Memorial Day Storm Causes Some Damage

Hot, sticky weather and a sudden storm made news this week when the South Plains and Lamb County received the brunt of a cold front passing through the area.

Monday evening a sudden storm blew into the county, bringing rains of more than 2 inches in places, and winds up to 70 miles per hour in velocity.

Blinding dust accompanied the high winds, followed by a down-pour that varied from less than an inch at the oil mill to more than 2 inches at Amherst and vicinity.

The high winds damaged the XIT drive in theatre on the Leeland highway, blowing part of the screen tower more than 100 feet, and turned a house trailer over on its side at the Broadmoor courts. No one was injured as the occupants of the trailer were away for the holiday week-end when the storm blew up. The wind also damaged the roof of a warehouse on Levelland highway.

Limbs and branches were blown off trees, littering the streets Tuesday morning, and most homes facing west received a generous splattering of mud from the first blow of the storm. Temperatures have ranged from the mid 50s to a high of 97 recorded Tuesday afternoon.

Woodmen Paste Jaycee Little League Nine Tuesday Night 17-4 In Opener

Max Ball Fans 12 of 16 Batters . . . The W.D.W. nine turned loose a barrage of hitting to down the Jaycees 17 to 4 in the first game of the Little League series Tuesday night at the rodeo arena. In the top of the first Jerry Kohler got on through an error and scored on another mistake. Jerry Connell took four balls and got a free ride to first. However the side was retired before he could score. The Jaycees got the ball game rolling in the bottom of the first with Jimmy Don Whitson belting out a single and Allen Dunn getting walked to first. Mike Steffery made use of the first sacker's error to drive a run home. Pete Estrada also got on the sacks with an error but was tagged out on home.

In the top of the second Max Ball batted out a single, Ray McKinney and Craig Brestup walked to first and Jerry Kohler brought them all in to score with his hard hit home run. Roger Morris also walked and scored on the first sacker's mistake. The Jaycees failed to meet this rally as they were up and down in order. Two hits in the top of the third marked W.O.W.'s ever increasing threat. George Cox slammed out a first-bagger and Dennis Newton followed his example. Newton scored on a third sacker's mistake but Cox was tagged out at third. Ray McKinney walked to first but was left on base as the sides changed. The Jaycees got their offenses rolling in the bottom of the third Jimmy Don Whitson sent a single through the infield. Mike Steffery, aided by an error, reached first safely. However, both were unable to score because of the good team work of the Woodmen.

Roger Morris and George Cox both sent singles bounding through the infield in the top of the fourth Pete Pierce followed these up by knocking a double to drive in one-run. Dee was tagged out at third and Cox left on base as Jaycee teamwork halted any further threat. Only one Jaycee managed to reach the sacks safely for the Jaycees. (Continued on Page Six)

The other accident occurred late Sunday when a car driven by Lee Mitchell of Lubbock struck a cow near Amherst damaging the car to the amount of \$100, and causing considerable damage to the cow.

The wreckage in the foreground was blown more than 100 feet by winds making a force of 70 miles per hour. The damaged portion of the screen tower, using may be seen in the dark section in the background. Showing at the XIT when the damage occurred. (Staff Photo)

A casualty of Monday evening's violent squall was this trailer house belonging to W. E. "Slim" Fraley, parked in the Boardmoor Trailer Court. No one was in the trailer when it overturned. Mr. and Mrs. Fraley are reported to be somewhere in Kansas. He had been employed on the construction work at Plant X until that work was completed a few days ago. Attempts to locate them have so far been unsuccessful.

Investigating the wheels to see if they turn are two year old Kerry Hennon, who lives in the trailer next door, and four year old Doug Poe Jr. The furniture inside the trailer is pretty badly scrambled and will have to be tumbled again when the trailer is right, because the only entrance by which it could be removed is flat on the ground. The bride, who was given in marriage by her father and her mother, wore a traditional white satin dress, with yoke and stand-up collar of lace which was accented by seed pearls, the long train joined to a voluminous skirt of satin with a deep tier of lace around it, terminating in a train. Her veil of illusion was joined to pearls and beads. She carried a bouquet of red Happiness roses.

Interesting People

"I love these summer days" . . . "I love the winter, too, though" . . . "I just love the days . . ." Mrs. W. D. T. Storey's formula for finding life exciting seems to be filling her days to the brim with doing things to bring pleasure to others.

Although Mrs. Storey does not regard herself as having a particularly interesting personality her life is one of many facets.

In talking with Mrs. Storey, it appears the most important interests in her life are her husband, their son David whom they lost February 26, 1945 in the service of his country, and her church, Littlefield Drive Church of Christ.

The Storey's only son, David Clark Storey, was killed at the age of twenty-one "this side of Starbuckien, Germany just before the town was taken by the Am-

ericans" while serving with the 30th Division of the seventh Army. David went into the field to replace a man who had been shot in the legs and "there was no one to replace him."

He had volunteered in 1942 and was not called into service until April, 1943. He went overseas in July, 1944.

Mrs. Storey carried on a long,

intense correspondence with officers and friends of her son in his last days to learn what meager details she finally obtained about his death. The young man whom David replaced on the field lost his legs but came out of the war alive and is now married and the father of three children. The family lives in Oregon and the Storeys plan to visit with them sometime soon. They exchange Christmas gifts and always receive flowers on Memorial Day for their son's service.

She still corresponds with friends of her son and "she never ceases to pray" as when someone steps up and tells her they know him. A little name of some is alleviated when they tell her they "are" are given of at his passing."

Twenty years of teaching in church school to the same age children, fifth and sixth graders, is the record set by Mrs. Storey. After her son's death she thought for a time she would give up teaching the class but felt "the children did so much for me."

