

Children Must Walk School Buses

to the tire, gasoline, and shortage of the Office of Transportation and the Department of Education making it mandatory that bus lines be established, all children living off of trunk lines be required to walk to the bus at some designated point on this line.

Keeping with this request Lamb County School Board at its meeting on August 13, voted that all children of Lamb County living one half mile or less from the established bus route must walk to and from the established bus route in extreme weather when children might suffer undue hardship.

Law must be enforced at the local school officials' choice in the matter.

C. O. STONE NAMED CHAIRMAN OF THIRD WAR LOAN DRIVE

FARMERS MUST FILE ESTIMATED INCOME RETURN BY DECEMBER 15

Also Will Have To Pay Victory Tax On 1943 Income

Practically All Farmers
Of Lamb County Will
Have Income Tax To Pay

Any person who receives 80 per cent or more of his total income in 1943 from the farm is considered a farmer from the standpoint of payment of income taxes, according to V. F. Jones, County Agent.

In the new pay-as-you-go tax plan a farmer must file an estimated return not later than December 15, 1943, and at that time pay the balance due on his 1943 income tax. The amount of money already paid in 1943 on the 1942 tax will be applied as credit on the 1943 tax. Not later than March 15, 1944, the farmer must file a final tax return for 1943 and any difference from his estimated return filed on December 15 will be adjusted at that time. If the estimated tax filed on December 15 is underestimated more than one-third a penalty of 6 per cent on the difference must be paid.

The 1942 income tax is considered to be the smaller of the 1942 or 1943 tax, whichever is smaller. If the 1942 tax was \$50, or less, it is all forgiven. If it was more than \$50, 25 per cent of the total amount is the 1942 tax and may be paid in two payments, March 15, 1944, and March 15, 1945.

In addition to the income tax the farmer must pay a 5 per cent Victory tax on his net farm income for 1943. For a married couple the deduction will be \$1248, for a single person \$624. There is no deduction allowed on dependents, except as a post war credit.

Practically all the farmers of Lamb County will have some income tax problem this year. Remember, we do not have a new revenue bill, the new law is merely a collection device changing the time and method of tax payments. If we can be of any assistance to you at the county Extension Service office, call on us.

ELECTION OPPONENTS

JOHN CURTIN A. W. FADDEN

In the forthcoming Australian general elections Prime Minister Curtin's conduct of the war will be the main issue. His policies have been criticized by Arthur William Fadden, leader of the Opposition. Mr. Curtin, 57 years old, has been respected by all Australians for his blunt integrity. His habitually austere way of life and thinking have done more than his spoken or written word to spread the gospel of wartime austerity among the Australian people. Mr. Fadden is a good mixer and an expert in the rough and vigorous politics of the Australian Parliament. He claims to bring a hard-headed business man's outlook to the problems of war organization.

When Axis Bombed Churches Of Allies, Rome Did Not Protest

The destruction of churches and monumental buildings by the Nazis and Italian Fascists has run into tremendous figures. The Office of War Information, the last week in July, 1943, put out statistics showing that in Great Britain alone more than 13,800 churches, monasteries and other religious buildings have been damaged or destroyed by Axis Bombs. On the list are 4,100 churches and of these 22 were designed by the noted Sir Christopher Wren.

Among the famous London Churches destroyed or damaged by the Axis were Westminster Abbey, St. Paul's Cathedral, St. Clement Danes, St. Giles, Austin Friars, St. Margaret's and St. Martin's-in-the-Fields. This last named was copied with modernized construction, by all Soul's Unitarian Church, Sixteenth and Harvard Streets, N.W., Washington, D. C., when its members erected their present edifice.

The Cathedrals of Canterbury and Liverpool were damaged, while Coventry, considered by many experts to have been one of the most exquisite of early Gothic churches, was demolished save for part of its walls near the chancel that were left standing.

In Scotland no less than 121 churches have been hit by Nazi bombs and seven of these were destroyed.

From Holland comes word that five large churches in Rotterdam were destroyed by attacks from the air, and churches were bombed in Delzigt, Rhenen and Vlissingen.

In Norway, the Nazis made air attacks on all the churches in Kritiansand, Steinkjaer, Molde, Namsus and Bodoe.

More than 1,000 churches have been bombed in Poland with nearly every church in Warsaw either damaged or completely destroyed.

The Greeks have charged that the Italians destroyed the historic Church of St. Sophia of the Greek Orthodox Church. This church is said to be the oldest in Christendom.

