

Ninety-Four Miles REA Is Energized

N. OF AMHERST, FIELDTON, BECK NOW SERVICED

180 More Miles To Be Energized When Houses Are Wired

At last—a dream has been realized and the city has gone to the country.

Such is the way farmers on the Rural Electrification lines in Lamb county expressed themselves this week, as 94 miles of the line were energized, and electricity became a permanent fixture in their homes.

180 Miles Await House Wiring
The rest of the line extending 180 miles will be energized as soon as two houses per mile on the line are wired, it was reported from the local REA office Wednesday.

Included in these 94 miles that the lines have been energized, are the sections from the sub-station north of Amherst, to Fieldton, Beck community, and south of Sudan.

Second Project to Start
More than half of the stakes have been placed for the additional REA project, which included 87 miles, and reports are that construction on the line will begin in a month.

Since the inception of rural electrification on the South Plains, approximately 1,000 miles of high line have been constructed and more than 2,500 farm families will receive rural electrification service.

L. R. CROCKETT ON PROGRAM AT BUFFALO LAKE

Officials of Six States and Federal Government to Attend Ceremonies

L. R. Crockett will help officiate at the official opening ceremonies at the Buffalo Lake Saturday and Sunday, when dignitaries of six states and the federal government participate, and will be a guest of the Plains Boat club for the boat races that will witness some of the fastest drivers in America competing for prizes and honor.

Mr. Crockett is a director of the Panhandle Water Conservation organization, and this organization and the department of agriculture have made the lakes program possible.

Buffalo lake is located near Umbarger, in Randall county, about 30 miles south of Amarillo.

With the completion of Buffalo lake, the water conservation program has just started on the Plains, and efforts are being made to secure a similar lake to serve five

SOFTBALL ASSN. DIRECTORS WILL MEET THURSDAY

Playing Schedule to Be Arranged; Final Details Settled

Thursday night the directors of the Softball association will meet at the city hall with all the managers. The playing schedule will be arranged and the final details settled, so that all will be ready for the opening games on Monday night. L. Brannen and Red Chapman will serve as umpires for the season.

The field will be graded and dragged this week, and the lights properly focused. It is hoped that arrangements can be made so that on one night of the week a softball team of a neighboring city may play one of the league teams here.

Anyone desiring the concession for soft drinks is requested to have his bid in the hands of the secretary, Bill Jeffries, by Saturday.

SEVENTY-EIGHT RECEIVE THEIR DIPLOMAS MON.

Several Seniors Awarded Scholarships for Grades Made

Seventy-eight potential presidents and first ladies in caps and gowns marched down the aisle of the Littlefield high school auditorium Monday night for the final graduation exercises, and received their diplomas, before a crowd of parents and friends that taxed the capacity of the auditorium.

An interesting program on National Defense was rendered, with episodes staged on "Defense Against the Waste of Natural Resources," "Defense Against Propaganda," "Defense Against Intolerance," "Defense Against Indifference to Our Obligations as Citizens," and "Defense Against Intellectual and Spiritual Starvation."

Miss Lovelle Smith, Second honor graduate, gave the prologue for this program, and Miss Marguerite Brannen, first honor graduate, presented the epilogue.

Awarded \$50 Scholarship
Miss Mary Neal Weatherley was awarded the \$50 scholarship from the Littlefield high school alumni association for being an outstanding and all-around student.

Pat Boone Awarded Cash
The Woman's Study club made a cash award of \$25 to Pat Boone, Jr., who was selected as an outstanding student. The presentation was made by Mrs. J. M. Stokes.

Geta University Scholarships
Pat, Jr., was also presented scholarships to Wayland college, Southwestern University, and Southern Methodist university, as he made the highest grade for boys.

Marguerite Brannen, valedictorian, was awarded scholarships to several state schools, and Wayland college, Southwestern university at Georgetown, Southern Methodist university at Dallas, School of Commerce, and one year's free subscription to the Reader's Digest.

Lovell Smith, salutatorian, was awarded a medal from the local

TWO BATCHES OF CHECKS ARRIVE THIS PAST WEEK

\$29,642.43 Received Friday and \$131,408.16 Arrive Monday

According to W. O. Rieger of the county agent's office, Amherst, two batches of checks have been received during the past week.

On Friday last a total of 165 checks were received at Amherst, totalling \$29,642.43.

On Monday, Mr. Rieger advised that 666 additional checks arrived, totalling \$131,408.16.

According to the county agent's office, there are now 1,947 checks received to date, or a total of \$424,831.87, which represents less than 50 per cent of the total checks due under the conservation program.

