Red Cross Service Offered Troups of Other Nations

Below is a letter released August 10th from the American National Red Cross, Washington, D. C. The Welfare services of the American Red Cross Field Workers in Korea have been offered to the troops of other nations responding to the United Nations call for assistance in the Korean conflict. In a letter addressed to the Red Cross societies of the like countries, involved, the American organization outlined a four-point program it could offer other UN troops until their own Red Cross workers join them in Korea. The program includes counseling on personal and family problems, transmitting or requesting information through Red Cross channels, distributing comfort articles, and providing such recreation facilities as may be requested by the military. The offer went to the Red Cross societies of Great Britain, Australia, The Netherlands, The Philippines, Thailand, Bolivia, and Canada and to the Red Crescent of Turkey. All of these countries have announced their willingness to send forces to Korea. Currently there are 21 American Red Cross field workers in Korea, including three women, providing traditional Red Cross services to American troops. Eleven more workers are on route. The aid offered other UN forces parallels that being given to US servicemen. Since the conflict started Red Cross headquarters at Tokyo has requested \$90,000 worth of supplies for use

The Lone Star State can still stage a sizable roundup on one man's holding as is attested by this scene on the Spade Ranch in Lamb county. The picture presents the last cattle roundup on the Spade Ranch. All of the 6,000 steers visible in this one roundup scene were raised by W. L. Ellwood of Lubbock. At the time the picture was taken the steers had been rounded up to be delivered to W. S. Jones of Lebo, Kansas, H. B. Price of Reading, Kansas, who had purchased them.

Historic Spot In Sudan Changes Ownership

Ownership of a historic spot in Sudan has changed hands, according to an announcement from Mrs. P. E. Boesen, widow of the late banker and founder of Sudan.

The Spanish mission-style home belonging to the Boesens, located at the east approach to Sudan on the Lubbock-Clovis highway, plus 18 acres of attached land, have been purchased by Fred Markham. Markham, a local lumber yard manager, plans to develop this triangular-shaped piece of land surrounding the house as an exclusive residential neighborhood to be designated as "Boesen Terrace."

This will be the sole reminder in modern Sudan of "Pete" Boesen, early-day land agent who designed the present-day layout of the city and established its first bank, post office, hotel and general merchandise store. Boesen died in 1946, at the age of 76 years. One city street there also bears his name.

For years, Boesen's home with its private park, landscaped in trees and shrubs, was the hub of evergreens and numerous other activity here. Boesen was a land agent first, coming to Sudan in 1917 to sell 35,000 acres of ranchland comprising this immediate area.

Originally, Boesen was an immigrant boy from Germany. After working his way through a Cath-

olic college in Illinois as a newspaper apprentice, and publishing small-town newspapers in Iowa, Antonio since her husband's death, with summer visits to Sudan. Four farms included in the Boesen estate also have been disposed of, purchasers including W. H. Lyle, who succeeded Boesen as bank president, Simon Hay, Tom Kent and Markham.

ANY COTTON OR ACREAGE LEGISLATION FOR 1951 WILL NOT BE AS HARMFUL TO THIS SECTION AS HAS BEEN ANTICIPATED

Cheering news for South Plains cotton men and farmers came from two sources Saturday.

K. N. Clapp reported crop prospects the most favorable he has seen during the 27 years he has been observing them for Anderson, Clayton & Co., Houston cotton merchants.

W. O. Fortenberry, Monroe ginners and farmer, expressed confidence on his return from an extended visit in Washington that any cotton or acreage control legislation enacted for 1951 will not be as harmful to this area as has been feared. He was frankly hopeful that the 1951 cotton acreage allotted to the South Plains will be no less than the 1,700,000-plus acres of this year, and may be somewhat more.

He estimated the land still in cotton at about 1,440,000 acres. About 3,500 scattered acres were damaged by hail during the past week, he reported.

He made no revision, however, in his Aug. 1 forecast of a crop of \$79,000 bales the largest in proportion to acreage in the area's history. Clapp makes his forecasts about once a month.

Particularly significant in his report was his statement that the "bottom crop"—meaning the portion of the cotton stalk nearest the ground—is fruiting heavily.

Fleahopper Damage Light

Last year, this portion of the crop suffered heavily in many areas because of fleahoppers. Es-

timates were that the hoppers may have cost the South Plains 200,000 or more bales.

