Views From Pleasant Valley

The Pleasant Valley Farm Bureau will meet at the Community Center Tuesday night, October 15. Everyone is urged to be present as there will be an election of officers for the coming year.

The P.V. Home Demonstration Club met at the home of Mrs. H. W. Kendrick Thursday, Oct. 3 with Mrs. Dolly Parish as co-hostess.

The business meeting was presided over by the president. Roll call was answered by "ways to have a better club."

Officers were elected for the coming year. President, Jo Meeks; Vice-President, Gladys Moore; Sec. and Treas., Mildred Stewart; Ass't secretary, Glenda Haley; Council Delegate, Mildred Kendrick; Alternate delegate, Delores Duncan.

The club decided to have a contest. The side that loses the contest are to have the Christmas party.

Delicious refreshments were served to members present.

Next meeting will be on October 17 with Jo Meeks and Mrs. Bernita Measles as hostesses.

The Pleasant Valley 4-H Club met at the community center Wednesday night, October 2.

Officers for the coming year were elected: President, Mac Allison; Vice-President, Sandra Broyles; Sec. and Treasurer, Sheryl Stevens; Reporter, Rita Turner; Larry Allison is the outgoing president.

There were 14 members and 2 adults present plus Mr. and Mrs. Bob Hancy of Littlefield.

Mrs. I. V. Pierce from Muleshoe was visiting her parents Mr. and Mrs. J. W. St. Clair Monday.

Mr. and Mrs. Leroy Hicks visited in Farwell Thursday in the home of Mr. and Mrs. Rose Christian and in the home of Mr. and Mrs. Louis Hicks and son, Robert.

Moisture falling in the area on Sunday was from 1/2" to 1" of rain fall measured.

Mrs. Jack Julian was having dental work done in Muleshoe last week.

Mrs. John St. Clair visited her mother, Mrs. J. I. Dyer in Hale Center last Friday. She reports that her mother is able to be up some now.

Mrs. E. E. Lamunyon was consulting a physician in Earle Monday morning.

Mrs. Jack Calhoun and daughter, Glenda is ill this week with the flu.

Jack Julian is on the sick list this week.

Mrs. Carrie Withrow attended a pink and blue show honoring Mrs. Keith Parrish of Earle recently.

Mrs. Jarvis Angeley attended a room mothers meeting for Mrs. Carra Morgan's room in the Springlake school recently.

All classes of the Muleshoe High School met recently in choosing the most handsome and most beautiful candidates, as well as the class favorites.

In the senior class, Doyle Turner was one of four boys chosen as the most handsome. Sandy Payne was one of the three most beautiful girls.

Polly Briscoe was one of the three most beautiful candidates in the junior class.

In the freshman class, Eleanor Snookmaker was one of the class favorites.

The students mentioned are from the Pleasant Valley area.

Mrs. C. W. Calhoun and Mrs. Jack Julian motored to Midland Thursday and returned Friday. While there they attended the bridal shower of Miss Dolly Jean Williams, bride-elect of Harold Calhoun of Monahans. Harold is the son of Mr. and Mrs. C. W. Calhoun of this area.

Mr. and Mrs. Myers Ogletree were last Wednesday afternoon guests in the home of Mr. and Mrs. Jack Ogletree in the Sunnyside community.

Mr. and Mrs. Bobby Broyles and Mr. and Mrs. Richard Barnett attended the drag races in Abertally Sunday. Richard Barnett won a trophy with his car.

Mrs. E. K. Angeley visited Mrs. E. E. Lamunyon last Thursday afternoon.

Mrs. O. E. Green was called to Eden, Texas to care for her mother who fell and injured herself.

Mr. and Mrs. Myers Ogletree visited last Wednesday afternoon in the home of Mr. and Mrs. Jack Ogletree in the Sunnyside community.

LAFF - A - DAY

"Pardon me, lady — this young man claims you're sitting on his little brother."

Famous Jurist Discusses Prevention of Youth Problems

(Ed. Note: This is the first of a series of articles on the state's growing problem of juvenile delinquency by one of Texas' foremost authorities on the subject, District Judge Sarah T. Hughes of Dallas, who has handled more than 25,000 juvenile and family relations cases, along with an even greater number of other civil cases in 22 years on the bench. "Family law is probably the most important phase of the law," says this internationally known jurist, whose work has been honored in Europe and Asia as well as the United States, and whose name was put in nomination for the vice presidency of the United States in 1952. A discussion of a different aspect of the problem will appear every other week.)

SARAH T. HUGHES

Many helpful things can be done to counteract our mushrooming problem of juvenile delinquency—and they must be done by individuals and organizations as well as by parents.

In fact, I have become somewhat irritated with parents getting so much of the blame for this problem. The changed conditions of modern times impose a great responsibility on the community as well as on parents, and we as members of the community must examine the need and get busy providing more of the remedy.

For instance, more boys are arrested for auto theft than for any other crime. Unlocked parked cars are a great temptation for boys who have time on their hands and yearn for a car of their own.

How do the changed conditions of living and of children's growing up affect our youngsters? In the generation immediately past children had a big place in family life: They had jobs to do—many important chores around the home and, often, the farm—and so a child had the sense of importance, of his own worth that all of us must have. There was little time for the idleness that breeds mischief.

Today is marked by the industrialization of cities, the high percentage of cars available to teenagers, movies, picture books, TV (much of all this with subject matter beyond the adolescent's ability not to grasp but to digest properly) and very few chores around the home. So the job of the parent is much more difficult today than it used to be and much more time-consuming.