It has been estimated that Lamb county farmers under this program would receive about \$925,000.

OIL ACTIVITY NEAR HERE

BLOCK SOUTH OF ANTON LEASED FOR OIL TEST

Drilling Must Start By July 1, or Leases to Become Void

A block of land five miles square lying just south of Anton in Hockley county has been leased for an oil test, with provisions that drilling must start by July 1, or leases become void.

The block begins with the section corner half mile northwest of Roundup, and extends five miles south and five miles west, taking in the George Broome farm on the west, which is two miles south of Anton. The company taking the leases will begin the geological tests immediately preparatory to selecting the drilling site. The leases will be held escrow in a Lubbock bank, pending the starting of the drilling.

The contract calls for a 6,000 foot test.

AGROL MEET STAGED AT FIELDTON

Farmers Hear Interesting Discussion of New Industry

Tuesday night farmers of the Fieldton community met at the Fieldton school and discussed the possibilities and advantages of the proposed Agrol plant which is now being promoted as a co-op project. C. G. Barnett presided and addresses were made by Dr. Harry Miller, the well-known chemical research engineer, and Russell Myrick of Lubbock, who — with George C. Wolforth are the active officers behind the new industry.

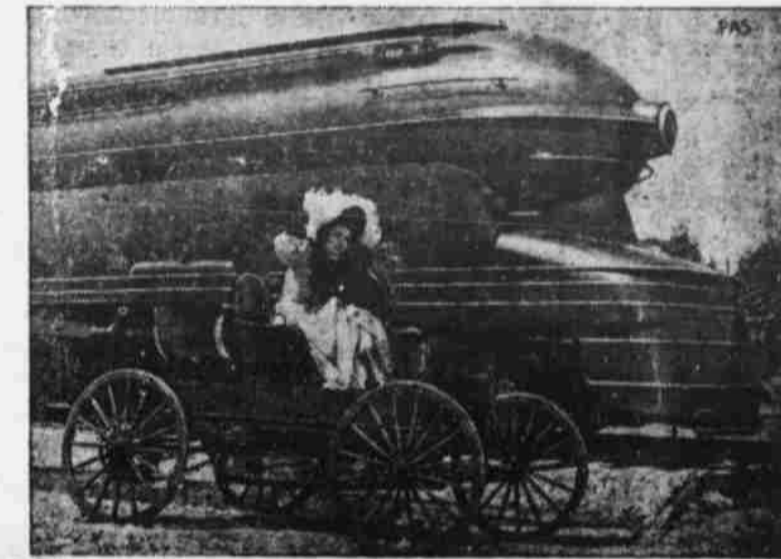

W. H. Cunningham, of the State Certified Seed Growers association, has been working with the Lubbock group for many months and was one of the interested attendants at the Fieldton meeting. Littlefield and Lamb county have taken the initiative in interesting the South Plains farmers in this valuable plant that will provide a fine market for grain sorghums.

At Tuesday's meeting, Dr. Harry Miller made a most interesting talk on the possibilities and advantages in castor bean cultivation. Dr. Miller has recently perfected a process for converting castor oil into a drying oil. Through Mr. Myrick's efforts, castor bean seed for 1,500 acres has been distributed through the South Plains counties. In addition to the many uses for castor oil it is also one of the vital elements used in denaturing the fuel alcohol known as "Agrol."

Dr. Miller showed a brick of dry ice, explaining that this quantity was only one of the by-products of a bushel of grain. Each bushel will

Race Against Time—With Time the Loser

NEW YORK, N. Y. . . . A generation of travel progress is commemorated in this symbolic race between a "horseless carriage" and a modern streamliner which took place at the New York World's Fair. The ceremony marked the 40th anniversary of the invention of roller bearings. The "horseless carriage," which dates from 1890, still rolls on the first successful roller bearing installation ever made.

BOOK FRIENDS DONATE TO CITY LIBRARY

Nearly 300 Books Added Since First of Year

Fiction, classics, French short stories, religious books, reference books and many others are included in the large number that have been donated by citizens in Littlefield and vicinity since Jan. 1, 1939.

There are five seven-day books in the library, and there is a continued demand for the popular novels, "The Tree of Liberty," "The Patriot," "All This and Heaven, Too," "Rebecca," and ". . . And Tell of Time."

The Woman's Study club has purchased 51 new books for the library since the first of the year, and plans are to purchase a larger number before the end of 1939.

