The FHA supervisor says a total of \$79,425 was loaned in Howard and Glasscock counties for equipment, stock, fertilizer, feed and seed, that farm families needed to make better use of their land and labor resources. Approximately the same amount was loaned in Martin, Midland and Andrews counties. The FHA does not have any active loans in Ector County.

Emergency loans, including special livestock loans, in Howard and Glasscock counties totaled \$378,665. The Big Spring office of the FHA has charge of loans in Howard and Glasscock counties, while loans in the other four counties are handled through the temporary FHA office in the First National Bank Building at Stanton.

Man Proves Love For Land In Will

NEW YORK (AP) — German-born Julius Lehmann loved America, and he proved it in his last will and testament.

He came to this country 50 years ago, and became a prosperous importer. In 1951 his wife died. Last June 20, he died at the age of 92.

In his will, probated yesterday, he left all but \$70,000 of his \$70,000 estate "to the government of the United States of America to which my wife and I are so much indebted for the blessings we have enjoyed as citizens of this country."

Huge Crowd Fills Soldier Field For Marian Year Fete

CHICAGO (AP) — An estimated 260,000 persons filled huge Soldier Field to overflowing last night at a colorful, sacred Roman Catholic ceremony celebrating the Marian Year in the Chicago archdiocese.

The vast multitude of worshippers who paid reverent tribute to the mother of Christ filled every seat in the big lakefront stadium. Thousands pressed out into the grassy field near the specially built altar in midfield. Other thousands remained outside the stadium and heard the ceremonies over loud speakers.

Traffic in the vicinity of the field was jammed for hours before and after the ceremonies.

The crush at the gates resulted in 19 persons being hospitalized. No serious injuries were reported but police said that about 100 persons were given treatment at first aid stations. Most of those affected fainted while others suffered from shock or exhaustion or were bruised as they throng pressed through the gates.

More than 8,000 men, women and children participated in the program. Included were four choirs of 4,000 voices, some 1,000 priests and prelates, Catholic fraternal groups, the American Legion color guard and drum and bugle corps and gaily costumed groups representing 16 of the nationalities of persons of the archdiocese.

The mother of the first wife of Columbus owned a sugar plantation.

Low County Revenue In August Drops Cash Balances \$35,000

County Revenues ebbed to slightly more than \$11,000 during August, while expenses continued at a normal level. Consequently, cash balances dropped from \$384,582 to \$349,512.

Revenues amounted to \$11,385.29 while disbursements totaled \$46,455.35, according to the monthly financial statement prepared by Auditor Lee Porter.

In addition to the cash balances, the county has \$316,039 in short term investments which boosts available resources to \$665,541.05.

County operations during August are reflected by the various funds as follows:

Road and Bridge Fund: Receipts amounted to \$5,305.75. Expenditures totaled \$16,921.12. The income included \$3,138.48 from auto registrations; \$1,877.15 in fines and fees; \$19.61 current taxes and \$270.51 in delinquent taxes. Disbursements included \$1,317.50 for commissioners' salaries, travel and other administrative expenses; \$7,457.03 for wages; \$1,193.28 for lumber and hardware; \$2,219.36 for gasoline, oil and greases; \$1,629.56 for parts and repairs, with the balance going for other miscellaneous expenses.

General Fund: The \$429.28 in re-

ceipts included \$229.53 in delinquent tax payments; \$16.35 in current taxes; \$57 from beer and wine permits, plus various other small revenues. The disbursement of \$9,087.97 consisted of \$2,078.94 for courthouse maintenance, utilities and miscellaneous expenses; \$3,514.70 for health unit operation and charities; \$1,395.36 for operations of the agricultural agent's department, with the rest going for miscellaneous secretarial salaries, supplies, etc.

Officers Salary Fund: Receipts totaled \$4,841.24, the biggest item of which was \$1,845.90 in county clerk fees. Other fees, in amounts from \$13 to \$804, accounted for the remainder. Expenditures included \$2,648.94 for the tax assessor-collector department; \$1,652.39 for the county clerk's office; \$706.40 for the district clerk's office; \$3,278.86 for the sheriff's department; \$510.77 for the county judge's office; \$712.24 for the county attorney's office; \$341.50 for the treasurer's department; and \$766.75 for the various constables and peace justices. Total was \$10,626.85.

Jury fund: Receipts, all taxes and fees, amounted to \$83.92. Disbursements, all for district court expenses, totaled \$502.

Permanent Improvement Fund: Revenues, all taxes, amounted to \$61.31 and expenditures, for office equipment and repairs, totaled \$1,109.88.

1954 Right-of-Way Fund: There were no receipts and the disbursements included \$50 for crop damages; \$2,190.67 awarded Fleming Oil Company by special commissioners for removal of oil well rod lines; and \$1,300 for purchase of right-of-way. The aggregate aggregated \$3,540.67.

1954 Road Bond Series: Collections amounted to \$295.93 and there were no expenditures.

Library Fund: Revenue, consisting entirely of book fines, was \$75.43 while expenditures totaled \$1,128.30, dropping the fund's balance to \$8,699.80.