Mrs. Storey is a regular attendant of the Ladies Bible Class each week at the Littlefield Drive Church of Christ and interested in all phases of the church's work, but anxious that no one regard her as "good."

A past president, Mrs. Storey has been a member of the Woman's Club since the 1922 year, except for short intervals when they lived elsewhere. She has served on most of the club's committees and because of her ability in dramatics and creative writing, she has been asked to write and produce many interesting programs for special occasions.

The Order of Eastern Star also occupies an important place in the life of this interesting woman, "but does not by any means take the place of my church." She is a Past Matron of the Littlefield Chapter.

Mrs. Storey came to West Texas for the first time as a bride and has always loved living on it. (Continued on Page Six)

Scotch Foursome Memorial Day At LFD Country Club

A Scotch foursome was played at the Littlefield Country Club Memorial Day. It opened and 19 men came out to see who was best.

A Scotch foursome is where a man tees and another catches, tees up and another hits. The team with lowest score on the score sheet is the winner.

First—Herman Evans and Jens McCarty with a 41. Second and third were tied with 43.

David Kollies and Glenn Smith had a 45, and J. C. Taylor and Ann Barnett had a 48.

After the dinner, the golf club and club members, a band and Mrs. A. J. Taylor, who had to be escorted with three men, 53 people enjoyed themselves in the First Foursome and afterwards. Most of them will get out and about in the second 1955.

WOW Wins ...

(Continued from Page One)
Pete Contreras pitched first after slugging out a hard hit ball directly at the pitcher. Pete was left on base as the field changed.

In the top of the fifth, the longest inning for the Woodmen there were plenty of hits that reached the base. Donnie Newton, Ray McKinney, Chas. Strup, Roy Moore, Johnnie Roberts and Dennis Newton walked, scattered in various ways. In the bottom of the fifth, Max Hall's lead-off double batted two bases, slugged out one home run and Max Hall's full swing, which was topped out twice during the inning while trying to hit a third out.

The game was brought back to Pete's lead-off hit, but not a single run scored. However, one run did score on an error in the bottom of the fifth.

Ray McKinney was walked and driven in home by Jerry Koler's against-moss-walk double bagger. Donnie Douglas walked but was tagged out as he tried to score.

The Jayses got a man on base very promptly in the bottom of the sixth. Billy Halton walked but was thrown out as he tried to reach the plate.

Pete Contreras managed to make first after the third-bagger made a booby. But Pete was stranded on base as the side was retired for the final time.

Max Hall started in a superb job on the mound, and relieving Jerry Crossed in the first inning. He pitched 7 1/2 of the 16 innings, facing 14 and allowed only 2 hits.

Final score:
W. O. W. 17
Jayses 17

Winning Pitcher—Max Hall
Losing Pitcher—Terry Estrada

Plains. Mr. Storey served as County Agent several years such in Oklahoma, Arkansas and Texas, teaching school before this.

As the wife of the Littlefield Postmaster for twenty years, Mrs. Storey has learned to know most of the postmasters and their wives in the state and many over the nation. Both she and her husband regard many of them as "friends of a span of a lifetime" and are delighted that although Mr. Storey is now retired they are still invited to all the conventions. During the twenty years of office, the Storeys only missed attending two conventions, one when they received word of the death of their son, and the other when his body was being shipped home.

In attending the state and national conventions, the Storeys have visited most of the larger cities of the nation, some of them many times. They have had close association with many national figures. Without a trace of braggadocio, Mrs. Storey imparts the feeling that she has been privileged above the average person to be able to know so many personages, more proof that she "lives life and people, loves to be around."

Travel is still on their agenda and they spend a good part of their time in making trips. They have traveled in Canada, Mexico, Havana and most of the United States.

A graduate of piano, majoring in fine arts, Mrs. Storey taught music for a number of years. She has taught in public schools nine years, five of them in Littlefield during the War years. Many of the students she has taught are now graduating from high school and are quick to say she gave them a good foundation.

Reading is a favorite occupation

of this busy woman and her home is filled with classics, and books for everyday use. Original dramas to be used for some particular occasion, or written simply to satisfy her creative impulses and stashed away for the future, take many hours of Mrs. Storey's time.

Corresponding with her many friends consume many more hours. She corresponds with friends in Japan, Guam, Australia, Mexico, and South America in addition to the many friends in her own country, and she finds they are "so interesting."

Many are the friends and acquaintances whose hearts are lightened by the "thank you notes for special favors, or the notes written to alleviate sorrow, or to remind someone of a talent they have which come from the hand of Mrs. Storey.

Christmas is a very special time to Mrs. Storey and she spends a great part of the year preparing for it, believing "there is no time of the year that gives a person a chance to do things like the Christmas season." Even now she is

busy dressing dolls and making other gifts to be given to some lucky girl, or cutting decorations for elaborately decorated Christmas stockings.

Possessor of a special talent for seeing beauty in bits of ribbon, feather, scraps that others would discard, she fashions plate favors for parties, or dolls or giftbox decorations, using some in her own gift giving and giving some to others. Last year at Christmas-time she taught a teacher in the colored school how to make many such articles so that she might pass the skills to her pupils for their pleasure. Many a lucky little girl has been the recipient of a complete set of party favors, or a boy has been surprised with "the works" for an Indian party made entirely from brown paper sacks and ingenuity.

The youngest of six children of Lou Clark and Mary Elizabeth Wines, of Tennessee, Nannie Kathryn Clark was born at Vernon, Texas. She met her husband while attending North Texas State Teachers College at Denton. Mr. Storey

enlisted in the Army in 1918, went overseas and returned were married June 1, 1920. Stillwater, Oklahoma.

