Fire Record Credit Of 15 Per Cent To Apply On Fire Insurance

A good fire record credit of 15 per cent will apply to fire insurance premiums on policies written in Littlefield for 12 months beginning March 1, it was announced today by Marvin Hall, State Fire Insurance Commissioner. This will result in a direct saving on fire insurance as 15 per cent of the normal premium will be deducted on policies written after the effective date.

The 15 per cent credit will result in an estimated saving of \$6,907 on fire insurance costs for Littlefield policyholders during the next year. The estimate is based on fire insurance premium payments in 1942. A 10 per cent credit has been in effect for the past year.

The fire record for a city or town is determined by a fixed ratio between losses and premiums figured on a five-year average. The maximum good fire record credit is 25 per cent. The maximum charge (or penalty) for heavy losses is 15 per cent.

U.S. Army In Urgent Need of Good 12 Gauge Shotguns

The United States Army are sending out an urgent request for good 12-gauge shotguns. The types required are hammerless double barrel, hammerless pumps and automatics.

The St. Louis Ordnance District is arranged with Browning Army Ordnance, St. Louis, Mo., on a non-profit basis, to gather in, grade and appraise all such guns available through its authorized dealers. The guns will be paid for at prices of \$250 to \$300 for the double barrels and \$42.50 for the pumps and automatics.

Otto Jones will act as receiver of these guns. Owners willing to contribute their guns are asked to attach a tag with name of owner and price wanted for the gun, and

bring it to the Jones Hardware, Littlefield, and if the gun grades up to such price, a check will be forwarded immediately. If that price cannot be paid a card will be mailed owner giving the Government's appraisal, and then the owner will have the option of either accepting such price, or requesting the return of his gun. If the owner wishes to submit his gun without price attached, it will be carefully appraised and he will be advised as above.

No broken guns, double barrel hammer types, damascus or twist steel guns, obsolete guns, attachments or accessories should be sent.

This procurement is being handled by the Army Ordnance Department, and fair prices will be paid for used shotguns; the average price paid to date has been \$35.

War Crop Goals And Incentive Payments Are Now Announced

Grain Sorghum Acreage To Represent About 46 Per Cent of Co. Cropland

A complete list of all war crop goals with incentive payments to encourage production was received Monday in the Triple-A office according to Leston F. Bain, Administrative Officer.

War crops have been announced by the Department of Agriculture as follows: Grain Sorghum, peanuts, soybeans for beans, Irish potatoes, castor beans, dried edible pinto and great northern beans, dried English peas, sweet potatoes, lima beans for processing, cabbage for processing, beets for processing, carrots for processing, sweet corn for processing, snap beans for processing, peas for processing, tomatoes for processing, American-Egyptian Cotton, flax for seed or fibre, and hemp for seed or fibre.

Where goals are established on farms for Irish potatoes, three acres or more must be planted.

Lamb County goals include:

- 212,661 acres of grain sorghum.
- 2,200 acres of peanuts.
- 7,059 acres of soybeans for beans.
- 1,000 acres of dried edible beans.
- 50 acres of castor beans.
- 450 acres of Irish potatoes.

Goals are not being set up for other crops. Bain said the grain sorghum acreage would represent about 46 per cent of the entire county cropland.

Farmers will be assessed a penalty of \$15 per acre for each acre below 90 per cent of the goals of all war crops planted which means that he may plant his full farm goal to any one crop up to 90 per cent of the total for all and leave off the others. He may also leave off cotton and still earn his payments on all war crops.

The rate of payment as an incentive for planting war crops, if incentive payments are approved, is as follows:

- Soybeans—\$15.00 per acre.
- Peanuts—\$30.00 per acre.
- Grain Sorghum—\$8.00 per acre.
- Dried Edible Beans—\$20.00 per acre.

Irish Potatoes—50 cents per bushel on the normal yield.

Whatever a farmer's goal may be or any one war crop, he will be paid incentive payments at the above rates only for the number of acres he plants between 90 per cent and 110 per cent of his total goal. He must plant 90 per cent but can plant all he would like to plant but will not be paid on any acres above the 110 per cent of his goal, and then only for the acres between 90 per cent and 110 per cent.

Incentive payments have been announced by the Department of Agriculture, however, appropriations for the money have not been made.

Incentive payments will not interfere with the regular cotton payment of 1.1 per pound on the normal yield, and the soil-building practice payment may be earned by producers on their farm.

