No. 6

AMHERST & LUBBOCK WIN IN A DOUBLE HEADER GAME SUNDAY

Littlefield suffered two ignominious defeats last Sunday in double header baseball games played with Amherst and Lubbock.

The first game between the Amherst Americans and Littlefield Boosters resulted in a score of 17-2 to the glory of the visitors.

In the second game Lubbock walked off with 14 scores, while Littlefield carried away the proverbial goose egg.

Amherst was particularly elated with her victory. For several weeks she has been playing lesser teams, gradually whipping into form and looking forward when she might cross bats with her nearest competitor. That time came last Sunday and she made the best of it, by carrying home a victory of which she may well be proud.

Just why the Littlefield Diamonds made no better showing against the Lubbock Regulars none of the fans nor players have been able to explain. Apparently it was an off day for the Littlefielders. With numerous errors in evidence and the wavering decisions of the umpire they soon lost their fighting courage and gave up the ghost.

The crowd that attended the games Sunday was by far the largest ever assembled in Littlefield for such an occasion. People were there from Lubbock, Muleshoe, Sudan, Amherst and other adjoining sections in great numbers.

12 GRADUATE FROM OLTON HIGH SCHOOL, LAMB CO. CAPITOL

The baccalaureate sermon of the Olton high school graduates was given Sunday by Rev. Lipscomb, of the Plainview Methodist church. Mrs. H. P. Webb played the processional, while the class of 12 members, accompanied by Professors Webb, Tippit, and Covington marched down the aisle to the seats reserved for them.

A song, "Onward, Christian Soldiers," was sung by the congregation. The invocation was given by Rev. Brittain, followed by a song, "All Hail, Immanuel," by the choir.

Rev. Brittain read the 19th Psalm, after which Rev. Covington and Mrs. Dora Miller sang "His Plan." Rev. Lipscomb read the nine verses of the second chapter of Hebrews, and delivered a most inspiring and beautiful sermon. A closing song, "Sun of My Soul," was sung by the congregation; the benediction being pronounced by Rev. Gilbreath.

Owne Black Gold

Mrs. E. M. Hoets of Oklahoma, owner of the two year old "Black Gold"—the first western-bred horse to win the Historic Kentucky derby in four years.

LITTLEFIELD SCHOOL BOARD PREPARE FOR COMING YEAR EXPENSE

At a meeting of the Littlefield school board held Monday night Prof. E. D. Parnell, teacher of agriculture was granted a six weeks leave of absence to attend A. & M. College, during the summer term. Arrangements were also made for Prof. Parnell to devote his entire time to the teaching of agriculture next year.

Application was made to the State for \$1000 to apply on the salary of the agriculture teacher, also, for \$375 to apply on the salary of the domestic science teacher.

Since the increase of population has largely increased the running expenses of the Littlefield schools, a new basis of property valuation has been necessary for the coming year, and at this meeting the matter was considered and recommendations made to the assessor.

AMARILLO WORKING FOR '26 CONVENTION

The Board of City Development of Amarillo announces that it will begin work at once to secure for Amarillo the 1926 meeting of the West Texas Chamber of Commerce, following on the failure to land the 1925 meeting.

As the initial step in the campaign for the 1926 meeting, an effort will be made to cement the support of those towns which supported Amarillo's claims at Brownwood.

Personal letters are being sent out to the towns which supported Amarillo in its fight for the convention. A letter will also be sent to the men from outside of Amarillo who accompanied the Amarillo party on the trade trip.

The letters will express the city's appreciation for the support already given to Amarillo at Brownwood and asks that the same support be given next year.

INFANT BABE DIES

The eleven month old babe of Mr. and Mrs. D. S. Layne, residing two miles west of Littlefield, died Monday afternoon of pneumonia.

The funeral service was held Tuesday afternoon and interment made in the local cemetery.

In the passing of the soldier bonus bill undoubtedly President Coolidge showed far more statesmanship in his veto than congress did in over-riding it.

DALLAS GINNER TO PUT IN PLANT AT MORTON

T. J. Sheppard, of Dallas, announces that he will build a first class, five stand gin at Morton, and be ready to care for the first bale of the coming season. This gin will stand on the five acre tract in the northeast part of town, donated by Morton J. Smith for this purpose.

Ten thousand acres is said to be a conservative estimate of the cotton acreage in Cochran for this year, and some twenty odd tractors have been engaged in breaking out the land in this section this spring.