Courthouse and Jail Building

EXPERT RUG CLEANING

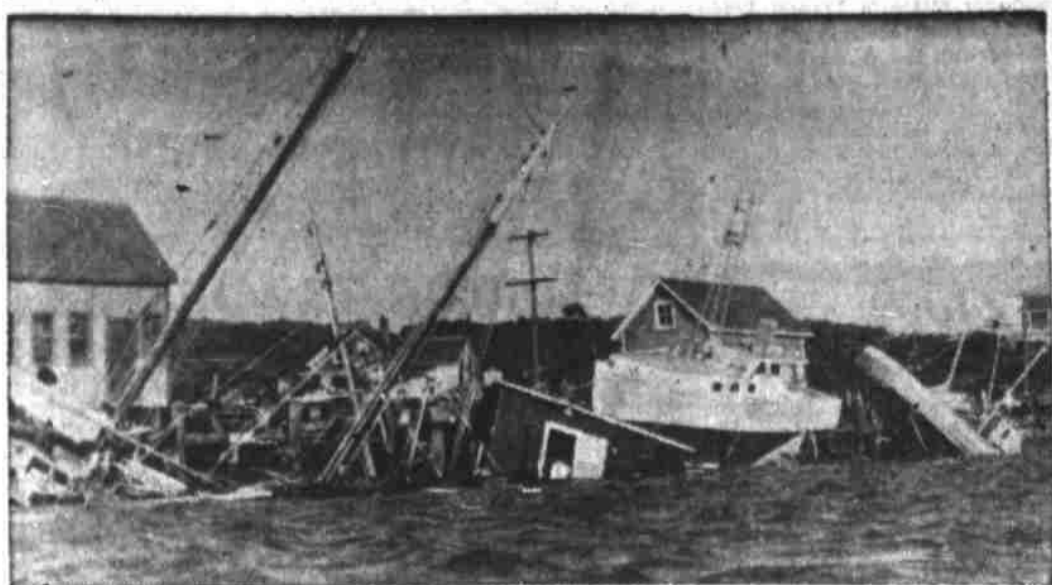

Upholstery Cleaning and Moth Immunization. Call S&J DURACLEANERS Dial 4-2547 1305 11th Place

Fund: Only revenue was \$251 in interest on government securities. Disbursements included \$1,546.30 in payments to contractors, \$1,444.27

for equipment and supplies. Balance at the end of the month, including \$100,000 in government securities, was \$124,880.13.

Courthouse and Jail Sinking Fund: \$184.57 in tax collections and no expenditures. Balance at the end of the month was \$49,991.87.

Hogs usually are not injured by the bites of poisonous snakes because they are protected by thick layers of fat under their skins.

Hurricane Damage

Boats were sunk, some were driven up on the dock and buildings knocked into the water in the Menemsha section of Martha's Vineyard, Mass., as the howling hurricane accompanied by fiercely driving rain struck New England causing millions of dollars damage. (AP Wirephoto.)

Fish Is Common Summer Dish In Big Spring Homes

Though local anglers possibly have fallen short of expectations in their jaunts to area lakes, fish has been a common item on many tables in Big Spring this summer.

Fish dishes have ranged from flounder and cat to delicacies such as frog legs and lobster tail. And housewives are quick to admit that most selections came direct from the fish markets.

Practically any type fish desired has been available here this summer. It has not been unusual to find speckled trout, rainbow trout, red snappers, buffalo, crab meat, oysters and other fish on the table.

Shrimp has been a popular item at the Louisiana Fish Market during the summer months.

Most stores retail the jumbo shrimp from between \$1.05 and \$1.15 per pound. This is slightly less than the \$1.50 per pound asked for shrimp less than a year ago when shrimp boat operators went

on strike. The shrimp production has been maintained at a steady pace this summer, however, making the supply plentiful and helping to bring the price down.

Oysters are also in year round supply here, selling for around \$1.55 per pint. Baltimore oysters have just started coming in this month, replacing the Louisiana oysters sold here this summer. Oysters in the shell will be sold this winter.

Prices of the fish sold here vary with the amount being caught at any given time and the weather. Cat and snappers usually always sell for around 75 cents per pound, however. The flounder and speckled trout go for around 65 to 70 cents.

Market dealers report that cat has been a little hard to get lately, but the price is not expected to go up.

Perhaps the cheapest fish on the market today here is the buffalo

variety, which go for about 55 cents a pound.

High price items available include rainbow trout, which comes from Denmark and retails for around \$1.10 per pound. Lobster tail sells for about \$1.60 per pound, and frog legs go for \$1.75. Crab meat is another high one at \$1.50 and above.

Though fish dealers here say that sales have been going fine this summer, they expect a jump in business with the fall months. The big boom comes during Lent in February.

Actually the summer months, when anglers are trying their luck, is slowest for the fish business. But sales here this summer have been steady, and several fishermen who had poor luck have purchased a "catch."

With modern transportation being so fast and equipped with cold storage facilities, fish of all types are available here.

