Blackmon, Steffey Are Students Of The Week

Blackmon and Mike Steffey are senior chosen students of the week for this week. They are 18 years old and are planning to attend Tech.

Steffey is the six-foot student of the senior class who is "not interested in anything." His favorite class is English IV; blue is his favorite color; and ham is his favorite food. Mike says tennis is his hobby and Pre Med his ambition.

Blackmon enjoys traveling, reading, and sports. She is president of the National Student Society, a member of the student council, and on the Student Watch Council. She prefers English IV and English to be her major

in college. She likes blue and chooses steak as her favorite food. About LHS Janey says, "I've enjoyed going to school here; it's a credit to have graduated from this school."

Senior Play Is Tuesday

What can the girl of above average intelligence do to attract the amorous attentions of that certain someone?

How do the average parents react when their daughter is placed on probation for poisoning the entire football team?

These and other questions of interest to the students of LHS will be answered next Tuesday night, May 15, when the Senior class presents, Beauty and the Beast.

Western Day Was Full Of Activities

Cowboys and cowgirls was the scene of a supper honoring the seniors in the basement of the Baptist Church Thursday night. Rev. Longshore gave the welcome with a big "howdy" as the seniors ate barbecue beef, beans, chili, potato salad and donuts. Neal Walker sang prairie songs.

An assembly almost ended Western Day Friday. Kave Dole and Dwight Allen were chosen

TENTH IN STATE — Above is the LHS Future Farmer Dairy Products team that placed in the state during judging contests held at College Station. From left to right they are W. Hall, advisor, Edward Dubec, Dwight Faver, Jerry Neuenschwander and Mack Steffey.

STATE TRACK WINNERS — Pictured above are the three LHS boys who placed high in the State Track meet held in Austin last weekend. From left to right they are Robert Conley (sixth in the mile run with a time of 4 minutes 31.7 seconds), Gary Schovajsa (sixth in the pole vault with a jump of 21 feet 8 inches) and Larry Woods (fifth in the pole vault with a jump of 22 feet). The boys were accompanied to the meet held in Austin by coach Deverelle Lewis.

Jane Brandt Chosen 1963 Wildcat Editor

Jane Brandt was chosen editor of the 1963 Wildcat by senior staff members last week. To assist her in editing next year's annual will be Susan Nail, assistant editor, and Linda Smith, business manager.

Other annual staff members were also chosen by the staff. They are Joyce Green, Evelyn Martin, Billie Cook, Annett Dutton, and Pam Davis.

The deadline for buying a '62 Wildcat is May 11. The annual Wildcat signing party will be held in late August. At that time the 192-page annual will be presented to the student body, revealing the cover and its color, theme, and the staff's dedication.

Be sure to buy your annual!

Billy Don, what's the sudden interest in Junior High? She's cute, alright.

Thad just isn't the same when Linda's gone.

Melaine, have you tried wearing a swimming cap?

Gary, looks like your California flame is back, what is your steady going to say.

Tom, Jimmy, nothing wild about your parties, did the neighbors have to evacuate themselves.

Who were the girls that jumped out the Commercial Law window? Looks as if the short one was left dangling.

Shirley, Tom sure has a pretty motor.

Whose mother is turning into a teen-ager? You could never tell she is married!

Shelly, three more weeks then off to the mountains.

Who is getting a MRS Degree July 20?

Who ran off to Clovis last night? What for?

Lonnie, who's the new girl? Butch, how does it feel to be going steady?

Jerry C. - I believe you have a new admirer. She's a blonde too!

Mary and Patsy - how's the love life?

Bill - who were the two girl friends with you last week?

Jim - Teena - Never try to settle any argument when you're hot under the collar!

Carolyn - Shal we try the old Ford at 90 mph on the way to Amherst?

Melaine - there seems to be no place for an innocent girl to hide from the boys - Right?

Sidney - Protect me!!

Doris - I hear you fooled them all.

Emma - Follow that dream!

Barbara - Got the GI blues?

Billy, Jim & Sidney - what amused you in World History last Friday?

Sharon - Why don't you think Mr. Ford is fair to his fourth period class?

Juniors Will Honor Seniors With Banquet

The sophomore class will entertain the junior and senior classes Saturday, May 12, in the high school gym with a social before the annual Junior-Senior Banquet.