What is the responsibility of the community? It is to counteract these changed conditions with all the insight that it can summon and with all the means that it can master, in a steady, serious effort. Here are some suggestions I have developed from the thousands of juvenile cases that have come before me in my community.

E. K. Amolely, Doyle Turner and Roy Taylor attended the Lamb County Farm Bureau meeting of the District Court Room in Littlefield last Thursday night.

Mr. and Mrs. Millard Moore and family of Amarillo visited in the community last Sunday.

Maurice Jones was on the sick list last week.

Visiting in the home of Mr. and Mrs. Claude Hendricks for a few days is her mother, Mrs. Bostick.

Mr. and Mrs. J. W. St. Clair were in Lubbock last Thursday shopping and on business.

Mr. and Mrs. Leroy Hicks were in Abertally last Thursday afternoon.

22 years of handling civil cases as a district judge in one of the populous areas of our state.

1. We must provide much more thoroughly for the time that young people have on their hands these days by establishing AND SUPPORTING far more widely and completely than we now do such character-building organizations as Boy Scouts, Girl Scouts, YMCA, Junior Achievement, club gardens, etc.

2. We must provide more community centers, "teen centers," parks, schools, churches. And these youth centers must be organized in units small enough for adequate supervision so that they themselves do not become centers for delinquency.

3. As well as offering organization and leadership in these group projects, the community's individuals must try to make themselves good friends to children on a personal basis, must listen to them, share with them, encourage them, give them jobs.

4. But the community's responsibility doesn't end with the provision of character-building facilities. The community must provide more adequately by far than we now do for those who become delinquent. We must increase detention facilities and raise the number of parole officers, among other things. We have come a long way from 1925 when, in New Jersey, a 13-year-old boy was hanged for theft. But we have a long way still to go.

How we can get on the road will be discussed in my next article.

Wildcats ..

(Continued from Page 1)

terback James Pressley may be shifted, depending on how the Wildcats recuperate.

Other starters probably will be Ends Leslie Bevel and Hilton Hemphill, Tackles Wallace Lee and Bill Berry, Guards Bill Wash and Bruce Trutter and Center London Roberts.

Berry and Miles Stevens, so end, will be the co-captains.