YEAGER CHESHER LAND CO. TAKING CROP CENSUS

The Yeager-Chesher Land Co., now have two men in the field taking a census of the crop acreage, of all kinds to be planted in Lamb County.

It is understood from their representatives that a much larger acreage of cotton, than previously anticipated, is being put in this year by both new and old settlers. Thousands of acres of new ground are being broken out this year for the first time, and in all portions of the county farmers are now busy from early dawn 'til late at night with plow and planter.

Weeds like habits are easiest controlled when they are young and tender. Now is the time to stop the newly formed habits and it is also time to nip the weeds growing about one's place.

1,500 RABBITS FALL IN HUNT AT HALFWAY ALSO BIG BARBECUE

A big time was had by all who attended the rabbit hunt and barbecue in the Halfway community Tuesday. There were 500 people present.

By the middle of the afternoon there were more than 175 shotguns in use. Henry Allen, Dick Hooper, W. W. Pinkerton, Mr. Lewellen and others contributed money, beebes, goats and mutton for the barbecue. Nobles Bros. Grocer Co., of this city, furnished coffee, and Perkins & Stubbs furnished a surprise when they gave cigars to the crowd.

More than 1500 rabbits were killed. W. D. Darby was high man with 40. Other good bags are reported as follows: M. P. Gardner, 30, Welden Gardner 24, Tommie Lewellen 27, Jim Hudgins 27.

The barbecue was served at the old Lewellen place which is now occupied by W. J. Lewis.

MRS. CHACONE TO BE FIRST GOVERNOR OF A U. S. STATE

The first woman governor of an American state will be Mrs. Soledad C. Chacon, secretary of state for New Mexico.

Lieutenant Governor J. C. Bacon died. When Governor James F. Hinkle leaves New Mexico for the democratic convention, Mrs. Chacon will become acting governor.

LEVELLAND'S NEW HIGH SCHOOL NEARLY FINISHED

The final touches toward completing the fine new school building at Levelland are being made this week. I. O. Moore, foreman in charge of the work states the construction will be completed in the course of another week or ten days.

Architect Walter E. Taylor of Lubbock inspected the building Tuesday, and made a very pleasing report. He states that this is the best building of its class and type he has planned and supervised in a number of years. He also says the construction has been completed in record time, considering the fact that it is located some distance from the railroad.

AGED SETTLER DIES AT LUBBOCK SANITARIUM LAST SUNDAY NIGHT

George W. Landers, aged 62 years, died Sunday night at a Lubbock sanitarium. The remains were sent to Grandbury, Texas for interment, being accompanied by Jake Hopping.

Mr. Landers was one of the older settlers of this section, having lived in Texico since 1905 until last November, when he came to make his home with his half-brother, Judge R. C. Hopping. For several months he had been suffering from stomach trouble, from which he would have intermittent spells of relief, but each successive attack grew worse until he finally succumbed on Sunday night.

He was widely known throughout this portion of the state, and had a great many friends who will sincerely regret his departure of this life.

The deceased is also survived by two children Mrs. Sarah Sue Martin and George Jake Landers, both residing at Grandbury.

THE NEW COTTON GIN FINISHED & STANDS ARE BEING INSTALLED

S. R. Thompson has completed the new cotton gin for L. E. Davanay and the material for installation is arriving this week.

This new gin is of the 5-80 saw stand type, equipped thruout with Continental machinery and Hadwicke-Etter boll machines, all machinery and equipment being of the very highest type and latest design obtainable.

The main gin building is 24x82 feet; the seed house is 24x40 feet; while the seed cotton house, capable of holding 60 bales of cotton, is 26x30 feet. All buildings are of sheet iron construction thruout, and the new plant will have a capacity of 100 bales daily output.

Mr. Davanay came here from Sherman, where he sold his gin last year. He has had about 14 years experience in the cotton gin business, and Littlefield feels herself fortunate indeed in securing so capable a man to care for her cotton crop.

It is now thought that this new gin, together with the one already located here, will adequately take care of the local crop this season.

It is getting to be fly time. If one will stop to think of the amount of food spoiled annually by a swarm of flies; if they will consider the number of deaths occasioned from the same source, surely they will use every precaution available against their breeding and every effort toward their destruction.

AMHERST CITIZEN TRIES TO TAKE HIS LIFE IN A MOMENT OF INSANITY

Saturday morning of last week, the people were shocked to learn that Bert Smith, a well known citizen of Amherst had attempted to commit suicide.

