UP 1.3 MILLION

Bank Deposits Top \$30 Million

Deposits In All Depositories Near \$40,000,000

Deposits in the area's seven banks, and one Federal Savings and Loan Association soared to their highest point of the year, during the quarter ending September 30, but not recorded until the bank call at the close of business on October 13. The deposits in the six county banks and the Citizen State Bank of Anton showed total deposits of \$30,414,588.18, compared to last year's third quarter deposits of \$29,028,847.2, an increase of \$1,385,740.98.

Deposits in the Littlefield Federal Savings and Loan, on the call date, swelled the total county deposits to \$39,953,117.18. Littlefield Federal's deposits showed an increase of \$2,385,164.00 over October, 1964.

The October 13 call report of each bank, along with the deposits of a year ago are:

First National, Littlefield -- \$5,499,668.87 and \$5,440,709.98.
Security State, Littlefield -- \$7,780,216.72 and \$7,400,680.26.
First National, Amherst -- \$3,483,516.54 and \$3,106,779.84.
Olton State, Olton -- \$6,141,334.73 and \$5,700,895.26.
Citizen State, Earth -- \$2,568,874.46 and \$2,146,608.95.
First National, Sudan -- \$2,725,814.86 and \$2,639,214.01.
Citizen State, Anton -- \$2,215,162.00 and \$2,593,959.02.

Six of the area's seven banks, as well as the Savings and Loan organization showed gains over the previous year.

According to many bankers across the area, the increase in deposits is a direct reflection of the bright prospects of the current crops. In addition to the outstanding crop conditions bankers report there appears to be a greater circulation of dollars, and this year's crops should produce a greater net income for the farmers of the area.

In addition to the increase in deposits, the rate of deposit turnover has shown a marked increase in the last quarter, as more dollars are being put into circulation and the retail businesses are beginning to reflect the renewed activity.

With the deposits nearing the \$40 million mark, banking institutions are looking for even greater deposits, based on the apparent increased production of cotton and grain, by the year's end. At the end of 1964 area banks showed deposits of about \$46 million.

Jones Resigns As Chairman: County Office Filings Open

Otto Jones announced his resignation as Democratic Precinct Chairman of precinct 12, a post he has held for the past thirty-nine years.

Jones, in making the announcement stated 'that I will be 74 in November and have decided to take it easier, also it is time a younger man had the job.'

'There have been a number of changes since I first took the position. At that time there were only 12 precincts in the county and precinct 12 included three boxes, the present one at the Court House, the one at the school which is now a separate precinct and another toward Pop,' continued Jones.

'Back in 1926 there were only around 900 voters in the three areas while now there are more than 1,600 in the one precinct,' Jones stated. 'I have enjoyed the work tremendously and the fact that the Democrats have won every county office during that long period and have carried the county in every national election except twice has helped in the enjoyment,' concluded Jones.

Jones has been a resident of Littlefield since 1925 and served four years as city mayor.

In regard to Jones' resignation, Glenn Batson, Democratic County Chairman announced that Billy Hall has been appointed to replace Jones.

Batson also announced that filings are now open for the Democratic primaries to be held May 7, 1966. 'We have had on person to file as of

Also on the agenda is the election and installation of officers for 1966. It is an important meeting and must be well attended if Littlefield is to hold their charter.

FARM BUREAU CONVENTION -- Randy Hutson, Littlefield High School student was one of three students that described their trip to the Texas Farm Bureau Citizenship Seminar at Huntsville during the Lamb County Farm Bureau convention held Tuesday evening. More than 200 persons attended the meeting at which new officers were elected and Rep. Billy Wayne Clayton, was the principal speaker.

HOUSE-SENATE REPORT

Cotton Program Outlined

The House-Senate conference committee report now makes possible a more complete analysis of the new cotton program.

Still, it remains for the Secretary of Agriculture to issue the regulations and interpretations necessary to clearing up the law's more nebulous terms and provisions.

Loan value and payments are essentially as have been reported. The loan in 1966 is set at 21 cents per pound basis for diverted acres up to 35 percent of effective allotment. Producers have the choice of diverting the minimum 12.5, 25 or 35 percent of allotments. After 1966 the Secretary is directed to set diversion payments at no less than 25 percent of parity on the acreage required to be diverted. He may require cooperators to divert less, but no more, than 12.5 percent of their allotments after 1966.