Belgium has likewise had its full share of destruction by the Nazis. Churches in the vicinity of Liege, Kassel and Antwerp were destroyed by bombing. The Cathedral of Tournai was reported ruined by fire.

In Manila, the Japanese have destroyed or damaged historic Catholic churches.

Since the railroad yards in Rome were bombed by American planes using precision daylight bombing, a big outcry has gone up from Axis countries and from some parties in the United States. But there are many persons in the United Nations countries who are asking, why didn't the Pope voice a protest when the Axis was wrecking the many churches listed above? Now that bombing has reached the city of Rome, he seems to have the same selfishness that is inborn in all human nature.

According to the newspapers, there is an endeavor to build up a sentiment for the United States to rebuild the

In America The People Smile

A college professor asked Alexander Kerensky, the Russian, the following question: "What is the thing in America which impressed you most when you first came here?"

"That is easy," was Kerensky's answer. "In America the People smile."

Americans smile because they are free. There are no Gestapos to fear; no firing squad to shoot them down if they want to listen to their radios. They can worship God according to the dictates of their conscience. They can put into office the men they want to govern them.

Americans smile because in America human personality is supreme. The aim of democracy is to help the individual to grow and to give him an opportunity to attain happiness and success.

Americans smile because they have hope. The future is agleam with promise. They can have their families, gather their dens, their homes, their dreams—and they can make many of those dreams come true.

Totalitarian countries have governments that are "of the state, by the state and for the state." That's why life is hard and cruel.

In America we have a government that is "of the people, by the people and for the people." That's why we smile.

Today we are fighting to keep America a land of smiling people.

They Run Up Grinning

In Sicily an American soldier watching a column of smiling, sheepish-looking Italian infantrymen coming up for surrender turned to a correspondent: "When they killed a lot of my buddies in Tunisia they seemed to enjoy it, and now when they're licked they run up grinning and want to be treated like friends."

If Italy's recent ruler is trying to gauge the American temper he might find some index to it in this soldier's passing remark. It expresses it perfectly.

Americans recalling their friendly associations with the large Italian-American population in the United States may be tempted to say "They didn't mean it." We agree that Italians in this country didn't. But Mussolini's arrogant hordes did. They meant it in Ethiopia. They meant it when they stabbed France in the back. And they meant it in Tunisia.

The Italian people and their timorous little King need not fear a vengeful peace from Britain and the United States. It will be a "soldier's peace" if that is what they want, but the soldier's peace of unconditional surrender. We cannot temporize with the men who brought on this world agony. The issue was made clear at Casablanca.

Women now control 75 per cent of the nation's spending. Uncle Sam, of course, gets the other 25 per cent.

Answers to Questions About Your Electric Service

"Is It Rationed?"

NO! Because the Business Management of your Electric Company planned adequate capacity to serve you years in advance of need!

TODAY, as YESTERDAY, there is plenty of electricity here to serve your known needs... in home, store and industry.

TOMORROW every effort will be made to meet essential needs of all. But, remember, please... electricity is vitally necessary to our war production. It is the "life-blood" of industry. As such, your use of electricity should be prudent. Don't waste it... just because it is not rationed.

"Has the Quality Changed?"

NO! Day or night... whenever you have need for the many services of Electricity... this service is always "standing by"... ready to help in any task. When you press a switch or plug in time and labor-saving electric appliances you have the assurance of instant service... right at your finger tips! So dependable is your electric service one never questions its ready response. That is taken for granted.

"Has the Price Gone Up?"

NO! Your cost for a kilowatt hour of electricity is the lowest in history! Your 1943 dollar buys almost twice as much electricity as that of your 1920 dollar.

To appreciate this lower cost, think of the many added uses you now make of electricity in your home. In 1920 it was a light bill. Today the bill covers many more electric services... at only a slightly higher cost for all!

Costs of producing and distributing electricity have steadily increased, but sound Business Management makes it possible to still give you more electricity at less cost to you!

"Dear Mother and Dad,
"Just a few lines to let you know that I am O.K. I hope all of you are O.K. I just received a letter from you last night. The letter was dated July 1. In your letter you said it had been a long time since you had heard from me. I get three letters from you every seven days. I am happy to get that many. It is raining over here now. I will be glad when it stops raining because us boys can't work like we could if it was not raining.

"How is the cotton and feed? Fine I hope.
"Mother, don't worry about me. I will be O. K. I hope I will be with you all some glad day. I hope you all will know me by my hair being white. Tell Robert I am doing all I can to get this over so I can come home to help farm. How is Robert making it in the Army now? Is he at the same place?
"Mother, you asked he what I was doing. Well, Mother, we soldiers do not talk over here. Mother, please send me the Lamb County Leader paper, also a fountain pen.

