Lamb County will be eligible to receive \$189,437 annually if the Federal Aid to Education Act passes the United States Senate this week.

The amount possible for Lamb County was determined by the formula as outlined in the law: the number of teaching units, multiplied by the number of students in families with incomes under \$2,000 divided by two.

THE FAMILY LAWYER

Day USA
 a police station in Tennessee, indignant schoolboy put this to the officer on duty: "If the principal whips me at school, and then my mother whips me for the same thing when I get home, can she be arrested for the jeopardy?"
 How does it happen that a mere schoolboy, still shaky in his grammar, is already on speaking terms with an ancient and technical rule of law?
 How does it happen that Poet Robert Frost defined freedom not as lack of all restraint but as learning to "feel easy in your harness?"
 How does it happen that thousands of prisoners in our jails are showing more interest in filing legal papers than in filing iron bars?

How does it happen that the power of our government has been exercised peacefully, from one generation to the next, for almost two centuries?
 The answer is that the roots of our government run very deep indeed in this country. And that is what Law Day is all about. The first of May, is all about President Dwight D. Eisenhower proclaimed the first Law Day in 1958, he refrained from specifying any particular kind of ceremony. For this occasion glorifies no one leader and commemorates no one event. It honors only a simple, momentous idea: that where the rules, men are free.
 This, the observance takes many forms. There are quiz contests in school children about the Bill of Rights, and mock trials, and appearances to the local courtroom. There are sermons and lodge meetings and shows with law as the theme. Judges add extra words of wisdom as they swear aliens into citizenship.
 There was method in choosing May 1 as the date for paying our allegiance to the rule of law. For that is the date on which millions behind the Iron Curtain are paying their allegiance to power. In the words of President John F. Kennedy, Law Day is "the significant answer to Communism's May Day."
 Whatever form that answer takes in your community, you will understand its message better in the company of 100,000 simultaneous observances across the nation. The strength of law has strength for the free man in the world; that so many free people believe in it. The Law Day theme is timely: Uphold the Law — A Citizen's Duty.

STATE CAPITAL Highlights AND Sidelights

AUSTIN, Tex. -- You probably didn't know it, but 291 holidays will be celebrated in Texas in the coming six months.

Most of the holidays aren't statewide observances. But Munday's June 18 Vegetable Festival, the May 7 Panola County Queen Pageant, Boone's April 24 Saengerfest, and Raymondville's April 15 Union Fiesta are in the offering, as well as 28 other local celebrations.

In order to help Texans and tourists keep track, and plan their travels accordingly, the State Highway Department has published a Texas Calendar of Events. It covers the period from April 1 through September.

For the first time, the Highway Department also has issued a Calendar in Spanish, to serve "a remarkable surge" of tourists from South of the border.

FEDERAL DOLLARS FLOW -- Legislative budget writers, nearing the end of a long trail, are confronted with a new problem. Question is how to anticipate the effect on state finances of an unprecedented flood of federal dollars flowing into a variety of programs.

Some think a special session of the Legislature may be necessary, after final congressional action, in order to tie down overlooked matching-fund requirements.

Two proposed federal programs are perplexing the appropriations bill conferees:

1. Medicare -- hospitalization and health care for the aged, blind, disabled and children -- now on public assistance rolls.

2. The elementary and secondary education act which passed the House of Representatives in Congress. It would provide over \$85,000,000 to Texas schools next year.

Conferees, wrestling with the problem of how to balance the books, or recommend new taxes, hopes to figure some way that federal funds can be used to reduce pressure on state school money.

Medicare offers some complex questions as to how much money the state must provide in matching funds to meet federal program requirements.

With new federal programs springing up in all areas, veteran Texas lawmakers are looking toward annual sessions of the Texas Legislature. They say the state's antiquated system of biennial budgeting soon must yield to one-year financing and annual sessions if Texas is to keep in line with congressional operations.

SERVICE MERGER -- Twenty Texas communities will lose their standby military service units under the state's plan for merger of Army National Guard and Reserve forces.