Diversion payments on the difference between the mandatory diverted acreage and 35 percent of allotments apparently may be set by the Secretary anywhere between zero and 40 percent of parity after 1966.

One half of these payments may be made at the time the producer signs up to participate in the program. The other half will be made at the Secretary's discretion. This is one of the points awaiting the Secretary's decision before the total effects can be calculated.

The method of determining 'projected yield' is also a point in question. The Conference report says: 'Projected farm yield for any crop of cotton shall be determined on the basis of the yield per harvested acre on the farm during each of the three calendar years immediately preceding the year in which such projected farm yield is determined, adjusted for abnormal weather conditions, for trends in yields, and for any significant changes in production practices.'

This makes clear that projected yield for 1966 cannot be below normal yield as already established for a farm. But it is not plainly spelled out whether the normal yield might be re-figured in 1967, 1968, or 1969.

For example of how the three permissible alternatives would affect gross income on a High Plains farm, assume the following:

1. 100 acre effective allotment
2. 500 lbs. per acre projected farm yield
3. 500 lbs. per acre actual yield

The Secretary of Agriculture will set the amount of this payment for each of the succeeding three years, but the combined loan value plus the price support payment must provide the farmer with at least 65 percent of parity on 87.5 percent of effective allotment. Parity is now 41.76 cents per pound.

Also scheduled for trial are the three suspects in the theft at the Pioneer Super Market here last spring. The suspects which will come to trial separately are Amos Sims, Herbert Carr and Cecil Davis. Others charged with theft are James Sears, two counts; Otho Long, and Del Severe and Frank Havens who will go on trial together.

The burglary cases are Blas Trevino and two defendants charged together Edwardo Padilla and Amalio Coronado, while Charles Ward is charged with fraud.

The cases will be heard by District Court Judge Pat Boone, with District Attorney Jack Young trying the cases for the state.

Football Contest Winner Misses 5

Fred Martinez, Box 214 Littlefield won the weekly football contest by a wide margin as he only missed five games while his next closest competitor missed seven games, as he won the first place prize of \$7.50.

The winner missed the Arkansas-Texas game where he had picked a tie and then missed the Lockney victory over Olton, the Tennessee-Alabama tie, the Buffalo victory over Kansas City and the Wyoming victory over Texas Western.

Arthur Duggan, Box 747, Littlefield and Walter Crabb, 1307 W. 12th tied for second place as they each missed seven games and missed the tie breaker by a total of 15 points.

Four other entrants also missed seven games with Brad Fields losing out by one point as he missed the tie breaker by 16 points. Lamar Kelly, Amherst missed the tie breaker by 18 points and Mark Fields missed by 20 with James Walker also missing seven games and being 23 points off on the score of the tie breaker.

Duggan and Crabb will split the second and third place prize money with each receiving \$3.75.

In addition to the Tennessee-Alabama tie which was missed by everyone of the more than 90 contestants several other games caused many misses.

The Brown field victory over Sweetwater and the Kress win over Farwell were missed by a majority of the entrants. Many also missed the Lockney win over Olton, and the Lamesa win over Snyder.

Among the college games the two causing the most misses were the Arkansas victory over Texas and Wyoming's win over previously unbeaten Texas Western.

The pros again were the downfall of many as the Denver victory over Houston, the Chicago Bears win over Minnesota and Buffalo's victory over Kansas City were the three missed most often.

This week's contest includes some tough games including the Levelland - Snyder and Springlake at Kress, high school games, the SMU-Tech and the Notre Dame with USC among the college games and of course the pro games.

Entries must be received by 5 p.m. tomorrow evening or postmarked prior to that time to be eligible for this week's contest. If a contestant desires to pick a tie it can be done by writing the word TIE following the game.

Spirited Wildcats Seek Second Win In Sweetwater

Spirited Littlefield Wildcat football players encouraged by their 3AAA coaches, are headed to Sweetwater for Friday night in quest of their second win of the season, and the scalp of another district opponent, the Sweetwater Mustangs, defending 3AAA champs.

Against the Chiefs of Lakeview, last week, the maroon and white charges of coach John Howle unloaded by ringing up 28 points and allowing none. Sweetwater could prove to be more of a test, however from the demonstration given last week the 'Cats appear to have the offense they have been looking for all season.

The Mustangs will be out to keep their district hopes alive and will be playing before a homecoming crowd, a fact that always makes it rough on the visitors. The practice sessions this week than previous when they have they have thrown only when they had to.