According to report, Smith had grown despondent over financial losses in cattle, while a resident of Muleshoe, before coming to Amherst. He had been working for the Halsell Farms Co., and that concern was well satisfied with his services. He had bought a lot from them, and erected on it a nice little home for himself and family. He had a nappy home, wife and two children, but worry got the best of him.

He slept but little Friday night, between fitful slumbers to awake and imagine his enemies were after him. If he had any enemies no one knew it. It was purely an hallucination. His wife, of course, realized he had become mentally unbalanced, and, when morning arrived, she sent for a physician. Before the doctor arrived however, he drained a bottle of strychnine, prescribed for his wife's heart trouble, and slashed his left wrist with a pocket knife, hoping to cut an artery and bleed to death, but missed the blood channel by a thin tissue of flesh.

Neighbors were summoned and administered antidotes to react on the poison, the flow of blood was stopped the wound bound up, against his protests, and he was sent to a Lubbock hospital for treatment.

At last report he was recovering from the poison, and it is sincerely hoped by the many friends of the family, that he will likewise recover his right mental status.

MOVE PHONE OFFICE

The Telephone Company is to move to their new home in the N. A. Douglas residence within the next ten days.

The house is being remodeled this week and when completed will make a very convenient office.

Outside wires are being changed and also some cable laid underground so as to make the cut-over with as little delay in service as possible.

It is the intention of the company to move their switchboard and office equipment during the night so that there will be little or no delay in telephone service.

Photo Sent Over Telephone Wire

In the first demonstrations this week of sending photographs over long-distance telephone wires, the picture of President Coolidge was transmitted from Cleveland to New York. The telephone company promises regular service of sending pictures in the near future. Also that soon you can step into the nearest long-distance booth and have "Your only one" smile at you as you talk.

Democratic Keynoter

Senator Pat Harrison of Mississippi will deliver the keynote speech at the Democratic National Convention in New York June 16th. He was favorite in selection as choice for the temporary chairmanship.

LAMB COUNTY LEADER

Published every Thursday afternoon at Littlefield, Texas.
Subscription: \$1.50 per year; 75 cents for six months.
Advertising rates given upon application.

No. Entered as second-class matter May 24, 1923, at the post
27. office at Littlefield, Texas, under the Act of March 3, 1879.

JESS. MITCHELL,

Editor and Publisher

Subscribers who change their addresses, or fail to get their paper, should immediately notify this office, giving both new and old addresses.
Communications of local interest are solicited. They should be briefly written, on but one side of the paper, and must reach this office not later than Thursday noon of each week. The right of revision or rejection is reserved by the publisher.
Advertising that does not show its text or typographical that it is paid for must be marked as an advertisement. All local advertisements remain in this paper for the time specified or until ordered out. All notices, matters not by whom nor for what purpose, if the object is to raise money by admission fee or otherwise, is an advertisement and when sent in for publication must be paid for at the regular advertising rate per line for each issue printed.
Obituaries, cards of thanks, and resolutions of respect will also be charged for at the same rate.
Any erroneous reflection upon the character, standing or reputation of any person, firm or corporation which may appear in the columns of the Littlefield Leader will be gladly corrected upon its being brought to the attention of the publisher.

THE POLITICAL SITUATION

Students of the political situation in Texas with reference to the governor's race are expecting within the next week to have new grounds for basing their prognostications.

Several new twists have been injected within the past week. From the Robertson forces has come a denial of the report that Felix's name would be placed for endorsement before the Waco meeting.

Prediction has been made from Ft. Worth that the Tarrant County Klan would support Adjutant General Barton, and with the delay imposed by Ferguson as to what the next step would be with reference to placing his name on the ticket; meat a plenty is furnished for argument.

Lynch Davidson is sawing wood with his reforestation plan. Joe Burkett has his name on the ticket, and has been calling for fair play on long time rural credits, soldiers compensation and the abolition of useless offices.

Pope has continued his attack against the adoption of the new text books. Collins has turned his Ku Klux venom into denouncing the sending of rangers to counties when not asked by county authorities and to explaining why taxes cannot be cut. T. W. Davidson's fire still is leveled at Lynch, his late declarations being to the effect that if the latter saves the state \$10,000,000.00 biennially, except at the expense of the educational institutions, it cannot be done.

The other horse in the gubernatorial race—H. L. Darwin—still remains stabled, presumably being groomed to take after all the other eight.

With this the eve of State Democratic Convention; experts, would-be critics, and chroniclers are awaiting to see which track the ponies take.

