TOWN and COUNTRY

by Wendell Tooley

Moynie Grissom has two or blisters on her heels, and of the Saturday afternoon "players" probably still bumps on their heads from that storm that suddenly up.

Mother nature did her to blow us off the courts a strong southerly wind near 100 degree temperature.

erwise, the tournament big success and we're all planning another for next probably at a different and with games scheduled for four evening or morning. This will keep youngsters like Dalton Wood from to play as many as 80 in a single day and "mid-nights" like Jim Mangum having to play over 50 in a day.

Tourist Group Holds First Meet Of Year

The Highways and Tourist committee of the chamber of commerce met in the chamber council room for its first meeting of the year Wednesday morning.

The group showed a growing concern about the 84 by-pass which is soon to be built around Littlefield and most of the discussion was about how to make 84 more attractive through its present course.

The general feeling was that the drainage bond vote should again be presented by the BCD and see if it would pass. It was believed by the committee that 84 through the town could never be widened or improved until the drainage problem is solved by the city.

Scott continued that he was told by a person who witnessed the destruction it appeared to be a big whirlwind. The leg extending from the grain dryer appeared to have been twisted and bent back before it fell.

The leg scrapped a large grain storage building and knocked a small hole in the side of the structure, but no grain was lost.

Its reliability is probably its greatest single asset

When you build a quality truck, the inclination is to run around asking users what they think of it. We do quite a bit of this. It's a funny thing. You'd think people would talk mostly about the mechanical features of the vehicle—the good ride, its power, the double-wall construction, cab comfort, or tough tailgate. These things get comment, of course, but they're consistently outnumbered by expressions of satisfaction with the dependability of a Chevrolet truck. Its greatest single asset seems to be the fact that it does its job well day after day without a lot of fuss or attention—and that's what impresses people the most. Quality is the key to reliability. The next time you have to buy a truck, call your Chevrolet dealer and make your money go farther.

We've got GAS air conditioning at our house!

Boy, it's the MOST! It does more than just COOL, too. It circulates, ventilates, dehumidifies and cleans the air. Oh, and it HEATS in winter... I almost forgot! Mom says it's a lot easier to keep house, now, because there ain't... I mean "isn't"... as much dust around. And you should hear Dad go on about how his hay fever's let up since we bought the Arkla Servel. An' you know what? It runs so much cheaper than our old job that the folks increased my allowance from the savings! All I know is that when I get a house, I'm gonna have an Arkla Servel Sun Valley, too. Say, ain, I mean "isn't," that a funny name for an air conditioner!

Parkview Baptist To Dedicate New Building This Sunday

A. C. WIMPEE
A. C. Wimpee of the Brotherhood Department of the Texas Baptist Convention will preach at the Parkview Baptist church at the morning service Sunday.

Former pastor J. L. Bass will speak at the 2 p.m. service, which will be a dedication sermon along with a special dedication service for the church's new building.

Mr. Wimpee, a business man, went into the Army in 1943 as instructor in the Medical Department in Visual Education. He was selected to tour the United States in the drive for Defense Bonds. He holds a citation from our government for his services as Bond Salesman; in the field of Athletics; as instructor in Visual Education and Entertainment. He was No. One GI Bond salesman during World War II, appearing in Madison Square Garden, Soldier's Field, Times Square,

Hollywood Bowl and other prominent places. Following World War II he became Public Relations Director for Baylor University where he served until he began his work in Texas schools, Colleges, and Universities, Clubs, Conventions and Churches.

On January 10, 1951, while serving on the Baylor University staff Mr. Wimpee was invited by Billy Graham to join the Billy Graham Evangelistic Association. Mr. Wimpee declined the offer in favor of the work with Texas Baptists. He is now associate secretary of the Baptist Brotherhood of Texas, headquarters in the Baptist building, Dallas, Texas.

Pastor J. C. Coffman extends an invitation to the general public to attend the special service and reports that some of the former pastors will be in attendance.

TOWN

(Continued from Page 1)
delegates to the state convention at the county convention last Saturday.

Jerry Kirby, who headed the nomination committee said the delegates were selected according to their loyalty to the Democratic party and how they voted this year, last year, and several years before.

