## W. H. Cunningham Reports On Recent Trip To Washington

Future cotton acreage allotments will be figured without taking 1949 into consideration, therefore it is advisable that our farmers keep this in mind since it will not help his cotton acreage allotments hereafter if he plants one acre or 100% of all his ground, according to W. H. Cunningham, who returned from Washington, D. C., Thursday after spending three days there as a representative of Lamb county farmers before the Agriculture Sub-Committee.

Cunningham was instructed that local farmers were in favor of price supports after this year, at 90% parity, that they would accept allotments provided at least 90% parity was established that the base period be two years, 1947-1948, and to include Grain Sorghums as a basic crop and that allotments be made on percentage of crop land.

He reports that he believes Grain Sorghums are almost sure to be classified a Basic Crop in the new farm Bill and that they had asked for a 90%

parity on grains. Also that a Loan support price for Grain Sorghums will be announced soon. He asked for 90%, but is doubtful of getting it. It was based on 77% of Parity this past season. This figured \$2.31 for the national average, with the local loan rate being \$2.28.

Cunningham said farmers may wish for Grain Sorghum acreage or some other basic crop because of his opening statement. "There is no acreage control this year, but if we plant a large acreage to cotton and mother nature smiles on us just a little, we will make a large cotton crop, piling up a big surplus of cotton, and the more surplus we make the more we will be cut in 1950 and many years after."

Seven men made the trip to Washington from the South Plains, according to Cunningham. The other six were mostly Ginners and Oil Mill operators. They had previously met together, appointed a spokesman and written their recommendations to be

presented to the Committee. Mr. Cunningham found they agreed with his instructions except that they favored the old historical base for each farm. Therefore Mr. Cunningham told the committee why he could not agree to all the recommendations of the other group.

He also said Congressman Geo. Mahon agreed with him and tried to persuade the other group to change their recommendations. However, members of the committee are determined that allotments will not be what they once were again. From the flood of wires and letters coming into these Congressmen's offices, Mr. Cunningham felt they would see made outstanding progress in the allotment on a percentage basis is best.

During his stay in the capitol, Mr. Cunningham visited with several members of the committee and had breakfast, lunch and dinner with one or more of these committee members. (Continued on Back Page)

## Defendant's Answer Filed In Payne-Still Injunction Suit

The answer of the defense in the suit filed by Dr. C.E. Payne and Dr. I.T. Shotwell, Jr., against Dr. O.W. (Jack) Still has been filed in District Court.

The plaintiffs seek to enjoin Dr. Still from the practice of medicine and surgery in Littlefield or within a radius of 50 miles of the center of this city for a period of ten years.

The suit is based on a contract entered into December 22, 1947, between Doctors Payne and Shotwell and Dr. Still, who was associated with the Payne-Shotwell hospital and clinic until recently when he became connected with other local doctors.

Trial of the case has been set for Monday, February 21.

Attorneys for the defense are Griffin and Morehead of Plainview and Arthur P. Duggan, Jr. of Littlefield. The plaintiffs are represented by Bills and Street and T. Wade Potter of Littlefield and Crenshaw, Dupree and Milam of Lubbock.

The defense in the early paragraphs of their answer declares that there is no cause of action against the defendant for the granting of a permanent injunction restraining him from the practice of medicine and surgery in Littlefield or within a radius of 50 miles of this city.

The defense asks for dismissal of the action and declares that the document entered into by Doctors Payne and Shotwell and Still is unreasonable, in restraint of trade, and against public policy and a detriment to the public interest generally for the reason that the same seeks to prevent the defendant from practicing his profession, and carrying on his lawful and legal occupation within a stipulated area and is in general contrary to the Constitution of the United States and the State of Texas.

Among other things the reply of the defense recites that the provision in the contract limiting Dr. Still from practicing with in a radius of 50 miles of Littlefield is unreasonable and void because the practice by defendant of his profession within such 50 miles radius would not seriously affect the business of the plaintiffs.

The defense will attempt to show that the public generally has an interest in the granting or refusing of the proposed injunction because the public is entitled to have the services of an adequate number of doctors.

## Boy Scouts, As City Officials Have Great Collection System

Littlefield Boy Scouts Cleaned the city in more ways than one Friday as they literally "took over the town".

