MURDER CHARGE FOLLOWS LOCAL SHOOTING

Ivan Inklebarger Is At Liberty On Bond of \$5,000

Johnny Lee, 28, formerly of Brownwood, is victim of tragedy. Inklebarger, 29, a farmer of the Littlefield section, is at liberty under \$5,000 bond on a charge of murder, as a result of a shooting which took place Saturday night northeast of Littlefield.

Inklebarger waived preliminary hearing at an examining trial in Littlefield Sunday before County Judge Simon D. Hay, who fixed his bond at \$5,000.

T. Wade Potter, Littlefield attorney, is representing Inklebarger.

The shooting is declared to have been fundamentally the result of family trouble of several months' standing.

Funeral services were conducted at the grave at 2 p. m. Monday for Lee. Rev. J. F. Grizzle, pastor of First Baptist Church, Littlefield, officiating. Interment was in the Littlefield cemetery, Hammons Funeral home having charge of burial arrangements.

EXERCISING THE CHICKENS
Last Sunday, when Mr. and Mrs. Smith and three-year-old son, James, were spending the day at the home of Mr. and Mrs. Bob Smith, James seemed to take great delight in chasing the chickens about the yard. His mother reprimanded him, telling to him not to run the chickens. He said:
"Mother, I am not running the chickens, I am running with the chickens to see how fast they can run."

IF YOU THINK ANYTHING OF YOUR TOWN
If you have any fight, if you have any zeal;
If you have any love for your town in your heart,
You'll smile and stand pat and you'll not turn and squeal,
When you get the cards stacked and you draw a bad deal,
You'll want to build up and never tear down,
You think anything of your town.

It's all up to you if there's good you can do,
If you have any love for your town in your heart;
If you have any love for the town and you'll work for the good that you see,
You'll find a place that you want it to be.
There's work to be done, you always be found,
Think anything of your town.

Gets 14 One-Half Gallons in Raid On Local Cafe

Night Watchman Blair Assists; Largest Seizure in City in Some Time

Fourteen one-half gallons of whisky were seized in a raid early Sunday morning on a Littlefield cafe. The raid was conducted by City Marshal W. P. McDaniel, and he was assisted by Night Watchman John Blair.

The premises had been under the scrutiny of the City Marshal and his assistant for some time, and the raid was carried out under a search warrant.

This is one of the largest seizures of liquor which has been made within the city limits for a very considerable time.

City Marshal McDaniel has been in office since April 25 of this year, and is reported to be rendering good service.

In addition to his duties as City Marshal he also serves as Sanitary Officer.

City Marshal McDaniel has a number of confessions of guilt on burglary charges and several pleas of guilty on theft charges to his credit, together with other accomplishments.

The seizure of the large quantity of liquor is his latest accomplishment in carrying out the duties of his office.

Arrested on Beer Possession Charge

Ed Akin, who lives three miles northeast of Littlefield, and Lee McCann, a son-in-law, were arrested at 4 p. m. Sunday by Sheriff Crim and Deputy Sheriff Miller, who report that they seized 20 gallons of beer and 120 empty bottles at the Akin farm.

Akin and McCann were given examining trials at Olton Monday, before County Judge Simon D. Hay, and their bond was set at \$1,000 each.

The many friends of Mrs. Neal A. Douglass will be glad to know she is much improved. She was not so well as usual over the week end, but Tuesday was much better, and is steadily improving.

BOMAR MOORE AND CHIEF STINE WILL WRESTLE TONIGHT

TO MEET IN "BEST TWO OUT OF THREE" MATCH

Bomar Moore of Levelland, and Indian Chief Stine of Lubbock, wrestled to a draw in a one-hour time limit match last Thursday night at the Littlefield skating rink.

Moore took the first fall in 35 minutes and 20 seconds and Stine took the second in 19 minutes. Both men were working desperately to get the winning fall in the final five minute and 40 second period. Those who missed this match passed up the best wrestling match that has been held in this part of the country in a long time.

These same men will meet again tonight at the rink in a "best two out of three," with no time limit.

The Master Passes

Most Americans feel that the mind of Edison was the greatest America has produced. Let those who hold differently name a greater. Let them recall one whose wizardry of invention called so many marvels out of the world of the unknown. Of course, there is no other in our history, or in the history of the world for that matter, who has given his name to more than 1,300 inventions. And among that amazingly large number of the brain children of Edison are some of the most remarkable and useful of all inventions.

