

LAMB COUNTY LEADER

Official Newspaper of Lamb County, Texas

LITTLEFIELD, LAMB COUNTY, TEXAS, THURSDAY, JANUARY 31, 1929

No. 42

CONTRACT SIGNED \$50,000.00 IN L'FIELD

Contract was signed between a company and the Littlefield Commerce and John and associates, of Lubbock, for construction of a hotel on Main street just opposite House building.

Provides for the three lots as a building which the company will erect a hotel structure 75x125 feet, also, space for a shop and other concerns. The second floor will contain 32 rooms, all but one having baths. The construction will range from \$100 to \$150 per room.

Provides that building will begin as soon as the necessary permits have been passed and will probably be completed in 60 days.

ON 3 NEW BUILDINGS NOW; WORKERS TO START

Foundations being laid last week. It is this week pushing the construction of two brick buildings on Main street.

These buildings located just west of John H. Arnett Motor building, one 25x125 feet and when completed will be occupied by Mr. J. H. Wells. The Whippet automobile will be parked in the rear.

Contract for building, located just east of Lilly Shoe Shop on east side, will also be 25x125 feet and for construction is well advanced. When completed will be occupied by the Houk market.

Planting tanks, laying out the super-heating station being built by Phillips Petroleum Co., will be just opposite the Houk market, is being carried out.

25 feet, will be constructed in the style, and there will be two ways, totaling 3,000 gallons service capacity, also hydraulic auto greasing.

In the next 30 days the Higginbotham Co., will begin construction of three brick structures on lumber yard now stands. They will be moved to the former block east and the other two will be erected from the north.

Residues in the United States for their home service of fifteen dollars a year would amount to \$1,000 yearly.

Mrs. Babe Ruth?

Hodgson, former show girl, is to become the wife of Babe Ruth, famous ball player.

OPPORTUNITY KNOCKS HERE AND THE DOOR STANDS AJAR TO WELCOME THE HUNDREDS OF HOME SEEKING PEOPLE

LITTLEFIELD, A WELL CHOSEN SPOT IN LAMB COUNTY REACHES OUT IN SEVEN LEAGUE STRIDES AS INDUSTRY DEVELOPS ITS RESOURCES AND OPENS TREASURE HOUSE OF ITS VIRGIN WEALTH.

The United States is growing narrower and thicker all the time. Four hundred years ago this continent was nothing but a great stretch of prairie interspersed with hills and valleys and covered with rocks and trees, wolves and Indians. But there came over from England, from Ireland, from Scotland, from Germany and from all the Eastern continent a million and a half people who crowded along the shores of this new found country.

Great iron cables were soon thrown out, linking us to the other world so we couldn't get away. Vessels commenced to make regular trips across the Atlantic. The Constitution of the United States, one of the sublimest documents of all statesmanship, was formulated and adopted, and pretty soon we found ourselves a free and independent people, with all the rights and privileges of American citizenship.

Towering castles of commerce and palaces of comfort sprang up, the tramping of millions of feet beat out our great highways, the throbbing of anxious hearts reared countless elegant homes, and today we are a nation without a peer.

Our ships visit every port of the globe. Our commerce goes around the world and is unloaded at every harbor of the planet. Our exports are in demand all over the earth. Many of our factories and mills are running night and day and are still behind with their orders. Our system of government is unequalled. Our institutions of learning are unexcelled. Our sons and daughters are the kings and queens of wisdom. We have the highest seat in the world's great council. Every other nation on the face of the globe looks to America today. No country has ever had such a marvelous and rapid development. With less than one fifteenth of the world's population we have more than one-third of its total wealth.

A half century ago it was a long way across the continent, and when the new settlers contemplated a change of residence they would load their belongings consisting principally of a large family, into a "prairie schooner" and begin a long tedious journey, accompanied by many hardships and privations, across the country for a hundred or a thousand miles, picking their way through the dense woods and underbrush, winding across the virgin prairies, fording the bridgeless streams to settle on the frontier without much hope of any enjoyment except adventure.

Today it is different. Seated in a "Twentieth Century Limited," one is literally hurled across the country, or, in one of our modern automobiles one may even exceed the speed of the heavy train, only a few days being required to make the trip.

We recall how the state of Oklahoma sprang up like a mushroom in the night. The "Great American Desert" through systematic irrigation and the workings of the Omnipotent laws of nature is being made to blossom and bloom like the floral gardens of ancient Babylon. Rivers are being run through a country, creeks are dug out from the edges, ditches are dug out from the creeks, and a country which only yesterday was a dreary waste of dry and burning sand is today a waving field of rich golden grain.

Not many years hence and America will represent some of the thickly populated countries of Europe and the far Orient. Many of our cities and rural districts are already greatly congested, while land and property are selling at fabulous prices. Today the great movement of homeseekers is toward the South Plains of Texas.

A land once thought to be fit only for the grazing of cattle; where even a lone coyote might say his prayers before starting across an unsurveyed county, has proven to be one of the choicest spots of our great country.

Multipled thousands of acres of this fine land has been thrown open for settlement on very easy terms of payment, one company alone having sold nearly 1,200 farms at an average price of \$30 per acre during the past four years, the most of which is now inhabited by contented and prosperous farmers. Anyone with a few dollars and a bunch of industrious energy may now obtain a home in this section. In Lamb County, where the pick of the land lies, new settlers are arriving on every train and the prospectives are coming by the score. Already hundreds of delightful homes have been carved out on the face of this rich and attractive prairie. Sinking the bit into the ground a few feet, these new settlers have brought up an abundance of the purest water, both for drinking and irrigation, while the annual rainfall, averaging 22 inches per annum, is sufficient for all general crop production.

Littlefield, five years ago with a population of not exceeding 300 people, and now 3,500, is located in the very midst of this fine new land and is every day a vivid demonstration of the merits of this new country. This section with its salubrious climate, its extreme fertility of soil, its pure water, its circle of varied crop production, its unlimited natural resources, its enticing offerings is now extending a broad and hearty invitation to all prospective home seekers to come and locate in our midst.

"Opportunity knocks but once at the door of every man." This may be your call. Don't procrastinate! The Mexican's "manana" has meant the defeat of many a goodly enterprise. If you are looking for a place to invest your money, if you are looking for a place to rear your children, if you are looking for health, then come to Littlefield, in Lamb County, Texas. "Taste, see and know!"