Lions Club Governor Urges 'Growth That Will Stick'

Appeals for growth that will stick were voiced here Wednesday by Marvin Kay, Alpine, governor of Lions District 2-T-2.

Making his first official visit of the year to the Big Spring Lions Club at the Settles on Wednesday, Kay said that Lions membership was at a stand-off.

During the past five years, he told the club, this district has actually lost 30 members although it has enlisted 3,746 for the period. Texas has shown a net gain of 3,600 Lions for the five-year stretch, but this was out of 49,451 who actually were enlisted, he said.

For the first time since Lions International was founded in 1917 at Dallas by Melvin Jones, Texas is now in second place, principally because it is not holding its new members, said Kay. Pennsylvania forged past Texas in number of clubs in July.

"Be on the alert to help communities which should have clubs to organize a Lions club," Kay urged. "Enlist more members, but more important, put your new members to work."

Lions International is the biggest service organization in the world.

MARVIN KAY

he continued "because we do things." This is the whole concept of a Lions club, and one that doesn't do things dries up and loses its members.

Kay also left to the individual club the decision of whether to expand the work of the crippled children's camp at Kerrville. Current appropriations are enough to maintain and operate the camp, but if it is to be enlarged to bring a camping experience to more and more physically handicapped children, Lions clubs of Texas will have to develop projects that will provide capital funds.

Kay was introduced to the club by Roy Minear, Midland, district deputy governor, who in turn was presented by Joe Pond, past district governor and international counselor.

Gil Jones said that the club would ballot next week on whether to undertake its traditional minstrel. Jack Y. Smith urged a good turn out from the club at the opening football game in Andrews on Friday evening. Lions were invited to attend the Fiesta here Sept. 15-16.

Jones Gets Haskell Contract For Gym

J. D. Jones Construction Company of Big Spring has been awarded contract for building the new gymnasium for Haskell High School.

His general contract, in the amount of \$219,295, also covers some additions to the high school plant. Other bids ranged up to a high of \$279,995. O. T. Riggs, Irvin, got the plumbing contract for \$24,950; Graham Electric of Knox City the electric contract for \$8,500; Carson Plumbing of Stamford the air conditioning contract for \$2,100. Work will start within 15 days and the job will require 280 days.

The project will be financed by \$275,000 issued out of an authorized \$350,000 in bonds.

Prefab Housing Industry Dates Back To 1849

By ED MORSE
(For Sam Dawson)

NEW YORK (AP)—Interested in a prefab house. Maybe your great-grandfather was, too.

Commonly regarded as a business baby, the prefabricated housing industry actually has whippersnappers. In California gold rush days 5,000 prefab houses were shipped out of the Port of New York via Cape Horn for San Francisco. Some of those 1849 houses are still standing, says the National Assn. of Home Builders.

Back in the 1890s there was a Boston firm, Skillings & Flint, which sold a lot of factory-made homes, churches and small railroad stations.

Today the prefab industry is livelier than ever but some of its problems of a hundred years ago have still not been solved, although fast progress is being made.

Under the prefab system, whole walls and other sections of houses are made in a factory and shipped to the building site. The shell of a house can be erected and put under lock and key in a day. The finished home can be turned over to the buyer in about a third the time needed in custom building. Price savings of 20 per cent or more have been reported.

The industry is growing away from the monotonous, boxlike type of home it has produced in the past. Today you can buy anything from a modest \$6,000 house to a \$40,000 luxury home in mass-produced sections. There's a new trend toward flexibility of design to suit variation in taste and location.

The industry has its own association, the Prefabricated Home Manufacturers' Institute of Washington, D. C. which puts out a monthly magazine. Most of the business is done through builders who often combine prefab methods with conventional building.

Enthusiasts argue, "You buy factory-made autos and factory-made cake mixes—why not factory-made houses?" The argument is powerful but the success or failure of a prefab business varies widely according to local conditions.

The big price advantage of prefab houses only applies where long-distance hauling costs don't eat it away. Some companies say they can compete successfully within 500 miles of their plants.

But last year only 55,000 of the nation's 1,100,000 new homes were prefabs.

Disease Takes Toll Of British Rabbits

LONDON (AP)—The plight of Britain's diseased wild rabbits is attracting the attention of Queen Elizabeth II, along with thousands of persons who grow rabbits for show, meat and fur.

The Royal Society for Prevention of Cruelty to Animals (RSPCA) has become concerned with the myxomatosis-infected rabbits and so has Parliament.

The disease is helping harried farmers clear their land of long-eared pests. Reports to Parliament that some farmers were deliberately spreading the disease brought questions from the House of Commons and a government answer that no immediate legal action would be taken pending further observations.

In mid-August myxomatosis broke out among rabbits on the royal family's estate at Sandringham and later it spread through Windsor Great Park and Windsor Forest. On the Queen's instructions, keepers patrolled the lands, shooting infected rabbits to prevent their suffering.

The British Rabbit Council said that at least five cases of myxomatosis among domestic rabbits had been reported. Warned that the disease can be carried by mosquitoes, they have been advised to cover hutches with nets and vaccinate the animals.