The boys cut traffic violations to practically nothing and managed to finish the cleaning up, mostly on pockets, as Rev. Carter McKemy found out when he was arrested for driving through a red light while walking down Phelps Ave.

The boys assumed city and county government positions and whistles trilled through the day as unwary pedestrians or drivers violated something or other, and scouts were on the spot to catch just such a thing.

The court house hadn't seen such a busy day in many a moon. County Judge Jackie Beckner was kept busy handing out sentences or fines. Peyton Reese paid the heaviest, for some infraction that nobody knew for sure how serious it was. A round of ice cream cones were "on the house" at Reese Drug, as a fine.

One of the most elusive of the "culprits" was Pete Owens, young man about town and exponent of the Lincoln automobile, which Pete peddles "just to get along". Pete was wanted by the Scouts on a vagrancy charge and the boys recited the assistance of City Marshall Walraven and Highway Patrolman Jack Taylor in the running down the "culprit." The outcome of the search was not definitely established by the Leader publisher who watched Pete's fate with deep interest. Pete, it is reported, declares that he "paid off".

Sam Hutson was arrested for obstructing the First National Bank corner and for loafing. Hardy Shelby was arrested and tried and Mayor Chesher paid \$1 for jaywalking when he shouldn't have jaywalked. City Secretary W.G. Street was arrested for disturbing the peace and Deputy Sheriff Payne Walters and Jack Taylor swept out the court house as their sentence for violating traffic laws, something about running a red light. However the trial was declared a mistrial after they had done most of the sweeping, because there were two too many jurors sitting in the jury.

The scouts wanted a few they didn't catch such as Harvey Lee for hording money and Tommy Hilburn for not having a fire extinguisher. For all the fun, in all seriousness the boys collected \$140.08 to be used in fixing up the 60 passenger bus recently purchased.

Besides the numerous boys who served as policemen during the day officers elected for the day were Jim Doherty, Mayor; Bob Moover, chief of police; Jerry Cox; city clerk, Don Wilson, Chity health officer; Bobby Joe Cox, fire marshal; Jackie Beckner, county judge; Mike Joblin, sheriff; Don Nickels, county attorney; Douglas Perkins, county clerk Loyd Williams, county tax assessor and Tommy Shelby, county treasurer.

The dance starts at 8:00 p. m., in the Legion Hut at Sudan, Thursday, February 17. Admission is \$1.00 per person.

**Lubbock First In State In Cotton  
Production, Lamb Places Fifth**

Lubbock County again was the No. 1 county in Texas this year in straight year, and the 1st in history.

South Plains countries are the top 10 producers in the state. Lubbock, they are ranked first. Hale, Lamb place second with cotton production of 105,150 bales of January 15, 1949; Lubbock placed eighth in the state with 89 bales; and Hale with 67,419 bales.

Among the challengers for No. 1 was Dawson county with 105,150 bales in 14th position.

South Plains produced more cotton than any other county in the State.

19th Congressional district led by George Mahon, which includes Lubbock, nearly all South Plains and several adjoining counties, produced more cotton than any other in the U.S.

Information has emerged from an analysis of official ginning records through Jan. 15 as reported by the Census Bureau. The figures are not final, are virtually for the 1948-49 crop.

Lubbock's ginnings as of that date, 5,878, with Hidalgo county, second with 4,900 bales, and Cameron, in the same area, third with 111,919, and El Paso, fourth with 97,776.

Counties elsewhere in the state among the first 10 were Williamson, 65,1751 ten-

thousand bales in the South Plains region. Lubbock produced 641,000 bales, accounting for about 22 per cent of the total reported for Texas. With Lubbock, one-sixth of the state's total cotton acreage, the area produced one-fifth of the staple.

In the 19th congressional district, Lubbock produced 800,000 bales, as much as any other county except Texas. The district has produced more cotton than any other congressional district in the past several years.

In the 19th district outside the Lubbock area in Texas, 49,679 bales; Scurry, 24,121, and Mitchell

Lubbock county production last year totaled 177,000 bales, the highest in the state and the most in any county. Lubbock also was No. 1 in Texas in 1937 with 168,000 bales.

