T-Sgt. J. E. Brannen, Jr., 30, son of Mr. and Mrs. J. E. Brannen of this city, who was reported as missing in action since January 15 between China and Italy, is now announced "safe" by the War Department.

Thursday Mr. and Mrs. Brannen, Sr., received a telegram from Mrs. Brannen, Jr., at Tarpan Springs, Fla., to the effect that "Jack is safe. Letter will follow."

Monday Mrs. Brannen received a letter from their daughter-in-law stating that she was in receipt of a message from the Adjutant General, Washington, in which he stated that T-Sgt. Brannen had reported back for duty to his base after being missing 41 days. This was all the information furnished by the War Department.

T-Sgt. Brannen was believed to be carrying supplies to China when he was reported missing.

"Hope my missing hasn't caused you too much concern—that has been my main worry.

"I am in perfect physical condition and expect to be on my way home soon.

"It has been an experience that I could never forget, but never as serious as some might think.

"I'll write again within a few days, but in the meantime, wish you'd write Toby—I've written her too, but want to be sure she receives the news.

"Boy, will I enjoy those Christmas packages and letters that should be awaiting me at my home base.

"Lots of love and thoughts of all have been with me during my little adventure."

City Will Pick Up And Destroy All Stray Dogs

Due to the fact that the City of Littlefield is receiving many complaints from the residents regarding the large number of stray dogs ranging about, and the fact that two little children, while at play, were bitten by a stray dog Wednesday of last week, the City is publishing a notice in this edition of the Leader advising all dog owners that starting Monday, March 20, all dogs without tags and at large will be picked up and destroyed.

The dog which bit the above two children was killed by the City, and his head sent to Austin. However, Mayor Homer Hall reported Tuesday the receipt of a wire from the M. D. Director of Laboratories advising that there was no evidence of rabies in the head of the dog sent for analysis.

City officials advise that inasmuch as employees of the City will not be able to discriminate between a pet dog and a stray, because they won't know the difference, it will be

PLAN THE GARDEN

By DR. W. W. YOCUM,
Plant Industry Department
Texas Technological College

The plan is the thing
That will ultimately bring
Food fit for a king
For your family ring.

Plan, draw, plan, and read,
Plan carefully for maximum need,
Plan early for ample seed,
Plan, and work your plan, indeed!

Plan crops for summer, spring, and fall,
Plan to battle pests that call,
Plan for moisture that does not fail,
Plan to work, and do not stall.

Plan to make full use of space,
Plan for an abundance, just in case,
Plan for food, to suit every face,
Plan good food for which to say grace.

There are several reasons why we should grow vegetables at home this season. The most important reason is that we may have plenty of food and of such variety as to maintain health on the home front. Most folks who had a home garden last season will agree that they ate as well or better than ever before.

There is a real patriotic motive in Victory Gardening. Home production of vegetables releases shipping space which is so urgently needed for hauling war materials. More of the commercial pack of vegetables can be turned to the war effort. A good supply of canned goods in the cupboard in the fall will save a surprising number of trips to the grocery and so save precious gasoline.

Personal satisfaction is to be derived from gardening by both young and old. All can do something positive here for the war effort and also for themselves. The pleasure of working with growing plants will do much to relieve the strain of the war and keep us physically and mentally fit. The outdoor exercise will go a long way toward relieving that urge for a vacation which may be out of the picture for the duration. All in all, victory gardening is very practical and profitable.

Many people grew and canned so much vegetables last season that they think they will not

Live And Learn

We have often wondered about the origin of the expression "red tape," particularly as regards government and kindred matters. We found an explanation a few days ago in reading a trade publication, and we are passing it on, believing that there are hundreds of Leader readers who, too, will be interested in the origin of the term "red tape."

Here it is:
"Red tape has been symbolic of time-wasting for more than a hundred years. Before the advent of envelopes and filing systems, all English lawyers and government officials tied their papers and documents with red tape, presumably because red was the royal color of the Crown.

"As far back as December 6, 1658, a reward was offered in an advertisement appearing in the Public Intelligencer for the return of 'a little bundle of papers tied with red tape which were lost Friday last . . . between Worcester House and Lincoln's Inn.'