Sitting in that reverie which passing years and diminished vitality brought him and gazing out in imagination upon that ocean whose farther shore has never been touched by man, the dying inventor could say in quiet happiness as he caught distant beauties not often revealed to his kind, "It is very beautiful over there." And it is very beautiful in this small world from which the soul of the eagle has flown. This world of ours is far more beautiful than it was when the master inventor found it. It is vastly more beautiful and comfortable that Thomas A. Edison has lived and wrought, and a great deal of that added beauty and comfort are due to his magic touch and mind. The material world probably, and the mechanical world certainly have never been influenced more by any other man than by America's master inventor.

FLOYDADA WINS FROM CATS, 7 to 6

Game Has No Bearing on Littlefield's Standing in District Race

Those fighting Wildcats of Littlefield High school kept their fighting reputation last Friday, despite the fact that they were nosed out by a 7 to 6 count by the powerful Floydada Whirlwinds at Floydada.

The local squad has no alibis to offer, but it is perfectly natural for the fans to see a dozen places where breaks won the game for Floydada, and those who went to Floydada with the squad are unanimous in their decision that the Whirlwinds could not repeat on the Littlefield gridiron.

Butter Bill Carter scored a touchdown just after the second quarter began with a short run around right end but Harless failed to kick goal for the extra point. Floydada came back fighting and marched down the field against tough opposition to score a touchdown with Welch carrying the ball over. Bridges passed to Gollightly for the extra point.

Each team made five first downs during the first half.

The second half was a battle royal from beginning to end and while the third quarter went to Floydada with three first downs to none for Littlefield, the Wildcats came back and fought the Whirlwinds to a standstill the fourth quarter and registered two first downs to none for Floydada. Neither team, however, had the necessary punch to drive over another touchdown.

This game was a practice game and has no bearing on Littlefield's standing in the district race.

LITTLEFIELD PUBLIC SCHOOLS ARE TO BE CLOSED FOR TWO ADDITIONAL WEEKS

Approximately sixty business men of the city and farmers of this section met with the school trustees of the Littlefield Independent School District Monday night at the City Hall, for the purpose of discussing and arriving at the best course to take relative to continuing or closing the schools to enable the pupils to assist in the picking of the present cotton crop.

As it was the wish of the majority attending the meeting that the schools should close for two additional weeks to enable the pupils to pick cotton, and after that time re-open and continue through the nine months term, the school board passed an order dismissing the schools Wednesday noon. The order closing the schools was made conditional on the weather being fine, and suitable for cotton picking; otherwise the schools would continue open.

The meeting also passed a resolution which was unanimously carried, endorsing the board's actions relative to the schools, expressing their confidence in the school trustees, and pledging their support in whatever action the board thought proper to take in the operation of the schools.

IS HOST TO SUDAN FIRE DEPARTMENT

Deputy Sheriff Bill McGlamry of Sudan, who returned Friday from the Rio Grande section with a 72 lb. yellow cat fish, was host at a fish fry given Monday night for the members of the Sudan Fire Department and their wives and friends.

Deputy Sheriff Bob Miller attended from Littlefield.

The fish was caught by McGlamry in the Rio Grande river twelve miles above Del Rio.

The Wildcats will play the powerful Slaton Tigers on the Littlefield gridiron tomorrow afternoon. The game will start promptly at 2:30.

It is easy for Littlefield fans to remember the last game between these two teams, when they played last Thanksgiving day for the championship of District No. 2. The game was hard fought throughout and the final score was 14 to 7 in Slaton's favor.

Slaton is in Class A football this season and the game will not count on either team's percentage but the Wildcats are out for revenge for last year's defeat and the fans are guaranteed some real thrills in this game. **BOOSE THOSE FIGHTING WILDCATS!**

Fort Worth Man Will Feed Out Many Lambs Here

Expects to Keep Average of 6,000 Lambs on Feed All Season

Lamb County's feeding out program for this season is well underway, according to information furnished by D. A. Adam, county agent.

One of the outstanding developments, which is of particular interest to Littlefield, is the fact that the Littlefield feeding pens have been leased for six months to Loyd Brandenburg of Fort Worth, who will keep an average of 6,000 lambs in the pens throughout the feeding season. The lease to Mr. Brandenburg was made by John Porcher, receiver for the property. The first shipment of lambs for the pens will arrive immediately.

