Five Sets To Give 24-Hour Contact With State Units

Twenty-four hour contact with law enforcement units throughout Texas is in prospect for the Lamb County sheriff's office when a new two-way radio system is installed in the near future.

Five two-way radio units, four of which will be installed in cars and one in the sheriff's office, have been ordered. The purchase order was authorized at a recent meeting of county commissioners.

Cost About \$2,000

Cost of the five units is estimated at around \$2,000, according to County Judge Otha F. Dent, who said that the commissioners do not know yet when they will be able to get the new equipment.

An operation permit from the Federal Communications Commission will have to be obtained before the radios can be put into service. Judge Dent said the commissioners have made inquiries about the permit and think they will be able to get approval without any difficulty. Formal application has not been made, however.

Sold On Sets
Counties which have the two-way radio system are "really sold on them," the judge said. Surrounding counties, including Hockley, Cochran and Lubbock counties, are using the equipment already.

No new personnel and no training will be required when the system is installed here. The deputy regularly on duty in the sheriff's office will be able to operate the control set.

The system will enable cars patrolling the county or out-of-town on sheriff's business to contact the local office, or vice versa. Through a state radio station at Lubbock, they will have contact with other law enforcement agencies throughout the state.

Sees Saving
Judge Dent predicted a saving in both mileage and long distance telephone expenses. The county-wide and state-wide communication will also help the sheriff's office to operate more efficiently, he said.

The county expects delivery by March 15 of three new cars for use by the sheriff's office. Two cars now in service will be traded in. One deputy now using his own car will have the use of a county vehicle, and two other deputies will continue to use their own cars, it was reported. Four of the automobiles will be equipped with the two-way radio sets.

Sheriff's officers will soon be patrolling the county in three new Ford automobiles. The commissioners court recently placed the order for the new cars with the Hall Motor Co., Ford dealer in Littlefield.

Six automobile dealers of the county submitted bids to the court. Delivery on the new cars is expected around the first of March.

The county is trading in two of its old cars on new machines. The new automobiles will be especially built for law enforcement work, with high-powered engines and other features.

County Fair Group Sets Dinner Friday

In notices mailed Monday to 74 Lamb County Fair Association members, V. M. Peterman, president, called a meeting for 8 p.m. Friday, February 24, in the Hays Coffee Shop.

Groundwork for the annual county fair next fall will be laid at the dinner meeting, it was reported. Besides routine business, appointment of key committees is on the agenda.

District H. D. Clubs To Meet Here April 25; 300 Persons Expected

About 300 persons from 16 counties are expected to attend a district meeting of the Texas Home Demonstration Association in Littlefield April 25.

Plans for the meeting were announced following a meeting of the Lamb County Home Demonstration Council last Wednesday in the courthouse.

Mrs. G. T. Maltby, Muleshoe, vice president of the district, conferred with the hostess group on plans for the all-day meeting, which will include a noon luncheon courtesy of the Lamb County council.

Further details, including a meeting place, are to be worked out at the next council meeting, set for March 15.

Damage to the partially-constructed home of Mr. and Mrs. Drew Watkins, Sudan, was estimated at more than \$4,000 when fire of unknown origin swept the place early Saturday.

Partly-Built Home Of Sudan Ginner Damaged By Blaze

The house is on the Lubbock-Clovis highway near Sudan. The loss was estimated at \$4,000, plus about \$400 in carpenters' tools.

The blaze started in the living room of the house, where carpenters had been working Friday, it was reported.

Volunteer firemen of Sudan extinguished the blaze, which was burning brightly when the firemen arrived at 1:15 a.m., Chief Frank White reported. Darrell Lane, nightwatchman at a nearby compress, turned in the alarm.

Watkins, a Sudan ginner, was in Fort Worth with his wife at the time of the fire. It was reported that he carried about \$1,500 in insurance on the older part of the house, but none on the addition under construction.

Under the able leadership of the 1935 Study Club of Sudan, the 1950 March of Dimes campaign quota of \$1225 was met 100 per cent when proceeds from a square dance held recently at the local Legion Hut was added to the fund.