The RSPCA said 66 inspectors were forming volunteer mercy squads to kill infected rabbits throughout the country.

The National Farmers Union

says the disease should be left to take its course "but on humane grounds we do not advocate its deliberate spreading."

Myxomatosis came to Britain only recently, the result of a retired French doctor's experiment two years ago. Australia three years ago began using the virus to kill off millions of rabbits wreaking havoc with her crop and sheep lands. Angered at the animals' depredations on his thou-

sand-acre estate in France, Prof. Paul Armand-Delille injected two rabbits with the myxoma virus.

The professor thought the walls of his estate would check the spread of the disease, but it flashed across the rabbit population of France, Belgium and Germany and finally jumped the Channel.

Ways Of Democracy 'Hard' In Eritrea

ASMARA, Eritrea (AP)—The ways of democracy and self-government are coming hard to Eritrea, once the keystone of Mussolini's Italian empire in East Africa.

Eritrea's troubles today exist despite the best laid plans of the United Nations. The U. N. two years ago gave this country of 900,000 blacks semi-independence in a federation with Emperor Haile Selassie's neighboring Ethiopia.

The Eritrean Assembly has been under a 20-day suspension, ending today, because of an argument over federal and local authority.

The Assembly is on record by a 33-7 vote deploring "continuous interference" by the Ethiopian government in Eritrea's internal affairs.

Tedia Bairu, chief executive of the Eritrean government and a long-time fighter for union with Ethiopia, ordered the Assembly closed after members tried to debate a case involving the banning of an opposition newspaper, the Voice of America.

Bairu ruled the debate constitution provides no other matters may be presented when the budget is before.

Although the eyes of bees cannot see red, they are sensitive to yellow, blue and ultraviolet.

Attention

COLLEGE STUDENTS!

While you're making plans for your College year, be sure and include The Herald on your list of "needs." You'll enjoy having the home town paper while you're away, with news of the school, the town, and the people you know and like.

The Herald offers you a special College Bargain Rate, and will send the paper for the nine-month college term to your campus address for only...

\$6.00

Take advantage of this offer. You'll be glad to have that "daily letter from home," at a low rate that's for college students only. Send us your name NOW, before you get too busy with other last-minute details. We'll start The Herald on the date you specify.

Breakfast Idea

For a new look in the morning, try melon and cereal bowl combined. Use cantaloupe, fill it with your favorite cereal and serve with sugar and cream.

Indoor Cooking Can Taste Like Outdoors

By CECILY BROWNSTONE
Men who have mastered the art of grilling a steak or hamburgers outdoors, may want to exploit their culinary skill indoors. Come a windy fall day, when the backyard is taboo, here is how to be a great chef in the kitchen.

Sprinkle the steak or hamburger with charcoal salt or hickory salt—the salts come in good-looking jars—before the meat goes under the broiler. The beef will have that wonderful woody look or flavor that belong to outdoor cooking. Undertake this little chore when no one is looking and you'll amaze your esters.

To go with the steak, maybe you can persuade the feminine members of your family to produce some French-fried onion rings. Or follow our recipe and make them yourself. If these directions do not give absolutely the best onion rings you have ever tasted, we will eat our words.

When we served these onion rings to Jim Beard, author of many outstanding books on food and master of barbecue cookery, he agreed with us about their merits. He also made another suggestion: He said the rings would be perfect for "munch food" with a favorite before-dinner drink.

We served our steak and onion rings with baby green lima beans that were well buttered and seasoned with salt and lots of fresh ground pepper. A green salad and Rougouf dressing followed. For dessert we had Bartlett Pear Turnovers with vanilla ice cream.

The pear turnovers have to be made at home; but if you can buy apple turnovers from a really good pastry shop in your neighborhood, they can substitute.

When you want to cook hamburger with charcoal or hickory salt, you might also like to try some outdoor skewer-art indoors. As embellishment for the burgers, alternate small mushrooms, wedges of tomato and green pepper, and small white onions on skewers; marinate in French dressing before broiling.

BATTER-FRIED ONION RINGS
Ingredients:
6 medium-sized onions (about 1 1/2 pounds)
1 cup sifted flour
1/2 teaspoon baking soda
1/2 teaspoon salt
1 egg

Wash, halve and core pears. Place cut side down in baking dish (13x9 by 7 1/2 by 1 1/2 is a good size if you use heat-resistant glass). Pour orange mixture over pears. Bake in moderate (375 degrees) oven, basting several times, until tender about 35 minutes. Baste pears with syrup in pan occasionally while they cook. Serve at room temperature or chilled, using one or two pear halves for each serving. If pears are topped with vanilla ice cream, spoon the orange syrup over the ice cream. Makes 4 to 8 servings.

