No. 34

VOL. 6

CRIMINAL DOCKET OF DIST COURT CALLED THIS WEEK

Lamb County District court, now in session at the county seat, Judge C. Clements presiding, is dealing with a heavy docket, both civil and criminal cases this week. Court was held at cases tried every day last week with the exception of Thanksgiving.

Among the cases adjudicated was that of Cal Scott and E. W. Herman Wade Davis, where the plaintiffs received judgment for the amount of \$100.00.

In the case of C. R. Spann vs. L. Stanley, judgment was rendered in favor of the plaintiff.

In the case of Caruthers et al vs. Beckie, et al, judgment was given in favor of the plaintiff, also judgment rendered against W. H. McFarland on Beckie's cross action, which further added a decision in favor of the plaintiff.

In the case of the Yellow House Land Co., made a party to the suit.

Several default judgments were entered on notes, etc., and eight divorces granted.

Last Monday the criminal docket was called, but on account of considerable dickerings among attorneys and technical pleas everything was passed until Thursday of this week. It is understood that about 25 cases will be set for that day; just which will have precedence no one seems to know.

"Slim" Thomas, negro, arrested in Lubbock last week by a negro deputy sheriff and turned over to Len Irvin of Lamb county, is in jail at Littlefield on a charge of murder. His trial is set for Thursday. James A. Oton, attorney, and another attorney from Colorado City, are said to be employed in the negro's defense.

Thomas is held in connection with the murder of E. H. Edwards, another negro, which occurred December 1st, a few miles north of Littlefield.

EXPENSE OF STATE GOVERNMENTS ON INCREASE

At the present time the 48 state governments have a gross bonded indebtedness of \$1,971,354,167, an increase of more than 125 million dollars in a year. This exceeds by 62 millions the total public debt of the United States just prior to the war.

The indebtedness averages \$16.61 for every man, woman and child in the country, an increase of 85 cents compared with a year ago.

Five states in the Union have bonded debts in excess of \$100,000,000 and, since 1920, the outstanding debts of 25 of the states have measurably increased.

These statistics show graphically the trend in state expenditures. They show, as well, adequate reason for the present high taxes that burden our communities.

Today state governments assume responsibilities, make expenditures and embark in new fields of endeavor on a scale unknown 10 years ago. The result is steadily mounting tax burdens, discouraging to industrial development and damaging to prosperity.

The extravagance of local units of government is an outstanding problem of the times. If reforms are instituted, it must inevitably result in many communities being buried under a mass of debts and taxes which it will take years to remove.

Famous "Milk" Tree

Professor Record of the Yale School of Forestry standing next to the "milk" or "cow" tree he discovered in Guatemala, which when cut into yields a rich, creamy white substance closely resembling milk.

SMALL FIRE TUESDAY

In response to an alarm turned in Tuesday morning, the fire boys made a quick run to the home of Alfred Dunnigan where they found the roof ablaze from a defective chimney.

It was quickly put out with little damage.

COWBOY JOHNSON KNOCKED COOKOO IN 6th BY FRALEY

Tuesday night of last week "Cowboy" Johnson of Childress was knocked out in the sixth round in a pugilistic encounter with Lee Fraley, local boxer, at the skating rink.

The bout was scheduled to go for eight rounds, and there was a large bunch of fight fans present to witness the encounter. All declare the match was a good one, the strongly in Fraley's favor throughout.

Johnson weighed in at 164 pounds, while Fraley, the local lad, tipped the scales at 154. The mixing was good throughout the entire scrap, Fraley carrying the fight to his opponent most of the time. In the third round Johnson got in some good work knocking Fraley to the mat twice, the last time taking eight counts from referee Ira Parker before rising to again face his opponent.

In the next round Lee came back strong knocking Johnson down, and only the bell saved him from being counted out at that time. However in the next round he came back strong.

In the sixth round Fraley landed a stiff upper cut to the Cowboy's jaw that put him down for the total count and about five minutes more before he came around to normalcy.

Fraley is really a novice at the fight game, but in every exhibition he has made a good showing. Johnson has been fighting for the past six years. It is probable a return match will be made at Childress shortly after Christmas.

CHRISTMAS EARLY MAILING

As the Christmas season approaches the Postal Department is again urging the necessity of early mailing of Christmas packages. No mail will be delivered this year on Christmas day, according to Postmaster J. E. Brannen, who has received instructions from the Washington headquarters to close the office during the day so that his force of assistants may have the same privilege of Yuletide enjoyment as other citizens. Only special delivery service will be rendered during Christmas day.

Present indications are that there will be heavy patronage of Uncle Sam's postal department during this month. Unprecedented prosperity all over the nation vouches for such a condition, and in this immediate vicinity, where crops have been favorable, business conditions good, and most people have more spending money than they have had for two or three years past, it is quite likely that accommodations will become congested long before the 25th arrives.

Wherever it is possible Christmas packages should be mailed as soon as possible, and they may be marked, "Not to be opened until Christmas," thus insuring the arrival of the gift on the day designated. Christmas cards, also should go out several days in advance, for it should be remembered that the train service will be heavily handicapped, and in many instances mail, which otherwise would arrive on schedule time will, during this period, be from three to five days late.

THE BOONES ENTERTAIN

Mr. and Mrs. Pat Boone entertained the Twenty Aces bridge club Friday evening.