Victim Of Plane Crash Sunday

Flight Officer Charles P. Anderson, Jr., was one of three fliers killed in a plane crash near Eldorado, Okla., Sunday afternoon. The plane was on a routine flight when the accident happened.

Buried With Full Military Honors

Funeral services with all Military honors were conducted Thursday afternoon at 3 o'clock for Lieut. Curtis D. (Buddy) Landrum, at the First Methodist Church, Littlefield, with Rev. R. S. Watkins, Methodist pastor of McLean, Texas, officiating, assisted by Rev. C. Frank York, local Methodist pastor.

Lieut. Landrum was killed in a plane crash over the bay about 10 miles from the Oakland, Calif., Municipal Airport, Wednesday, December 30, during maneuvers. He had been on coast patrol at Oakland, Calif., since receiving his wings in November last.

The plane, a single seat fighter plane, falling into shallow water, became so buried in the earth that it necessitated the work of 75 Army men night and day until Friday last to lift the plane from the bay, and recover the body.

The remains were accompanied to Littlefield by Ray Landrum, brother of Lieut. Landrum, and Lieut. Charles T. O'Connor of Oakland, arriving here February 10.

Members of the local unit of the American Legion met in a body at the Hammons Funeral Home, accompanying the remains to the church.

Following the church service a Military ceremony took place at the grave in the Littlefield Cemetery, with Chaplain J. D. Ewins presiding, who presented the flag, which had draped the coffin, to Mrs. S. A. Landrum, mother of the deceased flyer.

The firing squad, with Sheriff Sam Hutson commanding, fired three shots, and taps were sounded by Jodye Jones, and echoed by Charles Paul Pharris as the remains were being lowered into the grave.

Also serving in the firing squad besides Sheriff Hutson were: Fred Wright, commander of the local

Declaration Is Necessary For War Ration Book 2

Cans Of Certain Products Must Be Declared Thursday Next

Registration for point rationing processed foods, canned, bottled and in jars, which will open in Lamb County, February 25, 26 and 27, will be simple and quickly accomplished if the householders and individuals who must file Consumer Declarations in order to obtain War Ration Book 2 will prepare their declaration before they go to the registration site which will be all school houses in Lamb County.

Littlefield schools will be closed Thursday and Friday of next week to permit the members of the school faculty to register applicants for the ration books. Registration will take place Thursday, Friday and Saturday.

Here are the things to do to be ready to get the new books: In every household, someone must count the cans, bottles and jars 8-ounce size or larger of fruits and vegetables, on hand at midnight, Saturday, February 20. That will be a Sunday morning task in some homes. The count must include canned fruits, canned vegetables (including spiced), fruit and vegetable juices, soups, chili sauce, and catsup. Take from the total five cans for each member of the family. The new total must be reported on the declaration form, or if there are no more than five cans each, the report will be "none."

These are not to be counted: canned olives, canned meat and fish, pickles, relish and jams, jellies and preserves, spaghetti, macaroni and noodles, home-canned food, if not canned for sale.

Persons who are not living as members of their family group must make their own Declarations and get their own ration books. Domestic help is not a part of a family.

Official Declaration forms will be printed in nearly all newspapers and should be clipped and used for making formal declaration. Be sure to write in all the information asked for on the Declaration.

CRISIS IS DEVELOPING IN SCHOOLS OF STATE

Teachers' salaries, and the general maintenance of the schools of the state in this time of war, are discussed by J. Ernest Jones, county superintendent of schools for Lamb county. Because of the importance of the subjects discussed the Lamb County Leader is this week devoting its editorial page to Mr. Jones' article.—Editor's Note.

Solutions Are Offered

By J. ERNEST JONES

Lamb County Superintendent of Schools

The leaders of our nation are aware of the necessity for education for the masses of our nation to promote and promulgate the democratic way of life for the present crisis and for the future of this nation. They are urging a more complete training and preparation for the men in our armed forces in order to carry on effectively this mechanized form of warfare. They are also needing specialists and adequately trained men and women in all phases of war production work and civilian life.

Lieutenant General Brahon B. Somerville said:

"The job of the schools in this total war, is to educate the nation's manpower for the war and for the peace that follows. We can lose this total war on the battlefield as a direct result of losing it on the educational front. Education is the backbone of an army. This was never more true than it is today—now."

They all agree that the basic part of this training is and should be carried on in the public schools of our nation. They are needing and expecting more of the public schools of our nation than ever before, yet our schools are facing a tragic crisis that will make them unable to uphold even the standards of normal times if drastic action is not taken immediately.