Mr. Adam reported at Tuesday's meeting of the Littlefield Chamber of Commerce that there are already between 1200 and 1500 head of cattle in the feed lots of the county, and that there are 1500 lambs in the Furneaux feed lot at Sudan.

Part of the cattle in the feed lots of Lamb county are being fed out on the co-operative basis.

Organization Is Formed

Mr. Adam said that an organization, known as the West Texas Feeder-Breeder Exchange, had been created at San Angelo, for the purpose of bringing the rancher and the farmer together, in order that cattle and sheep may be fed out on a co-operative basis.

The county agent is giving his services in bringing ranchers and farmers together in order that cattle and sheep may be fed out on a co-operative basis.

G. C. Keith, Joe Gerick, John Stengel, George Hughes, Chris Furneaux, P. E. Boesen, and several others have cattle on feed. It is estimated that eight or 10 more men will have cattle in the lot before very long. The moving of this present feed crop at a price that is advantageous, is very important, and it appears that through cooperative feeding with ranchers is a good way to increase the market

TAKE OFF THE LOCK

The individual who locks up his pocketbook with a feeling of fear and declares that he is not going to spend any more until good times come again isn't helping himself or anybody else. The merchant who shakes his head and says "I'm not going to stock any more merchandise because folks won't buy it" and puts a padlock on his orders, is standing in the way of his own progress and every body else's.

Of course this is no time to spend thoughtlessly. Economical buying is always a good practice at all times. But, we should buy NOW the things we need for the coming winter. Every commodity is lower now than it will be six months from now.

Let's take the locks off our pocketbooks and bank accounts, buy something from the other fellow so he can buy something from the other fellow and help things along. Every indication is that we've reached bottom and that we're slowly coming back up. Let's all do our part in making the lift easier.

CRIMINAL YOUTH

What we read in the newspapers and what we hear in conversations relative to crime seems to indicate that most of the people believe that nearly all criminals are youngsters, meaning persons between seventeen and thirty years old, and that this is something new under the sun. Doubtless, most of you have heard of the Dalton Gang and Billy the Kid and numerous other notorious characters of other days, nearly all of whom were young fellows. The gangster of today is a young man. The gangsters of other days and times and countries were young men.

The criminal young are criminals because of ignorance, lack of experience. They have not yet learned that crime does not pay and that in the end criminals meet disaster. So it has always been in civilized countries.

Schools have done and will continue to do all within their power to teach the youth the lessons of honesty, industry, fairness, cleanliness, and health, and we should not be unduly alarmed by those who cry out that all of the criminals are young fellows. There is nothing new in that fact at all.—Texas Outlook.

"BOUGHT," MODERN SOCIETY DRAMA STARRING CONSTANCE BENNETT, TO BE SHOWN AT PALACE STARTING SUNDAY

Constance Bennett again proves herself worthy of the popularity which increases with each new screen venture—"Common Clay," "Sin Takes a Holiday" and now "Bought," which offers her the most highly emotional starring role of her career.

This picture will be shown at the Palace theater Saturday midnight, Sunday and Monday.

"Jackdaws Strut" is the name of the novel on which "Bought" is based. The heroine is indeed a strutting little jackdaw of a modern girl, who, resenting the poverty of her early life, and the slights suffered on account of her doubtful birth, decides that, whatever the odds, she will sit in the seats of the mighty. "High" society is her goal.

Left alone in the world by the death of her mother, she secures a position as a mannequin, through the kindness of an old buyer, Dave Meyer, whose reason for his interest in her she does not know, until too late to repay it. She meets a poor young writer Nicky Amory, but refuses to let him see that she returns his love, because it will stand in the way of her ambition.

Later through the same agency she gets a position with a wealthy physician, is thrown in the company of a rich playboy, tells false stories about her family, to win his regard and becomes engaged to him. Her duplicity is discovered—and then the real climax nears—but not without many moments of thrilling suspense.

Featured as the struggling writer who welcomes the wandering and disillusioned girl back to society more honest, if not quite so "high," is Ben Lyon. The kindly old benefactor, who turns out in the end to be the father of the heroine—is played by her real father, the famous stage actor, Richard Bennett. Others in the large cast are Dorothy Peterson, Raymond Milland, Arthur

Stuart Hull, Doris Lloyd, Mae Madison, Maude Shurne, Clara Blandick and Edward Nugent.

