Don't Tell Anyone, But

BY MAXINE CLARIDA

We can't remember when we enjoyed anything so much as the Pioneer got-together Tuesday. Those people were having the best time and visiting isn't the word.

The highlight was when J. Frank Norfleet arrived. He is one of the best loved characters we have ever known. His ninety-seven years haven't dulled his wit or made one bit. His memory is unbelievable. We pray that we might see that boy and have that kind of a memory.

Mrs. Bonnie Haberer was handsome in her dark dress and purple hat. We enjoyed visit with

... and Mrs. Courtney of Dallas, for we have loved Ruth Wade, who is their daughter.

Let's start a Visit or Send a Card Week. There are any number of sick people and shut-ins who would love a visit and certainly their families appreciate a card. If you would like to visit call their home and see if and when it would be convenient.

Here are some of the people we can call to mind who have been ill or shut-in a long time, Mrs. Y. L. Blawett, Roy Gattis, Mrs. Fred Wright, Mr. and Mrs. Bill Roberts, W. G. Street, Mrs. Bill Seay, Lester Massengill, J. H. Lee, Mrs. J. Nichols (Mrs. Jack Hardin's mother), Clyde Dodson, and dozens of others.

So get up right now and write someone a note.

We face another school year. It has been only nine short years ago since that fateful day that we took our Hal to school and left him. Louis and I cried all of the way home, and we accomplished very little that day.

We think that maybe the sadness comes with the knowledge that we aren't needed to go along any more and we shudder to think of the short time when they won't be in high school any longer, but gone.

Fanny Jones and Lois Pharris who head the SOI (Silly Old Mom) club assure us that we can't know just how awful it really will be. And Gladys Joplin, Ann Rutledge and Betty Hodges don't add any sunshine to the subject.

But if our boys can turn out as well as theirs, we will be very happy, and we know that that must be the reward.

Mr. and Mrs. Bruce Taylor, who were married Tuesday evening in the First Baptist Church in Anton, will make their home in Anton. Parents of the couple are Mr. and Mrs. O. D. Oakley and Mr. and Mrs. W. M. Taylor. Mrs. Taylor is the former Miss Phyllis Oakley. The couple were both graduated from Anton High School in May. —Photo by Taylor

(Continued from Page 1) wagons. One pioneer said it took her family seven days and nights to come out here from Memphis, Texas.

It reminded me of the story Sam's mother tells about the trip he and Dad made from East Texas to Oklahoma in a covered wagon over 60 years ago.

Although they had two babies, Mom was still in her late teens. . . and was apparently a mighty scared little teenager.

She had heard a lot of stories about the Indians scalping the whites in the Indian territory. . . and believed every word of it.

One night the family was asleep under the wagon when a herd of wild hogs came stampeding toward them.

Mom raised up so suddenly that she hit her head on the bottom of the wagon with quite a blow.

"I never was so frightened," Mom recalls. "I just knew those hogs were wild Indians and that they had already scalped me for sure."

Sam found his mother in good shape last weekend. He came home laughing about one of her classic remarks.

"Son, you know, a broken leg just isn't what it's cracked up to be."

She says at this point she has to laugh or cry about her situation. . . and it's just more fun to laugh.

Besides. . . now she has nothing better to do than lie around and think of ways to entertain the nurses and her friends.

Sudan's First Public School Sudan's first public school was founded in 1918 and the first school house was a fourteen by twenty eight structure. The school was voted an independent school district in the early 30's and the old elementary school building, now in the final stages of being torn down, was built in 1923. According to the records of L. E. Slat, Sudan pioneer, the land where the building was erected, some 8.6 acres, was given to the school by Loyd D. Wilson, S. A. Temple, and W. H. Furneaux. The building was partially burned in 1924 and was restored and rebuilt.

Trustees serving at the time of the building of the first grade school were W. W. Carpenter, S. A. Lucky, C. C. Preston, W. H. Furneaux, J. W. Yeaman, H. J. McCarty, and P. E. Boone.