The schools of Texas are among the ones facing the greatest crisis in our nation at the present. With the curtailment of and rationing of gasoline and other products that carry a tax from which a large part of the revenue for the maintenance of our schools is derived, the schools of our state are receiving and will receive much less money to operate on than in normal pre-war times.

The greatest crisis staring us in the face at the present is the great shortage of teachers. Most all of the reserve of ex-teachers available is exhausted, and there is an estimated shortage of 5,000 teachers in Texas at the present time, and the situation is growing worse daily.

In a survey of Texas teacher conditions made during this fiscal school year, it was found that a large majority of the shortage of teachers is due to poor salaries. The teachers of Texas are receiving today identically the same salaries that they received back in the middle of the depression in 1935. The maximum salary any common classroom teacher with a Bachelors Degree and ten years of teaching experience teaching in an accredited rural-aid school is \$967.50 per year. With this divided into twelve monthly payments, and with the teacher retirement dues and Victory Tax removed, many of the teachers receive less than \$70 per month. Now this is the maximum that any local school board can pay without disobeying the state law and being penalized on their state aid which is so essential to our schools.

We all agree that this is a pitiful situation that should not be allowed to exist. Can we blame the poor teachers for quitting and getting into

other work that they are well qualified to do that will pay from \$2,000 per year up? "Emphatically No" is our immediate response.

The teachers of Texas are not wanting to quit their profession for which they have been trained and have experience in, but due to financial conditions it is being forced on them daily because they are unable to pay their bills and exist on the present salary schedule. The teachers as a whole realize the great service they can render to their nation, and would like to do their part to help win this war and the peace after the war by answering the challenge, and train the future members of the armed forces and the workers on the home front better. But they can not, AND WILL NOT, live on loyalty and service alone.

We, as loyal red-blooded citizens, and as patrons of our schools, should not allow this condition to exist, and must do our part to head off this great crisis approaching in our schools.

The most of us upon learning of these deplorable conditions ask ourselves "What Can I Do About It?" The first thing we can and must do is get the law changed so we CAN pay the teachers more if we want to. Then urge that more appropriations be allotted to the schools and especially for teachers salaries. The thing that will help the rural sections of the state, who are suffering the most at present, is greater appropriations to the Equalization Fund which all rural-aid comes. The State legislature now in session in Austin is trying to cut down on all expenses possible, and will not consider any appropriations and revenue bills that are not of vast importance and wanted by the people. So the one thing that you and I and the other common citizens of the state can, and must do at the present, is to talk it up and communicate our needs and desires to others and especially to our Senators and Representatives now in session considering such problems. This is the only way that this great crisis and perhaps disaster facing our schools at the present can be headed off. It is your urgent duty to your schools and to your children to act at once on this grave problem.

As I personally see the situation, we have two possible sources of revenue that would give us all we need to run the schools on satisfactorily and hold an adequate supply of competent teachers in Texas. One is Federal Aid great enough to help our state over during this crisis. The other is a State School Sales Tax of 2 per cent, similar to the ones now in operation in New Mexico and other smaller states that have never had adequate ad valorem taxes to run their schools. By enacting this tax we could lower the local ad valorem school taxes, help our state eleemosynary institutions, help the old age pension fund, and still have enough to pay the teachers good salaries and keep the schools on a good sound basis. This would make all of us pay a little along and would not be such a burden on the few taxpayers as it is today. However I repeat that the first step is to get the law changed so we can pay the teachers more if we get it to pay with, then fight for more school appropriations both from the state and the Federal Government during this crisis. Then our school sales tax could come later as a permanent support.

The County Superintendents of most of these eighteen western counties met Tuesday night, February 9, 1943, at Lubbock with the local Superintendents and some board members of their guests. The main topic of discussion was the problem of "The Shortage of Teachers and Teachers Salaries." In connection with this we discussed the bills presented to the legislature concerning the schools so far, we realize that no one of these will solve our situation entirely, but they would help much toward giving our teachers a living wage, and as it is probably too late to get better bills introduced during this session of the legislature, we have agreed to put forth a concerted effort to support these bills to get them passed.

Contact your Senators and Representatives at once telling them our needs. Our needs include:

1. The \$22.50 per capita apportionment ceiling removed.
2. An adequate teacher salary schedule that will keep more of them in the profession.
3. Greater state apportionments to the Equalization Fund, that would take care of the rural-aid schools.
4. Enough Federal aid for schools to help the state over in this crisis.