Plan, already approved with reservations by Gov. John Connally, will be sent to the Department of the Army this

month. The Pentagon has ordered Texas forces trimmed by 4,600 men and 155 organized units.

Communities which would lose their Guard units under the state plan drawn to conform with overall U.S. directives are Belton, Breckenridge, Canyon, Carrizo Springs, Cisco, Cooper, Colorado City, Crockett, Elberta, Jacksboro, Monahan, Olney, Palestine, Pecos, Rusk, Santa Anna and Whitney.

Boerne, Uvalde and Pleasanton would lose reserve units. Major General Thomas S. Bishop, the Texas adjutant general, said Guard payrolls of the 17 towns losing their units totaled \$368,499 last year.

A Guard brigade replacing the 90th Infantry Division will be located in South Texas and headquartered in San Antonio. The 49th Brigade, successor to the 49th Armored Division, will include troops located in North and East Texas. Its headquarters will be in Dallas. Austin will be headquarters for the 36th Brigade. It replaces the 36th Division, with units in Central and Southeast Texas. Houston likely will retain the 75th Maneuver Area Command. An artillery group headquarters would be located in Wichita Falls, with units from West Texas and Panhandle-Plains area.

WATER PLANS MOVE -- Senate passed and sent to the House key water proposals recommended by Governor Connally.

One would make the Texas Water Development Board, a six-member agency, the state's official water planning agency. Another would authorize \$200,000,000 in additional bonds for construction or purchase of water storage facilities. Earlier the Senate passed a measure giving the Texas Water Commission a new name -- the Water Rights Commission -- and authority to decide water rights and conflicting claims.

ENLARGED SENATE RE-APPROACHED -- Senators saw bugs in the plan they passed earlier to enlarge their membership from 31 to 39, guaranteeing all but five incumbents terms extended through next year's elections.

So, Sen. Louis Crump of San Saba introduced a new version which would require all Senators to run for re-election in 1966 if they want to keep their jobs. New measure quickly won committee approval.

Increasing terms from four to six years still is a feature of the "big senate" plan. If approved by the Legislature, it will go to voters July 24. Senators think it will be a relatively painless way out of re-districting for them.

A Senate bill to legalize variances of 15 per cent over and under the mathematical population average for House and Senate districts also received com-

mittee approval. This despite warnings that federal courts, which ordered districts of equal population, might disapprove.

HORSES STOPPED AT THE GATE -- After the longest committee hearing thus far this session, the bill by Rep. Maurice Pipkin of Brownsville to legalize parimutuel bets on horse races in counties which approve by local option was sent to a subcommittee.

Whether it is reported out of the subcommittee depends on how many votes Pipkin thinks he can garner on the House floor. Right now, the odds are that the bill would be defeated in the House by about 2-to-1. If no better results can be expected, Pipkin will ask the subcommittee to kill the bill quietly for this session by not reporting it out.

Texas Racing Association, which has been trying to "educate" Texans on horse racing, says it will be around for another try.

At a public hearing the association presented a series of "expert witnesses" on horse racing as a sport and also as a money-raiser both for the general economy and for the local and state tax coffers. It emphasized the impetus horse racing reportedly gives to agriculture and argued that parimutuel betting is not so much betting as it's a test of knowledge and skill in selecting a winning horse.

Opponents of the bill attacked it on moral grounds, saying horse-race betting would attract undesirable persons and would weaken the moral fiber of Texas society.

AG OPINIONS -- Atty. Gen. Waggoner has held that a county clerk has no authority to issue a duplicate marriage license unless the license he issued was returned and recorded by him. Ruling was given in answer to a request by Gillespie County attorney Richard Hoerster.

Carr also ruled that nothing in the State's laws prohibits the operation of a mobil barber shop.

GROCERS FIGHT LABELING -- Texas retail grocers raised strong objections at the public hearing for Rep. A.C. Atwood's bill to require labeling of imported citrus fruit, dating original packing of fruits or vegetables and marking "cold storage" any bin in which produce has been under refrigeration for as long as 60 days.