ON PLOWING DEEP

In the second part of Faust, Goethe tells of a farmer plowing deep because under the emperor's law he was allowed to keep all buried treasure, "turned over by the plow." That was probably an ingenious scheme to make the farmer plow deeper, make his soil richer, and thus be able to pay heavier taxes.

Near Baltimore, a farmer named Meyerly is said to be plowing up a good wheatfield, with a subsoil plow, having been told there is gold in his land. He won't find gold, but if he plows deeply enough, and plows his wheat under, he will improve his soil, and increase his farm's value.

This should also be a hint to the South Plains farmers, for it means gold in the long run.

THE HEREAFTER

The State of Kentucky recently killed three men by electricity, one colored, two white—one of them 79 years old. Fortysix minutes after they began walking to the death chair one after the other, all were dead. Only one spoke, as he was strapped into the chair. It was Frank Thomas, white man, who said, as the light was shut from his eyes forever, by the electrocution mask, "Goodnight, I'm going home."

Wouldn't it be interesting to know where, how, in what home those three men will awake—if at all... Will the black man still be black, when he comes to and dimly remembers how he died? Will the gray haired murderer still be seventy years old, or begin again as a new baby, interesting questions.

COMMUNITY DEVELOPMENT

The same rules apply to community development that do to personal business success. Chambers of Commerce often fail in their duties because they function so intermittently. Any business that lapses into a state of doing nothing would share a similar fate as any commercial body that fails to be regular and consistent in its operations. Town building and community development can be done not by fits and starts, but by eternally keeping on the job. Littlefield is losing every day in every way by not having a chamber of commerce that is continually on the job.

THE TOURISTS AGAIN

With the advent of spring again comes the tourists. Already the local park has been accommodating dozens of traveling autos and trucks. They represent people of all classes and ambitions.

Of course, some of them are merely drifting, but there are others who are looking for homes, some for investments, still others for business locations, and some of them can be sold on Littlefield.

This may not be the work of one citizen alone, but through the co-operation of all citizens this town can and should make permanent annexation of many of these tourists during the summer months.

PUSH INCORPORATION

"What has become of the Littlefield incorporation plan started by the Chamber of Commerce some weeks ago," is the question frequently asked the editor of this newspaper. We have been reliably informed that the committee has finished the census enumeration. If so, have they turned their reports over to the attorney that he may make the proper proceedings? There is no reason for delay. City improvements are demanded, fire protection is needed. Let the matter be pushed to completion without delay.

The farmers of this section who have been wishing for warm weather have surely had their desire granted this week. There has been a general complaint that the temperature has been too low for seed planting, or that the crops already planted will not put on much growth for the same reason; but now that higher temperatures are prevailing, the farmers are rejoicing and going ahead with their planting.

Government reports indicate that the winter crops in this section are all in fine condition. The range is in excellent condition. The calf crop was unusually heavy this spring and losses were comparatively small.

Everything looks good for prosperity on the South Plains this year.

The Leader acknowledges receipt of the first issue of the Meadow Messenger, a well printed, newsy 6-column sheet, with A. C. White, formerly of Elida, New Mexico, as editor. A year ago Meadow was scarcely a wide place on the Texas map; today it has a population of about 300 people with some 30 concerns doing business there. That Meadow has a good future there can be no doubt, and Mr. White will help to make it bigger and better.

LITTLE LEADERS

"Ball— er, strike tue." Oh Lordie!!!

Some folks are just like their theories, they never work.

Where is the candidate who will have prejudices enough to fit all portions of this county?

Some politicians while trying to get their ear to the ground get their nose in the mud.

In speaking of model husbands we are reminded that Webster says a model is small imitation of the genuine.

Now husbands are getting divorces because their wives get their hair bobbed. Seems rather a trivial excuse, but in some cases it may be the only attractive feature the wife had.

After all, clapping one's hands in applause may be the direct descent of flapping one's wings while the human race was going through the bird stage of evolution. Who knows?

When one considers that every other class of fighters train before the battle, it is hard to believe in the modern system of training young folks for marriage.

MULESHOE STUDENT WINS SCHOOL HONOR

Miss Edith Kropf, of Muleshoe, has been selected as first honor student of the graduating class of the State Teacher's College. Arlin Turner, of Canyon, won second place. —Muleshoe Journal.

According to some of the recent spring dresses seen in Littlefield, the chimes has come back in style, only now they wear it in different colors and on the outside.

