

FIRST COTTON ESTIMATE OF YEAR IS RECEIVED

314,000 BALES FOR COUNTRY IS ESTIMATED YIELD

BIG DRIVE IS STARTING HERE IN INTERESTS OF MORE EMPLOYMENT

Crop Is Estimated At 3,541,000 Bales; 71 Per Cent Normal

The cotton crop being grown in this county was estimated Tuesday at 3,541,000 bales, 71 per cent normal as of August 1, 1932, under crop 11,095,000 bales, with an estimated yield of 3,541,000 bales.

This year's cotton production for the entire country was forecast by the department of agriculture at 31,000,000 bales of 500 pounds gross weight, compared with 13,001,508 bales last year.

Immediately after publication of the government's estimate of 12,314,000 bales, cotton prices dropped \$2 a bale, because of the fact that the estimate was higher than was generally expected by the trade.

The indicated production was calculated on the condition of the crop August 1, which was 74.2 per cent normal, as compared with 65.6 per cent a year ago, and 67.9 per cent the ten-year average, and on the average in cultivation July 1 adjusted.

The adjustment takes into account the removal of acreage indicated August 1 by data from the agricultural adjustment administration and the 10-year average abandonment on the area not under contract.

The area in cultivation July 1 was 2,785,000 acres, compared with 36,000 acres a year previously, and the ten-year average abandonment was 2.6 per cent.

The Aug. 1 condition indicates a yield of 198.4 pounds to the acre, as compared with 178.3 pounds produced last year and 167.4 pounds the ten-year average.

The area indicated for harvest is 2,784,000 acres, compared with 35,000 acres picked last year.

LAST RITES HELD FOR VALLEY VIEW RESIDENT AUG. 3

DECEASED HAD BEEN IN ILL HEALTH FOR EIGHT MONTHS

Funeral services were conducted Thursday afternoon, August 3, at four o'clock at the grave in the Littlefield Cemetery, for Mrs. W. H. (Josie) Ercanbrack, aged 40, of the Valley View community, who died Wednesday, August 2, at eleven p. m. at the Simpson Sanitarium, where she had been for thirteen days previous to her death.

Deceased had been in poor health for the past eight months, and had been confined to her bed for about six weeks.

She was born near Graham in Young county, moved with her parents to Davilla, Milam county, in 1912, where she married W. H. Ercanbrack on January 28, 1914, to which union were born three sons and two daughters, one of whom an infant died in January last. The Ercanbrack family came to the Plains in the fall of 1929, locating two miles northeast of the Valley Gin, where they have continued to make their home.

Deceased had been a member of the Methodist church for the past twenty years.

Petitions have been filed with the county clerk, asking the Lamb county commissioners' court to order that a local option election be held on 3.2 beer August 26 concurrent with the state balloting on beer and repeal of the Eighteenth Amendment.

The petitions carry the signatures of more than 700 residents of the county.

The county commissioners will act on the matter at their meeting next Monday.

Mr. and Mrs. J. G. Singer were the first to buy 1934 membership Certificates in the National Red Cross Association. They purchased these from Rev. J. F. Grizzle, County Roll Call Chairman.

T. Wade Potter To Serve on Littlefield Relief Committee

T. Wade Potter of Littlefield, P. E. Boessen of Sudan, Roger Willett of Amherst, Guy Willis of Olton, and a fifth party whose name it was impossible to learn at this time, were appointed by Texas Relief Commission, Austin, to serve on the Lamb County Relief Committee, each member serving in his territory.

The appointments were approved by the Commissioner's Court at Olton Tuesday.

WEST TEXAS GAS, SOUTH PLAINS PIPE LINE ARE MERGED

WILL OPERATE PIPE LINES AS UNIT OF GAS COMPANY

Arrangements have been completed whereby the South Plains Pipe Line Co. is merged with the West Texas Gas Co., according to an announcement by R. F. Hinchey, vice president and general manager of the West Texas Gas Co.

"This action was taken by the officers of the two companies in order to increase the operating efficiency, and effect certain economies in an effort to compensate for the general decrease in business," said Mr. Hinchey.

"It is also desired by the officers to restore the investment of the South Plains Pipe Line Co. to the West Texas Gas Co. so that there may be a better understanding on the part of our customers and city and town officials as to the costs of both transportation and distribution of gas.

"The pipe lines will be operated as a transportation division of West Texas Gas company with the same personnel," Mr. Hinchey explained.

