## PENALTIES ON 1950 COTTON NOT RESCINDED BY 1951 PROGRAM

Last week the secretary of agriculture announced that there would be no controls on the 1951 cotton acreage, and since that announcement several newspapers have carried articles stating that producers having an excess of cotton acreage this year could carry over the production from that excess acreage and market it free of penalties in 1951. However, we have received word from the Washington office that the above statement was not a part of the secretary's announcement and that the above statement is completely incorrect.

The Washington office has advised us that none of the penalty provisions of the 1950 cotton marketing quota program are relaxed or rescinded by the announcement of the 1951 crop. Non-cooperators cannot avoid 1950 marketing quota penalties by carrying over 1950 crop cotton for sale at some future date.

Statistics from various sources covering home accidents differ as to which is the most dangerous room in the home, but all of them are in agreement that the kitchen stands at or near the top of the list.

Since the kitchen is the place where sharp knives and other instruments capable of inflicting wounds are kept and used, it could be assumed that cuts of one kind or another would constitute a high proportion of kitchen accidents. It could also be assumed that another high proportion would consist of burns and scalds from handling hot liquids and containers.

Your own kitchen will be a safer place if you keep knives in a separate drawer or compartment, and if you are careful to cut away from, never towards, the hand that is holding the object you are cutting. Use a pot holder when handling pans in which food is cooking, and never leave handles protruding over the edge of the stove.

Another sound precaution is to keep on a kitchen shelf a small bottle of antiseptic, a tube of burn ointment and a few adhesive bandages—those ready-to-use dressings with the gauze pad already affixed to the adhesive tape. This will make it easy to attend promptly to minor cuts and burns, which if neglected are only too likely to become infected.

Water is a conductor of electricity. To avoid the risk of a jarring shock, never handle electrical appliances with wet hands. Always wipe up immediately anything you spill on the floor. Slipping on spilled grease may result in a fall that may have more serious consequences than can be taken care of with a touch of antiseptic and a ready-made adhesive bandage.

# CHEST QUOTA IS SET AT \$11,000; STARTS OCT. 18

A quota of \$11,000 was adopted as the goal of the third annual Community Chest drive which opens next Wednesday, at a joint meeting Monday night of the board of directors and the executive committee.

The quota was hiked to \$11,000 from the original \$10,000 tentatively adopted by the executive board.

A "kickoff" breakfast for directors, officers, team captains and workers scheduled for 7:30 o'clock Wednesday morning at Hays Coffee shop will formally launch the 1950 chest campaign.

The number of agencies or projects to benefit from funds collected in the Chest drive have been increased from three to four. The appointments were announced as follows:

The Salvation Army was cut back to \$5,000 from the original \$5,500; Girl Scouts, \$1,500; the year-around youth recreation fund still stands at \$4,000; and the library was added with an allotment of \$500.

### Can Hold Own Drive

Chest directors have agreed that in the event the full \$10,000 is not subscribed and the prorata share for each participating agency falls short of the set quota, that the affected organizations will be free to stage their own drives to raise the necessary amounts.

The drive will be spearheaded by 14 team captains who are privileged to name their own worker or workers. To facilitate progress of the drive, the city has been divided into 14 blocks or sections, with a team captain and his workers assigned to a specific block, and responsible for all contributions therein.

Team captains at a meeting scheduled for Monday night at 7:30 o'clock in the Littlefield National Farm Loan association office will be assigned blocks for which they will be held responsible for soliciting each home owner living in that particular block.

### Team Captains Named

Team captains are Mancel Hall, Doug Howell, I. D. Onstead, Jimmie Brittain, Bob Armstrong, Jim Mangum, F. L. Newton, Winnie Stout, Fritz Diersing, J. E. Chisholm, Jr., C. O. Stone, Jack Christian, Hoot Cannon, Guy Brown, Elmer McKinney, E. G. Alexander, Clarence Davis, Ewing Thaxton, Mrs. Jessie Elms, Mrs. J. H. Lee, Mrs. Oscar Wilmon, and Art Cheesher.

Special envelopes for employees' contributions will be mailed each business firm in the city (today). The envelopes are requested to collect Chest donations from all employees in his firm, and have them ready when a worker comes for them on the day of the drive. By employing this method, directors felt that employees would not be hampered in their regular duties. Only the employer will be contacted.

To further the drive, collection tables will be set up in each of the banks Wednesday.

A red feather, symbol of the Community Chest, would be given to every individual contributor showing that he had donated to the 1950 Community Chest.

### Tech Cachet Travels Around the World

The envelope cachet commemorating the Silver Anniversary of Texas Technological college is on its way to a world-wide trip.

Stamp collectors sent in nearly 1,000 requests for the special envelope stamp.

The cachet, measuring three-by-three inches is destined for every state in the union and 11 foreign countries.

The most distant ride will be to India. Other foreign countries on the route include Canada, Spain, Austria, England, Norway, Portugal, Belgium, Argentina, Brazil and Sweden.

Some 200 of the cachet requests came from the state of New York, with Illinois, Pennsylvania and California competing for the second spot.

The stamped, self-addressed cachet envelopes were mailed on September 9 the Silver Anniversary date.

### Girl Scouts Meet Monday

Girl Scout troop 11 met Monday October 10 in regular meeting.

After a short business meeting Mrs. Gus Ramsey led a group discussion on care and displaying of the U. S. flag.

Refreshments of punch and cookies were served to the troop by the officers.

### Food Ship Sails For Europe

Texas cotton will be among the commodities which will make up the CROP Friendship Food and Fiber Ship which will sail for Europe from Chicago in October.

The ship load of relief goods will go to the port of Bremen and in cargo will be equally divided between the three parent agencies of the Christian Rural Overseas Program (CROP), which are Catholic Rural Life Conference, Church World Service, and Lutheran World Relief.

The distribution of this ship load of relief commodities will be made overseas by church sponsored agencies on the basis of dire need and irrespective of race, nationality or religious affiliation.

All CROP commodities are handled on this basis and last year they went into 25 countries. They went to many areas where the battle for existence still is undecided.

Texas commodities made a substantial contribution to the CROP program last year and for the 1950 campaign four counties have while more than 25 have set their already completed their collections campaign schedules.

The headquarters office of Texas CROP at Taylor stated that the parent agencies of CROP were all prepared to give aid to the South Korean people just as soon as it becomes possible.