TO CONTINUE OIL TEST

The Leader is reliably informed that a drilling company from Graham has taken over the Elwood oil lease, a few miles north of Littlefield and will put down a deep test hole in that vicinity, starting work within the coming 15 or 20 days, according to representatives who were here last week.

While no definite information is being given out at this time, it is understood that the new test is being backed by several of the major oil companies.

Drop Student Hubby

Russell M. Smith, senior of Washington and Jefferson College, complying with a recent ruling, must withdraw from the school because he married Miss Marjorie Jacquelin, above, Kansas University co-ed.

SURVEYING FOR ERECTION OF \$260,000 WORTH OF NEW HOMES ON COLLEGE LOTS AND ACREAGE WAS BEGUN FIRST OF WEEK

Engineer Ray Jones and assistants are this week surveying out a number of 10 acre tracts belonging to or recently sold by the Littlefield College on which are to be erected homes for 130 new families that will be moving onto them during the coming spring months.

Contracts have been let for the erection of 130 residence buildings on these 10 acre tracts, including 40 lots which have been sold by the college. These residences will cost

from \$2,000.00 to \$8,000.00 each, the aggregate cost of improvements amounting to \$260,000.00.

It is also understood that work on the college administration building, (the foundation having already been laid) will start in the near future, also some other buildings needed for the school.

The N. H. Waller Construction Co., of Dallas, have contracted for the new buildings, and it is said considerable local labor will be employed in the activity.

THE PLAINS

Wide circle of plains stretching away,
The rim rising up to touch the sky;
Illusory mountains, majestic and white,
Formed on the circle's rim,
By great masses of changing clouds;
Intense light, pouring down from the sun
On the green and brown flat land.

Gathering clouds and the passing threat of a storm;
The massed clouds breaking and drawing away;
The sunset glory turning them
To a wonder of red and gold.

An hour of twilight, and the rush chill evening air;
The night and a cloudless dome of sky,
Filled with a marvel of brilliant shining stars:
Such is the changing day and its beauty,
In the great, wide sweep of the high and limitless plains.
—Edward Howard Griggs.

HIGHWAY NO. SEVEN NOW READY TO PAVE IN SPRING

At the last meeting of the City Commission arrangements were completed for property easements in affected districts whereby State highway No. 7 may now be straightened through the corporate limits of Littlefield in accordance with plans of the State Highway department.

Some months ago about \$8,000 was ordered by the State Department to apply on the paving of this highway through the principal part of the city, the balance of the payment to be made by the city. This work will be started early in the coming spring.

CUENODS MOVE THIS WEEK TO THE PETERS BUILDING

The Cuenod's dry goods store was moved last Tuesday into the new Peters building just south of their present location.

In their new location they will have more room, larger display windows, bigger stock and be much better situated to take care of their rapidly increasing business.

STRANGE-HOUGHTON

Troy Houghton and Mrs. Sallie Strange were married Sunday. They left immediately for Brownwood where they will spend a few days.

They will make their home in Littlefield.

SOUTH PLAINS ADVERTISING BRINGS NUMEROUS ENQUIRIES

The Leader is this week in receipt of a booklet entitled, "Farm Life on the South Plains of Texas," issued by the South Plains, Inc., Lubbock, which is carrying on a campaign of general information regarding the virtues of this section of Texas.

The booklet is printed in two colors well written, contains numerous illustrations, including the Littlefield high school building.

To date more than 800 enquiries have been received at the Lubbock office from people interested in this section.

DOCTORS OCCUPY SUITE IN ROMBACK BUILDING

Doctors W. H. Harris, T. W. Grice and R. W. Walthall moved their offices last Saturday into the new Romback building.

Together they occupy a suite of 10 rooms, some of them being fitted as laying-in rooms for patients under treatment.

Considerable new furnishings and modern operating instruments and accessories have been installed by the physicians.

SHERIFF MAKES ARRESTS

Sheriff Len Irvin went to Hereford Monday to bring back Ernest Grant, of Sudan, on a charge of forgery and giving cold checks. He was placed in jail at the county seat.

Last Saturday Irvin arrested a man by the name of Hall, and his two sons, said to reside in the Bula neighborhood, on charges of forgery. The father was later released.

Patriotism Like other homely virtues, begins at home. It is only given to the few to serve in high places. But all of us have the opportunity to serve at home. Loyalty to the home town is the test of real patriotism. When we neglect to support home trade or home industries we fail in our loyalty to our country and to ourselves. Great are the rewards of home town patriotism. Great are the results. It brings prosperity to us and ours, employment for all, activity in business and progress in every direction. With "Our Home Town First" as our motto the future is assured. We shall steadily step forward to greater and nobler achievements. Let's be patriotic!

Dangerous Business

Our stomach and digestive systems are lined with membrane which is delicate, sensitive and easily injured. It is dangerous business, then, to use medicines containing harsh drugs, salts or minerals, when we are constipated. In addition to the possibility of injuring the linings of our digestive system, these medicines give only temporary relief and may prove habit forming. The safe way to relieve constipation is with Herbine, the cathartic that is made from herbs, and acts in the way nature intended. You can get Herbine at

Stokes & Alexander Drug Company.

METHODIST CHURCH

Sunday School, 9:45 a. m.
 Preaching Service, 11:00 a. m.
 Senior and Intermediate Epworth League, 6:45 p. m.
 Preaching service, 7:30 p. m.
 Bible Study, Wednesday evening.

In accordance with the plans laid out for our district, our church will hold a Church conference once every quarter.

Two and a half months of the new year have passed; the pastor has a report to make of the work accomplished and plans for our local congregation, which report, together with report of the official board, Sunday School, missionary society, league and brotherhood, will be made in brief Sunday morning. This will be followed by the communion service.

Every member is urged to be present and vote on any matters that may be brought up at that time. The Stewards are urged to see every member on their lists before next Monday night when the board will meet in the church. Wednesday is Sunday school council night. "Are ye the Salt of the Earth?" Sunday evening topic.
 —GEO. E. TURRENTINE, Pastor.

 J. H. Kimmel from Levelland will preach at the Church of Christ next Sunday at 11:00 a. m.
 Everybody invited to attend.

CHURCH OF CHRIST

Bible study, 10:00 a. m.