The first high school was built in the mid-twenties and burned in 1930. It was rebuilt in time for the estimated 400 of them will attend classes in the new grade school the graduating class of 1951, and vocational agriculture building-cording to printed data.

Final adjustments are being made on the lights at the Wildcat Football field. W. & W. electric are making the necessary adjustments. Weldon Gilley is climbing the pole and Don Roberts is on top of the pole. The field and stadium is ready for the first game with Plainview on September 13.

Milton Vaughn To Report For Raider Practice

LUBBOCK, Aug. 26—Texas Tech experienced football squad reports to Coach DeWitt Weaver Sunday, just three weeks before the Red Raiders' opening game.

Tech launches a rugged schedule by playing West Texas State here at night, Sept. 21. Other games will be with Texas A&M, Louisiana State, Texas Western, Baylor, Arizona, Oklahoma State University, Tulsa, Hardin-Simmons, and Arkansas.

Among the 55 candidates expected, only nine lettermen return from last season. To this list will be added a letterman each from 1955 (halfback Bobby Kyzar of Melvin) and 1954 (halfback Mack Pogue of Sulphur Springs), five junior college transfers, 12 squadmen, and 27 sophomores. Among the candidates is Milton Vaughn, halfback, junior.

Mrs. Post To Sponsor Bar-B-Q at Golden Jubilee

Mrs. Marjorie M. Post of Washington, D.C., will sponsor a barbecue at Post Monday, Sept. 16, on the third day of the city's Golden Jubilee celebration. Mrs. Post is the daughter of C. W. Post, the town's founder.

Jubilee officials also announce that a street dance will be held Friday night, Sept. 13, on the eve of the four-day celebration.

The opening day parade on Saturday will be over a two-mile route. There will be area riding groups, bands, floats, decorated automobiles, oil field equipment and other units in the procession.

Rehearsals are well under way on "Caprock Cavalcade," the historical pageant to be presented on three nights of the Jubilee. Meanwhile, 23 young ladies are campaigning for the title of "Miss Post Jubilee" with the winner to be crowned on opening night.

Five Junior College Players Transfer to Tech

LUBBOCK, Aug. 23—Five junior college players are expected to lend experience to the letterman this Texas Tech football lineup when practice opens Sept. 2.

With only nine lettermen from 1956 scheduled to report, the five are likely to see considerable service. Only one, however, was in school for spring training since the other four did not graduate until May. He, Floyd Leffinger of La Vega, who was in 2-A American for Rusty Russell at Victoria College, loans currency by as the starting quarterback.

Two will be tried at right guard, where Tech lost a regular starter through a summer injury and two top wide receivers. At that spot will be Ray Campbell of Greentown, from Tearkana College, and Billy Jara of Sinton, from Victoria College.

Only one letterman center returns, so Jack Andrews of Keyser, West Va., from Potomac State Junior College, may see considerable action at the pivot position.

Another La Vega High School ex, Don Pringle, who played jaycee ball for Navarro, is going out for quarterback.

Mrs. G. P. Howell, 60, a resident of Enochs for many years died at 1 p.m. Saturday at her home in Lubbock where she had lived since 1941.