This year the fleahopper damage has been negligible. Clapp said that all types of insects appear to be under control. Poison has been available in ample quantities and losses have been small. But, he cautioned, the insect danger is not over and the nests still could cause a great deal of damage.

Moisture for the area as a whole has been ample, but some portions of the South Plains are beginning to need rain, he reported. These include Lubbock and counties southward and Hockley county, where some fields already have been damaged.

Fortenberry, who is president of the Plains, Texas and National Ginners association, said he was much encouraged by his observations in the national capital that acreage allotments will not be approved in the form proposed in a bill passed recently by the House and now pending in the Senate.

Under one provision of that measure, more than 40,000 acres would be taken from the 1950 West Texas allotment—most of them from the South Plains—and transferred to other parts of the state.

Fortenberry left Washington with the feeling, he said, that total 1951 allotments may be increased substantially—perhaps by as much as 2 per cent—above those of this year. The sentiment for such an increase appeared strong among leaders of both the House and the Senate, he reported.

In such case, he believes, South Plains acreage probably would not be reduced below that of this year and might be increased—although not in the same proportion as some other portions of Texas.

His observation was, he said, that the congressional leadership as a whole is striving conscientiously to do whatever seems best for the country as a whole. At the worst, he added, he does not expect final enactment of any bill which would penalize West Texas and the South Plains as heavily as proposed in the House measure. Even if that bill should be passed, he is hopeful that the provision applicable to Texas acres will be modified considerably from its present form.

**New Super
Market Opens**

Preparations were nearly completed today for the opening of the new Renfro Bros. Super Market at Fourth and Eastside avenue. Plans call for an open house preview of the store tonight at 7 p. m., and regular business hours on Friday. Incorporating all the latest grocery merchandising ideas, the new store is equipped with all-steel shelving and steel fixtures for the ultimate in sanitation and eye appeal. The building is built of brick trimmed with glass blocks,

and contains over 7,000 square feet of floor space. Interior walls are painted in pastel yellow, green and pink, which prove appetizing background colored for packaged food-stuffs.

Raymond Renfro reported there were over 126 feet of refrigerated cases in which to display perishables of all kinds.

Renfro said: "Our new parking lot wont be quite finished for the opening, but when it is we will have room to park 200 cars for shoppers."

"Four new checkout lanes, too, will provide speedy, efficient customer handling so they wont have to stand in line after they have selected their purchases."

lights of various strength. 16,000 L. lights will be installed on Main Street from the Railroad to the Park. Four thousand L. lights will be used in and around the park, on Laurence Street and on Elwood Blvd in front of the school buildings. These lights will also be used on Fifth Street leading out to the Spade highway.

These lights will cost the city tax payers approximately \$92 per month, but will modernize the city as far as the system goes.

Social Security Benefits Will Increase Under New Legislation

The new Social Security bill enacted by Congress will provide the most sweeping revision of federal social insurance in the history of the program.

Now awaiting President Truman's signature, it will bring increased government checks to three million persons now receiving benefits.

The increased benefits will become effective in September and the first enlarged checks will go into the mails Oct. 1.

In addition, another ten million persons, including workers, self-employed and professional people, will be brought into the program, bringing social security coverage to more than 45 million Americans.

Average checks for old age beneficiaries (age 65 or over) will increase 7.5 per cent. The maximum payment to a family will be boosted from \$85 to \$150 monthly and the average maximum benefit for an individual from \$26 to \$46 monthly.

The cost of the program, now approximately \$2.5 billion a year, will increase to above \$7.8 billion by 1970.

To meet the higher costs there will be increased payroll deductions which will rise gradually over the next 25 years.

The first increase in payroll deductions will be effective after Jan. 1 when the first \$3,500 of a beneficiary's salary will be taxed. Under present law, the first \$3,000 is subject to the one and a half per cent withholding tax. This tax is matched by employers.

During the next two decades there will be four rises on a 60-employer-employee basis in the payroll tax. In 1954, employers and employees will each pay two per cent. The tax will rise to two and a half per cent each in 1960, three per cent in 1965, and three and a quarter per cent in 1970.

The additional 10 million persons covered by the new revisions in the 1935 law will come under the program after next Dec. 31.

