# Commissioners Hear Mixed Evidence On Weed Control

**Hooper Stands Firm**

## No Mayor For Olton

OLTON—City hall is still without a full-fledged mayor.

Carl Hooper stood firm on his earlier announced intention and told the City Council Tuesday night that he could not take the job.

He told the council that his farming and other activities prevented him from taking the task offered him by voters more than a week ago in a special election to fill the mayor's post.

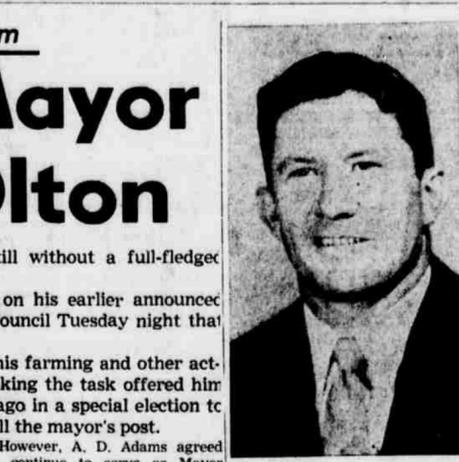

## Bawcom Looted Of \$272

Burglars took \$272 Monday night from an unlocked safe at Bawcom Magnolia's warehouse office. Reported to Littlefield Police at 8 Tuesday morning, officers said that the warehouse front door was pried open and the money taken from the cash box in the safe.

The door to the cash box was broken, but the heavy door to the safe was left open.

Casts of footprints around the building were taken by Police Chief F. A. Fitzgerald, but at noon Wednesday no definite clues were available.

The burglary was the fourth in as many weeks in Littlefield, none of which have turned up any charges being filed.

**Kelly Is Named Amherst School Superintendent**

AMHERST — Lamar Kelly, who came to the school here six years ago as the high school football coach, has been named superintendent of school by the board of education.

He will replace Elmer C. Watson, who had earlier offered his resignation, effective in June at the end of the current school term.

Kelly has served as principal at the school this year.

The new superintendent was a graduate from Southwestern State College in Weatherford, Okla. with a bachelor degree. He also attended Texas Tech and Western State College in Gunnison, Colo., where he received a master's degree.

## Second Hearing Slated Jan. 20

Lamb County Commissioners rescheduled a hearing on whether to call a weed control district election after the first hearing Monday failed to present sufficient evidence that such a district be formed.

The hearing came at the regular meeting of the commissioners court. About 30 persons expressing interest in the weed control district were present.

Commissioners held the hearing Monday after a petition bearing names of Jim Ramage and 115 other Lamb County property owners was presented them asking that such a district be created in Lamb County.

Sentiment at the Monday hearing was split. Some favored the district, and others voiced strong evidence that the district should not be created.

County Judge Pat Boone Jr. said one of the opinions voiced by the opposition was that control of noxious weeds should be taken care of by individual land owners rather than on a governmental basis.

Both bindweed and Johnson grass have been discussed and would probably be included in the weed control district, but the noxious weeds would be designated by the board of directors of the district.

Another point presented by opponents of establishing the district was the fact that bindweed, considered noxious to farmers, is looked upon as a good forage plant by ranchers.

Judge Boone said that the district could be arranged to exclude all land that had as much as 160 acres of permanent grass, and satisfy the ranching portion of the county's landowners.

In explaining the rescheduling of the hearing, Judge Boone said that since there were more than 100 names on the petition favoring the creation of the noxious weed control district that the court did not feel that enough persons were present at the hearing to let the commissioners have

## Williams, Smith Enter Pct. Race

Two candidates announced Wednesday for precinct 3 commissioner, making it a three-man race. Gene Williams, an area farmer who lives at 721 E. 13th, and Skipper Smith, labor association worker, both said they will run for the post.

Already in the race was J. L. "Roy" Yeager, who now works for the county as Precinct 3 maintenance foreman.

The incumbent commissioner, Bill Jeffries, has announced he will not seek re-election.

One other man, Clarence Davis, filed for the post earlier, but has withdrawn from the race.

Only other candidate to announce this week was J. L. Drake, who said he will run for constable of Precinct 4.

