surely looking forward to letters from you. Please include pictures. I will write as soon as I am permitted.

"I guess Larry is growing fast. Has he had a haircut yet?"

"I haven't seen much of the Oglebys lately, but I think I am holding my own. How's the tungalow doing?"

"Remember me to Sarah and Hank and also the Macarleys, and write my friend, Lt. H. G. Webb, whose mother is Mrs. J. F. Webb at Hotchkiss, North Carolina. A. R. Mayor, W. J. Galbraith of Route 14, Nashville, Tenn., and Leon Rogers were OK when I left them."

"Time is passing fairly rapidly for me, and I spend a lot of it studying. I think of you constantly and send you all of my love."

"This is Lt. R. B. Fulton, U. S. Navy."

"The reference to Larry's haircut refers to an argument between him and his wife as to whether the baby locks should be cut or not. When this reference to haircut was mentioned, it was certain that this was not a fake broadcast."

Mrs. McFarland immediately on reading the foregoing wrote to Mrs. R. B. Fulton, wife of Lieut. Fulton, and received the following letter from Lieut. Fulton's mother dated Jan. 8, as follows:

"Your letter addressed to my daughter-in-law came today, and since she is at her father's home, and I can perhaps answer the letter just as well, I will save the delay in forwarding it to her."

"Yes, we did get a broadcast from our son, Lt. Robert B. Fulton on the 17th. It was heard by three or four people here in Washington, who phoned us that night, and about 50 people from all over the country and in the Southwest Pacific by Army and Navy men who were kind enough to write us. Our son was Assistant Engineer officer on the Houston, and was there at the last engagement Feb. 28th. He said he was well, had not been wounded and was being well treated. He mentioned 3 other officers on the Houston, whom he said was all right, and mentioned some personal and family matters that made us know the message was authentic. This broadcast is made from records made in the camps of the prisoners of war, and put on during Japanese propaganda programs—just to get Americans to listen in."

"Since our son's message came there have been others from men of the Houston, one a Lt. Kirkpatrick, and two of the Aviators on the Houston talked before Robert did. But we did not know but that they got away from the ship during the last battle, and were not there when the ship was sunk. Now we have heard that one broadcast said there were between six hundred and seven hundred men—survivors of the Houston, and that they were divided in 3 groups, some sent to the mountains in Java, some in camp at Batavia, and some sent to Zentuzji Camp in Japan. Our son said he was at the last place. A Navy nurse who was taken prisoner at Guam and spent some time at Zentuzji told me she was not mistreated. The food was monotonous, but sustained one, and the prisoners had the freedom of the compound for exercise. My son said he was permitted to study and the nurse said they had religious services on Sunday. I believe this is true in all the camps."

"I believe you have reason to hope that your son is safe and well, and will return to you. I certainly would not give up hope. God has brought us this far, and we trust His mercy and power to bring us the rest of the way."

"I know full well your heart breaking anxiety, and your desperate hope for news, but hold on to your faith in God. He can and does work miracles. I pray He may hear your prayer. My son's superior officer, Com. Gulgras' mother lives here in Washington, and they have had no news, neither has Mrs. Rook, the Captain's wife, and many, many others, but I believe all have good hope."

"With the assurance that when I write my son I'll ask about your son, and send you any further news I have, I am

Sincerely yours,

MARY H. FULTON

Mrs. W. L. Fulton.

"We do not expect to hear from our son in many months. He said he would write when permitted, but there are few boats these days."

**Supt. Hemphill—**

(Continued from Page One)

Lee Smith, Lieutenant-Governor of Texas.

The highlights of the Conference, as reported by Supt. Hemphill, were in the addresses of Brig.-Gen. Henry and Lieutenant-Governor John Lee Smith. The General told the school administrators with great emphasis that the training of youth, both boys and girls, during the next two and one-half years is unquestionably an outstanding essential to the successful prosecution of the war. He listed as most important among the subjects now being taught in high school

physics, chemistry, mathematics, and English. These must be taught, and taught well, by our high schools in a short time. The General further stated that lives, money, and time can best be saved in this highly mechanized war through adequate training of youth before its induction into the services.