Ace Daniels, of Sudan and Buck Ross of Littlefield are especially to be commended in the fine work they did in selling tickets for the benefit dance, said Mrs. Terry. W. H. Lyle, Jr., chairman of the dance committee acted as Master of Ceremonies for the occasion with folks from many neighboring communities including Muleshoe, Morton, Littlefield, and Amherst enjoying the party. Bill really did a fine job and we wish to express our appreciation for his work, concluded Mrs. Terry.

A special committee from the Panhandle and South Plains has left for Washington where they will urge early U. S. Senate consideration of the Canadian river water development project.

Committee members were scheduled to confer Monday with Texas Senators Lyndon Johnson and Tom Connally, and Representatives George Mahon and Eugene Worley of the Lubbock and Amarillo Congressional districts.

One of the purposes of the committee's trip to Washington was to try to persuade the Senate committee to set an early hearing on the measure necessary before it can be brought before the Senate.

The \$85,000,000 Canadian river project bill has been pending in the Senate Interior and Insular committee since its approval by the House last year.

Texas Or California To Lead The Nation

Either California or Texas is destined to outrank New York as the nation's No. 1 state, according to a prediction made by Gen. R. E. Wood, chairman of the board of Sears, Roebuck & Company.

"Whether it be California or Texas I do not know, but both of them are certain to surpass New York. It's only a question of time."

The 71-year-old business leader said Sears has done more expansion in Texas and California than anywhere else and he foresees a good business throughout 1950.

Lamb County Scouts To Consider Joining Coronado Area Council

Possibility of Lamb County Scouts' affiliation with the Coronado Area Girl Scout Council, with headquarters in Clovis, was discussed at the two-day Girl Scout Leaders Training Session held last Wednesday and Thursday by Mrs. Ivalee Hobden, Dallas, regional advisor for the national organization. Mrs. Hobden announced that the Clovis group is considering expansion since the recent hiring of a new area executive director.

Overtures Reported
The group made overtures to the Lamb County Girl Scouts Council about a year ago, it was reported, but local scouts were not in a position financially to complete the affiliation. The quota, then was around \$1,000. Now, they are asking about \$700, Mrs. Hobden said, for services of their trained worker.

The affiliation was suggested as one of the long-range goals of the Lamb County organization. Mrs. Hobden urged local Scout officials to try to strengthen their financial position with an eye towards joining the Coronado Council next fall.

Offers Advantages
The regional advisor emphasized the advantages offered by improved program services, periodic visits from a professional worker and participation in an area program. Other goals set were strengthening the Lamb County Girl Scout Council through representation from other towns in the county, and sending representatives to various training sessions and institutes.

Lamb County now has 15 girl Scout troops, eight in Littlefield, two in Amherst, four in Olton and one in Sudan.

Training Session Set
Forthcoming are committee institutes in Lubbock March 14 and 15 and a camp training course at Camp Mary White near Mayhill, N. M., the last week in May.

Camp, troop organization and training committees are invited to the Lubbock session, while day camp directors or counselors are invited to the Mayhill camp.

Another objective mentioned by Mrs. Hobden was county-wide meetings of Girl Scout leaders and board members three times a year.

Organization Stressed
Good attendance was reported at the two day meeting here. Mrs. Hobden concentrated on organization work needed and outlined regulations for directing scout groups. Twenty-six leaders from Littlefield and Olton were on hand for the session Wednesday and 20 were present Thursday.

Everyone With Income Of \$600 Or More Must File Tax Return

Watch your exemptions in making your 1949 income tax return. For each one you can rightfully claim, \$600 is knocked off your income before what's left can be taxed.

Everyone who had \$600 or more income in 1949 must file a return. But—everyone who files a return:

Exemptions Are Listed

1. Is allowed a \$600 exemption for himself, plus \$600 if he was blind in 1949; plus \$600 if he was 65 or older in 1949.
2. If his wife had no income or files a joint return with him, he's allowed a \$600 exemption for her; plus \$600 if she was blind in 1949 plus \$600 if she was 65 or older in 1949.
3. And he's allowed a \$600 exemption for each dependent he can claim. There is no added \$600 exemption because a dependent is blind or 65.

The rules covering wives and dependents are not the same because a wife is not classified as a dependent.

The wife—
If she had any income, no matter how small, the husband can claim no exemption for her unless she files jointly with him.

Can File Jointly
What of a wife who is claimed as a dependent by somebody else, such as her father, who may have supported her? Can she file jointly with her husband?
Yes, but then the person who supported her can't claim her.