"The long delay caused by slow-moving government officials in untying and locating documents without which it was legally impossible to transact any pending government business, finally gave rise to this expression.

"One historian claims that Lord Minto who was later to be governor general of India gave the term its modern usage when he wrote the following letter in August, 1775, 'Howe gets the command. The ships are in great forwardness. I can't say so much for the army . . . Lord Barrington sticks to rules, red tape, and pack-thread.'"

need to grow and can much this year. But it is four months yet before we can have home grown tomatoes and nearly as long before beans, and sweet corn will be available in abundance. So a lot of those cans will be emptied before there will be produce to fill them again. In fact we should have still available about half of the supply of goods canned last year of tomatoes, corn and beans.

After last year's experience in canning one should be able to estimate better the needs of the family and make some adjustments in the garden plans. It is always well to carry over a small reserve of canned goods, for the next season may not be as productive as was the summer of 1943. Also we are warned that the general food situation is apt to be more acute during the next year.

Conoco Station Here Bought By Former Lubbock Resident

Forest Reeves, formerly of Lubbock, has purchased Bradley's Conoco Station from Ellis Bradley, and has taken charge of the business. Mr. Bradley is entering the service.

Mr. Reeves announced that he will continue to operate the Conoco station virtually under the same program as under the ownership of Mr. Bradley. He will handle the complete line of Conoco products, will sell tires, and do tire repairing and automobile washing and lubrication. The business will be known as Reeves' Service Station.

COTTON FIGHTS FOR FREEDOM

FOR FREEDOM'S SAKE - GROW MORE COTTON

Cotton serves on every front. It protects our fighters in the arctic, the tropics and on the desert... on land, sea and in the air. Our soldiers, sailors and airmen wear it, eat it and fight with it. Over 11,000 articles used by the armed forces contain cotton in some form or another.

COTTON IS A WAR CROP!

From cottonseed we get essential fats and oil for food. Cottonseed meal and cake are essential protein concentrate feed for producing more meat and milk; cottonseed hulls are roughage, and cotton linters make munitions.

COTTONSEED IS A FOOD AND FEED CROP!

There has not been enough cotton grown in the past few years to supply needed protein and oil. More COTTON grown in 1944 would balance farm programs in the South. More COTTON production will strengthen the war effort and help shorten the war.

Invited and Appreciated

I have purchased BRADLEY'S CONOCO STATION from Ellis Bradley, and have taken charge of the business.

I am a new resident of Littlefield, coming to this city from Lubbock. I know some folks in Littlefield and territory, but I want to make more and more friends.

So, drive in to the Conoco Station, make yourselves at home, and let's get acquainted.

Folks tell me that this service station has a good reputation, built up by selling good products and rendering satisfactory service. I am going to do my best to retain that reputation.

Customers of this station are heartily invited to continue to favor us with their business; others are urged to try our service and products. We'll do our best to treat everybody right.

THANK YOU.

ACCEPTS POSITION HERE

Miss Laverne Hayhurst, Home Demonstration Agent of Roosevelt County, New Mexico, with headquarters at Portales, has resigned her position and returned to Littlefield, where she has accepted the position of teacher of social studies in the local high school, taking the place of D. M. Hopper, who resigned last week on account of his health. Mr. Hopper had been here since August, 1943.

Pfc. Pryor Hammons, son of Mr. and Mrs. Pryor Hammons, of this city, is leaving today for Camp Pendleton, Oceanside, Calif., where he will report March 12, after spending since February 11 at his home here.

Mr. Davidson came to the Spade schools from New Mexico. He has made a good record as superintendent of the Spade schools, and a large circle of friends will wish him much success in his new position.

Czech Wants To Serve As American Pilot

A-C Gerald C. Jaquess, brother of Mrs. L. M. Brandon of this city, and A-C John Cokes, both of Lubbock Army Airfield, spent Wednesday evening in the L. M. Brandon home in Sunnydale Community.

Both these aviation Cadets were sent from Keesler Field, Miss., to Lubbock recently.