ARNETT-GIVENS

A very pretty home wedding was solemnized at the home of Mr. and Mrs. W. D. Arnett last Saturday, May 24th, at nine o'clock, when Miss Mildred Kate Arnett and Samuel C. Givens were united in the holy bonds of matrimony in the presence of the immediate family and a few close friends, the Rev. Leveridge, of Ralls, officiating.

Immediately preceding the ceremony Miss Thelma Jones sang "Because," then to the strains of the beautiful wedding march, played by Zed Robinson, accompanied by Miss Mary Parker, on the piano, the bridal party entered the room. The bride looked very beautiful in a grey Egyptian crepe and silver lace, and with her maid of honor; while the groom was accompanied by his best man, Mr. Stanford Arnett, a brother of the bride.

Following the ceremony the bride's cake was cut by the bride herself, and served the guests with brick ice cream and punch. Mrs. R. W. Steen presiding at the punch bowl.

The guests present were: Mrs. J. C. Arnett, mother of the bride, Mesdames Howard, Jones, Street, Steen, jr., Misses Thelma Jones and Mary Parker, Messrs. Stanford Arnett, Z. Robinson, W. G. Street, R. W. Steen, jr. Little Dorothy Arnett, Alice Lyn Street, J. C. Arnett, jr. and host and hostess, Mr. and Mrs. W. D. Arnett.

SO THERE YOU ARE WHERE HAVE YOU BEEN ALL EVENING - COMING HOME FOR SUPPER AT 8 O'CLOCK?

WHY - ER - OLLIE I JUST STOPPED IN THE STORE FOR A TALK WITH THE BOYS

THE IDEA! SUPPOSE THAT I WOULD STAY AWAY FROM THE HOUSE THAT WAY!

WHY - ER - OLLIE ER -

OR GO TO A LADIES AID SOCIETY MEETING AND NOT BE HOME IN TIME TO GET YOUR SUPPER - WHAT THEN?

AW - YOU KNOW ME OLLIE, I WOULDN'T SAY A WORD - NOT ONE WORD!

WELL - THAT'S JUST WHAT HAPPENED OL' DEAR, I DID!

Little tasks

MAKE BAKING-POWDER BISCUIT WITH MILK

Government Recipe Gives Plan for Substituting Milk.

(Prepared by the United States Department of Agriculture.)

In many recipes for hot breads and cake, sour milk or buttermilk and baking soda may be substituted for sweet milk or water and baking powder, or vice versa. To guard against an excess of soda, which causes a yellow color in the bread and a less agreeable flavor, use a scant one-half level teaspoonful of soda to every cupful of sour milk. The soda may be sifted with the other dry ingredients, as is recommended when using baking powder, insuring thorough mixing.

In using either baking powder or sour milk and soda, all materials should be cool, especially the liquid, and in case of pastry and biscuits it is well also to keep the shortening cold, although it is not always necessary.

The mixing should be done as quickly as possible, especially after the baking powder is moistened, to minimize the loss of leavening gas. Biscuits should be rolled, cut, and placed in the pans as soon as possible after mixing. If necessary, they may stand in the pans before baking with comparative safety if kept cold.

The United States Department of Agriculture gives the recipe below for plain baking-powder biscuit which can be made with either sweet or sour milk.

Plain Baking-Powder Biscuit.

2 cupfuls sifted 2 tablespoonfuls

1 cupful flour 1/2 teaspoonful salt 1/2 cupful liquid (milk, water or equal parts of each)

Sift together the flour, salt, and baking powder. Cut or chop the shortening into the flour with one knife or two, until well distributed. Finally, if necessary, rub the mixture

between the tips of the fingers until it is like a meal. Add just enough cold liquid to make a soft dough that can be handled on the board, mixing with a knife if possible. Mix quickly and handle the dough very lightly. Place it on a floured board, roll to the thickness of one-half inch, and cut into desired shape. Place the biscuits on a baking sheet or in shallow tins and bake in a rather hot oven ten to fifteen minutes or until thoroughly baked.

GOOD SECTIONAL RAIN VISITED HERE SUNDAY

Sunday night Littlefield and vicinity east and southeast was visited by a good rain, much to the benefit of the growing young crops.

According to report, the rain was lighter west and northwest. There was a good shower in the eastern portion of the Halsell

pasture and in the Black Cattle pasture. The rain extended as far south as Sweetwater.