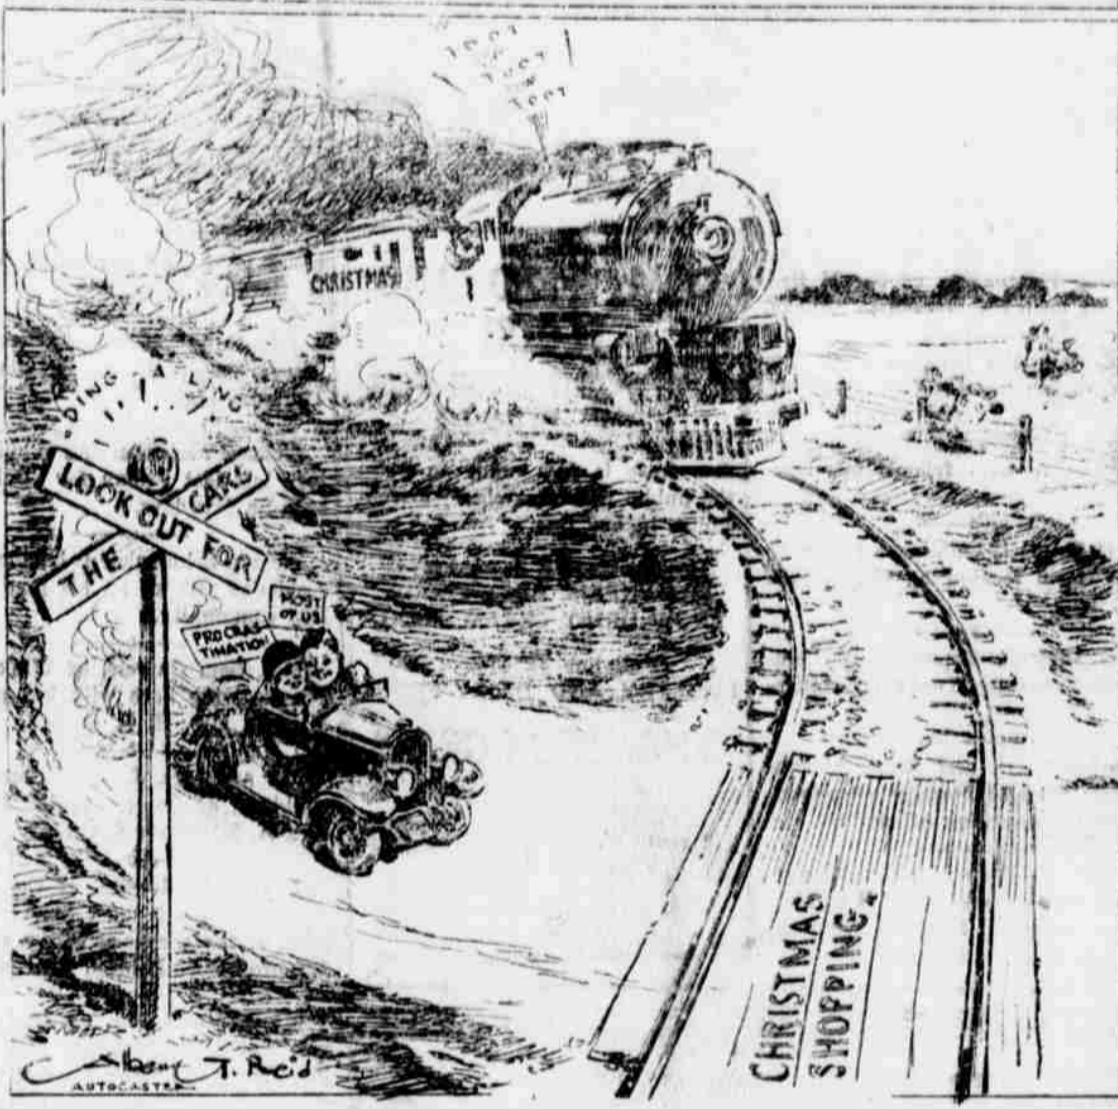

Mrs. C. E. Cooper and P. W. Walker won high score.

Refreshments of fried chicken with mayonnaise, potato chips, bread and butter sandwiches, olives, pineapple delight and hot chocolate were served to the following:

Mr. and Mrs. Jno. H. Arnett, Mr. and Mrs. F. G. Sadler, Mr. and Mrs. P. W. Walker, Mr. and Mrs. C. E. Cooper, Mr. and Mrs. Sid Hopping, Mrs. Bessie Tuttle, Mr. and Mrs. E. S. Rowe, Bill Tolbert, Margaret Teal of Amarillo, and the host and hostess.

A Dangerous Crossing

By Albert T. Reid

COLLEGE NEWS

School was dismissed Thursday and Friday for Thanksgiving. Quite a number of the students from both far and near went home to visit parents, other relatives and friends during the holidays. Jack Traylor, who has been expecting to have to leave school at any time on account of his father's health, was called away during the holidays. Jack had hopes of getting to come back to school after a few days. A number of the students and some of the teachers who did not go away worked part or all of the time that they did not have to be in school.

Albert Bledsoe came into the Littlefield community last week and is living north-east of town near where Mr. Copeland is living. He is here because of the school and has put his boy in school.

L. L. Banks and family from Paden Okla., also came into the Littlefield vicinity last week. Mr. Banks has two girls that he wishes to put in schools as soon as he gets permanently located and other arrangements made.

Jno. R. Freeman and wife and Travis Moore were in Lubbock, Saturday.

A. J. Christmas, of Gray, Okla., is spending a few days with his family. Mrs. Christmas and four of the children have been here since the beginning of school but it was necessary for Mr. Christmas to remain in Oklahoma for a time.

Mr. Tidwell and family, of Dallas, and a carpenter from Okla., arrived this week. One and probably both of these men will be engaged in work on Mr. Meacham's house for the next few days. Mr. Meacham is here now and says that his house is beginning to look pretty "housey."

Fred Corder is here enjoying a short visit with his sister, Miss Mary, who is one of the college students.

J. W. Kelley, of Abilene, was here Monday attending some matters of a business character.

Wilford Jones, son of R. W. Jones, college secretary, was here a little while Monday. He came to bring Mr. and Mrs. Wesley Jones back to Littlefield. They had been visiting at Hollis, Okla. Wilford is a graduate of Gunter College. He is now making his home in Lockney, and is teaching near there.

Jno. R. Freeman went to Ft. Worth Monday to attend the meeting of the Texas association of colleges.

About \$80.00 worth of new laboratory equipment, including chemicals and apparatus, has been added to the laboratory this week. The school is continually striving to make all outfits needed equipment better.

The office of Littlefield College has been moved from the bank building to the college building. Those who

REV. TURRENTINE TELLS SUCCESSES OF CLOSING YEAR

"With the assembling of the Northwest Texas conference at Lubbock two weeks ago another church year for the local congregation of Methodists passed into history," remarked Rev. Geo. E. Turrentine, popular Littlefield pastor. "It has been a year of abundant mercies both physical and spiritual," he said. "Very few of the members of this congregation have been called by the 'grim reaper,' while a large measure of health and success in business has come to the most of them."

"As a church we are quite proud of our record during the past 12 months. The spiritual life of the congregation has been appreciably quickened. The attendance at preaching services has grown considerably. The Sunday school, leagues and women's missionary society are doing excellent work. During the past year there have been 104 additions to the church; 66 of these by letter and 38 on profession of faith.

"All obligations for salaries, benevolences, building and notes due on property, as well as numerous incidental expenses, have been paid in full, and all without having to discount the claims of the church at large a single dollar. Our total expenditures for the past year were \$6,453.00. Of course, this has entailed some sacrifice; but it is also accompanied by the feeling that we have done our duty in meeting the obligations assigned us.

"During the past year we have sought, along with the other churches co-operating, to lead the community into a broader social consciousness and closer fellowship, ministering to the fatherless and widows, and keeping ourselves unspotted from the world. That we have not done this more perfectly with every member co-operating is a source of sorrow to the pastor and other spiritual leaders.

"We are looking forward to even greater successes during the coming year. Our new church building, so much needed for the growing congregation, has been started, and it is hoped will be occupied in the near months to come, and it is our hope and aim to make this church of even greater service and benefit to the people of this community during the coming year than it was in the past one.