It is the duty of all citizens and board members interested in the public schools to do something about this teacher shortage. If you want a good school for next year, with teachers to teach it, Act Now, write your Senators and Representatives.

Pvt. David O. McLarty, formerly of Vernon, brother of Mrs. Hubert Colbert of this city, mechanic in the Air Corps, stationed at Lubbock for the past three months, has been transferred to the Blackland Army Flying School at Waco.

Clifton F. Mayo, Sudan, who is now located at Camp Maxey, Texas, has been promoted from Technician grade 4 to Technician grade 3. Clifton is the son of Mr. and Mrs. J. T. Mayo of Clarendon, and was employed at the Johnson Grocery and Market in Sudan before entering the Army.

Mr. and Mrs. Otto Treider of the Lazbuddy community, have been advised by the War Department that their son, Melvin, is a prisoner of Japan, and is being held somewhere on the Philippine Islands.

Mr. and Mrs. Treider had not heard from their son for more than a year. Mr. Treider expressed the belief that his son was taken captive with the fall of Bataan.

Melvin was among the first Pomeroy county boys to be sent to foreign service after entering the Army. He is well known by many in Muleshoe, having been a regular visitor there before going to the Army. He had a sister who resided in Muleshoe a few years ago.

Harold Bostick, 20, former Littlefield resident, in the service for three years, with the Field Artillery, was in Hawaii when the Japs attacked Pearl Harbor.

He enlisted at Lubbock; is now a Sergeant, and has not been home in three years.

Tommy Bostick, 20, brother of Harold, who is in the Marines, having enlisted over a year ago, is believed to be on Guadalcanal.

Walter Lee Dyer, 23, son of Mr. and Mrs. Floyd Dyer, of near Yellow House Switch, who has been in the Armed Forces over a year, and is stationed at Kelly Field, training

for an Aviation Cadet, has recently been promoted to the rank of Sergeant.

Graham Bostick, older brother of Harold and Tommy, is employed at Sheppard Field as a civil employee. He has been rejected by the Army due to his eyes not being up to par.

Floyd T. Dyer, 19, another son of Mr. and Mrs. Floyd Dyer, who was inducted into the service in October, and has been stationed at Lubbock in the Guard Squadron, has been transferred to Waco, according to his mother.

Marshall Allred, who enlisted in the Armed Forces at Long Beach November 5 last, is stationed at Deming Field, Deming, N. M., as a bomb spotter, who takes photographs for the bombardiers when in training to see if they hit their targets.

Mrs. Allred, formerly Miss Gladys Fowler, is visiting her parents, Mr. and Mrs. Jack Fowler.

Graduating recently from the Technical Training School of the Air Force Advanced Flying School located at Luke Field, Arizona, is Pvt. E. L. Richardson of Littlefield.

According to Lieut. W. A. Peyton, Technical Training School Officer, the Luke Field School is one of the largest of its kind in the West Coast Training Area. The course is a stiff work-out of instruction on all technical phases of aviation.

Lubbock, Texas, Army Flying School, Feb. 15.—Billy W. Armistead of Littlefield has been made a Warrant Officer at this twin-engine flying school. Warrant Officer Armistead is an optometrist at the station hospital and has been here since June 22, 1942.

The son of Dave W. Armistead of Littlefield, he is a graduate of the Northern Illinois College of Optometry. He and his wife reside in Lubbock. Prior to coming here he was stationed at Fort Bliss, had the same duties there.

Second Lieutenant Walter Dennis Houpt, Jr., of Abernathy has been assigned to active duty with the leathernecks, it has been announced. Lieut. Houpt, who recently completed training at Quantico, Va., attended the University of Texas, where he played both baseball and basketball. He enlisted in the Marine Corps last March.

PANAMA CITY, Fla.—Earl F. Phipps, son of Mrs. Jamie Phipps of 2402 Seventh Street, Lubbock, formerly of Littlefield, has been presented the silver wings of an aerial gunner in the U. S. Army Air Forces and has been promoted to sergeant after completing training at the Army Air Forces Flexible Gunnery school at Tyndall field near here.

bombardier. He received his commission recently at Victorville Army Flying school, California. Lieut. Tolbert has two brothers in the armed forces, Frank Tolbert, a sergeant in the Marine Corps, stationed at Washington, D. C., and Hunter Tolbert, a member of the Army Air Corps. Mrs. Tolbert now resides in San Bernardino, Calif.