The banquet will begin at 5:00 p. m.

Immediately after the banquet the annual Junior-Senior Prom will be held in the community center, sponsored by the junior mothers.

Sponsors for the junior class are Mr. Richey, Mr. Gouge, and Mr. Gilstrap.

FFA Teams Place High In State Meet

Two Littlefield judging teams left Thursday for the state contests held at A & M College.

The boys on the Dairy Products team, Mack Steffey, Edward Dubec, Dwight Faver, and Jerry Neuenschwander placed 10th in the over all contest.

The Livestock judging team Buddy Price, Richard Kimbrough, and Bobby Williams also entered the competition.

The boys under the supervision of W. W. Hall stopped at Lake Brownwood on the way down and back to get in a little fishing.

NEW STUDENT - This week's New Student is Jonnie Weathers, a freshman from James Bowie Junior High School in Amarillo. Jonnie moved here April 23 and says she loves Littlefield High. Jonnie resides at 1117 West Third with her parents, Mr. and Mrs. John E. Weathers. She lists her favorites as color - green, pastime listening to the radio and cooking, food - fried chicken.

Long time, no column. Lots of things have happened since I wrote the last one. I want to congratulate all those who have won some type of award. I especially want to give my heartiest congratulations to those who were chosen Valedictorian and Salutatorian of the Senior Class. These awards represent many hours of work, worry, and sacrifice on the part of these winners, a hearty round of applause for Weldon Findley, Joyce Thompson, and Janey Blackmon.

Also I want to wish next year's student body officers the best of luck and hope that they have a very successful year. Of course I realize that something will be missing after the seniors graduate. It's only a little longer now, Seniors.

It seems that Billie Sol Estes has gotten himself and a few others into a potential mess. While I was sick, I got a chance to see a portion of his investigations. If the witnesses get any funnier, we'll run them for public office. That's what happens to all our other comedians. I personally think that if we brought the Estes investigation to the World's Fair that it would be an assured sellout. It looks

like all of Texas, most of Washington, and a lot of the high ranking officials in both places are mixed - up in it. With a crowd like that, what more could Seattle want.

These investigations have helped the newspapers, the other fertilizer salesmen, and even Billie Sol, himself. The only one who didn't profit was Will Wilson and it was uphill all the way for him anyway. In fact this governor's race reminds me of a song by Gilbert and Sullivan. It concerns a man who started as an office boy for an attorney and ended up as the "ruler of the Queen's Navy." One verse reads like this:

"I grew so rich that I was sent
By a pocket borough into Parliament.
I always voted at my party's call,
And I never thought of thinking for myself at all.
I thought so little they rewarded me
By making me the ruler of the Queen's Navy."

I won't call any names, but from the remarks some of the candidates made, I thought it was appropriate.

Superintendent Is Teacher Of The Week

Chosen for this week's teacher of the week is Glenn D. Reeves, Superintendent of Littlefield High School for eight years.

Mr. Reeves graduated from high school at Anson, Tex. He attended Hardin-Simmons University of Abilene and Texas Tech of Lubbock.

He and his wife, Dosey, have three children, Spurgeon, Walton and Charla. They live at 117 East 17th Street.

Mr. Reeves' pet peeve are people who are unable to challenge a person to work up to their ability or people who will not accept the challenge to contribute as much as they can to society.

When Mr. Reeves was asked what his favorite food is, he said, "All!" His hobbies are

Band Surprises Audience Monday

"Joshua," a novelty swing tune, and "T. V. Suite," a series of T. V. themes, were some of the highlights of the Wildcat Band's part in the annual "Pops" concert Monday night.

Starting the program was the Beginners Band. It was the group's first public appearance. "German Waltz," "Round-Are You Sleeping," "Shadowland Waltz" and "Easy Steps March" were their selections.

Junior High School Band started their portion of the night with "Tenth Regiment March." From it they moved to "Little Irish Suite." A rousing presentation of the "Battle Hymn of the Republic" followed. To end their performance they played "Ship Ahoy," a nautical fantasy was a group of sea tunes including "Blow the Man Down" and "My Bonnie Lies Over the Ocean."