"Six new members have been added to our official board, the com-

plete list being as follows. "Stewarts: Van Clark, chairman; B. L. Cogdill, secretary-treasurer; J. T. Elms, A. G. Hemphill, T. Wade Potter, B. M. Harrison, Luther Kirk, M. P. Reed, H. L. Woody, T. S. Hart, E. G. Courtney, Ben Joplin, L. C. Cawthon, Mon D. Thaxton, C. H. Grow is Sunday school superintendent and J. M. Tunnell, lay leader."

COUNTY AGENT ORGANIZES 4-H CLUBS IN LAMB COUNTY

County Agent D. A. Adams is now engaged in a very important phase of his agency work, that of organizing 4-H clubs throughout the county in the various community centers, and while means developing of future farmers and citizens.

Last week at Fieldton an organization was affected with 17 members. Audrey Green was elected president; Edwin Holland, vice-president; and Albert Green, secretary. Prof. O. L. Smith superintendent of the Fieldton schools, was made adult leader. Regular meetings will be held the first Thursday afternoon of each month, and visitors are invited to attend.

This week a similar organization is being made in the Spring Lake community.

The purpose of these organizations is to train the youthful farmers in business and social life, give demonstrations and tutoring in the actual raising of livestock and various kinds of agricultural work, and such other training as will develop them into successful farmers.

COTTON GINNINGS

There were 7,629 bales of cotton, counting round as half bales, ginned in Lamb county, from the crop of 1928, prior to November 14, 1928, as compared to 4,043 bales ginned to November 14, 1927, according to report given out by the Department of Commerce, Washington, D. C.

There are four customs districts in Texas, the Sabine district, the Galveston district, the San Antonio district, and the El Paso district.

There are four customs districts in Texas, the Sabine district, the Galveston district, the San Antonio district, and the El Paso district.

WILD CATS LOSE TURKEY GAME TO THE OLTON SQUAD

Littlefield lost 6 to 0 in the Thanksgiving football game played at Olton, last Thursday.

There may have been more brilliant plays pulled off during the "turkey day" games throughout the state, but there were not harder battles fought anywhere during that day. The contending teams were apparently well matched, fighting backward and forward across the gridiron, often within a few yards of either goal, yet neither squad able to cross the final white mark for the coveted spot until just before the last quarter finished, when Olton scored.

There was a large attendance of Olton citizens to witness the battle; a large delegation from Littlefield present, as well as a generous sprinkling of football fans from all over the county anxious to witness the encounter. It was the last game of the season, and, likewise, the last for many of the lads playing on the Littlefield squad, as they are due to graduate during the coming spring months. Those playing their last game were: Curtis Heard, Ferrel Burford, Donald Love, and Lawrence Thornton. Every lad on the team did his best, numerous brilliant plays were performed, but apparently the breaks were against the locals.

Particularly during the first half of the game Littlefield's goal was in danger several times, but quick strategic action saved it. It was late in the fourth quarter when the Olton team was on Littlefield's 15 yard line, that the lads north of the sand Hills pulled a fake drive plunge and ran around the right end for a touchdown. According to report, one of Olton's backfield men ducked his helmet neatly under his arm and rammed the line, and while the Littlefield lads were backing up this play, the captain of the Olton team, carrying the pigskin ran across the line for the score. Faking a helmet for the ball is said to be a heavy penalty, yet the count was allowed to stand.

This week Coach Tucker began training his men for basketball. There was a good bunch out for practice last Tuesday, and it looks now like Littlefield will have a winning five in the next athletic event of the season.

ESTIMATED LFD. WILL SHIP 1,200 CARLOADS GRAIN

Present indications are that there will be at least 1,200 carload shipments of grain from Littlefield during this year.

Last week a solid train load shipment of 55 cars went out to the eastern markets, and present indications are that around 100 car loads shipments will be made this week. During the month of November there were a total of 126 carload grain shipments from this point.

Since August 1st, this year there have been 3,582 bales of cotton shipped from Littlefield.

SERVE TURKEY DINNER

The ladies of the Presbyterian church will serve a turkey dinner in the old theatre building Saturday at noon, only 50 cents per plate. Come eat with us! 34-1tc

Harding's Father Dies

Dr. George Harding, father of the late President Harding died of a stroke of paralysis at Santa Ana, Cal., at the age of 85. To the last, he was an active man.

SLAKE, MONKEY, OWL, BEAR AND AN AIRPLANE MAKE SERVICE MEN CLIMB

Snakes, owls, monkeys, bears, chickens, and airplanes are among the peculiar hazards which electric men contend with in keeping up service.

Marie, the pet bear of the San Angelo fire department, recently climbed a pole, and as a result a part of San Angelo's business district was without electricity for 15 minutes while the firemen extracted the animal from the wires. She was unhurt.

An ordinary chicken snake put the entire city of Waco in the dark recently when its body completed a short terminal tower near the power plant. The snake was killed instantly and the flash was seen in many parts of the city. A rat likewise paid the supreme penalty at Murphy, a small town in Collin County, when it became inquisitive around high voltage wires.

Near Terrell last winter an airplane banked into a 60,000 volt line but the circuit was broken before the occupants were harmed. Nacogdoches was without lights for a short period one night when a great East Texas owl tried to fly between two wires of an 11,000 volt line. Its wing spread was too great and the resulting short circuit burned one of the wires in two.

The latest peculiar interruption occurred at Wichita Falls, where a tiny monkey clambered over a switch structure.

Although 110 volts at times will kill a husky man, the little monkey was still alive several hours after the accident.

"Employees at the plant started searching for the cause of the short, but failed to find anything until J. W. Lyle, official of the company, arrived at the spot and located the tiny body

crumpled up at the base of one of the switch structures.

"A group of plant employees carried the moaning monkey into the plant office and gave the animal first aid treatment. Three of its feet were badly seared and all fur was burned off its abdomen.

"The accident occurred shortly after 8 o'clock Saturday night. When the monkey was still living more than an hour afterward, the electrical men took the accident victim to the veterinary hospital."

PERSONAL ITEMS

Miss Mamie Burk became the bride of Ed Burk, of Austin, Sunday.

Dewey Humphries, of the M System, has been transferred to Tahoka.

The Methodist ladies will hold a bazaar, December 15th.

Mayor Otto Jones and family spent Thanksgiving with friends in Lubbock.

D. C. Beebe is building a residence on his farm located on the Spade lands.

Charley Clark and Ruby Alexander were married Monday afternoon, Rev. Geo. Turrentine officiating.

Mrs. A. S. Harper, of Las Vegas, N. M., was the weekend guest of Mrs. W. H. Rutledge. She was formerly a Littlefield school teacher.

H. M. Snowden and children, of Tahoka, visited his sister, Mrs. F. R. Jones, Thanksgiving.

R. D. McDonald, of Abeline was the guest of Miss Vesta Henson, Friday.

Mrs. Lena Howard returned to Littlefield Saturday night to spend the day.