However, if she wants her father, who supported her to have her exemption she should not file a joint return with her husband. She can't be an exemption on two different returns.

If she files her own return, then she claims her own \$600 exemption. The husband, in that case, gets no exemption for her. On his return he can claim only his own exemptions.

Example: The husband's salary was \$5,000. The wife had \$40 income from baby sitting. Since her income was less than \$600, she doesn't have to file a return.

But—since she had income—unless she files jointly with her husband, he loses the \$600 exemption for her.

Queer Twist in Law
Dependents—
There's a queer twist in the law on dependents. Anyone with \$600 or more income must file his own return and claim his own \$600 exemption. If his income was less than \$600, he does not have to file a return but—

A person who had \$500 or more income—even though that's \$100 less than the \$600 income which would require him to file a return in his own right—cannot be claimed as a dependent by anyone.

You can claim as a dependent only these close relatives:

Your child or grandchild; a step-child but not his children; a leg-

You can claim as a dependent an unborn child or one born dead. What of a dependent who died in 1949? You can claim a full \$600 exemption for him, even though he died as early as Jan. 1, 1949. (NEXT WEEK: Your deductions)

Amherst Break-In Cases Not Solved

Amherst officers have no clues to two burglaries which occurred there February 10 and 11, it is reported.

T. L. Holland, manager, reported that persons who gained entry by breaking a back window, took a carton of .22 long rifle shells from Higginbotham-Bartlett Lumber Company in Amherst Saturday night.

C. R. Stevens, school superintendent, said some ice cream sticks and candy bars were stolen from the school lunch room in a break-in Friday night following a basketball game.

The burglaries are thought to be the work of juveniles.

"Battleground" Featuring 101st Airborne Division Opens At Palace Wednesday

Special Service Wednesday Night At Missionary Baptist

A special service will be held at the Littlefield Missionary Baptist Church, Wednesday, February 22, 7:30 p.m.

Rev. Weldon B. Meers, pastor of the church, announces there will be two religious sound films shown. These films are interesting and scriptural.

The title of these films are, "The Man Who Forgot God" and "The Rapture."

The first one has to do with a man being called of God as a missionary and refused the call.

The second has to do with the coming of the Lord Jesus Christ for His people.

The public is invited. There will be no admission charge. A free-will offering will be taken.

The church bus will run for the convenience of those who do not have a way to the church.

Christmas 1944, promised to be Merry for American soldiers. Nazi resistance was crumbling. The war was almost over. Then came shattering news. The Germans unexpectedly blasted through for 65 miles and the battle for Bastogne was on.

Bastogne, hub of seven highways, was vital to the Germans. Without it, they couldn't succeed. The 101st Airborne was rushed up to aid its defense and there they wrote history—incredible, magnificent history.

"Battleground," M-G-M's epic picture of the valiant 101st Airborne Division, is a thrilling, electrifying reenactment of the fight for possession of Bastogne. It is the story of the guts, gags and glory of a lot of wonderful guys, starring Van Johnson, John Hodiak, Ricardo Montalban and George Murphy in a cast of thousands. "Battleground" begins a 3-day engagement at the Palace Theater Wednesday, February 22.

clover and alfalfa in crop rotation. After Mr. Ingelking's talk, George Wuerflein told of his experiences in that field.

Dawkins Speaks

Louis Dawkins, Plainview, representative of the state Soil Conservation district board of supervisors, was the main speaker at the barbecue luncheon in Earth, at which 190 persons were served.

Dawkins outlined the formation of Soil Conservation districts, their functions and organizational setups. He was introduced by County Agent David Eaton, master of ceremonies. A short film on soil conservation was also shown.

A number of Littlefield businessmen who could not make the all-day tour were guests at the luncheon.

St. Martin's Church To Conduct Series Of Lenten Services

St. Martin's Lutheran Church will conduct a series of services in observance of the solemn Lenten season starting Wednesday, February 22, the Rev. C. Schulte, pastor, announced.

A series of sermons on the "Seven Last Words on the Cross" will be delivered by Rev. Schulte, starting Wednesday with an introductory sermon of the first word, "Father, forgive them, for they know not what they do."

An offering will be received at each service for the Benevolence Program of American Lutheran Churches.