"Lots of Love,
"Your Son in Service),

HONORS AWARDED SPRING LAKE F. F. A. MEMBERS

By J. L. HICKS
Voc. Agr. Teacher

Some of the honors received by Spring Lake F.F.A. members during the summer months are very outstanding.

Carroll Jones, who has been an outstanding F.F.A. member and high school student for four years, received one of the 10 Sears Roebuck Scholarships to Freshmen for Tech College in the School of Agriculture.

Carroll received his State Farmers Degree during the summer of 1942, and due to his outstanding project program he will make application for an American Farmers Degree next Spring. Carroll was the first boy to receive State Farmer Degree from the Spring Lake Chapter, and has certainly set a good example for other boys. His outstanding project is a fine dairy cow that has been Grand Champion at the Lamb County F.F.A., and 4-H Show for three years. She also placed first and second at the Plainview

show, and her calf placed second in its class.

Other projects include registered Chester White hogs, Duroc Hogs, Beef Calves, Cotton and Grain Sorghums.

Two other boys who certainly deserve outstanding credit are Thomas Alair and Oscar Rudd, both of whom received their State Farmer Degree this year, and have an outstanding project program.

At the time application was made Thomas showed a net worth of \$925 and Oscar \$1,425. These boys are Seniors in high school for next year, and can certainly say that they have something to show for their efforts. Both of these boys started their project work with very small investment, but have made much of the opportunities that have come their way.

Some of Thomas' projects are: lambs, ewes, registered Duroc Jersey Hogs, Dual Purpose Cows and Calves, Beef Cattle, Turkeys, Chickens, Cotton and Grain Sorghums.

Thomas won first, second and third with his fat lambs at the County Show last Spring. He also won first with his dual purpose heifer.

To add to his project program Thomas won the registered gilt given by Sears Roebuck this year.

Oscar's projects include: wheat, cotton, grain sorghum, Dairy Cows and Calves, Hogs and soy beans.

Other boys are planning to make application for Chapter and State Farmer Degrees this year. The above are just samples of what the Spring Lake F.F.A. boys are doing for themselves and, for the war effort.

State Vs. Dr. And Mrs. Newton On Docket For Monday

In the opinion of local law enforcement officers, the case of State vs. Dr. and Mrs. W. R. Newton of Cameron, Texas, which is set for trial Monday, August 23, will be tried at that time.

Sheriff Sam Hutson reports that Judge C. D. Russell has given him instructions to summon the members of the Jury for Monday next, and that case is the only criminal case on the docket. The prosecuting attorneys are reported to be ready and anxious to try this case.

German Prisoners Range In Ages From 13 To 18 Years

It was interesting Wednesday for the Leader to learn from a reliable source that there are about 1000 German prisoners in an internment camp at Brownwood, Texas, and that these prisoners range in age from 13 to 18 years old.

The report as given to the Leader was to the effect that these boys' moral is high; that they still think the Germans will win the war; that the Germans over there believe the big cities of the United States are all badly bombed; that the enemy has control of the oceans, and the prisoners were afraid all the way over here of getting sunk by the Germans. These German soldiers are given to believe everything but the truth.

At the internment camp where they were assigned beds, they went about feeling the beds, and marveling at them. Not having seen or slept in one for so long, they had to make sure the beds were real.

Doggett Grain Co. Build Addition To Elevator Building

The Doggett Grain Company are adding a new addition to their elevator, which will provide additional space to take care of about 10,000 or 12,000 more bushels of grain.

Work got underway Monday, and will be completed in about 30 days. The improvement will represent an investment of several thousand dollars.

Earl Hobbs And D. G. Hobbs, Jr., Buy Smallwood-Simon Gin

Earl Hobbs announced Wednesday his resignation as manager of the Littlefield Farmers Cooperative Gin, to take effect September 1, and the purchase by him and his brother, D. G. Hobbs, Jr., of Pharr, Texas, of the Smallwood-Simon Gin at Monroe, Texas, 10 miles north of Lubbock. They will take possession of this gin September 1.

Mr. and Mrs. Hobbs will move to Lubbock about September 1, where they will make their home for the present, at least, Mr. Hobbs said.

NEW WARTIME SERVICE

for Livestock and Poultry Owners

OUR GOVERNMENT is calling for the greatest food production in history. Farmers of this community are answering the call with long hours, hard work, real sacrifice and true patriotism.