Individuals who have donated books are: Edwin Lynn Hall, Mrs. L. A. Robison, Eunice Latimer, Mrs. H. R. Bilderback, Mrs. Foy Cherry, Mary Jane Speights, Marvin Kyle, Mrs. R. A. Reed, Edith Reed, Doris Reed, Raymond Reed, Landon Duggins, Maxine Williams, Mrs. Rose Jackson, Roy A. Patterson, Winona Cherry, Leonora Lueck, Doyle Glazener, Howard Wilson, Naomi Price, May Dell Akin, Mrs. L. O. Wingo, Mrs. Mary Hilton, Pauline Lacy, Mrs. G. W. Cherry, Mrs. W. A. Turner, Mrs. Ivan Fowler, Maurice Dippel, Rev. Marvin B. Norwood, Miss Gladys Fowler, Mrs. Leota Pittillo, Mary Ellen Rasberry, Bro. T. M. Cummings, W. H. Pope, Mrs. Ira Hollis, and J. A. Von Lanckin.

Capt. Eula Trummell and her sister, Betty, left for Lexington, Miss., Saturday night late in response to a telegram that her father was accidentally killed.

The message came from a brother-in-law, at Lexington, Miss., but her father was believed to have died as result of an automobile accident near Gladewater, Texas.

Further information regarding burial, etc., was not available.

Capt. Trummell and her sister are expected to return the latter part of this week. In the meantime, her assistant, Lieut. Irene Parnham, is in charge at the Army headquarters.

Bailey County Farmer Named to Conservation Board

W. G. Kennedy, Bailey county farmer, was elected to the state oil conservation board by district one at the delegates meeting in Plainview Monday. A successful farmer, he is a director of the Texas Agriculture association and was on a committee which assisted in framing the soil conservation bill passed recently by the Texas legislature.

Miss Emma Ruth Weatherly has been employed in the bookkeeping department of the First National bank.

Monday Hottest Day Of Year; 102 Recorded Here

The hottest weather for this season was recorded by the West Texas Gas Company's thermometer Monday between 3 and 5 o'clock, when the high temperature of 102 was registered.

Readings for the past week were: Thursday, low 54, high 89; Friday, low 58, high 91; Sunday, low 59 and high 98; Monday, low 68, high 102; Tuesday, low 67 and high 97; and Wednesday, low 68.

J. A. PAULK PASSES AWAY THURS. MORNING

Final Rites Held Friday At Slaton For Cattleman

Funeral services for Jesse Alexander Paulk, about 72, were held at the Slaton Church of Christ Friday afternoon at 4 o'clock, with Bro. Jack McCormick in charge. Burial was in the Slaton cemetery, under the direction of Hammons Funeral home.

Mr. Paulk passed away in a Littlefield hospital Thursday morning, after a two weeks' illness. However, he had been in ill health for more than five months. He and Mrs. Paulk moved to Littlefield two months ago, and were making their home with their daughter, Mrs. Tom Newton. Prior to this time they had been living at Levelland.

For more than nine years Mr. Paulk was in the cattle business at Slaton.

Survivors include his wife, two daughters, Mrs. W. M. Easterwood, of Levelland, and Mrs. Newton of Littlefield; Jesse Paulk of Lamesa; Roy Paulk of Levelland, and D. W. Paulk of Anton.

Among those who attended the funeral services from Littlefield were Mr. and Mrs. Lowell Short.

PARALYSIS IS FATAL TO MRS. H. E. LACY, 54

Funeral Services Conducted Friday at Spade Church

Funeral services were conducted at the Baptist church, Spade, Friday afternoon about 5 o'clock, for Mrs. H. E. Lacy, 54, who passed away early Thursday, as a result of paralysis.

Rev. F. H. Cole, pastor, officiated and interment, in charge of Hammons Funeral home, took place in the Littlefield cemetery.

Mrs. Lacy was stricken with a stroke of paralysis on the steps of her home, four miles north of Spade, as she and her husband were returning from the freshman play at Spade the night previous to her death, about 11 o'clock. She passed away three hours later, at 2 o'clock

Very Good—Not Enough

The Lubbock Chamber of Commerce is in the midst of a membership drive which promises to be most successful. More than 200 business and professional men are putting their shoulders to the wheel that is speeding progress for the Metropolis of the South Plains.

We are proud of Lubbock and their wonderful progress. We feel that in our own humble way, we have contributed no little to that progress and advancement. The people of Littlefield and Lamb county are very loyal supporters of Lubbock industries and educational facilities.

Revolution In America

We hear and read in print many expressions of fear that some or all of the new ideas about government, or old ideas dressed up in new language, as most of them are, are going to overthrow our national system.

