## Whitharral Schools To Open On September 2

Whitharral (Sp.) — A faculty meeting on Friday, August 30, at the school has been announced by W. M. Roberts of the Whitharral schools.

The school opens Monday, Sept. 2. There will be only one teacher for the school, as the building is lacking. The school comes here from Estelita.

The new teachers include Willard P. Hedges, high school principal who comes from Frisco; Ramsey, assistant football coach who receives his degree from West Texas State Aug. 23; Warren, girls' coach, comes from Roy, N.M.; and Maxine Yeary, graduating from Texas Tech at the close of the summer term.

The new teachers are Orville Yeary, vocational agriculture; Ussery, boys' coach; Mrs. Y. Crank, English; A. A. Tate, grade school principal; Alma Tate, 6th grade; Mrs. Morgan, 5th grade; Mrs. Commons, 4th grade; Mrs. Hicks, 3rd grade; and Mrs. Sanders, 2nd grade.

Major repairs are being made about the buildings in preparation for the new year. New buildings have been purchased for the 6th and 7th grades and high school. Custodian Paul and Bus Foreman Arnold are in charge of the repairs.

The school house is under construction on the south side of the road. It is being built of concrete block and will be quartered for the home team and visiting coaches. There will be a coaches' equipment room, training room, showers and 2 restrooms in the 20x40 building. Johnny Ussery and Supt. Yeary say that labor or casuals are very much in order.

## Upside Down Economy

The college student, who has just been graduated, or who may enter the business world at the end of this session of summer school, is faced with an upside-down economy in a number of ways. If he wants to be a plumber or a bricklayer, he can earn an average of \$3.85 or \$4.25 per hour.

Figuring the average pay of a bricklayer, who works forty hours a week, he will earn about \$170 a week. This amounts to almost \$800 a month, or an income greater than the national average for U. S. families.

Now, in the other hand, if this young man or woman wishes to go into banking, he or she would earn not almost \$800 a month — but about \$350 a month. If this same college graduate wanted to go into social work, he would earn about \$350 a month.

The irony of this situation is that college graduates have supposedly spent four years training themselves for specialized work, and when they enter many fields, even as specialists, they draw lower pay than many with far less education and training. The only consolation for them is that statistics show that, in the end, college graduates earn more money during their careers than non-college graduates, on the average.

But for the college graduate who goes into the wrong field, he may be an exception, and there are a great many exceptions. This is well worth the thought of today's young graduates.

## The Success Of Service Clubs

The amazing growth of the various service clubs, which are rapidly spreading throughout the world, indicates that these organizations meet a need that exists among men, everywhere.

The people of Lamb County should not dismiss the Rotary, Lions, Civitan, Kiwanis, or other groups from their minds with the curt thought that they represent only an association of men eating together.

There is much more to the Club idea than this. True enough, the meal hour is taken as the time for busy men to get together to enjoy the company of other men. Through regular association the members widen the circle of their friends which, standing alone, is worth what the clubs cost.

More than the formation of friendship, however, attends such group associations. Gradually comes the consciousness of other duties to be performed in life, including an appreciation of civic obligations and the contribution that each individual must make, through personal application, to the great problems that surround any growing municipality.

There is a broader understanding of human problems and the growth of tolerance through mutual esteem. The clubs work, almost miraculously, to create good feeling, and friendly cooperative effort for common goals. This is not the labored act of directed puppets, but the genuine expression of a feeling of brotherhood that is dormant in so many human hearts.

Here then, we believe, is an avenue for progress, a vehicle for personal advancement and the power for moving a community along the right direction.

## The Individual

In all the modern stress and mass-thinking and group action, there is a tendency to ignore the place of the individual. Yet groups are composed of individuals, and it is individual initiative that makes group action successful.

Concerning individual responsibility in building a community, one newspaper editor writes: "We must ever remember that no Chamber of Commerce ever composed a great symphony; no labor union ever painted a great picture; no church ever wrote a great sermon; no management association ever composed a great poem; no Government commission ever put together a Gettysburg Address."

And no community project ever was put over without the individual co-operation of the citizens. The individual still is the most important cog in the wheel of progress.

## Highlights and Sidelights From Your State Capitol

By VERN SANFORD Texas Press Association

AUSTIN, Tex.—House members are rather short on enthusiasm for a special session of the Legislature, says Speaker Waggoner Carr.

In a poll of the House, Carr received 101 answers from 149 members. Seventy said they didn't feel a special session necessary. Seventeen said they thought it was necessary; and 12 said they were willing to leave it up to the governor.

In announcing the poll results, Carr emphasized that he's all for lobby control and water conservation, the two measures Gov. Price Daniel has said he wants passed House members, Carr reminded, approved both lobby and water bills last session.

But, said Carr, he still isn't convinced the state can afford the extra session without new taxes. In reply, Governor Daniel repeated a previous statement that \$603,312 is on hand for legislative expenses, or more than twice what a short session would cost.

Outlook probably is this: A special session will be held. There'll be no open rebellion, though possibly a little legislative foot-dragging.

NEW LAND TROUBLES—Who, if anyone, should pay the back taxes on land bought under the Veterans Land program, then forfeited by the purchaser?

State and local officials are in disagreement. Lack of specific legislation on this subject has resulted in two lawsuits.

In the early days of the land program a lot of veterans apparently bought land at more than it really was worth. When the drought came and things got tough, many fell behind on taxes and payments, finally had to give up and let the land go back to the Veterans Land Board. In time the board re-sold such tracts to other veterans.

Local taxing units, such as the Bexar-Atascosa-Medina Water district, say somebody has to pay the piper. It demands payment of the back taxes unpaid by the first purchaser and of the taxes that accumulated during the period when the land was forfeited to the state. Without this money, say district officials, they'll have a hard time paying off their bonds.

Viewpoint of the state, however, is that taxes ceased when the land returned to the board and that the resale was free of tax debt.

SCHOOL "WASTES" CITED — Need for a little overhauling here and there in the Gilmer-Aikin school aid program is suggested in a new Texas Research League report.

Under the "minimum foundation" program the state contributes the money necessary to bring the smaller, poorer districts up to standard.

Research League pointed out that (1) under the scholastic apportionment formula (so much per pupil) some districts actually receive more money than their minimum foundation needs. And (2) guaranteed state contributions discourage local efforts to improve by raising taxes.

It's a system, says the League that tends to perpetuate "educational inequities" districts.

HARRISON NAMED — William A. Harrison, 41, apparently is to be the key man in a program to be signed to provide Texas with model insurance legislation.

Harrison, who has been serving temporarily without pay since June 23, was named by the Insurance Board to a two-year term, beginning Sept. 1. Senate must confirm the appointment.

The former assistant state auditor moves into the second highest paid job in Texas government —

\$20,000 per year.

One of his first tasks will be to expand the department's staff of insurance company examiners. Recent legislation provided for 25 new men, bringing the staff to 65. Former department officials had complained they didn't have enough examiners to keep tabs on the thousands of companies operating in Texas.

BUSINESS PLATEAU — Texas business activity for the first half of 1936 is up four per cent over 1935. This despite an 11 per cent drop from May to June, says the UT Bureau of Business Research.