But these are not enough. There are serious leaks to be plugged, and real problems to be overcome before we can possibly reach the tremendous food goals necessary for VICTORY.

Feed is scarce—protein feeds in particular. We are doing everything in our power to supply our customers. But there is not enough to go around. We must therefore stretch our limited supplies to produce the most meat, milk and eggs.

To do this, we must not waste precious feed on unthrifty livestock or poultry. We must cull unprofitable producers. We must stamp out disease and parasites as saboteurs of production. We must do a better job with what we have.

We know from our many farm contacts that most of such losses can be prevented. We are convinced that our food goals can be reached without additional feed, labor or expense—

perhaps even with less—simply by plugging unnecessary leaks and stopping easily-preventable losses.

Accordingly, as our part in the "Food for Victory" effort, we have volunteered our services to the feeders of this community to help stamp out Production Saboteurs and Feed Wasters.

At any time of day or night we will call at your farm to assist in such feed-saving practices as culling chickens, worming pigs, disinfecting against disease and parasites, checking feeder and watering space, etc. We will also help you with a war-time check-up of your feeding operations, based on a series of practical production guides suggested and recommended by both national and state agricultural authorities.

We offer this service to all feeders of this community whether they are our customers or not—and to the full limit of our time, tires and gasoline. Our assistance will not obligate you in any way. Our only recompense will be the inner assurance that we are sharing with you and other patriotic Americans the important task of winning the War!

Revival Starts Amherst Baptist Today, August 22

Revival meeting will start at First Baptist Church, Amherst, today, August 22, and run through September 5.

Services will be held twice daily, morning services at 10 o'clock, and evening services at 8:45 o'clock.

Chas. R. Smith, pastor of Amherst Baptist Church of Galveston, Texas, will do the preaching. He is recognized as a very able preacher, and is one of the outstanding evangelists of the State. He preaches the Bible in plain, simple, and does not come with sin in no form. If you hear this man you will have a blessing.

Rev. J. West, who is now Education Director of Pierce Street Baptist Church of Amarillo, will be in charge of the song services. West is among the very best of the men not only love the Lord but love lost souls in these days, when our world is all around and troubled, because of sin and stress. Surely we would want our best to our Lord.

Extend to each and everyone a cordial invitation to attend all services.

Letter to
a
P.O.W.

WILL YOU WRITE A LETTER to a Prisoner of War . . . tonight?

Maybe he's one of Jimmie Doolittle's boys. Perhaps he was left behind when Bataan fell. Anyway, he's an American, and he hasn't had a letter in a long, long time.

And when you sit down to write, tell him why you didn't buy your share of War Bonds last pay day.

"Dear Joe," you might say, "the old suit was getting kind of threadbare, so I . . ."

No, cross it out. Joe might not understand about the suit, especially if he's shivering in a damp Japanese cell.

Let's try again. "Dear Joe, I've been working pretty hard and haven't had a vacation in over a year, so . . ."

Better cross that out, too. They don't ever get vacations where Joe's staying.

Well, what are you waiting for? Go ahead, write the letter to Joe. Try to write it, anyhow.

But mister, if somehow you find you can't finish that letter, will you, at least, do this for Joe? Will you up the amount of money you're putting into War Bonds and keep buying your share from here on in?

THIRD WAR LOAN DRIVE STARTS SEPTEMBER 9th

The Goal For The Nation Is \$15,000,000,000

President Roosevelt recently proclaimed September 9 as the starting day of the Third War Loan Campaign and asked every American to "back the attack" with war bond purchases according to "his conscience."

Treasury Secretary Morgenthau has set a goal of \$15,000,000,000 for the drive.

President Roosevelt asserted that in carrying the war into enemy territory, we shall need greater amounts of money than any nation has ever asked from its citizens in all history.

"It is my earnest hope that every American will

realize that in buying war bonds in this Third War Loan he has an opportunity to express voluntarily and under the guidance of his conscience the extent to which he will 'back the attack,'" said President Roosevelt.

This does not mean the August bond purchases are to be neglected in order to participate in the September drive, but rather it means that the special drive is to sell bonds over and above the regular monthly purchases.

The Lamb County quota for August is \$59,400; and it is estimated that this county's quota in the big drive will be between \$700,000 and \$750,000.

COTTON ACREAGE IN BAILEY COUNTY SHORT OF NORMAL

Cotton acreage in Bailey County is from 55 to 60 per cent short of normal, it has been announced by the County Agent's office.