Atwood and Bob Lilly of the (Rio Grande) Valley Farm Bureau told the committee that the bill is intended to help build consumer acceptance of fresh fruits and vegetables over cold-storage and imported products.

Grocers argued that the provisions of the bill would be a nuisance and would serve no useful purpose.

EARLY CLOSING ADVANCED -- House passed to the Senate a bill which would require liquor stores to close at 8 p.m., but would let hotels and motels deliver liquor to guest rooms until 10 p.m., the present closing time for liquor sales.

Bill was fought by representatives from the larger cities. Its author, Rep. L. DeWitt of Corpus Christi, successfully staved off a series of proposed amendments.

FUNDS ASKED FOR CHOLERA FIGHT -- The Texas Animal Health Commission is asking for \$85,476 in fiscal 1965

and \$89,904 in fiscal 1966 for the hog cholera eradication program.

Decision on the appropriation will be made by the conference committee now working to resolve difference in appropriations bills passed by each house.

WAR ON POVERTY -- Governor Connally has appointed a 10-member interagency committee on economic opportunity to coordinate the State's activities under the Economic Opportunity Act of 1964. Terrell Blodgett, director of the Governor's OEO, will head the committee.

Others on the committee are State Education Commissioner J.W. Edgar; Health Commissioner J.E. Peavy; Employment Commission Administrator Richard Coffman; Public Welfare Commissioner John Winters; Industrial Commission Director Harry Clark; Labor Statistics Commissioner Charles King; Parks and Wildlife Director Weldon Watson; State Librarian Dorman Winfrey, and Glenn Garrett, director of the Good Neighbor Commission, which is taking over Migrant Labor office administration.

SHELL DREDGING TARGET -- Parks and Wildlife Commission order which opened Copano Bay to shell dredgers was the target of a House bill and resolution heard before the House Game and Fisheries Committee.

Rep. Paul Haring of Goliad asks that Copano Bay be closed to dredging and declared a recreation - conservation area. His resolution calls on the State Highway Department to stop using oyster shell for road base and look to other materials available in Texas.

SHORT SNORTS -- Sen. Dorsey B. Hardeman of San Angelo

got Senate approval for a resolution directing Commissioner of Agriculture John C. White to appoint a citizens committee to study the effect of beef, mutton and pork imports on the Texas livestock industry. A Senate jurisprudence sub-committee headed by Sen. Tom Creighton of Mineral Wells heard district attorneys from all major counties tell how they think the hot check law should be strengthened. A proposed constitutional amendment to lower the Texas voting age to 19 passed from House to Senate, where it is expected to face tough opposition. City officials strongly opposed a House bill to give firemen and policemen a minimum salary of \$250 a month in cities over 10,000 population and to increase their longevity pay from \$2 to \$10 a month for each year of service. Governor Connally signed into law an act to reorganize tuberculosis control service in the State Department of Health and to launch a long-range program to eradicate the disease. A constitutional amendment to phase out state collection of property taxes by 1972 won Senate committee approval but faces a rocky path. House passed the bill tightening penalties for driving while intoxicated. Another House-passed bill would eliminate provision for voters over 60 in towns of 10,000 or less voting without obtaining poll tax exemption certificates. Governor, Lieutenant Governor and House Speaker would name a delegation of 15 to negotiate with Mexico for return of the Flag of the Alamo under a resolution sent to the Senate by the House. State Republican Chairman Peter O'Donnell Jr., named John M. Bennet Jr., San Antonio rancher, as the GOP state finance chairman. State Treasurer Jesse James reports a March cigarette stamp sales increase of \$816,641 over March.

Tax Problems Answered

This column of questions and answers on federal tax matters is provided by the Lubbock office of the U.S. Internal Revenue Service and is published as a public service to taxpayers. The column answers questions most frequently asked by taxpayers.