Deadline for candidates to file with Pat Boone, county Democratic Executive Committee chairman, is Feb. 1.

## Murder Case Changed To Littlefield

Dist. Judge E. A. Bills has ordered a change of venue from Muleshoe to Littlefield in the trial of Al Griffin, 32, on a charge of murder with malice in connection with the fatal shooting on Sept. 12 of Muleshoe handyman, Grover Tapp, 70.

The special venire of 100 called for prospective jury service was almost exhausted when the second day of questioning came to a close Tuesday. Of the 100, only 20 of the venire remained. Six jurors had been selected.

The change of venue will move the trial to Littlefield also in the 104th Judicial District. Trial date has not yet been set.

Of 54 veniremen questioned Monday and Tuesday, four jurors had been selected Monday and two Tuesday. Twenty-four had been excused.

When court adjourned Tuesday, Judge Bills, with agreement of defense and prosecution, called the remaining 20 veniremen and asked if they had fixed opinions

**BRING ON THE CANDIDATES**—Here is the paper to fill out to file for office and here is a fountain pen ready to sign on the dotted line. Miss Johnita Gallini seems to be saying. She is secretary to the Lamb County Democratic Chairman, Pat Boone Sr., standing. They remind all who intend to seek of rice via the Democratic party's primary route that they have only 19 more days in which to file for a place on the Democrat's primary ballot.

## Chamber Cuts Budget For '60, Banquet Set

By WENDELL TOOLEY

The board of directors of the Littlefield Chamber of Commerce adopted 1960 budget, reviewed the 1959 budget and laid plans for a February banquet at a meeting Tuesday night in the C-C offices.

President Arnold Neumann was in charge at the meeting. Perry Pressley explained the 1959 budget and C-C manager Don Page outlined the new budget.

The 1960 budget is \$10,780.00. Page said this was very similar to the actual amount collected from members in 1959. The budget set up for 1959 was around \$13,000.

Page outlined some economies in the operation of the chamber for the new year and also emphasized his personal interest in getting new members as well as spending more time with present members.

The annual banquet is set for February 11 in the High School Cafeteria.

The program will include the presentation of outstanding area farmer and a woman of the year. The agriculture committee of the chamber will make the outstanding farmer award, the Woman's Club will make the woman of the year award. A & B Office Supply will sponsor this award.

Speeches will be made by Joe Cannon, executive assistant to the

Governor of Oklahoma, Bill Clinton, Oklahoma's Secretary of State, and Jackie Cornelius, president of the state's agricultural committee. Whit Pate, assistant to the Governor of Oklahoma will be the master of ceremonies for this group of Okies.

Musical entertainment has not been selected at this time.

Page reminded the group that only 200 seats are available. Therefore, only members of the Chamber of Commerce will be offered tickets to the banquet. Should there be any tickets left after

they have been solicited, then the general public will be able to purchase tickets for sale.

The board also approved the committee appointments for the 1960 Chamber Committee heads. A work program will be organized by these committee heads and members of the chamber next week in an all week brainstorming schedule in the offices. Attending the meeting were Page, Neumann, Pressley, Bob Manley, Clint Griffin, Wendell Tooley, Clarence Davis, Jean Bruck, Kenneth Reast, and Kenneth Ware.

## Cats Capture Second Win

Littlefield's Wildcats came up with their second basketball victory of the season Tuesday night, shocking favored Seagraves, 48-48. The Wildcat B-Team also won 43-37.

The victory was sweet revenge for Coach Bill Harmon's team, who had lost to Seagraves twice earlier in the season.

The win also broke a seven-

game losing streak for the Cats and made their season record 2 wins, 14 losses.

Jerry Koller and Ronnie Rice paced the Wildcat attack with 15 and 14 points, respectively. Richard Thomson and Weldon Pace got seven each.

The Cats gained a 28-22 half-

## W. E. Mitchell Selected Outstanding Supervisor

W. E. Mitchell, zone 5 supervisor of the Lamb County Soil Conservation District, has been named the outstanding supervisor in the district for 1959 and will receive an award from the State Bank and Trust Company, Dallas.

Mitchell's selection was announced by C. A. Duffy of Amherst, chairman of the banker's committee of the county.