We do not share those fears. The United States has stood for more than 150 years as the one great nation in the world that is not afraid of new ideas.

Our people have been bombarded, from within and without, with proposals and schemes to change the whole system and let enthusiastic visionaries run the country. The sole effect has been to demonstrate that the American voters have much more and sounder common-sense than the visionaries and revolutionists give them credit for.

We get a lot of pleasure out of worrying about things that never happened. If there is one thing the ordinary citizen enjoys more than anything else it is a political argument. We are constantly setting up straw men for the purpose of demolishing them by words.

Just now, we have two pet bogies to argue about. One is Communism, the other is Fascism. Nobody has ever given an exact definition of either of them, nor explained just how either is going to take possession of the nation, but that doesn't keep some of us from being scared nor any of us from arguing about them.

This is a good time to remember, if anyone has forgotten it, that there is only one way the United States system of government can be changed, and that is by the vote of a majority of our citizens.

Revolutions occur, so far as we have noticed, only in countries where the people can't read, aren't allowed to say what they think about their government, and are on the verge of starvation.

SCHOOL DAYS

By DWIG

PRAIRIE WEEDS

Gathered by OLE DRIFTER

Howdy Folks;

I did not see "The Confessions of a Nazi Spy." Couldn't quite make up my mind that the picture was doing any particular good at this time. As far as checking up on foreign espionage in this country, you may depend upon it—that our own good government is fully up on the activities of the secret agents in the U. S.

Speaking of — "Bad News," hasn't it often occurred to you—that many campaigns of hatred and crime would die at birth if they were not given the stimulus of publicity? Within the past week we had several headlines about secret organizations. Why—that's the very food that these weaklings grow fat on.

That was a very nice thing they did for our postmaster last week at Amarillo. The crowds were quick to recognize the resemblance between Jim and W. D. T., and they wanted to do something nice for our own genial mail man; they had already arranged to give Farley a fine horse; so—they gave Storey the—horse-laugh. I am not charging Brother Storey anything for this publicity. In fact, I'm letting him have it.

A fellow in New Jersey fell haloop with a lit cigar in his mouth. The ashes set fire to his whiskers and the man died. And—let this be a lesson to you; if you take your whiskers to bed with you—be sure that the cigar is out. Maybe it would be better yet if you saw your barber or give up smoking altogether.

Couldn't make up my mind the other morning, as to whether I'd have a fruit cocktail or a smothered herring for my breakfast appetizer, when my eyes fell on the highly seasoned account of the squabble between John Barrymore and Elaine (Caliban) Jacobs, his most recent wife. I consumed the spicy dish right to the last piping hot morsel. In that stirring chapter where he took the fair Elaine across his knee and "spanked" her, I was a little bit disappointed. Surely—the recording scribe could have found a more fitting term than "spank"

when discussing so attractive a subject as the lovely Elaine. That's the trouble with them that reporters, they ain't got no feelin's or sentiment in their systems.

A 59-year-old professor in Indiana married a 16-year-old school girl last week. According to the bride—he had been awfully good to her. Rapturously, she admitted — "Why, he bought me store candy twice this week and even got me a pair of patent leather slippers." I forgot to mention that the groom is a doctor of philosophy and instructor in history. I have always maintained that higher education does things to people and—that history likes to repeat itself. Take it away, America.

A former Lehigh University athlete has declared his intention of "Hoofing" it from the New York world's fair to the Frisco show, a mere hike of 3,767 miles. He expects to reach the Golden Gate on about Nov. 21, that is—if his shoes hold out or he doesn't stumble on

the way; or something happens to him. Personally, I am full-up on worries, and won't have time to grieve about what happens to this monkey.

Old guy in Tacoma was applying for citizenship, and nearly lost out when he told the judge that he believed in Polygamy. This 68-year-old foreigner with Mormon persuasions, opined that in time of war or depression, it was quite all right for "a man who is able" to take care of more than one woman. I am not prepared to enter into the merits of this argument — particularly with my one wife right here in town, and reading every word I write, but the thing is rawther interesting — if you gather me.

"THE HARDYS RIDE HIGH" TO BE FEATURED AT PALACE SAT. MIDNIGHT, SUN. MON.

"The Hardys Ride High," sixth of the beloved Hardy Family series, opens at the Palace Theatre Saturday midnight, continuing through Sunday and Monday.