One reason for the expected change can be credited to the performances of Kevin Hutson, a six foot receiver who leads all Wildcat receivers with 12 catches for 156 yards and one touchdown.

With the air game showing weekly improvement the ground attack serves to be a method of keeping the defense honest so far this season the 'Cats have picked up 710 yards in five games for a 142 yard per game average.

The battle for the rushing leadership on the team is beginning to turn into a scramble with Steve Lewis having carried 46 times for 223 yards and a 4.8 per carry average, Larry Schovajsa has toted the ball 35 times and has gathered in 175 yards and a 5 yard average, while running back Jimmy Burk has picked up a 3.7 average with 209 yards in 56 tries. Big fullback, Charlie mostly when short yardage was needed and has picked up 82 yards for 3.3 per carry. Behind the leaders are Richard Wright, Fred Kooztz, and Billy Henderson all with seven yards each, which they got when they were called on to spell the starter. In the receiving department, Hutson is trailed by Bussey with six receptions for 65 yards; Jimmy Burk, six for 93, Wilmar Williams two for 18 yards; Tim Tapley two for 13 yards and Larry Schovajsa with two catches for 10 yards.

A chartered bus to the Wildcat-Sweetwater football game Friday evening will leave from the High School at 2:30 p.m. Friday afternoon.

Tickets for the trip at a cost of \$6.40 which includes transportation and ticket to the game can be purchased at the Dairy Mart, City Barber Shop and the Mangum-Hilbun Agency. Tickets must be reserved by 2 p.m. today.

In the stat department, the 'Cats show well with the combination of passing and running having gathered in over 1000 yared total offense in the first five games of the season, for a commendable 200 yard total off use average.

The strongest point of the Wildcats, however remains to be the defense led by Hutson, Kevin and Randy, Al Mann, Kevin and Randy, Al Mann, Royce Bussey, Ralph Danhefeld, Richard Pryor, Carl Odum and defensive backs Tapley and Burk.

On the offensive line the blocking of Mack Mangum, Wilmer Williams, Ed Blessing, and Dale Thompson has been improving all year, and now that district play is here, you can expect even more outstanding performances from the unsung linemen. The spirit of the 'Cats is reaching fever pitch as they approach their second district victory over Sweetwater Friday night.

Returns From California

Mrs. Gladys Joplin, 1321 Park Ave., returned Friday from Hawaii. She was among 51 persons from 13 states who made a 12-day tour of Methodist mission centers in Hawaii. The Methodist Mission Tour--Hawaiian Style--is one of several mission tours sponsored annually by the Methodist Board of Missions.

Though the group saw many of the usual tourist attractions, their main purpose was to see the Methodist Church at work in the 50th state. They visited the various types of Methodist congregations, urban, suburban

and rural, to see the varieties of ways in which Methodist seek to minister to the growing multi-racial, multi-cultural population.

Most of the time was spent on the island of Oahu, the most populous of the islands and the site of Honolulu, however, the group also visited the islands of Maui, Hawaii and Kauai. They had buffet suppers in some of the churches and worshipped Sunday, Oct. 3, at the Lahaina Methodist Church and Oct. 10 at the historic Harris Memorial Methodist Church in downtown Honolulu.

The group also visited student centers in Honolulu and the new Methodist Home for senior citizens at Pohai, Nani.

Mrs. C.C. Coffee, Lubbock, a co-director of the tour said the principal purpose of the tour was to familiarize the tour members with Methodist work through first-hand observation, in the hope that when they return, they will interpret and promote missions in Methodist churches at every opportunity.

Mrs. Herman G. Netzela of Los Angeles was co-director with Mrs. Coffee. The tour was organized and promoted by the Methodist Board of Missions with headquarter offices in New York City.

One of the highlights of the trip for Mrs. Joplin was having the opportunity to visit with her daughter and family, Dr. and Mrs. Howard R. Taylor and three children, of Amarillo who stopped in Hawaii several days on their way to Australia where they will spend six months. Dr. Taylor is a research scientist at the Southwestern Great Plains Research Center, Bushland, and has been awarded an Andre Mayer Research Fellowship from the Food and Agriculture Organization of the United Nations, the first to be awarded to an American citizen. He will conduct research at the University of Adelaide Waite Agriculture Research Institute.