The supervisor will get a plaque for outstanding work in promoting soil and water conservation in the district.

Mitchell and his wife and daughter live on their 160-acre irrigated farm four miles northeast of Spade. Mitchell's farm definitely shows signs that he is a firm believer in conservation.

He has strived through the years to improve the productivity

of his land and this year has started a bench leveling project around a lake in the southeast corner of his farm. He plans to make irrigated pasture of about 15 acres of the bench area. This will work in well with his livestock program of raising his own feed and providing pasture for his cattle.

Mitchell has developed a sound conservation cropping system, which consists of crop rotation of low and high residue producing crops. In addition he uses soil improving crops such as vetch and rye and cowpeas in his crop rotation to keep up the fertility level of his soil.

Mitchell also uses cotton burs and fertilizer to increase crop yields and improve the organic

## Sudan Baptists Slate Dedication Day Sunday

SUDAN — Fire that gutted the First Baptist Church here in December of 1958 was turned into an occasion for progress by the church's congregation.

The congregation will have special dedication services for their new church Sunday — nearly a year and a month after the fire struck.

Lamb County friends of the church are being invited to the services, and view not only the new building, but the new equipment.

Services include regular morning services with Sunday school at 9:45 a.m. and worship service at 11 a.m. Rev. Franklin Swanner of Plainview will be the main speaker for the morning.

Dedication service that afternoon will begin at 2:30 p.m. with J. P. Arnold, chairman of the church's deacons in charge. Guest song service leader will be Weldon Goar of First Baptist Church in Muleshoe.

Former members of the church and charter members will be recognized and visitors will be welcomed next on the program. Rev. Ellis Todd, Sudan Methodist pastor, will read scripture after which the church members will make a special offering to be used to pay for the new hymnals.

Mrs. Hubert Austin will bring the special music for the dedication, "Bless This House," accompanied at the organ by Tommy Cate.

LeRoy Fisher, a deacon of the church, will offer the dedicatory prayer, after which the choir will sing "To God Be the Glory."

Pastor of the church Rev. Hubert Austin will preach the message of dedication, followed by a reception in the church vestibule.

Night service will feature the Lakewood Laymen's Choir, directed by Melvin Newman in a sermon in song presentation. Mrs. Billie Timmons, also of Lakeview, will be accompanist at the organ.

When Sudan Baptists' building burned December 14, 1958, the church began seeking for an answer to their needs for a new building, and appointed a committee composed of Joe West,

chairman, Drew Watkins, LeRoy Fisher, Paul Chisholm, Wallace Gosdin, Henry Gilbert, Richard West, and Doyle Watkins.

Plans were made and construction on the new building was begun in August 1959.

The building is now complete, although landscaping has yet to be taken care of.

At a cost of about \$125,000 the church constructed a brick veneer building with a seating capacity of 475, and an educational wing of 14 classrooms. Included in the building is a church kitchen, church office and pastor's study, all of which have new appliances and furniture, donated by mem-

amount of time and money which he pharmaceutical industry expended to find and develop the drug. However, \$15.00 worth of this medicine is sufficient to clear up a case of pneumonia in about a week. Twenty years ago, pneumonia killed one out of three cases; if you survived, it cost five weeks in the hospital plus a long convalescence at home. Medical bills ran up as high as \$300 or \$400.

It all adds up to the fact that good medicine comes only after much expensive research. Americans must pay for this research before the cost of the medicine can go down.

I don't know what aspirin used to cost, but I still feel that it is the best medicine on the market. You can use it consistently for years and years and it will never lose its effect.

I'm reminded of the old boy who went to the doctor and the doctor after examining him said, well, this is bad, you have a common cold. "If you had pneumonia we could cure it, but there is no known cure for a bad cold."

On the department store front this week it's more mark-downs of the January Clearances at Ware's and Anthony's. Beall Bros. have slashed prices on their "last of Dunlap's merchandise."

The hosiery departments of both Ware's and Little's have the annual sale going on Hanes seamless stockings.

Old Johnny Johnson down at Perry's has a big annual sale beginning.

Of course you can save enough this week in grocery buys to pay for your year's subscription to the paper by shopping the grocery advertisements each Thursday and Sunday.

