

Down With the Japs—Buy War Bonds . . . Plenty of Them!

The Seventh War Loan Drive opens Monday, May 14, with the Americans as individuals taking their biggest quota to date—seven billion dollars, with four billion in E Bonds alone. The Treasury Department points out that the money is needed to carry on the war to a victorious conclusion. The Battle of Japan

has just begun, and it must be backed up, and paid for by a free people. **NEW TASKS, NEW NEEDS** There will be new tasks and new needs in the battle with Japan. The single greatest obstacle to the crushing of Japan is distance. While in the battle of Europe, supply ships from bases in

England had only an overnight run to make, ships in the Pacific have long reach round trips taking up to five months to make. To crush Japan will take time, heroic and back-breaking effort, overpowering equipment, which will take large sums of money. Millions of fighting men—freshly outfitted and equipped—will

have to be moved from Europe halfway around the globe; and supplied day in, day out by hundreds of new ships now building. More of everything will be needed. More B-29's, more tanks, half-tracks, jeeps and trucks. More rockets, mortars, airborne radar. A whole new air force is in creation—huge new bombers

dwarfing the Superfortresses—fast new jet-propelled combat planes, the P-80, or "Shooting Star" coming off the lines by thousands. These are just some of the 101 ways in which America's dollars are needed more than ever to bring America's might to its full strength—so that the foe may be

crushed faster and make an end of killing, and bring our men back home. **AND LEST WE FORGET . . .** The sick, wounded and disabled will require medical attention and care. Many millions of dollars will be required for mustering out pay and benefits voted by Congress to (Continued on Back Page)

VICTORY TO BE OBSERVED BY PRAYER SERVICES HERE

COUNTY BOND COMMITTEES WILL MEET IN AMHERST FRIDAY NIGHT

Regional Director, C. M. Smith To Be Principal Speaker

Lamb County's Quota \$725,000; \$110,000 To Be Raised Here

Lamb county's quota in the Seventh War Loan, which officially opens Monday, May 14, is \$725,000, with E Bond quota of \$330,000.

Littlefield School District quota is \$110,000, and according to C. O. Stone, county chairman of Seventh War Loan Drive, the individual chairmen of the various communities will receive the figures on their individual quotas direct from the state committee.

Inasmuch as there will only be two war loan drives this year, instead of three, and the Government will have to raise almost as much money from individuals as in the three drives last year, Mr. Stone points out that it throws heavier responsibility on every individual to buy more bonds than formerly, and to buy more extra bonds, and urges on everyone to do their best as they have always done in former bond drives. He adds: "the war is still to be won in the Pacific, and no one should let down now."

Community War Bond Committees will meet at the Amherst Hotel Friday night at 8 o'clock, in a supper meeting, when plans will be completed to get the drive underway.

C. M. Smith, Regional Director of Plainview, will be guest speaker. Among those who will attend from Littlefield will be Pat Boone, county chairman of War Bond committee; C. O. Stone, county chairman for the Seventh War Loan Drive, and J. O. Garlington, chairman for Littlefield School District.

All Communities In County Take Part In Drive

As announced by G. M. Shaw, county chairman of the United National Clothing Drive, all communities have brought in their contributions, and as soon as sorting of the clothing has been completed, a complete report of the number of pounds gathered will be given.

Mr. Shaw announced that there is definitely a carload.

Nurse Survives Suicide Dive On Hospital Ship

Saturday night, April 23, the USS Comfort, a hospital ship, loaded to capacity, carrying 700 wounded servicemen off Okinawa and 37 nurses, was attacked by a suicide Jap plane, killing 29 and wounding 30, most of whom were doctors, as well as causing the death of six army nurses and wounding three.

Knowing that their daughter, Lieut. Mary Lee Carpenter, was a nurse on the USS Comfort, Mr. and Mrs. R. L. Carpenter of five miles northwest of Littlefield, were much concerned over the welfare of Lieut. Carpenter until Thursday last, when they received a cablegram from her, believed to have been sent from Guam, stating she was well and safe.

At first it was expected that all aboard would have to evacuate the USS Comfort, but she was able to proceed under her own power and landed at Guam, where the patients were transferred.