UT analysts say it looks as if the breathtaking rise of the past few years has lost its momentum. But they see no "strong evidence of the beginning of a downward trend." They foresee, instead, "business continuing, with minor ups and downs, on its present high plateau."

IT'LL COST US TOO—Texans who think the federal government is going to take care of all their highway problems now are due for disillusionment.

So says State Highway Commission Chairman Marshall Formby. Interstate highways paid for with federal funds will take care of only 15 per cent of the state's traffic load, said Formby. Bringing the other 84 per cent of state roads to first-class condition will cost \$2,000,000,000.

With present funds of \$80,000,000 to \$90,000,000 a year, it'll take 22 years, he said. "And by that time we'll need more four-lane roads."

ASK FIRST — Various departments of the State are playing it safe today. They don't want to run afoul of what has been termed "the new moral atmosphere in Texas."

Indicative of the new trend is the "ask-first" attitude that has developed. Result: Many requests of the attorney general for rulings.

In an opinion given State Auditor C. H. Caviness it was ruled that it would be legal for a state college cafeteria to buy its milk from a dairy owned by a legislator.

Inasmuch as the Texas Constitution prohibits a lawmaker from receiving an office created during his legislative term, the Board of Pardon and Paroles asked if it would be legal for Rep. J. T. Ellis, Jr., of Weslaco to be director of the new adult parole supervision system set up by the Legislature.

"This is a job, not an office," rules the attorney general.

SHORT SNORTS — O. B. Ellis, general manager of the Texas Prison System at Huntsville, reports that the prison is in urgent need of more guards. . . . Capitol guards are not "peace officers," ruled Atty. Gen. Will Wilson. Therefore, they cannot issue parking tickets or make arrests, except "to prevent the consequences of a theft."

State Health Commissioner Henry Holle reports an outbreak of 32 cases of sleeping sickness in Cameron County. No statewide epidemic is suspected. . . . Texas Farm Bureau President Walter Hammond says the federal soil bank program probably is doomed after next year. He is credited with originating the soil bank idea. But his proposal did not include payments for retired acreage. . . . Texas will enter the new fiscal year Sept. 1 with a cash balance of something like \$100,000,000 in the general revenue fund, according to figures from State Comptroller Robert S. Osvert. Fund total \$44,725,528 on Aug. 1. Continued increase at the same rate as during July would add \$1,500,000 more this month.

## Provisions Of Recent Egg Law Explained

The Egg Law, just recently passed by the Texas legislature, will have a widespread impact on Texas citizens. It will affect egg producers, dealers, retailers, wholesalers, brokers and processors as well as consumers.

But just what does this law do? How will it affect those people just listed? F. Z. Beanblossom, extension poultry marketing specialist, lists a few of the law's highlights.

(1) It provides for the establishment of standards of size and quality of eggs. The standards of quality as determined by candling and conditions of shell, the grades and standards of size as determined by weighing shall be the same as the standards and grades prescribed by the U. S. Department of Agriculture for shell eggs.

(2) The law provides for proper grading and labelling. The eggs are inspected primarily at retail outlets and labelled according to grade, which includes size and quality. Unless the grading is under USDA supervision, it shall be unlawful to use the prefix "U.S." on grades and weight classes.

(3) Provides for licensing of egg retailers, dealers, wholesalers, processors and brokers. There is no licensing fee to any retailer as defined by law—that is, any person selling or offering for sale, eggs to consumers only in this state. All retailers must have a license even though there is no fee.

(4) Provides that the law will be self financing through the fees collected.

(5) Provides penalties for violations. Any person convicted of violating this act is subject to a fine. The license of a violator may be suspended for a period not to exceed 90 days.

(6) Gives exemption to producers selling eggs from their flocks unless a grade is claimed. But if they wish to claim a grade, then their eggs must meet the standards specified by the law.

quality. Unless the grading is under USDA supervision, it shall be unlawful to use the prefix "U.S." on grades and weight classes.

There is no licensing fee to any retailer as defined by law—that is, any person selling or offering for sale, eggs to consumers only in this state. ## Lipstick Logic

Everybody needs a hobby. Or so more and more folks believe. And we agree.

A hobby gives a fellow confidence. It gets him out of the workaday grind, allows him to get lost from his troubles. It unties the knots of nervous tension, because usually it's a thing we do well and enjoy doing.

But lately we've been thinking that it's one thing to have a hobby and something else again to let a hobby have you.

The fellow who comes home from work, changes into Bermuda shorts and t-shirt, and goes out to work on his boat for a couple of hours before supper gets wholesome relaxation out of it. Then he's in good shape to return cheerfully to his normal world. The housewife who spends her spare time making hooked rugs, gardening, or doing specialty cooking can live happily with her family and herself.

But way too many folks let a hobby outgrow its quarters. They eat, drink, sleep, talk and live it. They let it crowd out friends, family and the rest of the world. It was the dog.

A hobby that centers one's life has really got to be good. Saving people from drowning, raising funds for the unfortunate, teaching the blind to read, making something that gives people happiness because of its beauty, humor or usefulness—such interests as these might deserve a lot of time.

(7) It establishes an Egg Marketing Advisory board to be appointed by the governor. This board will be composed of the Commissions of Agriculture, who will be chairman, and nine other members, all from Texas, who will serve six year terms.

The fellow with few ties and a lot of time on his hands can better afford to be carried away by a proper mother of small child. Maybe we're old-fashioned but it seems to us that worthwhile hobby should crowd out Junior's sordid or a coke party for Mary's friends.