Bill Kimbrough and all the soil boys... and all the fertilizer companies remind you, "Don't Guess, Soil Test."

And in closing, YOU'RE NOT SO OLD.

So you're getting along in years and haven't yet made a name for yourself? Here are some words of comfort from some research people who looked into the histories of about 400 famous men, each one the most outstanding statesman, painter, warrior, poet, or writer of his time. Of the group's greatest achievements, 33 per cent came when the men were between 60 and 70; 23 per cent when they were between 70 and 80; and eight per cent when they were more than 80. In other words, 66 per cent of the world's greatest work has been done by men past 60. Feel better?

## Sewing Idea: Togs For Dogs

BY DOROTHY ROE  
Associated Press Women's Editor

Now that dogs have become as fashion-conscious as people, dog-owners are taking up Fido sewing. Togs for dogs the latest fad for home seamstresses, who have found that making dog clothes is as much fun for adults as making doll clothes is for little girls.

Local sewing center experts suggest felt, wool flannel or corduroy as suitable fabrics for dog coats. You also can make a doggy raincoat of plastic fabric — this latter idea has its practical side, because it keeps Fido from shaking rain water all over the rug when he comes in from his constitutional.

The coats may be lined if the dog lives in a cold climate.

You can make the dog coat from a standard pattern, available at most pattern departments in stores throughout the country. One has a contrasting felt collar, pockets and bow trim. The other achieves a sporty look with gaily checked bias binding.

The measurement for a dog coat is taken along the dog's spine from the collar bone at the base of his neck to the base of his tail. Included with the pattern is a complete chart of fabric yardages required for dogs of all sizes. The coat requires four buttons or

## Administrators At Schools Get New Contracts

Contracts for administrative personnel in the Littlefield schools were renewed by the board of trustees at a regular meeting here Monday night.

Dr. Ralph Schilling, superintendent, was given a new three-year contract, replacing one which had two years to run.

New two-year contracts went to Sid Hopping, school tax assessor collector; Glenn Reeves, high school principal; Forrest Martin junior high principal; James Hine elementary principal; Paul J. Jones, primary principal; Bill Brune, secondary education coordinator; and Don Williams, head coach.

In other business, the board employed Mrs. Dan French of Littlefield as a sixth grade teacher to replace Mrs. Glenn Reeves, who resigned effective Jan. 15. Mrs. French will begin work Monday.

Much of Monday night's discussion was of a proposed vote to increase school taxes. Board members did not call the election, but did plans so that they might set a date for the vote at their next meeting, Feb. 5.

# Sudan Baptists Plan Dedication Sunday

(Continued From Page One) Their new auditorium exceeds by about 100 the seating capacity of the old auditorium. Contractor for the new church building was Hammock Bros. Construction of Lubbock and Herbert Brashear was the architect. The church was organized in 1921 with 17 members, and today has 476 resident members, according to records that were partially charred in the fire. Eight of the charter members are still living, and several are expected to be present for the dedication services.

The charter members include Mrs. Gus Bellamy of Sudan, Mrs. Carrie Lee Bishop of Kingsville, Mrs. L. E. Slate of Sudan, Mrs. W. A. Long of Hereford, Mrs. Dewey Stephens of Anton, C. C. Preston of Sudan and Mr. and Mrs. J. W. Yeargan of Abilene. Fifteen pastors have served the church during its 39 year existence. They included O. L. Oldham, J. W. Saffie, J. W. Herbert, Mat Harder, W. B. Phipps, Cal McGahey, H. F. Cole, C. A. Joiner, Vernie Pipes, E. H. Dickerson, H. B. Naylor, Jessie B. Leverett, Walter Brian, Wayne Perry, and Hubert Austin, present pastor.

Austin has been the pastor since August, coming to the church from New Home. He is a graduate of Hardin Simmons, and at Theological Seminary. The church has an annual budget of approximately \$20,000. In a gigantic step to secure their new building members have raised all but about \$27,000 of the new building's cost this year, in addition to keeping up their regular budget, and donating another \$1,000 for special missions offering.

However, \$30,000 toward paying for the building came from insurance on the old building, and another \$1,000 had been given to a standing building fund.

Also new about the church is the organ, piano, and 300 new Baptist Hymnals.