THE "HIDDEN QUART"

That Stays up in the Motor and Never Drains Away

PROVES ANY OIL WOULD BE BETTER OIL IF GERM PROCESSED

Other good oils lubricate working parts after the motor starts and oil is pumped from the crankcase through the motor, which takes several minutes. But Germ Processed Oil stays up in your motor at all times and lubricates working parts safely during the starting period . . . when almost half of all motor wear takes place! A "hidden quart" stays up in your motor and never drains away. Only Germ Processed Oil can give you this sure protection at all times, because only Germ Processed Oil can penetrate and combine with metal surfaces . . . an exclusive characteristic called "penetrative lubricity." SERIES OF MEAT KILLING AND CURING DEMONSTRATIONS ARE ANNOUNCED

52 LAMB COUNTY FARMERS PLANT 500 ACRES IN SOY BEANS THIS YEAR

Fifty-two Lamb county farmers this year planted more than 500 acres of soy beans, giving the county the record of having the greatest acreage of that crop on the South Plains, D. A. Adam, county agent, says.

Figures on the yield are not available at this time but it is believed the average yield will be better than a ton to the acre, Mr. Adam said. Harvesting began a short while ago.

"I started the work with one demonstrator, in the spring of 1929," Mr. Adam explained. "R. L. May was the first man to try soy beans, he averaged a ton or more of legume hay to

the acre. "The following year I had three demonstrators, C. V. Harmon and R. B. McQuatters and Mr. May. It was a little dry that year and the yield was not quite so good. It averaged a little over two-thirds of a ton of hay to the acre.

"This year there are 52 farmers, including the three demonstrators of last year, who have from four or five to 50 acres. Four of the men have 30 acres or more each.

Makes Good Hay

"We wanted to get some legume to take the place of alfalfa. I know

of no better hay than soy beans." The crop was raised for feeding purposes only and not for the beans. Mr. Adam said the farmers who have the crop are enthusiastic over its yield and he believes he will double his acreage next spring.

P. E. Boesen, Sudan feeder, has the largest acreage, 50 acres. He plans to feed cattle extensively this fall and winter and wants the hay for that work. Joe Burrus has 35 acres and B. J. McGee and P. W. Walker 30 acres each. C. O. Roberts has 25 acres. Others have smaller plots, depending upon the cattle they will feed.

Many will remember the meat killing and curing demonstrations conducted by County Agent D. A. Adam and Miss Ruby Mashburn, Home Demonstration Agent, in which hogs were killed and cut up, canned and cured according to standards set up throughout the United States. This year beef will be included wherever possible. This work is quite important in improving the quality of your meat for home consumption, and if there is a surplus, it will be so standardized that the product will be uniform throughout the entire county. The county agent has already sold and delivered 100 hams and bacon for farmers to parties in this state.

A meat demonstration is to be conducted in every community in the county with tentative dates set, beginning November 14, and ending February 10. It is the desire of the county agents that as many families as possible attend each of these demonstrations when the one is held in your community. Also, each family attending is urged to bring a hog, and come prepared to help put these demonstrations over on a cooperative basis as far as their work is concerned.

Next Spring the second annual meat show will be held, and we hope that this will be one of the biggest that has ever been held by any county in the United States.

This is one of the most important pieces of work that has ever been started in this county. Both of the agents' time will fully be taken up this winter with this work, and in order to reach as many people as possible, everyone is urged to cooperate at the demonstrations and help us reach as many people as possible at the same time during the demonstrations.

Tentative dates are as follows: subject to final confirmation: November 16-17, Sod House; Nov. 19-20, Friendship; Nov. 23-24, Hart Camp; Nov. 26-27, Sandhill; Nov. 30 Dec. 1, Olton; Dec. 3-4, Pleasant Valley; Dec. 7-8, Sudan; December 10-11, Lum's Chapel; Dec. 14-15, Littlefield; Jan. 4-5, 1932, Janes Chapel; Jan. 7-8, Center; Jan. 11-12, Earth; Jan. 14-15, Spring Lake; Jan. 18-19, Amherst; Jan. 21-22, Rocky Ford; Jan. 25-26, Blue Bonnet; Jan. 28-29, Spade; Feb. 1-2, Northside; Feb. 4-5, Ruby; Feb. 8-9, Fieldton.