To begin the last concert of its year, and the last one in it for the graduating seniors, the band played "Highlights from 'The Sound of Music' by Rodgers and Hammerstein.

The brass sextet composed of Janelle Jensen, Bob Badger, David Jones, Kenny Birkelbach, Randy Smith, and Gary Bernethy, played "March Petite." The group made a 1 on it earlier at Interscholastic League contest.

"Joshua," short and speedy, brought much applause from the listeners. "Lili of the Latin," a samba was next. Galloping horses and whines were some of the sound effects the drum section provided on the first number of "T. V. Suite," "Sagebrush Saga," "Whodunit" caused a great deal of surprise to the audience and the band when, after a series of "car horns," and "police sirens," Billy Blackwell, drum major, rose and "shot" Jerry Connell, drummer, who let out a blood chilling scream. The "Hayloft Hillbillys" - Joyce Thompson, Brenda Perkins, Janelle Jensen, Bob Badger, Jim Nelson, and David Jones - provided the audience with a musical (?) square dance tune accompanied by the band on "Hayloft Hoedown". Their costumes added quite a bit of amusement to the situation. To close the Suite the band played "Big Name Band."

"On Parade", a march, featured members of the drum, cornet, and flute sections giving a drum and bugle corps effect, came after "Prof Hayes" took out time to recognize several members of the band.

As a final salute to its 15 seniors, the band concluded the program and its public year with "Maroon and White" with the audience singing.

TWIRP WEEK — Last week at LHS, the girls had to provide for the boys as all the high school students took part in Twirp Week. During this one week each year the girls have to treat the boys, asked for dates and furnish the money and transportation. Pictured above are Yogi Stanford getting into a car while Linda Hodges opens the car door and carries Yogi's books.

STATE CAPITAL Highlights AND Sidelights by Vern Sanford

AUSTIN, Tex. — Annual payments of corporation franchise taxes helped knock down the enormous deficit in the state's General Revenue Fund in just 12 days.

On April 24, State Treasurer Jesse James reported a deficit of \$90,041,041. Twelve days later, the overdraft was down to \$20,000,000.

James noted that the deficit was markedly lower than the \$90,000,000 peak reached a little more than a month ago. But he did not state when the state big payment will be made out of the revenue fund, which might make the deficiency soar again.

However, State Comptroller Robert B. Calvert said the state will send more than \$54,000,000 in public school pay in the summer.

STATE WING ENLIGHTENED — Texas' General Revenue Fund will reap \$1,000,000 as a result of the state winning its first judgment under the new school law.

Although the judgment by the 53rd District Court at Tarrant County was for \$100,000, the State General Revenue Fund benefits by only \$1,000. Reason is that the \$99,000 estimated must be kept in the treasury in case orders are issued. Another \$50,000 annually must be allocated to pay for the cost of administering the program.

Funds were placed in the treasury under an order which had no provision for disposition. But the school law passed in 1941 paved the way for use of the money.

Attorney General Will Wilson immediately started seeking more school money. He asked the U. S. Supreme Court to determine whether Texas, Pennsylvania or New Jersey has the right to exceed \$17,153 than the \$100,000 Supreme Court otherwise are unknown.

Texas claims the money because the transactions were made here. New Jersey filed suit because the U. S. was chartered here. Pennsylvania wants to attack it because the company headquarters is in the state.

IMPORTED STEEL TO BE BANNED — District Judge Hermon Jones of Austin has given orders to both sides of the case of the Texas Association of Steel Importers, Inc., versus the State Highway Department that he will uphold the Highway Commission's authority to order a ban against imported steel in constructing state highways.

Steel importers challenged this authority when they brought suit in January, a five-day trial in March ended in a hung jury. Highway Commissioner Herb Perry Jr. testified that some imported steel was found to be "inferior" and stated that it was "worse than the state."

Judge Jones concluded that the importers had failed to show the invalidity of the highway department's order. He is expected to enter a final judgment for the state next week.

COMMISSION ADDS TEACHER SERVICE — Texas Employment Commission has undertaken a new statewide program to answer the problem of placing teachers for the state's 1,500,000 school children.

T.E.C. Administrator P. L. Coffman announced that the commission will run a placement service as a clearing house for applications from teachers. Also they will list vacancies.