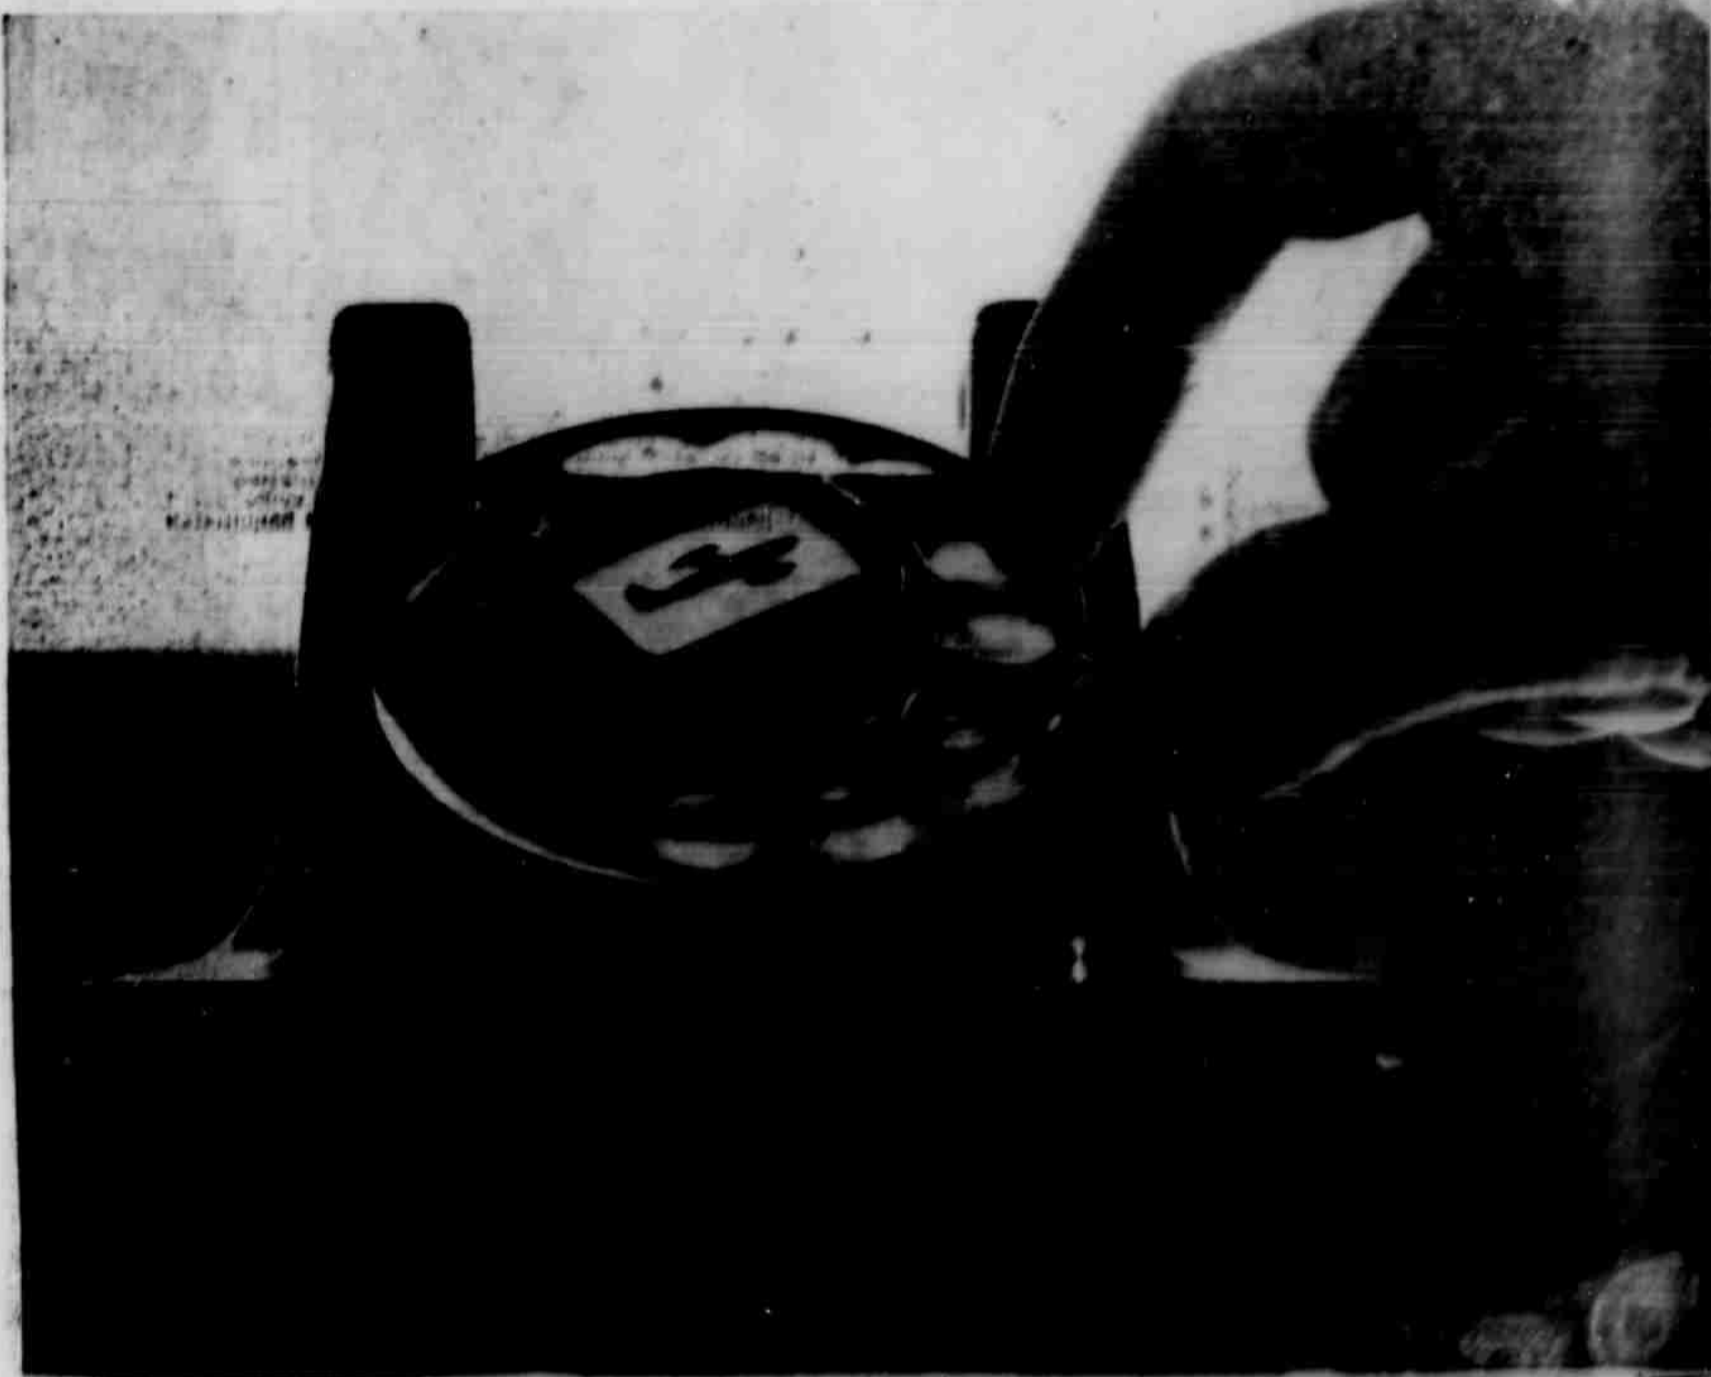

Both teams ran the T, and Mayfield says many of the two clubs' plays look alike.

"We just hope we're as aggressive as they are," Mayfield said. "If we aren't they'll kick us on the field."

The two teams have played only one common opponent, Littlefield licked Brownfield in the last nine seconds, 13-7, and Colorado City whipped the same team, 20-0.

Colorado City has scored 30 points and given up 20 in beating Brownfield, Seminole, Monahans and Kermit and losing to Bellinger.

Littlefield has scored 122 and given up 28 in beating Brownfield, Tulla, Otter and Canyon and losing to Plainsville.

This could be . . . the most important call of your lifetime

and it takes only 15 seconds to make! . . . Yet without civilian volunteers our nation is open to the threat of an unexpected air attack.

You know of the enemy threat that hangs in the skies over all of us. You know your country vitally needs you as a volunteer plane spotter—for it may be YOU who would make that one call which could save your city from threat of attack. But first of all, make that simple phone call to your local Civil Defense and volunteer a few hours in the Ground Observer Corps. This will make you an important link—scanning the skies, manning the phones—in our Air Defense network. As a "Skywatcher" you'll be part of a great band of patriots determined that no enemy plane shall sneak through. . . . Join up NOW!