A young Democrat was in my office last week after the convention and made the statement, "well, the same old bunch is running the Democratic party in Lamb County and the same delegates get elected to the state convention."

Well, this is possibly true, but there is a very simple reason for this. "The same old bunch" put their money where their mouth is. They don't mind spending their money and giving their time to attend a state convention. A lot of younger Democrats who would like their say in the county convention won't give the time or money and the loyalty to the party year after year that these mainstays have shown in the past 20 years.

In order to get some recognition with any party you've got to work for it, you've got to help the candidates financially who run under that flag, and you've got to support the nominee of the party come hell or high water.

Obviously the "independent voter" will never be a delegate to either a Republican or a Democratic convention because he has no party loyalty and is mainly interested in voting for the best qualified man.

So, what I'm saying is this, if you're going to vote a "split ticket" occasionally, if you're more interested in voting for the man, than the party, if you don't have much money or time to devote to local politics, then it's only logical to expect no recognition at a Democratic primary, county or state convention.

This is just for the information of those pessimists who said the hardest strain on a marriage was building a new house . . . well, the wife and I are still together (same wife) and our house is complete. Now I am not going to try to kid anyone that building a house is the best way for a husband and wife to get along, but it wasn't as bad as everyone led us to believe.

It never ceases to amaze me at just how friendly West Texans really are. It just seems to grow on people and especially in a town like Littlefield. I guess just about everyone you meet on the street speaks a kind word or passes the time of day, and I for one favor it.

Even the small tots, either walking with their mothers or inside cars while momma is shopping, speak to the people walking down the street. If you have ever noticed when a small child speaks to a grownup, the adult usually brightens and a briskness reappears in his step. This is good.

Don't ask me why, but the area has missed out on about the best rain clouds we have had in a long time. About the only thing wrong with Saturday's rain was that it didn't last very long and only left about a tenth of an inch of moisture in its wake.

I guess I am going to have to get some of the Okie Indians out here to do the rain dance . . . I imagine they could receive a pretty good salary if what they did would make it rain.

Oh, well, you can't win 'em all, but about two inches of rain would help.

It appears that the citizens

From Your Chamber Office

By Kenneth Reast, Director, West Texas Chamber of Commerce.

The West Texas Chamber of Commerce will have the best program we have had in years for our annual meeting. Mr. Fred Husbands Executive Vice President reports that this is the comment he has received from many sources. In addition the meeting will be held close to home - in Lubbock.

The Lubbock directors, the Littlefield members, and the local Chamber sincerely want to make this annual meeting a most successful affair and it will be - if we get a good attendance. The people who do attend will be the ones to profit from this fine program. The more who attend from Littlefield, the more Littlefield will benefit.

Let me add a word here about the subject of stock - feeding. This field of economic development which the WTCC has been encouraging for more than 10 years, offers more promise of expansion in West Texas than anyone thought possible a year ago - and the WTCC is providing much of the leadership for it.

On tourist and travel promotion - like stock - feeding, there is great opportunity for increased profit opportunities of Littlefield are becoming more aware of the traffic violators and as good citizens should do, reporting the incidents to the Police. Those who have made reports are to be congratulated and those of you who have seen flagrant violations and not reported should not be very proud.

Amherst picked up another run in the bottom of the fifth as Parrish walked and Mixon was safe on a fielder's choice. Mixon scored on a wild pitch.

Final runs for both teams came in the sixth frame as each scored one time. For Dairy Queen Melvin Crayton was safe on an error, Johnson walked and Wayne Norled singled.

For Amherst Johnny Norwood was safe on an error and Hodges singled. The winning pitcher was Lewis while the loser was Parrish.

Legion Team Opens Season In Lubbock

Littlefield's American Legion team will play its first game of the season tonight at 8 in Hodges Park of Lubbock as they face Lubbock Auto, a team that went to the state finals last year.

Bob Falk, coach, said the game was not a district contest but will give him an opportunity to see his boys under fire. He said Joe Bellar, Bay McKinney and Steve Middleton will share mound honors during the game. Dagwood Conley will catch for the team this year.

Caprock Fertilizer is sponsoring the team and has purchased new grey uniforms for the squad.