To know the whole of her personality, her collection of the country with her finds, dolls, pans, shoes, and cup-and-saucer sets have to be seen. She also has a collection of "The David C. Storey" given under the direction of Dean of Men at Texas Tech. The Storeys in the love they have for each other, "the finest young ever saw."

The "making of the Lady" home as a sewing row and has controlled a ready fruitful life. To add after thirty-five years of and to add to the joy of sorrow of so many must surely define "the

CRITICS OF THE PERFECT

By TOMMY WILLIAMS, Minister

It is said that taxidermists were carrying on a conversation in a window in which an owl was on display. Being professionals in art they were discussing, they immediately began to criticize the mounting of the owl. Its eyes did not seem natural; its feathers were not very well arranged; its feet needed improvement and its wings were out of proportion. With their criticisms completed they were about to leave when the owl winked at them. The bird was perfect and alive.

have some knowledge of life—its meaning, its purpose, its destiny; but the knowledge men possess shall never stand above that of the Author of life and the Prince of life.

A naturalist cannot improve upon nature itself. An artist cannot paint a picture more perfect than the landscape. Even so, no philosopher can suggest a way of life more perfect than that given to the world by the very source and sustainer of life. God's ways will never be improved upon. To criticize them is to find fault with the perfect.

"For as the heavens are higher than the earth, so are my ways higher than your ways, and my thoughts than your thoughts" (Isaiah 55:9)

About Repentance
Lesson for June 5, 1955

IT IS easy to talk about large groups of people, even so large as to include millions of persons, as if they were one single person. We talk about "Russia" as if it were one big bandit. We talk about "America" as if the nation lived under one hat. We speak about General Motors or the Church in the singular; "It" does so and so or says this or that. Evangelists call on "America" to repent, as if America could walk down the aisle and shake the evangelist's hand and join the church. Now if there is one thing Christianity stands for, it is the responsibility of individuals, by themselves, before God. And yet there is some meaning in all the talk of immense aggregations of people as if they were single persons.

Dr. Foreman

Seducing the People
In olden times, so olden that most people have forgotten all about them, there lived a king, not well-known to fame, named Manasseh. In his time a king could "be" the country in ways that no king now enjoys. Kings in those days had absolute power. The smart ones did not push their people too hard; they only held out the carrot, so to speak, in front of them. But a king, especially when his country was a small one like Manasseh's Judah, could just about make his country do what he wanted it to do. If the king was bad, the people were bad; if the king repented, the people repented with him. The days of such kings are over, nearly everywhere. And yet, without the title, there are men today whose desires, notions, ideas, prejudices, ambitions, hatreds and loves can be so communicated to others that they can deliver the vote. If they need to, of millions who follow their lead. It is said that King Manasseh "seduced the people." He did this without benefit of radio, TV, or advertising in slick magazines. Nowadays how easy it is to seduce the millions! One "spot" on one radio station can reach a hundred thousand people. Pictures can be made so lifelike that they can deceive almost anybody that is not smart. Seducing the people is simple, if you have the money.

Half-gods Arrive
"When half-gods go, the Gods arrive," sings a poet. You can turn that around and still be right. When God goes, half-gods will swarm in. When bad Manasseh ruled his land, for a long time he would have nothing to do with the true God. But he was not an atheist, oh not by any means. He put up altars all over the place, even in the courts of the Lord, you could hardly get out of sight of some place of worship in Jerusalem. He dealt with mediums and with wizards. All sorts of bad religions and silly superstitions flourished under his majesty's patronage. You may be sure he was no lone idolater. You can hear them saying down on the farms, and out in the little villages, "well, if it's good enough for King Manasseh, it's good enough for me." So it is still and always. There have been times when religion "declined" as the quaint phrase puts it, here in America as in ancient Judah. But that was only the declining of the true religion. Other religions and cults and superstitions flock in to take Christianity's place. People simply will not live in a religious vacuum. They would rather be idolaters than atheists.

A High-flyer Humbled
This King Manasseh lost a war. For some time he was a prisoner in an enemy country. When he came back home again he was a changed man. Prison had given him leisure to think. Things were different in Judah after that. He did his best to undo the evils he had set the example in doing. He went to church, as we would say, and he listened to men of God. It was a little too late, for his son Amon had already gone too far in the ways of evil to turn back. But still it was well that he repented, for many of his subjects served the true God thereafter, as he did. Suppose America—that is to say, millions of Americans, leading men and women in every walk of life, repented this year of even one of our national sins—say drunkenness. It would be good to repent... but would that bring back all the lost week-ends?

"Open Living" Trend Shows Up In Sales Of More Convertibles

DETROIT — The trend toward "open living" in residential design is being followed by "open traveling."

At least, this is suggested by figures from the Chevrolet Motor Division which show record-breaking convertible model activity.

According to T. H. Keating, general manager of the company, convertible output in the first six months of 1955 model production was approximately double the 1954 model experience.

"As a matter of fact," Keating added, "we have already produced more convertibles than in the entire model year of 1954."

Keating said that while the low, fleet styling of 1955 models lent itself particularly well to the lines of the convertible, he did not feel this the complete answer to booming convertible demand. A wide variety of new and livelier colors and the enhancement of two-tone "vertical" color application should be given some credit, he declared.

Miss Gray is the bride-elect of Rev. John Watt. Miss Gray's colors of green and white were carried out in the entertaining room. A host of her friends were helping Mrs. Presteridge.

The new offices of Alec Thompson are coming along nicely and he will be in them soon.