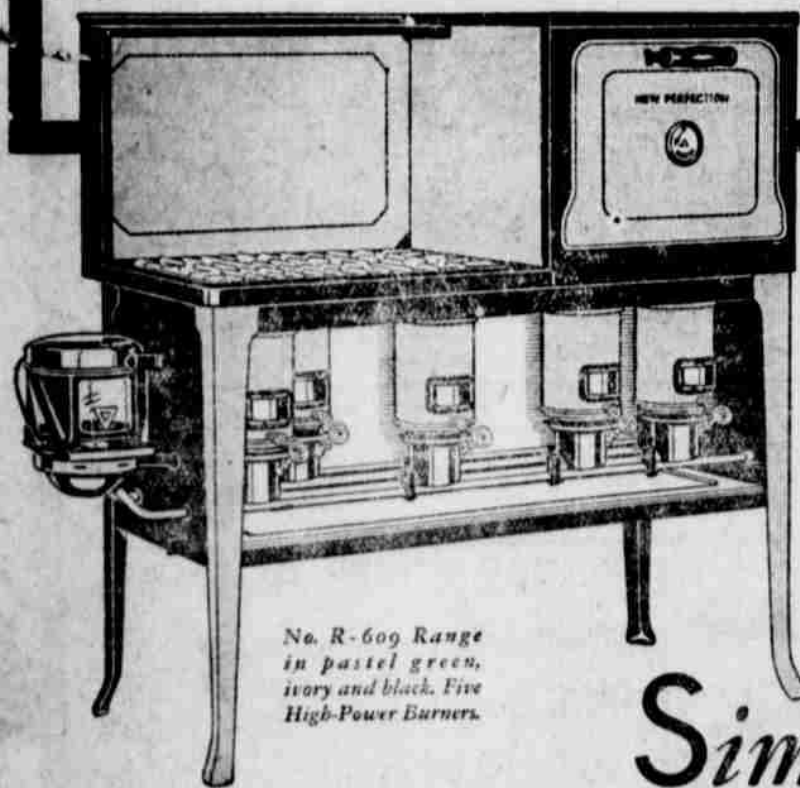

These dates might be changed, and are announced for final confirmation by the people in these communities.

IS YOUR GAS EQUIPMENT READY FOR THE WINTER?

Summer is nearing its close and crisp evening soon will begin to give warning of winter's approach.

The efficiency and economy of your gas-burning equipment will have much to do with your winter comfort and peace of mind.

Have you taken any steps to correct defects that appeared last winter? Is your furnace of the proper size and type? Are your burners of an efficient type and are they in proper adjustment?

Is your water heater in the bathroom, and if so, does it have a flue to carry away dangerous fumes that might result from an improperly adjusted burner or from a flame turned too high against a cold surface?

Or perhaps you are planning a new home. Do you know what type and size of furnace will give service with efficiency and economy? Do you know where the hot and cold air ducts or the radiators should be located, or what size they should be?

These are only a few of the heating problems which the Service Department is prepared to help you solve—and without cost to you. The department is manned by experts in gas appliances and their adjustment.

John Thomas Bishop, 75, a farmer living one and one-half miles north of Fieldton, was found dead by his wife on her return from Sunday school Sunday morning.

There were gunshot wounds on the chin and chest.

A shotgun was found lying nearby. Bishop had not been in good health for several years.

The deceased had been a resident of the Fieldton community for the past three years, and was a member of the Fieldton Baptist church. He had always been active in church work, and was loved and respected by a large circle of friends.

Upon the finding of the body, the authorities were notified. An inquest was held at 2 p. m. Monday by Justice of the Peace Black of Amberst, with Deputy Sheriff Bob Miller representing the county authorities.

Surviving the deceased are his wife, a daughter, Mrs. Virgie Whissenhunt of Sherman, Texas, and a son, W. L. Bishop, Littlefield, and two sisters.

Funeral services were conducted Monday afternoon at Fieldton, with the Rev. Roy A. Hemp, pastor of the Tabernacle Baptist church, Littlefield, officiating. Interment was in the Littlefield cemetery, Burleson & Co. having charge of burial arrangements.

Farmers Are Urged To Start Preparing Turkeys for Market

With the turkey season opening November 1, farmers are urged to immediately start preparing their birds for the market.

"It will pay you to get your birds ready for the market by feeding plenty of whole corn and small grain; also by giving them plenty of fresh water," said Barney Wilson, manager of the Littlefield Poultry & Egg Co. "Any information I can give the farmers as regards to feeding, will be gladly given," he said.