LET'S BAKE A CAKE

Mrs. Jim Holt Shares Favorite Cake Recipe

Cake is a popular treat for the boys of Mr. and Mrs. Jim Holt, and we are happy to share Mrs. Holt's recipe with the readers this week. Wanda Holt and her boys live about four miles west of Littlefield. The boys are Jimmy, age eight, and Lynn and Glynn, who will be born next month. Jimmy is in second grade in Mrs. Holt's room and the boys attend Williams Day Kindergarten.

HOSPITABLE HOSTESS -- Wanda Holt graciously accepted the invitation to share one of her favorite recipes with our readers. Her favorite, easy-to-make cake is Lemon Cake. Wanda is the wife of Jim Holt, manager of the PCA office here, and mother of three boys. They reside about four miles northeast of Littlefield. Mrs. Holt is president of Primary-Elementary PTA.

Wanda enjoys arranging flowers and is learning to sew. Leisure time is really pretty scarce for Wanda as she is kept busy preparing meals and keeping clothes clean for her active sons.

On pretty days the boys can usually be found in the tree house built by their father if they are not in the yard playing ball or romping with their German Police dog, Tiger. They love horses and wish they had one of their own. On days they can't go outside, they like to play chess and bingo.

The Holts are members of the

First Methodist Church, Jim is a member of the Rotary Club, Wanda is a member of the Hope WSCS Circle.

Living in the country is something new for this family, as this is the first time Jim or the boys have ever lived on a farm. Wanda lived in the country for a few years when she was a small child. They really enjoy the quiet, peaceful life where the boys have plenty of room to run and play.

Wanda's recipe follows:

LEMON CAKE
1 pkg Lemon Velvet Cake Mix
1 pkg Jello Instant Lemon Pudding Mix
4 whole eggs
1 cup water
1 teaspoon butter flavored extract (optional)
Mix eight minutes or a little longer. Bake at 350 degrees for one hour in tube pan.

Veterans Warned On Beneficiary

Thousands of veterans are neglecting to keep up to date their listing of a beneficiary for their GI insurance policy proceeds. Jack Coker, Manager of the Veterans Administration Regional Office in Waco, warned today.

Because of this the insurance proceeds may not be paid to the individual nor in the manner the veteran would wish, he pointed out.

A divorced wife or wealthy parent may take precedence over a present wife or children since the VA must pay the proceeds of the insurance policy to the beneficiary designated by the veteran himself, Coker said.

A recent sampling indicated that six out of ten veterans had failed to change beneficiaries or payment options to meet changing family conditions, the VA Manager said.

Necessary forms for these changes may be obtained from any VA office or by writing directly to the VA Insurance Office where the veteran pays his premium.

Good Breakfast Vital To Health

Tell a teen-age daughter she can't have anything to eat for 12 hours, and she'd accuse you of starving her. But this is what many young people are doing to themselves when they skip breakfast, says Louise Mason, Texas A&M University Extension foods and nutrition specialist.

Recent studies by the Department of Agriculture show that six out of every ten teen-age girls and four out of every ten teen-age boys studied have poor diets. This is because of their habit of skipping breakfast and of relying on snacks that do not contain enough vitamins, minerals and proteins.

Calorie counting girls often skip breakfast thinking they will lose weight. However, during several Iowa breakfast studies, it was demonstrated that the omission of breakfast held no

advantage in a weight reduction diet.

In fact, Miss Mason says, it is a disadvantage. Those people who omit breakfast accentuate their hunger and suffer a significant loss of efficiency in the late morning hours.

The following menu is an excellent example of a good, low calorie breakfast, says Miss Mason.

400 Calorie Breakfast Menu: 1/2 cup orange juice; 1 ounce hot or ready-to-eat cereal; 1 teaspoon sugar; 1 cup nonfat milk for cereal and beverage; 2 slices enriched white bread; 1 teaspoon butter.

For general cleaning of statury, cleaners in the Capitol use ostrich feathers. The dusters pick up dust efficiently while protecting the easily marred marble.

THE FAMILY LAWYER

To Meet Crime's Challenge

Viewers-with-alarm have always found much to criticize in our system of criminal justice. How outrageous it is when criminals escape the punishment they deserve! How monstrous it is when an innocent man is convicted by mistake!

But such criticism often skips blithely over the toughest question of all: which man is guilty, which innocent? Everyone wants to be hard on the guilty and easy on the innocent. But, of necessity, we must

start the law's wheels turning before we really know which one we are dealing with.