Sinclair, whose wife, Jan, lives at 1010 Avenue Q, Lubbock, arrived in the Far East in January 1955. A 1950 graduate of Littlefield high school, he entered Army in July 1954 and received basic training at Fort Bliss.

U.S. GOVT. GRADED QUALITY MEATS

The mouth watering aroma of good meat cooking over a charcoal fire — the sharp tangy smell of a bit of hickory smoke — the cool fresh look of a table set in a grassy, tree shaded yard: These are the things that make summer appetites grow and grow. Try it this week end. Piggly Wiggly has just the right things.

Mix 1-1/2 pounds Beef Chuck lightly with 1/3 cup catsup, 1 teaspoon prepared mustard, 1-1/2 teaspoons Worcestershire sauce and 1 teaspoon salt. Shape into 1-inch patties. Broil 8 minutes to a side. 6 patties.

Choose tender club, T-bone, porterhouse or sirloin steak. Trim off outer fat. Use this to rub on hot grill to keep steak from sticking. Broil first side of steak to desired brownness; turn. Do not pierce meat. Salt and pepper browned side. Continue broiling till steak is done to a turn. Season second side. Top with a pat of butter. Come and get it!

Through A Glass Darkly

By CARROLL POUNCEY

Our correspondent from Stokes-Poges, Twyckenham on The Hants, Lower England has forwarded the following for your almost complete disregard:

"Dear Sir (spelled CUR) please write more about shotgun houses and wed- in Louisiana."

It fall to see any tangible connection between the two, but here goes. All those put the paper down at this point may NOT a refund on their subscription.

This little gem, by way of explanation, written about 10 years ago, when even Louisiana seemed like a good place to be. The war was five months from port out in the ocean aboard a vessel that could not in the wildest reaches of the imagination be called a pleasure boat.

That time was Autumn. Indian Summer had, looking at the browns and yellows of the trees that had been green for long. Autumn when you could barely see 663 mile post down the railroad track on the boarding house porch because the blue with haze of piney hills in the distance. The road through the town was dusty this time of the year. It seemed the road was always either fine red dusting into every inch of the shoddy "comm- houses, or else it was thick red gum- which clung tenaciously to every- it touched.

The Indian summer was a dry season, but the rains would begin to fall and the would be turned into bog holes. In the moon the boys would cut kindling wood the evening fire in the cook stove and the klan heater in the living room. Stopping on the double bit axe handle they all be unconsciously caught in the nosta- of the moment and would watch the from the sawmill back of the com- sary, and smell the sour crisp smell of er soaked pine logs in the mill pond.

Now they could see the mill from the h, and in the woods about the town the and was almost knee deep in fall leaves. times when they were chunking hickory they would see a fat red squirrel run up ylbark tree, his jaws bulging with pine for the winter ahead.

The rain crows uttered their dolorous and the men moved from their benches the park.

Up the road in the lanes between the es, leaves had ben raked into piles and e burning. The smoke rose in lazy blue ds of sharp pungent oak smell and the e flames crackled and leaped in and out the smoke.

Across the street a door slammed; the nt watchman punched in at another key on a dog barked somewhere.

Then all was quiet.

HIGHLIGHTS and SIDELIGHTS

By VERN SANFORD

AUSTIN, Texas. Beer was tapped for big pay-off as the Senate rolled out a new bill—expected to pour \$108,000,000 in money into the treasury in two years.

On the 137th day of an overtime session, the Senate passed a many-changed version of the House tax bill. It left the last say to House and hoped for a quick windup.

The bill is expected to produce \$62,000,000 during the next two years, for the general revenue fund. It carried a bookkeeping allocation feature which will give this fund \$3,000,000 more from current taxes. Thus it offered the House \$9,000,000 more than the \$6,000,000 required to unblock the record billion and a half dollar appropriation bill. It provides about \$44,000,000 in the biennium highway purposes.

Three round pennies will carry the brunt of the burden of the new tax structure—one cent more on gasoline and cigarettes and a new levy of a penny a bottle on beer.

In this, the sixth main version of a mon- bill, the Senate swung back to the House's proposal of one cent on gasoline and cigaret- But the Senate substituted a whopping \$16,000,000 a year additional tax on beer for the House's \$1,000,000 a year increase on beer and wine dealers' license fees.

Final passage was voted 18 to 13.

Stripped out of the Senate passed tax bill were House proposals for a levy on cigars, snuff and tobacco. Added was a token one- cent of a cent levy on "dedicated" natural gas—long-term exclusive contracts, payable by the long pipelines—and expected to pro- duce \$2,000,000. Gas pipelines were put un- der the intangible assets tax.

Dropped were Senate proposals for manufacturing taxes and gross receipts taxes on department stores, hotels and motels. Re-

Letters To The Editor

Box 128,
Muleshoe, Texas
May 27, 1955

EDITOR:
Lamb County Leader,
Littlefield, Texas,

Dear Sir:

I have never written a letter to an editor before but I disagree with you so strongly on your editorial about the CWA - CIO union members, here goes.

In that editorial you stated that CWA and CIO union members were nothing but common criminals and sir, when you call my husband and all our friends common criminals, I resent it very much.

My husband, George W. Chapman, has been an employee of the General Telephone Co., for eight years. He likes his work and his employers. We've been in Muleshoe nearly five years and during that time Muleshoe has nearly doubled itself—telephone wise. He likes the telephone company and it seems to me that men like you (complete outsiders) are the ones that are trying to stir up trouble between the union and the company. You state that this union has been resorting to violence and destruction in the Deep South—were you there? Did you see CWA - CIO Union Members destroying anything or did you just read about it in the newspapers? How do we know it wasn't men like you (interested in keeping rate increases from materializing and the union members from getting a raise in pay) that cut cable and did other damage?