Mr. Wilson said that he had no information on the turkey market at this time, but he anticipated that a reasonably good price would be paid this year.

Elwood Green Dies Following Operation

Elwood Green, aged 15, son of Mrs. J. H. McGehee of McCamey, and grandson of Mrs. Jennie Parker, passed away at the Lubbock Sanitarium about 4 a. m. Wednesday, following a ten days' illness and appendicitis operation.

Elwood has been practically reared by his grandmother, Mrs. Parker, having lived with her until about five years ago, when his mother remarried and with her children, including Elwood, moved to McCamey. A little over a year ago he returned to his grandmother in Littlefield, and has lived here since.

The youth was a student in the ninth grade of the Littlefield High School, and much respected and loved by his large number of friends and fellow students.

Deceased is also a nephew of Mr. and Mrs. W. O. Burford of fourteen miles east of Littlefield.

Funeral services will be held at 4:30 p. m. today from the First Baptist Church, with Rev. Joe F. Grizzle, pastor, officiating. Burleson & Co., are the undertakers in charge, and interment will be in the Littlefield cemetery.

A large number from out of town are expected to attend the funeral services.

RECEIVES FATAL INJURIES WHEN TEAM RUNS AWAY

Alton H. Pettit, 27, foreman of the W. G. Murray sheep ranch near Enoch, died at his home on the ranch Friday afternoon as the result of injuries received Friday morning when the wheels of a heavily loaded farm wagon passed over his body.

Pettit was thrown from his seat on a stack of feed he was taking to a barn near the ranch residence when the team of horses hitched to the wagon became frightened and ran away. His three year old son, Alton, Jr., who was riding with his father, also was thrown from the wagon, but escaped with minor injuries.

Although his chest had been crushed, Pettit led his son to the residence and administered aid to the child's wounds.

The foreman was found sitting on a bed by Mrs. Pettit when she returned home from Littlefield. He asked that his wife call a doctor quickly, and Mrs. Pettit rushed to the Howell gin at Enochs to summon medical aid from Littlefield, but her husband was dead when she returned. Physicians examining the body said the man suffered several broken ribs and crushed lungs. His death followed an internal hemorrhage.

Funeral services were held Saturday afternoon at 3:30 at Levelland. Rev. Suttle, pastor Baptist Church, and Rev. McReynolds, pastor Methodist Church, officiated. Hammons Funeral Home, Littlefield, had charge of burial arrangements, interment being in Levelland cemetery.

In addition to his wife and son, Alton, Jr., he is survived by another son about one year old.

Places Fourteenth At Dallas Fair

The Lamb county exhibit placed fourteenth at the Dallas fair, scoring 920.9 points. County Agent D. A. Adam made a big effort to place among the first 10, and only failed by a very small number of points.

Eastland county won first place with 952 points; Randall county, second, and Hartley county third. West Texas counties obtained five out of the first six places. Seventy-seven counties entered exhibits.

Lamb county cotton scored 95 points, as one of the major crops shown as part of this county's exhibit, placing cotton from this county on a par with East Texas cotton. Last year Lamb county scored 85.

The cotton exhibited this year was obtained from the W. P. Neinst farm at Hart's camp, one of the Lamb county demonstrators under County Agent Adam. It was the Acala variety.

The Lamb county exhibit placed second at Amarillo and Lubbock fairs.

Approaching Marriage of Popular Couple Announced At Tea Friday Afternoon

Social circles of Littlefield centered their attention Thursday afternoon on a beautiful tea from 4 to 6:45 o'clock, at the home of Rev. and Mrs. R. B. Meador, during which was announced the approaching marriage of Miss Irene Meador to Mr. Marvin Boyd of Cisco, Texas.

As guests arrived at the Meador residence, they were received by Mrs. W. C. Thaxton, Mrs. R. B. Meador, and Miss Irene Meador, while Miss Eva Gertrude Chisholm ushered the arrivals to the register, over which Mrs. Van Clark presided at a table centered with garden flowers. Cut flowers also graced the entertaining rooms for the occasion.