After the service Wednesday, Pastor Schulte will organize an Adult Discussion Group for a ten-session course explaining the Bible and Bible teachings, as taught by the Lutheran Church. Everyone is welcome to attend, he said. The church is on the Bula highway at Cundiff.

Fifty Scholarships To Texas University Offered To Seniors

More than \$5,000 in Wilbur S. Davidson freshman scholarships for the 1950-51 long session at the University of Texas will be awarded to 50 worthy 1950 high school graduates, it was announced in Austin.

Each scholarship usually is for \$100. Occasionally more than that amount is granted, but in no case does it exceed \$200.

Letters explaining the scholarships are being sent to nearly 1,000 Texas high school principals with the request that they pass the information along to their students. Sample application blanks accompany the letters. Additional blanks may be obtained from the Dean of Student Life, University Station, Austin.

To be eligible, a high school senior must be graduated in the top half of his class and must furnish evidence of good character. Preference is given to Texas high school graduates.

Scholarship funds come from a bequest by the late Wilbur S. Davidson of Houston. The scholarships were offered for the first time in 1948.

Okays \$5 Million Soil Conservation Grant

The state attorney general has ruled that the \$5 million appropriation for soil conservation made by the legislature last year was constitutional.

State Auditor C. H. Cavness had asked the attorney general to state if the legislature had constitutional authority to make such a grant to soil conservation districts; and if the comptroller can issue a warrant to such a district on funds drawn from the general revenue fund, based solely on certification of the soil conservation board.

The attorney general's opinion answered "yes" to both questions.

To Choose Sweetheart

A separate contest will be held to select the state D. E. Club sweetheart from sweethearts of the clubs represented.

Jerry Mabry of Longview, president of the Texas clubs, will deliver an address Friday evening, followed by Delbert Downing, manager of the Midland Chamber of Commerce, whose topic will be "How Far Will You Go?" Dancing and several special numbers will follow the banquet meeting.

Saturday morning skits will be presented by the Beaumont Club and the Baytown Club. Several students and leading business men will speak. M. A. Browning, state supervisor of distributive education, will talk on "Looking to the Future."

Contest Saturday

A San Angelo committee, headed by J. P. Williamson of Hemphill-Wells Company, will judge the contests Saturday morning. Prizes for winners and runners-up will be awarded Saturday afternoon.

Saturday afternoon will be devoted to the business meeting, which will include the election of officers and election of seven delegates to go to Ashville, N. C., April 16 to 18 to represent the Texas clubs at the national convention of the Distributive Education Clubs of America.

At noon Saturday, there will be an old-fashioned chuck wagon barbecue luncheon served by the famous Odessa "Chuckwagon Gang," who have a fine reputation for speed in serving meals. They established a record in 1946 when 7,200 Gulf Day celebrants were served in 55 minutes.

Texas Is Leader

Texas has been the leader in the progress of Distributive Education since its beginning in 1937. The first program was instituted at San Antonio Technical High School in the fall of 1937. From that beginning, the Distributive Education has grown to 92 programs in the high schools and junior colleges of Texas in 1949. Over 45,000 students, including adults, received training in Distributive Education in Texas last year.

There are two types of programs. In the first, part-time classes may be conducted in two ways: through the cooperative programs of high schools and junior colleges; or, through the extension courses which are conducted through the University of Texas Bureau of Extension. Extension classes are those offered Distributive workers during their employment hours. Cooperative part-time classes are those organized and conducted on a school-and-employment schedule which combine vocational and related instruction with occupational experience in the kind of jobs in which the trainees expect to become full time workers. High school graduates may take post-graduate courses in Distributive Education, and it is offered as a two-year course in Junior College.

Extension Classes

The second type is evening extension classes for employed personnel. These classes may be conducted during the day or evening, depending upon the employment schedule of the workers enrolled. These classes are conducted dur-

ing officer immediately after his election.

The group selected the name "Lamb County Rural Telephone Association" and immediately got organization work underway. It was reported. All groundwork necessary for operation of the organization of the organization has been laid.

To Mail Applications

The group authorized Lamb County Electric Co-Operative to obtain application forms from Washington, D. C., as soon as possible, to have about 3500 forms printed and mailed out to all rural homes in the county. The action was expected to be underway within the next week.

The Electric Co-Op was further authorized to serve as a collection agency for the Phone Association at the present time. Membership fee was set at \$5.