POSTAL RECEIPTS SHOW INCREASE OVER LAST YEAR

Business at the Littlefield post-office is showing a gradual improvement, according to J. G. Singer, postmaster.

Postal receipts for the month of July, show a small increase over July, 1932, the receipts for July, 1932 being \$1014.45, and July, 1933, \$1015.44, this increase coming from the sale of postal stamps. The number of registered letters mailed in July of this year showed an increase over July of last year. The increase in all outgoing and incoming mail is very noticeable, especially since the beginning of August, and it is the belief of the Littlefield Postoffice that the receipts for August will show a decided increase over July.

HOUSE-TO-HOUSE CANVAS PLANNED FOR ENTIRE CITY

Officers Are Selected To Assist in Carrying Out Campaign

Hour by hour throughout the nation the giant machine of the President's Emergency Re-employment campaign is gaining momentum. Here in Littlefield as in every other city and town in the United States, the big drive to put men and women back on the payrolls at once is being speeded up to the limit of human possibilities.

This was the word that came today from Dr. Ira E. Woods, who, under the title of "General" is at the head of the smashing campaign to be staged in this city to rout the forces of unemployment and depression.

"Nothing so stirring and spectacular since the wartime days of 1917 has been attempted in this country," said Dr. Woods today. For example, we are planning to make a house-to-house and block-to-block canvass throughout the entire city and vicinity, and the same mopping-up process will presently be underway in every part of this entire country. It certainly means tremendous organization effort to carry out such an undertaking, but the objective is well worth the effort.

"Of course," continued Dr. Woods, "it would not be possible to carry out such an enormous task without systematic planning backed up by characteristic American enthusiasm. You know, there is just nothing beyond the power of the people of this country, once they catch the spirit of the thing and decide to put it over.

"Now, as to the way this big drive has been mapped out by the National Recovery Administration. In the first place, the organization has been set up along military lines, for if ever there was a war and a righteous one, it is this master offensive unemployment. Heading the work in each state are a state chairman and a state women chairman, both appointed by the Governor of the state. These two, in addition to the chairman of the committees representing the principal cities of the state, and the state commissioner of labor, will constitute the state committee.

"The duties of these state committees are to make certain that every city in the state organizes and conducts a local Emergency Re-employment drive.

"Then we come to the city organization. The local committee, as I have said, is organized along strictly military lines, the leader being designated as "General." He, in turn, selects three colonels, each of whom is to have charge of a specific part of the campaign. For example, Colonel No. 1, will have charge of the manpower or organization department, and he is to appoint seven majors, more or less, depending on the size (Continued on Back Page)

RELIEF BOND ISSUE ENDORSED BY C. OF C. HERE

Will Ask The West Texas Chamber To Support The Issue

At the Chamber of Commerce luncheon held Tuesday in the basement of the Presbyterian Church, several matters of interest were discussed, including the \$20,000,000 Relief Bond issue to be voted on August 28.

Dr. Ira E. Woods, President of the local Chamber, announced to the meeting that the West Texas Chamber of Commerce was taking a poll on the wishes of the different local organizations, and after some discussion the Littlefield Chamber went on record as endorsing this bond issue, for unemployment relief, and voted to request the West Texas Chamber of Commerce to support this project.

Dr. Woods explained that unless the bond issue is passed, it is possible that there will be no more RFC funds available to this district, as the Federal Government has stated they intend to discontinue allotments to Texas and other states, which do not assist with these funds. If the Bond issue is passed, it will be supplemented by Federal funds, which will be turned over to local committees for distribution for work relief.

Further information received by Dr. Ira E. Woods from the Department of Commerce, Houston office, in regard to complying with the NRA was read and discussed.

Eastern Star State and District Officers Visit Local Chapter

The Littlefield Chapter of Order of Eastern Star was honored by a visit Saturday evening by Mrs. Riva Burnett of Miami, Texas, Worthy Grand Matron of Texas, and Mrs. Florence Reid of Nacona, Texas, District Deputy Grand Matron, who inspected the Chapter.

Mrs. T. Wade Potter, Worthy Matron, presided, and following the putting on of the work by the new officers for the year, refreshments were served.

Before coming to Littlefield Mrs. Burnett and Mrs. Reid inspected the Sudan Chapter, and were entertained at a dinner given in their honor.