Mrs. B. L. Cogdill received the guests after they signed the register, directing them to the dining room, where the table was delicately and beautifully decorated in silver and pink, in the middle of which stood a large silver question mark, and underneath which was placed a miniature bride and groom. Extending from the large question mark were streamers of pink baby ribbon attached to smaller silver question marks, and leading out to the edge of the table. Each guest was invited to draw a question, which also had attached a pink envelope, inside of which was a silver heart bearing the announcement of the wedding as for November 3, at 8 a. m., at the First Methodist Church.

Tea was poured by Miss Dahlia Hemphill, while dainty heart-shaped pink sandwiches and salad were served by Miss Addie Mae Hemphill and Mrs. Floyd Hemphill.

During the afternoon Miss Johnnie Pace presided at the piano. Miss Eva Gertrude Chisholm sang "Because You are You." Miss Pauline Bruce also rendered a vocal number, "Sweet-heart of Mine," and Betty Alyce Thaxton gave two readings, "The End of the Story," and "He and She."

Guests registering during the tea were: Misses Addie Mae Hemphill, Eva Gertrude Chisholm and Dahlia Hemphill, Mesdames B. L. Cogdill, Floyd Hemphill, Van Clark, Miss Louise Chisholm, Mrs. J. W. Freight Rate—

(Continued from Page One)

Littlefield alone it will mean a saving on the shipment of this year's crop of approximately \$90,000.

The present rate from Littlefield, and some other Plains points, is now 95 cents, and the new rate is expected to be between 72 and 75 cents. This will mean an additional \$1.25 per bale to the farmer.

The new rate will give Littlefield the same rate as Lubbock, as is now the case.

E. Kancher, division freight and passenger agent, with headquarters in Lubbock, Wednesday advised Clay Pumphrey, Littlefield Santa Fe agent, that the new rate structure, if granted by the commission, will extend as far west as Muleshoe, as far north as Kress, and include all branch lines on the South Plains.

The Santa Fe railway made the application for the new rate structure in order that the South Plains might enjoy the same advantages in the shipping of cotton as in force for South Texas cotton growers, Mr. Pumphrey stated.

If the new rate structure is approved it will mean two cotton freight reductions for Littlefield in the past month. The first reduction was made when a readjustment was obtained of a new rate schedule which was put into effect, but which it was found was unfair to some cotton concentration points. This first reduction was obtained primarily through the efforts of A. P. Duggan, president of the Littlefield Chamber of Commerce, who brought the matter to the attention of the railways and the Texas

 Our orphanage home at Waco, is in distress. Recently their barn burned to the ground, and burned some valuable dairy cows, and all their feed.
 We have 500 children there. They milk 80 dairy cows, and have near 100 hogs to fatten for their meat supply.
 Tullia gave them a car load of wheat, and they are asking Littlefield to give them a car of maize.
 We as a church have not made them an offering this year. Won't you who read this give us a ton or less of any kind of feed? The railroad will transport it free. If you will help us with any amount phone, write or see me, and let me know how much you can spare. If you can not deliver it, we will arrange to come and get it. Seven promised a ton Sunday. Gigantic Feeding Plant Is Being Built At Lubbock

A gigantic feeding plant, said to be one of the largest in the nation, is nearing completion on the Yellow-house canyon, one and one-half miles east of Lubbock. The project, one-fourth of which will be completed this week, is being established by H. W. Stanton and his son, Walker, of Lubbock.

The completed plant, which is expected to be finished by 1933, will cost approximately \$100,000 and will have a feeding capacity of sixty thousand cattle, hogs and sheep.

Then pens, running 1,148 feet along the rim of the canyon, are practically complete now. Each feeding pen is 100 by 300 feet and contains sixteen feeding troughs, eight of which are concrete, 24 by four feet.

Concrete Troughs
Connecting each pen is a concrete water trough, 1,148 feet long, six by five inches, which will supply fresh running water to cattle in each pen. Water is pumped from a forty-foot well by an electric pump at the rate of twenty gallons a minute. The capacity can be increased to fifty gallons, if necessary. The speed of the stream will prevent freezing.

To promote conservation of food, the chamber of commerce of Spur, Texas, is sponsoring a can-a-calf campaign and estimates that two hundred and fifty Dickens County families will each can a calf as a result.

Littlefield, Lamb County, Texas

THURSDAY, OCTOBER 22, 1931

LAMB COUNTY LEADER

TO AID IN HOLDING COTTON OFF MARKET

Texas bankers, representing every section of the state that produces a third of the nation's cotton crop, voted unanimously Tuesday at Dallas to finance holding every fourth bale of this year's crop from the market until next July.