Four To Austin

Making the trip to Austin Monday were Dick Carl, manager of the Lamb County Electric Co-Op and advisor to the Rural Phone Association; Ben Gann, president of the Electric Co-Op board; Lewis Owen, Pep, phone association president; and Jim Bradley, Amherst, secretary-treasurer.

Texas Power Reserve Electric Co-Operative was sponsoring the Austin session, a state-wide meeting of rural groups investigating

ing non-working hours of members.

Distributive Education received a big boost when the George-Deen Act expired in 1946 and the George-Barden Act of 1947 was passed. Under this act, approximately \$2,500,000 was made available for the operation and administration of Distributive Education. This made it possible to reimburse many new programs and therefore each year a larger number of schools are adding Distributive Education to their curriculum.

THE MIDDLES By Bob Karp

"Let it go as it came" — said George Washington of a cold he had contracted . . . and rode forth into a blizzard. Three days later, the Father of his country died of complications caused by that cold he "shrugged off" but did not "shake off." Never minimize the importance — never underestimate the danger — of a "little cold" however slight the infection may seem to you. Treat it promptly — take every precaution. And if the cold "hangs on" or is accompanied by chills and fever, call your doctor without delay. Promptness may help ward off such serious illnesses as pneumonia and influenza.

Lutheran Promotion Day Is Postponed Until Early October

Custom suffered another setback last Thursday night when the staff of Emmanuel Lutheran's Sunday School decided to change the date of promotion day from the first Sunday in April to that of October. The change was deemed advisable for several reasons.

A few of the children were advanced last Sunday, but the majority will be enrolled in their present class for an extra six months.

Also favorably acted upon by the staff was the resolution that Emmanuel's Sunday School remember the "March of Dimes" in a concrete way. The staff cares for the business matters which arise in connection with the Sunday School of Emmanuel Lutheran, 417 West Third Street.

Tom Thumb Wedding Nets \$269.85 For Sudan Band Uniforms

Sudan high school band's uniform fund was boosted by \$269.85, proceeds from the successful staging of a Tom Thumb wedding at Sudan High School Tuesday night, February 12.

About five uniforms can be purchased with the amount raised at the benefit show, which was sponsored by the 1935 Study Club of Sudan, with Mrs. E. J. Stone, Mrs. L. E. Slate and Mrs. Milton Wise-man in charge.

Gate receipts netted \$145.85, it was reported, while auctioning of fancy cakes by Joe Smith added \$124 to the fund. Band mothers donated the cakes.

Don Williams, Hornet bandmaster, announced that the band fund now totals \$1369. Goal set last November was \$2000.

Girl Scout Executive Addresses Lions Club

Mrs. Ivalee Hobden, Dallas, regional advisor for the National Girl Scout organization, outlined the Scout program and purposes in an address at the Wednesday noon luncheon of Littlefield Lions Club.

The meeting next week will feature a musical program directed by Don Hayes, high school music instructor. A band ensemble will play and the choir will present vocal selections.

Banner Awarded Den At Mass Meeting, Rev. McKemy Speaks

Den No. 2 won the attendance banner at a monthly meeting of Cub Scout dens last Thursday night in the First Presbyterian Church. The den was represented by 22 cubs and parents. Mrs. R. E. Mitchell is den mother.

About 80 persons were present at the den meeting, which was addressed by the Rev. Carter McKemy, pastor of the First Presbyterian Church.

The Rev. Mr. McKemy's topic, "What Cub Scouting Stands For," was in line with the scout's birthday celebration.

Several dens presented their den songs and handicraft work was on display.

The next den meeting, officers announced, will be on the third Thursday night in March.

Benard Ferguson Dies In Amherst

An Amherst farmer, Benard Mills Ferguson, 55, died suddenly Friday morning of a heart attack while sitting in his car outside his home here.

Ferguson had been farming here for nine years, after moving here from the Sunny Side community near Hereford. Born in Arkansas in 1894, he was brought to Texas shortly after his birth, and has lived here most of his life.

He is survived by his wife; two daughters, Mrs. F. L. Huff of Hereford, and Mrs. Iva Pearl McCormick of Amherst; a son, Winston Ferguson of Amherst; two brothers, R. A. Ferguson of Amherst and Fred Ferguson of Wash.; and one daughter, Mrs. J. H. Cox, pastor of the Baptist church here.