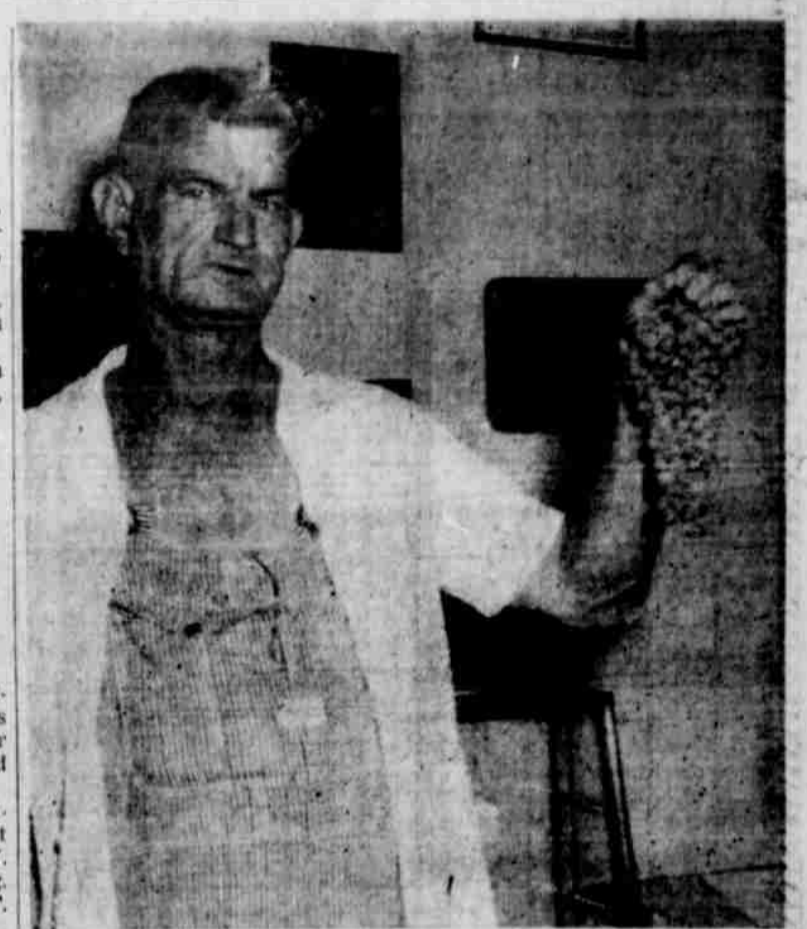

Funeral services were conducted Monday in the First Baptist Church in Lubbock with Dr. J. Ralph Grant, pastor, officiating. He was assisted by the Rev. J. T. Bolding.

Burial was at 4 p.m. in the Littlefield Cemetery under the direction of Rix Funeral Home.

Mrs. Howell was born in 1896 in Jacksonboro and married in Wheeler in 1912. She moved to Enochs when the territory was opened by the Enochs Land Co. She and her husband operated a General Mercantile Store until his death.

She was a member of the First Baptist Church, the Friendship Sunday School class and the Blanche Rose Walker Circle of the W.M.U.

Survivors are two sons, Durwood and Douglas of Lubbock; two daughters, Mrs. Eddie Clifton and Mrs. O. P. Harlan, Jr., both of Lubbock; three sisters, Miss Floy Jo Hughes, San Francisco, Calif.; Mrs. C. W. Whiteley, Wheeler; Mrs. Bob Elston, Chickasha, Okla.; and one brother, Jack Fox of Oklahoma.

Jess Williams proudly shows a bunch of the grapes from his vineyard at 149 Austin Ave. in Littlefield. The Williams started the vines as a hobby. They have gathered ten bushels of grapes this season.

The thing that confuses Williams is a bunch of red and a bunch of white grapes, both ripe, growing on the same vine.

For three years the grapes were all red, but the past two years they have produced both.

Polio Being Reduced by Half; Paralytic Be All But Wiped Out

Great progress in the fight against polio is reflected in the Health Service's report that the prospects now for the total number of cases this year may be less than half the 15,400 reported in 1956. Last week there were 265 cases reported, or less than one-third as many as the 634 cases in the comparable week last year. The 51 paralytic cases discovered last week represent an even better showing, being less than 20 per cent of the number in the same week of 1956.

By the year to date, there had been a total of 2244 paralytic cases through July 27. Last year at the same time there had been 546 cases. And paralytic cases to date number little more than one-third of last year's, being 831 as compared with 2533.

After more than two years of experience with the Salk vaccine in mass inoculations, it appears that this dread disease can be virtually wiped out.

The incidence of paralytic polio among persons who received the full course of three Salk shots is almost one out of 42 persons out of 20,200,000 who had all three shots in an 18-month period. There were only two among this handful, and there is some doubt that in those cases polio was the correct diagnosis.

In the same period, 7290 of the remainder of the population got none or only one or two inoculations developed paralytic polio.