Further, they endorsed a resolution pledging themselves not to finance any farmer who would not obey the new Texas law limiting cotton planting in 1932 to 30 per cent of the Texas land in cultivation.

The action came quickly and without opposition in a meeting attended by more than 300 members of the Texas Bankers' Association called together by J. W. Hoopes of Dallas, president, in special session.

J. C. Hilburn, president of the First

National bank here, did not attend the meeting, but he sent a wire, advising the association that his bank would do its share in financing the holding of cotton from the market.

Feeding Out—

price for feedstuff.

4-H club boys will be getting calves into the feed lot at once, and it is estimated that between 80 and 100 calves will be fed out by the boys of this county.

Mr. Adam anticipates that the feeding out program in Lamb county this year will be considerably larger than last year. The gain will be particularly noticeable in the number of sheep which will be fed out.

Is Largest Man at Sheriffs' Meet

Sheriff Crim and Deputy Sheriff Miller, of Lamb county, and Sheriff Sterling and County Attorney Bobo, of Bailey county, were members of a party from this section attended a meeting of the Texas Sheriffs' association, which was held at Fort Worth last Thursday.

Largest of the peace officers in attendance was Deputy Sheriff Miller, past president of the association, who is six feet four inches and weighs 170 Mornin'.

That the administration of the criminal law in Texas faces a breakdown if sheriffs are not allowed mileage for the return of fugitives, as has been the practice for 75 years, was the declaration of officers in attendance.

Steps were taken to determine whether the sheriffs are entitled under the law to the mileage and the hope was expressed the matter could be decided without litigation. However, Representative T. H. McGregor of Austin, counsel for the association, was empowered to institute a test case if necessary.

We Think—

(Continued from Page One)

town.—J. D. C. in the Spearman Reporter.

LET'S NOT BE CRITICAL

Most of us are wont to be too critical about the other fellow's actions. We believe firmly that every person has a desire to do good in the world, does not want to do wrong. We are rarely informed of the circumstances that motivate the wrongdoer in his mistakes. Criticism of what other folks do that is not right, does not help the wrongdoer. Sympathy and a helping hand in cases of mistakes, is the biggest way to right a wrong.

No human being is perfect in his conduct. Life at best is a series of struggles to bring out the best that is in us. One man whose faults and wrong doings often outweigh the man he criticises, does not think them to be wrong because they are his.

So, let all of us be tolerant, forgiving and helpful to those who make mistakes in life. Anyone may criticise without distinction. Understanding and sympathy that springs from the human heart is a good measure of anyone's greatness.—Spearman Reporter.

We think that the editor of the Spearman Reporter has written the truth.

What do you think?

Murder Charge—

(Continued from Page One)

had worked for Inklebarger in the falls of 1929 and 1930, and had only been in Littlefield a few days when he met death. He took temporary employment at a local cafe until he could start picking cotton.

According to the authorities, Inklebarger met Lee at 2 p. m. Saturday at Littlefield, and at seven p. m. they drove out in the country to make a call, and were on the return trip when they got into a dispute at about 8:30 p. m., about two and one-half miles northeast of Littlefield.

Following the shooting Inklebarger, according to the authorities, went to Sudan, and telephoned to the residence of Sheriff Crim, who lives in that city. Crim came downtown, and Inklebarger, according to the authorities, turned over a gun to the sheriff. He was brought to the Littlefield jail by Sheriff Crim and Deputy Sheriff Bill McGlamry of Sudan.

Finds Body

In the meantime the body of Lee was discovered by Arnett Seibley, who lives 12 miles northeast of Lit-

tlefield. Seibley came to Littlefield, notified Deputy Sheriff Miller and Constable Hoover, who went to the scene of the tragedy.

Ed Akin, whose home is nearby, was left in charge of the body, and the officers returned to Littlefield. As soon as possible they went back to the scene of the tragedy, accompanied by Justice of the Peace Black of Amherst, Dr. T. B. Duke, county health officer, and Pryor Hammons, undertaker. Justice of the Peace Black conducted an inquest, and found that the deceased had come to his death from two pistol shots fired from a .32 calibre automatic. He had been shot through the left side

and through the right side of his connection with the affair, according to the authorities. Inklebarger made a statement to District Attorney Meade Griffin in the northeast of Littlefield.