MASS MEETING CALLED BY AMHERST C. OF C. IN INTEREST OF NRA; ABOUT 100% PLEDGE COOPERATION, SUPPORT

A mass meeting was called by the Amherst Chamber of Commerce Friday evening last, at the Baptist Church, for the purpose of cooperating under the NRA, and arriving on opening and closing of hours. A large number of business men and citizens attended.

Mayor Ike Batson presided and S. E. Lloyd acted as secretary of the meeting.

Among those who addressed the meeting in the interest of NRA were: Dr. Ira A. Woods, President Littlefield Chamber of Commerce; Rev. J. F. Grizzle, pastor of First Baptist Church, Littlefield; J. O. Garlington, manager of Littlefield Piggly-Wiggly; and Mr. Salem of Salem Dry Goods, and Sid Morris of Morris Grocery; and Mr. Nichols of the Nichols Grocery and Market, Sudan.

The meeting voted to cooperate and support the President's agreement under the NRA, and a committee was (Continued on Back Page)

appointed to confer with business men from Littlefield and Sudan in an effort to agree on the same opening and closing hours for Littlefield, Sudan and Amherst.

It was decided that Amherst dry goods and grocery stores would adopt the same hours as Littlefield grocery stores have, that is open at 7:30 a. m. and close at 7 p. m. each day with the exception of Saturday, when they will open the same hour, 7:30 a. m., but no definite time is set for closing Saturday night.

Sudan was represented at the meeting by four merchants on behalf of the dry goods and grocery trade, and it was mutually agreed that Sudan's dry goods and grocery establishments would adopt the same hours for opening and closing. Mr. Nichols of the Nichols Grocery and Market of Sudan spoke on behalf of the grocers of (Continued on Back Page)

Checks Will Be Mailed To Farmers Direct From Washington

The final acceptance papers, which must be signed by farmers reducing their acreage, before checks will be issued, are being now received by the County Agent, and delivered to the Community Committee, composed of J. C. Hilbun, W. W. Allen and J. O. Garlington, whose duties are, as soon as acceptance papers are received, to take them to the farmers for whom they are sent, inspect the farm property covered by agreements, secure the farmers' signatures, and send the papers to Washington, so that checks may be mailed direct to the farmers.

The Community Committee asked the Leader to explain that it is not necessary for the farmers, who are reducing their acreage under the Government's cotton reduction plan, (Continued on Back Page)

EIGHT YEARS AGO IN LITTLEFIELD

(Exerpts from Lamb Co. Leader)

The "Little Drug Store" is this week being opened to the public in the Green Line Land company building recently occupied by Judge E. A. Bills.

J. M. Hughes and C. M. Ferrell are proprietors of the new apothecary, and they are putting in a new and well assorted line of drugs of all kinds.

That the City of Littlefield will be drinking water from its own municipal waterworks, is the statement of Commissioner P. W. Walker. Much of the material for the new \$75,000 system is now on the ground and the work is going forward.

The new Primary building, now being constructed, will be ready for use by the middle of September, says Arthur P. Duggan, President of the School Board.

Maurice White has gone to Pittsburg, Pa., where he has accepted a position with the Westinghouse Electric Co.

Johnnie Rochelle and Mrs. Bonnie Petty surprised their friends last Tuesday by going to Big Springs, where they were made man and wife. They were accompanied by Miss Lola Mae Rochelle, sister of the bridegroom, who was the only one outside of the contracting parties who knew of the wedding until the latter part of the week when the bride moved into the home Mr. Rochelle had provided for her on Eighth street. (O'Donnell News.)

The exterior appearance of the Presbyterian church has been greatly improved with the addition of two coats of paint.

Mrs. G. M. Whittington of Fort Sumner, New Mexico, passed through Littlefield Saturday enroute to Central Texas to visit with relatives.

Requirements On Voting August 26

Interest in the questions to be voted on August 26, particularly legalization of 3.2 beer and ratification of the Twenty-first Amendment, has caused many inquiries regarding poll tax receipts, exemption certificates and other matters.

Persons who vote must have either a 1932 poll tax or an exemption certificate. The only exception to this stipulation is that an exemption certificate is not required in boxes outside the city. Rural voters not entitled to exemption, however, must present the 1932 poll tax receipt.

The 1932 poll tax receipt is the one obtained during the period from last Oct. 1 to Feb. 1, this year.

Persons entitled to exemption are those who become 21 any time prior to the election, or those 60 years old by Jan. 1, 1932. Persons entitled to a certificate may obtain one at the county tax collector's office at the courthouse any time up to the day of the election, or even on the day of the balloting.