New plan is expected to afford teachers a wider selection of teaching opportunities and provide school administrators with a choice of instructors from all over the state.

Local offices of the employment commission are stocking application forms, which also may be secured from the Austin office.

UT LEASES UP FOR SALE — Some 31,000 acres of oil and gas leases owned by the University of Texas will be offered for sale at a public auction in the Commodore Perry Hotel in Austin on June 10.

All of the 101 leases on West Texas land parcels, ranging from 82 to 343 acres, will be sold for a term of five years, or as long as the oil or gas on the lands is produced in paying quantities.

Big difference in this 45th public auction is that the royalty from gross production has been raised from the one-eighth charged previously to one-sixth. Land Commissioner Jerry Sadler insisted on the change since state public school lands long have been sold on a one-sixth basis.

SHORT SNORTS — The New York Stock Exchange made a survey of security transactions in Texas and reported that the number of stockholders in the state zoomed from 160,000 in 1936 to 375,000 in 1939, with one Texan in every 26 a shareholder.

LAND USE OPERATION -- Pictured above is one of the feeding pens located on a farm near Spade operated by Dr. W. N. Orr and Harvey. At present they are feeding about 200 head of mother cows. Feed for the operation is being raised on the farm.

Cattle Feeding Aids Conservation Program

use is what Dr. W. N. Orr and Harvey Neel had in mind in December 1959 when they decided that the farm's Black Water Draw, five miles north and one mile east of Spade, needed a conservation plan was worked out which included an underground pipe, a sprinkler system, water diversions and pasture improvement.

This spring they decided that the farm was developed and the pastures well enough established to start using, and at the present time they have about 224 acres of grown cows. Their plan is to maintain about 200 head of mother cows the year around using a combination of a plot and grazing program. They have about 113 acres of bermuda grass for pasture, 44 acres of cropland used to grow insilage. It is drilled to a small plot after the insilage is cut for pasture.

The silos will hold about 3000 tons of insilage. The feed lots are arranged so that the cattle are treated and fed according to their condition. The feeding varies too as to what kind of feed the cows are in, but the maintenance ration is about 35 pounds of silage and about 10 pounds of 50 per cent supplement per cow per day.

Orr stated that he didn't know whether there would be any money in it but he would know probably this fall. Some of the good things about it was that they could use their own feed and conserve the land.

Dr. Orr and Neel are not the only ones that have this type of enterprise in mind. Others are Cleo Whitmire and F. M. Smith of Sudan, F. D. Holt, Gene Brown, Leon Dent, James Busby and V. O. Busby of Earth and Springlake and Jess Roundtree, Charles Cade, Dick Cade and Walter Gray of Littlefield. Several others have started planning for this type of program.

W. E. Mitchell of the Lamb County Soil Conservation District Board of Supervisors, urges anyone else that is interested to contact any of the SCS personnel. They will explain and furnish available information plus how and what assistance they can receive by ACP or the Great Plains program.

Alex Duggan Elected VP Of UT Council

Arthur Alexander Duggan, University of Texas student from Littlefield, has been elected vice-president of the College of Business Administration Council.

Duggan, junior majoring in general business, is a member of Alpha Tau Omega, social fraternity, and Delta Sigma Pi, men's professional commerce and business administration organization. He is president of the junior class in the College of Business Administration. He is the son of Mr. and Mrs. Arthur P. Duggan, Jr., 303 East Ninth.

Cotton Flame Cultivation Tests Told

Tests using flame cultivation on cotton by the staff at the High Plains Research Foundation were conducted in 1961. The tests included three varieties of cotton, different tractor speeds, pressures, burner sizes and settings. Also the size of the cotton at first flaming was varied.

Gregg and Lockett 88-A were used in the test as representative of early and late maturing stormproof cottons. The open boll variety selected was Paymaster 88-90. To obtain the desired seed bed, the test was cultivated twice with sweeps resulting in a bed that was raised 2-3 inches above the middle. It was stressed in the report that a more efficient job of flame cultivation can be accomplished with a wide, flat bed.