Preaching, 11:00 a. m., and 7:30 p. m. I am not here to tear down, or to build on some one else's downfall. I preach a positive gospel, and not a negative one. Life means activity. The Christian life is a growth and development into the likeness of Christ. I am inviting all to worship with us, and let us reason together.
 —T. L. Kimmel.

SACRED HEART CHURCH

Divine services every Sunday.
 All preaching in the English language, only.

The general time for services during the winter months is 10:30 o'clock a. m. one Sunday, and 8:30 o'clock a. m., the following Sunday.

When we have 8:30 o'clock services in Littlefield, 10:30 o'clock services will be held at Pep, and vice versa.

Everyone interested has a free access to our church, and is cordially invited by—
 REV. CHARLES J. DVORAK, Pastor

BAPTIST CHURCH

Sunday School, 9:45 a. m.
 Morning worship, 11:00 a. m.
 Senior and Intermediate B. Y. P. U., 7:30 p. m.
 Evening worship, 8:30 p. m.
 Prayer meeting, Wednesday, 8:30 p. m.

Last Sunday was a day of power and victory. There was a splendid audience and three souls united with the "Bride of the Lord" in its triumphant march to the Promised Land. God's mighty arm is laid bare and we are more than conquerors through Him that loved us. Through the tender mercy of our God sickness is subsiding and like Job of old, we humble ourselves under His mighty hand and go up to the house of worship.

Many strangers come to our services. Well, my brother, just move to the best town north of Lubbock and make it permanent. Religiously, this is a great Baptist empire, virgin and

progressive, and Baptists are a progressive people. Move up and help us boost.

I never saw a person who loved his home town, but what was beloved by his home town. Did you? I never saw a church member who really loved his church under any and all circumstances that wasn't loved by his fellow churchmen. Have you?

Moral: If you can't whistle—

pucker! And whatever you do come to the Baptist church—Come at 9:45 for Sunday school and stay for 11:00 a. m. preaching hour. Theme: "The Three Great Lights." Leave the church mad at the world the flesh and the devil and in a good humor with your wife and your God. Amen!
 —ROY A. KEMP, Pastor.

ESSEX THE CHALLENGER

NO EVADING THIS CHALLENGE
 76 ADVANCED FEATURES

Here is a challenge that rings with fulfillment. Its bid is to all who would own the best, and no car is excepted.

In Fast Getaway—against the champions of any price class. In Speed—anything the road offers up to 70 miles an hour. In Endurance—60 miles an hour all day long is being proved by thousands. In Hill-climbing—give it the hardest task you know. In Size and Roominess—match with big cars of large passenger capacity. In Appearance and Smartness—compare it with the costly cars, in which high price is paid for just those things. In Economy—against small light cars, whose chief appeal is economical operation, and which do not contend for performance distinction.

These are but a few of the 76 advanced features which a million Super-Six owners are appraising in Essex the Challenger. Come examine and drive it. It will not only win your endorsement, but challenge your ownership interest against any value that motordom may offer.

Hear the radio program of the "Hudson-Essex Challengers" every Friday evening

LFD. PLAYED TWO FAST GAMES WITH MULESHOE CAGERS

The boys and girls of the Littlefield High school basket ball teams went to Muleshoe Wednesday evening January 23 and played two games, the boys winning their game, while the girls were nosed out by the Muleshoe team.

The scoring plays for the boys were as follows: Bernie Howton took a high rebound off the backboard and flipped it back into the goal for two points; Fox arched a pretty shot, but the lights went out just before the ball went through and the score did not count; White shot a long one from the north corner of the court for 2 points; Bernie Howton then chalked up two tallies by making a short goal; Muleshoe fouled and Fox missed two free shots as the quarter ended with the score 6-0.

As the second quarter started, Muleshoe fouled again, and Fox missed again. Muleshoe then made a field goal and fouled again, and Fox converted for one point. Muleshoe then took a fast rebound shot and made a pretty field goal. Howton next went high and flipped a rebound shot back into the goal. Fox made another free shot. Howton made another rebound shot. Fox made two points from a fast tip-off play, and then on the next play dribbled in and shot another to make the score 16-4 at half.

Davenport substituted for White at the beginning of the second half. Muleshoe came back fighting and Davenport fouled with Muleshoe converting for one point. Lucas went in for Davenport. Fox fouled but Muleshoe failed to make the shot. Moore went in and substituted for Lucas, and the third quarter ended with only one score made during the entire period.

Muleshoe made a foul shot. Fox shot at will but missed as often.

Muleshoe made a field goal from the corner and White substituted for Fox. Muleshoe ran a fast play the length of the field and scored two points, and then repeated in rapid succession. Howton came back and scored two, and Muleshoe again passed down the length of the court and rang a hot one. Moore then made a pretty, fast dribble and shot two points. Moore was then any and everywhere on the court that the ball might be and he again shot a pretty one. Muleshoe then made a field goal on a criss-cross and the game ended with Littlefield the winner by a score of 22-16.

Summary of scoring by Littlefield was as follows: Howton, 10; Fox, 6; Moore, 4; and White, 2.

The Girls Game
The girls game was a nip-and-tuck affair until the beginning of the fourth quarter, when Muleshoe scored several goals in quick succession to win the game 13-8.

The scoring by Littlefield was as follows: Maxine Cooper, 2 free goals and one field goal for 4 points; and Pauline Courtney 2 field goals for 4 points. Josephine Glenn was exceptionally good at guard.

THE IDEAL MAN

Two hundred and twenty college girls in the East were asked some mighty important questions in a special questionnaire regarding the types of men they seek as husbands.

Of the two hundred and twenty, only twelve insisted on college graduates. Only two demanded good looks. One wanted an athlete. Fifty were opposed to drinkers. More than 100 stipulated honesty, sincerity, education and culture.

Wealth and fame were entirely ignored. But the one quality most in demand—guess—was a sense of humor!

Evidently the girls agree with the poet that "the man worth while is the man who can smile."

If this questionnaire is indeed representative of the state of women's minds the country over it behooves all young men to learn to laugh and laugh heartily.

Men who are not handsome, wealthy or famous may now console themselves. As long as they have a sense of humor, some girl will fall in love with them.

But what man does not think he has a sense of humor? All men seem to be eligible for affection, to judge them by their own opinions.