Q -- Is it true that profits on the sale of your personal residence are not taxable if the sales price was \$20,000 or under and you sold it on or after your 65th birthday?

A -- Yes, it's true, if on or after your 65th birthday, you sold property owned and used by you as your personal residence for at least 5 of the last 8 years. You may elect not to be taxed when the sales figure is \$20,000 or under. If the sales prices if over \$20,000, part of the gain may have to be included in income.

Q -- I'm a teacher and have to keep taking courses to keep my job. Can these costs be deducted on my return?

A -- Yes, they can if the

courses are required by your employer as a condition of your employment, or if they are taken primarily to maintain or improve skills required in performing your present duties. Educational expenses are not deductible when they are incurred to obtain a promotion or another position.

Q -- I do not owe any taxes this year. Do I still have to file a return?

A -- Whether you owe any taxes or not is not the determining factor in deciding if you have to file a return. A return is required when certain income levels are reached. If your income was \$600 or more, or \$1200 if you are 65 or older, you must file. If you have self-employment income of \$400 or more you must file a return and pay self-employment tax.

Q -- Where can I get a copy of the table showing average sales tax deductions by income and family size?

A -- At any local Internal Revenue office.

Q -- I just received my

refund check for 1964. Does this mean that my return has been accepted and that I no longer have to keep last year's tax records?

A -- Even though you have received a refund, your return may still be checked. As to your records, for most income and expense purposes they should be retained for a minimum of three years from the time your return was due to be filed. However, for some items, such as the sale of your old residence tax free due to the purchase of a new residence for instance, you should retain the records as long as they may be material in the administration of the tax laws.

Q -- How can I tell if my return will be audited?

A -- You really can't. Any return may be selected for audit. Some are selected because of the types or amounts or income and/or deductions reported. Still more are selected at random.

Q -- Aside from the mortgage on my home, what other home expenses may I deduct?

A -- Only the interest on your mortgage may be deducted. Other expenses that may be deducted are real estate taxes paid during the year, and the interest and sales tax you pay in connection with the purchase

of times for your home. Local assessments that improve the value of your property such as for sewers or sidewalks are not deductible. Water bills and other service charges are not deductible. Check your tax instructions leaflet or the IRS booklet "Your Federal Income Tax" for some examples of what may be deducted.

Q -- Is the money I receive from my account with the credit union considered interest or dividends? How about dividends from a savings and loan institution?

A -- Payments from both types of institutions are treated as interest and are fully taxable. **Q --** My income was up last year and I may have to file a declaration of estimated tax. How can I tell for sure whether I do or not?

A -- The requirements for filing declarations are given on page 5 of your 1040 instructions. In general, you should file a declaration of estimated tax if withholding by \$40 or more, and either (1) income is expected to exceed \$5,000 for an individual or \$10,000 for a married couple filing jointly, head of household, or certain widows and widowers; or (2) when more than \$200 of income comes from sources not subject to withholding (dividends, business profits, etc.).

A -- The law specifically provides that for a contribution to be deductible it must be made in money or other property. Blood donations are not deductible as a contribution.

Q -- How much can a working mother deduct for child care expenses?

A -- The deduction is for what you actually spent, with a maximum limit of \$600 for one child under 13 and \$900 for two or more dependent children under 13. Check your instruction booklet to see how this deduction is affected by the amount of your gross income.

Q -- My husband and I were involved in an auto accident and were both injured. The insurance company gave us \$5,000 compensation for our injuries. Do we have to report this money and pay tax on it?

A -- No. You do not have to report the amount of any damages received by either suit or agreement, as compensation for personal injuries or sickness. Such compensation is tax exempt.

County 4-H Girl Is Winner Of District Food Show

CAROLYN ALLISON

Carolyn Allison, Lamb County 4-H Club girl and member of the Pleasant Valley Club was highest scoring girl in the bread and cereal division at the District Food Show in Lubbock Saturday.

This entitles Carolyn to a trip to 4-H Roundup at A&M University, June 1 to participate in the state show.