Chevrolet and Pontiac Employ 18,000 More Men

Eighteen thousand more men are at work in Chevrolet and Pontiac plants today than at the same time a year ago, W. S. Knudsen, president and general manager of the Chevrolet Motor Company stated in discussing the employment situation.

In emphasizing this picture of rising employment, Mr. Knudsen also pointed out that payroll figures of the two companies are now at a higher stage than in any year since the boom period of 1929.

In the single week from July 8 to July 15, inclusive, the number of men employed increased by approximately 4,000 at the 20 plants throughout the United States and from the 15th up to the present, approximately 2,000 more men had been added to the payrolls.

Since June 10, declared Mr. Knudsen, as he analyzed the figures, a small army of 11,000 men have found employment with Chevrolet and Pontiac. Total employment today is above 46,000 persons.

UNTIL WE LEARNED BETTER

Until we learned better, we used to mix wood and steel in our car bodies and wheels.

It was the best way to make bodies—then. But the state of the art has advanced.

Of course, it is more expensive to make an all-steel body than to make a wooden frame and nail steel panels on to it. The better way involves an initial expenditure of several millions of dollars for new dies, which renders a change very costly. Cars, especially large expensive cars which are produced in small volume, cannot afford this, because the dies cost as much for one car as for a million. That alone explains why all-steel bodies are not used in all cars.

But our basic policy from the beginning is to make a good car better, regardless of cost.

For example, when we discarded wood-steel body construction, it was not because we lacked wood. We still have some thousands of acres of the best hard wood in America. Economy would urge us to use up the wood first, and then adopt the better all-steel body. But we decided that quality was more important than expense.

We weighed the reasons, for and against, before we made the change.

We could see only one reason for retaining a mixed wood-and-steel body—nailing the metal on, instead of welding an all-steel body into a strong one-piece whole. That reason was, it would be cheaper—for us.

Our reasons for adopting an all-steel body were these: A wood-steel body is not much stronger structurally than its wooden frame. In all American climates, wood construction weakens with age. Every used car lot gives evidence of this. Rain seeps in between joints and the wood decays. A car may have a metal surface, and yet not be of steel construction. Under extreme shock or stress the steel body remains intact—dented perhaps, but not crushed.

Steel does not need wood for strength or protection. Wood is fine for furniture, but not for the high speed vehicles of 1933.

In the Ford body there are no joints to squeak, no seams to crack or leak.

The all-steel body is more expensive—to us, but not to you.

By all odds, then, steel bodies seem preferable.

Wheels also have become all-steel. No one argues that an electrically welded one-piece steel wheel, such as the Ford wheel, needs to be "strengthened" by adding wood to it.

The one-piece all-steel body is the strongest, safest, quietest, most durable body made. That is our only reason for making them.

Miss Minnie Belle Cobb and Lloyd M. Reid Wed at Clovis

The marriage of Miss Minnie Belle Cobb and Lloyd M. Reid was solemnized at Clovis, N. M., Sunday morning about 10:30 o'clock.

Mr. and Mrs. Armon Logan of Lubbock, sister and brother-in-law of the groom, and Mrs. Coleman Jackson of Canadian, Texas, Mr. Reid's aunt, accompanied the young couple to Clovis, and witnessed the wedding vows.

The newlyweds returned immediately to Littlefield, when a delightful dinner party was given by the groom's parents, Mr. and Mrs. M. P. Reid at the Reid farm home.

A profusion of garden flowers decorated the home for the occasion.

The bride is one of the most popular among the younger set in this city, and is a graduate of the Littlefield High school. The groom is one of Littlefield's most enterprising young men, and is connected with the Piggly-Wiggly here.

The young couple will make their home here.

Amherst Couple Wed at Lubbock

Miss Lucille Collins, daughter of Mrs. W. W. Collins of Amherst, became the bride of Leon Cantrell, son of Mr. and Mrs. Newt Cantrell of northwest of Amherst, Sunday morning, July 30, at 9 o'clock, at the home of W. G. Alderson, 2222 17th Street, Lubbock, with Rev. R. C. Campbell, pastor of the First Baptist church, officiating.

The bride's sister, Miss Faye Collins, and Mr. and Mrs. Harry Bennet of Amherst, and Mr. and Mrs. Alderson and sons, Orville, Jack and Eugene, witnessed the wedding vows.