We are inclined to think the girls practiced a little subtlety, as they often do. We can't believe they want to pass up wealth and fame—these things have always lured girls. But being feminine, they mention these things indirectly—asking that a man be possessed of a sense of humor in the conviction that wealth and fame come most easily to the men whose sense of humor is most keenly developed. Think of the men you know, and see if this belief does not carry some weight.

NOTICE

"Notice is hereby given, that the Commissioners Court of Lamb County will receive sealed bids for a County Depository for public monies, on the 2nd Monday in February the same being the 11th day of February, A. D. 1929."—A. H. MCGAVOCK, County Clerk, and Ex-officio Clerk of the Commissioner's Court, Lamb County, Texas. Jan. 24, 31, Feb. 7, 1929.

AUXILIARY MEETING

Mrs. E. A. Bills entertained the ladies of the Auxiliary, Tuesday.

After a short business meeting, an interesting lesson on "Teaching in Africa," was given by Mrs. Chas. Barber.

Mrs. R. M. Smith had charge of devotional, which was followed by a song, "Little Bit of Love," by Mrs. Trowell, accompanied by Mrs. Sid Hopping on piano.

The birthday cake for those members having birthdays during December and January, was cut by Mrs. T. P. Wright, and served to Mrs. Trowell, Mrs. Rutledge, Mrs. Wiseman and Mrs. Bills, then other members.

Delicious refreshments, consisting of fruit cake, fruit salad and coffee were served to the following members: Mrs. Chas. Barber, Mrs. Joe Chitwood, Mrs. C. C. Clements, Mrs. N. A. Douglas, Mrs. J. S. Hilliard, Mrs. Sid Hopping, Miss Lulu Hubbard, Mrs. Ray Jones, Mrs. Bob Smith, Mrs. W. O. Stockton, Mrs. Touchon, Mrs. Trowell, Mrs. Underwood, Mrs. Harry Wiseman, Mrs. T. P. Wright, and one guest, Mrs. Pat Morris, of Chichasha, Okla.

The Auxiliary will meet in an all day session with Mrs. A. P. Duggan, and work on overseas work, next Tuesday.

The regular business meeting will be held at 3:30 p. m., Mrs. Trowell will have charge of lesson in book on Africa, and Mrs. Jones will have charge of devotional.

Roll call will be answered by verse from Bible beginning with letter C.

GUINEAS FOR GAME

Ordinary hens are commonly used to hatch and rear guinea fowls, which are growing in favor as a substitute for game birds.

The adopted offspring are better off than they are with their mothers, as guinea hens can not be induced to seek shelter with their chicks at night or during storm, but will remain out in the fields.

The Texas Railroad Commission was established in Gov. Jim Hogg's administration in 1891.

The face value today of the thirty pieces of silver mentioned in the Bible is about \$22.50.

Praises Peace Pact

Gustav Stresemann, the famous Foreign Minister of Germany, who has expressed the opinion that the general acceptance of the Kellogg Treaty will help to modify the hardships under which the German Reich is laboring.

"Whoop-ee!" shouted Bobbie Bunny, as he hopped into bed.

"I don't feel that way," said Billie, whose head was half way under covers.

"What's the matter?" asked Bobbie.

"I feel like crying one minute and I don't feel like crying the next. What do you call that?"

"I should say you were filled with remorse," replied Bobbie.

"I have had a funny feeling near my heart ever since we painted Mister Jay Bird's head yellow and all the birds attack him. If that is remorse, I mean the way I feel, then I got remorse." Billie lay very still after this.

"I had forgotten all about it," said Bobbie, after a little while.

"You have a good forgettery," sighed Billie. And then they both dropped off to sleep and were not awakened until Mister Sunshine Man came peeping over the hill.

The Bunnies were up bright and early. Billie still had his feeling of remorse and before they went down to breakfast, Billie said:

"Let's go and see if we can't find Mister Jay Bird."

"It takes little time to do an injury, but it takes a long time to undo the damage," said Bobbie. "But I'm willing to help your remorse, only let's not do anything like that again."

In a little while they were hopping down the path. Soon they saw Mister Jay Bird high up in a tree and as they came nearer they heard:

"You thought you had me, didn't you? Well, some little girls found me on their way home and they washed my head and here I am!"

"I'm awfully glad you are not!" said Billie to the Jay.

"So am I," replied the bird, "for now I can play some more tricks on you."

"Better be careful!" suggested Bobbie.

W. M. U. MEETING

The Baptist W. M. U. met with Mrs. L. W. Jordan Tuesday afternoon for the fifth Tuesday social.

The afternoon was spent in an informal manner to the enjoyment of everyone present.

An interesting letter was read from Mrs. E. Mueller.

Refreshments of hot chocolate and cake were served to 20 members and visitors.

Tuesday, Feb., 5th, the W. M. U. will meet in their respective circles to begin the study of a new mission book.—Reporter.

The Japanese have forbidden the ancient Korean custom of carving a design on the neck of a girl who has jilted her lover.

As a plea for rain the natives of Angola, on the west coast of Africa, cut off a man's arm at the shoulder and plant it in the ground with the hand sticking up.

Fate in Balance

General Bramwell Booth, leader of the Salvation Army, who is in danger of losing his high post. Members of the Army convening in London sought to choose a new leader, but were prevented from doing so by an injunction.

COMBINE TURKEY INTERESTS

A deal was consummated last week whereby the turkey raising business of Wm. J. Harris and J. H. White and wife were combined.

Mr. and Mrs. White will move the

"Happy Hill" farm to the place, one-half mile north of where the partnership business was operated in the future, specialize in a high type of big bronze turkeys.

CUTTING LUBRICATING COSTS

Our volume of sales on Conoco Amalie Oils growing larger each month, and there is a reason for this growth.

Our customers are buying these oils time after time and they are telling their neighbors about the lubricating satisfaction they are getting.

In this way the news is spreading that the CONTINENTAL OIL COMPANY is the one to go to for cheaper lubricating values.

Tests are proving that tractor owners are getting more hours of running on Conoco Amalie Oil and are holding up a better pressure on their indicators than with any oil they have ever used.

Car owners are finding their oil looks better and has a better body when drained from their car after a THOUSAND MILES OF RUNNING than other oils they had used after five hundred miles of running.