In May, 1944, the USS Comfort was commissioned. Lieut. Carpenter had been overseas previous to that, and returned to the States. She left with 37 nurses on the new ship. Included in her duties was assisting in the operating room. She had been in the service three years.

Following entering the service, Lieut. Carpenter and Capt. Andrew Saito were married, but in order (Continued on Back Page)

The Father of our country, whose profile and coat of arms adorn the medal, speaks from it across the centuries to the men who fight today for the proud freedom he founded. . . . Let me, in communicating to you the country's deep sympathy, also express to you its gratitude for his valor and devotion." The letter said. It was signed by Henry L. Stimson, secretary of war.

It's not over yet. We still face a dangerous and determined foe, well entrenched over a half-million square miles, and imbued with the courage of a fanatic. He has sworn to fight a thousand years, and lose millions of men; if necessary, he will destroy himself in order to destroy us. Will we let him?

Reddy Kilowatt is proud he could help us win. Electric power played a large part in turning out the pilots, guns and ammunition to beat Hitler. However, Reddy isn't quitting now. With his belt hitched up and his jaws set, he's ready to go after the third gang. Can we do less?

Two down—one to go. Good! But the game isn't over until the last gun barks. Only the final score pays off. It's up to the home front no less than the fighting front. Now is the time to dig in and WIN.

Group Reaches 200 Mission Mark

A NINTH AIR FORCE SERVICE GROUP, France—Too tough for its first two tails, B-26 Marauder Nose takes on "Weary Willie" for another three! From a mobile reclamation and repair squadron of the Ninth Air Force Service Command comes the news that "The Nose"—now nearly as famed in the ETO as Jimmy Durante or W. C. Fields—has outlived its second fuselage and signed up with battle-scarred "Weary Willie" for its third merited venture.

Here's what happened. In the pre-invasion days when Ninth Air Force Marauders were operating from bases in England, "The Nose," then part and parcel of a plane called "Goatee Hell," was involved in a freak landing accident with another ship and both were condemned to salvage. Ingenious technicians from the service group had other ideas and working in their spare time severed both planes in the middle and combined them into one first class medium bomber. Since the other plane had more missions to its credit than the "Goatee Hell," "The Nose" received wide publicity for being the only plane ever flown with more missions on its tail than its

nose. And so, "Weary Willie" enters the picture. An old warhorse of many a rough mission over Germany—160 to be exact—battle fatigue finally caught up and like all unserviceable planes it was headed for the salvage pile. At about the same time, in spite of the fact that the boys who had put "The Nose" back in service had done their job so well that under its new and appropriate name of "Half and Half" it had completed 134 missions, it too had run its course and was washed up.

Now the tail end of "Weary Willie" was still in good shape and as always "The Nose" was itching for more action so the result was a foregone conclusion. Calling Doctor Kilgare, in this case crew chief Curtis D. Foster, a master sergeant from Greensboro, N. C., he immediately prescribed plastic surgery and the delicate task of face-lifting was accomplished in a few days. Mechanics, hydraulic specialists, electricians and sheet metal workers, among them Staff Sergeant Eugene C. Rader of Littlefield, Texas, all worked together until the job was finished.

The operation was successful and now "The Nose," combining its previous missions with those of its present partner, can lay claim to the staggering total of 344 sorties over

enemy-occupied territory. The 200 mission mark has been attained.

How long "The Nose" can continue to defy the laws of man and mortality is a subject for conjecture and if there is an answer, only "The Nose" knows. But if the service group boys who have contributed to its fame have anything to say about it, it will be as long as a single plane of the Ninth Air Force is needed to help in the combined air-ground offensive which has written finis to the world conquest aims of Hitler and is finishing the aims of Hirohito.

Sergeant Rader, a sheet metal worker who helped transfer "The Nose" to its third fuselage, is a farmer whose home is in Littlefield, Texas. He entered military service in 1942 and left for foreign duty in October of 1943.