May I ask if you know of any other business firm in Littlefield that has as large a pay roll as General Telephone Co? Don't you realize that your merchants and business firms get their money back from the rate increases by this large pay roll?

By the way, talking about rate increases why did you people go up on your paper from a nickel to a dime if not to pay your employees a living wage?

Next time you call a union member a common criminal, just remember this—he only wants a decent living for his family the same as all employees of any company or firm. May I say again I strongly resent my husband being called a common criminal when I know him to be among the best of men.

Mrs. George W. Chapman

(Editor's Note: It was never our intention to infer that local employees of the telephone company are criminals, either common or uncommon. However, experience and logic causes us to hold the personal opinion that elements of their union were probably responsible for criminal acts which were committed in connection with a telephone strike recently.

ected by the Senate was a gross receipts tax on the metals and chemicals industries.

Sen. Grady Hazlewood, slender, graying members from Amarillo, emerged with the winning combination to unblock the long and confused Senate fight for new revenues.

At Friday's session, Sen. Otis Lock of Lufkin, who termed himself the "coerced sponsor" of the tax measure, offered a new "in between" plan which salvaged part of Governor Allan Shivers' original recommendations and made concessions to an abdurate House.

Lock proposed a 1 cent increase on gasoline, halfway between the two cents the Governor wanted and the one cent the House voted; and 1½ cents on cigarettes; along with a 25 cents per \$1,000 franchise tax levy on corporate stocks. It would bring in the needed \$56,000,000 to the general revenue fund, he said.

But Senator Hazlewood came up with his substitute and it was favored, 22 to 9, over the Lock plan.

The final vote put both the House and Senate on record for a one cent only increase on gasoline, making the entire bill more palatable for House concurrence.

Beer industry leaders, who had successfully fought off a proposed \$1.30 per barrel increase in the House and also in Senate committee (which would have raised the total rate to \$3.30, or to 1 cent per bottle) suddenly found their industry saddled with a tax of \$5.30 a barrel—or an additional 1 cent per bottle tax.

Veterans Land

New batches of indictments against former Land Commissioner Bascom Giles were returned in Travis County. Five indictments charging theft linked B. R. Sheffield of Brady with Giles. Eight charges of forgery were made against Sheffield. Then five more indictments against Giles and Sheffield charged theft and conspiracy of theft.

A court of inquiry on Land Office affairs droned on, questioning all employees of the land office.

Giles' scheduled first trial at San Antonio, on a bribe charge, was postponed until August. Postponement was granted on an affidavit that a House member, Rep. Cecil Storey of Longview, had been employed as one of his lawyers. This was statutory grounds

for postponement until 30 days after the end of a session.

Both the trial judge and the district attorney criticized the law forcing such postponement.

Rep. Dolph Briscoe, Jr., of Uvalde, author of a series of bills to clean up the veterans' and administration, immediately put in a bill to restrict enactment of legislation. Briscoe's bill would limit the automatic postponement privilege to legislators hired within one week after a case or indictment was filed—or to cases where the Legislature was the only attorney representing a defendant.

Short Snorts

Governor Shivers vetoed a bill raising speed limits on all highways from 60 to 65 miles an hour and to 70 miles on four-lane divided highways. It would increase traffic deaths and accidents, he ruled.

In all the turmoil of the tax deadlock the House took time out to pass a constitutional amendment resolution to create mosquito tax districts.

A badly slashed Trinity River Authority bill passed the Senate. A feature was inserted to allow downriver users additional water above their old "normal flow" rights, without paying for it.

Rep. J. O. Gillham of Brownfield won House passage of his bill to raise college registration fees from \$25 to \$30 a semester. But it was modified to exempt students working 20 hours or more a week. Sen. Jimmy Phillips of Angleton promised to fight it un-

til adjournment if taken up in the Senate.

Sen. William H. Shireman of Corpus Christi abandoned his bill requiring lobbyists to register. Opponents amended it until he said it affected public officials more than lobbyists.

Rep. J. E. Cox's "unfair sales" bill passed the Senate after it had been watered down until opponents said it was unconstitutional—but meaningless even if valid. The Conroe representative's bill was resisted to grocery stores. Its prohibition against selling below cost also prohibited a merchant from limiting sales or refusing to sell his entire stock to competitors at the advertised price. This would enable competitors to buy the bargain merchandise before housewives had an opportunity to take advantage of the advertiser's specials.

Don't Neglect Other Safeguards While Waiting For Salk Vaccine

By Dorothy V. Whitple, M. D. AP Neustatutes

Every summer the fear of polio has sent cold shivers down the spine of almost every parent in the land. Now we can relax — at least we can as soon as the supplies of this precious new Salk vaccine are sufficient for all our children to receive their shots.

Parents have responded to this wonderful new milestone in the fight of man against disease with characteristic American enthusiasm.

I don't know what the final figures will show, but around Washington at least 90 per cent of parents of first and second graders signed the slips giving permission to have their children give the vaccine in the schools. This is a wonderful tribute to the faith our people have in science.

These free shots for first and second graders are the gift of the National Foundation of Infantile Paralysis. The vaccine for all these children takes just about all that is available right now.

The parents of youngsters not in the first or second grade must wait until more vaccine can be made.

Since the vaccine takes time to make and to test, the supply will not be enough for everyone until sometime in the fall.

Children who are in the greatest danger of getting polio should be given the vaccine before those in less danger. The most susceptible age group is the youngsters between 5-10 years of age; next comes the 1-5 years old, and finally the children over 10 and young adults.

