Looking at prospects for the rest of the year, fed cattle pri-ces are expected to improve somewhat due to a seasonal decline in fed beef production. Hog prices may be somewhat lower during the fall and early winter of 1963 than for the same period last year. This will be true if the March-May farrowings were the expected four percent higher than a year ear-lier.

Farm milk sales for 1963 are expected to be only one percent higher than last year and the national average support price, effective April 1, 1963 will be three cents more per hundred, says McHaney.

a Corvair. You'll find yourself doing that occasionally, if only to adjust the brakes-they're self-adjusting. That's all there is to it, and that's a good example of how delightfully easy Corvair is to own, drive and maintain.

But since we began by talking about driving, let's stick with that awhile. A large factor in the fun of driving a Corvair is the location of its

engine in the rear. Why the rear? It gives Corvair extra traction on any road surface. It provides a nearly flat floor for more use-And you can usually back it up-as easily as you can back up able interior space. Best of all, it produces steering so light, so

responsive, you wonder why no other Americanmade car thought of it.

Corvair's engine is also air cooled, we might add, which means there's no antifreeze or water for you to add. Ever.

All that pleasure from something so practical almost makes you think Corvair is unique among American cars. Which isn't surprising, because

Their son, Wallace, was killed while working on a tractor. Dr. Rochelle was called to the scene of the accident, but Wallace did not purvive. Mr. Dysart died in 1943.

Mr. and Mrs. Eli Young, who lived in New London and working in the oil fields, bought a labor 10 miles north and 2 miles east of Littlefield in 1924. Mrs. Young's brother, C. L. Rogers, lived on and maintained the farm for 19 years. The Youngs moved to the farm in 1944, and Eli put down the first irrigation well in Rocky Ford

ommunity in 1936. Mr. and Mrs. Clarence Thompson lived 10 miles north and west of Littlefield on Mart Parmer's farm. There was no church closer than Amherst, so they planned an Easter egg hunt in March, 1925, and at the same time planned to organize a Sunday School and

church to meet at their home. They had about 75 people to ome to the meeting, including wo preachers from Amherst, Bro. Bob Dickson, Bro. Mc-Sparden, and Bro. Pretty, pas-tor of the Amherst Baptist, helped with the organization.

Bro. Basmon, a Church of Christ minister, also preached tew Sundays. After the first year, the congregation outgrew the Thompson's house, so they built a lumber tabernacle with a dirt floor.

After the first 18 monts, they built a floor and in another year or two they sealed the inside walls. Mr. and Mrs. Charlie Calvert gave one acre or this tabernacle to be built

Mr. and Mrs. L. L. Dunn lead the singing, taught Sunday School classes and filled in where needed. The Dunns had a Model T truck, and it was called "The Jesus Wagon" because they went about the community picking up people to

In 1938, the new Rocky Ford church was built and the tabernacle ceased to be used. A large number gave to the fund for moving the new location on Hwy. 51, which is now 385. The contributions amounted to total of \$163,30, ranging from 25 cents to \$5 each.

Mrs. Barnes and family gave one acre where the church now stands, and R. O. Edwards and family gave one acre where the parsonage is built. After 2 or 3 years, a mass meeting was held and the tabernacle was given to Rocky Ford Baptist Church, and later it was used is the parsonage.

Bro. J. Scott has been pas-tor three different times and has returned 8 times for revivals. He was 87 years old on May 11, 1963, and came back to preach 2 sermons for the annual homecoming of the church on June 16. His first revival was held in 1931.