Keifer Automobile Stolen Thursday

The sixth car to be stolen in this vicinity was taken Thursday night about 10 o'clock from in front of the Palace Theatre. Mr. Keifer of Roundup and a friend had driven to the theatre, and went in to see the show, and coming out found the car gone. The car was found Friday night near Yellowhouse Switch, across the railroad. It had been turned over, two front tires flat, and otherwise considerably damaged.

Officers are investigating, but no arrests have been made. It is believed that local youths are participating in these thefts.

The Mercury sedan belonging to Mr. and Mrs. L. C. Grissom was taken recently from the rear of their home, and was found the following day at noon on a cross street between East 8th and East 9th Street near the home of Dr. and Mrs. J. R. Coen. The automobile was out of gas, oil and water were found.

Mrs. C. G. Barnett of Whitharral left Sunday for a visit in California. She will visit her sister, Mrs. Grace Skeen, and her daughter, Miss Lynell Barnett, a member of the Waves and stationed in San Francisco.

Mr. and Mrs. Cecil Tubbs, who have been living in Lawton, Okla., have moved back to Amherst. Mr. Tubbs is going to Dallas to undergo an operation.

Mother's Day

Mother's Day was first proposed in 1907 by Miss Anna Jarvis of Philadelphia. In a public meeting, Miss Jarvis crystallized the sentiment now back of its observance with the words—"In honor of the best mother that ever lived—your mother."

On May 10, 1913, both houses of Congress passed a resolution, commending the observance of Mother's Day by Congress and the executive departments of the government. The following year, Congress authorized the President of the United States to set aside, by proclamation, the second Sunday in May, as Mother's Day.

Viable manifestations of the event are the wearing of a carnation, white if one's mother is dead and colored if she is living; appropriate sermons in the churches, special programs, family reunions, and the display of flags on all government buildings and many private homes.

There never has been since the world began And there never will be another As sweet and gracious, as true and fine, As the one that I call "Mother."

"The Man Who Is 12 Years Old"

"The Man Who Is Twelve Years Old," a poem by Maude Smiley, has become a symbol of the prayers and hopes with which countless Americans, and people of all nations, are following the International Conference at San Francisco.

Mr. Smiley's verses, saluting youth, have been given nation-wide prominence as the result of a campaign undertaken by one of our country's leading business concerns, to help center public attention on the conference.

Without mentioning their own business in any way, except for a sponsorship signature, the General Cable Corporation has run the Smiley poem in newspapers from coast to coast. An inspiring illustration of a twelve year old boy is used as a background for the poem.

Because of this broad publicity in more than a thousand newspapers, delegates to the conference as well as the general public undoubtedly will have a clearer vision of the fundamental importance to future generations of the deliberations which are taking place today.

Mr. Smiley's poem, which has found a place in the hearts of countless thousands, is given below: "There's a man that I know, and he lives near you, In a town called Everywhere; You might not think he's a man from his hat Or the clothes he may chance to wear; But under the jacket with many a patch Is a heart more precious than gold— The heart of a man 'neath the coat of a boy, A man who is twelve years old.

We never may know what the future will make Of the boys that we carelessly meet, For many a statesman is now at school, And Presidents play in the street. The hand that is busy with playthings now The reins of power will hold; So I take off my hat and gladly salute This man who is twelve years old."

State Cotton Goal

Cotton provides one of the most widely used fibers in the world and its production in wartime is particularly important because it is also a source of edible oil and high protein feed, War Food Administrator Marvin Jones has pointed out in a letter to the War Cotton Production Committee of Texas stressing the importance of achieving 1945 cotton goals.

Production goals for cotton, together with those for other crops and livestock, reflect the determination of the balanced production required to meet war needs and have been carefully worked out on the basis of these requirements and our capacity to produce, the War Food Administrator said.

"It is important that each of the goals, which have been developed by the farmers themselves, be met to the fullest extent, and that the total production be achieved without sacrificing production of one commodity to obtain production of another. "The 1945 State cotton goal for Texas is 7,200,000 acres. It will require the cooperation of each producer in order to meet this goal.

"In addition to the importance of meeting the goal which has been established, we hope that every effort will be made to improve the grade and staple of the cotton produced, as any such improvement will help in the solution of our cotton problem and assist in meeting military requirements for cotton textiles made from cotton fiber of the longer staples and better grades."