The proof is there before their eyes that by using Conoco Amalie Oils they are CUTTING THEIR LUBRICATING COSTS.

If you are not using this oil you are losing money.

 damages against the Methodist Epis-
 copal Church because of the bishop's
 action in demoting him.

**BALANCED RATIONS OF PLANT
 FOOD BEST FOR FARM CROPS**

A balanced ration is best for both
 human beings and livestock. This fact
 has been proved by science. Food au-
 thorities tell us to use a mixed diet
 balancing the different kinds of food
 substances, making sure to obtain suf-
 ficient mineral material and vitamins.
 Producers of livestock have found
 that proper feeds must be used in or-
 der that their stock may make the
 most economical gains. The progres-
 sive dairymen recognize the necessity
 of a balanced ration for their cows as
 a means of obtaining more profitable
 milk production.

Balanced Rations for Crops
 Balanced rations for crops are just
 as necessary for best growth. It is
 not difficult to observe when plants in
 a field are starving to death, and each
 summer many fields are seen where
 the plants are dying for lack of plant
 food. In other fields it is apparent
 that the crop is receiving plenty of
 some plant foods but lacks others—an
 unbalanced ration. A balanced ration
 would be a fertilizer containing the
 right proportions of nitrogen, phos-
 phoric acid and potash, according to
 the Soil Improvement Committee, The
 National Fertilizer Association.
 The progressive dairyman is look-
 ing for cows of large capacity, cows
 that can eat large amounts of feed,
 for he looks on them as a sort of fac-

tory and takes the cheap raw feeds,
 such as hay, silage, and grain, and
 changes them into a more valuable
 product—milk. As a rule, the more
 feed a good dairy cow consumes the
 more milk she will produce, and the
 more profit she will make for the
 owner.

The grower of field crops the cot-
 ton grower for example, should look
 on his cotton crop in much the same
 way. The cotton plant takes cheap
 raw materials, which are called plant
 food, and converts them into much
 more valuable cotton lint and seed.
 As a rule, if it is a good variety of
 cotton, grown under favorable condi-
 tions, the more plant food the cotton
 plants use the more cotton will be
 produced and the more profit will be
 made.

Experiments conducted by agricul-
 tural authorities in many states have
 definitely shown that cotton, and oth-
 er crops as well, make most vigor-
 ous growth and are less likely to be
 seriously affected by disease when
 fed liberally with well balanced plant
 food. Complete commercial fertiliz-
 ers of various analyses are manufac-
 tured to supply balanced rations for
 crops on different soils. The use of
 the proper fertilizer will result in a
 better crop and a more profitable pro-
 duction.

**PROFITS FROM
 COTTON DEPEND
 ON LOW COST**
 HIGH YIELD PER ACRE MEANS
 LOW COST PER
 POUND

Profit from cotton for the grower
 depends on the difference between the
 cost of producing and marketing the
 crop and the price that can be
 obtained for it. The grower with a
 low cost of production per pound of
 lint will make most profit per bale,
 providing the quality of his product
 is good.
 Studies of cost of producing cotton
 have been made on thousands of
 southern farms by the United States
 Department of Agriculture. These
 studies have indicated that under aver-
 age conditions, where yields of one-
 third of a bale per acre were obtained,
 it cost approximately 16 cents to pro-
 duce and market a pound of lint. On
 farms where yields of a bale per acre
 were secured, the cost of lint was
 only 9 cents per pound.
 These results clearly show that low
 yield per acre means high cost per
 pound. High yield per acre offers op-
 portunity for greater profit by in-
 creasing the spread between the cost
 of production and the selling price, ac-
 cording to the Soil Improvement Com-
 mittee, The National Fertilizer Asso-
 ciation.

While there are many factors af-
 fecting yield per acre, such as good
 land, good seed, good cultivation, one
 of the most important agencies for
 increasing yield of cotton is the use
 of sufficient plant food.
 Experiments conducted by the agri-
 cultural experiment stations, through-
 out the South as well as the experience
 of farmers have shown that proper
 fertilizers increase yield per acre and
 result in more profit from the crop.
 The North Carolina Experiment Sta-
 tion found as an average of a num-
 ber of tests that a pound of seed cot-
 ton was produced for every pound of
 complete fertilizer (one containing
 nitrogen, phosphoric acid, and potash)
 used up to 1,000 pounds per acre.
 The value of the seed cotton pro-
 duced by the fertilizer was \$54
 per acre more than the cost of the
 fertilizer, assuming seed cotton to be
 worth 7 cents per pound.

Somewhat similar results have been
 obtained by experiment stations in
 other states. Commenting on the re-
 sults of experiments at the Missis-
 sippi station to determine the proper
 rate of fertilization for cotton, those
 in charge of this work state that the
 results "indicate high qualities are
 practicable and justify the conclusion
 that the danger lies more in using too
 little rather than too much fertilizer."
 The use of 600 to 800 pounds of a
 high-analysis complete fertilizer per
 acre on cotton is conservative.

**FARMERS NEED
 CHEAPER HOME
 GROWN FEEDS**
 Helps Lower Cost of Growing Other
 Crops and Increase Growers'
 Profit.

Cheap home-grown feed helps to
 lower the cost of growing cotton and
 to increase the cotton grower's profit.
 Corn is the best feed crop in the cot-
 ton belt, but many farmers neither
 have plenty of corn nor do they pro-
 duce it cheaply.
 Although the Southern farmer is
 planting a large acreage to corn, he
 must buy feed, because his average
 crop of corn is only 17 bushels per
 acre. Because of this low yield the
 cost of corn per bushel is high.
 This low yield can be increased at
 a profit. The cost studies made by
 the United States Department of Ag-
 riculture show that on farms where
 higher yields were obtained, corn was
 produced at a lower cost per bushel,
 for although it cost more per acre to
 produce the larger yields, there were
 more bushels to share the cost.
 A good mule should have 75 bushels
 of corn during the year. If the yield
 is 13 bushels per acre, about 6 acres
 of corn, at a cost of \$100, would be
 required to feed a mule. If 41 bushels
 per acre are grown, two acres would
 supply the corn at a cost of \$49.00.
 As considerable idle land is avail-
 able for crops, it might seem that the
 farmer should increase his acreage
 in corn in order to grow sufficient
 feed.