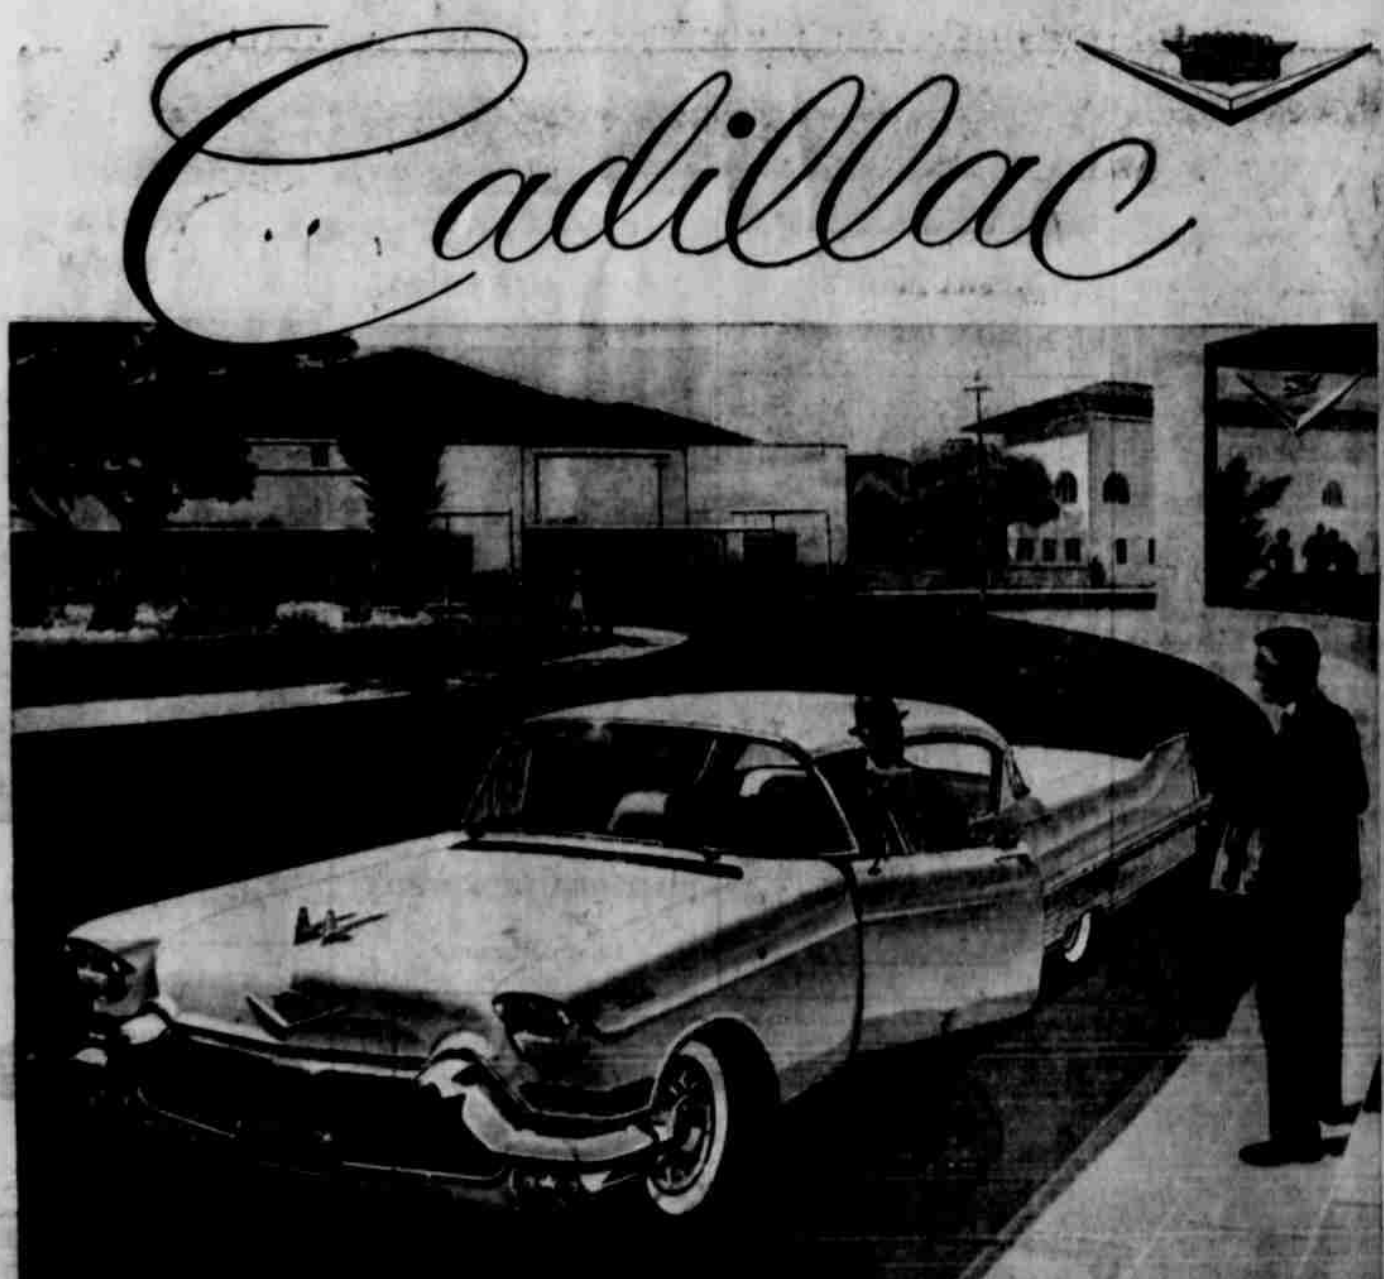

## Telephone Co. Revises Schedule For Printing

It's still not too late to change and additions in field's coming telephone directory, according to an announcement today by Fred Mathis, district manager for General Telephone Company of the South.

A revised printing schedule for the General Telephone Directory Company, publishers of the field as well as most other general Telephone directories, reflects a delay in delivery of new Littlefield directory to permit the local office to complete their closing data for changes and additions to August 15.

Mathis urged all customers check their present listing for inaccuracies, or if extra listing desired, to please call the phone company's business office August 16 in order that the new listing can be included in the directory.

Originally, the Littlefield directory was scheduled to be delivered July 12 and be delivered a tember.

## Keeping Current... For Economy!

In the illustration above, you see a very happy man at a very wonderful moment.

The title, the keys and the car are his—and he's starting out on his first journey at the wheel.

Of course, there's not much doubt as to why he decided to purchase a new Cadillac.

Like everyone else who selects the "car of cars", he did it to "keep current", so to speak, on all of Cadillac's new miracles of performance and beauty and comfort.

But coming to Cadillac, as he did, at this particular time of the year, we also suspect that he was inspired by the added motive of practicality.

For in addition to the home/Cadillac economy of modest purchase price, low operating cost and

high resale value—Cadillac dealers are, at this time, seasonally prepared to make Cadillac ownership even more attractive than ever.

Because of the demand for used cars and because of increased production of the Cadillac car itself, the odds are that this gentleman received both a generous allowance on his previous car and prompt delivery of his new Cadillac.

Have you considered how wonderful it would be to step into a Cadillac of your own? Then, you should pay your dealer a visit—spend an hour on the highway in the luxury of Fleetwood coach-crafting—and get the facts for yourself.

You'll agree, we know, that the car is Cadillac—and the time is now!

## Sudan Schools To Employ Twenty-Seven Teachers

Full term for Sudan schools begin Monday, Sept. 2. It has been announced by Supt. C. O. Gregory.

Vacancies still exist on the faculty. Positions to be filled are two high school teachers, including a General Science teacher, and a teacher to instruct in a variety of subjects.

The faculty of class room and a teacher to instruct this year, consisting of the allowed by the state which qualified for last year's daily average attendance. School qualified for only 19 room teachers last year. Then the twenty class rooms, two vocational teachers principal, the school will hire additional teachers, bringing number to twenty-seven.

Teachers hired recently are Mrs. JoAnn Baird to instruct in Home Economics, a graduate of Texas Tech in 1956. Baird taught last year at Mrs. Mary Clay of Well. has been secured as first instructor. At present she is ending summer school at

Jimmy Arnold, a local girl former Miss Ann Meeks, instruct the seventh grade. a graduate of Sudan High and Hardin-Simmons. Odell Wilkes has been as 3rd and 4th grade teacher. Mrs. Ruth K. Stone, of Illinois, who has twelve years experience will instruct 6th grade. Three teachers been hired to teach in the Colored school.