Lieutenant-Governor John Lee Smith warned the school men that the high schools and junior colleges must quickly accept the responsibility of thorough, short-time training of both our young men and young women. The Lieutenant-Governor declared schools must be kept open, and that they must be staffed with capable teachers of those subjects now so essential to the war effort.

E. M. Bowler, special representative from Washington, stated that 60 per cent of the youth now in high school must contribute directly to the war effort within the next two years.

Dr. E. L. Threlkeld, specialist from Washington, pointed out that the Federal Census of 1940 showed eighty-nine million persons above 18 in the United States and that sixty-three millions are needed in the war effort by 1944. He added that 86 per cent of men drafted into armed services will need to be trained in some special skill.

Almost every speaker stressed the importance of teaching love for the United States of America. This should be done both in the home and school, they said.

## Miss Lois Lee And Sgt. Bassemier Exchange Wedding Vows January 8

Wedding vows were exchanged at 8 o'clock Friday evening, January 8, by Miss Lois Lee, daughter of Mr. and Mrs. J. D. Lee, and First Master Sgt. Leroy Bassemier of Lubbock Army Flying School, son of Mr. and Mrs. Lewis Bassemier of Chicago, Ill., at the home of the bride's parents, six miles east of Littlefield.

Rev. Aubrey McAuley, Baptist minister at Lum's Chapel, officiated with the single ring ceremony, and the bridal party stood before an improvised altar bedecked with flowers and fern. White tapers burned during the ceremony.

The bride wore a rose frock with white and blue accessories. For "something old" she wore a dia-

mond pin belonging to her mother and for "something borrowed" she wore a bracelet, also belonging to her mother. She carried a blue handkerchief and wore a penny in her shoe for "luck." Her corsage was of gardenias.

Miss Burma La Brand of Lubbock was maid of honor and she wore a powder blue dress with brown accessories. Her corsage was of pink carnations.

Curtis Lee, brother of the bride, was the groom's attendant.

The bride is a junior student at Texas Technological College, Lubbock, and she graduated from the Littlefield High School in 1941. She is majoring in physical education at the college, and is a member of the Women's Recreation Association.

Sgt. Bassemier completed his high school training in Chicago, and attended the University of Illinois for one year. He has been stationed at the Lubbock Army Flying School for a year.

Following the wedding ceremony a reception was held. The table was laid with a lovely lace cloth, centered with a tiered wedding cake, topped with a miniature bride and groom. Mrs. Dave Freeman presided at the service, assisted by Mrs. W. S. Spears. Both are sisters of the bride.

Those attending the reception were: Pvt. William F. Starnes of Gladewater, Miss Burma La Brand, Lubbock; Mrs. Dave Freeman, Clovis, N. M.; Mrs. W. S. Spears, El Paso; Pfc. William J. Lee, Los Angeles, Calif.; Mr. and Mrs. Aiton Lee, Miss Wanda Dewett of Whiteharral and Curtis Lee.

Immediately following the reception the happy couple left for a few days stay in Clovis, N. M., after which they will be at home in Lubbock.

## Miss Louise Lee And Sgt. Freeman Wed New Year's Eve

The marriage of Miss Louise Lee, daughter of Mr. and Mrs. J. D. Lee of Littlefield, and Sergeant David Freeman, son of Mrs. Clara Freeman of Walla Walla, Washington, was solemnized at 8 o'clock New Year's Eve in Clovis, N. M.

The single ring ceremony was read by Rev. E. J. Speegle in the beautifully flower-bedecked living room in the home of Mr. and Mrs. J. F. Morrison, 1316 Connelly, Clovis.

Traditional wedding music was played by Miss Virginia Knott, close friend of the bride.

The bride was attired in a navy blue tailored traveling suit with navy and white accessories. She wore a shoulder corsage of gardenias. Her only attendant, Mrs. Bob Wollard, wore a black suit and a corsage of tiny white rosebuds.

The bride is a graduate of the Anton High School, and the Nurses' Training School of the Lubbock General Hospital, Lubbock. At present she is surgical nurse at the Clovis Memorial Hospital.