A-C Cokes came to the United States from Czechoslovakia in 1937; and when Germany overran Czechoslovakia, Cokes went to England, and joined the RAF with a Czech squadron. After spending sometime in the war zones he returned to the United States for training to equip him as an American pilot. After spending some time at Keesler Field, he was transferred to Lubbock Army Airfield for pre-flight, at the same time as A-C Gerald C. Jaquess.

A-C Cokes has been invited to attend and make a talk at the Red Cross rally and dinner, which is scheduled for Friday night at the Amherst Hotel.

Pistol Sought In Investigation Of Hunt Slayings

A pool of water about eight feet deep remained Wednesday to be drawn off in the diversion of the Canadian river at Amarillo as officers sought to find a pistol which, it is stated, might prove a clue to the slayings last October 26 of Dr. and Mrs. Roy E. Hunt of Littlefield.

A heavy pump was applied to the pool Wednesday to conclude the work of diverting the stream.

Attempts to recover the weapon began last week.

With the water pumped out, it was planned to use mine detector equipment in an effort to locate the gun.

Officers revealed Friday at Ama-

rillo that the search of the Canadian river was a development of the fact that they had taken a statement from an Amarillo man that he not only had tossed a pistol in the river several weeks ago, but that he had lent his automobile the night of the Hunt slayings to Jim Thomas, 49-year-old convict held in Lubbock county jail in connection with the investigation into the double slaying, and that Thomas had visited him a few hours after the killings.

The Amarilloan, officers explained, protested he did not know where Thomas went in the automobile.

He, not under charge, said his reason for getting rid of the gun was that he feared someone might have entered his quarters and taken it from a drawer—that it, unknown to him, could have had some significance with the Hunt slayings. He said he and another man drove to

Announcement

I have entered business for myself, having purchased the Phillips 66 Service Station on Phelps Avenue in downtown Littlefield from Elton Hauk, who has entered the service, joining the U. S. Navy. I will appreciate it if all those who favored Mr. Hauk with their business will continue to patronize this station, and I will do my best to render the same good service enjoyed in the past.

I also invite all of my friends living both in town, and in the country, and the customers whom I have served as truck delivery-man for the Phillips 66 Company to patronize my service station, and assure each and every one of them that I will render the very best service possible.

WOLVERINE SHELL HORSEHIDES

NEARLY thirty years ago, WOLVERINE chemists perfected the famous triple-tanning process that makes super-tough shell horsehide soft and pliable enough to be used in the uppers as well as soles.

Today, that process is still a closely guarded secret and Wolverine Shell Horsehides are still the only work shoes with both soles and uppers of genuine triple-tanned shell horsehide. That's why Wolverines wear so long—defy scuffing, scraping, perspiration and barnyard acids so amazingly. At the same time, they're literally as comfortable as old slippers—even dry out soft and pliable after soaking. So, for almost unbelievable comfort combined with money-saving longer wear—be sure your next work shoes are Wolverine Shell Horsehides.

In an interview with G. M. Shaw, Red Cross County Chairman, he announced splendid response already to the drive, stating that a number of cash donations had already been received.

He reported that over \$650 has already been subscribed by Spade, this being about half of their quota, and raised in one and a half days.

The Colored people of the city, through their schools here, have requested to have a part in the drive. Mr. Shaw and Mrs. L. M. Brandon, Executive Secretary of the Red Cross, accordingly, visited the colored school, taking supplies, and giving instructions on the drive. They both made appealing talks to the student body.

The Colored section have organized and named Maurice Powell, superintendent of colored school, chairman, and his co-workers, Willie Carr, Mrs. Dovie Jones, Mrs. E. B. Griffin, J. P. Moorer and Rev. A. H. Howard.

Wednesday Mr. Shaw reported that the colored children have already started their drive and are bringing in their pennies, nickels and dimes every day.

THE IMPORTANCE OF FUEL CONSERVATION MUST NOT BE MINIMIZED

The fuel used in American homes is a drain upon our limited resources of labor and transportation. The necessity of conserving it is great since the production and distribution of all fuel—coal, oil, electricity and gas—depends on manpower which is in itself becoming scarce. The more fuel used by civilians, the less of these resources there will be to fight the war.