Mr. D. Choate of Littlefield has been awarded the contract for the dismantling and the tearing down of old grade school building. According to Supt. C. O. Gregory, Choate will receive \$740.00 for the material salvaged from building for razing the build-

ing and clearing the grounds. At present the plans of the school are to erect the new Home Economics cottage on the ground vacated by the tearing down of the building.

## Sudan Elementary School Building Nears Completion

The new \$385,000.00 elementary school building is now in the final stages of completion with finishing touches being made in plumbing and wiring.

According to Supt. C. O. Gregory, the building should be ready for the official inspection of the school board by August 15.

The campus grounds of the new building are being landscaped by Love and Son Nursery of Lubbock. The landscaping conducted thus far includes the planting of shrubs, trees and lawn work.

The new building consisting of sixteen class rooms, band hall and cafeteria is completely modern in design with the first four grade class rooms self-contained. An intercommunication system has been installed connecting the principal's office with all class rooms.

The interior is finished throughout in pastel colors and equipped with numerous cabinets, work shelves and lockers are installed within the class rooms.

The completely modern electric kitchen is equipped with steam tables, electric cooker, dish washer, potato peeler, bake oven, walk-in freezer containing a chilling room and a deep freeze section.

Construction of the new building is under the supervision of Hammock Brothers Construction Co. of Lubbock.

## Salads Abound... It's Summer

It's that time of year... salad time. Whether you're a devotee of indoor eating year round, or one of those who literally enjoys the outdoors on a warm, festivity night, salads always have a place on the menu. BEAN WALDORF will be a most welcome addition to any planning. It's a great idea, and simply made with the help of a convenient can of pork and beans with tomato sauce with chopped or sliced tart apples. Extra crunch comes from chopped celery, BEAN WALDORF marries well with any meat, hot from the charcoal cooker, or cold sliced leftover roast. It's a natural for buffets, patio parties and even carries well for a new touch for the beach party or woodland picnic. So as you plan for the next outing, consider this crunchy, colorful salad. With a 1 pound can of pork and beans with tomato sauce, you're bound to have a hit on your hands.

**Drew A. Miller Is In Operation "Tradewinds"**

INS - DREW MILLER is in 18 Marine Sgt. Drew A. Miller of 804 E. 6th St., Littlefield, Texas, landed on the rugged terrain of this Hawaiian Island early this morning as the 1st Marine Brigade launched Operation "Tradewinds", five-day amphibious sea and air assault employing the latest atomic age concepts of dispersal and surprise attack. The ground component of the

brigade, the 4th Marines, met immediate resistance from Marine aggressor forces as they hit the beaches by amphibious craft and landed atop 1,000 foot cliffs by helicopter. The vertical envelopment force was launched from the Navy's first helicopter assault carrier, the USS Thetis Bay.

Marine Aircraft Group - 13, the Brigade's air arm, provided the 7,000 Marines with non-firing close air support and fighter cover as well as aerial transportation of personnel and supplies.

The 1st Marine Brigade, the only co-ordinated air-ground team under a single tactical command,

## Black, Tweed With Fur, For Girls' Coats

The fashion importance of black for girls through teens in 1957 is nowhere better illustrated than in children's coats. For although neutral grays and beiges and colors, especially red for teens and sailor blue, are shown, most manufacturers are talking about black. Trimmings make news, too: Fur collars from ink to raccoon; brass buttons; wool braid or grosgrain binding; outside patch pockets. Fur on tweed takes the fashion spot. As for silhouette, a general easing is evident in softer yoke and shoulder treatments and in semi-fitted reefer—a loosened variation of the classic fitted coat—for 7 to 14 girls. Dropped shoulders and balmacaan sleeves relax set-in sleeve lines. Tweeds will be the popular coat fabric, used for pile-lined coats in short and full length, or trimmed with velvet or suede or fur for dressier occasions. Long haired shetland — or Harris-type tweeds, bold herringbones and neutral beige tweeds look newest. Pile linings and trimmings reach a peak of popularity this season. Knit collars and details and leather piping and buttons or toggles receive universal acceptance, too. Soft back bows, usually marking the Empire yoke line, continue on dressier styles.

## Is YOUR Family Part Of OPERATION L. O. D.?

**OPERATION LIVING OUT** L. O. D. gets underway throughout America the minute hot weather comes along. Families have learned that they can use electrical appliances outside the house to cook and that they can have all the lighting they need on their patios and lawns for games, dining, reading... but only if they have the proper wiring to accommodate those appliances and lights.

How different from Grandmother's or even Mother's day! A few years ago, the family sat on the front porch, but to get a breath of air they sat in sun-drenched chairs. Dining out-of-doors was a "picnic" with meals carried outside laboriously.

Today, electric refrigerators are used outside the home for barbecues, hamburgers and toast, coffee, bubble frosts... effective, well-planned lighting eliminates condensation—and the living outdoors is all possible through special weather-proof wiring outlets and enough electrical circuits which provide for all the lighting and appliances used either inside or outside the home.

To live comfortably in the modern fashion, the minimum electrical capacity which a family must have is 100-ampere service entrance with three wires carrying electrical power from the utility line in the street. If a family has had HOUSEWYRES, they also have enough circuits to serve the wiring required for possible electrical appliances used on the patio or terrace. Switches which control out-of-door lighting should be in convenient positions right inside the doorway which leads to these areas.

**OPERATION L. O. D.** requires the services of your electrical contractor. Simply moving appliances outdoors and "stringing" makeshift lights and cords around yourself just doesn't work.

## Use Nicarbazin According To Directions

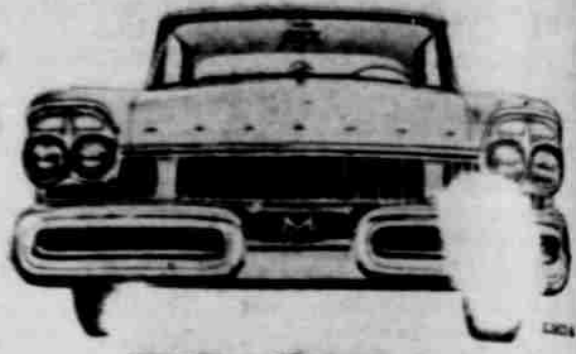

Tests have shown that nicarbazin should not be used for controlling coccidiosis in laying hens, for it drastically reduces egg production and changes egg color from brown to white, warns E. C. Wormell, extension poultry husbandman.

Nicarbazin was fed to New Hampshire laying hens in tests at the U. S. Department of Agriculture's Research Center at Beltsville, Maryland, to check its effects on egg production, quality and weight, and shell color and thickness. Egg production dropped off to half after the first week 2 weeks. These results support the findings of the Texas Agriculture Experiment Station, says Wormell.

A number of drugs that are effective in preventing coccidiosis when used in combination with good management practices are sulfaguanidine, sulfa-quinoline, nitroquinoline and nitrofurazone, as well as nitrofurantoin. All can be used for growing stock, but nicarbazin continued for a week after the drug was discontinued. Brown eggs began to appear within three days after the birds were given nicarbazin and were completely white within 2 weeks. When the drug was discontinued, brown color began to return after 2 days and was completely normal after having been completely white. A control in laying flocks, says the husbandman.