Deacons of the church are J. P. Arnold Sr., Gus Bellamy, Joe West, C. O. Gregory, Homer Morris, Nolan Parrish, Ed Dick, LeRoy Fisher, L. K. Anderson, and Hubert Harvey.

Church secretary is Mrs. Nolan Parrish.

In the planning stage for the church is another wing for the educational plant, since the present education space is not adequate, more will be built when the \$27,000 is paid off.

### Murder Case

(Continued From Page One) on guilt of innocence of the defendant. Twelve of the 20 said they had such opinions.

Attorneys still had 25 peremptory challenges, each giving the attorney the opportunity to dismiss a juror without charge, and it appeared, as Judge Bills put it, that it would "take till Thursday" to get a jury if then.

The two jurors selected today were Bobby Airhart and T. B. Hicks. All six jurors were dismissed when court adjourned.

First trial date for Griffin was postponed from Nov. 30 until today.

Tapp died at 6:20 p.m. Sept. 12 when he was struck by a blast from a 12-gauge shotgun as he walked toward the door of the Central Texaco Station in Muleshoe where Griffin was employed.

The blast entered Tapp's body just above the bib of his overalls.

Griffin was arrested at the scene of the shooting and has been free under \$15,000 bond since his arraignment on Sept. 23 before the Bailey County Grand Jury.

Dist. Atty. Bill Sheehan of Friona and County Attorney Jack Young of Muleshoe will prosecute the case. Shelby P. Bowling of Lubbock has been retained as counsel for the defense.

Griffin ended his single term as Bailey County Clerk on Jan. 1, 1960. He is married and has four children.

Kenney, Rafe Rodgers, Glenn Simmons, Earl Lewis, O. L. Harris, Henry Jones and one new member, Ervin Saddler. Scharnberg showed the film, "Lions Crippled Children's Home, Kerrville" and made a short talk. Then President Johnson presented "Citizen of the Year" plaque and the Honorary Life Membership to the Crippled Children's Home at Kerrville to George (T. C.) Wade, Jr.

The project of the local P-TA and Lions Club has been completed with the purchase of 225 chairs for the school auditorium.

The next meeting is set for Thursday, Jan. 21.

**LIPSTICK LOGIC**

Watching a baby grow into a person is one of the delights of nature. Yet, by a strange irony, young parents rarely get to enjoy this miracle. Living as they do — so engulfed in the duties of tending to feeding, no-no-ing and washing - up - after — they're usually so exhausted to do anything but fall in a heap once the children are tucked in their beds. We won't say safely, because there's no such thing as tucked safely in with a little one. Bad dreams, bad colds, bad tummies — so many things can sound a signal that sends parents stumbling through the darkness to rescue one yawning infant before he wakes the others.

Not only do they live in this atmosphere of broken sleep and patience-testing. Their social contacts outside the home are with other young couples whose lives are like theirs. A young mother particularly lives in a world withdrawn from normal adult activities. It's little wonder she must remind herself from time to time that the three-year-old is a young human being struggling toward human understanding, not a cunning little monster plotting to overthrow her sanity.

Grandparents, on the other hand, can relax and enjoy the small dynamo who finds adventure in each experience and every room of the house, even though it's sometimes dangerous. The adult world of grandparents has forgotten baby ways until their own little loved ones recall them. Young mothers and fathers live them, talk them, sleep them, day after day.

We'd like to help these harried young parents enjoy their good fortune. But about all we can say is, "Patience, dears; you'll be grandparents by and by!"

**Birthday Dinner At Foust Home**

## Fertilizer On Soybeans Unprofitable

For the third year, fertilizer used on soybeans did not increase the yield enough to pay the cost of fertilizing at the High Plains Research Foundation at Halfway, Delbert Langford, assistant agronomist, reports.

The 1959 fertilizer applications used on the Lee variety of soybeans included nitrogen, phosphorus and potash. The form of nitrogen used was anhydrous ammonia (82 per cent nitrogen), phosphorus was phosphoric acid (37 per cent P2 O5) and potash was mercurate of potash (60 per cent K2O).