Lewis Stone continues as Judge Hardy, with Mickey Rooney, Cecilia Parker, Fay Holden, Ann Rutherford, Sara Haden and Don Castle. New faces appear in the large supporting cast, including Virginia Grey, Minor Watson, John King, John T. Murray, Halliwell Hobbes, George Irving, Aileen Pringle and Marsha Hunt. The director was George B. Seitz, who has occupied that post in all of the Hardy Family pictures.

The complications of wealth face the Hardys when the Judge is advised that he is the legal heir to the estate of an ancestor. The family flies to Detroit to occupy the estate. Enroute, Sara Haden as Aunt Milly meets a middle-aged business man who wants to sell her

real estate, but she is under the impression that he seeks marriage.

In the city, the family is overwhelmed with luxury. Mickey steps out to his first night club, meets a dancing siren and when she permits him to call on her is so terrified he runs away. Cecilia buys lavish gowns and charges them to the Judge. Only Mother Hardy and the Judge keep their heads.

When the Judge learns that he is not actually the legal heir, he faces his great problem. He can destroy the evidence and retain the wealth, or produce his records and renounce the fortune. He and his wife make a swift decision. The fortune is abandoned and the Hardys return to Carvel, wiser and none the worse for their adventure.

"The Hardys Ride High" has the most elaborate settings yet seen in a Hardy Family production, among them being magnificent interiors of a millionaire's mansion in Detroit.

produce two and a half gallons of fuel alcohol, 16 pounds of dry ice and 14 pounds of high protein feed.

Mr. Myrick explained that a loan from the Reconstruction Finance corporation, amounting to \$540,000 is to be sought. According to officials of the Agrol company, this loan will be available under certain circumstances.

A preliminary survey of the South Plains area had been made; but a very accurate survey will be made by Dr. Christianson, Dr. McPherson, Dr. Champlain, and Dr. Miller, before location and plans are definitely gone into.

As previously announced — the company recently received its charter at Austin; will be incorporated with a capital stock of \$1,125,000 consisting of 3,750 shares of \$300 each.

Other awards made were to Geraldine Ratliff, for the best all-round girl, Iva Dell Barton and C. L. Kelly, Jr., for regular attendance.

Introduce School Board

Supt. F. A. Hemphill introduced members of the school board, the senior class sponsor, Miss Mary Perkins, and Mrs. C. E. Campbell of Spearman, who taught several of the 1939 seniors in the first grade 11 years ago.

Mrs. Campbell, who was known as Mrs. Baze to the students, is a

house guest this week in the home of Mrs. Pat Boone, who taught with Mrs. Baze in the local school system. Mrs. Baze has been principal of the primary school at Spearman since she left Littlefield.

ROTARIANS ARE HOSTS TO COMPETITORS

Littlefield Rotarians will entertain their competitors at today's luncheon, and the meeting will be devoted to creating a most friendly spirit among the men in the same lines of business or professions. This idea has been carried out in most Rotary clubs with splendid results. It is expected that a record attendance will be scored.

The feature of last week's program was the singing of James Penn, a marvelous baritone who was visiting friends in the city. A debating team from the local high school discussed the subject, "More Schooling or Work." Margaret Brannen and Floyd Hemphill (pinch-hitting for one of the students) argued against a team composed of George Covington and Buford Humphries.

MY EARS BURN

when a million users say so many nice things about me. They all say that I am safe... good looking... as safe... as modern as an electric light... and require no attention at all. But the sweetest music to my ears is for them to say that I am economical and dependable—because that is all anyone could ask of any water heater.

Such modesty, Pappy. You don't have a thing on me because I am just as efficient and accurate, too! I heat only the water that is drawn off... and do not waste a single penny's worth of low cost electric current.

Tch! Tch! What have you all got that I haven't got? I lick out my plug after I get the job done. What's more, I'll boil a quart of water in less than five minutes for only three mills! Humph—who said anything about economy?

Come by our office and see us on display.

Fieldton Future Farmers Accomplish Much This Year

PLANT 42 ACRES COTTON; 78 MILO; TO SORGHUMS

\$1810 Invested in Projects and Project Equipment

Fieldton chapter of the Future Farmers of America under the direction and supervision of advisor, B. C. Drinkard, has accomplished much this year. The following is a brief summary of the work of the chapter: The projects the boys have had: The boys have 42 acres of cotton, 78 acres of which will be planted this year.

seventeen boys have 78 acres of which will be used to feed their animals. The boys have seven acres of kaffir.

seventeen boys will use certified sorghum seed to plant 72 acres of their projects. The boys had 25 gilts for projects. Twenty of these gilts were purebred or registered.

seventeen boys had six sows for pig production. Two of which were purebred.