Funeral services will be held at 3:30 p.m., Saturday, at the Littlefield Baptist church here. The director of the Wood Funeral home here.

Continental Oil Announces Conoco Super Motor Oil

Company has re-ent of a new mot of eight years' sh, two winters of na and Colorado, road test along ger, according to al agent for Con- called "Conoco Su- now available in ld. e performance of ere and exhaust- plus the fact that challenge of the venting wear and clean," said Mr. s all of us with this new super nearly perfect as ay to develop a and four trucks, road test along er, covered more at an average an hour for the

cars, and 50 miles an hour for the trucks. The cars were run for 14 hours each day, six days a week, in the sizzling South Texas heat that at times reached 110 degrees in the shade. Eight hundred miles per day were racked up on the speedometers of the test cars, and 690 miles a day on the trucks.

At the end of the 50,000-mile run, equal to five years' mileage for the average family car, engines of the cars showed no wear of any consequence. In fact, by actual measurement with highly sensitive instruments, wear was an average of less than one one-thousandth of an inch on cylinders and crankshafts. Original factory machining marks were still visible on piston rings.

The road testing results are certified by the Southwest Research Institute of San Antonio, Tex., and Norman Penfold of the Institute, under whose certification the test run was made. Mr. Penfold is acknowledged as the outstanding independent authority on oil testing.

According to Mr. Sewell, the new oil for local automobile and truck owners represents another long step forward in the method pioneered and developed by Continental Oil Company for using additives in mineral oils to increase effectiveness against wear and assure longer life for motors.

USE LEADER WANT ADS. FOR BEST RESULTS —

Looking over a tachograph chart just removed from a Continental Oil Company test car are Norman Penfold (left), assistant to the director of Southwest Research Institute, and W. B. Pate of Conoco's mechanical laboratory. The chart shows oil test car has been run more than 800 miles during preceding 14 hours at an average speed of 60 miles per hour. Daily charts of this type were kept on six test cars and four trucks which piled up a total mileage of over one-half million miles over 70-day period to check on anti-wear qualities of new super motor oil. Teardown and measurement of moving parts and proved that with proper crankcase drains and regular care, the new Conoco Super Motor Oil will keep and engine clean and at top performance. Another amazing result of the 50,000-mile test run was that gasoline mileage for the last 5,000 miles was as good as for the first 5,000 miles — actually there was an average difference for the fleet of only 4/100 of a mile per gallon.

Colorful Texas Ranger Joe Bridge (left) of Falfurrias, and Ranger Tully Seay (second from right) of Carrizo Springs visit Continental Oil Company test-run headquarters at Laredo, Texas, to learn from Wade Johnson (second from left), and Frank Sues (far right) "what's going on." The two company technicians explain to the Rangers that six test cars of the company are being driven 800 miles per day at speeds averaging 60 miles per hour over a period of 70 days, to test the wear-prevention qualities of a new super motor oil developed by the company. At the end of the test run, which put more than 50,000 miles on each car—equal to five years' mileage for the average family car—the motors were torn down and checked for wear, which proved to be less than one-thousandth of an inch on cylinders and crankshafts. As the Rangers learned at the conclusion of the test, wear had been so negligible that factory machining marks were still visible on piston rings.

Ten Per Cent Of Returned Overseas War Casualties Buried In This Area

In a final report issued by the Fourth Army Area on its return program, it is estimated that about 167,000 World War II deceased have been returned to the United States for re-burial.

Of the total number, 16,951, or 10 per cent, were returned for final burial in the states comprising this army area: Texas, Oklahoma, New Mexico, Arkansas and Louisiana. The returned dead were personnel from the Army, Air Force, Navy, Marine Corps, Coast Guard and civilians who had served with the Armed Forces.

A tally showed the following statistics:

Estimated Deceased	Returned For Burial
Texas 15,704	8,866
Oklahoma 5,474	2,066
Louisiana 3,964	2,004
Arkansas 3,814	2,170
New Mex. 2,032	845

Military honors in the Fourth Army Area have been provided in 8,357 cases by veterans' organizations, in 3,280 cases by the Armed Forces, and in 1,393 cases by the National Guard.

About 83 per cent of all interments have been in civilian cemeteries and 17 per cent in national cemeteries.