Elmer Kimball Home From Oversea

Elmer Kimball, formerly of Littlefield, and son-in-law of Mr. and Mrs. N. Carpenter of five miles west of Littlefield, after serving overseas 17 months, arrived April 1 on furlough, and is stationed at Childress, Texas. Kimball served in the Indian theatre, and in Italy and France, during which time his two year old son, Lee, made his home in Littlefield. During his furlough, he reports Miami Beach, Fla., for recreation, and was sent to Childress, Texas.

Kimball was a pilot on a transport plane, and is now taking part in bombing and is pilot-in-command of a large bomber. The time of serving overseas, Kimball had as passengers in

his plane Prime Minister Winston Churchill and General Montgomery, and other high ranking officials. Capt. Kimball has been in the service three years, flown more than 152 missions with 1,150 combat hours. He has a collection of ribbons, medals and other decorations, which designate service to the 4th degree, having been awarded the Distinguished Flying Cross, the Air Medal with Oak Leaf Clusters, the Presidential Citation, the American theatre ribbon, the European theatre ribbon with 3 stars denoting three major engagements, the Asiatic-Pacific ribbon with one star. He had been stationed in North Africa, Sicily, the China-Burma-India sector, Italy and France, as well as having seen plenty of Germany from the air. He is a pilot with the 64th Troop Carrier Group, which, in addition to other duties, lands the paratroopers behind enemy lines. In the China-Burma-India sector, due to lack of roads and because of mountains and forests it is impossible to use modern equipment for moving supplies to the troops, so pack mules are pressed

into service. Since there is no way of getting these into the country, airplanes are pressed into service and Capt. Kimball says he has flown many of these animals to the front, being able to haul six or seven at a time depending upon size.

Our Refuge in this Storm Tossed World

It's true, war brings about so many changes that we hardly recognize our old way of life. We're working harder, doing without some of the things to which we were accustomed, and life in general is of a more solemn nature. But there are some things that remain forever the same, forever good and beautiful. One of those things is mother love. It never has and never will change. It's as perpetual as the stars in heaven and it shines as brightly in war-time as it does in peace. It's the hand that rocks the cradle.

But, in many cases, there's another hand rocking the cradle now. It's a little more wrinkled and not quite as strong as the other one, but it's a capable hand. It's the same hand that rocked the cradle in the last war. Yes, it's Grandmother's. She's keeping the home fires burning while the rest of the family keep the home safe for the future.

WINNING THE PEACE...

These are only a few reasons for supporting the 7th War Loan—reasons that take us from the present to the future.

By investing in the 7th War Loan, the patriotic American is safeguarding his own future, his country's future.

By putting every dollar over rock-bottom expenses into the purchase of War Bonds, he is delivering a body blow to wartime inflation—thus putting a lid on the cost of living and maintaining intact the purchasing power of the dollar. So save for your country—save for yourself. In helping your country, you are also helping yourself. Comes peace, we'll all need money for education, replacements, retirement, new homes, a new start—and we'll need a lot of it. New Shoe Ration Stamp Will Be Validated Aug. 1

A new shoe ration stamp will be validated August 1, according to the Planning Division of the District Office of Price Administration. The new stamp will be announced.

Planning officials pointed out that this announcement is being made well in advance so that consumers may budget their remaining rations to fit their own and their families' needs now and in the future.

The new stamp will come into effect in a few months after the last stamp was validated last November 1. This stamp covers the two pairs of shoes a family is entitled to under the policy that had been in effect since November 1, 1943.

A longer interval is necessary, it was explained, because of "extremely heavy military demand for shoes and severe inroads on retail stocks of rationed shoes."

Gerry Montgomery Promoted To Major

AN EIGHTH AIR FORCE FIGHTER STATION, England.—To celebrate his advance from captain to major, Gerald E. Montgomery, 22-year-old Littlefield, Texas, fighter pilot notched three more ground victories on a recent strafing mission.