County Agent J. M. Hancock said that lack of moisture at planting time had caused hundreds of acres to be planted to other crops or to be left idle altogether. "In the south part of the county there are hundreds of acres which would have been planted to cotton had there been sufficient moisture," Hancock said. He estimated that there were little more than 30,000 acres in cotton in Bailey county. The crop, both cotton and feed, will begin to suffer in a few days if rain does not come.

DAMAGING CROPS

The heat wave, which was abated considerably Tuesday morning, has been doing considerable damage to crops in the Morton area, and many cattle have been suffering from lack of water due to farmers having to haul water for their herds.

Mrs. Dee Chapman is still wondering what happened to her parasol.

On the hot day that it was Friday afternoon, Mrs. Chapman left the parasol on the sidewalk while she stepped into a business establishment on Phelps Ave. for a minute. When she went out of the building, much to her amazement and regret the parasol had disappeared. Of course, several things could have happened to this very useful equipment, but Mrs. Chapman is hoping that a whiff of wind blew it around the corner, and that someone found it, who will return it to her. She says the parasol was an old-fashioned frame covered by her with black print; that it was not fancy, but very useful, and she would appreciate it if anyone found it, if they will return it to her.

B. Edwards, son of Mr. and Mrs. Dick Edwards, who is in a Paratrooper Division of the Infantry, has been stationed at Camp Mackall, N. C., for advanced training.

Edwards writes his parents that he is fond of his work, and that the war he is still going to Paratrooper.

Paratrooper Edwards also wrote

the Leader sending change of address, stating "I enjoy the paper very much, and also like the Paratroopers very much."

Mrs. D. H. Allen, Jr., received word from her husband, D. H. Allen, Jr., CM 3-C, last week saying that he was getting along fine. D. H. Allen, Petty Officer third class, is in the Seabees and has been since August 8, 1942. He is stationed somewhere in the Aleutians.

Mrs. Allen is making her home with her parents, Mr. and Mrs. E. F. Durham, while he is away in Service.

Pfc. Eugene Rader, of Quartermaster Corps, who has been stationed at Hill Field, Ogden, Utah, has been transferred to Enid, Okla., according to a communication from Pfc. Rader changing address for his Leader.

Boice M. Anderson, T-5, son of C. P. Anderson of Littlefield, was graduated last week from the Fort Crook Ordnance Automotive School, Fort Crook, Nebraska. The courses covered all phases of automotive repair and maintenance for all types of army vehicles.

Cpl. Mike Brewer, photographer in the Air Corps, who has been in the service about a year, is now "Somewhere in England." In a letter dated Aug. 3, and received by Mrs. Brewer Saturday, Aug. 14, he said, in part, as follows:

"You are probably just eating lunch and I have already had my evening meal and will soon be going to bed. That gives you an idea of the difference in time; about 7 hours between here and home.

"Honey, we came across on one of the big luxury liners of peacetime travel. Really a swell ship. Still had the same finish of its original days except for the tiers of bunks for soldiers. Am sending you my stateroom ticket and a copy of the ship newspaper for our scrap book. We had to play swap out over the rooms. Nine men would use it for 24 hours then move out and go up on deck and let 9 more men rest for 24 hours. So you see we were rather crowded.

"When we debarked and loaded on the train we were right by a civilian train. A little girl on the other train gave me an English penny and told me to use it for a good luck piece. Very nice I thought.

"Our base is O.K. Located in pasture land with trees and hedges all around us. I like it very much. We don't have the conveniences we had in Camps at home but so much better than lots of fellows, so why complain?"

"We will get paid in English money. Can't spend our money over here. They have a rather peculiar system but not too hard to learn. Don't need much money here as there is nothing to buy and what you can buy is so rationed that we can't buy it. We even have to have ration cards to buy what we need at the PX, but that is O.K., too.

"Honey, it doesn't get dark here until about 11 p. m. Seems funny to go to bed and still lots of light outside. It is also very cool here. Cloudy most of the time.

"I enjoyed every minute of the trip across the ocean.

"CPL. MIKE E. BREWER."

Chester Tony, son of Mr. and Mrs. C. E. Toney of 7 1/2 miles northwest of town, who has been in the Navy, and stationed at San Diego for the past five months, is training to be a Gunner's Mate, and expects to complete his course in about six weeks, when he is hoping to get home on leave.

Pvt. Lonnie Waters, 18, son of Mr. and Mrs. B. W. Waters of Whitharral, in service eight months, Radio Technician with the Signal Corps, has been transferred from Salt Lake City to Los Angeles, Cal.