D. S. Layne, residing west of town, is reported to have a very sick child. Miss Medora Dunca, nurse from Amarillo is caring for the case.

Mrs. P. C. Tom, of Lubbock, accompanied by her son Ronald, is visiting this week with her sister, Mrs. F. G. Sadler.

Punchettes

THE GREAT CONTROVERSY

The great controversy within religious circles revolves around two great facts:

FIRST: THE INFALLIBLE BIBLE.
The holy scriptures themselves state that they are inspired by Almighty God, therefore infallible. Jesus Christ while on earth testified to their authority, infallibility and right to supremacy in one's life. The orthodox church of Jesus Christ testified to their infallibility. They are the Word of God—the only rule of faith and practice.

Of course Satan is trying to break down belief in the authority of the scriptures. Rationalistic forces, the forces of infidelity, atheism, socialism and Bolshevism are denying that the scriptures are infallible. They are doing it because they want to destroy the authority of the scriptures. If the agencies of sin can destroy the scriptures then they have an easy road to the satisfaction of all the lusts and passions of human nature.

SECOND: THE VIRGIN BIRTH
The same set of forces are denying the fact of the virgin birth of Jesus Christ. God decided upon the plan for His incarnation. That plan, decided and created by the Trinitarian God, fixed the virgin birth as the instrument for the incarnation. Therefore, the virgin birth is proof positive that Jesus Christ is the son of God. Satan knows that fact. Therefore, if he could destroy belief in the virgin birth he could logically destroy belief in Jesus Christ as the Son of God.

There is no fact in history more perfectly established than the fact that Jesus Christ was born of the virgin, and therefore is the Son of God.

Let me call on the Christians all over America to be true to God's infallible Word, and to Jesus, Christ born of the virgin Mary. The Church shall be victorious. The gates of hell shall not prevail.

POULTRY

LITTLE CHICKS NEED CAREFUL ATTENTION

(Prepared by the United States Department of Agriculture.)

The artificial method of brooding chickens consists in supplying, artificially, heat as nearly as possible like that furnished by the hen under natural conditions. The temperature of a hen is about 106 degrees F., but as hens seldom sit closely on chickens, the latter do not receive this degree of heat. Hens adapt their methods of brooding to conditions, such as outside temperature, size of the chickens, and wet weather, and the operator of an artificial brooder must meet these conditions as nearly as he can. Some of the most important faults in the management of brooders are overcrowding and lack of ventilation and the failure of chickens to get sufficient exercise. The brooder should supply the proper temperature, be readily adapted to meet the changes in weather conditions, be easy to clean, and be well ventilated.

Chickens are usually left in the incubator from 24 to 36 hours after hatching, before they are removed to the brooder, which should have been in operation for three or four days at the proper temperature for receiving chickens. A beginner, says the United States Department of Agriculture, should try this brooding system carefully before he uses it. After being placed in the brooder the chickens can be given feed and water. Subsequent loss in chickens is frequently due to chilling received while taking them from the incubator to the brooder. In cool or cold weather they should be moved in a covered basket or other receptacle.

Brooder houses should have from 1/2 to 2 inches of sand, dry dirt, cut clover, or chaff spread over the floor and in the brooder pen. The hovers should be cleaned frequently, as cleanliness is essential in raising chickens successfully.

When chickens are first put into the brooder they should be confined under or around the hover by placing a board or wire frame a few inches outside. The fence or guard should be moved farther and farther away from the hover and discarded entirely when the chickens are three or four days old or when they have learned to return to the source of the heat. Young chickens should be closely watched to see that they do not huddle or get chilled. They should be allowed to run on the ground whenever the weather is favorable, as they do much better than when kept continuously on cement or board floors.

Practical Suggestions for Getting Clean Eggs

The increasing number of graded eggs that are shipped makes it necessary that every practicable means be employed to keep eggs clean. The greatest help, outside of clean straw on the floor and in the nests, is a screen shutting the hens off the roosts during the day. A screen made of poultry netting is lowered in the morning and remains down until time for the hens to go to roost. Cleaning the dropping boards daily will not help so much as the use of one of these screens.

An added advantage is the fact that a hen on the floor is encouraged to activity. The hens that spend any great portion of their time on the roosts are fit subjects for colds and roup.

The practice of placing perches a foot or so above the dropping boards leads to soiled feet, soiled perches and soiled eggs. The hens, instead of walking on the perches, walk on the dropping boards and their feet become badly soiled.