From the cockpit of his P-51 Mustang "Sizzlin' Liz," Maj. Montgomery led his squadron down strafing while returning from an otherwise uneventful escort mission to central Germany.

While traveling at a low altitude and high speed over a German super-highway near Leipzig, Maj. Montgomery took a column of five Nazi companies of foot soldiers by surprise. The Huns were marching in a commendable formation when the Mustangs struck with fury, their machine guns blazing .50 calibre bullets.

The enemy troops broke for cover, but the withering fire from the Mustang fighters killed a considerable number of the enemy.

A short distance away the P-51s swept in on a German landing field that was well populated with assorted planes.

In short order the Mustangs were pouring lead into the enemy's parked aircraft. Another 4th fighter group squadron joined in the shoot-up, and the two squadrons wiped 45 of the Nazi planes off the field, damaging others.

Maj. Montgomery's guns set fire to a Dornier 217, a Junkers 87 (also known as a Stuka dive-bomber), and a Messerschmitt 109. His squadron destroyed 31 of the 45 claimed by the 4th Fighter Group.

The three enemy planes destroyed on the ground boosted Maj. Montgomery's record to 13. He continues to specialize in strafing, with 15 victories on the ground, but can handle himself in aerial dogfighting. He has three enemy fighters shot out of the air.

Maj. Montgomery is the operations officer for the highest-scoring U. S. fighter squadron in England. He is the son of Mr. Chester P. Montgomery, of Star Route 2, Littlefield. His wife, Mrs. Martha E. Montgomery, for whom his speedy Mustang is named, lives at 1108 Waggoman St., Fort Worth.

Fieldton Man Is Wounded Third Time

Pfc. A. D. (Tink) Chaney, son of Mrs. K. J. Chaney of Fieldton, was wounded twice in April, according to a letter received from him by his mother.

Serving with the infantry in the Philippines, Chaney received a shrapnel wound in his left hand on April 1 and a bullet wound in his right shoulder on April 7. The injury on April 7 was sustained when he was fired on by a Jap sniper.

The Lamb county young man was first wounded November 22, while serving on Leyte, when he sustained shrapnel wounds in the back. This wound sent him to the hospital for three months.

Chaney has been awarded the Purple Heart, and has two Oak Leaf clusters.

In a letter to his mother, written April 18, Chaney said that he received one of his Christmas presents on his birthday, April 16. This was the only one he received of several which were sent him prior to last Christmas. The package he received was from his sister, Ruby Joe Chaney, who resides with her mother.

Chaney has a sister, S-C Doris Chaney, who is serving in San Diego with the WAVES, and a brother, Pvt. Charles J. (Jack) Chaney, who is with the infantry and stationed at Camp Hood.

How women and girls may get wanted relief from functional periodic pain

Cardui is a liquid medicine which many women say has brought relief from the cramp-like agony and nervous strain of functional periodic distress. Here's how it may help:

1 Taken like a tonic, it should stimulate appetite, aid digestion, thus help build resistance for the "time" to come.

2 Started 3 days before "your time", it should help relieve pain due to purely functional periodic causes.

Try Cardui. If it helps, you'll be glad you did.

Senior Red Cross members are busy, for all through the year are at work on some kind of project for the armed forces. Recently 160 Educational Gift Boxes were shipped to headquarters to be distributed to children in Europe who have been liberated. The children lack things our children take for granted, and they will prize the gifts to them. Each box contained one or all of the following items: pens, pencils, paper, compass, protractor, soap tooth brush, wash cloth, needles, thread, thimble, button, handkerchief, marbles, color game or toy.

Senior members are now working on Christmas Units. It may seem the calendar is upside down, but things for Christmas in May and June; but Christmas action must be off in June and if our Military and Naval Welfare Service gets off their ships September 1. These Units go on hospital ships and overseas to reach men who have no other way to get cards to send to their families. So we see that May and June become Christmas this year. Each Christmas contains 500 Christmas cards, holders with envelopes, 250 trays, 50 bulletin board designs, cutouts for table decorations, Christmas tree ornaments, one centerpiece for table, and one copy of "The Night Before Christmas." The County Junior Red Cross members are making 10 Units, so you may know they are quite busy.