Sgt. Freeman was a locomotive fireman for seven years previous to his induction into the army one year ago.

Angel cake and coffee were served during an informal reception following the ceremony, to friends

# Care for my Car for my Country?

Sonny, what you do to your car is your business, although chances are you won't be able to get another while the war is on.

But what your daddy does to his car is the nation's business!

The American way of life is geared to the motor car. It takes the warworker to his job, carries munitions, provides essential civilian transportation. That is why cars and tires must be used wisely, must be preserved to play their part in holding war production at maximum.

Your Phillips 66 Service Man is pledged to help you Care For Your Car... For Your Country. And though you drive less miles, don't make the mistake of assuming your car needs less care.

Reduced driving may increase crank-

case dilution of oil by unburned fuel... may increase sludge because of added condensation of moisture. Both greatly reduce the motor protection and lubricating efficiency of your oil.

Your battery, with charging time cut down, will need more frequent inspection. And spark plugs must be scientifically adjusted to prevent waste of fuel.

Remember, every Phillips 66 Service Man is specially trained to make your car and your tires last longer and go farther. Enlist his aid, when you stop at any Orange and Black 66 Shield for Phillips 66 Poly Gas, famous for fast starting pep and extra mileage... and Phillips 66 Motor Oil, 100% paraffin base.

# HOUSEWIVES CAN HELP SAVE METAL FOR WAR

## Saving Steel For War

Lamb County housewives can save enough steel for 1,614 machine guns simply by replacing one can of fruits or vegetables a week during the next year with fresh or home-packed produce, a leading food distributor estimated recently.

"This substitution, urged by the War Production Board, will not only save steel but also conserve food by using extra supplies of fresh produce made available by increased production, canning restrictions and reduced storage facilities," according to Earl R. French, marketing director of A. & P.'s produce-buying affiliate, the Atlantic Commission Company.

A number two "tin" can averages .235 pounds of steel plus a small amount of tin, and a single family can save 12.2 pounds of steel in a year by the can-a-week reduction, French said. Thus Lamb County's 4,633 families can save 56,522 pounds of steel, enough to make 1,614 thirty-calibre machine guns, each requiring 35 pounds of steel for manufacture, he pointed out.

"Reduced buying of canned produce doesn't mean reducing food consumption. Housewives can balance their family diets by serving more fresh produce, and our records show that many families are already doing this. American farmers last year moved 142,372 carlots of fresh fruits and vegetables to consumers through the Atlantic Commission Company, 10 per cent more than in 1940 and an all-time high record, and present indications are that they will move as much or more this year," French said.

The program would save 20,594,954 pounds of steel if carried out by all of Texas' 1,688,111 families, it was brought out. On a national basis, America's 31,000,000 families could save enough steel to make 5,000 medium tanks or 38 Liberty freight ships, and enough tin for 360,000 75 mm. howitzers.

It is as hard for a rich man to enter heaven as it is for a poor man to live on earth.

If men had no faith in one another—all of us would have to live within our incomes.

Now is a good time for all business men to take a good look at the last syllable in industry.

## Follow Our Leaders

In a war crisis, or any other great national crisis, leadership devolves upon someone or upon a few persons. It has always been so and probably will continue to be so to the end of time. Circumstances may so lead, Providence may so direct, or however one may view the matter, the fact remains that leaders emerge whenever a job is to be done or a crisis must be met. The history of any country will abundantly prove this to be a fact.

The American Revolution had its Washington; the founding of our national structure brought forth Jefferson, Franklin, Hamilton, Madison and the rest of the Founding Fathers; the War of 1812 centered the white light on Andrew Jackson, both a military and civil leader; the War with Mexico was a training period for great Civil War generals; Abraham Lincoln grew to mental maturity in the years leading up to 1861; William McKinley and Theodore Roosevelt came to leadership in the Spanish-American War, and World War I had its outstanding leader, Woodrow Wilson.

Many bright pages of our national history could not have been written if it had not been for these leaders. They were not always followed as unanimously and wholeheartedly as their leadership deserved, but enough of the American people did follow them to finally win victories, to establish great governmental principles, and to inaugurate measures tending to the common good.