For example: Should we strictly limit the right of policemen to search a private home? Should we keep questionable evidence out of the courtroom?

VINCENTE HERNANDEZ Hernandez Gets AF Promotion

Vincente Hernandez, son of Mr. and Mrs. Zeferino Hernandez of 1132 College Ave., Littlefield, Tex., has been promoted to airman second class in the U.S. Air Force.

Airman Hernandez is a jet engine mechanic at Tinker AFB, Okla. He is a member of the Military Air Transport Service which provides global airlift for the nation's military forces. The airman is a graduate of Littlefield High School.

XIT Girl Scout Meeting Held

The Girl Scout House was the scene last week of an XIT Neighborhood Girl Scout meeting. Mrs. James Collins, neighborhood chairman, conducted the meeting.

A proposal was made and accepted to name the Girl Scout House the Juliet Lowe House after the founder of Girl Scouts, and to name each of the rooms after the four International Scout Houses.

An announcement was made that Cadette Troop 319 is hosting a series of folk dance classes under the leadership of Mrs. Pinnie Simms. All cadettes were invited to attend.

The schedule for Play Day was announced and each troop was assigned parts on the program. Play Day will be October 30.

Mary Anderson of Lubbock, district advisor, brought the program on the flag and taught several singing games, which the leaders will use in troop meetings.

Attending were Miss Anderson and Mrs. Carl Davis, L.G. Grizzle, James Collins, Neil West, John Terry, Kenneth Ware, B.D. Garland Jr., W.F. Cawthon, Clarence Hobratchk, and George Britton.

Barker Begins Navy Training

Seaman Recruit Dalbert J. Barker, USN, son of Mr. and Mrs. Ollie M. Barker of Route 1, Amherst, Tex., has begun seven weeks of Navy basic training at the U.S. Navy Training Center, San Diego, Calif.

In the first weeks of his naval service he will study military subjects and live and work under conditions similar to those he will encounter on his first ship or at his first shore station.

In making the transition from civilian to sailor he will be taught and supervised by experienced Navy petty officers. They will teach him the basic skills of seamanship as well as survival techniques, military drill and other basic subjects.

On completion of his recruit training he will be assigned to a school, shore station or ship, according to the results of his Navy classification tests, his own desires and the needs of the Navy.

INSPECTION -- Frank Sinatra, as a POW escapee masquerading as a Nazi soldier, is stopped and inspected by a Gestapo agent in this scene from "Von Ryan's Express," a 20th Century-Fox release in CinemaScope and DeLuxe Color opening Sunday at the Palace Theatre. Trevor Howard is also starred.

NEW MATH FOR PARENTS -- More than 85 parents attended the first class of a six week course to be conducted by the Littlefield schools to acquaint parents with the new mathematics being taught in the school. All of the parents attending heard both Mr.

S.W. Pope, Junior High math teacher and Herbert Hoover explain the fundamentals in the Junior High building with Mrs. He teaching the math used in grade 1 through six and Mr. Pope the higher grades.

Such rules will protect many an honest citizen from unjust harassment. Yet, the very same rules will also protect many a hardened criminal from being caught.

This basic dilemma, of having to deal with persons whose guilt or innocence is not yet settled, has always bedeviled the administration of criminal justice.

And in recent years, two major developments have added fresh stress and strain to the whole problem.

1) Important methods of law enforcement, long used in many sections of the country, have been held unconstitutional by the United States Supreme Court. Landmark decisions have left confusion and disarray in their wake.

2) Crime--brutal, sinister, sophisticated--has reached a record high.

Thus it has become urgent public business to both clarify and modernize our entire apparatus of criminal justice. To that end, a massive, unprecedented project is now under way.

Eighty of the nation's most eminent experts, assembled by the

American Bar Association, are drawing up detailed guidelines--a set of national minimum standards--for lawyers and judges, prosecutors and police.

These guidelines, to cover everything from original arrest to final plea, should provide us with a system of criminal procedure that is both fair and effective. Such a system is, in itself, one of the mightiest weapons in the war on crime.

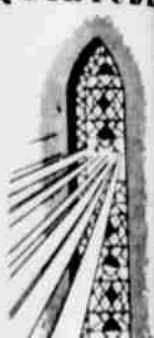

It is of course fitting that we should view with alarm any codding of criminals or oppression of innocents. But with alarm only, not with despair. Solid progress is afoot.