Burl Jones, Seaman First Class, a brother of Mrs. Sid Yarbrough of this city, who has been in the Service about 1 1/2 years, is a radio operator on a large Aircraft carrier, and is in foreign service somewhere in the South Pacific. He was formerly of Littlefield.

Another brother of Mrs. Yarbrough, Lieut. Bernice Jones, who taught school at Roby previous to entering the Service, is in the Army Air Corps, stationed at Victoria, Texas. He has been in the Service eight months.

Miss Jeraldine Robinson Saturday received a letter from her brother, Jimmie Zed Robinson, Bugler Second Class, of the U. S. Navy, dated

July 28, from "Somewhere in North Africa," excerpts from which are as follows:

"I got your letter today, and I sure was glad to get it. I had a letter from Granville also. It was written before his ship went down. (he referred to Granville Smith, but information has been received to the effect that Granville Smith is alright.)

"Garry, you should see the show I'm in. We have been touring the country. It's really a swell show, too. I'm in a Hillbilly band. We call ourselves the "Smokey Mountain Ridge Runners. I play a washboard like I used to do at home. I am sending you a picture of our band, but I just want you to keep it for me. Don't I look handsome?"

Jimmie Zed has been in the Service since May of last year. He is the son of Zed Robinson of Enochs; and brother of Mrs. O. K. Yantis, Jr., and Miss Jeraldine Robinson.

He was wounded in action in March, and was confined to a navy hospital for sometime.

Pvt. Maynard T. McKinney, Jr., better known as "Tommy," and son of Mr. and Mrs. M. T. McKinney of 2 1/2 miles northwest of Littlefield, is stationed at Bryan, Texas, with the Air Corps as an M.P. He was inducted as a volunteer October 20, 1942, at Fort Sill, Okla. He was sent back to the Lubbock Army Flying School staying there until February 5, when he was shipped to Bryan. Several local boys are there, he reports, and is it hot! In his last letter he was saying he would be home in a few days.

Sgt. Ray E. Swanner, son of Mr. and Mrs. W. H. Swanner, formerly of this city, but now of Houston, is stationed at Robins Field, near Macon, Ga., with the Quartermaster Truck Co. He was inducted as a volunteer October 19, 1942, in the United States Army Air Corp at Fort Sill, Okla. He was then sent back to the Lubbock Army Flying

School and served as a motorcycle M.P. on the Post until February 2, when he was sent to San Marcos, Texas, to a Navigation School. His wife, the former Miss Betty Jo McKinnon, and little son, Jimmy Ray, joined him March 12. On July 2, he was transferred to Daniel Field to a Replacement Center at Augusta, Ga. He finished all of his combat training and said that he met up with a lot of buddies that he was inducted with but had not seen since their separation last October. Several were from Littlefield. Again on August 5 he was sent to Robins Field, 18 miles from Macon, Ga. He is going to start driving long convoys all over the Southern states as soon as he finishes his schooling. He plans for his wife and son to join him by the middle of September. Until then they are making their home with her parents, Mr. and Mrs.

M. T. McKinnon of 2 1/2 miles northwest of Littlefield.

Sgt. Swanner has never had a furlough, but is planning to get one soon, and be back to good ole Texas for a few days.

Third War Loan—
 (Continued From Page 1)

The Committee on out-of-town bond purchase held a meeting Tuesday, and made plans to start at once to interest certain large prospective concerns in contributing to Lamb County's quota. This committee is headed by J. C. Hilbun, with C. O. Stone and H. C. (Clay) Pumphrey assisting.

A meeting of the chairmen of the various committees will be held about September 1 to completely organize for the big drive.

In an interview with Mr. Stone Monday he said:
 "This is the largest War Bond Drive in the history of the world. The Nation is expecting to raise Fifteen Billion Dollars. Lamb County will be expected to loan between \$700,000 and \$750,000. My urgent desire is that everyone who is able to purchase bonds, and help in this drive in any way, get behind this Third War Loan Campaign, and put it over in the same good manner as we have always put over projects that were for the good of the country and the state."

Lamb county ran behind in war bond purchases during June and July, but inasmuch as it was above its quotas for the previous months of this year, Mr. Boone stated this week that it was still ahead of the amount assigned the county.

During July a total of \$30,316.25 was invested in War Bonds in Lamb County, which fell short \$9,093.75 of its quota of \$59,400.

August quota was announced this week at the same as July, \$59,400, but no figures are available as to how much have already been invested in war bonds in the county for August.