The bride chose as her wedding gown shell pink flat crepe with white accessories, while the groom wore a black suit.

The bride is a graduate of the 1928 class of the Amherst high school, and attended Tech during the years 1930-31 and 32. She is a member of the Amherst School faculty, having

taught for the last term, and being re-elected for another term.

The groom has been in the Navy for the past four years, having re-enlisted lately for another four years. He is on the U. S. S. Henderson, stationed at San Diego, Calif., and operates the Navy Barber Shop on the boat.

The young couple left immediately after the ceremony on a ten days' wedding trip to Clouderoft, N. M. The bride's traveling frock was navy blue and white polka dot crepe with white accessories.

WE DO OUR PART

We Are Co-operating 100 Per Cent in the National Recovery Act Program

We Are Proud That We Are Operating Our Business Under the Blue Eagle Emblem as Enthusiastic Participants in the National Recovery Act Program

THIS MEANS—

That no PIGGLY-WIGGLY employe is working for a wage below the minimum, nor hours above the maximum set forth in the code;

That our weekly payroll has been increased by a substantial amount;

That additional jobs were created in our organization, and that they have been filled by deserving workers in our line of business.

That, in line with our general policy of service to Littlefield and Lamb County, we are doing everything possible to AID IN THE GROWTH, DEVELOPMENT AND PROSPERITY OF OUR CITY AND COUNTY.

THE MOST FOR YOUR MONEY

We have always given our customers a large, well stocked store in which to make their purchases under the most pleasant and advantageous conditions . . . AND AT PRICES THAT WILL STAND COMPARISON.

This same policy will continue. Prices will be advanced only as replacement costs make such a step necessary.

Piggly-Wiggly Grocery & Market

RENFRO BROS. GROCERY & MARKET MEMBER NRA

In line with our general program of co-operation in all matters in the interests of our city, county, state and nation, we quickly and willingly signed the National Recovery Act Agreement, and are doing our part 100 per cent in aiding the President, Franklin D. Roosevelt, in bringing back prosperity to our nation.

Co-operating With Our Customers

We believe that we have always operated a grocery and market in which merchandise can be purchased at very economical prices. This same business policy is being carried out under the National Recovery Act Program. Prices are being advanced only as replacement costs make such a step absolutely necessary.

Cotton Rates Are Cut

Texas Railway Commission to announce an emergency order making reductions in freight rates on interstate shipments of cotton. The reductions ranged as high as 50 percent.

Incident with issuance of the emergency rates, the commission set a hearing to determine whether the rates should remain in effect. The emergency rates became effective immediately.

The order provides for carload rates on cotton shipments under three classifications, minimums of 25,000 pounds and 75,000 pounds.

The commission has issued cotton rates on the basis of carload shipments.

L. Wells, chief intrastate rate expert for the commission, said the new rates would be of great benefit to shippers and shippers of cotton.

The new rates in cents per 100 pounds will be on the following minimum shipment basis:

Minimum Pounds—	
25,000, 50,000, 75,000	
13	11
25	21
37	31
50	44
61	55
71	65
82	76
91	85
97	91
103	97

The Railroad Commission's order will effect the same rate as prescribed by the Interstate Commerce Commission for interstate shipments under the 25,000 and 50,000 pound minimums. The Texas commission added the 75,000 pound classification.

Friend or Enemy

A Letter to the Editor From R. L. May, Lamb County Chairman, United Forces For Prohibition

The return of beer and hard liquor to the United States can mean but one thing to the farmers of the country economically. It will mean decreased consumption of farm products, at a time when agriculture is suffering acutely, from under-consumption.

It will mean lowered consumption of milk, butter, cheese, ice cream, and milk drinks. It will mean millions of dairy cows must go off the farms of the nation. It will mean decreased consumption of poultry and poultry products, of meat and bread, and clothing, all of which come from the farm; because the dollar spent for beer and whiskey can not be spent for these products.

Can the liquor business, by any means, be honestly considered a friend of the farmer, when it is competing for his market?

Vastly more grain is consumed in the production of dairy products, than was ever used by the brewers and distillers, or ever will be. The brewers have never in the past paid one cent more for grain than the dairyman, and the stock breeders and feeders, nor have they guaranteed to pay one cent more in the future.

When national prohibition went into effect, it is evident that the beer and hard liquor drinkers, with their families, turned to the use of dairy products as a substitute, for in the first five years of prohibition the consumption of milk increased 1,393,000,000 gallons. Consumption of butter and ice cream increased proportionately.