Many parents have already put their children's names on doctor's lists and are anxiously waiting.

I'd like to give a tribute to all mothers of my patients and all other mothers like them. Not one has asked for special favors. A real mother understands the feelings of other mothers and she will not try to push her youngster ahead of someone with a greater need. This sense of cooperation is the very life blood of our free and democratic land. It's what made Salk vaccine possible.

But it's hard to wait even though

Take your problems to Church this week — millions leave them there!

Don't Depend On Luck!

It's an old custom for the bridegroom to carry the bride over the threshold of the home in which they are to begin their life together.

There are a few good rules for newlyweds, which if observed insure a successful married life for any couple — without depending on luck. These are cooperation, a spirit of give and take and a genuine desire at all times to understand one another and to promote the other's welfare.

Regular attendance at church proves a tremendous aid in keeping the married life on a plane where it will not go on the rocks. In the adventure they are embarking upon both the bride and groom need the Church.

**Safety Pays,
Especially
On Vacation**

Vacation motor travel is big
business in the United States.
Each year more and more vacation-
ers take to the road, with the
majority in private cars and the
average car is driven 1,200 miles
during the vacation. As motor
travel booms, traffic accidents,
especially in rural areas, also
boom.

The Texas Farm and Ranch
Safety Committee offers a few
suggestions which they feel, if
followed, will take some of the
boom out of accidents. Give the
family car a thorough check-up
before starting and watch for
signs of trouble along the way.
Don't block vision, say the experts,
by improperly loading the car.
Good vision is a must for safe
driving.

Be prepared for emergencies.
A first aid kit, maps, permis-
sion, identification, a flashlight and
a tool kit and maybe a few spare
parts should be carried along.

With the driver rests much of
the responsibility for a safe trip.
His efficiency is greatly affected
by fatigue. Plan the trip, urges
the committee, to allow rest stops
during the day and a good night's
sleep each night. And don't try
to drive and see the sights at the
same time.

Ignorance of the law is only an
excuse. Most states use standard
traffic sign shapes. They are a
constant guide to safe driving;
know and obey them.

Traffic will be a problem during
the vacation season in all parts

**Lubbock ABC Rodeo Will Begin June
8-11; Casey Tibbs To Be Competitor**

"Rodeo" is a magic word in
this part of America. The magic
of one of the Southwest's great-
est 1955 rodeo events, the annual
Lubbock ABC Rodeo, unwinds in
full fury and color beneath the
brilliant light of Jones Stadium
on the Texas Tech Campus, June
8, 9, 10 and 11.

Casey Tibbs, five times world
champion cowboy in R.C.A. com-
petition, arrives in Lubbock
June 8 with his spirited horse,
Midnight, to lead the gala four-
day period of rodeo drama and
excitement. Tibbs, voted the Na-
tional All Around Cowboy title in
1951, is one of the country's most
medaled saddle bronc riders.
A native of Fort Pierre, South
Dakota, Casey Tibbs has won a
glittering array of world champi-
onship trophies, which will be on
display at the Caprock Hotel,
Lubbock, during rodeo week.

3:00 p.m., Wednesday, June
8, marks the signal gun starting
a festive ABC Rodeo parade.
This cavalcade of cowboys, hor-
ses, sheriff's posse riders from
all over West Texas and New
Mexico, bands, and flags is due
to make a dazzling beginning for
the rodeo nights to follow.

Competition for \$3,000 in purse
money will begin at 8:00 p.m.
each night in giant Jones Sta-
dium, seating 26,000.

1954 rodeo champions who will
compete with a large field of con-
testants include such greats as
James Bynum, R.C.A. bulldog
champion, Jim Shoulders, cham-
pion bull rider, Buck Rutherford,
All Around Cowboy champion,
and Don McLaughlin, champ calf
roping.

Along with these title-holding
participants, there will be other

of the country. Just don't get in
a hurry and don't drive faster
than conditions justify, says the
committee. Be adaptable and fit
your driving to the peculiarities
and conditions that exist in the
areas through which you may
travel.

Finally, says the committee, take
safety with you. It will bring you
home in good shape and you can
look forward to next year's trip.

entries from everywhere in the
rodeo world. Butler Brothers ro-
deo, stock, among the world's will
dest and finest will supply more
than enough thrills and spills to
keep a big audience gasping for
breath.

Supplying the laughs will be
an old favorite with A.B.C. Rodeo
fans, Wilbur Plaugher, Plaugher,
who bills himself as a rodeo
clown and bull fighter, joins in
on some of the riding contests, too.

A dark horse who might steal
the show is Midnight. Casey
Tibbs' jet-black gelding. Under
Tibbs' persevering training, Mid-
night has been transformed from
a wild, untamed bronc into one
of the rodeo circuit's most res-
ponsive four-footed entertainers.
Several acts never seen in rodeo
presentations will be part of Mid-
night's routine.

Other featured acts to appear
nightly in the big Lubbock rodeo
are: the Roy Rogers Liberty hor-
ses, trained by Glenn Randall,
who also trains Roy Rogers' hor-
ses Lynn Randall and Top Hat,
with their remarkable "Equestran
Elegance" and "Rhythm on
Wheels;" and the tremendous
showmanship of "Hoofbeat Har-
mony," starring Joan and Corky
Randall with their educated
mounts, Zephyr and Comet.

Ticket sales for the annual
A.B.C. Rodeo is Lubbock are cen-
tered at the Caprock Hotel. Tel-
ephone requests are being re-
ceived at number Porter 5-5335
in Lubbock.