Dangerous Business

Our stomach and digestive systems are lined with membrane which is delicate, sensitive and easily injured. It is dangerous business, then, to use medicines containing harsh drugs, salts or minerals, when we are contemplating, in addition to the possibility of injuring the linings of our digestive system, these medicines give only temporary relief and may prove habit forming. The safe way to relieve constipation is with Herbine, the cathartic that is made from herbs, and acts in the way nature intended. You can get Herbine at Stokes & Alexander Drug Company.

Miss Florence Weaver and Bill Jeffries were Lubbock visitors, Thursday.

Mrs. Fannie Williamson, of Oklahoma is visiting her sister, Mrs. W. H. Gardner.

Miss Edith Ratliff and Dewey Humphries were Lubbock visitors last Thursday night.

Tommy McMillan and Johnnie Pollock left last Friday for Dallas to spend a few days.

August Schumaker is having a new residence put up on his land in the Pep community.

Mrs. Sam Garrett, of Wink, spent Thanksgiving here with her parents, Mr. and Mrs. H. L. Snow.

Mr. and Mrs. J. M. Patterson and children, of Odessa, visited Mr. and Mrs. A. T. Parker last week.

The Junior league, of the Methodist church, will meet Sunday afternoon at three o'clock with a missionary program. Mildred Reid is leader.

Misses Vesta Henson, Maurine Irvin, Kathryn Dunnagin and Messrs. Foy Curry and Hack Stewart were in Lubbock, last Thursday night.

L. D. Lynn, of Los Angeles, Calif., is here this week with his family to make this their future home. He will be connected with the M. L. Lynn furniture business.

R. F. Meacham has returned to Littlefield and workmen are this week putting the finishing touches to his brick veneer cottage being constructed in the southeast part of the city.

There were 18 members to attend the Rotary meeting last week. President R. E. McCaskill was in charge of the program. C. E. Willis and

others spoke upon the subject of Rotary, its purpose, growth etc.

Mrs. W. L. Berry and son, J. A. Cornelius, of Throckmorton, spent the weekend with her sister, Mrs. T. A. Henson.

R. A. Davis, J. W. Porcher and Ed White went duck hunting Thanksgiving but reported that they killed no duck.

Misses Roxie Arnn, Edith Ratliff, Robbie Faye Davis and Katie Ratliff attended the football game at Olton, Thursday.

Mr. and Mrs. Paul C. Cuenod and son, Eugene, of McGregor, spent the Thanksgiving holidays with Mr. and Mrs. T. S. Sales.

Mr. and Mrs. J. M. Blessing gave a Thanksgiving dinner Thursday about 25 guests, as follows: Mr. and Mrs. Feets and family, Mr. and Mrs. Rawleigh White and family, Mr. and Mrs. Zed Robinson and family, Mr. and Mrs. Roy Blessing and son, and Buell Belew.

An Unpleasant Subject
All of the functions of life are not pleasant to consider. Perhaps this is why some mothers refuse to think that such symptoms as restless sleep, loss of flesh, lack of appetite or itching nose and fingers in their children, can be caused by round or pin worms. Many mothers have proven, however, that a few doses of White's Cream Vermifuge, that sure and harmless worm expellant, will make these symptoms disappear. You can get White's Cream Vermifuge for 35 cents per bottle from Stokes & Alexander Drug Company.

A young lady asked us the other day what we would give for a voice like hers. We promptly told her, "Chloroform."

The clutch is an important part of an automobile, and around Littlefield it seems to be an important part of the joy-ride.

Over a Billion Deadly Germs in a Single Drop of Water

Germs are so small that there may be as many as one billion, seven hundred million of them in a drop of water. And just a few of these tiny germs, if they get into your blood through a cut in your skin, may make you so sick you will be in bed for weeks—may cause the loss of a limb through blood poisoning—may even infect you with that most dreadful and fatal of diseases, lockjaw.

Just because you can see no dirt in a cut does not mean that it is clean. You cannot see germs. The only safe and sane thing to do, is to thoroughly wash every cut, no matter how small, with Liquid Borozone, to kill the germs, and then dust it with Borozone Powder, to hasten the healing. Liquid Borozone costs 30 cents, 60 cents, \$1.20 and \$1.50; Borozone Powder, 30 cents and 60 cents, and can be had at Stokes & Alexander Drug Company.

The Outstanding Chevrolet of Chevrolet History

- a Six in the price range of the four!

Since the announcement of The Outstanding Chevrolet of Chevrolet History, tens of thousands of people have placed their orders for this sensational new car! Never before has any new Chevrolet ever won such tremendous public acceptance in so short a time!

The new Chevrolet six-cylinder valve-in-head motor is an engineering masterpiece. Not only does it develop 32% more power than any previous Chevrolet motor... not only does it offer sensationally increased speed and faster acceleration—but it provides this amazing performance with such outstanding economy that it delivers an average of better than 20 miles to the gallon of gasoline!

This spectacular performance and economy have been achieved as a result of the greatest group of engine advancements that Chevrolet has ever announced—typified by a new heavier crankshaft... new carburetor, with venturi choke and automatic accelerating pump... new camshaft... automatic rocker arm lubrication... gasoline pump and filter... semi-automatic spark control... and hot spot manifold.

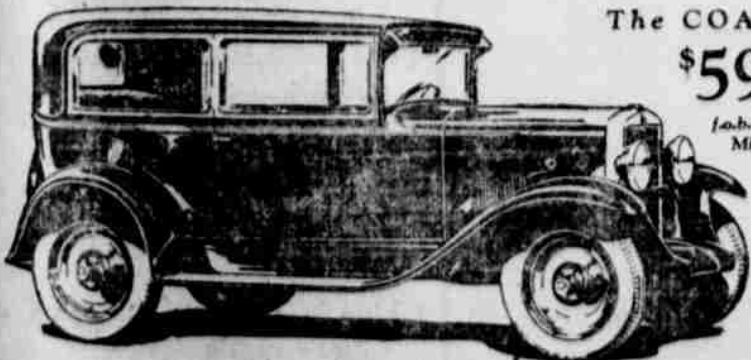

The marvelous new bodies by Fisher are designed for distinctive beauty and style as well as exceptional comfort and safety.

Come in and learn the full and significant story of this greatest of all Chevrolets!

Advance Showings

The Outstanding Chevrolet of Chevrolet History will be displayed in a series of advance showings in the cities listed below:

**NATION IS GOING FORWARD REGARDLESS
OF MOOTED QUESTION OF CHILD RAISING**

"Raising children now days is not what it used to be," remarked a young mother at a recent social gathering in Littlefield. She was a very sensible matron, the mother of two children, one of whom, unfortunately she had recently lost. Her interest and affection had consequently settled in the remaining child and she was bringing to command all the skill, learning and experience of others in her endeavor of success with this little one.