Conditions and extensive irrigation spots were blamed for the low yields in the South Plains counties yield this year of last year.

BULL LAKE PHILOSOPHER AMAZED WASHINGTON BUREAUCRAT WANTS TO PUT STOP TO CAMPAIGN PROMISING

Editor's note: The Bull Lake Philosopher on his Johnson grass farm on Bull Lake is off on the topic of promises this week, a subject he's an authority on.

I was out here Monday seen how much damage the recent cold spell did, wonderin if it had got cold enough to freeze all the insects and the weeds and grass, which ain't never occurred before but there ain't no law against hopin, as there ought to be some way of making a crop without plowin all spring and summer, as I been told that's hard work, havin never gotten around to it myself, when I picked up a copy of the Avalanche which was still water logged but that ain't unusual for that paper and dried it out and read where a government expert in Washington who got appointed instead of elected to his job was advisin congressmen and state legislators to go easy on promis-

in too many things to the voters. "There is a danger for example," he said, "that legislators will promise their districts more roads than could be built during the next decade, even if the government had the money."

Ain't this another manifestation of un-American croppin up in Washington? Since when hasn't a politician got the right to promise? How many would we have left if you retired all those who didn't?

While I never have understood why a man would want to leave his home and go to Austin or to Washington. I have always understood, in fact, supposed everybody in America understood, that regardless of why he wanted to go there, the only way he could get there was by promisin. And if you're gonna promise just as much as you can actually accomplish, you ain't gonna get a chance to accomplish that as the folks that's already in

is doin that much. What us voters want is promisin that doesn't stop at the edge of the possible. Any candidate who can't promise no more than what the state can afford might as well save the most of his candidate cards and get his plow in shape.

And promisin more roads is one of the most cherished promise a free American can offer, and any Washington bureaucrat who throws cold water on it ought to go back where he came from. If all the roads was built that was promised last summer alone, there wouldn't be much land left to cultivate, which ain't no bad idea. Why the road in front of my house has been paved, orally speakin, so many times in the past twenty years it would've been eight layers thick by now if half the promisins had been realized.

This country is based on promises. Just keep sendin me your paper and I promise I'll pay you when I get around to it.

Yours faithfully, J.A.

 Camp Baptist Church had a good attendance. They took a sack lunch. There were many interesting talks, Mrs. Sullivan said, among them being the one made by Mrs. Cox of Amherst.

 Time in several weeks school news to report would be the mention of sound equipment, the merry-go-around, installed last week. Several farmers got together and filled in one hole that was plenty soft. If some of the fog which held way around these parts Sunday evening and Monday could be cut up into Chunks and tored away, it might come in handy in cooling us off next summer when its so hot.

Some of that pretty weather we had the first of last week surely would come in handy, but I suppose we shouldn't complain, considering the weather they have been and are still having north of us.

We have some praises for the Commissioner and his boys for the speed with which they got over the roads with their maintainers. ### Mr. and Mrs. Haberer Observe 56th Wedding Anniversary

Mr. and Mrs. John Haberer of Antioch, California, celebrated their 56th Wedding Anniversary Monday, February 7, and were honored with a one o'clock dinner in the home of Mr. and Mrs. Newton Goodwin, of 1918 13th Street, Lubbock.

Decorations consisted of green and gold acacia blossoms and a beautiful wedding cake. Each family contributed to the bountiful meal.

Enjoying the occasion were Mr. and Mrs. Roy Haberer and Betty Joy, Mr. and Mrs. A. L. Haberer and Keith of Falls, Mr. and Mrs. Herman Haberer, Mr. and Mrs. Johnnie Haberer, Kay and Tony Gale, Mr. and Mrs. Roger Haberer and Davey, Mr. and Mrs. Phillip Haberer, Mr. and Mrs. Ted Haberer, Jerrell Haberer, Mr. and Mrs. John Haberer, all of Earth, the hostess and Lynn and Dub.

The following poem was read and dedicated to the honored guests:

**GROWING OLD TOGETHER**  
How beautiful, the growing old together;  
The gentle grace, the peace within the breast,  
After the years of clear and stormy weather,  
After the joy and tumult, to know rest  
And deep content, is beautiful indeed.

How beautiful the embers when the fire  
When two merged hearts have stilled  
their hurrying speed.