These drugs are important and effective when signs of coccidiosis appears in a flock. But there is no substitute for such sanitation practices as clean quarters, keeping feed and water in clean troughs, giving chickens room for exercise and getting rid of disease carriers such as flies, rats and mice, advises Wormell.

## School Board Approves \$636,386 Budget

### Schools Open September 2

### Back to School! Back to Football!

Buddy Jones, Coach Gene Mayfield, Leslie Bevel, and James Pressley who will begin football practice on August 30 pose for the first picture to be made of Wildcat players on the new Wildcat Field.

The new stadium will be open for the opening game of the season.

### 5 Vacancies Still Exist In System

School bells will ring for thousands of children on September 2. The Littlefield schools along with Springlake, Anton, Sudan, Amherst, Whitarral, Spade and Orlton will begin classes on Monday morning. Littlefield's bells will ring at 8:45 a.m.

**Littlefield Faculty Will Meet**  
The Littlefield faculty will meet at 10 o'clock in the high school auditorium on Wednesday morning, August 28.

Other schools will have faculty meetings prior to the school opening.

The pre-school children who did not register last Spring have been registered during the week. Other primary children will not have to register in advance to school's opening, nor will the elementary grades in Littlefield.

All children in the schools will be required to have had a smallpox inoculation before school starts. Children who have attended school in Littlefield before will not be required to furnish a vaccination certificate.

**Junior High to Register Friday**  
Junior High School students will register on Friday, August 30. Seventh grade students will register in the morning and eighth grade registration will begin at one in the afternoon. Book cards and report cards will be required for registration.

**Senior High Students Have Two Days**  
In Littlefield high school the seniors will begin registration at 9 a.m. on Thursday morning, August 29, and the juniors will start registering at 1 p.m. The sophomores will register at 9 o'clock in the morning of August 30 with the freshmen registering at 1 p.m.

All students who will be in high school in Littlefield for the first time are asked to contact Glenn Reeves at the high school on August 25. This does not include freshmen who attended Junior High here last year, just those who are moving into Littlefield.

Complete information on registration of the other area schools are in this paper and the others will appear in Sunday's County Wide News.

**Lunchroom Will Be Open**  
Mrs. Forrest Martin, director of the Littlefield schools' lunch room has announced that lunch will be served at noon Monday. Prices will be 25c for grades one, two, and three; 30c, grades four, five and six, and 35c for all other students.

Each year there are numbers of children who are furnished lunches by individuals and service organizations. The number varies with the employment seasons, but some children require lunches all year. Any person or organization may contact the school nurse, Mrs. Joyce Oliver, who handles the feeding of these children.

**Five Vacancies Still Exist**  
Five vacancies still exist in the schools here. Mrs. Blum resigned this week. This resignation leaves a second grade, a sixth grade, a Junior High School mathematics and English and Science in high school. Mrs. Lehman Jones has been hired for the position of Language Arts that existed in Junior High School.

Dr. Schilling is interviewing applicants at his office, and any one interested should contact him.

**Anton Will Register on Friday**  
Superintendent W. R. Taylor announced that all classes will register at the Anton school on Friday morning August 30 with the exception of the Freshmen and Sophomores who will register in the afternoon. All classes will begin Monday, Sept. 2.

### Services For Chace Cooper Are Pending

Chace C. Cooper of Detroit, Michigan, died Tuesday night after a long illness.

Cooper is the son of Mrs. C. E. Cooper and the late Mr. Cooper, pioneer Littlefield residents.

He was well known to many of the area's pioneer residents. Mr. and Mrs. Cooper moved to Lamb County in 1913.

He is survived by his wife, Irene, a son, Crave C. and a daughter, Jeanne, and two grandchildren.

Funeral arrangements are pending.

### Latch-String Week Off To Good Start

Latch-String week got off to a good start in Littlefield Monday with teams of businessmen visiting farm homes to discuss mutual problems on how better relations could be developed between Littlefield businessmen and area farmers.

The Latch-String Week observance is a good-will gesture by businessmen to become better acquainted with farmers and their problems.

Kenneth Ware, Sio Grissom, and Rev. W. H. Vanderpool are chairmen of the Latch-String Committee of the Littlefield Chamber of Commerce.

The trade territory was divided into areas of three miles wide and eight to ten miles long. Two businessmen are visiting each farm home and will distribute balloons and pencils.

At the end of the week if every farm home in the Littlefield trade area has not been visited, the visiting will continue until all are visited.

### L. A. Parton Purchases Sudan News

L. A. Parton has purchased the Sudan Beacon-News. He published his first paper last week.

Parton owned a chain of newspapers in the Gulf Coast area around Houston, Galveston, and Baytown.

**City Grants Two Permits For Oil Wells**  
Permits were granted to the Texas Company to drill two wells in the industrial tract just north of the Littlefield City limits.

Permit number 25 will be for Drilling Block 89 and permit 27 was granted for Drilling Block 101.

The permits were issued at a special meeting of the City Commission on Monday morning at the City Hall.

### New Busses And Teachers' Raises Boost Expenditures

The largest increase ever to be made in the budget of the Littlefield schools was approved Monday night by members of the board. An increase of twenty per cent over last year's figure was approved at the regular meeting of the board to which the public had been invited.

The new figure adopted was \$636,386.50 against last year's figure of \$525,000 while the 1955 budget was \$520,658.

Reason for the large increase in the budget is the proposed purchase of fifteen new school busses at an approximate cost of \$4000 each and the increase in the teacher's salaries and benefits totals about \$30,000 per year.

The board set the tax rate for the 1957-58 school year at 99 cents for maintenance and 41 cents for the interest and sinking fund. The total expected receipts will be \$688,600.50. It is based on total evaluation on ninety per cent collection.

The status of the bonds and other indebtedness was listed as follows: bonds outstanding on September 1, 1956 \$957,000; bonds redeemed during 1956-57, \$22,000, leaving the total indebtedness on August 31, 1957 \$935,000. The financial statement was approved.

**Resignations Are Accepted**  
The board officially accepted the resignation of Mrs. Fred Smith, Mrs. Bess Massensell, Mr. and Mrs. J. D. Truly and Mr. and Mrs. C. E. Williams.

Kenneth Clark was employed as high school basketball coach and Mrs. Barbara Davis was employed as first grade teacher.

**Conservation Co. to Audit the School's Books**  
Milk and Bread Purchases to Be Spilt

The board held representatives of the Borden Co. and Bell Dairy products that they would divide the purchase of milk for the kindergarten equally between them for the school year. Bread will be purchased three months each from Balthridge, Meads, and Holsum bakeries.

The members of the board approved a recommendation of Acting Chief of Police, F. A. Fitzgerald to close First Street on the two blocks between the schools during the lunch hour as a city measure.

Attending the meeting were Dr. Bill Armstrong, W. O. Hampton, Carl Locke, S. I. Hopping, E. C. Rodgers, Ralph Scilling, Jake Armstrong, and Byron Douglas.