WHITE AND GOLD FRUIT BOWL
Ingredients:
1 medium-sized cantaloupe
1 11-ounce can mandarin oranges (packed in light syrup)
2 large Bartlett pears
2 or 3 tablespoons grenadine or raspberry syrup
Method:
Cut cantaloupe in half; scoop out seeds. Cut balls out of melon using melon scoop or 1/2 teaspoon measuring spoon. (Discard the cantaloupe left after balls are made and use in a dessert sauce if desired.) Empty oranges and their syrup into a bowl; add cantaloupe balls. Wash, halve and core pears; slice in thin fan-shaped pieces into bowl. Add grenadine or raspberry syrup just before serving and mix gently. Makes 8 servings.

You'll find the grenadine syrup suggested for use in the White and Gold Fruit Bowl available in many large food markets. The raspberry syrup is available in specialty food shops; the best syrup of this sort we have ever tasted is imported from Germany and is made of pure raspberry juice and cane sugar.

ORANGE-BAKED PEARS
Ingredients:
2 teaspoons grated orange rind
1 cup strained orange juice
1/2 cup sugar
4 Bartlett pears
Method:
Sift orange rind, orange juice and sugar together until sugar dissolves.

Give Junior A Break With Tasty Lunches

By CECILY BROWNSTONE
Associated Press Food Editor
School days bring Junior's lunch-box to the fore. How can you make take-along noon meals nutritious, fun to eat?

Have you ever saved cottage-cheese containers and filled them with salads or desserts. Children enjoy opening the little boxes, eating from them—and they don't have to tote them home again.

Your kids like potato salad? Put some in one of the containers and send along with a ham sandwich and a few pickles. Use the containers, too, for carrot and celery sticks.

When you are baking a meat loaf for supper, put some of the mixture in a small custard cup and bake it, too. Next morning send along the tiny meat loaf in a container. Cole slaw can go in another.

Baked apple, rice pudding, chocolate custard, gelatin and other desserts can all go in these containers.

Vary the sandwich routine. Some days send along hard-cooked eggs, plain or stuffed. Plain buttered bread tastes good with these.

When you do send sandwiches, use different breads. While, whole wheat and rye make pleasant changes, so do hamburger buns. Raisin bread is good with a peanut butter and bacon filling.

Hot soup can go into a small vacuum bottle. Use the home-made or canned varieties that your young ster likes best. The milk usually added to the canned soups will be all to the good.

Put a surprise in Junior's lunch-box as often as you can. Potato chips, for instance, are always welcomed.

And what's a lunchbox without a cookie or two? Bake some of these old-fashioned jumbles; kids usually enjoy them with an orange or apple and some milk.

HONEY JUMBLES
Ingredients:
1 cup sifted flour

Hot Bread Makes A Breakfast Surprise

Hot breads in the morning will never be passed up. Your bakery can help you out most mornings—just be sure to heat the buns or coffee cake for maximum eating pleasure. But some morning, surprise the family with this home-made hot bread, which goes together in a jiffy and requires little baking time.

HONEY CRISP COFFEE CAKE
1 1/2 cups sifted enriched flour
2 teaspoons baking powder
1/2 teaspoon salt
1/2 cup sugar
1 egg, beaten
1/2 cup milk
3 tablespoons melted shortening

Sift together flour, baking powder, salt and sugar. Combine egg, milk and shortening. Add to flour mixture, stirring until mixture is smooth. Pour into greased 8-inch square or 9-inch round pan. Top with honey crisp topping or peanut prickle topping. Bake in moderate hot oven (400 degrees F.) for 30 minutes.

East Indian Curry Good With Chicken

Curry makes a spicy main dish, served over rice, and with a choice of several condiments. Try chopped peanuts, chopped egg whites with ground yolks, chutney, shredded fresh coconut and chopped green pepper. To make the curry: Sauté half a cup of minced onion with five tablespoonsful curry powder, one teaspoon salt, one and a half teaspoonfuls granulated sugar and a quarter-teaspoonful ground ginger. Dissolve one or two chicken bouillon cubes in a cup of water and stir into the mixture. Also add either two cups of milk or one cup milk and one cup cream. Then mix in all the meat from a medium-size chicken or a large can of boned chicken, plus a teaspoonful of lemon juice, and cook gently until well heated.

Cookbooks Are Now Rare In Hungary

NEW YORK (AP)—Cookbooks are extremely scarce in Communist Hungary. A letter to the editor of Nok Lajpa, women's magazine published in Budapest, and received by the anti-Communist Free Europe Committee here says: "Nowadays the only way one can get a cookbook is by inheritance. It is unfortunate that one has to await the death of a dear aunt or cousin to get hold of a cookbook."

"I have been searching for any form of cooking instructions in bookstores but nothing of the kind is available."

Swedish Meat Balls

There's nothing finer for a hot hors d'oeuvre. Meat balls are made of ground beef mixed with moist bread crumbs and seasoned with minced onion and olive oil plus a dash of Tabasco sauce. Roll the meat balls in crumbs and brown in butter in the blazer pan of the chafing dish. Then remove from the heat and put them in another dish temporarily. Add the following to drippings in the pan: two ripe tomatoes, skinned and cut into small pieces, a little lemon juice and several tablespoonfuls of rich beef bouillon. If you like garlic, add a clove of it to the mixture in the pan. Simmer down these ingredients to make a rich sauce, remove the garlic, then add the meat balls to the mixture in the pan.