Has burned its fierce way through the  
fresh-laid coals!

No longer straining upward, reaching  
higher

For the unattained, the distant  
beckoning goals.

But warmly glowing, welded close as  
one

After its passionate, fiery course is run.

How beautiful the shelter pool! the  
quiet

Movement of shadows on its placid  
face,

After the downward plunge, the silver  
riot

Of sea-bound waters in their breathless  
race,

But better than quiet pools or embers  
blent.

Is the peace Love knows when Youth's  
wild fires are spent.

### Western Union Gives Interesting Booklet

The "Telegrammer" a pocket-sized, quick reference guide of useful information, has just been issued by Western Union, it has been announced by Miss Pauline Young, local telegraph manager.

The 42-page free booklet, now being distributed locally, reveals that Western Union's services, like the modern drug store, have expanded rapidly.

In addition to the well known telegraph and international communications services, the booklet covers many special social and business conveniences now available. It includes a social reminder memo calendar for each month with appropriate message suggestions for holiday, birthday and other occasions.

Other sections give money-saving tips on the preparation of telegrams, tells about the Western Union Credit card which enables the holder anywhere to send a telegram and "charge it" and list special messenger services for gathering market analysis data and for direct-to-consumer distribution.

Highlights of Western Union's nationwide mechanization program are listed, including the automatic telegraph switching system, which eliminates all manual retransmission of telegrams, the radio beam system over each

unit of which more than 2000 telegrams can be sent simultaneously, and desk fax, the small sending and receiving facsimile machine which places fast world-wide communication service within arm's reach of the user.

## Annual Report Made On Progress of Lamb County Soil Conservation Program

### Need Shown For More Technical Assistance

#### Equipment Needed To Carry Out Successful Program

The annual report of Soil Conservation District Supervisors of Lamb County, as furnished the Leader by C. H. Messer, chairman of Lamb County Soil Conservation District Board of Supervisors, show that the Board was organized October 10, 1946, following a hearing on the petition held April 9, 1946, at Amherst, referendum held on June 15, 1946, and Certificate of Organization issued October 10, 1946.

Officers and members elected were: Mr. Messer, Chairman; A. J. Dutton, Vice-Chairman; J. R. Kuykendall, J.

W. Gosdin and Doyle Simmons, members.

The work started on district program and work plan October 18, 1946.

The names of Committees elected, were: History of the Area involved; Climate; Soils, Slopes and Erosion; Land uses; Irrigation Systems; Roads and Railroads; Tillage Practices; Rodents, Insects and Disease; Economic Conditions; size of farms or ranches, and Social Conditions.

Approximately 200 people participated in working out Plan and Program. The program was completed February 4, 1947, and the work plan completed September 23, 1947.

The progress of the district has been reported as follows:

The date of the first application was February 1, 1947, by Mr. C. C. Byers of the Spade community who has been elected a supervisor since that time. This application was made before the Plan and Program was developed for the District.

The Board has received 267 more applications since that date, mostly from irrigation farmers. The District received assistance from the Soil Conservation Service in March, 1948 to help carry out the District Work Plan.

The first 9 months the District has been in operation it has completed 62 farm plans covering approximately 15,000 acres. The board feels it has made good progress in carrying out the District plan except cover crops. We feel they should be stressed in the annual plan of operations.

Considering the number of farms in process of being completed we hope to have another 10,000 acres completed in 90 days. Due to the number of new applications on file it is impossible to give enough attention to maintenance of farm and ranch plans completed with limited amount of SCS personnel furnished the District.

There were five old cooperative agreements between Extension Service and Hale County S. C. D. They have been changed to regular Lamb County Soil Conservation District agreements and they are a little further along in carrying out their plan.

The result of establishment of Conservation plans on farms or ranches by individuals have increased production, showed a decided economy in operation, and believed to have saved labor.

Also the report indicates that with

the assistance of the Littlefield Chamber of Commerce and educational program was conducted throughout the District by having community meetings and showing of erosion films and talks by various Soil Conservation minded people.