Meat Rationing May Start March 28

Babies, children, and adults all will get the same meat allowance when the rationing plan goes into operation, now expected about

March 28.

Officials of the Office of Price administration said today that they had failed to find any sensible or workable plan of graduating meat rations according to age, and are making final plans on the basis of everyone getting the same amount.

This will, in effect, give an extra allotment of meat to parents of babies. OPA wanted to avoid that, but the only alternative was not to allow any meat at all for very small children. Since teething babies consume at least a small amount of meat, especially bacon, the rejected plan would have forced parents to divide their meager rations with the small children. The mechanics of coupon rationing did not seem to

permit any sliding scale.

March 28 is the date that OPA is shooting at in its planning on meat. It would prefer an earlier date in the hope that rationing will equalize the current supply, which is only fair in some communities and almost non-existent in others.

Delaying the program, possibly beyond March 28, are a thousand details, especially evaluation of meats in terms of points.

Uncle Sam Issues A New Order Governing the Retail --SALE of-- Petroleum Products

Littlefield Service Stations --Will Appreciate-- Your Friendly Co-operation

Petroleum Directive No. 62, issued by the Petroleum Administrator for War, prohibits the retail sale of gasoline and other petroleum products on credit.

The order, which is now in effect, forbids retail marketers to "grant or accept or participate in the granting or accepting, directly or indirectly, of credit in connection with the sale of any petroleum product."

This means that your service stations cannot sell unless payment is made at the time of the sale by cash, check, or by coupons taken from coupon books which are issued by some companies. Coupon books cannot be sold on credit.

Exceptions to the no-credit rule include commercial vehicles displaying "T" ration stickers, and federal, state, and local governmental operations.

WHOLESALE SALE OF PETROLEUM PRODUCTS IS NOT AFFECTED BY THE NEW ORDER. For example, farmers can continue to purchase at wholesale on a credit basis, under the same plans which have been in effect.

Under another government order, which became effective recently, Littlefield service stations are open only 72 hours weekly. They are being operated 12 hours daily . . . 8 a. m. to 8 p. m. . . and are closed on Sunday.

In announcing the new government regulations, your Littlefield service stations ask and will deeply appreciate your friendly co-operation. We would have been glad to continue credit courtesies and remain open longer hours for your convenience, but our Uncle Sam has decreed otherwise at this time . . . and we all feel that he is acting in the best interests of us all . . . our entire nation.

Open Letter From Surgical Dressing Red Cross Room

The local surgical dressing room received a new shipment of materials this past week. This shipment included: material for 27,000 four-by-four sponges, 7,200 four-by-eight sponges. You can see by this that we have plenty to do in the near future.

We have been having wonderful cooperation from the women of the county lately, but still need more helpers at times. Amherst is to be especially commended for the progress they are making in their small but busy room they opened in the Amherst Hotel last Monday, February 8. By Thursday, February 11, they had brought 1,700 of the eight-by-ten combination pads.

We still have many of the old stand-bys attending regularly that can always be depended on. Mrs. William C. Jenkins (the former Miss Margaret Coffman) has been doing outstanding work since her return to Littlefield last week. We want to urge more of the young married women and sweethearts to come and work whenever possible.

We are having the surgical dressing room open every day except Sundays from 9 a. m. to 7 p. m. It is also open two nights each week, on Tuesdays and Thursdays from 7 p. m. until 10 p. m.

We are especially grateful to Mrs. R. M. (Bob) Smith for lending us her typewriter to use in the surgical dressing room.

Educational Service At Foursquare Church

Viewing education as one of the greatest forces at work among a free and independent people and appreciating its dual nature in both church and state—the Church of the Foursquare Gospel encourages a better understanding, a closer relationship, and a more friendly attitude, than ordinarily exists between the educators and the churchmen, and, also, among the various peoples with whom both the preacher and the school teacher have to deal—therefore a special Educational Service is being held at the branch of the Foursquare Gospel Church in Littlefield Friday night at 8 o'clock.

The Littlefield schools have been invited as guests of honor, with the teachers and officials on the platform and the various student units seated in group. Due to the possibility of Supt. F. A. Hemphill not being able to arrive on time from a Red Cross meeting out of town, Hon. J. Ernest Jones, County School Superintendent, has kindly consented to make the response to the address of welcome.

The message will be brought by Rev. Joseph J. Good, evangelist in charge.