The death rate from those receiving the full course was one per 10,000,000 persons, that for the other group was one per 240,000 persons.

The Salk vaccine has been abundantly proven. Every child under 40 who has not been given the full course of shots should get the shots without delay. When that is done it appears that polio will have been all but wiped out.

Hoffa Wants More Power; One Man Should Possess

The monopoly power over the nation's transportation industry which James R. Hoffa says he will seek if he is elected president of the teamsters union next month would likely too much power for one man or one organization to hold.

Hoffa dreams of uniting truck drivers, longshoremens, busmen and employees of railroads, steamship companies, air lines "and so forth" in one big union. He says if he wins the crown relinquished by Dave Beck he will realize the plan his first objective.

He conceives of merger of these groups into one giant transportation union or "some sort of federation." He says he is doing this he would work within the framework of the A.F.L.-C.I.O. However, his own union appears to be in danger of being expelled from the big federation.

The International Longshoremen's Assn. has been kicked out of the A.F.L.-C.I.O., and the railroad brotherhoods are affiliated with it.

The power of a czar of such a transportation union as envisaged is staggering to consider.

A local strike by railroad men, truck drivers or longshoremen can virtually paralyze a city. A nationwide strike of transportation workers would create almost instant chaos.

The government got excited because DuPont owned a monopoly interest in General Motors, and successfully prosecuted DuPont on monopoly charges. But that sort of monopoly is a trivial matter compared with a monopoly over the nation's transportation facilities.

Communists' New Dragnet of Terror Nets Thousands in Hungary

Communist police have conducted another dragnet of arrests in Hungary. A new wave of arrests in that country resulted in the imprisonment of thousands of Hungarians. Some estimate that the total was 10,000.

The puppet minister of state has brazenly admitted that the purpose of the arrests was to crush suspected underground preparations for a new anti-Communist revolution.

In addition, a renewed attack on the church has been made, with arrest of numerous priests on charges of "counter-revolution."

The arrests serve as a reminder that the Russian brutality in Hungary last year was not an unusual procedure for the Kremlin to follow. The seizures, deportations and executions will certainly continue until the Russians are sure that all opposition in the satellite nation are crushed.

It is believed by some people in Budapest that this new activity may be a prelude to a series of public trials staged in September. This is all the more reason for the N. to take prompt action on its subcommittee's report by the Russians before they start their phony trials in Hungary.

Highlights and Sidelights From Your State Capitol

By VERN SANFORD
Texas Press Association

AUSTIN, Tex.—New faces, new jobs enter the Capitol scene as laws passed in the last Legislative session go into effect.

A consolidator Texas Securities Board swung into action with a statement by newly-appointed Chairman Maurice Bullock of Fort Stockton that "all doubts (about securities issues) will be resolved in favor of the buying public."

Also appointed to the board by Gov. Price Daniel were Jay A. Phillips of Houston and Pete Rodas of Emory. An attorney, Bullock is former president of the Texas Society of CPAs and present chairman of the State Board of Public Accountancy. Rodas is president of the First National Bank of Emory.

Board members selected William King to be acting securities commissioner, a full-time \$10,000-a-year job. He is a former assistant attorney general and had charge of securities in the secretary of state's office.

Approving or disapproving proposed issues of both general and insurance securities will constitute the prime duties of the new agency. Formerly, these functions were divided between the Insurance Department and Secretary of State's office. It also will supervise the licensing of securities dealers and salesmen.

Governor Daniel called the new law an "outstanding measure for protecting the public against fraud and swindling."

YOUTH COUNCIL — Frank M. Wilson of Waco will be chairman of the new Texas Youth Council.

Other members named by Daniel are Louis Henna of Round Rock and Robert Kreebone of Houston.

New agency replaces the old Youth Development Council. It will have charge of the three state correctional schools for young people and the Corsicana state home, the Waco State Home, and the Blind, Deaf and Orphan School at Waco.