The problems and needs of the District have been outlined by Mr. Messer as follows:

1. Insufficient educational program has been the cause of not enough interest being shown by the farmers.

2. More technical assistance is needed especially a full time agricultural engineer. Also an extra field crew during rush seasons. There are 1500 irrigated farms in the District—250 applications behind—increasing each day.

3. To this date there has been no way worked out for financing the District.

4. This District is very much in need of crawler type tractors, motor graders, leveling machines, grass seed drills, fertilizer spreaders and other equipment too expensive for an individual farmer to own.

### Army Plans To Limit Strength

The Army has recently announced two additional steps designed to keep the enlisted strength of the service within the limits anticipated for the Fiscal Year beginning July 1, 1949. The overall army strength of 677,000 contemplated for that date includes approximately 605,000 enlisted men, according to information reaching Sgt. Cutshall Commanding Officer of the U.S. Army and U.S. Air Force Recruiting station at Littlefield.

Effective February 1st, the following restrictions will be placed on the enlistment of men without prior service:

Priorities for acceptance will be established; based on combined intelligence rating and physical standards.

The number of recruits needed to maintain the Army at its authorized strength will be determined periodically; and recruit vacancies will be allotted to each of the six continental armies.

"The Army has already announced cessation of enlistments for two year periods", said Sgt. Cutshall. "Men seeking enlistments are being taken for three, four five or six year terms".

The new rulings do not effect men with prior military service. The Army considers a man with less than 90 days in civil life since his last enlistment, to be a re-enlistee, while those with more than 90 days out of uniform are considered to be prior service enlistees from civil life.

WINNER AND TROPHY . . . Steve Wittman of Oskosh, Wis., poses with his trophy after he had won the Continental event in all-American air maneuvers in Miami.

## Ladies Night At Sudan Rotary

Three foreign students from Texas Tech College, Lubbock, appeared as guests at Sudan Rotary Club ladies' night dinner party Thursday, February 10.

This event, at which approximately 65 Rotarians and wives were present, was held at the Methodist Church annex, with President Eldon Nichols in charge.

Dean J.G. Allen of the College accompanied the students, presenting an interesting interview with each one on their enrollment at Tech. Guillermo Perea and Victor O. Lolas of Peru are majoring in textiles, engineering and Diana Wen Yin Yang a Chinese girl, is a home economics major. All three plan to return to their native country upon completion of study, and use their knowledge at home Miss Yang wore a brightly-flowered Chinese costume for the dinner here.

The W.S.C.S. of the Church, Mrs. Joe Salem, chairman, served the meal. Valentine decorations adorned the hall, including two large heart-shaped signs at either end reading, "Welcome Rotary-Anns," and "Welcome Tech Students." Red and white carnations were chosen for table bouquets.

One hundred per cent club attendance was recorded for this event.

## Court Of Honor And Pot Luck Supper Held

The Court of Honor and Pot Luck supper sponsored by the Rotary Club met Tuesday night at 7:30 in the Methodist Church Annex.

The opening song "America" played by Mydette Morris and led by Earl Chester, was sung.

One hundred guests, scouts and girl Scouts and Brownies enjoyed the

supper. After the supper the program was held in the main auditorium with Postmaster S.D. Hay as Master of Ceremonies.

After the Court of Honor was held a number of scouts, Girl Scouts and Brownies received their honors.

Mr. Hay introduced several speakers for the evening.

N.P. Postma, Scout Executive and Frank Astkinson, Field Executive, both made very interesting talks.

The meeting was adjourned with prayer by Rev. Sherrell.

## Tuesday Study Club Holds Regular Meeting

The Tuesday Study Club held their regular meeting Tuesday evening at 7:30 o'clock in the home of Mr. and Mrs. Olan Roark, with 15 members present and one guest.

The topic of the evening's study was "Women of the Orient" with Mrs. George Reinhardt, Jr. as leader. Members present answered roll call with "Customs of Oriental Women".

Mrs. Dewey Haragan very ably gave an interesting paper on "Life in the Orient".