Rates of application were forty pounds of nitrogen, eighty pounds of phosphorus and eighty pounds of potash. Each of these were applied alone and in all combinations. Forty pounds of nitrogen alone increased the yield only .13 bushels per acre, forty pounds of phosphorus gave an increase of only .54 bushels. The highest increase was obtained with the application of forty pounds of nitrogen and eighty pounds of potash, which gave an increase of 2.31 bushels per acre above the non-fertilized plots. The value of the

increased yield on this test at current prices was \$4.50 per acre, but the fertilizer cost amounted to \$6.70.

In reporting these results Mr. Langford pointed out that chemical analysis of the soil upon which these tests were conducted, show an ample supply of phosphate and potash. Nitrogen, though not in ample supply in the soil, is produced by the micro-organisms growing on the roots of the inoculated soybeans.

porations; and within these classes you have many different forms.

To meet modern business conditions, to get full tax advantage, and to protect investors, for example, the law provides many ways for a company to finance itself. And these, in turn, influence the kind of management it can have, and the way it conducts its affairs.

We sometimes speak of "sticks and bonds," for example, as if they were one and the same.

But when you buy a share of stock in a company, you "own" an "undivided" part of everything it owns, but no particular piece of its property.

But what do you have when you buy a corporation's bond or debenture? You own nothing of the company. Instead you are lending money which it promises to pay back with interest when your bond "matures."

Unlike a stockholder, a bondholder as a rule has little to say directly about who manages and how he manages the company. Remotely a bond buyer by withholding or lending money may influence a company's ability to expand. The bondholder gets only his interest payments, which come before the stockholder's "dividends," since he takes less of a risk than the stockholders.

When a corporation quits or goes bankrupt, it must pay the bondholders off before the stockholders get anything.

Where does the "preferred stock" come in? As a rule, preferred stockholders collect a fixed dividend — after the bondholders are paid but before the "common" stockholders get anything. There are many kinds of preferred stock arrangements. But in return for their first chance at the profits the preferred stockholders often give up any voting rights or ability to control the company directly.

## FORD'S ECONOMY TWINS FOR 1960

The Economy Choice of a lifetime - Two new Fords... Two new low-price fields... Two wonderful new ways to go 'The Finest'

THE 1960 FORD FALCON Now there's both a new economy-size Ford and a large economy-size Ford. The new economy size is the Ford Falcon—America's lowest-priced 6-passenger car. It's up to \$124 less than other 6-passenger cars in the compact field. It goes up to 30 miles on a gallon of regular gas. Servicing is easy and repair costs are low. You can even save up to 15% on your insurance. And the Falcon is the one American compact car that is thoroughly proved for American driving. There's room for 6 people—luggage and all.

THE 1960 FORD FAIRLANE 500 Now consider the large economy-size Ford, the Fairlane 500. Here is the most car per dollar ever built. The Fairlane 500 brings you fine-car styling, luxury and comfort, yet it offers Falcon economies like regular gas, 4,000-mile oil changes, double-life aluminum mufflers, and no more waxing. Like the Falcon, too, it brings you big price news: \$142 less than last year's popular Fairlane 500! Come see, come save, come pick the Ford economy twin that saves and serves you best. Visiting hours as usual at your Ford Dealer's.

LADIES FREE AND MEN \$2.00 EACH

firmly: "It means you can't do things as quickly as you'd like, you can't hop into a car and go somewhere; but it's not a handicap."  
John, an athletic-looking man of 23, has the record to back up his words. In his first year as a life insurance agent he sold \$700,000 in insurance and received an industry scholarship as one of the four most promising young agents of 1958. He has won other company prizes.  
**Became Blind in 1953**  
Retina troubles plagued him in high school, although he was a successful athlete until "the spring of 1953 I got so I couldn't see at all."  
Several operations failed to help Turner more than temporarily, but he finished high school in May of that year.  
"I learned braille that fall and got Villa in November of 1953. I started school at North Texas State College in February of 1954 and graduated in June of 1957," he related.  
College didn't present any great problems, he said. "I learned to take notes in braille and in long-hand and had my books taped so I could listen to them. And I hired readers."  
"Yes, and they were always girls," chimed in his pretty, petite wife, Jeanie.  
Turner smiled a little.