Gathering eggs twice daily is also a help in producing cleaner eggs. By all means supply a plentiful number of nests. Eggs laid on the floor are invariably soiled. A nest may have eight or ten clean eggs in it and the entire number may be soiled by the hen laying the next egg.

Poultry Notes

Egg-eating hens can be cured with a dose of iron—a hatchet.

The pullets must mature by November so they will begin to lay when eggs are high in price.

The Rhode Island Reds as a breed are usually considered vigorous and thrifty as any other breed.

If the chicks are inclined to fill their crops with buttermilk instead of with mash, give them something to eat before the buttermilk is left before them.

The dirt floor in laying house is a carrier of disease, unless five or six inches of the soil are removed and replaced each year. Board floors are all right, but expensive. Concrete floors are the most economical in the end.

Enough roosts should be provided in a poultry house to allow eight inches per bird. The roosts should be nine inches from the front of the dropping boards and nine inches from the back and they should be fourteen inches apart.

Walker & Boone Put On Sale Of Valuable Addition

P. W. Walker and Pat Boone last week closed deal for the John Kling farm consisting of 135 acres and located just north of the present school building.

The land has been surveyed into one, two and five acre tracts, and will be put on the market immediately for sale.

Mr. Walker reports there is considerable demand for small acreage tracts of this description adjoining Littlefield. Each acre tract will be approximately 110x427 feet in dimensions, and at the price they are to be sold at, will be equivalent to buying the ordinary residence lot at about \$30 each.

These small tracts being located so near the present school building and adjoining the Roger Q. Mills highway, will become valuable investments and desirable locations for residential purposes.

It is understood that the owners have already closed a deal with a nurseryman for one tract which will be used for nursery stock during season, and that another tract, consisting of ten acres has been spoken for by a truck grower. Also, several local citizens are considering the purchase of some of the one acre tracts.

Baileyboro Buzzings

In the gam with Sudan Saturday the Baileyboro boys were defeated on Sudan grounds (Score please.—E.F.)

A large crowd attended the play given by the Baileyboro girls at Inez, New Mexico Saturday night.

Messrs. Wallace, Durham, Cooper and Ogden were Muleshoe visitors on Friday.

Ida and Clyde Coffman took Sunday dinner with the Odom family.

Mr. and Mrs. G. D. Trench visited Mr. and Mrs. Virgil Webb Sunday.

Mr. and Mrs. W. O. Barber and children are spending the week on the Watson ranch, near Bluit, New Mex.

The school team of baseball boys lost a game this week to Circleback.

Mr. and Mrs. T. G. Gaddy and daughter, Frances left Friday for Lubbock, where Mrs. Gaddy will undergo a medical examination. They will return home Sunday, accompanied by Lyndell Gaddy, who has been attending in school there.

Mr. and Mrs. Neal Warren entertained the young folks Friday night with a party. A very large crowd was present and everyone enjoyed themselves to the fullest extent.

LOOK FOR TEACHERS

Supt. O. T. Ryan and W. W. Carpenter president of the school board, both of Sudan, were in Canyon last week to locate teachers for the Sudan schools through the West Texas Teachers College.

Brownfield is to have six cotton gins this year.

LOCAL HAPPENINGS

B. K. Garrett, of Lubbock was here Sunday.

Mr. and Mrs. J. M. Stokes left last week for a visit with relatives at Paducah and aften, Texas.

Jimmie Hamilton, former Littlefield citizen, but now of Tahoka, is here this week doing some sign work.

Julian Joplin and Ross White returned last week from the North Texas A. & M. College, at Arlington, where they have been attending school.

Luther Hargrove left Monday for Mesilla Park, New Mexico to

attend the commencement exercises of State College. After the close of school he and Mauriee White will go to Elephant Butte Dam for a few days vacation before returning home.

Miss Bettie Blattman has accepted a position as private secretary to G. L. Moody, of the Yellow House Land Co.

\$10.00 REWARD: For one dark bay or brown horse, roach mane, 15 hands high, weight about 900, branded "C" backwards on left shoulder. \$5 paid for his whereabouts, \$10.00 for delivery to Amherst. W. A. Chapman. 1-tp.

C. S. Boyd has a contract for breaking 540 acres for Dr. J. Harland, of Bartlett. He has a big 20-35 Alice-Chalmers tractor, pulling seven disc plows and harrow, turning over about 30 acres per day. At this time he has 460 acres of the land plowed, all of which will be planted to cotton this spring, the remainder going into feed stuff.