Why the Ground Observer Corps?

- In the event of war we will be struck first and hard, despite all our efforts for peace.
- The GOC is the only organization for long range bombing.
- Our military forces are on guard 24 hours a day.
- Our radar is constantly scanning the skies, but additional information is vital.
- Only the men and men of "Skywatchers" can furnish this essential information to complete our air defense organization.

Freshman facing the camera are left to right, Arlene Humphreys, Rosetta Williams, Fay Scott, Linda Davison, Jeannie Seymore.

Great Plains Conservation Program Is Activated

Activation of the Great Plains Conservation Program, authorized by Public Law 853, has been announced by the U. S. Department of Agriculture. A congressional appropriation of \$10 million for the first year's operation became available August 7.

Purpose of the program, as outlined by the Secretary of Agriculture, is to assist farmers and ranchers in carrying out conservation plans through long-term cost-sharing contracts that will help to minimize climatic hazards and protect their lands from erosion and deterioration by natural causes.

The new program, Secretary Benson emphasized, supplements existing programs and activities and does not replace them. It establishes a new agency, Administrative Responsibility has been assigned to the USDA's Soil Conservation Service.

Assistance in the new program is limited to farmers and ranchers in the 16 Great Plains States designated by the Secretary as one of the sixty-five Texas counties which is eligible for Great Plains Conservation Program funds.

To participate in the program a farmer or rancher must have a workable plan of conservation operations that incorporates needed land use changes, needed strip-ping and grazing systems, and needed soil and water conservation practices in proper combination. The plan will also include a time schedule for doing the planned job.

A farmer or rancher who develops an acceptable plan may enter into a contract with the Secretary of Agriculture to carry it out. The contract provides for a plan, a time schedule, and estimates the amount of needed cost shares guaranteed by the Federal Government.

The contract can not run for less than three years but may run for up to ten years, ending not later than December 31, 1961.

The amount of cost-sharing depends on the cost of doing the needed work and the rates which are to be established by state and county program committees. This committee has already met at the state level and completed their recommendations. A meeting of the Program Committee of Lamb County will meet in the near future. Representatives of the Agricultural Stabilization and Conservation, Lamb County Soil Conservation District, Soil Conservation Service, Extension Service, Farmers Home Administration and other interested agencies will meet to select projects and set rates of cost-sharing within the limits set by the State Program Committee.

Soil conservation practices will be available for farmers and ranchers to use which combine with available practices from other programs will allow them to carry out a complete conservation plan.

There is to be no limit per farm or practice for each year of the total amount of the contract, other than \$250 limitation has been established for some of the practices.

The administrator of the Soil Conservation Service has established priorities for local areas to use in selecting farmers. These priorities are: 1. Areas where erosion is most serious; 2. Areas where erosion is most serious; 3. Areas where erosion is most serious.

Health And Beauty

Did you know that an average man loses about 40 pounds of weight permanently during his life? This is because of the natural process of aging.

Many of the most striking wrinkles appear on the face after the age of 40. These wrinkles are the result of the natural process of aging.

It is possible to slow the process of aging. This is done by using a special cream that has been developed by Dr. George L. Fisher.

Dr. Fisher's cream is a special formula that has been developed by him. It is a natural product that has been developed by him.

Dr. Fisher's cream is a special formula that has been developed by him. It is a natural product that has been developed by him.

Anton News

The Senior class will have a luncheon Oct. 30th at Gilbert's 1957.

The Anton School board held its regular meeting Tuesday night, along with other business.

The school board is moving from here and at the present no replacement of Mrs. Cobb has been made.

The Anton special cotton harvest school is now in session. This school is set up especially for the children of transient laborers.

The school may be greatly employed during hours that the school is not in session.

These are quite a few cases of flu in our school. Several football players are of home this week, and Coach Eugene Carter says he is hoping that all will soon be back in school and able to get back in practice.

Wildcats On Top In Season's Non-Conference Encounters

Senior Wildcat Is Starting End For ACC...

Senior Wildcat Christian Calhoun, left, was on the starting lineup for the Wildcats Saturday night as they beat North Texas State 20-0 in Aldine. Calhoun is one of the top 1-3 backs of Lattinfield and helped lead the Lattinfield Wildcats last season before moving to Aldine to join another team of Wildcats. He caught the 15 yard pass that set up an ACC touchdown.

Junior High Cheerleaders

The Junior High cheerleaders are shown in action during a recent game. They are led by their captain, who is seen in the center of the group.

James Goldston Is Leading Scorer In District 1-AAA

With only one more game to play, James Goldston, Lattinfield, is leading the scoring race in District 1-AAA. Goldston has scored 10 touchdowns and 15 points in the season. He is the only player in the district to score 10 touchdowns. Goldston is a senior and is expected to lead the team in scoring next season.

Spade P-TA Will Sponsor Annual Hallowe'en Carnival

The Spade P-TA will sponsor an annual Hallowe'en Carnival on Friday, October 31, at 7:00 p.m. The carnival will feature a variety of games, including a haunted house, a witch hunt, and a pumpkin carving contest. The Spade P-TA is a group of parents and teachers who work to support the school and provide activities for the students.

Suden Brownies Name New Leader

The Suden Brownies have elected a new leader for the coming year. The new leader is a young girl named [Name], who has been a member of the Brownies for several years. She was elected by the members of the Brownies during a recent meeting. The Brownies are a group of young girls who participate in various community service projects and activities.