The five treatments used in the test are as follows: (1) check (no flaming), (2) midjet and cross flaming; (3) parallel flaming; (4) cross flaming; and (5) no weed control. The results from all three cotton varieties were similar. The maximum increase in yield over the check block was 112 pounds per acre of lint cotton. The grades of cotton varied from low middling to strict low middling. Additional data in report No. 47, published last week at the High Plains Research Foundation indicates there was no measurable effect on fiber quality from flaming. The flame cultivation program will be conducted again in 1962 at the Foundation.

We're still not sure.

Dear editor:

A man came up to me the other day and said, "Say, where do you get your ideas for writing all these letters to The Lamb County Leader?"

Well, for one thing, you've got to think. Say you come out of your house on a bright sunny morning and see a hoe leaning against a shed and weeds in your crops. This makes a man think, and since anybody knows it's impossible to swing a hoe and write a letter at the same

time, I put first things first and leave the hoe alone. Anybody ought to know a lack of thinking has done the world more harm than a lack of weed-chopping, and I don't want anybody accusing me of falling down on my job.

The trouble with too many people is that they don't see things large enough. This is an intercontinental guided missile age we're living in, and a man can't afford to get too limited in his concern, he's got to widen his horizons.

For instance, with the United States' national debt approaching 300 billion dollars, a man has to be mighty limited in his outlook to be spending any time worrying about the \$100 note he owes at the bank. It seems wasteful to me to be worrying over a hundred dollars when for the same amount of effort you can be worrying over three hundred billion.

When the roof of the world may be about to cave in, it seems to me I'd be delirious in my duties if I was up on top of my house patching mine.

With the wall in Berlin causing so much trouble, it seems sort of unstatesmanlike for me to be out fixing my fence. Why risk offending world opinion? I know everybody is supposed to get ahead in life, but if somebody didn't get behind, how could anybody get ahead? Weeds ought to be chopped all right, but a man should reserve some time for thinking, after he has provided his family with the four basic necessities for life: food, clothing, shelter, and television.

Yours faithfully,
J. A.

Boys Ranch Fire Station Dedicated

A seven-year drive by the Panhandle Firemen's Association to get fire protection for the nearly 300 boys at Cal Farley's nationally famous Boys Ranch comes to a climax Saturday, May 12th, when the new fire station will be dedicated during the Association's semi-annual meeting at the Ranch.

The firemen of Littlefield have joined hands with approximately 1,200 others of the Panhandle and South Plains to present the Ranch with a 500-gallon pumper truck and a 300-gallon booster fire truck. Mr. and Mrs. V. E. Hafner of Chillicothe donated the funds for the fire station which has been completed. An estimated 75 communities are expected to be represented by the firemen when they will be the guests of the boys and Ranch personal during their convention. All

Plainview Horse Show Scheduled

PLAINVIEW (Special) — The Plainview Quarter Horse Show is scheduled Saturday with 200 entries expected from at least five states. The show will be in the rodeo arena.

Registered racing is slated to start at 2 p.m. Halter classes will be judged at 1 p.m. and the performance classes at 7 p.m.

Russell W. Moore, Plainview, show chairman said entries are expected from New Mexico, Oklahoma, Kansas and Colorado in addition to those from Texas.

In the registered racing 2-year-olds will go for 300 yards and 3-year-olds and up 350 yards. It will be a time event and trophies will be awarded for grand reserve winners.

In the halter classes mares, colts, stallions and geldings will show in 17 classes in which trophies will be awarded for winners and ribbons will be given through the first six places. Junior and senior reigning, roping, barrel racing and cutting, making eight classes, will make up the performance classes.

J. B. Bullard, Bridgeport, will judge the show.

Aggies To Honor Moon Each Year

HOUSTON — Texas A&M College Monday announced establishment of an annual Wally Moon baseball award at a luncheon honoring Moon and the first visit to Houston by the Los Angeles Dodgers.

Moon played college baseball at A&M and the award will be given annually to the outstanding baseball player at the college, located 90 miles northwest of Houston.

Mayor Lewis Cutler proclaimed Monday "Wally Moon Day" in Houston in honor of the Dodger first baseman. Los Angeles and the Houston Colts opened a four-game series Monday night in the first meeting of the Dodgers and the new Houston National League club.