THESE SEVEN DO'S are seven ways in which you can conserve gas and not cause any loss of heat or inconvenience to your household.

Save Heat

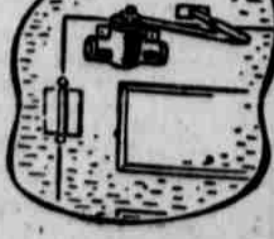

(1) Turn off heat when airing rooms.

Save Heat

(2) Close off unnecessary rooms for winter.

Save Heat

(3) Storm windows are heat savers.

Save Heat

(4) Shut heat off when opening windows for night.

(5) Install automatic door closers.

(6) Adjust fireplace dampers.

(7) Close door immediately upon departure.

With South Plains Men In U. S. Service

Clifford Durham, whose parents reside at Bula, is now enrolled in the U. S. Maritime Service Training Station at St. Petersburg, Fla. Prior

to enrolling he was in farming. Seaman Durham is now in his preliminary period of training; during this time, he will be given general courses in first aid, firefighting, lifesaving, general seamanship, physical development, mental fitness, etc. Upon completion of his basic training, Durham hopes to enter the Deck Department for specialized training where he will take up such subjects as use of cargo gear, practicing steering aboard small vessels, and many other courses that are valuable to all sailors before being assigned to one of the New Ships of our Victory Fleet.

ABOARD A COAST GUARD ASSAULT TRANSPORT (Delayed)
—Death snapped at the heels of Ben H. McCullough, Morton, Texas, a U. S. Coast Guard machine gunner, four times in one day as the Higgins boat to which he was assigned successfully completed a dan-

gerous mission in Kwajalein lagoon, hours before the main attack on Roi and Namur Islands in the Marshalls.

The crew didn't realize its danger as it prepared for the landing until bullets began to whine over their heads. The men sought safety below the combing of the boat and resumed their work as soon as the fire from the shore ceased.

A half hour after the initial assault had opened on the islands, the boat raced through unfamiliar, reef-bound channels into the causeway—the first American boat of any size to enter the waters.

Heading for the Ennurbirr Island, on which there was a large radio station and generating plant, the boat again drew fire from shore batteries while 600 yards away.

As soon as the burst ended, McCulloch and the other gunners gave their machines a list minute check, going into action a short time later when for the third time the boat drew Jap fire from the shore. As the boat neared the shore, air support and help from the assault barges trailing the boat, were provided.

The fourth attempt to get the boat came two minutes later, but the bursts fell short by some 150 yards. It was later in the day after the Marines had seized the island that the crew learned it was fired upon by crack Jap Imperial Marines, some of whom had seen action in the China theatre.

Cleo M. Wright, S 1-C, stationed at Norman, Okla., left Littlefield recently to return to his station after spending ten days visiting his parents, Mr. and Mrs. A. E. Wright, and friends here.

Seaman Wright has been in the service about a year.

Sgt. Payton Harrell, of the Infantry, and son of Mr. and Mrs. Payton Harrell, is stationed in North Ireland. His parents received a letter last week in which he said he would be glad to be back any place in the States; that he was tired of the location and would like to see action. He also said he had received a bunch of Lamb County Leaders and was really enjoying them; and was glad "someone at home thought of a guy over here."

Sgt. Harrell has been in the service 2 1/2 years, and in foreign service six months.

Pvt. Eddie Houk, 20, son of Mr. and Mrs. Ed. Houk, who has been stationed at Camp Ord, Calif., has been transferred to New York. He is in the Ordnance Department of the Army, and has been in service a year.

Pfc. Tommy Watson, son of Mr. Oliver P. Watson of Waco, and nephew of Mrs. D. W. Holladay of this city, arrived last week to spend several days with his relatives.

Pfc. Watson has been in the Marines three years, two of which he has spent in foreign service. He has participated in several major campaigns and has the presidential citation. Tommy is to report to Cherry Point, North Carolina, and will probably go immediately into active duty again.