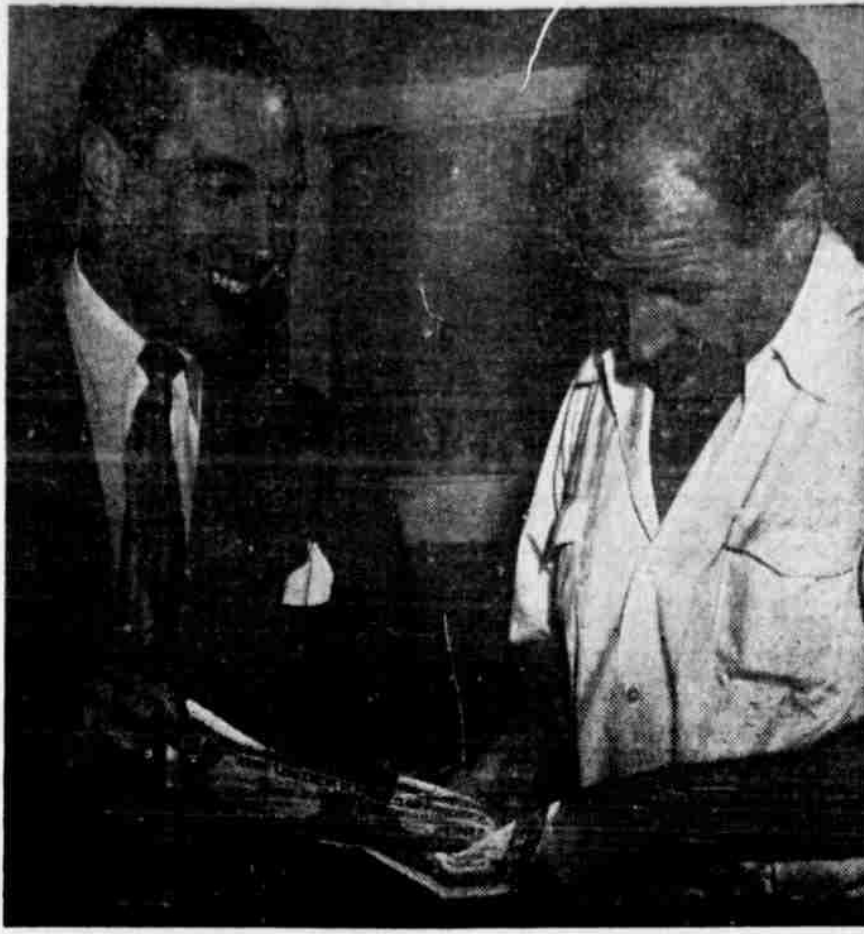

After the program a short business session was held. After the business the collect was repeated and the club adjourned.

Refreshments were served to Mesdames Doyle Watkins, Ernest Minyard, Raymond Bowman, Glenn Gatewood, Dewey Haragan, Charles Harris, W.B. Jones, Jr., Guthrie Allen, F.M. Smith, Bill Lance, Rodney Nichols, and Misses Dorothy and Floella Jones, and one guest Mrs. Harold Close.

The next meeting will be held February 22 in Mrs. Bill Lance's home.

### BUY BUILDING

Curry Furniture has bought the funeral home building and is going to stock it with furniture, and is not going to leave Sudan as formerly stated.

**FELLER FOOLING HERE—REALLY DOESN'T LIKE PAY CUT . . .** All the amiability showing on the face of "Rapid Robert" Feller, Cleveland Indian hurler, is just for the cameraman and the occasion. This conference over pay came to naught after two hours. Here, Feller and Cleveland proxy Bill Veeck are holding the ends of a bogus dollar bill. Feller was reported to have been asked to take a cut in his estimated take of \$82,000 last year.

## REDDY IS GROWING TOO... HE'S ADVANCING TO "Staggered Billing"

"Folks, I sure am running hard to keep up with electric use here. There are lots more meters to read...lots more statements to prepare."

"I've always been proud I could get them all out on the first of the month, but with so many statements to complete, I am going to have to start mailing them all through the month."

"Beginning in February, the City of Littlefield will be divided into two districts. To get my plan started in February, some of you will get statements covering more or less than a month's use of electricity. There-

fore, some of the amounts on your statements will be more or less than the average amount you have been paying per month.

"You will still have the same length of time to pay your statement. The difference will be in the day of the month it is due! For instance, statements will be due on or before ten days after mailing.

"All of our employees are anxious to have you understand our new billing method. When you receive your statement if there are any questions about it, please call our office."