seventeen boys had 37 pigs for production. The boys had calves for beef production. Twelve boys had 13 milk production projects.

seventeen boys had 489 hens for egg production projects. The boys had 12 sheep for production.

seventeen boys have a covered garden. The chapter had a one-acre comparative tomato project which made a profit of \$60.

seventeen boys had 3-4 acre of truck production projects. The boys had an average of over two projects per boy.

seventeen boys had 42 members of the chapter. The boys had \$1,810 invested in projects and project equipment, which is an average investment of over \$33 per boy.

besides the above productive projects the boys have done many improvement and supplementary farm projects such as:

seventeen boys ran contour and terracing lines on 3,724 acres of land. The boys set out 355 trees. The boys built nineteen self-sufficiency projects for themselves and farmers.

seventeen boys treated 1,850 pounds grain sorghum seed for smut. The boys field selected 210 pounds of grain sorghum for seed. The boys culled 1,850 hens. The boys bought 2,150 pounds feed for their projects cooperatively.

seventeen boys sugar cured 400 pounds of pork. The boys made three rope making machines and 19 boys made 81 feet of rope. The boys sugar cured 400 pounds of pork.

seventeen boys received 40 certificates of merit from the state office. Other activities of the chapter are as follows: Dairy products judging contest entered four contests and won first place at Frenship, first place at Whitharral, fourth place at the state contest at Texas Tech, and fifth place at the state contest at North Worth where 63 teams competed. The poultry team entered three contests at Tulla, Meadow and Tech. The shop team which entered the state contest at Tech placed second. The grain judging team entered contests at Tulla and Tech. The one-act demonstration team won first at the Regional contest. Other district contests entered are extemporaneous speaking, one-act play which placed second, Essay writing, and chapter conducting. The chapter sponsored a community fair. Won first place with their booth at the Hockley County fair. Set out 100 trees around the school ground, and pruned the trees around the school ground. The chapter butchered five hogs for demonstrations. Sponsored a Father and Son banquet with over 90 per cent of the boys and their dads present.

Towns and Cities Invited to Send Sponsors to Stanford

Stanford, May 29. — Towns and cities throughout West Texas are being invited to send cowgirl sponsors to represent them at the 10th annual Texas Cowboy Reunion which will be held in Stanford July 3, 4 and 5. Mrs. W. J. Bryant of this city has been appointed by the Reunion as official hostess to the sponsors.

While only a few formal appointments of sponsors have been registered thus far, H. G. Andrews, chairman of the sponsors' committee, is informed that some 15 selections already have been made by various towns and counties.

Appointments are made by chambers of commerce, or in towns having no chamber of commerce, by the mayor, or lacking mayor, by the postmaster. County judges may name sponsors representing counties. Appointments will not be accepted later than July 1.

Chevrolet Retail Sales Show Great Increase in May

Dealers' retail sales of new Chevrolet cars and trucks in the first 10 days of May totaled 23,248 units, an increase of 1,505 over the corresponding period in April, and of 6,142 units, or 35.9 per cent, over the same 10 days last year. The announcement was made today at company headquarters here.

The Hewitt Chevrolet company are local dealers for the Chevrolet automobile. The period brought Chevrolet's sales for the year to date to 291,765 units, the records indicate. This is 70,212 units more than had been sold at this time in 1938, the percentage of increase being 31.7.

Used car sales in the first 10 days of May were 46,563 units, the report showed. This represents a gain of 55,172 units over the first 10 days of April, and of 10,483 units over the first 10 days of May a year ago.

Chevrolet's truck sales, for the year to date, have gained 32.8 per cent. Chevrolet is leading the field with 64,322 sales, as compared with 48,409 at this time one year ago. Extension of the truck line, and addition of cab-over-engine models, are credited as factors in the gain.

City Invited to Send Representative To Mineral Wells

Mineral Wells, Texas, May 30. — The Texas Health Festival is seeking a "Miss Littlefield" to participate in the Miss Texas Revue, a feature attraction of the Health festival scheduled to be staged in Mineral Wells July 13 through 16.

The exclusive franchise in the state of Texas has been purchased by the Texas Health Festival from the Showmen's Variety Jubilee, Inc.,

Atlantic City, N. J., to give them the right to submit the official "Miss Texas" for competition in the American Beauty Event, staged there, for the selection of "Miss America, 1939."