"That raises a question," countered a gentleman present. "I recall when I was a lad growing up the prevailing axiom those days was that of 'spare the rod and spoil the child.' I don't

know how many rods were spared, nor have I been able to even get an inkling as to how many children were spoiled. I have wondered if the situation isn't being somewhat reversed now days, and that people are sparing the child and spoiling the rod. Then turning to a gentleman who had been a husband for several years, he enquired, "If you had children would you demand unquestioning obedience of them."

"I certainly would," came the prompt response, and his wife joined in, said, "I should say so." They had evidently discussed the matter before and arrived at some very positive conclusions. There was a knowing

smile went about the room, and one mother ventured to say, "If they had children of their own it would be different."

But would it? Some parents are that way; some are not. Some think they would be until they have children of their own, then somehow, the children, as they grow up, change the parents' mind. Occasionally parents who think they should be especially strict on their offspring have their attitude and actions considerably modified.

Every child has a right to think and act as an independent rational being with its obligation to certain rules of behavior set down by the parents, so psychologists tell us. But the psychologist also has sense enough to know there are no two juvenile natures alike, nor can be handled by parents in exactly the

same manner. It might be a mooted question as to whether more children are ruined by their parents than are parents ruined by their children.

At any rate, human nature hasn't changed so much since Mother Eve raised a little Cain, and for some cause or other, Cain had a dispute with his brother Abel, which resulted in a total and permanent cessation of all the functions and vital actions of his physical organism.

Raising children in Littlefield is about the same problem it is anywhere else. It is the one subject for discussion that never arrives anywhere. Parents invariably differ in their ideas and methods, but the youngsters keep on growing up into manhood and womanhood, and somehow society remains intact, the nation keeps climbing to higher heights of honor in the galaxy of world's affairs, more of its citizens become noted, honored, praised and applauded, all of whom were one time children, and everyone is entitled to their opinion as to who is responsible, the children or the parents.

PEGGY MUST BE CARRIED

New York.—Peggy must be carried when she rides in the elevators of Turner Towers, an apartment house, according to the ruling of the court. Peggy is a Pomeranian dog owned by James W. Samuels, a Turner Towers tenant. When Samuel Turner, agent, ruled that dogs must be carried in arms in passenger elevators Samuels appealed to the courts. Peggy, he said, likes to stand on her own feet. Mr. Turner said Peggy annoyed passengers.

DECAFFEINIZED COFFEE
Altho decaffeinated coffee may be made as you would natural coffee—either boiled, percolated or by the drip method—it is best when brewed in a drip pot. Heat fresh water to boiling, pour over ground coffee one cup for every tablespoon of coffee and one for pot. Place pot over low flame to keep it hot, but do not boil.

ASPARAGUS AND EGGS
A nice way to combine white asparagus and hard-boiled eggs in salad is to mold them in layers in lemon gelatin. Pimento may be added. Mold in square loaf pan. Serve on lettuce with mayonnaise.

Baby for Sale

Father a college professor; mother cultured and refined; heredity guaranteed. Price—\$30,000

PASSIONATELY devoted to her husband, Marjorie often said she would sacrifice anything for his success and happiness. And now, as he faces failure, disillusionment, despair—all for a lack of money—she sees only one way out. She has heard of women, rich and childless, who would give thousands of dollars if they could adopt a baby, and be sure of its heredity. But as the golden dream of approaching motherhood fill her soul, she wonders if she can go through with it.

True, the secret of her coming baby is still her own. Even her husband does not know—need never know. But can she resist the loving touch of tiny, helpless baby hands that are already closing tightly around her heart? Can she sell her unborn child?

Even while she prays for a miracle that will make this terrible sacrifice, she knows that perhaps the rich woman who comes to her aid could take her "for a few months' travel." The baby could be born—to be another woman's baby.

It all seems so easy. Strife, visions of the helpless little humanity that lives close to—she wonders if she can do anything ever take the place of the little life that, for her, will moment it is born?

Read her piteous story. Vengeance January Ten Magazine. Tune in on Story Hour every Friday, WOR and the Blue Chain. Paper for Blue Chain.

MISSIONARY MEETING
 The missionary society of the Methodist church met with Mrs. Van Clark Monday afternoon for the election of officers. The election of a president was deferred until the next meeting.
 The society will meet next Monday with Mrs. B. L. Cogdil for a stewardship program.
 One of our greatest needs is some way to satisfy a turkey appetite on a hamburger salary.

A CORRECTION
 In reporting an auto accident which occurred in Lubbock last week, the Leader gave the name of J. M. Bridges, this city, as a driver of one of the cars. Later advice is to the effect that the driver was Marvin Bridges, and the correction is gladly made.

THE SCHOOL TEACHER
 Not everybody that holds a position as a school teacher is a teacher. Many fail for various reasons, whereas only a limited few really succeed. If one would succeed in any field, he must first master the important principles that enter into that undertaking. Upon some kind of foundation the teacher is erecting a superstructure. The material is in his hands, his school room is filled with boys and girls with native abilities and capabilities and with ambition more or less developed. The character of the building depends materially on the efficiency of the builder. My fellow teacher, what kind of workmen are we? What is the edifice of our vision? Why are we in the profession as teachers?
 Is one teaching for pecuniary gain? It were better he were in some other work. Yes, we must have money for the necessities of life; but he whose chief incentive to teaching is salary is unworthy of the trust committed to him. He should seek money where it may be had at less expense to others.
 Some may teach as a stepping stone to other things. Grant that teaching is a good stepping stone and that one may by that means ascend, our interest is not in the rising of a single individual, but in the elevating of the race. Why should one rise to position, if by his rising a score or more of deserving young people are held in check and possibly discouraged for life?
 Surely pride is not our incentive. A degree of self-esteem is commendable, and we may well be solicitous of reputation and good will, but one cannot succeed with no higher ideal than that of vain pleasure in community praise; nor need we be surprised if our conscientious efforts are not appreciated. A teacher should endeavor to honor the profession rather than be honored by it. Why should he desire honor thrust upon him by the mere apparent filling of a position which others by honest

effort and good service have elevated and made ready to his hand?
 —John R. Freeman, President, Littlefield College, in Apostolic Way.

The only animal we know of in the world that has hind-sight is the mule and he kicks about it.
 The Bluebonnet is the state flower of Texas.

50c FAST SUITINGS ARE NOW 39c

The price quoted on this will undoubtedly impress you that there is some mistake in print, but this 36-inch fast suiting in some of the best fall shades, all regular 50c values will be sold during this month for only 39c the yard.

39c

\$2.50 SILKS ARE NOW \$1.49

We have found among our silk stocks a few pieces of Flat crepes in dark shades, short pieces, ranging from 3 to 10 yards, some navy in the lot and only 1 lot sold for less than \$2.50 and one for \$3.50, all will be sold this month at \$1.49.

\$1.49

50c FIGURED BED TICKING 39c

Fine quality satin finish figured bed ticking, the kind that will hold feathers; fine combination of colors. Values like these are a buy feat for those who desire quality at prices much lower than usual.