**Showers Are Spotted**  
Scattered showers have fallen over the area, Monday and Tuesday. No official gauge was available, but up to one-half inch fell in the Earth-Springle area. Anton had heavy showers Monday afternoon. Some showers fell in scattered locations near Sudan and Amherst.

### is Safety Measure

## Two Blocks On West First To Be Closed During Lunch

City officials and school board members have jointly approved the closing of West First Street between Lake Avenue and Westside Avenue during the time the schools are dismissed for lunch after school opens on September 2.

The blockade will not be made on Saturday and Sunday.

This will eliminate any traffic from West First during the lunch hours and any cars that are on that street between the hours of eleven a.m. and one p.m. will be required to remain there until after the street is opened.

It is necessary for children in the elementary, primary and high school to cross first street to get to the south part of town and for junior high school students to cross to get to the cafeteria. The school store is also on the south side of West First street. Safety committees have long considered the street a hazard during the lunch hours and policemen have kept a vigil during those hours.

The residents in the 700 block were most anxious to have the street closed and expressed the concern they have long held for the safety of the children along the street.

Signs with chains attached to posts will be placed across the entrances to West First and Lake Ave and across the side street, Park Ave, which is between junior high school and Ben Porcher's home.

The police, school officials, and safety committees of the Parent Teacher Associations ask the cooperation of school patrons and all other motorists not only on West First Street but on any street near the schools.

**CC Ladies Tournament**  
The Country Club Ladies Golf Tournament will be held August 19, 20, and 21. The qualifying rounds will begin on August 16 through the 18th.

### Earth Officials Involved In Two Brawls

EARTH (Sp.)—Mayor Roy Neal, Water Superintendent W. F. Williamson and Leonard Stephens, Neal's step-son, all pled guilty to fighting before Justice of the Peace Shorty Randolph following two fights in Earth's downtown section this week.

The first incident occurred about 6 p.m., Monday, when a disagreement arose between Neal and Williamson over a petition which Williamson accused Neal of circulating, calling for the dismissal of both the water superintendent and Justice of the Peace Randolph.

Early Tuesday morning the second fight took place in the middle of Earth's Main Street between Stephens and the water official. No injuries were reported in either match.

The trouble climaxed Tuesday afternoon when Neal called a town meeting to discuss the dismissal of Williamson.

No action was taken during the meeting after several businessmen, City Commissioner Clarence Kelly and Pete Parish and City Secretary Adlene Griffin defended Williamson.

## C. Of C. Manager And Secretary Resign

Jesse Everett, who has served as manager of the Littlefield Chamber of Commerce since August 1, 1953, has resigned to accept the executive vice-president's position with the Weatherford Chamber of Commerce.

Miss Joan Parrack, secretary of the Chamber of Commerce has also resigned. Miss Parrack said her plans are indefinite.

The resignations were accepted at a call meeting of the Board of the Chamber of Commerce on Wednesday morning at 7:30 at Loy's Cafe. A majority of the board members were present.

Miss Parrack was employed on April 23, 1956. She is the daughter of Mr. and Mrs. A. S. Parrack and is a 1956 graduate of Littlefield High School. Her resignation is effective on September 1.

Charles Duval, Chamber of Commerce president, appointed a selection committee to choose a new Chamber of Commerce manager. The committee will be Kenneth Ware, Troy Armes and Carl Keeling.

Everett's resignation becomes effective on September 15.

# Bumper Milo Crop Threat To '58 Price

In the current feed situation outlook report from the USDA grain sorghum production is estimated for the current year at 117,818,000 bushels, over 100 percent more than the 209,065,000 bushels produced last year. The planted acreage of sorghums is up sharply over the nation, 11 percent in Texas, 54 percent in Kansas and 50 percent in Nebraska, but down in Oklahoma and Colorado. Better moisture conditions are new higher producing varieties will contribute to higher yields.

The Support Price for the current year is just 70 percent of parity, \$1.73 per hundred. Subtracting, handling and storage costs, the crop will net the grower about \$1.58 at the elevator if placed in the government loan. The support price as expected was flexed downward from \$1.83 in 1956 to \$1.73 in 1957.

Grain growers are concerned over the possibility of a big cut in the support price next year. Farmers who study the situation are down right worried. Both farmers and other business men feel that the time to act is now. But with possibility for any new helpful farm legislation virtually eliminated by differences of opinion among the lawmakers they're afraid that the next session of Congress will not act before it is too close to planting time to secure action before leading agencies tighten up on sorghum crop production loans.

PURE WATER is distributed in a typical scene duplicated many times in the flood-ravaged areas of eastern Kentucky, Virginia and West Virginia. To meet the recent flood situation which had cut off 19,000 families from drinking water supplies, four dairy firms put their eight plants to work preparing 60,000 gallons of safe water in cardboard milk cartons and milk tank trucks. It was the first time the Federal Civil Defense Administration's plan for emergency water distribution had been put to practical use in a disaster.

## Seek State's Top 4-H Alumni For 1957-58 Honors

WOULD you like to nominate for special honors a former 4-H Club member who has become an outstanding citizen? This is now possible through the national 4-H Alumni Recognition program being conducted by the State Extension Service, and sponsored by Olin Mathieson Chemical Corporation, Plant Food Division, Little Rock, Ark. To be eligible, candidates should have performed some outstanding service, made a notable contribution to the community, state or nation, or displayed exceptional leadership. The person need not now reside in your state.

There are more than 21 million former 4-H'ers throughout the country, and undoubtedly the beneficent influence of 4-H training and ideals has affected the lives of every one. Among them are men and women whom you know as friends and neighbors—such as farmers, housewives, the family doctor, teachers, local business men and legislators. By sending in the name of a qualified 4-H alumnus, you may pave the way for well deserved recognition. Two winners from each county will be named for special recognition certificates. Four outstanding persons will be honored in the state, and will receive a burnished copper and walnut plaque.

**Key Award** Eight men and women will be honored during an impressive banquet at the national 4-H Club Congress in Chicago next December. Besides the expense paid trip, each one will be presented with a gold 4-H alumni key, the national award. The 1958 candidates also will be selected at this time.

Should that occur and acreage be reduced without any means of compensating for the reduction low price grain sorghum might prove to be the horse locked out of the barn before he was stolen.

A lack of sympathy for grain sorghum producers' price problems has been displayed before by Secretary of Agriculture Ezra Benson. Back in 1955 in Denver one of his top aides declared that if grain sorghum prices made it more desirable feed than hay it popularity and price might show some new strength among live stock feeders.

**Loose Sweaters Are Latest in School Fashion**

Three old classics—loose short land-type sweater, pleated plaid skirt and blazer jacket—return to sportswear in a landslide. The elongated line of a leotard undie, skirts or Bermudas, a pleje look completely covers the legs.

Sportswear fashions are developing more than ever in terms of coordination. Skirt (sometimes in several styles), blouse, blazer or motor coat, jerkin or middy and pants of various lengths extend related groups. Capes and leotards complete the coverage.

Fall sportswear colors are deep toned, taking their cue from madras plaids: Periwinkle blue, sage green, gold, ruby red. Shetland influence brings special emphasis on heather tones in sweaters, tweeds and plaids.