As an award to the winner of the title "Miss Texas" picked from representatives of a number of Texas cities and towns, the Texas Health Festival is giving an expense paid trip, valued at over \$1,000, from her home to the Golden Gate International exposition in San Francisco, thence by boat to the New

York World's fair in New York City via Mexico, Panama Canal, Cuba and Atlantic coast. "Miss Texas" the title for which a representative from this city will compete, will make personal appearances at both fairs and in Philadelphia before taking part in the American Beauty event in Atlantic City, Sept. 5 through 10.

In keeping with the theme of health, "Miss Texas" will be selected on the basis of health, beauty, poise and personality and talent for singing, music, dancing or drama.

Enlistments to U. S. Marine Corps for June Set at 37

Postmaster Wm. D. T. Storey announces that he has been advised that the quota of enlistments for the month of June assigned to the United States Marine Corps recruiting district of Dallas, headquarters

for Texas and Oklahoma, has been set at 37.

Manufacturing In The South

The number of manufacturing businesses in the South are increasing rapidly.

The late Henry W. Grady, 50 years ago, began to preach the doctrine that what the South needed was outside capital to develop industries that would consume its vast wealth of raw materials, instead of depending on agriculture alone.

One after another, great industries are finding the South measuring up to their requirements of transportation, climate, strategic location near markets, raw materials, low living costs and all the other requisites for soundly based manufacturing enterprises.

Among the nationally known industries which have expanded their production resources by establishing new plants in the South in the past few years are DuPont, Eastman Kodak, Johnson & Johnson, American Sugar, International Paper and Pulp, B. F. Goodrich Company, and scores of others.

Users of cotton find it more economical to locate their plants where the cotton grows, which is the reason for the model community of Silverton at Thomaston, Ga., where the Goodrich Company consumes 50,000 bales of cotton a year in tire manufacturing, and is adding to that a mechanical rubber goods factory at Clarksville, Tenn.

International Paper, Continental Container and other producers of wrapping paper and corrugated board have built a dozen mills throughout the South to make paper from slash pine, the South's most prolific natural crop. One of the largest chemical industries in America, the Newport-Armstrong Industries, makes artificial camphor from pine stumps at Pensacola.

As a result of this recent industrial expansion, Southern banking facilities have tripled, manufacturers have doubled and installed horsepower has quadrupled with the past few years. The South is at last entering upon the industrial era which Grady foresaw 50 years ago.

The Community Club House

Too great stress cannot be placed on the importance of the community club house and recreational center which is planned for Lamb county. Centrally located, this project will

serve the entire county and will be of particular service in advancing the best in farm operation and management. Outstanding in the program will be 4-H club work.

The days of hit and miss farming are passing as rapidly as light snow under a warm sun. The mothers and fathers of the farms are studying how to improve their farm plants and quality and volume of their crops. Into this program are closely woven the boys and girls of the farms concentrating much of their activity, thought and enthusiasm in the 4-H program.

A mechanic can do better work with good tools. A central gathering place for 4-H students, with the important facilities such an institution offers, is nothing less than putting at the disposal of these young people the equipment they require for greater accomplishments.

Have you ever thought of the importance of a central gathering place for farmers in the growth and development of Lamb county? Business and professional men like to attend conventions because they learn what is happening throughout the state and nation in their particular line of activity. Farmers are no different from business and professional men; they, too, derive outstanding benefit from gatherings of men and women in their vocation.

Official approval has been given to \$5,350 in WPA funds for the building of the proposed club house. But before this money will be available Lamb county citizens must subscribe \$3,000.

C. G. Barnett of Fieldton is general chairman for the raising of the \$3,000. Mr. Barnett and his associates report that they are meeting with good success in obtaining pledges and that they are determined in their efforts to raise the \$3,000.

A number of subscriptions for \$25 have been received. Other subscriptions range from \$15 down. Pressure is not being used in obtaining subscriptions. This has not been necessary because most everybody recognizes the importance of a centrally located community club house in the general program for the development of Lamb county.

Put your name on the dotted line for some amount. Every pledge will be much appreciated. **AND, REMEMBER, YOU ARE PARTICIPATING IN A VERY IMPORTANT STEP FORWARD IN THE INTERESTS OF YOUR COUNTY.**

"UNION PACIFIC" STARRING BARBARA STANWYCK COMING TO PALACE THEATRE

Barbara Stanwyck, in a role completely different from any she has previously attempted, and Joel McCrea, as a character strongly reminiscent of the one he portrayed last season in "Wells Fargo," are co-starring in the romantic leads of "Union Pacific," Cecil B. De Mille's grand-scale interpretation of the building of America's first trans-continental railroad.