SAD MESSAGE SENT TO SUDAN SOLDIER

The Home Service office of Red Cross here received a message Monday from Washington for a report on Mrs. Adline Miller, general delivery, Sudan, mother of Pvt. Louis Miller, apparently in foreign service, stating that this soldier had no news from his mother in several months, and was very anxious for her welfare.

On investigation the Home Service Chairman here was notified that Mrs. Miller had passed away, and funeral services were held Monday, February 8. This message was sent to National Red Cross Headquarters at Washington to be sent to Pvt. Louis Miller.

Johnny McCormick Earns High Praise For Ability as Flyer; He's Only 17

By MORLEY B. DRAKE

watched Johnny McCormick, practicing landings at Duggan

field, son of Mr. and Mrs. McCormick, manipulates his ship with the grace of a bird. He gets his ship just in the right spot; in other words, his flying indicates that he has complete control over the situation.

Johnny, a young man, believed to be more hours in the air than other Lamb county youth of his age, commenced learning to fly in October. He has sufficient experience in the air for his private license, and expects to have the required number of hours for his commercial license by the time he reaches his 18th birthday . . .

Under aeronautical regulations, a young man cannot receive his private or his commercial license until he has reached his 18th birthday. That's less than one month for Johnny. And, until then, he will be soaring over Littlefield getting in those 35 hours, hereabouts, that he needs to qualify for his commercial license.

Studying at Ground School
The Littlefield youth, together with several local men, is attending an aeronautical ground school at Lubbock, to obtain the "book work" necessary to obtain a private or commercial license. This

group includes his uncles, Paul and Leonard McCormick, Paul Pharris, John D. Smith, E. L. Winston and E. G. Alexander.

A number of other Littlefield men have completed special aeronautical studies at Lubbock.

We have known Johnny McCormick since he was just a little fellow, and we have watched him grow to young manhood. Good luck, Johnny; we envy you and your youth and your ability to fly a ship!

Other Youths Learning To Fly

Johnny took his first instruction in Lubbock, but Duggan Field has furnished him his real opportunity in the science of manipulating an airplane. Several other youths also have taken some instruction. But the educational work at the field has been hampered by the fact that the instructor, Dick Sturdivant, a member of the Air Corps Reserve, was called into active duty. He reported recently to the 15th Ferrying Group, Ferry Transport Command, Dallas. But Duggan Field officials expect to make arrangements at an early date for another instructor.

Duggan Field is an important achievement for aviation in this section. Whenever the opportunity is presented speak a good word for Duggan Field. Airports grow through friendship.

Though painful, his burns are not considered serious. He will, however, be confined several days in the Payne-Shotwell Hospital, where he was taken for treatment.

BOY SCOUTS RECEIVE AWARDS IN IMPRESSIVE COURT OF HONOR

In one of the most impressive ceremonies ever staged in Littlefield, approximately 35 Boy Scouts received awards at the Court of Honor Thursday night at the American Legion Hut, after a Pot Luck supper was enjoyed.

Dr. Wm. N. Orr, district chairman of the Scout Executive committee, told the group that the most advancement for scouts was received through the Court of Honor. "Boy Scouts of today will be the Balance Wheels of the United States—they will carry on in the land we love. Therefore, it is very important to keep the Scouting program progressing," he said.

A beautiful flag ceremony was presented at the beginning of the program by Malcolm Stokes, who led the Scout oath, Clyde Edmonds, flag bearer, and Landrum Grissom, who led the pledge of allegiance.

Invocation was offered by Rev. C. Frank York, Methodist minister.

The Pot Luck Supper was served by mothers of the scouts from a table decorated in the patriotic motif.

After the supper a sing-song was led by Jimmie Brittain, and those present sang "The Eyes of Texas" and "Home on the Range."

Tenderfoot scouts took the oath and laws during the investiture ceremony. Merle Edwards of Lubbock, Field Scout executive, presided, assisted by Houston Hoover, scoutmaster of Troop 25, and Olen Walker, leader of Troop 41. Twelve candles representing the 12 scout laws, were lighted by Kenneth Ware, Melvin Coley, Billy Lyman, James Griffin, Buster Owens, Jr., Ernest Repass and Jimmie Cockerham.

Tenderfoot awards were made to J. L. Dalton and John D. Webb of Troop 25; and Billy Sisson, Charles Smith, John Harold Blessingame, Douglas Gibbs, J. L. Dalton, Harold

Hammons Funeral Home, will take place in the Whitharral Cemetery. The remains will be laid to rest beside the grave of his mother, who passed away December 13, 1931.