Bright red stands alone. It is paired with white, and is the bridge between shades of gray or grays and tans, notes Women's Wear Daily. It is part of the important red, white and blue nautical theme. Black is slated for sub-teens—black knits, black twill, black wild w/e corduroy Ivy stripes and madras typ plaids add a touch of color.

Nancy Embry of Amherst, 4-H club girl, will model the attire she has made in the 4-H club Revue. Mrs. Clare Phillips checks the correct hem length and Kathy Steed of Littlefield is wearing the shirt she has made for the revue. Nancy's dress is made of Bates cotton at the approximate cost of \$5.16. Mothers of both girls are adult leaders in the summer workshop.

### Mother Goose Goes Modern At 4-H Club Dress Revue

The theme of the Lamb County 4-H dress revue is the Old Woman Who Lived in the Shoe, at the high school auditorium Friday afternoon at 2:30 o'clock. The public is invited. The children will step out of the doorway of the shoe dressed in cotton school frocks and church dresses which they have made during the summer in clothing workshops. These workshops have been under the instruction of Mrs. Lady Clare Phillips, County Home Demonstration Agent and local leaders in the various clubs.

### Bridal Shower Honors Miss Donna Gray

Miss Donna Gray of Lubbock and Monahans, bride-elect of Patton G. Blessing, was the honoree of a bridal shower given in the home of Mrs. J. S. Harmon Saturday afternoon. The refreshment table was laid with a white organza cloth, embroidered and appliqued in white. The center arrangement was pink roses in a crystal bowl with pink satin streamers lettered in gold. "Donna and Pat." Pink tapers in

crystal holders completed the decoration. Mrs. Gene Campbell served iced fruit punch and white cake squares embossed with wedding bells in pastel shades. The large array of beautiful and useful gifts were displayed in a bedroom. A pink electric blanket and an heirloom bed spread in a matching shade were gifts from the hostesses, Mesdames J. S. Harmon, Aubrey Jones, Joe Porter, H. L. Phelps, W. P. Holland, Jr., H. L. Messamore, Verpon Stagner, D. Harmon, Lester LaGrange, Ouy Blanchard, Mary Brantley, E. E. Gee, Bill Weaver, A. W. Messamore, W. P. Stone, Gene Campbell, Paul Gonzalez, N. A. Griffling, Ed Nicholson, J. S. Harmon, Joe Brantley, and Hedgepeth, George Williams, and Dale Wheeler of Littlefield. The honoree was presented with a Bobbi Fowler dress by Miss Young of Lubbock and a dress by Loventhal of Georgetown, Texas. The national radio set spent almost a half billion dollars (\$478,355,000) for fuel alone in 1956.

## Learn to Sew Class Begins at L.H.S. Monday

The first meeting of the Learn to Sew Class will be held on August 19 from 2:30-4:30 p.m. in the high school home-making lab. The lab is air-conditioned and every woman and girl in the area is invited to attend free of charge. Mrs. T. J. Jones, high school home-making teacher, will teach classes daily all that week. On Monday the lesson will be on choosing the correct size commercial pattern and making any necessary alterations. Straightening cloth, laying the pattern, cutting and marking will be demonstrated. Lesson two on Tuesday will be about how to sew the five main units of a dress by the unit construction plan and to prepare for a fitting. Other techniques to be demonstrated will be how to set in sleeves, how to make bound button holes, how to sew in zippers, and any other problems the class may wish cleared up. Short cuts in sewing with stress on perfection and ways to give home sewing the look of professional work will be demonstrated. Ready-made dresses in new fall styles will be on hand for inspection of construction details. It will be shown how home sewing even of a beginner, can produce the same fashion right results. On Friday the lesson will be on making little girl's dresses. Memorized instruction sheets will be given each day. Each morning Mrs. Jones will be in the lab from 9:00 to 11:30 to help any who wish to bring cloth and pattern for guided practice in sewing. No pre-enrollment is necessary.

## Jr.-Sr. High PTA Plans Big Year For Parents-Teachers

The Junior High-Senior High PTA is to begin the year with its first meeting on September 23. The organization's main objective for the year is to make the PTA truly an organization through which the parents of the students might be informed of the school affairs. One of the first projects of the year is the "Back To School" program for the parents of all students. The parents will attend the classroom schedule of their children for the purpose of becoming acquainted with their instructors and their courses. In November the PTA will sponsor a discussion session concerning the "Teenage Parent Problem." A program on "How To Help Your Child Study" will be presented in late March. The PTA is presently making plans to sponsor the Annual Festival given in February as a Student Awards night. In April the 14th District Conference Meeting will be held here in Littlefield. As a new feature this year, the PTA will be represented on the School Board. This representative will be a member of the Executive Board of the PTA as a connecting link between the two agencies. Elected to serve this year was Sam Williams.

## Miss McOmie And Ensign Joe Dobbs Are Married

Daisies used in profusion in decorations for the Belmont Heights Methodist Church and Virginia Country Club in Long Beach, California set the theme for the marriage and wedding reception when Miss Carol Edith McOmie became the bride of Ensign Joe Whitson Dobbs. The Rev. Llewelyn Evans officiated at the 2 p.m., July 20, double ring ceremony which united the daughter of Mrs. Mary E. McOmie of Long Beach and R. W. McOmie of Stamford, Conn., and the son of Mr. and Mrs. J. E. Pope of Long Beach. Given in marriage by her father, the bride wore a ballerina length gown of white embroidered organza. Her headpiece, a tiny inset with opalescent sequined lace, fastened a shoulder length veil of illusion. Her bouquet was a cascade of maroon daisies, arranged with stephanotis. The bridal couple asked her sister, Mrs. Henry F. Mendoza and his brother, Jeri Dobbs, to be their attendants. The matron of honor, gowned in yellow chiffon, carried white daisies interspersed with small pale yellow rosebuds. Yellow rosebuds fashioned a wreath for her head. Ushers R. W. McOmie, Jr., William Barnes, William Potter and Rulon Wells were the other members of the wedding party. The bride is a graduate of Polytechnic High School, Stephens College and the University of Washington. Her affiliations include Alpha Phi and Bachelorette. Mr. Dobbs attended the Littlefield schools, Wilson High School in Long Beach, Long Beach City College, and Long Beach State College. He is a member of the Sigma Alpha Epsilon. He is also the nephew of Mr. and Mrs. Vernon Eagan of Littlefield. After a wedding trip to the Virgin Islands, the couple will reside in Puerto Rico where he is stationed with the U. S. Naval Reserve.

# Primary And Elementary PTA Stresses Partnership

The theme this year for the Primary and Elementary PTA will be "New Ventures in Partnership." The thought of the theme is that youth, teachers, parents and other adults need to work together to help the youth in making use of his opportunities for positive development and to assume responsibilities. It is hoped that the program will promote more interest between parents, schools and youth with the thought that a sincerely interested parent makes a more interested child.

PTA officials emphasize that a more active participation in the plans is desired and needed. They wished to remind all interested persons that you do not have to be a parent to be a member of the PTA.

During the month of September the PTA will feature a orientation and room visitation to acquaint the parents with the teachers and explain the course of study. The Stay Home Night in October will again be held and as last year the Halloween Carnival will not be held. The Christmas program this year will have each room presenting their own program.