A better way is to fertilize more lib-
 erally the acres now under cultivation
 and thereby get not only more corn
 but cheaper corn, because it costs
 much more to cultivate the additional
 acres in corn than to buy fertilizer
 sufficient to produce the necessary
 feed on the acres now in corn.
 Under usual conditions the appli-
 cation of a complete fertilizer at plant-
 ing time gives the best results with
 corn. This may be followed when
 the corn is knee to waist high, by
 an application of nitrogen in readily
 available form. On this land two ap-
 plications of available nitrogen are
 sometimes made, the first being ap-
 plied when the corn is knee high,
 and the second when the corn is
 bunching to tassle.

From 200 to 400 pounds per acre of
 a complete fertilizer, such as 10-4-4,
 applied at planting time, followed by
 a side dressing of 150 pounds of ni-
 trate of soda or nitrate of lime, or
 of three-fourths this amount of sul-
 phate of ammonia, will produce more
 corn at a lower cost per bushel. Un-
 der average conditions, the applica-
 tion of 100 pounds of nitrate of soda
 or its equivalent in nitrate of lime
 or sulphate of ammonia should give
 an increase of 6 to 8 bushels of corn,
 according to the Soil Improvement
 Committee, The National Fertilizer
 Association.

 LITTLEFIELD, TEXAS

LAMB COUNTY LEADER

Published every Thursday afternoon at Littlefield, Texas.
Subscription: \$1.50 per year; 75 cents for six months.
Advertising rates given upon application.

No. Entered as second class matter May 24, 1923, at the post office 27 at Littlefield, Texas, under the Act of March 3, 1897.

JESS. MITCHELL,

Editor and Publisher

Subscribers who change their addresses, or fail to get their paper, should immediately notify this office, giving both new and old addresses. Communications of local interest are solicited. They should be briefly written, on only one side of the paper, and must reach this office not later than Wednesday noon of each week. The right of revision or rejection is reserved by the publisher.

Advertising that does not show in its text or typography that it is paid for must be marked as an advertisement. All local advertisements remain in this paper for the time specified or until ordered out. All notices, it matters not by whom nor for what purpose, if the object is to raise money by admission fee or otherwise, is an advertisement and when sent in for publication must be paid for at the regular advertising rate per line for each issue printed.

Obituaries, cards of thanks, and resolutions of respect will also be charged for at the same rate.

Any erroneous reflection upon the character, standing or reputation of any person, firm or corporation which may appear in the columns of the Littlefield Leader will be gladly corrected upon its being brought to the attention of the publisher.

In case of errors or omissions in local or other advertisements, the publisher does not hold himself liable for damage further than the amount received by him for such advertisement.

A THOUGHT FOR THE WEEK

A prophet is not without honor, save in his own country, and in his own home.—Matt. 13:57.

Of all the horrid, hideous notes of woe, Sadder than owl-songs or the midnight blast; Is that portentous phrase, "I told you so." —Byron.

MADE TO ORDER

Teaching men to farm by mail may strike the average Littlefield citizen as a difficult proposition. But that is exactly what Canada is doing, and the whole agricultural world is anxiously watching her.

Canada has for years been trying to coax residents of the U. S. across the border through alluring stories of gigantic profits to be made off her fertile acres. But it seems the drift of real farmers from this country hasn't been satisfactory. England is willing to send over a million or so men, if desired, as she now has many millions out of employment. But Canada prefers not to be the dumping ground for the mother country. However, she is willing to furnish instruction in farming, and this she is doing. When a subject of Great Britain has studied his mail courses and passes an examination, he can then migrate to Canada and be in line for a home-stead.

Here in the United States we follow the plan to a certain extent, except that we school our coming farmers in agricultural colleges. But it would not, it seems to us, be a bad idea for those colleges to watch the Canadian plan and if teaching farming by mail is successful, then it could be added to the regular courses taught in our agricultural schools and colleges. We are always going to need farmers, and since one must know how to farm to be a success, the same as one must know the inside of any other business to make a go of it, then why not encourage a more extended teaching of it? We learn a good many things by watching the other fellow. That's why it will pay us, on this side of the border, to watch Canada's latest experiment.

You can always blind a man by throwing dust in his eyes—especially if it's gold dust.

CRIME DOESN'T PAY

If there is a boy in Littlefield who reads of rich hauls by bank robbers or burglars and thinks crime pays, we want him to read these few lines.

A dispatch from New York says George C. Parker recently appeared in police court and was sentenced to a long term in prison for robbery. He was at one time the best-known crook in the city; he had stolen thousands of dollars and each time managed to escape, or at least to get off with short sentences.

Today he is old, shabby and discouraged, and without a cent to his name. He has no friends, and even those who knew him personally were afraid to go forward to aid him—they were afraid an attempt might be made to implicate them in some of Parker's past misdeeds. So he goes to prison, this time to die behind its walls, for he could not possibly, at his present age, outlive the sentence imposed upon him.

Crime doesn't pay; it never has paid and it never will. And the growing boy who learns this has learned something of untold value to him all the days of his life.

Here's another good thing to remember—it pays to advertise unless you're looking for trouble.

ACCIDENTS AND DRIVERS

Very few auto accidents occurring around Littlefield have been due to defective mechanism. Nearly all of them are due wholly to the drivers.

A survey just completed by the National Safety council shows that only about 10 per cent of all auto accidents can be blamed on faulty work or poor materials used in the cars involved—and that includes, too, defects in the roads or inclement weather. Eighty percent of all accidents, it is shown, can be traced directly to the drivers.

Autos have improved marvelously in the past few years, and today they are models of mechanical perfection. They will travel as fast as anybody wants them to go. They will stop quickly, if handled right, and their intricate parts seldom give way under strain.

But the driver hasn't improved any he is right where he always was. Until he learns caution, common sense and consideration for the rights of others, we will continue to have a disgracefully high list of traffic accidents.

What good is a brand new radio if all the jokes that come in over it are the same as we heard in our boyhood days?

DON'T TRY IT

When some fellows get it into their heads to write you can't stop 'em even if you send them to jail.

We notice a dispatch from Columbus, O., to the effect that John L. Murphy, doing a 15-year sentence in the state penitentiary there for burglary, is soon to be paroled. The item says that during the past three years Murphy has amassed the sum of \$7,000 through writing for newspapers and magazines from behind the bars.