Survivors, in addition to his father, are the step-mother; three brothers, Pvt. Boice M. Anderson of the U. S. Army, who is stationed at Ft. Frances E. Warren, near Cheyenne, Wyo.; J. B. Anderson, who resides west of Lum's Chapel, and Billy, at home; and two sisters, Mrs. D. J. Walker of Littlefield, and Mrs. George E. Harrell of Fort Stockton.

He also is survived by several nieces and nephews; his grandmother, Mrs. M. Jarvis of Eldorado, Oklahoma; an aunt, Mrs. Elsie Johnson, and two uncles, all of Eldorado; and several other uncles and aunts.

Attended Littlefield Schools

Anderson moved with his parents to the Lum's Chapel community in 1928, and received his entire education in the Littlefield schools, with the exception of a half term in the first grade. He was graduated from the local high school in 1939 with honors, and was a star player on the high school football team.

Enlisting in the Army Air Force at Lubbock June 25, 1941, he received training at Ellington Field, Houston; Sloan Army Flying School, Midland; at a school at Lamoore, Calif.; and Santa Marie, Calif., before going to Stockton Field, Calif. He received his wings at Stockton Field and was ranked as a Sergeant Pilot, on September 29, 1942. He had been at Will Rogers Field since December 1, and received his commission as Flight Officer on January 16, 1943.

He visited his father and step-mother and other relatives here on Thanksgiving Day, 1941.

Cowan, Wayne Barnett, J. L. Webb, Morris Ray Marchbanks, Jack Shelby, Jimmie Moreland, Donald Joe Cox, Kenneth Kinkler, Charles Green, Bobby Stegall, Andre Ondres, Charles Franz, Jack Bates, Travis Price, Kenneth Pharris, Junior Bull, Billy Clark, Martin Drager, and Richard Salmon.

Harold Lee Walker received a second class award, presented by Olen Walker.

First class awards were presented to Melvin Coley, Clyde Edmonds, Blair Goodwin, and James Griffin.

Norris Onstead received the Star award, and his badge was pinned on him by his mother, Mrs. I. D. Onstead.

James Womack was presented the Life Scout Award, which is the highest award made to any scout in Littlefield. His mother, Mrs. Ed Womack, pinned the badge on her son.

Both James and Norris received merit badges for outstanding scout activities.

Cub Scouts were recognized by Mr. Edwards, who praised the work of Mrs. Ed Pilley for her work with the Cubs. Edward Pilley received the Wolf award, which is the second rank in cubbing. Billy Orr and John Cook Banks were presented with Bobcat awards, which is the first rank in Cubbing.

Supt. F. A. Hemphill made an inspirational address to scouts, scouters, parents and friends. "Scouting affects us deeply, because of the ideals of a scout," he said. "For the past 15 years people in this world have traveled at such terrific speed that we have put many things before the ideals we cherish. . . . Scouting, in these days when the world is in such terrific turmoil, can become a stabilizing influence," he continued.

Dr. Orr presented the charter to the troop committee of Troop 41, of which Olen Walker is scoutmaster. Members of the committee are Duane Bull, chairman, Dodd Weatherly, Dennis Jones, H. R. Shelby, and Lowell Short, recently appointed. Troop 41 is sponsored by the Lions Club, and Dr. Orr explained that most of the local members of the club are now serving in the armed forces, but have expressed their keen desires to keep a progressive scouting program in Littlefield.

As a climax to the program, Mr. Edwards read a message from President Roosevelt to Boy Scouts of America on its 33rd anniversary. Mr. Roosevelt paid high tribute to the training it provides to the youth of America. He is Honorary President of the Boy Scouts and has been active in the movement for more than 20 years.

In his message addressed to his 1,589,281 "fellow Scouts and Scouters," the President said, "The leaders of our Armed Forces in Training Camps and on the battlefronts have emphasized the value of Scout training in developing knowledge and skill, as well as courage, self-reliance, resourcefulness and initiative which are proving to be so essential in our determination to win the war."

The program ended with the sounding of Taps by Charles Paul Pharris, and the Scouts repeating the Scout Benediction.

Our fighting men are doing their share. Here at home the least we can do is put 10% of our income in War Bonds for our share in America.

Lieut. Landrum was honored in death by the airforce. A formation of eight planes from the Lubbock Air Base flew over the cemetery as the body of the young Lamb County flyer was being laid to rest. They formed a V above the grave, with one plane missing at the end of the formation, indicating that one of their comrades had died in Service.