Forty-seven girls competed in the district show held in the Home Economics Building at Texas Tech.

Girls were judged on their knowledge of nutrition, proper table setting, the food exhibited and record books.

Carolyn prepared a Red Velvet cake to be served at a festive meal.

Another blue ribbon winner in the district contest was Lyna Pitts also from Pleasant Valley and Carol Scribner, red ribbon winner from the Olton Club.

NEW OFFICERS OF DISTRICT 14 -- Mrs. Strong of Lubbock, pictured at the far left, was elected president of District 14 of the Texas Congress of Parents and Teachers Tuesday at the spring conference held in Levelland. Other officers are: left to right, Mrs. Bob Bartley, corresponding secretary; Mrs. Lewis Simmonds, recording secretary; Mrs. Wilson Cox, vice president of Hockley, Cochran and Yoakum counties; Mrs. Bobbie Thompson, vice president of Terry, Lynn and Gaines counties; Mrs. John Bowdoin, vice president of Crosby, Floyd and Garza; Mrs. W.W. Neinaast, vice president of Lubbock County; and Mrs. Kenneth Roberson, vice president of Lamb, Bailey and Hale counties. This slate of officers will serve a three-year term of office.

Mental Health Law Signed By Governor

Gov. John Connally Monday signed into law one of the major legislative recommendations of the Texas Mental Health and Mental Retardation Commission. The new law will bring the scattered facilities and services for the care and treatment of the mentally ill and mentally retarded under a new state agency, the Texas Department of Mental Health and Mental Retardation. It becomes effective July 1.

The new department will take over the mental health and mental retardation facilities and services formerly under the Texas State Hospitals and Special Schools, the State Department of Mental Health Planning and the Mental Health Division of the State Department of Health.

Gov. Connally has emphasized repeatedly, however, that the "program aspect" of the new ideas and systems for dealing with mental disorders -- to shape the new organizational framework.

The program aspect of the law entails a gradual shift, in the next 10 years, from institutional care in state mental hospitals and special schools to "community care" in or near affected person's home.

As interpreted by the state's citizens group which provided the "Texas Plan for Mental Health Services", the new administration will emphasize prevention of mental disorders before they become deeply rooted, and rehabilitation rather than mere custodial care.

Between now and Sept. 1, Gov. Connally will appoint, with the consent of a nine-member Board for Mental Health and Mental Retardation which will govern the operations of the new department. He may or

may not choose to appoint to the new board some or all of the present members of the Board for Texas State Hospitals and Special Schools.

Professional staff of the new department will be headed by a commissioner of mental health, appointed by the board. The requirement that the commissioner be a licensed physician was the most controversial item in the bill (HB8, SB448) sponsored in the House by Rep. W.H. Miller of Houston and in the Senate by Sen. Bruce A. Reagan of Corpus Christi.

The law also calls for two deputy commissioners -- one for mental health and the other for mental retardation -- to be appointed by the commissioner with board approval.

Under the "program aspect" emphasized by Gov. Connally, the new law aims to encourage local agencies and private organizations to assume responsibility for mental health services, with help from the state.

"Local agency" is defined as a city, county, hospital district, rehabilitation district, school district, state-supported

institution of higher education, state-supported medical school, or any combination of these.

The law would permit one or more of these local agencies to establish and operate community mental health and mental retardation centers, administered by local trustees to serve populations of 100,000 or more in the surrounding "community".

State grants-in-aid to help finance these local centers are authorized in the law, but will depend on actual appropriations for that purpose by the Legislature.

One major problem to be solved in the new system is the shortage of trained personnel needed to staff the envisioned community mental health and mental retardation centers as well as the public and private facilities already in operation. Recruitment, training and placement of this mental health "manpower" will be one of the major tasks of the new department.

The early Assyrians drank spiced wine.

You men are spendthrifts," said the third. "I know an old man who won't read the newspapers because, he says, it wears out his glasses."