They will include 4,700,000 self-employed persons, one million domestic servants, 550,000 regularly employed farm laborers, 150,000 employees of state and local governments, and persons working for non-profit organizations.

New groups covered by the program after Dec. 31 include:

Non-farm self-employed; state and local government employes (on an elective basis); regularly employed non-farm domestic workers; agricultural processing workers off the farm workers; employes of non-profit groups (on an elective basis); federal employes not now covered under retirement systems; Americans employed by U. S. employers outside the U. S. and employes on American aircraft outside the U. S.

Also covered are full-time wholesale salesmen; full-time insurance salesmen; paid drivers and commission drivers distributing meats, vegetable or fruit products, bakery produce, beverages (other than milk), or laundry or dry cleaning services; industrial home workers earning at least \$50 during a quarter if subject to state law regulations.

Exempted from coverage are the following: physicians, dentists, osteopaths, chiropractors, optometrists, veterinarians, funeral directors, lawyers, accountants, professional engineers, architects, Christian Science practitioners, and naturopaths.

Liberalized eligibility provisions will enable 500,000 persons not now covered by the law to obtain government benefits immediately.

Another feature of the new law is a provision for a lump-sum payment to be made upon the death of each covered person. The maximum will be \$240.

The bill also provides liberalized payments to the blind and to dependent children. It also extends the social security program to Puerto Rico and the Virgin Islands.

The new bill provides for fractional year of employment, a pro-rated benefits for each additional year which is not in the existing law. Comparisons as to the benefit received under existing law and under the new law are therefore not practical.

However, here is an indication of the difference in new benefits received by a man or woman aged 65 or older:

(40 years coverage)	Mo. Bens.	New Law	Mo. Bens.	New Law

It's a *very* satisfying feeling

YES, it's good to slip into a truly fine automobile and sense its richness, its comfort, its room.

And there's a great thrill in touching off the waiting power of a great-hearted straight-eight and feeling its swift response at any speed. It's fun to count the quick, admiring glances thrown your way.

It's nice to have a car that parks easily, for all its inches. It's very pleasant to do away with gearshifting and clutch-pedal pushing, and know in its stead the utter smoothness of Dynaflo Drive's silken transmission of power.

And still that doesn't probe the depths of a ROADMASTER owner's secret satisfaction. For while he knows he has a fine car, by its look, its feel, its appointments—

While he has performance at his command that needs play second fiddle to no other on the road—

While he enjoys a very special measure of creature comfort in the quite matchless gentleness of ROADMASTER'S ever-level ride—

He knows too that he has made an exceptionally wise investment.

He has spent his money for the things that make a fine car fine—and nothing simply for show.

He has paid the lowest price per pound in the fine-car field—he has the very satisfying feeling of knowing his dollars have given him solid merit, and solid merit alone.

We'd like to have you try ROADMASTER in honest comparison with the highest-priced cars to be found. We'd like to have you try to match it for room, for comfort, for finish, for handling ease and for ability on the road.

Then check the prices—and see if your own sense of value doesn't advise signing up right now with your Buick dealer for a Buick ROADMASTER.

This rugged front end (1) sets the style note, (2) saves on repair costs—vertical bars are individually replaceable, (3) avoids "locking horns," (4) makes parking and garaging easier.

Information For Veterans

Q — I applied for disability compensation for pulmonary tuberculosis, and my claim was turned down by VA. I think I am now eligible under the new law increasing the "presumptive period" for tuberculosis to three years after discharge. Must I submit another application?

A — No. VA will review automatically the case records of all World War II veterans whose applications for compensation based on alleged service-connected pulmonary tuberculosis have been rejected.

Q — If I get a GI loan, how much of a down payment am I required to make, under VA's new ruling to conserve essential material and labor?

A — In the case of automatic loans made by supervised lenders, you must pay all closing costs in cash. In the case of other loans requiring prior VA approval, you will be required to make a cash down payment of an amount equal to at least five percent of the purchase price or construction cost.

Q — My son is a war veteran and a patient in a State hospital.

Am I required to pay for his board or should it be paid by VA?

A — VA may not assume maintenance unless hospitalization is indicated for treatment of a service-connected disability, and the VA determines a bed is not available in a VA facility. Payment may be made by VA only from the time care is authorized.