Sudan Studying Bond Election, Tax Rate Boost

Negotiations are underway to call a \$125,000 bond election to finance a new gymnasium building and other major improvements in Sudan schools. School Supt. A. Dooley revealed.

Extensive renovation of the present grade school and conversion of the existing high school gym into an auditorium are part of the proposed program.

School board members have scheduled a series of meetings with representatives of bonding companies and architectural firms to prepare accurate estimates of the cost of their plan, and are now engaged in legal procedure required before a bond election date can be set.

A tax rate raise of 20 cents will be sought, bringing the maximum rate to \$1.50 per \$100 valuation, if the election carries.

Plans for the new gym specify a seating capacity of approximately 1200. Location will be about 50 feet east of the grade school, facing north. Sudan hoopsters long have been leaders in District 4-A (north), despite lack of a gym with standard size court and adequate seating capacity, Supt. Dooley pointed out.

Board members are R. L. Masten, president; Guthrie Allen, secretary; Elgan Bacus, Joe Fisher, Charles Wiseman, Doyle Terrell and O. L. Shannon, Martin White is school secretary and tax assessor-collector.

School Tax Apportionment Shows Slight Increase In Past Decade

Texas' rapidly growing public school system is costing only one-twelfth more of every tax penny than the total expended ten years ago.

The surprisingly small increase in apportionment of the total tax dollar in the decade starting with the 1939-40 school year is due to several factors, Charles H. Tennyson, director of public relations of the Texas State Teachers Association, pointed out.

The total government cost for all purposes has increased tremendously in the decade, Tennyson noted, but said that the percentage of total government cost for public schools jumped only from 30.31 per cent in 1939-40 to 30.43 per cent for the present school year.

Public schools this year will cost an estimated total of \$155,213,552 in revenue derived from state and federal funds. The total cost of all governmental services, including education, is estimated at \$510,000,000.

During 1939-40, which was the last normal year prior to World War II, Texas had 1,073,847 children attending school. This year there are, preliminary reports

show, 1,181,103, an increase of 107,256 pupils.

"That huge added enrollment, plus better school facilities and more capable teachers, account for a great part of the added cost of operating our schools," Tennyson said. "In addition the dollar of today has a 1939 purchasing value of 59 cents."

"Texans indicated their desire for better schools when they approved the Gilmer-Aiken bills which reorganize our school system and set higher standards, but I am pleased that the increased cost takes so little more of the total tax dollar than it did ten years ago.

"The most important factors in this case to be, our statistical reports disclose, first that the number of pupils attending school and the number of teachers declined from 1939-40 to 1947-48. As a result, the total cost of public schools did not increase as rapidly as other government services.

"Secondly, the state has expanded services of other kinds to its citizens more rapidly than the public school program has been expanded.

"By 1948-49 the pupil attendance and the number of teachers had passed the pre-war level of 1939-40, yet the proportionate part of total government expense was not going to the schools. In fact, the position of the schools on the tax

dollar scale declined from 0.31 per cent to 27.49 per cent.

"But to sum it up, Texas now has a vastly improved school system, which makes for better citizens and a more prosperous state, at a total increase in cost of only a little more than one mill, a twelfth part of every tax penny."

4-H And FFA Judging Contests In Amarillo

A livestock judging contest for FFA and 4-H club boys will be a new feature of the 1950 Amarillo Fat Stock show, March 6-10.

A grass judging contest held for boys last year will be held again. Much interest was shown in the contest last year.

FFA and 4-H boys from Texas, Oklahoma, Kansas, Colorado and New Mexico are expected to exhibit beef calves, fat swine and lambs at the show according to Art Bralley, secretary of the show.

MANY NEVER SUSPECT CAUSE OF BACKACHES

As we get older, stress and strain, over-exertion, excessive smoking or exposure to cold sometimes slows down kidney function. This may lead many folks to complain of nagging backache, loss of pep and energy, headaches and dizziness. Getting up nights or frequent passages may result from minor bladder irritations due to cold, dampness or dietary indiscretions.

If your discomforts are due to these causes, don't wait, try Doan's Pills, a mild diuretic. Used successfully by millions for over 50 years. While these symptoms may often otherwise occur, it's amazing how many times Doan's give happy relief—help the 15 miles of kidney tubes and filter flush out waste. Get Doan's Pills today!