Chef Salad Bowl Is Meal In Itself

According to foods and nutrition specialists at Texas A&M, this tastes good in Texas this week:
CHEF SALAD BOWL

Salad greens as: Lettuce, celery leaves, watercress, parsley. (Enough to make 2 quarts chopped)
1 clove garlic
1/2 teaspoon salt
1/2 teaspoon whole black pepper (peppercorns)
1 tablespoon Tarragon or Malt vinegar or lemon juice
1/4 cup salad oil

Cut tiny checkerboard pattern across top of garlic clove. Cut in thin slices directly into salad bowl. Add salt and pepper. Mash seasonings together. Add vinegar or lemon juice and salad oil. Mix well. Add salad dressing to crisp chopped vegetables. Toss until each leaf is coated but not dripping with dressing. Arrange over the top of salad bowl 6 slices of luncheon meat, sliced, 1/4 pound Swiss or Cheddar cheese sliced, 2 slices hard cooked eggs, 1/2 cup sliced cucumber, 2 coarsely grated carrots or 1/2 cup sliced radishes, and 1 sliced onion. Serves 4.

Wrap an avocado in a towel or some paper if you want to speed up its softening.

Stuffed Onions Are Good Addition To Steak And Potatoes

French fries, a tossed green salad with your favorite dressing, the tomato broils mentioned above or stuffed onions are an excellent accompaniment to a steak.

STUFFED ONIONS
4 large, mild onions
1 cup coarse, dry bread crumbs
Salt
Pepper
2 tablespoons melted butter or margarine

Cook onions in boiling, salted water for 30 minutes. Drain and cool. Remove centers. Chop onion centers and combine with remaining ingredients. Stuff onions with mixture; cover and bake in a moderate oven (350 degrees F.) for 30 minutes. Four servings.

Why subject a good, sizzling broiled steak to anything less than the best? For a regular steak sauce worthy to be poured over such a steak, make your own.

Keep Knives Sharp

Be sure your knives are kept sharp. You are more likely to cut yourself while straining to use a dull tool than when slicing easily with a sharp one.

Toasted Egg Fluff Makes Deluxe Dish

A simple serving of eggs and toast becomes a deluxe dish if you serve them as a toasted egg fluff.

TOASTED EGG FLUFF
4 eggs, separated
1/2 teaspoon salt
4 buttered rounds or rusks

Whip the egg whites and salt until stiff enough to hold a peak. Pipe the beaten egg whites on each toast round, making a depression in the center of each. Place one egg yolk in each depression. Bake in a shallow pan in a moderate oven for twenty minutes.

Yield, 4.
Creamed eggs on toast—a simple combination of hard cooked eggs and a cream sauce—disguise the egg deliciously. If you want to be a bit fancier, add 2 cups diced cooked ham and 2 tablespoons prepared mustard to the creamed eggs and serve hot over waffles.

Friday Night Supper

Clam patties are delicious for Friday night supper. Mix canned minced clams with a beaten egg and cracker crumbs; add a little of the clam liquid, so the patties will hold together, and a little grated onion for seasoning. Fry in patty-pan in deep fat and serve with catchup or chili sauce, baked potatoes and a green salad.

Welsh Rarebit

Here's a dish that's just right for a late snack or a light supper. Melt about one-eighth pound of butter in the blazer pan of the chafing dish. Add two tablespoonfuls of flour and stir until the mixture is smooth. Add two cups of milk, and salt, pepper and paprika. Now place the water pan, filled with boiling water, beneath the blazer, to make a double boiler. Add gradually to the blazer pan mixture one cup grated cheese (American or Cheddar), stirring well. When the cheese has become completely blended, add two well-beaten eggs mixed with a tablespoonful of dry mustard, stirring constantly as you add them. When the rarebit is smooth, serve on slices of toast.

Unbreakable Pans

URBANA - CHAMPAIGN, Ill. (AP)—A new titanium base enamel developed by the University of Illinois renders porcelain enameware almost indestructible. More than 5,000 enamel pans were tested to prove its resistance to bumps and bangs. The metal with the thin coat of titanium enamel can be bent back and forth without breaking the glass finish.

'Jenny' Flying Easier Than Hunt For Uranium By Air, Pilot Says

By BRUCE HENDERSON
DALLAS (U)—A grizzled Texas pilot says barnstorming in "jennies" was easy compared to hunting uranium by air.

Charles Burrell Tibbs twists a small plane through desolate Utah canyons. His eyes, still sharp after 40 years of flying, scan the cliffs for a sign of the atomic age gold.

"Done a lot of flying in my life, but brother, this is the roughest," Tibbs said during a Dallas visit. Then, a twinkle in his eye: "But there's stuff in that God-forsaken country."

Tibbs, 57, who learned to fly in

a "Jenny" made headlines last winter when he puddle-jumped one from Illinois to Texas in snow and cold to mark the 50th anniversary of powered flight.

Today, he's running an aerial exploration service in the uranium boom country of southeast Utah.