Again this year, the Lubbock
American Business Club is joined
by two other local sponsors. They
are Lubbock's Optimist Club and
South Plains Lions Club.

MORE CONTROLS

According to the Gas Appliance
Manufacturers Association, the use
of thermostat controls on gas
ranges alone has increased 80 per
cent during the past decade,
while built-in controls on low-cost
space heating units, which formerly
more than doubled the cost, now
add only a fraction to the retail

Nature brews a terrifying
mixture inside a thunderstorm.
Churning winds, torrential rain,
hail, lightning and thunder are
manufactured within the towering
cloud. Tornadoes can form, too,
if a thunderstorm is severe and
atmospheric conditions extreme-
ly unstable. (But not all thunder-

SCOUTS OF TROOP 34

Six Boy Scouts of Troop 34, with
their Scoutmaster, Jim David-
son, went to the Lubbock Boys'
Club Friday night for swimming
in their indoor pool. The following
boys made the trip for pleasure,
recreation and scout advancement:
Billy Yohner, James and Eddie
Shaw, Willie Odell, Richard In-
galls and Billy Foust. This is the
boys' second trip there.

storms, by any means, cause tor-
nadoes.)

Texas felt all these effects as
waves of thunderstorms swept
the state recently.

Why did they appear, after
months of drought?
Looking into how thunderheads
form, and what goes on inside
one, gives you a new respect for
Nature's power.

This last batch of thunderstorms
was bred because of two things:

1. Centers of low pressure air,
called "lows," suck in surround-
ing air much like a bathtub drain
pulls in water.

2. If warm, moist air is forced
up, it is likely to form thunder-
storms.

For several days a series of
lows drifted down from the west-
ern United States into the West
Texas-Oklahoma area. These lows
sucked in water-laden winds from
the Gulf.

Wind blowing into the low spir-
als counter-clockwise toward the
center. As Gulf air began curving
into the circular pattern, it ran
into cooler air on the face, or
northwest side of the low. The
cooler air wedge forced the humid
air up — and thunderstorms
formed.

The low acted as a great mixing
bowl, in which warm air and cool
air was stirred into wave after
wave of squall lines. The storm
lines drifted across Texas, follow-
ing the normal west-to-east move-
ment of the weather system in
this nation.

As warm air is forced up either
by a cool air wedge or ground

heating, its moisture is cooled
and condenses into visible vapor
— a fluffy cumulus cloud. If the
condition that causes the lifting
continues, the cloud grows.

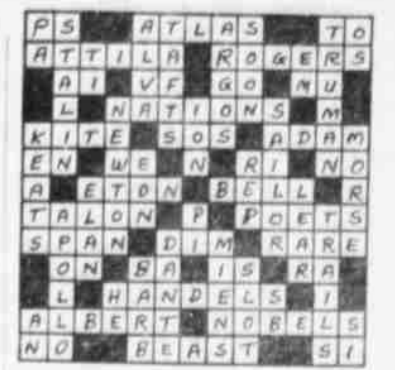

Giving it impetus is something
called the "latent heat of vaporiza-
tion." It takes 972 British
Thermal Units to evaporate a
pound of water. When this pound
condenses back into visible mois-
ture, the heat it took to evaporate
it is released.

This tends to send another puff
of air up from the cloud. The mois-
ture in the new updraft condenses,
more heat is freed and the
self-accelerated process continues
until the cloud towers to freezing
heights.

By this time, the updrafts are
violent. They rush from near the
ground to the cloud's top. A B-17
bomber crew over Oklahoma mea-
sured the top of a thunderhead
cloud at 58,000 feet the other day.
Updrafts have been clocked at
more than 6,000 feet per minute.

Below the freezing level, liquid
water droplets form. They grow
in size until they get so big the
updrafts can't hold them — and
they shower down as rain. If they
are hurled into freezing levels they
harden into hail.

Somehow, all this action sets up
electric potentials that induce
great arcs — lightning between
cloud-and-cloud and cloud-and-
ground. As the bolt flashes, its
great heat expands air along it
tremendously. Then the air con-
tracts, and — bang! — You hear

thunder, as sound waves are set
up.

Something else happens, now,
inside the boiling thunderstorm —
downdrafts.

Air at the top has got pretty
cold. It's now heavier than the
air below. So it spills over and
falls. Downdraft speeds of 2,000
feet per minute are not uncom-
mon.

As the downdraft hits ground,
it flattens and spreads out — and
you're apt to feel cool, gusty
wind. If vicious enough, these
gusts can snap phone lines, topple
trees or blow down houses.

More and more air inside the
storm rools and falls. Soon, the
interior is composed almost en-
tirely of downdrafts. The updrafts
which set things off by condensing
moisture, slowly stop. Then, even
the downdrafts ease as the air
stabilizes.

The thunderstorm shrinks into
a patch on the horizon.

Jimmy C. Havins, radioman 3rd class, USN, son of Mr. and Mrs. E. P. Havins of route 2, Littlefield, is serving aboard the attack aircraft carrier USS Midway which departed Norfolk, Va., last December on a world cruise.

The Midway, operating with the 7th fleet, has traveled some 28,000 miles and has visited Capetown, South Africa; Colombo, Ceylon; Hong Kong; Manila and Subic Bay in the Philippines; and Yokosuka, Japan.

Two weeks were spent in Yokosuka, allowing the Midway's 3,400 crew members visits to Tokyo, Yokohama and Kamakura during the cherry blossom season. At Kamakura, city of shrines, they viewed the colorful processions during the Birthday of Buddha festival.

The Midway is scheduled to return to the U. S. this summer for overhaul and modernization at the Naval Shipyard, Bremerton, Wash.