Lieut. Landrum was born at Mobeetie, Texas, April 24, 1921. He was graduated from Littlefield High School with the class of 1940.

He volunteered in April last as an aviation cadet at Lubbock, and was sent to Kelly Field for pre-flight. At the end of six weeks he was transferred to Victory Field at Vernon for primary training, where he spent about eight weeks, following which he was sent to Goodfellow Field, San Angelo, for eight weeks basic training. He was then transferred to Moore Field, Mission, for advanced training, where he graduated November 10, going directly to Oakland, Calif.

The Landrum family have been residents of Beck Community since 1930.

Surviving Lieut. Landrum are his mother, Mrs. S. A. Landrum; nine brothers, Cadet James Landrum, in training at Santa Anna, Calif.; Cecil and Roy of McCallister, Okla.; Kenneth of Kingman, Ariz.; Howard of Amarillo; and Ray, Aubrey, Neil

"Commandos Strike At Dawn" To Be Shown At Palace This Week End, Starting Sat. Midnight

Columbia's "Commandos Strike at Dawn," which opens at the Palace Theatre Saturday midnight, continuing through Sunday and Monday, is known to Hollywood as the motion picture more eagerly awaited than any in recent years. And Hollywood knows the film, too, as the motion picture which exceeded even the fondest anticipations.

The forthcoming film is remarkable in that, during production:

It enlisted the enthusiastic support and co-operation of three great governments — the United States, Great Britain and Canada.

It was considered so important by Paul Muni that he insisted upon playing the starring role—his first screen venture in more than two years.

It marks the screen return of Lillian Gish, world-famous stage and silent screen star, after a nine year absence from Hollywood.

Its cast includes several hundred Canadian-trained Commandos, who appear as themselves and who present a grimly realistic picture of warfare, as they know it!

There are other reasons for Hollywood's interest in the new production. Irwin Shaw wrote the screen play from C. S. Forester's Cosmopolitan magazine story of a Norwegian patriot who leads a Commando raid upon a secret Nazi airfield in his beloved homeland. John Farrow, the man who made "Wake Island" and whose understanding of the war and the manner of its fighting is attested to by his two-year service as Lieutenant Commander; in the British Navy, directed "Commandos Strike at Dawn," with the technical assistance of Royal Canadian officers in the Navy, Army and Air Force. Lester Cowan, who made last season's redoubtable "Ladies in Retirement," directed the new film. And, finally, the supporting cast includes, in addition to Miss Gish, such players as Anna Lee, who was Bronwen in "How Green Was My Valley," Sir Cedric Hardwicke and Robert Coote, English-born actor who quit his newly-won film stardom to join the Canadian air force at the outbreak of hostilities.

"Commandos Strike at Dawn" was filmed, almost in its entirety, in British Columbia.

Urge Protection Of Highway Paving

"During the past three months there has been a noticeable increase in the damage to asphalt pavements due to cuts made in the surface by truck and trailer rims and by lugs on farm machinery," says a bulletin issued by the Texas Highway department. "Such cuts made in the surface allow water to soak through into the base and then freezing and thawing action cause failure of the surface and holes in the base."

"Recently a number of trucks have been stopped and the owners asked why they were operating their vehicles without tires and whether they realized the damage they were causing. In most cases, they said they had no idea they were damaging the road and immediately arranged to drive so that their rims or lugs would not be on the asphalt surface."

It is with the belief that most operators fail to realize the damage they are doing, that this information is given by the Highway department, and it is hoped that a greater effort will be made by all vehicle operators to keep their unprotected rims and lugs off the asphalt surfaces.

Asphalt for patching is hard to get because of the shortage of tank cars, and chug holes in roads cause undue wear on tires and vehicles.

Want To Help Uncle Sam?

... Then Do These Things
Before Calling the Serviceman
He's mighty busy doing war-vital work!

First, if an appliance fails to work... see if it's connected. You'll be amazed how often a disconnected extension cord is the only trouble.

If only one light is out, replace the bulb. If several lights go out, check the fuses. Replacing a burned out fuse may be all that's necessary... and you can change a fuse as well as the serviceman. You'll save yourself inconvenience and delay, too!

If ALL your lights are out... all your fuses are okay... and your neighbors' lights are out, too... then call the serviceman.

... and for more light with no more electricity here's another tip... clean light fixtures increase light 20 to 40 percent!