"We explore for customers on a cash, hourly basis," Tibbs said. "Say you got some money and want to look for uranium. We'll fly you anywhere you want to go—across the flats, down the canyons. For additional cost we'll furnish a mining engineer for advice and a crew to stake your claim."

Tibbs, born at Royce City, north of Dallas, barnstormed for years,

flying off pastures and baseball diamonds. He dusted cotton in Mississippi and rode through tail-spins with green Army students while instructing in both world wars.

He said jockeying a light plane between mountains and through canyons makes all that seem easy.

"You have to get up close," he said. "And you have to go slow. You can do both with a light plane. But a light plane can get bounced around. It's like riding a mean horse."

When he or his passenger spots what looks like a vein, Tibbs must quickly find an open space and ease the plane down through tumbled rock and cactus. Often, he lands on canyon floors.

Tibbs hasn't had a crackup so far. But not all such aerial prospectors have been so lucky.

Tibbs said his customers—often tough prospects out to make a fortune or bust—ride with him apparently without fear and often urge him to "get a little closer."

Prosecutor Wants Parents In Court

OCEAN CITY, Md. (U)—Parents from Baltimore should be asked to attend Worcester County Juvenile Court hearings for the 75 teenagers rounded up in raids on beach beer parties, according to State's Atty. Jack Sanford.

"Actually, the parents are worse than the kids," said Sanford, "allowing them to come here without proper chaperones."

He said the raids were ordered after residents complained about teen-agers carousing on the beach north of Ocean City.

Trial Of Actor's Son Scheduled For Nov. 16

SANTA MONICA, Calif. (U)—Trial of Edward G. Robinson Jr., 21, son of the actor, on two charges of armed robbery is scheduled for Nov. 16.

Young Robinson, free on \$10,000 bail, pleaded innocent Tuesday. His attorney asked for a jury trial.

During Robinson's preliminary hearing Aug. 12 two taxicab drivers, Michael Plascik and Henry Chernack, identified Robinson as the man who robbed them of a total of \$42 in separate hold-ups during July.

Control Of Empire State Building Sold

DETROIT (U)—Two Michigan men have sold their controlling interest in New York's Empire State Building to Col. Henry Crown, Chicago and New York real estate broker.

Roger L. Stevens of Ann Arbor and Alfred Glancy Jr. of Detroit said papers were signed in the office of a New York attorney. They said the formal closing will be made later.

No sale price for the 102-story structure was disclosed.

Stevens and Glancy, along with Ben Tobin of Hollywood Beach, Fla., headed a syndicate that purchased the world's tallest office building from the estate of the late John J. Raskob in 1951 for \$14 million dollars.

Old Sidewalk Blocks To Be Used At Park

Approximately 200 concrete sidewalk squares formerly located around the courthouse will be placed in the city park soon.

Johnny Johansen, park superintendent, stated that the squares will be used to pave the area around the barbecue pits. Some of the squares will possibly be used to construct another pit in the north sector of the park, he said.

Suffocation Blamed In Death Of Fish

BALTIMORE (U)—Suffocation apparently caused the death of thousands of fish found floating on the surface of the Chesapeake Bay over the Labor Day weekend, marine experts say.

Paul McKee, director of the Maryland Water Pollution Control Commission, said engineers reported that an upwelling of lower water containing very little oxygen had caused the fish to suffocate. The recent hurricane winds were blamed for the upwelling.

Governor And Wife Planning Vacation

AUSTIN (U)—Gov. and Mrs. Shivers plan to take a vacation after next week's state Democratic convention.

They plan to leave here by train Sept. 19 for San Francisco, Shivers said. Beyond that, he was vague on details of the vacation.

Fighters Show I.Q.

NEW YORK (U)—A team of three psychologists report that tests given to front-line U.S. infantrymen in Korea show that outstanding combat troops have higher intelligence than poor fighters.

China Starting Industrialization At Rockbottom

Editor's Note — Deryck Winterton London Daily Herald correspondent who accompanied the Active party in Red China, took time out in Hong Kong after the trip to sum up and record his impressions in the following article.

By DERYCK WINTERTON
Of The London Daily Herald
HONG KONG (U)—Six hundred million people and an industrial labor force, in the Western sense, of around 13 million; the rest handicraft workers or peasants. That is the size of China's problem. She is starting her industrial revolution from the rockbottom of poverty after 50 years of bad gov-

ernment, foreign war, invasion, civil war and disorder.

You fly into Peiping airport in a Russian-built plane. There are no Chinese planes.

You are driven into the city in a Russian, or possibly American or British, car. The first Chinese automobile factory is now being built.

You meet endless lines of primitive carts, drawn by not very good horses, carrying building materials, coal, blocks of stone, anything that needs moving. You see men—and women—with heavy loads in baskets, hung from either end of a pole across their shoulders.

You take a ride in a pedicab—the taxi for one, or it may be two—drawn by a man on a bicycle. There are no motorized taxis.

And then you are suddenly transported to the showpiece rolling mills of Anshan, in northeast China, where most of the work is

pressing an electric control button.