Wilson is a Waco attorney and instructor at Baylor University School of Law. Henna, a member of the old Youth Council, was one of the founders of the Baptist Children's Home in Round Rock. A banker, Kreebone has been active in youth work in Houston.

SCHOOL STUDY PANEL — Six legislators and two private citizens are early appointees to a new committee to study the growth problems of Texas public schools.

Named by Lt. Ben Ramsey were Sens. George Parkhouse of Dallas, A. M. Aikin, Jr. of Paris and Floyd Bradshaw of Weatherford plus former Atty. Gen. John E. Sheppard of Odessa and Larado school superintendent J. W. Nixon.

House Speaker Waggoner Carr named Reps. Scott McDonald of Fort Worth, L. DeWitt Hale of Corpus Christi and Malcolm McGee of El Paso.

Full committee will number 24. Ramsey and Carr were directed by the law to pick three legislators and three laymen. Governor Daniel and the State Board of Education are to pick six more each.

One proposal made during the session was to have the state build school buildings and lease them to districts. Numerous Texas officials have opposed federal aid for school building.

HOUSE COMMITTEE — A long list of groups has been set up by Speaker Carr to study basic state problems and report to the 50th Legislature. They include: Legislative Budget Board — Reps. Max Smith of San Marcos, Frates S. Seeligson of San Antonio, William S. Healy of Paducah, J. T. Ellis Jr. of Weslaco.

Legislative Council — Reps. Robert Hughes of Dallas, Wesley Roberts of Lamesa, A. R. Schwartz of Galveston, Tony Koriath of Sherman, James M. Cotten of Weatherford, R. H. Cory of Victoria, Menton J. Murray of Harlingen, Alonzo W. Jamison Jr. of Denton, Don Kennard of Fort Worth and Harold B. Parish of Taft.

State Tax Study Commission — Reps. Seeligson, Richard C. Slack of Pecos and John A. Huezner Sr. of Bay City.

Sandhills Philosopher Discusses Inflation

Editor's note: The Sandhill Philosopher on his Johnson grass farm is back on the topic of inflation, his letter this week reveals. Dear editor:

Like a lot of other people, I have been giving considerable thought lately to the problem of inflation, which is not the most exciting topic to think about but it isn't piling.

According to the economic index and my grocery bill, the cost of living has been going up a little every month for the last 18 months, and every time it goes up, it means a general increase in prices and wages, which in turn sends the cost of living up a little more, and if it keeps it up anybody can see it'll get completely out of hand.

Consequently, I was pleased to read in an article in a newspaper yesterday afternoon which I had been using to put on my tractor seat while I went to get a drink of water to shade it from the sun, anybody knows what happens to a tractor seat when it's left in the sun fifteen or twenty minutes in August, and when a puff of wind

blew this paper off and left the seat too hot to sit on, there wasn't anything else for me to do but take the paper to the shade of a tree and read, and consequently as I started to say, I was pleased to read that some of the best minds in the country are working on the problem of inflation.

According to Gardner C. Means, one of the top economists in the country, inflation is caused by "administered prices," by which he means prices aren't allowed to follow the law of supply and demand, people just set a price they figure they ought to get or can get, and by a quirk of human nature the price is always up, not down.

Therefore, he says what we ought to do is stop raising prices and wages for one year, while we study the problem of mounting inflation.

I think this a good idea and I am pleased to know that one of the nation's top economists has finally caught up with us farmers.

As you know, me and the rest of the farmers of this nation haven't raised prices in the last 12 months. I will go even further. We haven't raised 'em in the last 5 years. I'll pay my subscription to The News-Leader five years in advance if anybody will point

out to me any farmer or rancher in Lamb County who has raised the price of anything he sells in the last five years. Personally, the last time I raised the price of anything was the time I raised the price of a steer in 1949. I priced it at what I figured I ought to get, and bowed my neck and held out. The steer died of old age.

So if American business and American labor will follow the pattern set by us farmers and flat refuse to raise prices for one year, we'll give this new idea a complete test. It sure is some complete testing it all by ourselves.

Yours faithfully,
J. A.