J. E. Brannen attended a meeting of cotton growers at Baileyboro Tuesday night. He says there was about \$3200 subscribed for a gin at that place.

A petition containing more than 100 names, many of them representative citizens, and asking for the reconsideration of Miss Marie Patton as a teacher has been presented to the Littlefield School Board.

CARD OF THANKS

We wish to extend our sincere appreciation to the many friends and neighbors of Littlefield and vicinity for their unstinted kindness and assistance during the recent sickness and death of our baby girl.

—Mr. and Mrs. D. S. Layne.

"What's in a Name?"

By MILDRED MARSHALL

Facts about your name; its history; meanings; whom it was derived; influences; your lucky day, lucky jewel

JOY

JOY is one of the "glad" names. It stands alone as an abstract virtue, popular in this Pollyanna-ish era. But it has an interesting etymological history as well. It comes from the Greek word "ioval," of which the Latin equivalent is Jocus, the French Jole, and the English Joy.

From Jocus came the Armorican prince, Jodocus, belonging to a family which migrated from Wales. He refused the sovereignty of Brittany and became a hermit in Ponthieu, where he is now remembered as St. Josse. The feminine of his name, Jodoca, is still popular in Wales. England formed from It Jocosa, which straightway became Joyce.

The latter form is much used in England today, as well as in this country, where its contraction is generally Joy, despite the fact that Joy has the right to separate existence. The French Jocelyn is a graceful and musical equivalent adopted by us, and in popular usage.

The turquoise is Joy's talismanic stone. It is the symbol of prosperity, though it is the simplest of stones and has the power to protect its wearer in any venture, whether from disease or accident. Tuesday is her lucky day and 1 her lucky number.

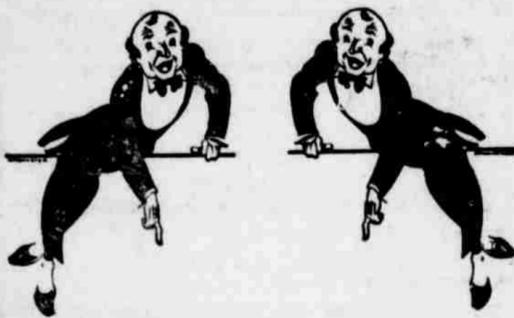

(© by Wheeler Syndicate, Inc.)

Pumps Shoot Water.

A pump of peculiar construction lifts water by the direct action of exploding gas, in much the same way that a projectile is driven from a cannon. In trials the machine is said to have proved so economical that it is to be tested for use in a large English project for draining Lake Mareotis in Egypt. If the tests are successful, pumps which will raise a billion gallons of water daily to a height of 20 feet will be installed. It is planned, after the work is in progress, to double the capacity of the pumps first installed, thus making the station the largest known pumping plant in the world.

KWITCHERKIKIN

And Buy Your Good Of Us

With the sudden rise in temperature and that natural inclination to keep cool, one begins looking around for the proper clothing to protect them from the heat of the coming summer sun. We are prepared to do this in the way of a nice summer suit in either "hand-me-down" or tailor made stuff. We have been selling suits like a prairie fire lately. One fellow says it beats the world how you have cut the prices on clothing. It takes about half now to what it did a year ago. Try us on and be convinced, like this fellow. He lives right here with us.

SHOES

Our line of shoes will be here within the next few days and we will be able to fit anything from a wren to an elephant. Come early!

FARMING IMPLEMENTS

We thought when we exusted our supply of planters we were about done, but we are selling them every day and hauling them from storage in Lubbeck. We can get you anything from a large tractor to a small horse drawn plow, both for old or sod land. We have tractors now that we can get on one day's notice, and we are making some special inducements. If you have as much as 200 acres to break it might pay you to buy a tractor. Come in and we will talk it over.

GROCERIES AND DRY GOODS

We have groceries that will tickle your throat and dry goods that will please your pocketbook. If you are not a regular, get the habit. Some folk s tel l us it really has paid them to catch the disease, and we believe it will pay you.

his fellow McCormick is one of the most glib talkers in the world when he once gets started. He talks Light Crust Flour and Gold Plume Coffee until he has got to believing it himself; and that fellow Brannen has talked John Deere and International farming tools and Deering-McCormick tractors until he can come very near making you believe it. Also, we are just naturally friendly folks and we don't care a hooter who knows it, so come right on and it won't take us over 15 minutes to find out who you are, where you are from and why you had to leave there.

Yours for a Square Deal.