Reese Plans Weapons Display Saturday

At least eight missiles, in addition to howitzers, a target area, engineering equipment and various other powerful weapons will be on display at Reese Air Force Base during observance of Armed Forces Day, May 12. The public is invited to attend the open house from 9 a.m. until 4:30 p.m. The Navy, in addition to aircraft, expects to have an eight-foot Nautilus on display, plus photo display of munitions. The Marine Corps will have small arms exhibit and the 4th Air Patrol is to show some

of its planes.

The Army is sending several missiles to Reese for the day, including the Nike Hercules, Honest John, Little John, Hawk and Lacrosse. Its Dart guided anti-tank missile system also will be shown. It also will have howitzers and a display of engineering equipment.

Highlighting the Air Force displays will be an exhibit of Air Training Command, which will show how personnel for every major air command is trained.

The Air Force also will show a 50-foot model of a test track and sled which is used to test

speed and human endurance.

An Air Training Command exhibit will vividly picture how the command trains specialists for all major air commands. The Military Affiliated Radio Station (MARS) will have a communications demonstration and movies will be shown all day in the base theater.

From Holloman AFB, N. Mex. will come a Q2C target drone.

The Air Force will show its Mace guided missiles, Hound Dog, GAR-8 Sidewinder Falcon air-to-air missiles carried by interceptors.

Others having parts on the program were Jimmie Savage, Carol Ann Watkins, Don Ham, Kay Austin gave the senior class prophecy, and Gene Dykes gave the will. Mike Masten led the benediction.

Members of the ESA will meet Thursday evening in the home of Mrs. Orval Wallace at 8 p.m. when a formal installation of officers will be held. Mrs. Donnie Cowart will be co-hostess.

Tremendous growth in commercial broiler production has been accountable for a major share of the postwar increase in the poultry meat supply. Broilers, in fact, account for 80% of the per capita consumption of chicken. Consumption of "farm" chickens has dropped proportionately. These are the by-product fowl and cockerels incidental to egg production.

I want to personally thank Mr. and Mrs. Charles Jones, county clerk and his wife, for once again working closely with the newspaper and the radio station in the primary election. Without their aid, neither the newspaper or the radio station could be able to provide the returns for the people of this area. It was unfortunate that many persons blamed Jones for the slowness of getting the returns out to the people. Believe me, he was working just like a beaver and from the time the first box came in until the last, no one had time to run any totals on all the races.

If anyone is to blame for slow returns, it was myself and the people from the radio station and not Charles or his wife. I again want to express my sincere thanks to these two people and hope to work many more elections with them.

those people who bought from them is probably quite long. The pitch of "working my way through college" was used, but the people using this slogan were seen leaving Littlefield in a 1962 Cadillac.

We have told time and time again that when an unknown salesman calls at your door to ask for some sort of credentials from the City of Littlefield. If they don't have any, for goodness sake don't buy from them and do your neighbor a favor by calling the police and reporting the situation.

No one likes to be left holding the bag, but you can do just that if you don't inquire about the persons selling from door to door. It also hurts the college students who are really trying to earn their way through college selling magazines.

Don't be caught napping, ask questions!

Ever so often, we write about traffic safety. Usually there is some reason for the articles and this one is not an exception.

Since the automobile was invented, designers and manufacturers have been working on means of making the auto run faster, have more pickup and make it a thing of beauty. Somewhere back down the line, the auto makers forgot about the driver not installed at the factory... the driver.

The driver is responsible for the speed and antics of the specific auto under his control. He can race, drag, endanger lives, drive with caution and concern for the rest of humanity, therefore there are certain rules and regulations which have been set up to protect the citizens against reckless drivers.

But, the rules and regulations are no better than the citizens that obey them to be. Most of us when we see someone speeding down a street only shake our heads and hope the driver doesn't have a wreck or run over some child who might chase all into the street. We shirk our responsibility as citizens not reporting such driving antics.

It is evident that the driver does not feel any responsibility toward his fellow man by driving too fast and reckless. It further apparent—that the driver is either showing off for cronies or is off his rocker in either case, he or she is not able of driving an automobile.

Many persons who were awed by Flash Gordon and his ray gun, which could melt anything in its path, may be more amazed upon learning that such a gun is now under development. The possibility of such a gun was disclosed by recent demonstrations of the "Laser" which is a very small device that has opened up a vast array of potential uses for light beams.