A public service feature of the American Bar Association and the State Bar of Texas. Written by Will Bernard.

If the U.S. switches to the metric system, as strongly advocated by many science and industry leaders, American men will have to stop thinking of the ideal woman in terms of 36-24-36, 91-52-91, anyone?

 It is to be hoped that
 higher price for cotton will
 have the loan value used
 to a large extent on how
 Secretary handles CCC
 bill. The bill places some
 restrictions on the sale of CCC
 cotton, but it is generally
 felt that the Secretary has
 latitude to either bolster
 market prices,
 or is already being
 used that some landlords
 notified tenants they will
 not in 1966. Presumably
 have calculated increased
 from the land by farm-
 themselves under the new
 law. Whether they are
 in this decision may de-
 pend on the Secretary's inter-
 pretation of the law, which says
 Secretary shall pro-
 vide adequate safeguards to
 protect the interests of tenants
 sharecroppers. To
 there is no indication as
 to these 'safeguards' might
 lease and transfer
 between growers
 a state may be permit-
 ted by the Secretary 'if he
 finds that it will
 repair the effective opera-
 tion of the program involved.'
 word is that such sales or
 transfers will be permitted at least
 1966, subject to the follow-
 ing restrictions:
 A two-thirds majority vote
 of the county referendum can
 be held before allotments can
 be transferred across county lines (to
 take effect November 23 this year);
 Adjustment of transferred
 allotments from one farm to
 another when there is a sig-
 nificant difference in yields on
 the farms;
 Total cotton allotment for
 a farm to which an allotment
 transferred by sale or lease
 shall exceed the farm acreage
 allotment for 1965 (excluding
 diverted acreage) by
 more than one hundred acres;
 No sale of a farm allot-
 ment shall be permitted if any
 of cotton allotment to the
 farm has been made within
 three immediately pre-
 ceding years;
 No transfer of allotments
 shall be subject to a mort-
 gage or other lien unless ap-
 proved by the lienholder, and
 No transfer of allotments
 shall be permitted between
 January 1 and June 1
 of any year.
 To qualify for diversion pay-
 ments under the law, a farm will
 be required to devote to ap-
 proved acreage equal to the sum
 of the reduction in cotton
 acreage required to qualify for
 payments and (b) the aver-
 age acreage of cropland devoted
 to converting crops or
 pastures during a base period
 prescribed by the Secretary.
 The Secretary may permit
 the use of guar, sesame, saf-
 lower, sunflower, castor,
 soybean, mustard seed, crame-
 re, or clover or flaxseed. The
 amount of payments would then
 be determined by the Secre-
 tary up to one-half the pay-
 ment rate otherwise applicable.
 Producers may elect to apply
 for special ASC offices for ad-
 ditional acreage, produce cot-
 ton outside the program, and
 to all loan and payment
 privileges. All cotton from the
 farm electing this route must
 be exported. The Secretary
 may apply to all such
 farms in 1966. How they will
 be apportioned has not been
 decided, but they will be ap-
 portioned only to the holder of
 the allotment in 1965 or his
 estate. The 250,000 acres for this
 program is called 'export mar-
 ginal acreage reserve.' For
 1968, and 1969, the size
 of the export market acreage
 reserve will be the same if
 the carryover is reduced by
 more than one million bales.

QUESTIONS & ANSWERS

Q -- Is it necessary from the Veterans Administration to participate in Housing Act of 1965?

A -- No, what is necessary is a Certificate of Eligibility Status obtainable at a VA office.

Q -- In World War II, a Catholic chaplain attached an Army unit in the Pacific. I left the priest shortly after the war, entitled to any veterans benefits?

A -- You would be entitled to the same benefits as honorably discharged War II veteran. See your VA regional office for specific information on benefit in which you are interested.

Q -- I am a disabled veteran and am receiving national compensation for my year old son. He has been in the U.S. Navy. I report this event to the VA and will this action, additional compensation for my son?

A -- The answer to questions is 'no,' as the national compensation will continue until your son is 18, regardless of his military service.

Q -- How much longer I have to apply for reinstatement of my GI insurance of the new program for disabled veterans.

A -- You have until midnight, May 2, 1966. However, should keep an eye on next birthday. Since insurance premiums are based on age nearest your birthday, you may wait too long and that for insurance purposes you are a year older than really are and the premium is higher.