Pictured above is another of our series of area teams. The Anton Bulldogs are a Class A team and Friday night head coach Dave Smith, Clyde Sporn, Charlie Edwards, Don Goss, Ronnie Korman, J. J. Smith, Carl Whitley and Coach Eugene Carter. Middle row, left to right, Leroy Hillis, Gene McLean, Jerry Swenson, Tommy Cantrell, Leroy Grant and Wilson Lee. Bottom row, Joe Bart, Richard Moore, Steve Gilbert, Frankie Korman, Kirby Williams and Freddie Givins.

John Laing, Jr. Is Attending Military School

John Laing, Jr., son of Mr. and Mrs. John Laing of North, is attending a four-year program at a military school. He is a member of the ROTC and is expected to graduate with a degree in engineering. He is a very bright student and is well-liked by his classmates.

FLOWER SHOW JUDGES. Mrs. Jack Alexander, Mrs. Ray Carden, both of Anton. Mrs. Carden is holding a tri-color award arrangement. It was made by Mrs. H. Westin, of Springlake Garden Club. It scored 96 points in competition. It was titled, "Lonesome," and consisted of a single flower with foliage.

MRS. BOB ARMSTRONG, of the Littlefield Garden Club, was chairman of the clerks and awards at the Flower Show. To the right, in the foreground, is Mrs. George Bohner of the Olton Garden Club, and Mrs. George Howard of Littlefield. (See story Page 1, Section 3)

Mrs. G. T. CORRY, president of the Littlefield Garden Club, seated among exhibits at the Flower Show.

Cotton Center To Observe Homecoming

The students of the Cotton Center will observe Homecoming on Friday, October 18, at the Cotton Center. The Homecoming program will include a parade, a football game, and a homecoming dinner. The parade will start at 10:00 a.m. and will go to the Cotton Center. The football game will be played at 2:00 p.m. The homecoming dinner will be held at the Cotton Center at 7:00 p.m. This is the 100th anniversary of the Cotton Center. It is a day of celebration and pride for the students and faculty.

Baptists Honor "Grandmother" Spain Sunday On Ninety-Eighth Birthday

By Mrs. Lenley La Terrie
Last Friday was the ninety-eighth birthday of a remarkable woman, Spain. The Extension department of the Baptist Sunday School, which they helped her celebrate her birthday.

Spade Scoops

Seven members of the Mary-Martin S. S. class of the Baptist church spent Wednesday in Lubbock. They had lunch at Luby's and visited the Baptist Millinery store in the afternoon. The class presented a quilt to the home. Those making the trip were Mesdames Jess Emerson, Sam Tindal, Ted Hutchins, Ernest Savage, Arthur Turner, J. R. Inglebarge and Joe Pyster.

CHANGE TO SHAMROCK 10W-30 MOTOR OIL NOW AND PROTECT THE LIFE OF YOUR CAR'S ENGINE AND BATTERY

The development of Shamrock 10W-30 Motor Oil is based on the fact that the typical passenger car engine operates most of its useful life in the temperature zone between the cold start and normal operating temperatures. All oils thicken as temperature decreases. The difference between Shamrock 10W-30 and conventional oil is that it thickens less as low temperature. The effect is your car's performance is improved. When you change to Shamrock 10W-30, the improvements you'll notice immediately are: (1) less wear on the engine during the cold start; (2) the engine will start more quickly and easily; and (3) a marked increase in gas mileage. These advantages are the most obvious, but not necessarily the most important. Frictional wear in the engine takes place at a very high rate during the first few strokes when starting an engine with little or no lubrication on the cylinder walls. 10W-30 reduces this wear, forming quickly a protective oil film. At high temperatures, a thicker lubricant does a better job of keeping metal surfaces apart. Accordingly, 10W-30 long-life oil at high temperatures gives your engine full protection at the end of the temperature range. So, with Shamrock 10W-30 in the crankcase you will: (1) extend the life of your car's engine, (2) extend the life of your battery, (3) increase gas mileage and (4) reduce the engine temperature. We don't claim miracles for it, but you probably will.

Madame Marie Hamilton and Bayne McCarty from the Spade the Softball club and Mrs. Wood H. D. club. Mrs. W. B. Coon of the Iron Horse club met with the county H.D. agent last Wednesday afternoon to complete plans for the new year book.

One inch of rain fell in the southwestern part of the county Saturday night while 2 inches were reported northeast of Spade.

The Landrats defeated the Spade Wildcats 10 to 15 here last Friday night. Fullback Martin Young and End Phelix Eyer made two touchdowns each.

Martin scored on a 35-yard run and on a 15-yard pass from quarterback Tommy Bush. Phelix scored a kickoff on a 50-yard dash and later made 22 yards on a pass from Tommy. Donald

her success that her friends will enjoy, her same glad tomorrow. For almost a century she's done her part, though her eyes are dim she sees with her heart.

So on this memorable 98th birthday, her loved ones and friends wish to say, "May God bless her with happiness still."

Several of her favorite hymns were sung. A beautiful birthday cake representing an old Bible was presented to the honoree. One side was inscribed with her name and date of her birth and on the other was "Happy Birthday."

A group of members of the extension department and Rev. John Boudin attended. Besides the beautiful cake Grandma Spain received individual gifts, cards and flowers. She makes her home with her daughter, Mrs. Lilla McFarlin and grand-daughter and husband, Mr. and Mrs. C. T. Bradford.

NOTICE

I will be at the City Hall of the following towns on dates indicated for the purpose of collecting State County taxes:

- AMHERST October 21

Traffic Expert
says "Slow At Sundown"

AUSTIN—Slow down at Sundown. A. G. Shook, General Manager of the Texas Safety Association, warned motorists today that slow down is a part of the safety-education program of TSA for October.