Demonstrations have been carried on by a number of companies who are now in the experimental stages with the Laser device. Within two-thousandths of a second, the light beam burns a tiny hole through a thin sheet of steel and the beam still has enough power to ignite a piece of paper fourteen feet away.

Light is energy and the Laser devices, which are small, can take ordinary light, greatly increase its strength, and shoot it out in a tiny compact beam. The immense energy generated can be crammed together for various purposes. The beam, if focused by a lens as a magnifying glass focuses the sunlight, can vaporize the most heat resistant materials known, producing temperatures greater than the sun's.

This new type gun will certainly ruin western and tv detective stories... the device is silent. Can't you just see two western gunfighters square off against each other, both draw and fire (silently) at each other.

How Important is an Inch

Not long ago Genevieve was thirty-seven inches tall. Soon she'll be thirty-eight. Just how important is that next inch?

It's all-important! Without that inch her growth will cease.

Folks sometimes underestimate the importance of a Sunday in Church or Sunday School. What difference, they think, can just one Sunday make?

But every day of worship or religious instruction adds its *inch* to our spiritual growth. And whenever we neglect the soul's needs, then, temporarily at least, growth ceases.

Children, and adults, too, need to keep on growing spiritually. How different our world could be if all of us reached the spiritual maturity God wants men to attain. A Sunday, like an inch, is important. Next Sunday is all-important for all of us!

The Church is the greatest factor on earth for the building of character and good citizenship. It is a storehouse of spiritual values. Without a strong Church, neither democracy nor civilization can survive. There are four sound reasons why every person should attend services regularly and support the Church. They are: (1) For his own sake. (2) For his children's sake. (3) For the sake of his community and nation. (4) For the sake of the Church itself, which needs his moral and material support. Plan to go to church regularly and read your Bible daily.

Today in Littlefield we have many persons who think the rules were written for the other driver or the child playing. These persons have no right to have any vehicle until they have learned the rules of driving and comply with them. Dragging, fast driving and reckless driving are not approved standards of having a driver's license. The next time you see someone speeding or driving recklessly, just take down the license number of the car and report it to the police. You may be called a "chicken" by the driver of the auto, but you might save someone's life...

Thanks Folks

I would like to take this means of personally thanking everyone who supported me in the recent Democratic primary for Justice of the Peace, Precinct 4.

I also want to thank my two opponents for a very clean and courteous association during the race. I will try to thank each of you personally before the run-off, June 2, and I will certainly appreciate your vote at that time.

Dairy Farmers To Vote On Referendum

A referendum in which dairy farmers, shipping milk to the Lubbock-Plainview milk marketing area, will have an opportunity of expressing their approval or disapproval of a proposed Federal milk marketing order will be held within the next few weeks according to A. T. Radigan, Referendum Agent of the U.S. Department of Agriculture. The Lubbock-Plainview marketing area will include all the territory within the seventeen contiguous Texas counties of Bailey, Castro, Cattle, Crosby, Dickens, Floyd, Gaines, Garza, Hale, Hockley, Lamb, Lubbock, Lynn, Motley, Terry and Yoakum.

One of the first steps in the referendum will be to determine those procedures who will be eligible to vote. As defined in the proposed order, these are persons or firms which delivered milk to the regulated handlers in the marketing area during January 1962. Their names will be supplied to the referendum agent by milk dealers.

A notice of the referendum will be mailed to each known qualified voter giving the date the referendum will be held. No voting by proxy will be permitted. Each producer will be entitled to only one vote regardless of the number of farms he operates. Partnerships, corporations and other such business organizations which operate dairy farms will be entitled to only one vote regardless of the number of partners, shareholders, or others interested which make up the organization.

The Agriculture Marketing Agreement Act of 1937, under which the proposed marketing order would be issued, authorizes a cooperative association of producers to cast a single ballot on behalf of all of its members who qualify as producers. The referendum agent will announce the names of cooperatives that qualify. Producers in these associations will not receive a referendum notice, and will not be expected to cast individual ballots.

The proposed Federal milk marketing order on which producers will vote in this referendum is based on evidence received at a public hearing held