Read what Louis J. Tabor, Master of the National Grange, has to say: "The eighteenth amendment has been invaluable to agriculture because of the increased consumption of farm products. We have time for but a single example: In 1917 our average consumption of milk was 754.8 lbs. Ten years later the per capita consumption was 967.3 pounds.

indicating that milk was taking the place of beer throughout the land, and that children were enjoying the health and life-giving materials with which the dairy cow—the foster mother of mankind—blesses society.

"To produce the increased milk consumed would require more grain than was used by all the brewers and distillers before prohibition.

"Agriculture has suffered serious depression, but prohibition has not been the cause. This depression would have been more grievous had wet conditions prevailed.

"As Master of the National Grange, speaking for its million members, located in farm homesteads from the pine trees of Maine to the orange groves of California, from the lakes of Minnesota to the wheat fields of Oklahoma, I say without hesitation or qualification that the Grange stands unflinchingly for its long established policy for sobriety and prohibition.

"To us the Eighteenth Amendment is a part of the Constitution. We believe in its value. We are ready to defend it against those who would seek to destroy its civic, moral, spiritual, patriotic and economic benefits.

"Let us not forget the picture of the open saloon! Let us not forget blue Mondays in the home and in the factory! Let us not forget a staggering drink bill! And then let us remember that the evils of the saloon, were it to return, would be multiplied in accordance with the speed, the expansion, the development that has taken place."

The farmer who is interested in his own economic welfare, as well as the real friends of farmers in our towns and cities, will vote for the continuance, and more rigid enforcement of prohibition.

R. L. MAY, Chairman, United Forces for Prohibition, Lamb County, Amherst, Texas.

happens when a spoiled heiress meets a handsome engineer, during a drunken brawl in Paris and ends her honeymoon—alone in the meat of the story of "Strangers Marry," the new picture starring Jack Holt, will be shown at the Palace Saturday midnight, Sunday and Monday.

As Steve Rand, engineer and hero, meets Marian Drake (Bond), high-spirited young girl, during a farewell-to-civilization brawl in Paris. Their two colorful personalities are as they realize a mutual attraction, and they come to their sober realization later to discover that the man and wife.

After Marian's pleadings Steve is forced to abandon his contract to the railroad and only against his consent to take his young wife into the torrid climate of the tropical jungles of Java.

He is forced to leave her, alone, in a little settlement of Sara-

trabong while he plunges into the depths of the jungle to finish his job. While he is away, Marian, torn by the heat and monotony of the feverish country, watches her marital happiness melt under the tropical sun.

More as a temporary escape from the harsh reality of her existence than because she finds him attractive, Marian accepts the interest of Hinkle, a scheming American, who poses as an importer of farm implements, but who actually is representing foreign interests that are active in arousing native opposition to Rand's work.

Stumped by mysterious influences that have stalled his construction work, Rand returns to Sarabong for aid only to find Marian cold and seemingly wrapped up in a man he instinctively distrusts and hates. A dramatic scene follows in which he again refuses to leave the tropics until his job is done and she declares that she is going to Hinkle.

When Rand returns to the wilderness, alone, Marian turns to Hinkle to discover that he has plotted the death of her husband. Realizing her mistake, she puts all her energy into frustrating Hinkle's well laid plans. Just how successful she is furnishes "When Strangers Marry" with a surprise climax that is a real screen treat.

Program Underway To Halt Rapid Price Rise to Consumers

The Roosevelt administration have embarked on a program to prevent prices to consumers of products from rising faster than the purchasing power of farmers and workers.

The first move was taken by farm administrators in announcing that a weekly list of prices paid by consumers and paid to farmers together with changes in wage levels would be issued.

The first will come out this week, and will show surveys of prices in 50 cities for about 40 food and textile products most commonly used.

This part of the administration program will be fact-finding and aimed to provide consumers with the most recent information available regarding changes in costs of the essentials of life.

Another part contemplates that in instances where prices increase, after allowances for differences in transportation and other costs, appear to be uniformly higher in one locality than another investigations will be undertaken to determine whether anti-trust laws are being violated.

Administrators have conflicting reports as to price trends in connection with the recovery program. One set indicates that price rises to consumers may proceed at a much faster rate than increases in prices to farmers for their products and the rise in wage scales.