We suppose there are any number of Littlefield citizens who will be more or less jealous of Murphy, since even at hard work they haven't laid away \$7,000. But, all things considered, and even though Mr. Murphy appears to have had a soft snap with board and lodging free while he was earning the money, we don't believe it advisable for anyone around here to break into the penitentiary just to see if they can get by with the same thing.

If you make money at poker, it's gambling; if you make it at bridge it's a social duty; if you make it out-guessing Wall Street—it's a miracle.

LITTLE LEADERS

All Littlefield men are born free and equal, but now and then one of them gets over it by getting married.

Distance doesn't lend enchantment to a Littlefield motorist when he is out of gas.

They say that travel broadens one, and yet we have people here in Littlefield who have traveled a good deal and yet are as skinny as ever.

Maybe electric cigar lighters would be more popular in Littlefield if you could trim one after you've used it and make a toothpick of it.

Our advice to Littlefield citizens is not to eat too much. Pigs would live a great deal longer if they didn't make hogs of themselves.

Littlefield pedestrians should remember that most people who drive cars have no designs upon them and they should do their share of the watching out.

The old-fashioned, broad-minded Littlefield man who believed there were exceptions to all rules now has a son who believes there are violations for all laws.

The poor man can tell his troubles to the angels, but sometimes he gets tired waiting for an answer and hangs up the receiver.

JESS' JOSH

Our idea of an unconscious humorist would be a druggist who made the mistake of listing liquor among his "dyestuffs."

Reports are to the effect that the new dollar bill is going to be considerably smaller in size. It has looked smaller to us for quite a while.

Dr. Burgess Johnson, of Syracuse, complains that there is a shortage of real effective cuss words. Evidently he has never heard a man trying to get results from one of these new fangled cigarette lighters.

If a freight train at a crossing hits an auto fair and square, there's the freight train—where's the auto?

Echo answers, "Where, oh where?"

The story is told of a Littlefield lad of an enquiring nature who was told by his mother to entertain a certain professional man of this city who had called at the home. The little chap immediately came to the point that interested him most the moment the man removed his hat.

"Mr. —," he asked, "why is it you've got no hair on your head?"

"Well," was the reply, "I work so hard with my head that my hair doesn't get a chance to grow; my brains are too busy."

"Oh," exclaimed the lad, "so that's why mother doesn't grow a mousetache."

We've often noticed that a man with six figures can get his picture in most any city daily; but a girl with one figure can break in anytime she sends in her picture.

W. T. Jones says he has discovered that the secret of most wealthy men's success is still a secret.

"One reason why I like Groundhog Day better than most all of the holidays," asserts Hot-Shot, "is because it's one day in the year when you're not supposed to send somebody a present."

"How about a little ride cutie," remarked a Littlefield jellybean to a local flapper, on the street one day this week.

"Going north?" she enquired. "Yes, I am," he replied. "Then give my regards to the Esquimox."

DOCTOR FRANK CRANE SAYS

WHY GIVE UP

I have received a very pitiful letter from a woman out west.

She has had a hard time all her life. She has raised three children, who do nothing for her support. When her husband died he was found to have been improvident and left her no money. She has gone stone deaf. On top of this she has just had a very serious operation in a hospital.

She can see no way out. Nothing presents itself to her but continued suffering, privation and dependence. She is about ready to give up. What should she do?

Why give up?

Of course it is difficult for any one in comparative health and well being to give advice to sufferers. One is always open to the imputation of being supercilious. It is always easy for the philosopher to bear the toothache patiently when some one else has it.

At the same time and at the risk of being called hard names, I repeat the question, "Why give up?"

Suppose you do give up. Will life be any easier to bear?

It is just as well to look squarely at the alternative.

When some one told Tolstoy that many kind, virtuous, and honest people had a very hard time, he replied: "What about those that are unkind, not virtuous and dishonest? Look about you. Do the people like that whom you have known have any easier time?"

The Church in the Middle Ages is often accused of being very cruel. But what about the people outside of the Church. Were they any less cruel?

Life may be hard at best, but it is easier and pleasanter all around if we keep a stout heart and do the best we can under the circumstances.

Whatever may be in store for this woman, whatever deprivation and suffering, we can be sure that she will get along better if she meets her fate bravely and smilingly and does not give way to despair.

Whatever happens to us we are better off if we battle on and keep our chin up.

Despair is nothing but a bog, a quicksand, that engulfs the soul: It leaves us no spirit with which to fight.

When a Persian soldier told a Lacedaemonian that in battle the Persian arrows would be so thick they would darken the sky, "then," said the Lacedaemonian, "we will fight in the shade."

When Austen Chamberlain was installed as Lord Rector of Glasgow University, 2,000 of the students wore monocles in his honor.

5,000 BUSHEL Of Good Cotton SEED

Also some of the cheaper kind

Priced per bushel \$1.25 to \$2.50

Enquire of L. F. Ratliff, Lowrimore & Irvin or the Farmers Gin for recommendation regarding the high quality of this Seed. It will be sure to please you!

WHY WASTE TIME AND LABOR?

When our elevator takes care of your grain—all kinds, including ear corn, dumped from your wagon and carried to the sheller or car without any scooping at all—and we pay you the very highest market prices for your grain.

An Unpleasant Subject
 All of the functions of life are not
 pleasant to consider. Perhaps this is
 why some mothers refuse to think that
 such symptoms as restless sleep, loss of
 flesh, lack of appetite or itching nose
 and fingers in their children, can be
 caused by round or pin worms. Many
 mothers have proven, however, that a
 few doses of White's Cream Vermifuge,
 that sure and harmless worm
 expellant, will make these symptoms
 disappear. You can get White's Cream

**C. N. AVERY IS
 INTERESTED IN A
 CHEESE FACTORY**
 A representative of C. N. Avery,
 Austin, was in Littlefield last week
 interviewing local business men and
 farmers relative to locating a cheese
 factory at this point.
 It was stated by some who are
 much interested in the project that
 there was strong probability of such
 an institution being organized here in
 the near future. Many of the farm-
 ers of this section have, for some
 time, been interested in a better dis-
 position of their dairy products, and
 several have signified their intention
 of taking stock in a cheese factory, if
 such could be located in Littlefield.
 Mr. Avery and his associates now
 have several cheese factories located
 in central and southern West Texas,
 all of which are proving highly
 profitable concerns. The plant at
 Round Rock is now undergoing a pro-
 cess of doubling its capacity. Real-
 izing the great future of the South
 Plains country, Mr. Avery is desirous
 of locating some of these factories in
 this section.
 It is stated his representative was
 greatly pleased with the prospects at
 Littlefield, and the matter will be
 taken up definitely in the near future
 with a view of affecting a organiza-
 tion.