39c

\$1.25-\$1.50 UNDIES ARE NOW 98c

\$1.25 to \$1.50 Rayon Bloomers, Slips, Step-ins—extra good quality—in all the new shades. Selling at this price will be somewhat of a loss to us, but we are disregarding the making of profits during this month.

98c

\$2.50 Part Wool Indian Blk's \$1.95

66x80 part wool Indian Blankets in new patterns and Indian designs. Delay will mean certain disappointment because with offerings like this the crowds will be tremendous. Come down early and make your selection.

\$1.95

\$1.00 SILK HOSE ARE NOW 89c

Think of buying a pure thread silk hose for only 89c. But that is exactly what you are able to do during this month. We have them in all the new shades. Better lay in a supply at this price for they are bound to go higher afterwards.

Goods Co. :-
TEXAS.....

LAMB COUNTY LEADER

Published every Thursday afternoon at Littlefield, Texas.
Subscription: \$1.50 per year; 75 cents for six months.
Advertising rates given upon application.

No. Entered as second class matter May 24, 1923, at the post office at Littlefield, Texas, under the Act of March 3, 1897.

JESS. MITCHELL, Editor and Publisher

Subscribers who change their addresses, or fail to get their paper, should immediately notify this office, giving both new and old addresses. Communications of local interest are solicited. They should be briefly written, on only one side of the paper, and must reach this office not later than Wednesday noon of each week. The right of revision or rejection is reserved by the publisher.

Advertising that does not show in its text or typography that it is paid for must be marked as an advertisement. All local advertisements remain in this paper for the time specified or until ordered out. All notices, it matters not by whom nor for what purpose, if the object is to raise money by admission fee or otherwise, is an advertisement and when sent in for publication must be paid for at the regular advertising rate per line for each issue printed.

Obituaries, cards of thanks, and resolutions of respect will also be charged for at the same rate.

Any erroneous reflection upon the character, standing or reputation of any person, firm or corporation which may appear in the columns of the Littlefield Leader will be gladly corrected upon its being brought to the attention of the publisher.

In case of errors or omissions in local or other advertisements, the publisher does not hold himself liable for damage further than the amount received by him for such advertisement.

A THOUGHT FOR THE WEEK

All flesh is grass.—Isa. 53:7.
Our humanity were a poor thing but for the divinity that stirs within us.—Bacon.

APPROACHING

Advertisements are beginning to appear with decorations of holly and mistletoe and smiling faces of Santa Claus. To the observant these ad-frescoes tell their own story, give their own warning, hint at the important business from which none is bared and in which sooner or later everybody will be engaged.

In other words, Christmas shopping. The holiday is less than a month ahead. In no time these days will pass. The natural procrastinator will wait until Christmas eve when store aisles will be jammed by other procrastinators, stocks picked out, clerks weary, customers in a flutter, clocks ticking time's rapid pace, all because the reminders of today have been neglected.

Every year more sensible persons do their Christmas shopping early. They reap all the advantages in variety of selection and leisure of choice and when Christmas eve comes they can proceed about their last-minute holiday tasks orderly, while the others fume and sputter.

Americans are a great people never to do today what can be done tomorrow. The postmaster has urged early posting of Christmas mail, but the last days will probably be bigger than ever. The train leaves at 5:45 but the cars do not fill until 5:44. We get there even if we are a last-minute nation, but it is at a tremendous cost of physical energy and mental upsets. The Christmas shopping season is merely one phase of a national temperament.

COMMON PURPOSE

Anthropologists tell us that man in his early state lived apart with his own little family, and archaeologists say the first communities were formed by confederated families brought together for a common purpose—protection against man's natural enemies. Today, man is distinctly a gregarious animal attracted more and more to community life. And men still build cities for a common purpose, or common purposes.

In the city one finds protection against fire, disease and the enemies of society. One goes to the city for good schools and monumental churches, paved streets, employment, art, entertainment, the society of other men and comforts of life de-

nied the rural citizen. There is found the front rank of civilization.

The people of Littlefield have a common purpose. It is the advancement of the community as a whole. That common purpose is hardly distinguishable from the purpose of each individual. That which benefits the individual usually benefits the entire community and that which benefits the community reacts to the benefit of each of its citizens.

Prosperity and progress come to those communities whose citizens have their eyes upon the largest number of common purposes. Success crowns the efforts of the man of purpose, and the city with a common purpose works as one man.

"Common purpose" creates new industries, increases business, minimizes unemployment, makes cities better places in which to live and performs miracles in community betterment.

GETTING AHEAD

Forty years ago Axel Gulbransen, then a boy of 13, got a job sand-papering pieces of wood in an organ factory. We read that today he is at the head of an organization capitalized at \$5,000,000, and if there ever was a lesson to the growing boys around Littlefield here it is. This little Swedish boy just made up his mind to do the very best job of sand-papering he possibly could. And so he went up—always putting his full capacity into every job.

The difference between the few who get ahead and the many who do not is that one thinks of a job as a stepping stone to something else, to something bigger; the other thinks of what he will do when the whistle blows at quitting time. You may not be able to make your boy see it in this light. But if you can you've started him on the road to success just as surely as the sun will appear in the east tomorrow morning.

THIS MAY HELP

Good news reached this country from London recently in the shape of a message to the effect that Great Britain's attempt to form a rubber monopoly in the Dutch East Indies has failed. It probably means that she won't be able to shoot the price of crude rubber to three or four times the normal price, as she did about a year ago.

And that means we will continue to get tires at a reasonable price, a matter of considerable interest to every auto owner in the United States. With Firestone buying rubber plantations in South America and Ford beginning the operation of vast

tracts in Brazil and Liberia, it looks as though Great Britain's hold on our throats has been broken, and that ere many years she will have lost control of the crude rubber supply of the world.

It doesn't take much space to tell it, but it's certainly a mighty interesting piece of news.

LITTLE LEADERS

Home is still a Littlefield boy's idea of the best filling station—and he patronizes it three times a day.

The reason a Littlefield woman can hide her age easier than her husband

can is because it's impossible to dye a bald spot.

We've also noticed that the Littlefield man who is liberal with his promises is also liberal with his excuses.

What has become of the old-fashioned Littlefield girl who used to go into a decline when she was disappointed in love?

The trouble with some Littlefield people is they are not satisfied to

take the world as it comes; they to take more than they can away.

Here's One New Car
With Style that's Really New

No duplicate of this car or that one... the New All-American Six. But a smartly original creation... with specially designed bodies by Fisher... with style that's strictly its own. A car that you recognize instantly... one that stands out in any crowd. Because it has that air of being different... that air which distinguishes a leader from the rest of the field... Just what every American wants in an automobile. Pulse-stirring performance... comfort... luxury... distinctive style. And America is giving it a marvelous reception... a motor-wine nation's welcome to a new and triumphantly different car.