No war nor no great cause can be won without leaders. Leaders are human beings; they may make mistakes but in spite of their shortcomings, nothing can be accomplished without them.

War leaders have a lot of responsibility resting on their shoulders. They have an insight into facts that are not available to everybody. Even the best informed persons in civil life cannot have as many avenues of information as government leaders.

Why not try to follow our leaders in the present war 100 per cent. It is safe to say that our war progress would speed up if this idea was followed. It will be far better to win the war speedily than to have the satisfaction of criticising everybody concerned and thereby delay the coming of victory. Let's all get in line and do our duty even if the leadership is not always absolutely perfect. —Kerrville Times.

## What Is Income Tax?

The federal income tax is, as the name implies, a tax levied upon incomes, and it is payable in relation to the amount of income. Income, for Federal income tax purposes, means in general any compensation for one's services, whether the compensation be in money or in goods

or other services; it includes also the net value received for the product of one's labor, as farm produce in the case of the farmer; income from investments; profit from business operations; and other gains from sales and exchanges of goods and property. Certain limited categories of income are, however, tax exempt, and to the extent of such exemption are excluded in computing the tax.

Because of exemptions from the tax given to persons having less than certain stated amounts of income, as well as because of various deductions and credits allowable, only a small portion of the number of persons receiving income have until recently been subject to the tax. Thus, of the estimated 55 million persons in this country who received income in one form or another during the calendar year 1941, only some 26 million persons were required to file Federal income tax returns for that year, while of these same 26 million, more than 9 mil-

lion were not taxable due to credits and deductions allowable.

An income tax return is a declaration on the part of the taxpayer of his total taxable income for the year, together with the various deductions, exemptions, and credits to which he is entitled. It is in reliance upon voluntary disclosure, and the integrity of taxpayers generally, that the cost of administration of the income tax can be kept at a minimum. Though the return is a voluntary statement, any person who willfully makes a return which he does not believe to be true and correct in every material matter is subject to the penalties provided by law.

The first requirement of the law is the filing of an appropriate return. For individuals generally, this must be done by March 15 following the end of the calendar year. The return must be filed with the appropriate Collector of Internal Revenue for the district in which is located the legal residence or principal place of business of the person

**ISN'T HE WORTH IT?**

This message is written to you mothers and fathers—from your Government.

It concerns the most precious thing in all the world to you—your child.

It asks you to help protect that child—from fear, from starvation, from death—the fate that has befallen millions of children under the rule of Nazi and Jap tyrants.

Do you know that every \$18.75 War Bond will buy enough fuel oil for a destroyer to cruise 37 miles in search of Nazi submarines?

Do you know that every \$37.50 bond will buy 6 shells for an anti-tank gun?

That every \$75 bond will buy 40 rounds of anti-aircraft fire—enough to bring down the biggest Jap bomber that ever threatened an American warship?

Yes, we are sending all these things to our battle fronts every time we buy a War Bond.

But we are doing more than that. For America is not asking Amherst to give this money—even to make sure that our way of life is not blotted out by Fascism!

Instead, you are lending this money to your country. You are being paid generous interest. And you can get your money back after the first sixty days, if you need it.

In just ten years these bonds will be worth one-third more—you'll receive \$25 for every \$18.75 you invest in War Bonds today.

Remember, millions of your brothers, husbands, sons, friends are risking everything. You are asked to risk nothing. War Bonds are the world's safest investment.

Be Sure to Buy More War Bonds and Stamps in 1943.

Pat Hart, Jr., son of Mr. and Mrs. Pat Hart of 2 miles west and 2 miles north of town, who is connected with the Guard Squadron, in the Air Corps, returned to duty Friday after spending a couple of days visiting his parents. He has been in the Armed Forces since October.

James Zachary, a member of the Twin Engine Flying Training Squadron at Pampa, has been promoted to Private First Class.

James is a son of Mr. and Mrs. W. C. Zachary, and has been in the service two months.

Thomas Lowe, who is connected with the Engineering Corps, of the Armed Forces, stationed at Camp Fort Leonard Wood, Mo., was promoted to Corporal about Christmas time.