Sudan Wins 4-A Cage Crown

Levelland Takes Second And Post Wins Third Spot

Hornets To Make Fourth Try At Regional Title

Sudan's fourth consecutive trip to the Region One, Class A, basketball tournament was assured Saturday night when the Hornets captured the District 4-A basketball crown with a 44 to 41 triumph over the Levelland Lobos.

In the championship game at Sundown, Forward Donald Lance went on a 22-point scoring spree to lead the Hornets to victory.

Coach Francis Smith's Hornets trailed most of the way, and had to come from behind in the last two minutes of the game to nail down the title.

Levelland held a 14-9 lead at the quarter, and was ahead 23-18 at halftime. At the close of the third period, Coach Gano Tubbs's Lobos still held a 27-32 edge.

Lance turned in nine field goals and four free pitches in the game, and he sparked the Hornet rally in the final minutes of the match. An all-regional selection last year, he is expected to repeat for the honor this year.

Jimmy Spence paced Levelland's offense getting six field goals and three charity tosses for 15 points.

The triumph was Sudan's third in a row in the district tournament. In previous starts, the Hornets had won over Post and Levelland.

Lee Vardy, Slaton school superintendent and chairman of District 4-A, presented trophies at the close of the tournament.

Final order in the District 4-A tourney was Sudan first, Levelland second, Post third and O'Donnell fourth.

The Hornets have reached the regional finals three years in a

Sudan Girls Win 18-A Honors From Spade, 30 To 27

Sudan captured the right to enter the District 18-A girls' basketball tournament at Lubbock Saturday at Amherst with a 30-27 overtime victory over Spade in the Lamb county tournament. Springlake won the first division berth earlier.

Laquita Williams put 20 points through the hoop for Sudan for individual scoring honors, and Tony Sullivan captured 15 markers for Spade.

Spade led, 19-15, at halftime, but Sudan rallied to tie the score at 27-27 at the end of regulation play.

In an exhibition game Hawkins' Service of Lubbock defeated the Amherst Independents, 45-34. Henry Moreno had 12 points for the winners and Oren Robinson 16 for Amherst.

ELECT SHEPARD

Hale Center Farm bureau recently elected Grady Shepard as president, and picked other officers as follows: S. O. Richardson, vice-president; Orville Jones, secretary; L. E. Ing, membership drive chairman. Shepard succeeds Claude Burnett as head of the bureau which has the largest membership of any of the 14 active community Farm bureaus in Hale county.

February 27 is the date set for opening of track and field practice at Littlefield High School, Coach Fikes announced Tuesday. About 50 high school boys are expected to go out for track this spring.

The track and field events program will be climaxed March 15 by the district track meeting in Lubbock, Coach Fikes said.

In the meantime, gym workouts are filling a two-weeks slack season in sports at the high school between closing of basketball season and opening of track work.

About 50 boys started Monday in the gymnasium to work on a two-weeks individual corrective work program.

Proper stance, footwork and other exercises to make the boys more agile and active will be taught.

For the second year, Coach Fikes said, there will be no spring football practice, allowing a free field for participation in other sports.

Amherst Students Receive Awards

Three students of Amherst High school were presented gold basketball charms by Coach Jack Noyes last week. Doris Leathers, Laverne Sager and Bobby Davis were recipients. Each player was cited individually.

Of Doris he said her position was the most difficult guard spot of the team and that she had very capably fulfilled her obligations to the team.

Laverne had gone outstanding work under the basket all year and has set up many of Joyce McLeLland's 312 points. She has also contributed more than 150 points herself.

Bobby Davis was, in the coaches view, the most underrated player in the tournaments he entered. He is always in the game to win and has been a major factor in the Bulldogs' victories this year.

The coach stated that all three of these seniors will be sorely missed next year and that he presented his "coach's awards" to show his appreciation for jobs well done. Basketball lettermen will be announced next week, both boys and girls.

Because of a regulation set forth by the Texas Interscholastic League whereas a boy can receive only one award a year from his school only three boys will be eligible for letters. All except Lee Clay, Ivan Dale Weaver, and Basil Jeffery won football letters this year.

The St. Louis Cardinals open their home season with a night game against Pittsburgh on April 18. It's one of 54 home night games for the Cards.