Pvt. E. L. Hall, 19, son of Mr. and Mrs. J. C. Hall of 8 miles east of town, who is in the Radio Division of the Infantry, and in service since February 14, is now stationed at Ft. McClellan, Ala. He is employed in radio technician work.

Mr. and Mrs. M. A. Elms of 12 miles west of Littlefield have had four sons in the service.

Sgt. Gilbert A. (Artie) Elms, 21, is an instructor in calisthenics in the Air Corps, and is stationed at Blythe Field, Calif. He has been in

the service two years.

Sgt. James E. Elms, 23, Mechanic in the Air Forces, has been in foreign Service since last August, and is now "somewhere in New Guinea." He has also been through Australia, and is believed to have been in the combat zones considerably. He has been in the service over a year and a half, and is hoping to get home by Christmas.

William E. (Smokie) Elms, 25, after being in the service 16 months and in training in an armored division of the Army, was given a medical discharge while at Camp Polk, La. He suffers from asthma.

M. A. (Rip) Elms, Jr., 18, left February 14 for service in the Navy. He is now in boot camp at San Diego, Calif.

Promotions for two former Littlefield men were announced recently at the twin-engine field at Lubbock Army Airfield. The men and their new ranks are S-Sgt. William D. Blevins and Corporal Gerald L. Lakey.

S-Sgt. Aubrey Loyd, who has been stationed on Trinidad Island for the past 21 months, and in service over two years, after spending an eight day furlough with his wife and other relatives here, left Tuesday of last week for Miami, Fla., where he is attending officers training school.

Mrs. Harold Hood returned Thursday after spending a week with her husband at San Antonio. Pfc. Hood is at Randolph Field attending Cook & Baker School. He has been in the service two years.

He expects to get a furlough and come home about March 16.

B. D. Garland, Jr., son of Mr. and Mrs. B. D. Garland of this city, who has been taking a Navy V-12 course at the S.M.U., Dallas, left Friday for Dallas after spending since the previous Tuesday with his parents here. He was scheduled to leave Dallas Saturday for New York, where he entered Columbia University for officers training.

Mrs. M. E. Lowe reports having heard from her son, M-Sgt. Thos. E. Lowe, last week the first time since his Nov. 24 letter. He writes from "somewhere in England" that he was alright but wasn't getting his mail.

Pfc. Travis Jaquess, son of Mr. and Mrs. Jaquess of Earth, and brother of Mrs. L. M. Brandon of this city, who is stationed in Italy, is confined in a hospital in Italy, according to word received by his wife at Tulsa.

Mrs. Brandon stated that her brother has been ill with flu and had remained in an Italian shack with Army cooks during his illness, according to a letter he had written, in which he said he had gotten better. Mrs. Brandon now thinks that probably he has had a relapse of flu, though she does not know.

Pfc. Jaquess has been in the combat zone for sometime, and took part in the battle of Salerno.

Col. Robert W. Warren, commanding officer of the Big Spring Bombardier School, Big Spring, Texas, announces that 2nd Lieut. Billy R. DeLoach of Sudan has recently arrived at that field and been assigned for duty as a Pilot.

Lieutenant De Loach is the son of Mr. William G. De Loach of Sudan. He attended Sudan High School, and before entering service he was a salesman for J. S. Bennett, Ralls, Texas. He was recently commissioned at Altus Army Air Field.

Dorris E. Pierce, 17, son of Mr. Buelah Mae Pierce, Littlefield, successfully passed the mental and physical tests for Aviation Cadet training and was enlisted in the Air Forces Enlisted Reserve Corps March 1 at the Recruiting and Induction Station, Lubbock, Texas. As a high school student in this age group and

in the reserve, he may remain in school after he attains the age of 18, until he completes his current term, or until he becomes 18 years and 6 months, whichever occurs first.

When called to active duty he will be sent to one of the Army Air Forces Basic Training Centers and then assigned to a selected college for five months of pre-aviation cadet training.

Young men 17 years of age interested in becoming Aviation Cadets may secure complete information by contacting the Aviation Cadet Examining Board, West Texas Recruiting Induction District, Lubbock, Texas, or at the nearest United States Army Air Field.