Although the popular Miss Stanwyck has played roles as varied as Middle Western farm-woman, New England factory wench and Park Avenue debutante, her Mollie Monahan in "Union Pacific," which Paramount will show Saturday midnight continuing through Sunday and Monday, at the Palace Theatre, marks something totally new in the Stanwyck repertoire. She is a daring, warm-hearted, fiery girl of the West, the daughter of the "U.P.'s" first engineer, the postmistress of "end of track" and little sister of the husky railroad builders. She is equally at home outwitting Western sharpers, comforting the homesick Irish laborers, battling Indians on the warpath or engaging in high-powered romance.

Mollie's romantic interest in "Union Pacific" is one Jeff Butler (played by the handsome McCrea), a brave and reckless trouble-shooter whom the Washington government has assigned to help keep order along the right-of-way. The two meet at "end of track," the gaudy, brawling, settlement that moves ever westward with the railroad, and their romance moves as swiftly forward as the phenomenal railroad itself.

Although Indian attacks, corrupt officials and hostile nature can all be dealt with, Mollie and Jeff meet a real difficulty in Dick Allen (Robert Preston), a smooth young Western adventurer who has teamed up with a crowd of sharpers to sabotage the railroad. In love with Mollie, Dick has the double incentive of ruining Jeff's work and stealing his sweetheart at the same time.

When the irresponsible Dick goes so far as to help rob a pay train, upon which the "U.P." vitally depends, the good-hearted Mollie marries him to save him from the law. But before the railroad is finished Dick's own crimes remove him from the scene, leaving the track to romance clear for Jeff.

Miss Stanfield Book-keeper at Local Creamery

R. E. Coulson, who has served as bookkeeper at the South Plains Creamery for the past several years, has resigned for the purpose of entering business for himself. He and his family will leave shortly for Oklahoma City, where he and his son-in-law, Sam Allender, will go into the book-binding and ruling business.

Miss Eunice Stanfield, formerly with the Texas-New Mexico Utilities company, has been employed to fill the vacancy at the creamery, and has taken over her duties. Mr. Coulson left Wednesday afternoon for Oklahoma City.

Miss Stanfield has a large circle of friends here who will be glad to learn of her return to Littlefield.

FACTS FAVOR FORD

1 The 1939 Ford V-8 is a beautiful, modern motor car. Its 85-horsepower engine gives you economical, well-balanced performance over the entire speed range — and the 60-horsepower engine is even more economical.

2 The structural strength of the Ford car — frame, bracing, axles, body — makes not only for safety, but durability and long life.

3 Ford hydraulic brakes are exceptionally large and strong in proportion to car weight.

4 The Ford car is stabilized for comfortable riding. Its springbase, the distance between front and rear suspension, is 123 inches. Seats are toward the center, perfectly balanced. The car does not bob or dip and can have very little sway.

These four points — power, strength, safety, comfort — are by far the most important essentials in any motor car. They form the basic value of your investment.

With this solid foundation to build on, the Ford V-8 has been made beautiful, spacious, easy to drive. It is richly upholstered and has all the modern features which add to the luxury and pleasure of motoring.

You can see these things when you take a trial drive, but do not forget that the main value is in the things you do not readily see — quality of materials, precision of manufacture, fundamental engineering.

NOW---ONE GREAT DAIRY!

I HAVE PURCHASED FROM ... **EARNEST CUNDIFF** HIS FINE DAIRY HERD AND EQUIPMENT ... WHICH IS NOW ADDED TO MINE ...!

Mr. Cundiff has—through the years built up an enviable reputation because he has always maintained a very fine herd of dairy cows and a modern, sanitary dairy plant. I hope to merit a continuance of the good-will and patronage of his many, many friends and loyal customers. Thank You, **GEORGE VAUGHT.**

PROTECTION for Your Family!

BILLY SAYS: "I want to grow up to be strong like Uncle Jim. He says milk's the best thing for every fella' that likes to play baseball and football the way I do! Mr. Smith — that's my gym teacher — tells all us kids to drink a quart a day."

DAD SAYS: "I wasn't much of a milk fan until I tasted Vaught's Milk. After that, I drank it regularly. Seems like I feel better, too. Folks say - I look better!"

MOM SAYS: "I always manage to find time for several glasses of Vaught's Milk during the day. Surprising how it makes me feel better and gives me energy for my housework tasks."

SIS SAYS: "Nothin' like a glass of Vaught's Milk with some of Mom's cake! It seems like all the kids at school drink it. Miss Brown, our teacher, says milk gives us good teeth and solid bones and is just about the best all 'round food there is."