The Leader is in receipt of a letter from Mr. and Mrs. J. E. Lynn of Sudan, enclosing the following letter from their son, Kenneth, who is in the Armed Forces in Hawaii, which the many friends of Kenneth will be interested to read:

"Dear Mama, Papa and All,

"I wonder what you are doing this Xmas eve. I am well, just wish I was home talking to you instead of writing. I have so much to tell you all.

"Do you all have a white Xmas? We have a pretty green one over here. It is nice and warm. Cole and I are going in swimming tomorrow (Xmas day). All of the Med. boys of the 34th Bngrs., I think there are about 32 of us, are going in to headquarters for Xmas dinner. I had rather stay here and eat dinner with my company, but guess I will have to go and be with the rest of the boys.

"Day after Xmas—  
"We all came into headquarters for dinner. We also had a tree. I got a real nice billfold. We all had a good time.

"I went to see Jimmie in the hospital. He surely does look bad. They are sending him back to the States soon.

"Cole and I went fishing this afternoon, and boy at the fun we did have. Mama, I thought of you. We caught one 35 inches long. He sure did put up a fight. It took two of us to land him. We hooked three more but they broke our lines and got away.

"I really had more fun today than I did yesterday.

"Well, my three day pass starts tomorrow. If I was in the States I know what I would do with that time. Here's hoping I will be home this time next year, and will eat Xmas dinner at home. I don't have words to say how proud I am of my Mama and Papa, and I want to live to make your lives happier and some day we will all be together again.

"I plan to go to church in town tomorrow and go on and stay all night with Wylie Sciffers. I also want to go see Gauston Howell too.

"Well, how is my Kiddos getting along. Be sure and don't let them forget Uncle Kenney. What did they get for Xmas?

"Loads of love and there's a bunch

of kisses for everyone.

"From Kenneth.  
"P. S. Kenneth stated his hobby was making friends, and he surely has a host of them in Hawaii.  
"Mr. and Mrs. J. E. Lynn."

Sheppard Field, Texas.—Pvt. Eton B. Graham, son of Mr. and Mrs. O. B. Graham of Littlefield, has graduated from an intensive course in aviation mechanics and now is prepared to blast the Axis.

Sheppard Field, near Wichita Falls, Texas, is one of the many schools in the Army Air Forces Technical Training Command which trains the specialist technicians who maintain our bombers and fighter planes in perfect combat condition. He now is eligible to become crew chief on a bomber and to win a rating as corporal or sergeant.

Before entering the school, he was trained at one of the basic training centers of the Air Forces Technical Training Command and learned to fight the Axis with other things besides the tools of his trade. Men trained by the Command are adept in the art of protection and offense as well as repair.

Naval Aviation Cadet Derwood Ramsey, Sudan, completed his course

in December at the U. S. Navy Pro-Flight School in Athens, Ga., and was ordered to the Naval Reserve Aviation Base at Dallas for primary flight training.

Ramsay, son of Mr. and Mrs. W. L. Ramsay of Sudan, is a graduate of the Sudan High School, is a former student of John Tarleton College, Stephenville. He completed his training at Athens, Ga., two weeks before schedule, and visited his parents several days before going to Dallas.

Paul Conner of Roswell, N. M., Derwood's buddy at Athens, Ga., accompanied him to Sudan, and visited

there while Derwood was there.

Since entering the Navy Pro-flight school in Georgia four months ago, Ramsay has had ground school work in military and academic subjects, and has undergone a rigorous physical conditioning program which is designed to make Uncle Sam's Naval aviators the fittest and best trained in the world.

At his new base he has had more ground school instruction and has started flying. From there he will move on to three months of intermediate and advanced flying, and, if successful, will be graduated from the Naval Air Station at Pensacola, Fla., or Corpus Christi, Tex., and win his commission and wings.

After graduation comes additional training, with carrier planes or multi-engine bombers, final lap of a 12-month training period. Completing this, Derwood will be a full-fledged fighter pilot ready to join the fleet.