BATH LOGIC

Logic or no logic, it's a warm bath that keeps you coolest in hot weather. As a matter of fact, there is logic in it to medical experts. They explain that warm water causes blood vessels to dilate so that a lot of internal heat can reach the skin and leave the body. A tepid soak: bath can actually keep you comfortable and feel your best on a hot summer's day.

Korean 4-H Group Voices Their Gratitude For CROP

Korean 4-H club members have already voiced their thankfulness for the assistance they soon will be receiving from fellow members in Texas. Latest word from the Texas Friendship for Korea Drive indicates that materials, equipment, seeds and livestock in sufficient quantities to load the ship

are in sight. "The response has been overwhelming. Each day the list gets larger," reports the Texas Christian Rural Overseas Program committee. Col. C. A. Anderson, who spent some 10 weeks in Texas this spring telling 4-H members, their leaders, supervisors and others

what was needed in Korea, writes from that country that all newspapers, both English and Korean have carried stories about what was happening in Texas. "This program," he said, "is not only aiding Korea economically and educationally but is also a great morale builder."

Plans are going forward for the loading ceremonies scheduled for June 20 at the Port of Houston. Texas 4-H members along with farmers, ranchmen, organized labor groups, church leaders and

Former Resident Dies May 27 in Brownwood

Oliver Todd, long time resident of Littlefield, passed away in a Brownwood hospital May 27. The body was brought to Littlefield Saturday night.

many, many individuals have had a part in loading the Texas Friendship for Korea.

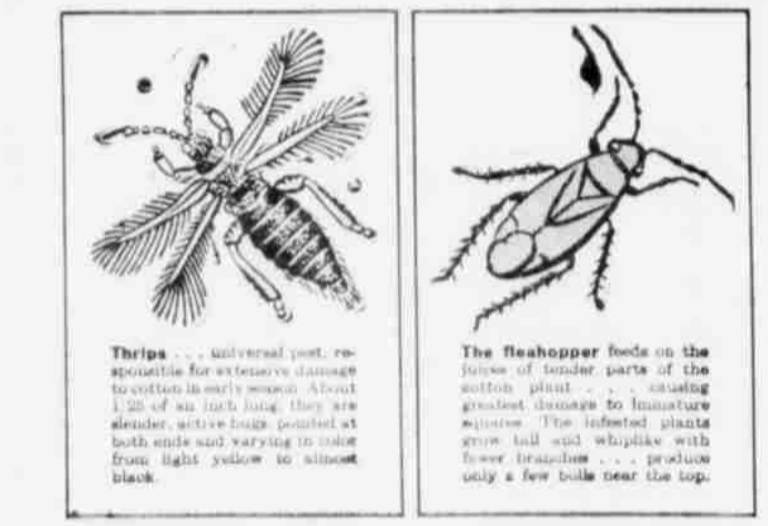

The contributions made by 4-H members, their friends and supporters, will go to Korean 4-H members for use in their demonstration and project activities. In his last letter Col. Anderson said that he was in need of light transportation as well as something for carrying freight. He specifically requested that efforts be made to include in the 4-H contributions a pick-up to handle this dual need.

The CROP committee reports that cash donations are needed to meet the expenses of getting the great array of materials, equipment and livestock to port; for crating and other incidental expenses for feeding the livestock while aboard ship.

Use dieldrin early to kill thrips, fleahoppers and other cotton insects. Dieldrin-treated cotton gets a good early start... pays bigger dividends. You get better quality cotton and earlier harvest—less danger of heavy loss due to early frost.

Tested at Texas A. & M. (1954), dieldrin-treated cotton produced almost three times as many bolls in a three-week period after treatment as did the untreated cotton. It pays to use dieldrin! Here's why:

It's long lasting! Dieldrin gives long-lasting protection. Days after application, dieldrin still has lethal effect.

It's easy to use! Used as a dust, dieldrin is smooth-textured, free-flowing. In a spray, dieldrin forms soap-creaming emulsions... eliminates nozzle clogging.

It's economical! Two to three applications at the recommended dosage—1/10 pound of actual dieldrin per acre—gives top control.

Use dieldrin early this year! Your insecticide dealer has dieldrin and information on latest methods of application best suited for your use. Don't delay—order dieldrin today!

Cadillac

Has Its Own Vocabulary!

Over the years there has come into being what amounts virtually to a special Cadillac vocabulary.

Certain words and phrases have so long and so often been used in association with Cadillac that they almost automatically call the car to mind.

When the talk is of motor cars, who can hear the word "prestige" without thinking of Cadillac?

It is likewise true of "distinction"... of "luxury"... of "pride of ownership"... of "satisfaction"... of "comfort"... of "long life and dependability"... of "beauty"... of "impressiveness"... of "value"—and of dozens of other words used to denote superiority.

In a sense, these are Cadillac words—and they actually sound strange when employed in any other connection. Even when used in the promotion of another automobile, they still suggest the "car of cars".

Naturally, words like these can become inseparable only from a product which deserves them. In the

case of Cadillac, it has taken half a century of the strictest adherence to the highest automotive standards to win this public approval.

Eternal vigilance is the price of this reputation.

Most people, of course, realize that these wonderful words apply to Cadillac. But too many have not yet personally found out why.

If you are among these—come in and see us today. We will give you the keys to a new 1955 Cadillac—and you'll know in a single hour why Cadillac has its own vocabulary.

You'll know, from personal experience, that when you speak of "prestige" and "distinction" and "luxury" and "pride of possession" and "value"—you are speaking of the Standard of the World.

We have the keys—and the car—and a real welcome waiting for you.