Prices \$1145 to \$1575, f. o. b. Pontiac, plus delivery charges. Lower Hydraulic Shock absorbers and spring covers included in list price. Bumpers and rear fender guards extra. Check Oakland delivered price—they include lowest handling charges. General Motors Time Payment Plan available at minimum rate.

SOUTH PLAINS MUSIC COMPANY'S ANNOUNCEMENT

We are glad to announce to the people of the South Plains territory that we have secured the agency for the—

WORLD'S FAMOUS BALDWIN PIANOS

And it is indeed gratifying to us that we have secured the agency for this great line of pianos in this territory, and that this store will, in the future be the home of the Baldwin Pianos.

To those who have purchased this famous piano, we want to say that you have the best piano that money and skilled labor can produce. To those who are thinking of purchasing a piano in the future—why not buy the Baldwin—the world's best piano—and you take no chances. Ask any man or woman who owns one! We carry a full line of these pianos, and you can buy them at prices and terms that will suit anyone's pocketbook.

WE ALSO HANDLE RADIOS, TALKING MACHINES AND RECORDS

We carry a complete line of Brunswick and Victor Talking machines, Radiolas, Radios, Records, Sheet Music and Musical Merchandise—the best place in West Texas to buy anything in music. Write us for terms and prices.

SOUTH PLAINS MUSIC COMPANY

Next door to Post Office,

LUBBOCK, TEXAS

TO "SET" COLORS

A teaspoon of Epsom salts added to a bucketful of water will set colors most effectively. Soak the fabric in the solution, then wash in the usual way.

Cotton, wheat and gasoline, are the three leading exports of Texas in the order named.

Every square mile of air above the earth's surface carries twenty million tons of nitrogen, enough to last the world twelve years. Any way of getting that nitrogen out of the air cheaply would be marvelously important, to farmers especially.

Texas has valuable deposits of gypsum with manufacturing plants using this material at Quanah, Sweetwater, Plasterco, Hamlin, and Rotan.

Historic Papal Robe

Among the interesting relics preserved in Notre Dame cathedral in Paris is the robe worn by Pope Pius VII at the coronation of the first Napoleon.

Births in London

A new life is born in London every three minutes of every 24 hours, but of the babies born more than 10,000 die before their second year.

FARM STOCK

BIGGER TEAMS TO INCREASE POWER

In general, the more power a man uses or directs at a profit, the greater will be his income. A. L. Young of the farm mechanics department, college of agriculture University of Illinois, points out in showing the value of large teams in farm work.

"There are, of course, practical limits to the amount of power that can be used profitably, and this amount will vary a great deal with the kind of work as well as with the man.

"If a farmer uses horses as his source of power when doing field work, he must, if he wants to make his own time or that of his helpers count for as much as possible, use reasonably large teams and implements. Certainly the man who uses six horses and plows between five and six acres a day, is making better use of his time than another man who uses two horses and plows two acres a day.

"On some implements, and particularly on plows, it becomes necessary when using the larger sizes of teams, to hitch the horses in tandem. This must be done to avoid the side draft that exists when the horses are hitched abreast. With four horses abreast on a plow with two 14-inch bottoms there is usually from 18 to 22 inches of side draft, which is enough to cause both plow and horses to work at a great disadvantage.

"As a rule one will not want to use less than four horses in tandem. If these are used, two in front and two behind, on a two-bottom plow, they will probably have to be kept pretty well separated (from 44 to 52 inches, center to center of horse) to keep the line of pull on or near the line of draft. Five horses, two in front and three behind, with a distance of about 32 inches from center to center of horse, will pull two 14-inch bottoms with practically no side draft. Where the ground is especially hard to plow, or under other adverse conditions, six horses (preferably hitched three and three rather than two and four) can be used on a two-bottom plow without excessive side draft. As many as seven horses (hitched three and four) have been used on a two-bottom plow, but this necessitates having considerable side draft.

"In a few cases Illinois farmers are using eight horses on three-bottom plows. This seems to be about as large a team as is practicable unless the team is strung out until there are three or possibly four or five horses in tandem. These very large teams, of from 12 to 20 horses, are being used to considerable extent in sections of the country where farms and fields are large. In the corn belt section it is the use of more five to eight-horse teams that should be emphasized."

The Outgoing and Incoming Presidents

Calvin Coolidge is to give up the reigns of office to Herbert Hoover, who it is believed will closely adhere to the policies formulated by his predecessor. Both men are more given to action than to words, and have marked business and executive ability. Calvin Coolidge has been nominated for many offices, never suffering a defeat, but Herbert Hoover has not engaged in politics before. The many important offices he has heretofore held have been appointive offices.

PREVENT HOLIDAY FIRES

How terrible it is to read the newspaper accounts of fires at Christmas time. This is the happiest season of the year, especially for children, but fires often bring suffering and death, creating a roaring furnace of flames where but a short time before had been a joyous home.

Yet simple precautions will prevent holiday fires:

When using a candle in your window, be sure it is an electric one, properly wired, as they are generally safe.

If you have a Christmas tree, set it up securely so it cannot topple over

Don't place it near heating or lighting fixtures.

For trimming the tree use only noncombustible materials such as meal tinsel, flake asbestos and powdered mica for snow effects.

For illuminating the tree, lighted candles should never be used. Properly installed electric lights are safer and give a colorful effect, but safest of all is a colored spotlight focused on the tree.

Again it is necessary to caution smokers to be careful with their matches and smoking materials near trees and decorations. Of course, keep matches out of the reach of small children.

JIM HARLESS, Clerk

Better Sheep as Result of New Grading Process

Grading and selling co-operatively has helped materially to improve the live stock of Allegheny county, Virginia, according to information received by the United States Department of Agriculture from County Agent S. B. Surber. Referring to the grading and sale of sheep, Mr. Surber contrasts the old method with the new. "In the old way," he says, "it was the same price to everybody, but under the grading plan the best lambs bring the most money. Our farmers soon learned that if a neighbor had better lambs he received a higher check. This induced them to take notice of what neighbors were doing. It was not long before those with inferior breeding stock obtained better bucks and also gave their sheep the stomach-worm treatment. Briefly, grading has done a great deal toward increasing the use of better bucks and toward the better care of lambs."

The local association has been shipping about 4,000 lambs each year with satisfactory returns to owners.

Live Stock Notes

Pig vaccination is cheap insurance.

A sow should not be given full feed for a week or ten days after farrowing.

A heated waterer in winter for fall pigs paid a good profit in tests at Ames.

Sheep are much less troubled with lice, possibly for the reason that they are regularly dipped to rid them of ticks.

Hogs are notoriously subject to infestation by sucking lice, especially in old, insanitary houses.

Grooming cattle with raw linseed oil on a hard brush has been recommended as a sure method of ridding them of lice.

If possible keep the ewe and lamb in a separate pen for a few days after lambing. If each ewe cannot be kept in a separate pen, only those having lambs at about the same time should be kept together.