On the other hand, administrators have received the assurance of many of the large distributing organizations that the rises will not proceed at a faster rate and that a special attempt is being made by them to cooperate with the recovery program.

The point of most concern to farm administrators, it was said, is the possibility of sharp appreciation of inventories of processors and distributors of goods purchased during a period of low prices for which high-

er prices would be charged by the time the goods enter consumption channels.

RED CROSS ROLL CALL

We have been advised that all supplies have been mailed out from National Headquarters for the annual Red Cross Roll call. This drive will start about the last week in August and be continued until November 10 of this year. Mr. J. S. Hilliard has been appointed as Roll Call Chairman for Littlefield, Spade, Hart's Camp and Fieldton school districts. He will appoint his committees to assist him in the work within the next few days. Lamb county should respond in a great way this year to the Roll Call. The National Red Cross has given back to us about thirty five dollars for each dollar we have sent them and will during the fall and winter make other contributions to our needs. May we show our appreciation for their kindness by taking membership in the Lamb county Chapter this year? Your dollar membership will be divided as follows: Fifty cents will go to National Headquarters, ten cents will go to the County Chapter, and forty cents will remain in the local branch in places where Locals are set up. At this time Olton, Amherst, Earth, Sudan and Littlefield have branches.

JOE F. GRIZZLE, Chairman
Lamb County Chapter.

Black-Draught Clears Up Sluggish Feeling

"I have used Thedford's Black-Draught for constipation for a long time," writes Mrs. Frank Champion, of Wynna, Ark.

"If I get up in the morning feeling dull and sluggish, a dose of Black-Draught taken three times a day will cause the feeling to pass away, and in a day or two I feel like a new person. After many years of use we would not exchange Black-Draught for any medicine."

P.S.—If you have children, give them the new, pleasant-tasting SYRUP of Thedford's Black-Draught.

*Based on the latest retail registration figures from R. L. Polk & Company (all states for five full months). Since January first Chevrolet has sold in excess of 370,000 passenger cars and trucks.

People have come to expect Chevrolet to lead the world in automobile sales. But this year Chevrolet has done even more than that. According to the latest available figures, Chevrolet alone has sold almost as many cars this year as all the rest of the low-price cars combined!

When a car looms above its competitors, there can't be any argument about it. It must be an all-round better buy. And that's exactly what Chevrolet offers you. Fisher bodies, with the new ventilation system and the strongest and quietest body construction of the day—solid steel over a sturdy hardwood frame.* A valve-in-head six engine, unapproached for

economy . . . Cushion-Balanced to blot out vibration . . . full of snap and vigor — altogether the most efficient engine in the low-price field.

Then there's Syncro-Mesh with Silent Second, the Starterator, Simplified Free Wheeling, the Octane Selector, long, parallel-mounted springs—more advancements than we have space to describe. And Chevrolet prices are as low as \$445. Don't guess—buy from the leader. Get a car that has been proved sound and dependable by more owners than any other automobile you can buy.

of the territory to be covered. Each major appoints seven or more captains, each of whom will organize and direct a company of eight or possibly more individual workers.

"Now let me explain how we are dividing the work among these three divisions. It will be the job of Colonel No. 1, to conduct a block-to-block and, in reality a house-to-house canvass of the entire city, thus making a complete check-up on compliance with the President's Emergency Re-employment agreement. It will also

be his job to make a complete survey of the unemployed, codifying them as to adaptability by experience to trades and industries and act as an intermediary or active agent in getting people into definite jobs. It will also be the duty of this group of workers to check on the proper use of the NRA insignia by dealers and consumers.

"Colonel No. 2 will, with his subordinate officers and workers, have a tremendous job on his hands, too, just as important, in fact, as that of Colonel No. 1. It will be his duty to conduct and organize the publicity and educational campaign. It will be up to him and his organization not only to supply much of the pep and go, so to speak, but he will be entrusted with the dissemination of information through the medium of the press. His will be the job of mobilizing the staff of writers to have charge of the news and advertising work, the distribution of cards and other printed material and to see that the big drive is kept constantly before the public through any phase of the printed word.

"Of equal importance with Colonel No. 1 and 2, will be Colonel No. 3 and his staff, whose work principally will be the organization and direction of the speakers' bureau. Thus, in a way, it will partake somewhat of the same character of work as will be under the direction of Colonel No. 2, but there will really be no conflict. In connection with his speakers' bu-

reau, Colonel No. 3 will maintain information and appointment bureaus, thus schooling and appointing speakers who can go before audiences and explain the great purposes of the drive and tell people what is expected of them."