The first day of school a representative of the PTA will be situated in each room to solicit membership and assist in any way possible.

Officers for the next year are: President - Mrs. Ralph Maurer; Vice-President - Mrs. Landon Grissom; Secretary - Mrs. Harry Vanderpool; Treasurer - Mrs. George White.

Chairman of the committees are as follows: Program - Mrs. Landon Grissom; Finance - Mrs. Rex Clayton; Membership - Pfiary - Mrs. Carl Keeling; Elementary - Mrs. Ewing Thaxton; Room Mothers - Primary - Mrs. Bob Roden; Elementary - Mrs. Bill Cox; Hospitality - Mrs. W. # Don't Tell Anyone, But Birthday Dinner Honors Three

BY MAXINE CLARIDA

We have always said that it takes more than a little blood to make a man or woman a child's parent. And that is certainly true in the case of Fleeta and Jack Spee. In today's society page 1

the story of Ensign Joe Dobb's sailing and all of the oldtime member that Fleeta married the Dobb's boys father, Cotton Dobb, after her sister had died and left the two little boys. Sooner, Cotton was accidentally killed but never once did Fleeta

live a thought to the idea that those lads weren't her very own after she and Jack were married they finished the job and an excellent one too.

We saw a letter that Fleeta wrote to Jewel Egan where she wrote, "The hardest part of it was when the boys were standing at the altar and I could just see those two tiny boys in wash suits standing there, and a big lump came into my throat."

Our six year old nephew, J. Sam Mashburn from California, was here this week. Dad was playing cards with him and watching TV when the young fellow said, "Uncle Padre, you aren't even cheating fair." That came from a six year old, but how true! Some people don't even cheat fair!

Back to School will be harder this year on Bess Massengill and Mary Ruff than anyone. It is the first time in many, many years since the "old fire horse" has missed the fire. Mary said she was not going to be here to see school start and Bess just couldn't talk about it.

We are never glad for school to start. Wish our boys could just stay home. Before we had them we use to laugh at "Mammias," but it is a different story now that ours are nearing the time when the birds will fly!

Whitharral (Spl.) - John L. Burnett, Miss Betty Burnett and Mrs. Wade Strickland were honored Saturday evening by Mrs. Burnett at their home south of town with a dinner in honor of their birthdays.

Present were the honorees Wade Strickland and Mary Jane, Mrs. L. Leggett of Shallowater, Mrs. M. B. Lamplins of Potts Camp, Miss, Mr. and Mrs. Edwin Lott and Kay Lynn, Mrs. Elva T. Crak, Miss Anita Burnett and Jim Burnett.

## Sharon Wade Honored On Sixtieth Birthday

Whitharral (Spl.) - Mrs. E. G. Wade, Jr., feted her daughter, Sharon, with a picnic party at Mackenzie Park, Lubbock, Tuesday afternoon. This was Sharon's 6th birthday.

Following games and contests, a picnic was enjoyed by Mrs. E. G. Wade, Sharon, Roger and Randy; Mrs. Ralph Wade, Larry, Judy and Kathy; Mrs. J. E. Wade, Linda and Cynthia, Mrs. Pervadas Wade, Claudia, Gordon and Russell, and Mrs. Tom Burrus, Marsha and Gail.

Mr. and Mrs. L. V. Dunn and family of Amarillo, Mrs. Allie Bishop and son of Idalou, and Mrs. W. A. Dunn of Fort Worth were recent guests of Mr. and Mrs. A. Z. Dunn.

Mrs. Vernon Harris of Lubbock was a weekend visitor in the P. W. Walker home.

## Vocational Nurses Badly Needed

An L.V.N. is a Licensed Vocational Nurse.

"Amarillo and Golden Spread area hospitals are crowded. There is a critical need for trained people to help administer to the sick and injured. One of the greatest shortages is in the supply of Licensed Vocational Nurses."

This is the expressed opinion of Mr. S. F. Walters, Superintendent of North West Texas Hospital in Amarillo.

"Vocational nurses are used for almost all bedside nursing here at North West and their work is most valuable," Mr. Walters said. "We need every trained person we can get."

"The current class of thirteen students will be graduated on August 23, and everyone of these graduates can find immediate and steady employment."

Mr. Walters further pointed out that an evening class for Vocational Nurses will begin September 16, and that enrollments are now being accepted.

"Any woman," Mrs. Walters stated, "between the ages of 18 and 55, who is interested in this valuable and critically needed profession, should contact our Chief Instructor, Mrs. Jean Grim, at North West Texas hospital, or call the Vocational Department of Amarillo College, under whose auspices this course is being conducted."

Miss Jean Bryant has entered Merriman's Business College at Lubbock.

**The Middy Look Takes Over In School Fashions**

The soft touch rules in girls' through teen fashions for fall, 1957. The fall silhouette, note the fashion analysts of Women's Wear Daily, traces a long, easy line from soft sweater felt hat through waistless middy and pleated skirt to a slim bodied extending down to the toe.

Jersey and knit, biggest fabrics for fall, have a soft hand and a fluid line. A bumper crop of new fabric blends has provided children's wear with easy care wool like fabrics that resist wrinkling, that drap with little sagging, and that pleat permanently. Cotton knits go to the classroom this fall in tailored dresses and skirts and on to Sunday school in trim suits or pretty dresses.

The middy is taking a sailor's hold on young fashions for school wear and the comfortable over blouse with pleated skirt in a variety of styles is aiming for one of the top places in back-to-school styles. The classic middy is nautical style has been swept in on a heavy tide of nautical fashions.

Designers do not limit their middy dresses and nautical motifs to navy blue and the sailor collar. Sometimes they make it serve as a jacket over a blouse for dress. More often as a waist-length over top fashion for pleated skirt. Frequently it gives the effect of a neat collar suit.

The comfort of an easy wear or when sets the pace for the unlined overblouses draped to the midline. They look infinitely new or than the blouse and skirt with its definitely marked waistline which have served as a uniform for so long.

### Flu Epidemic This Fall Is Inevitable

AUSTIN—An epidemic of Aslar influenza will almost certainly invade Texas this fall and winter.

It is possible to make this prediction because the State Health Department laboratory has already isolated the specific virus in throat washings from several patients. Many more specimens are being studied and some of them will undoubtedly yield the virus.

A vaccine against this type of influenza is being rushed into production and will probably be ready in limited quantity by mid September. A goal of 60 million doses is expected to be reached by February.

Looking at the national picture, it is clear that the disease has already made serious inroads. More than 11,000 cases have been diagnosed in the various states. Seven persons have died of flu or its complications. Surgeon General Leroy Burney has publicly announced the strong probability of a large-scale outbreak within the next few months.

This appears to be a brand new member of the family of influenza viruses, perhaps closely related to the type which caused the world wide epidemic at the close of World War I. It started first in Hong Kong in the early spring, and by June had spread over the Orient and into India.

It entered the United States through a West Coast port. The first case in Texas was diagnosed in a Boy Scout who had attended the Jamboree in Valley Forge last year.