**WHAT AN \$1875 WAR BOND**  
**WILL BUY**

MOST PEOPLE DON'T KNOW IT . . . but the smallest of America's War Bonds will Buy:

1. Enough fuel oil to enable one of our destroyers to cruise 37 miles in search of enemy submarines. Those 37 miles may be the ones that save an American ship and crew.
2. An 81-Millimeter trench mortar shell which is a powerful instrument in blasting the enemy out of their fortifications.
3. Three sharp new bayonets that will some day determine whether our enemies can take it in a hand-to-hand scrap.
4. Ten rounds of anti-aircraft fire to topple enemy raiders from the clouds . . . ten rounds, properly placed, can bring down the biggest Jap bomber that flies.

ALL THIS . . . and "SECURITY" TOO . . . for your family after the War! Let's keep on buying Bonds voluntarily—so it won't have to become compulsory.

Cpl. Price is from Elgin Field, Florida, where he has been stationed for the past 10 months. Before go-

ing to Eglin Field he was stationed at Sheppard Field.

Cpl. Price has many friends in Littlefield and Lamb County who gladly welcome him home.

Mr. and Mrs. J. C. Stover this week received a letter from their son, J. C. Stover, Jr., mechanic in the Tanks Division of the Armed Forces, somewhere in North Africa, to the effect that the people over there "sure were nice" to them; that it is a nice country with nice buildings.

Mrs. Sparks attended the graduation exercises, and she and Lieut. Sparks will return to Littlefield for a few days.

Lieut. Sparks, who received his commission in medical administrative work, has been assigned to Camp McClellan, Ala., and Mrs. Sparks plans to accompany him there.

Members of the Wesley Fellowship Class of the First Methodist

Church sent a former member of the class, J. H. (Dick) Carl, a writing portfolio for Christmas, and he received the gift on December 23.

Carl, who is electrician's mate, second class of the U. S. Navy, on a ship somewhere on the Pacific, wrote the following V-mail letter to Mrs. Mike E. Brewer, secretary of the class:

"Dear Friends:

"I won't attempt to write each and every one a letter of thanks, due to crowded conditions of the mail at this season of the year, so I have selected you to pass the word around to the others. I was very surprised to receive the marvelous gift as well as the letters which accompanied it. I will say here that its doubtful that you realize how much it means to me, knowing that our friends back home continue to remember me after my long absence. I say long, but on second thought, looking back through the calendar it's only been a few months, but classing it to the places that I've been and the things which I've seen it really has been quite sometime. I can truthfully say since I was last in your presence that I've really had a grand time and been privileged seeing a lot of interesting things.

"So, until I'm fortunate enough to tell each and every one in person, I will say again, thanks a million for the gift and especially the fact that I was remembered.

"A Friend,  
"J. H. CARL."

Burl B. Thomas, who was inducted into service recently, left for Fort Sill Monday. Mrs. Thomas will remain with her parents, Mr. and Mrs. John Boren, until her husband is located.

Pfc. R. P. (Bob) Wilson, son of Mr. and Mrs. W. R. Wilson, wrote his parents the following letter recently:

"Dear Folks:  
"Well, once again I will try to write a few lines to let you know that I am well, but can't say I am happy for I am in my Puppy tent trying to stay dry.

Talk of moving around, well here I am in Africa after seeing England and Ireland. While in England I sure had a nice time.

Met lots of nice people, in fact, they were much nicer and a lot more friendly than those in Ireland.

"I have seen Oran. There are some very beautiful buildings, French design.

"Well, I hope you folks have a good Christmas. Can't tell just yet what mine is going to be like, though it is easy to guess.

"Send all mail by air-mail, and send me some air-mail stamps.

"Write, everyone.  
"Love,  
"BOB."

"I am Cpl. S. J. (Buck) Jones' brother and am a mechanic here at the airport and therefore didn't get to see him when he came home from overseas. So am asking a favor of you. Can you please send me a copy of the paper giving the account of the Bond Rally that was so successful. I want to keep a copy of it. I would appreciate it very much. The date of the paper was Dec. 24th.

"Thanking you I remain  
"MARVIN JONES."