"Slow nighttime driving traffic troubles the driver less to sell than the gas pedal the foot is watch out for the view of others as well as his own."

"If a driver must stop at night, it is imperative that he always pull completely off the road and leave on his parking and dome lights," Shook said.

He particularly stressed the fact that night driving is different from daytime driving. Motorists must adjust to that difference by putting their guard up when the sun goes down.

Fortified by the fact that 2,843 traffic fatalities in Texas, last year, occurred in the three hour period from 5 p.m. to 8 p.m., Shook said. Thus, emphasizing the slogan that "Slow brings death" on the highways.

3, 5, 10 and 20 year statutes of limitation, and that title is preserved under duly recorded deeds and claims of right in payment of taxes on said property. Issued this 18 day of September, A.D. 1935.

Given under my hand and seal of Court at office in Littlefield, Texas, this 18th day of September, A.D. 1935.

Erick L. Owens, Clerk, District Court, Lamb County, Texas.

Optimism Is Outlook Business: Inflation Is Key

Recent national survey of business and industrial expansion showed that they are entering the last quarter of cautious optimism, but that they are reluctant to see the trend of business in 1958.

Prices and employment are high. Consumers still are in a better-than-normal pace, but they are becoming more active. The consumer is caught between the continued rise in prices and the high level of taxes, especially at the retail level. Most of the consumers' dollars are going into the pocket of the retailer, but part of the increase in prices is due to higher prices of merchandise.

Business and industrialists are caught in a squeeze between high money and high taxes. Corporate earnings are at a time when corporations need money badly for expansion projects. The cost of new plants and equipment has risen, while the level of retained earnings and dividends has declined, widening the gap between the two.

Corporations are looking to public investors to provide the money needed for their expansion. But the stock market has declined. Stock market prices reached the lowest point since 1955.

The financial and business world is not yet alarmed, but the industrial production is momentarily on a dead level. Financial experts are anxious to see which way it will move in the next few months.

Inflation is the rotten apple in the barrel. As inflation rises, the squeeze becomes more pronounced on both the producer and the consumer.

Excessive government spending is the major cause of inflation. One of the country's greatest financial geniuses, Sen. Harry Byrd of Virginia, is a leading exponent of this viewpoint and like former Treasury Secretary George F. Warren, predicts trouble if government spending is not curtailed.

President Eisenhower and other government officials are talking about inflation on industry, labor and any other scapegoat they can think of, while refusing to admit that the high rate of government spending is the major cause.

The vicious circle of inflation ripples out in its effect on the economy, the danger of recession becomes more imminent.

What can the average citizen do to correct the situation? He must exert all the influence at his command to bring about a change in government spending, substantial lowering of taxes and a drastic cut in government borrowing. Only in this way can the financial situation improve, a decrease in taxes and the inflation problem will take care of itself.

Cigarette Smoke And Cancer

A French scientist, working in Paris, has discovered a chemical in cigarette smoke which causes cancer in mice when injected into them. The chemical is identified as 3-4-9-10 pyrene. This chemical develops only when tobacco is smoked and is one of the chemical which compose the "tar" in cigarette smoke.

Dr. Ho has long been suspected of causing lung cancer in French-educated Vietnamese scientist, who recently discovered, is Dr. Nguyen Phoc Binh. He is 41 years old and his discovery was recently announced in a medical paper published by the French Academy of Science.

Dr. Ho revealed that the new substance was isolated from the smoke of cigarettes. He conducted the laboratory of the Institute of the University of Paris. Part of the monograph research work was supplied by the U. S. Public Health Service.

Although U. S. researchers had announced in 1954 that benzopyrene, which was present in cigarette smoke, had caused cancer in mice, Dr. Ho did not believe it was the complete answer to the problem. He used a total of 4,000 mice in his experiments and found that pyrene, injected into mice, causes cancer in as little as 10 days in some cases and ultimately caused cancer in over 90 percent of those in which it was injected. The injection was one-half milligram.

Benzopyrene, the 1954 discovery, a dose five times as high as that of pyrene, was required to produce cancer, although even then it was not always certain.

The latest discovery is further indication—if further research is needed—that cigarette smoking should be restricted. Dr. Ho believes it is possible for a person to inhale benzopyrene, and it is to be hoped that the forthcoming report on present-day filters and their effectiveness will be forthcoming shortly, giving smokers an honest report on present-day filters and their effectiveness.

"Something about needing rain!"

Highlights and Sidelights From Your State Capitol

By VERN SANFORD
Texas Press Association

AUSTIN, Tex. — There's talk now of not just one, but two special sessions of the Legislature. East Texas House members, who served as a tightly-knit team in pushing segregation laws last spring, are asking Governor Price Daniel for a chance to put through some more.

Texas needs laws to prevent the kind of trouble that developed in Little Rock, say the East Texans. Specifically, they propose (1) a law to allow local boards to close schools in case of riots or occupation by troops and (2) a measure directing the Attorney General to assist local school systems involved in federal suits to enforce integration.

Daniel said, "It may be we should take further action." But he said he thought the East Texans were wise in not suggesting the segregation laws be added to the agenda of the session which opened Monday. It was called to work on today registration regulation of practice before state agencies, water conservation and crime study. Most observers think thrashing out all the details of these will take a full 20 days.

FOUR INDICTED — Travis County Courts, which serve as the arena in which state officials are taken to task, are due to announce verdicts of statewide attention.