All the machinery here is Russian, which "proves how unselfish Russia is." This is one of the automatic phrases which it is thought proper to repeat at every opportunity.

But the tributes to Russia having been paid, you are then told in a voice that is no longer automatic but full of satisfaction that the machines are now worked entirely by Chinese technicians, Russian-trained of course, and Chinese skilled labor.

One senses that Russia would do well not to trade too much on gratitude for her "unselfishness"—all paid for by Chinese exports. It is not necessary to rely on the Communists' official statements that the Red government is transforming the vast land. The signs of frenzied energy are everywhere.

The few real figures that are

Big Spring (Texas) Herald, Thurs., Sept. 9, 1954

given show how low consumption still is: Annual cloth output just over seven yards per person. Sugar consumption under three pounds per head. But there seems no doubt that this is a great deal better than it was.

Although things like clothes and food are improving, the great emphasis of the State Planning Committee is inevitably on heavy industry.

German V2 Crude By 1954 Standards

WASHINGTON (AP)—You could learn to live with the V1 buzz-bombs. Like rattlesnakes, they at least gave warning before they struck.

But when the German V2 rockets began to rain death on London—silent and invisible until the explosion—even stouthearted Britons who had weathered five years of terror from the skies felt the raw lash of fear.

There was no defense against the V2. No sirens wailed a warning to take cover.

It was 10 years ago today in the gathering dusk on the outskirts of The Hague, Holland, that German troops unleashed Hitler's "Vergeltungswaffe Zwei," or "Vengeance Weapon No. 2," and sent it streaking toward England. The rocket's white vapor trail, reaching to a height of 60 miles, marked the beginning of modern rocket warfare.

Less than six minutes later, at 6:43 p.m., Sept. 8, 1944, a shark-nosed 46-foot rocket carrying a ton of high explosives dropped without warning in the village of Chiswick-on-Thames. It exploded with a roar heard across London.

Others began dropping in London itself—26 in the next 10 days.

Dr. Joseph Paul Goebbels, the sadistic little Nazi propaganda minister, exultantly predicted that London would quickly become "a raging inferno," and the German radio blared that V2 rockets had already left "most of London in ruins."

Thus began a 201-day ordeal that killed 2,754 civilians, injured 6,523 and turned tens of thousands of homes into rubble. The Germans launched about 1,500 rockets, 1,115 reaching England.

Shocking as it seemed then, we know today it was only a crude and small-scale preview of what could happen in the heralded push-button rocket warfare of World War III.

For Hitler's V2s, with their erratic performance and limited range of 200 miles, were little more than popguns—however lethal—compared with the modern U.S. arsenal of far-roving guided missiles that seek out their targets by radar, some of them equipped with atomic warheads.

Only a few months ago the Air Force gave the tipoff that plans for transoceanic or intercontinental rockets may soon become a reality. It asked Congress for funds to extend by 3,000 miles the present 1,000-mile-long range for guided missiles in the Atlantic.

After World War II, most of the important German V2 scientists eluded the Soviets and were rounded up in the American and British zones. U.S. troops also captured the big V2 factory at Niedersachswerfer and sent home 300 boxcar loads of V2 parts—enough to build 100 rockets.

American technicians quickly assembled the rockets, and within a few months the sagebrush and chaparral around White Sands,

Shivers Rejects Claim Of GOP To Victory Help

AUSTIN (AP)—Gov. Allan Shivers has scornfully rejected claims that he won his second primary Democratic nomination with Republican voters.

At the same time Shivers made it clear at a press conference that so long as he controls the Mineral Wells convention next week, he will also control membership of the State Democratic Executive Committee for the next two years.

Shivers was asked for comment on a statement by GOP national committeeman Jack Porter that Republican voters were responsible for Shivers' re-election. Porter had asked Panhandle Democrats to return the favor and help elect a GOP congressional candidate, Leroy LaMasters of Perryton.

"That puts Porter in the same bucket with Ralph Yarborough and the CIO," Shivers replied. Later he added that he thought all Texas congressmen elected this fall will be Democrats.

Shivers said he thought his victory over Yarborough was a "re-statement of independence by the Texas electorate."

Shivers said that 90 per cent of the votes cast against him in the Democratic primaries were not votes "for Yarborough" but "against Shivers."

"Independent means not being harnessed to anyone, independent of outside influences," the governor said further in discussing campaign factors.

Shivers reiterated previous statements that if the national Democratic party will "get rid of Stephen Mitchell," the national chairman, and name a middle-of-the-roader, there may be some chance of finding a 1956 presidential candidate acceptable to Texas and the South.

He wouldn't comment on his possible attitude toward Adlai Stevenson for the 1956 nomination.

Shivers said district caucus recommendations for executive committee memberships at Mineral Wells would be followed "except where they were unfriendly."

Shivers said that "it might be a good guess" that Galloway Calhoun of Tyler would be the Mineral Wells keynoter.

He also said he did not know whether or not the Sept. 14 convention would take any action in regard to Wright Morrow. Morrow is recognized as national committeeman from Texas by the state organization, but is at odds with the national committee.