THE PALMER SCHOOL OF CHIROPRACTIC
Chiropractic Fountain Head Home of Radio Station WOP
DAVENPORT, IOWA

A REAL OPPORTUNITY!

Chiropractic is universally recognized as the foremost drugless health science. Its fundamental principles are readily explained, and are as readily understood by the intelligent mind. Millions of cases have been restored to health by the competent application of these principles, and in thousands of cases Chiropractic has proved successful after medicine and other methods had failed to get the patient well.

Graduates of The Palmer School of Chiropractic are engaged in the professional practice of Chiropractic in every state of the United States, and in practically every foreign country and territory in the world.

A real opportunity is presented to ambitious men and women who desire to become members of this great profession. Public recognition of the tremendous health benefits embraced by Chiropractic is growing constantly and the services of conscientious and well-qualified Chiropractors are ever in demand.

You are asked to investigate the merits of Chiropractic, because its record of achievement in restoring the sick to health can successfully challenge that of any other known health method.

Call at my office for free consultation concerning the merits of Chiropractic for any particular ailment you may have. Also, I shall be glad to talk with you about the advantages of becoming a Chiropractor.

Office Hours: 9-12 a. m., 2-5 p. m., and by appointment.
Phones: Office 124, Residence 63.

DR. MAYNARD V. COBB
Chiropractor
Palmer Graduate

INTEREST IN DAIRYING GROWS IN LAMB COUNTY; FARM AGENT OBTAINING ORDERS FOR CARLOAD OF HIGH GRADE COWS

Interest is being manifested in Lamb county in dairying. D. A. Adam, county agent who has been working for the past few years on the work of getting pure-bred dams and males onto the county. This is one of the most important links in the diversification of the county being carried on almost universally by the farmers here. The highest production for the amount of feed fed, one should get, and bulls into the herd have been bred for high production. The most interest is being shown in Jerseys, and some few farm-ers are wanting some Guernseys. The county agent is wanting to help the farmers of this county get these, and the biggest help in pool-ings of all farmers that are

wanting good cows, and bringing them into the country in car lot shipments, which to a great extent cuts down the initial investment. D. A. Adam county agent reports that he has gotten in touch with several breeders who will sell high quality cows and bulls reasonable enough, but it will be almost necessary to get these in car lot shipments or the expense of moving them will be too great. Grade cows all through the plains country are selling for \$65.00 to \$100.00, and the production of just the ordinary amount, when an addition of from \$25.00 to \$40.00 you can get cows, bred heifers, or bulls that have been bred for high production for several which will produce twice the amount of milk, with a great butterfat content, with the

same amount of feed fed. Bull circles are going to be organized, wherever the interest warrants the county agent to begin work on it. All farmers that are interested in bringing into their herd some pure-bred dams or bulls by early spring should get in touch with the county agent so that he might pool the order of all those interested. Jack Sudberry of the Spring Lake Community has begun this work, and several registered high producing cows have been added to his herd and the grade animals done away with. The county agent usually knows where good cows are to be found, and is always ready to help anyone select a cow that fits his herd, and will go with him to help in the selection, if the party wanting the cows is desirous of his doing so. Get in touch with the county agent at once, by card, letter, or personally in order that he might be able to fulfill your needs in the dairying lines. Cows should be brought as soon as possible in order to start the

work of building up the grade herds of Lamb County.

THINK THIS OVER

At this grocery no one stands ready to sell you something "just as good." Here each can of food or package of merchandise is guaranteed to meet your approval. Each item is of proven quality and at the lowest possible price at which it can be sold. On your table the grocery values selected here are most appreciated. Every mouthful is enjoyed by the entire family—each meal a pleasure to prepare when choice groceries are used. Superior goods cost no more in the long run—and do make satisfied customers.

BUY YOUR COAL NOW!

EDITORIAL

We must admire the courage of the woman who saved nine lives in a Chicago fire. The flames were flaming fiercely from the pile of burning rubbish in the basement when she grabbed her pet cat and escaped unharmed.

A COLD DECK

A farmer seldom looks at the thermometer. What's the use? The chores have to be done anyway.

"What is the best way to find out what a woman thinks of you?"

"Marry her and then wait a few days."

If you can't beat the bass drum and are unwilling to carry it, fall into the procession and help others carry on the work of attracting capital and

It will never be any cheaper nor any better. We handle the famous Colorado "Nigger Head" Coal, a strictly high grade coal good as the best and better than the rest. We also have cheaper grades. It does not pay to do without fire the wintry days. A doctor bill will soon run to more than the cost of a ton of coal, besides the suffering one undergoes in sickness from doing without. Better phone us for a load to be delivered promptly.

development to your town.

Well we see some of the stores are getting decked out in their annual's Christmas finery.

FAIR ENOUGH

Doctor: "I'll examine you for fifteen dollars."

Patient: "All right Doc, and if you find it we'll split." You may seem just as queer to the other fellow as he seems to you.

FINANCIAL NEW

Men have their and women the figure.

AN OPPORTUNITY! ...FOR STOCKMEN...

WHY NOT OWN A RANCH WHERE YOU CAN FINISH FOR MARKETS AND ADD TO YOUR PROFITS EACH YEAR.

Several real buys in small ranches out of the famous Yellow House Ranch on the South Plains of Texas, in Lamb and Hockley Counties, as listed below. All these tracts are located convenient to railroad, splendid schools, good towns, and surrounded by the greatest agricultural development in Texas where feed is plentiful.

This section is destined to be one of the best finishing grounds in the South, and the small rancher here will have an advantage worth-while.

14,000 acres, including Yellow House Ranch headquarters improvements. No better cattle or sheep range, with plenty of good agricultural land that will increase in value. Fenced and cross-fenced. It will pay you to investigate this promptly.

Price \$15.00 per acre. Liberal terms, 6% interest on deferred payments.

2500 acres. One of the best little combination propositions, in this section, splendid location.

Price \$15.00 per acre. Reasonable cash payment, liberal terms on balance, 6% interest.

4500 acres. Two miles from \$30,000.00 brick school building, store and gin. Fine location and splendid little ranch, with plenty of good agricultural land.

Price \$16.00 per acre. Liberal terms, 6% interest.

3500 acres. Mostly enclosed with sheep proof fence. Splendid location and includes some good agricultural land.

Price \$16.50 per acre. Liberal terms, 6% interest.

3000 acres. A splendid little ranch and all the good farm land needed.

Price \$16.00 per acre. Liberal terms, 6% interest.

Also, smaller combination farm and ranch tracts, if desired, at attractive prices.

In addition to these combination tracts, we have some fifty thousand acres of 100% agricultural land surrounded by development in tracts of 177.1 acres each at \$30.00 and \$35.00 per acre. One-fifth cash, balance liberal terms, 6% interest.

It will pay you to investigate these propositions at your earliest convenience, as these lands are selling and the country developing rapidly.

Now Is The Time to Buy!