Dr. Woods stated that while the organization was just now in the preliminary state, it would round out into actual accomplishment with great rapidity. He suggested that the public watch the newspapers and listen to the radio with the view of learning every phase of the campaign as it is unfolded.

"There is not an individual or family in the city of Littlefield that is not vitally affected by his drive because it will be an important factor in breaking the back-bone of a depression which President Roosevelt so aptly described recently as "four years of economic hell."

Dr. Woods announced the following list of appointments: Colonel No. 1 in charge of volunteer solicitors and house-to-house canvass, Rev. J. F. Grizzle.

Colonel No. 2 in charge of publicity, R. T. Badger.

Colonel No. 3 in charge of Educational and Speakers bureau, Mayor L. R. Crockett.

Cotton Consumption Increases World consumption of cotton, all growths, for the season just ended was the largest since the 1929-30 season, the New York Cotton exchange reported today.

During the twelve months ended July 31 world spinners used approximately 24,725,000 bales, compared with 23,097,000 in the previous season.

The increase of 1,718,000 bales in consumption of all growths from 1931-32 to 1932-33 was almost entirely due, said the exchange service, to the large increase in the use of American staple, which rose from 12,506,000 bales to 14,132,000. Consumption of foreign cottons rose but slightly, from 10,501,000 bales to 10,593,000.

The service reported the world's carryover of all kinds of cotton on July 31 at approximately 15,530,000 bales on the basis of preliminary returns against 17,412,000 a year ago.

PERSONALS

Mrs. W. E. Jeffries is resting better, and her condition is somewhat improved.

J. C. Hilburn was in Amherst Wednesday attending to business matters regarding the cotton reduction plan. He received and brought back with him a large number of final acceptance papers for the farmers in this section to sign.

George White is branding his 1933 calf crop this week. Miss Mae McElrath returned to her home in Memphis Tuesday morning after spending several weeks in the Sam Hutson home.

Misses Geraldine and Georgia Kirkpatrick spent the week end with friends in Amherst.

Here's One Good Way To END AGONY OF NEURITIS

Newark Man Knows How . . . And Loses 10 Pounds "Gentlemen: I used Kruschen Salts to try and get rid of Neuritis from which I had suffered for one year in my left shoulder and arm. . . I took a little of the salts in the morning, sometimes in my coffee, other times in water. I would also occasionally take a dose in water at night before retiring. For 3 months I used the salts and while I lost 10 pounds in weight, the pain in my shoulder has ENTIRELY DISAPPEARED. During the time I was taking the salts I received no other medical treatment so I am fully convinced the Kruschen Salts did the trick." C. K. Murray, Newark, N. J. According to J. C. Hilburn, out of the 2200 cotton reduction agreements entered into in Lamb county, 826 Final Acceptance contracts have been received to date.

The committee immediately started out Tuesday morning to inspect the farm lands covered by these contracts and get the farmers' signatures, so that these papers may be returned to Washington and checks mailed out.

D. A. Adam, county agent, who has worked very earnestly and untiringly in the farmers' interests since the Cotton Reduction drive was launched, stated that it is his belief the checks will be received here within approximately twelve days after the final acceptance papers are mailed to Washington.

Tank Explodes at Littlefield Battery Station Saturday

What might have been a serious accident happened at the Littlefield Battery & Electric Saturday morning about ten o'clock, when Wharton was doing some welding on the welding generator, which is a capacity of a quart, and the backed up through the hose into safety tank, causing the carbide to explode. Luckily, no one was injured.

Carl Smith, proprietor, said the safety tank had not been at the fire would have gone into main welding tank, which is of the capacity of 30 gallons, and the might have caused serious loss of property and life.

HIGH TEST GASOLINE—Equal to All—GAL.

Don't be misled by advertisements and false rumors that an independent dealer cannot sell just as high quality gasoline and at lower cost than any major concern. Our gasoline is of the highest quality to be had in the higher grade, regular standard gasoline and at a saving of 2c per gallon.

Our reason for offering this saving is simple. WE CUT OUT THE MIDDLE MAN. We do our own hauling . . . thus save freight. We buy direct from the refineries . . . independent refineries who even have their own wells. They give us a saving and we pass this saving on to the consumer. When you buy from THIS Independent Station you get the highest quality . . . Just lower in Price!