**BLINDNESS OVERCOME**—John Turner, crew-cut insurance agent from Denton, talks to prospect while Villa, his seeing-eye dog, waits. Turner sold \$700,000 in insurance his first year.

"I majored in marketing and got a BBA," he said. "I took some insurance courses and figured on getting some kind of a sales job."  
"It took me about two months. I checked with about 14 companies. Most of them wouldn't even consider me. I guess they just weren't interested in anyone who couldn't see."  
**Landed Job**  
"Then this Ray Campbell gave me a chance to work."  
Campbell, a local manager for Massachusetts Mutual, explained his action simply: "I thought the man deserved a chance."  
"I stayed home and studied a month or two," Turner related. "Then we had a course in Dallas at regular intervals. By August I was earning money and in October, November and December of that year I sold and delivered more insurance than any of the Massachusetts Mutual agents in the North Texas area."  
Turner set up an office in Denton, where he went to school. He grew up in Frisco, Tex., a few miles to the east.  
He married his senior year in school to a girl he had known since childhood. He hadn't seen Jeanie in several years, he said. "Then I heard she was in town, going to Texas Woman's University. I called her up and that was the most expensive phone call I ever made," he grinned.  
During the day John and Villa call on customers, walking around the town of 30,000. At night, his wife gets a baby sitter for their baby daughter and drives him on calls.  
"I have most of them in my head," Turner said of rates and other questions he might be asked about an insurance program. "I can come within a few cents of them in the main groups I deal with. If I don't know them, I call Jeanie or come back with her at night."  
Turner said his wife does most of the reading and he does most

**Arbor Day is Friday**  
 Arbor Day, the time for Texans to recognize the importance of trees, will be Friday, according to a proclamation issued by Governor Price Daniel.  
 In his proclamation Governor Daniel said, "The State of Texas derives many benefits from its trees - as a forest crop, as a raw material for its industries, as protection for its soil, as cover for wildlife, and as attractive landscaping plants for our homes, parks, and public roads."  
 "Our forest wealth is important to the continued progress of our State. Trees are living objects of beauty and utility - a renewable resource which must be protected from the ravages of forest fires and disease."  
 The need for observing Arbor Day in Texas was first recognized in Temple, a community which originally had comparatively few trees. In 1889 the citizens of Temple passed a resolution advocating the designation of February 22 as Arbor Day. Introduced in the legislature by Senator Tyler of Belton, the Arbor Day resolution became a law. The original Arbor Day law expired in 1925. During the succeeding 24 years, the custom of observing Arbor Day on George Washington's birthday was continued by Governor's proclamation. In 1949 the Texas State Legislature adopted a resolution designating the third Friday in January as Arbor Day.  
 Mrs. Frances Melton, school census trustee, asks that parents register all children who will be six years old, on or before Sept. 1, by Jan. 31. If they have an older brother or sister in school it will not be necessary to register them.

**WORTH MORE BECAUSE THEY WORK MORE**  
 Chevy's new torsion springs and Sturdi-Bilt design are changing everybody's ideas about how much work a truck can do. Last year's schedules are out - Chevrolet trucks ride faster over the rough runs to get in more trips a day! Big repair bills are no longer a problem - Chevrolet trucks soak up punishment that means downtime to other makes! And trade-in time's put off for extra thousands of miles - '60 Chevrolet trucks stay new like never before!  
**New Dollar-Saving Prices**  
 Step-Vans, 4-Wheel Drives, many light-duty models with automatic transmissions - all are lower priced. Prices have also been reduced on all optional V8's.  
**New Torsion-Spring Suspension**  
 Eliminates I-beam shimmy and wheel fight! With torsion springs up front there's a brand-new, smoother, easier handling feel behind the wheel. New rear suspensions include wide-based coil springs in most light-duty models; tougher variable-rate leaf springs in medium- and heavy-duty models.  
**Electronically Balanced Wheels**  
 Front wheels and tires are balanced at the factory. Helps make that new ride revolutionary!  
**New Cabs - Wider, Sater, More Comfortable**  
 Many models are a whole 1/2 inches lower (without sacrificing road clearance), so it's easier to hop in and out of cabs. Still there's more space inside: more room for hats and hips, more foot room with suspended pedals. Cabs are safer, too; new build makes them 67% more rigid.  
**Plus Improvements All Through the Line**  
 A new steering linkage system that cuts vibration, means better control. There's new V8 efficiency. Sizes long famous for saving. New key-turn starting. Higher, wider visibility. Talk to your Chevrolet dealer about the world's most advanced trucks.