Water Engineers To Conduct Hearing In Plainview; Farmers Invited

The State Board of Water Engineers will conduct a hearing in Plainview August 29 prior to designation of one or more water reservoirs for conservation districts. The hearing will be held at 10 a. m. Tuesday in the municipal auditorium at Plainview.

Any man who thinks he should be in or out of the district should be prepared to appear before the board, giving reasons for his desire to be included or excluded from the proposed district," Duggan advised.

Designation of reservoirs by the State Board is a step towards formation of conservation districts under provisions of House Bill 162, passed by the 51st Legislature in 1949. The law provides for districts, controlled by local elective boards of five directors, to conserve, preserve and protect underground waters in a program of well spacing, re-charging and waste prevention.

Members of the board are H. A. Beckwith, A. P. Rollins and James S. Guleke.

The hearing is for 21 Panhandle-South Plains counties, Armstrong, Bailey, Briscoe, Castro, Cochran, Crosby, Deaf Smith, Dickens, Floyd, Garza, Hale, Hockley, Lamb, Lubbock, Lynn, Oldham, Parmer, Potter, Randall, Swisher and Terry.

one hundred people, and many sent gifts who were unable to attend.

The guests as they arrived were registered in a white satin bride's book. The house was decorated throughout with lovely cut flowers.

A touch of excitement was added to the shower when all lights over the city went out due to an electrical storm. Immediately candles were lighted throughout the house and the remainder of the shower was conducted by candlelight.

Miss Cowan, and her fiancé Weldon W. Meers, were led by candlelight to a room where the gifts were piled high and by the soft rays of the candles the gifts were opened and displayed. Assisting the bride and groom in the opening of the gifts were Mrs. P. A. Cowan, mother of the bride-elect, and Mrs. Weldon B. Meers, mother of the groom.

Refreshments of individual frosted cakes and punch were served. The hostesses were: Mesdames Jack Taylor, W. M. Taylor, E. D. Dickson, J. T. Jamieson, J. E. Dillon, E. Wallace, R. L. Turvaille, H. N. Tapley and J. H. Attaway. The hostess' gift was a set of dishes.

Miss Cowan will be married to Weldon W. Meers on September 2nd at 8:00 P. M. at the Littlefield Missionary Baptist Church. Rev. Weldon B. Meers, father of the groom will officiate at the wedding.

First Football Game September 1

Jay Fikes, Littlefield football coach, said Wednesday that it was too early to forecast the outcome of any "pig-skin parties". Thirty-one boys turned out for training camp and are working into fighting trim.

The first game, a pre-season skirmish, will be on the Littlefield gridiron Friday, September 1st, and will find Crosbyton as the opposing visitor. At the present time the team line-up has not been permanently established.

Fikes reports the boys, on an average, to be lighter than last year, though standing up well under present training conditions. The game with Crosbyton will get the team set up several days before the formal school opening, and may foretell the future of Littlefield's Eleven in the conference.

Starting with the opener next Friday night with Crosbyton, the scheduled football games are: September 1, Crosbyton (here) September 8, Lockney (there) September 15, Open date September 22, Post (there) September 29, Roscoe (here) October 6, Brownfield (there) October 13, Muleshoe (here) October 20, Slaton (there) October 27, Morton (there) November 10, Levelland (there).

All games are conference games with the exception of the first two.

Anton Wins Softball Trophy; Maytag Forfeits After Tie In Series

Bill Molder, manager of the Anton softball team accepted the trophy Tuesday night when the Maytag team failed to show up. Anton and Maytag had been the top teams and played only two games in the final playoff.

Monday night found the two teams splitting a doubleheader under the lights at the fairgrounds softball diamond. Anton took the first game 6 to 0 when Joe Ater slugged a 3 base hit in the 4th inning bringing in telling runs. In the 6th inning Byerly hit a home run for Anton. Final statistics showed Anton getting 7 hits and Maytag 5 hits.

The last game of the doubleheader Monday showed the Maytags off to a good start that Anton never caught up with. In the third inning Sam Lamberth hit a home run with the bases loaded that brought in 4 scores for the Maytag team. Final tally was 6 to 3 Maytags over Anton. Statistics for this game give Maytag 7 hits Anton 5.

Pitching was done by Young for Maytag in both games, and Moran and Lambeth dividing the games for Anton.

This wound up the softball league series for the summer and plans are all ready under way for the 1951 season.