After four months of study in the history of the MCF Insurance Co., a Travis grand jury returned perjury indictments against former insurance Commissioner Carlisle A. Smith and J. Byron Saunders. It also indicted MCF's top manager, Donnell C. Cagle, on charges of fraud in the insurance company's operations. Also indicted is Wayne Scobie, an ex-convict charged.

Justice recommended that the law be strengthened, particularly regarding the filing and response of bills of company officers and board members. This was a fine line to walk for the justice today, said the grand jury, but it urged a law requiring registration and complete reports by lobbyists.

Proof that the jury's decision was not a mere technicality was the fact that the grand jury had indicted Saunders for "unlawful exaltation."

WATER PROBLEM — Technical difficulties and lack of money have hindered past efforts for an overall water conservation program in Texas. So said members at the Texas Water Conservation Association meeting where water conservation problems confronting the state legislative session were reviewed.

State Water Board Chairman H. M. Isaac said his department has never had enough money to carry out its program. He said for many years in various parts of the state, he has been in contact with other state departments.

House Speaker Workman complained that legislators have a double duty because they are not only legislators but also water conservation advocates. He urged conservation.

Governor Daniel recommended a water plan to take care of needs in the next 200 years. "We can't be backward," he said, "and we must be in the future with our water conservation program."

WATER TREATMENT — How water is treated has become a hot topic in the state. The state is now in the process of building a water treatment plant for water conservation.

He pointed out that the state, which is now in the process of building, has received the endorsement

ment of the state's leading organizations and associations. "Each day's mail brings additional support from local chambers of commerce and other civic organizations, as well as private citizens interested in the welfare of Texas," the governor added.

BOB AND GUN STATISTICS — Texans spend twice as much money to hunt and fish as they do for admission to all football, base ball and basketball games, plus all other spectator sports, plus all the money and time in various situations combined.

So said J. A. Miller of the Texas State and Fair Commission in a report to the governor in Austin. There are some other facts which are also reported in the report. Miller said the average Texan spends \$1.17 a year on hunting and fishing, while the average Texan spends \$2.34 a year on football, base ball and basketball.

111 COALS FILE UP — The Texas Coal Producers' Association is going to file 111 bills with the Legislature this session. The bills are being filed in the State House in Austin. The bills are being filed in the State House in Austin. The bills are being filed in the State House in Austin.

COFFEE FORECAST UP — The Texas Coffee Producers' Association is forecasting a record coffee crop for the state this year. The forecast is based on the fact that the coffee plants in the state are in excellent condition and the weather is ideal for the crop.

1957 COFFEE CROP — The Texas Coffee Producers' Association is forecasting a record coffee crop for the state this year. The forecast is based on the fact that the coffee plants in the state are in excellent condition and the weather is ideal for the crop.

Tom Stevens, Littlefield, Plymouth, four door.
Byrd D. Harris, Littlefield, Chevrolet, four door.

"Dollars For Democrats" To Work In Texas

ABILENE, Tex., Oct. 7 — The Democrats who since past year have been busy in Texas in part of the "Dollars For Democrats" fund-raising drive, said today "Advance contributions have been coming in daily from county judges, county and precinct chairmen, members of the state legislature and Congress, and other local and state officials, indicating a strong renewed interest in the Democratic Party."

G. T. Wood, Littlefield, Plymouth, four door.
Jack Connel, Stallwater, Oldsmobile, four door.
Fidelity Coop. Gin, Fidelity, Chevrolet, 2 ton truck.
Baldie E. Clayton, Amberst, Mercury, four door.
W. G. Sanderson, Earth, Oldsmobile, four door.
Marjorie Walker, Littlefield, Ford, two door.

Fifty-one used cars were transferred to new owners.

Marriage Licenses Issued:
Harold Herbert Johnson, of Amberst, and Miss Laura Joyce Kistner, of Hart.
Charles Dewayne Parker, of Carleton, New Mexico, and Miss Shirley Kay Patson, of Kistner.
William Franklin Anderson, of Littlefield, and Miss Catherine May Masters, of Littlefield.
Narciso Carlos Latta, of Amberst, and Miss Bertha Edwige Latta, of Amberst.
Diego Pena Lopez, of Abilene, and Miss Maria Alicia Ortiz, of Abilene.
Paul Wesley Cartwright, of Amberst, and Miss Carol Jean Quillet, of Amberst.

Connelly said that every Democratic officeholder in the state had been contacted and asked to contribute \$1 for every voting member in his county. Connelly also noted that in his travels around the state many local officials mentioned specifically to him that they were complying with the advance contributions request.

In addition to raising funds, "Dollars For Democrats" will provide us with an up-to-date mailing list of active Party supporters," Connelly said. Nearly 100 per cent of our contributors have asked to be on such a list, which indicates that the average voter is hungry for information about his Party."

In Austin recently top Democratic leaders gave the drive a send-off with their contributions. Governor Price Daniel, Land Commissioner J. Earl Rudder and Democratic National Committee member Byron Bolton personally handed their dollars to Connelly.

Texas who are not contacted personally during the weekend drive may send their contributions to J. F. Connelly, Box 322, Abilene.

Searching for a better tomorrow...

Oil scientists spend their time and skill looking for ways to make your future better! As a result, just about every one of the hundreds of oil products that help make today's living so comfortable was developed in a laboratory like ours.

Today's You see, every one who works in America's competitive oil industry has a special job to do. It's our job to promote progress—in the form of the newest developments from oil science.