# STATE CAPITAL Highlights AND Sidelights by Vern Sanford

**TEXAS PRESS ASSOCIATION**  
AUSTIN — Most important date for the Texas voter this month is Jan. 31.  
After that it will be too late to get a poll tax receipt that will enable him to participate in this year's merry-go-round of political events.  
Since 1960 is a presidential election year, lines will probably be long on the night of the 31st. Safest course is to do it now.  
This year's poll tax receipts, for the first time, have a place for the owner's party affiliation to be stamped. But the voter doesn't

Supporters of Sen. Johnson are expected to keep the state lively during the coming months.

**RELOCATION PAYMENTS UPHELD** — City officials and private utilities are joyful over a state Supreme Court's decision that will save the cities and companies \$28,000,000.00.

High court ruled constitutional the law that provides for the state to reimburse cities and companies for the expense of moving utilities for interstate highway building projects.

Law was passed by the Legislature in 1957. It was challenged by the Attorney General's Department on grounds it violated the constitutional prohibition of "donating" public funds to private firms.

Austin, Dallas and four utility companies were combined in the test case. Their attorneys contended the reimbursement was simply for work done for the state.

Austin city officials called the decision "a lifesaver." It will save the city \$500,000 on one project. Dallas County will save an estimated \$9,000,000.

Ninety per cent of the money the state spends on the interstate highway system comes from the federal government.

**TRAFFIC TOLL CUT** — Texans were more careful than expected in their year-end travel.

Department of Public Safety predicted that 111 would be killed on the roads during the Christmas New Year period. Tentative total is only 91. There may be more if some of those seriously injured do not recover.

Col. Homer Garrison Jr., DPS director, thanked all the news organizations, officials agencies and law enforcement officers who worked to make Texans safety conscious.

**AUTO RATES BECOME ISSUE** — Pros and cons of the new merit rating system for auto insurance are expected to be at issue in the 1960 campaigns.

Some legislators have been highly critical of the plan to make drivers with accident and violation records pay more for insurance. Other lawmakers have defended it.

Gov. Price Daniel says he favors correction of any inequities that may exist in the program.

Industry is divided. A spokesman for the National Association of

Independent Insurers has announced that his group will try to get the Insurance Board's plan replaced with a flexible rating law.

Legislature has twice turned down flexible rating, which allows companies to set their own rates.

Other industry groups have endorsed the merit plan, some with statements that it may need adjustments, but should be given a fair trial.

**THERMOMETERS "LEGALIZED"** — All the people have been unknowingly breaking the law in regard to possession of mercury are off the hook.

Court of Criminal Appeals has declared void an old, forgotten section of a law making it a felony offense to have a mercury thermometer without a bill of sale or proof of legal ownership.

Law was aimed at preventing the stealing of mercury from pipe line meters.

Uncounted thousands of housewives and doctors have flaunted it by buying thermometers and medicines containing mercury and throwing away the bill of sale.

**TRINITY HEARING** — Desirability of a new Trinity River Dam near Houston is still a point of controversy before the State Water Board.

Hearing began in November, recessed for the holidays, then began again with all participants swinging hard.

Houston and the Trinity River Authority are asking a permit to build a dam and a salt water barrier. Project would supply an estimated 1,200,000,000 gallons of water daily, the better part to be used by Houston.

San Jacinto River Authority is opposing the dam. Its spokesmen contend Houston should develop the San Jacinto and leave Trinity water to the Trinity basin.

**SHORT SNORTS** — State cigarette taxes for December totaled \$6,738,896, almost a 50 per cent increase from a year ago. Liquor tax collections also were up, said the state treasurer's office, from \$900,318 in December, 1958, to \$1,154,041 this year.

A statewide survey of the problems of Texas oldsters is planned by the governor's committee on aging. Sen. Crawford Martin of Hillsboro is chairman of the committee which is to hold a state conference next fall.