FOOTBALL WIN CASH

It's Easy . . . Anyone Can

CONTEST RULES

- Anyone can enter except employees of The News and Leader.
- Three Cash Prizes are given each week; duplicate prizes awarded in the case of ties.
- It is not necessary to indicate scores on all the games but score must be indicated on the "Tie-Breaker" Game each week.
- Members of the editorial department are sole judges of the contest and their decision is final.
- Deadline for submitting entries is 8 p. m. Friday. Winners will be announced the following week. Enter as often as you wish. Completed entries must be deposited at any of the participating firms. Do not send to this paper.

LEADING GROUND GAINERS

Do you really know what your car requires in a gasoline? What it takes to make the miles speed easily and silently by? To deliver all the energy in your engine under any driving conditions? The answer is **LEADING GROUND GAINERS**... and **FORD** has it.

If your is a late model car, **Ford's Premium 87yl** guides the new, added power rating that high compression engines require.

If your car is older, **Ford's High Octane Regular**, too, gives it a new power boost for safe-driving economy.

Fill up and find out. You'll see that **Ford** — premium or regular grade — makes a leading ground gain of your car.

A MESSAGE TO PARENTS on Children's Eyesight

by South Plains Optometric Society

What Can Be Done to Stop Loss of Vision Near-sightedness in Children?

Reports of research from London University and the French Institute of 1936 are contained in the book "Eyesight."

Good reading under the use of normal, uncorrected vision has been shown to be most effective in maintaining near-sightedness. Many children have been found to have lost vision from the use of normal, uncorrected vision. This is because the brain and the eye work together to see. If the brain is not used, the eye will not see. This is why it is important to use the brain and the eye together to see. This is why it is important to use the brain and the eye together to see.

This book is plainly displayed by members of the South Plains Optometric Society who are prepared to give you a copy of this book.

Mrs. F. L. Simmons and Mrs. C. K. Holt attended to business in Lubbock Tuesday of this week.

Mr. and Mrs. Paul Carlisle and daughter Ginger spent Saturday night with her sister and family, Mr. and Mrs. Clifton Robinson of Hereford.

Predictions Of Flu Epidemic Are Materializing

Earlier predictions of a wide-spread Asian influenza epidemic this fall and winter appear to be materializing. Reports of cases coming in from all quarters indicate that Texas has been well "seeded" with the virus.

Only five brief months have passed since late April when the disease was first recognized in Hong Kong. This speed of spread is typical of the illness.

So far, Asian influenza, which is really a new strain of a virus type well known to laboratory technicians, has been comparatively mild. This very fact has caused many people to ask why so much noise is being made about it. There are several good answers.

First, even mild influenza can be disabling for four or five days, followed by a period of lassitude and weakness. If enough people are stricken at the same time, as in an epidemic, medical care facilities may be overstressed and vital community services may breakdown. These possibilities

may be averted by forewarning and careful planning.

Second, influenza is always unpredictable. Cases are frequently complicated by bacterial infections. And, even when uncomplicated, the illness has a particularly dangerous impact on persons suffering from heart ailments or other chronic diseases.

Experience has shown that the average period of a local epidemic is about four weeks, but 80 per cent of those who become ill do so within a period of about two weeks. Frequently whole families get sick at the same time so there is no one to care for the sick, to fix meals, or look after family affairs.

The unusual features associated with Asian influenza has kindled interest in events just preceding the world-wide epidemic of 1918-1919. It started in Western Europe in 1918, and by August had spread into Scandinavia and the Orient. By October most of the United States was involved.

In January and February of 1919, the epidemic intensified and mortality rates rose sharply. Before it was over it had killed more than 800,000 people in the United States alone.

Fortunately, with modern epidemiology and laboratory techniques, we are in a better position today to cope with the situation. Too, for the first time in history the nation is in the unique position of having already begun production of a vaccine before an anticipated epidemic actually struck. Six drug houses have been licensed to produce the vaccine and are working on around-the-clock schedules. Vaccine will be released to states on the basis of postal ton as it becomes available.

Olton Pioneer Dies Sunday

J. M. Moss, 80, died Sunday at 7:30 p.m. at home of his daughter, Mrs. E. J. Evans.

Born in Georgia he had been a resident of twenty-nine years in Olton.

Funeral services were held Tuesday at 2:00 p.m. at Baptist Church in Olton, pastor, Rev. John E. L. Carter.

He is survived by his wife, Mrs. Perry Moss; two sons, W. H. and W. L. Evans, of Littlefield.

Man's use of petroleum — of oil and natural gas — began before the first records of history. But petroleum's full usefulness to man has been a matter of decades only.

They have been wondrous years, those decades. Years that saw automobiles built by the millions because gasoline was available as a cheap source of power. Years that saw the oceans dwindle under the high speed of great ships powered by oil. Years that saw the evolution of a more comfortable living in homes warmed by oil and natural gas. Years that saw rubber, fibers, paints and many other useful items of everyday living produced from petroleum's hydrocarbons. Years that saw the earth shrink under the wings of the airplane, and great wars decided by the availability of oil.

Thus, the oil industry has led the way into the wondrous years of our time. The industry, through foresight, ingenuity, research, and risk-taking, has found and produced the oil required in greater quantity each year, has conserved

oil for the future, has devised the transportation system that moves oil economically, has built the refineries and plants that convert crude oil and natural gas to the hundreds of useful products needed by a growing United States.

The Humble Company, founded in 1917, has participated in petroleum's progress during four great decades, and has pioneered in the development of many current techniques for finding, producing and refining oil. This week, with the industry, Humble invites you to consider the variety and extent of oil's progress... surely no other industry has contributed more to the making of modern America.