**SOUTH PLAINS GETS A
 SAMPLE OF REAL WINTER**
 Ordinarily blessed with delight-
 fully mild winter weather, the South
 Plains country last week was caught
 in the tal end of the blizzard which
 swept over the northern states, and
 for three or four days citizens of this
 section had a real taste of Esquinox
 climate.
 Thermometers varied around 10 to
 12 degrees above zero. Overshoes
 came in demand, plumbers came in
 demand for repairing forgotten water
 pipes and garage men did a good busi-
 ness in mending frozen auto radi-
 ators.
 This week, however, the weather
 has returned to normalcy, and work-
 men outdoors are quite comfortable
 working in their shirt sleeves.
 As late as 1889 the dried flesh of
 the viper was described as a drug in
 the authorized English medical dic-
 tionaries.

**SUMMER SESSION
 OF TECH COLLEGE
 OPENS JUNE 3RD**
 Lubbock, Texas, Jan. 29.—The fourth session of the summer school of Texas Technological College is scheduled to open June 3. The first term will last until July 13 with the second beginning July 15 and lasting until August 23.
 Dean J. M. Gordon, chairman of the summer school committee, announces that the faculty will be larger than ever before and will include regular College faculty together with a number of outstanding visiting educators.
 The work in the Tech summer school beyond the bachelor's degree is attracting superintendents and high school principals from a very wide area. Last summer graduate students were registered here from the following institutions: Abilene Christian College, Baylor College, College of Industrial Arts, Columbia, East Texas Normal, North Texas Normal, Oklahoma City College, Oklahoma College for Women, University of Missouri, University of Denver, Rice Institute, Sam Houston Normal, Simmons, Southwestern State Teachers College, Southern Methodist University, University of Texas.

Pep Paragraphs
 Mr. and Mrs. J. O. Allison and family went to New Mexico, Sunday. They made the trip in a Chevrolet car they recently purchased.
 W. O. Bray and family moved to Lindsey, Oklahoma, this week.
 M. J. Demel bought a truck from J. E. Stengel last week.
 Mr. and Mrs. W. H. Heinen, of Littlefield, visited the Lupton family Sunday. Mr. and Mrs. Heinen and Mrs. Lupton motored to Levelland Sunday afternoon.
 Miss Keith, of Matador, sister of G. C. Keith, is visiting her brother and his wife at Pep.
 Mrs. J. F. Gerik went to Levelland Wednesday.
 Mrs. W. T. Jungman was ill Thursday.
 Gains Hanley narrowly escaped serious injury Friday when he was struck by a car driven by Hughlin Hughes. Fortunately Gains escaped with a few bruises. Hughlin suffered

more mentally from the accident than Gains did physically.
 The following Pep people visited Levelland last week. H. J. Greener, A. G. Jungman, Mabrey Owens, W. T. Jungman and Professor and Mrs. Murphy.
School Notes
 Alvin and John Richard Allison and Wilma Gerik were absent a few days last week because of illness.
 The following pupils in the intermediate grades are entitled to a place on the roll of honor because they have not been absent during the month and have maintained a high average in their studies. According to rank of grade they are John Richard Allison, Gladys Jungman, Estelle Gerik and Lorena Jungman.
 In the high school department the following pupils named according to rank of grade are entitled to a place on the roll of honor: Katherine Lupton, Bernie Allison, Louisa Heitman, Louise Lupton, Richard Lupton, Eugene Gerik, Blanche Stengel.

Michigan State College founded in 1857, is the oldest agricultural college in the country.

**GOOD CLOTHING AND A CORRECT POSTURE
HELP MAKE THE WOMEN, SAYS MRS. BARNES**

College Station, Jan. 28.—Round shoulders, hollow chest, protruding abdomen and crooked feet furnish a poor foundation on which a woman must hang her clothes," declares Mrs. Dora R. Barnes, Clothing Specialist in the Extension Service of A. and M. College in pointing out the importance of good posture in developing health, good looks and charm. "It is the index of good breeding, and the expression of good manners," she says.

"The woman who slumps will never look well no matter how handsomely she is gowned. Good figure and good posture are not questions of size,

weight or age, but of health, self-confidence, well proportioned figure and the right kind of clothes. If you have that "settled look," that thickness through the waist line that seems to come as one grows older you need to start working on your spine. Sway back, protruding stomach, conspicuous hip line, hollow chest and an over-prominent bump at the back of the neck are also caused directly or indirectly by a neglected or misused spine.

"To achieve good posture conquer your spine. Stretch it out and straighten it out by exercises so that

it gets a chance to regain its normal natural length. Daily physical exercises and the wearing of the right kind of corsets and shoes will enable one to correct self-inflicted deformities and gain that good figure, beautifully poised, that is the object of appreciative glances."

**BASKETBALL TEAMS
WILL CONTEST FOR
FLOYDADA HONORS**

Floydada, Jan. 28.—Between 30 and 35 South Plains basketball teams will meet in unofficial competition at Floydada on Friday and Saturday, February 8 and 9, if the invitations being sent out to schools in this section by Coach Troy H. Jones are accepted. Both Class A and Class B teams are being invited to take part in the competition for trophies and honors.

This tournament is now a recognized event on the South Plains, it having the largest attendance of any similar event in this section. Last year sixteen teams participated in the contest and this year more than 20 are expected.

A beautiful silver trophy, a gift from the Floydada Chamber of Commerce, will be presented the winning team. In addition to this valuable prize, which will become the property of the school the winning team represents, gold basketballs will be awarded the individuals of the first place team. Second place winners will receive silver basketballs.

The schools which have received invitations from the local cagers are: Childress, Estaline, Memphis, Turkey Quitaque, Paducah, Matador, Roaring Springs, Spur, Dickens, Crosbyton, Ralls, Lorenzo, Idalou, Lubbock, Tahoka, Lamesa, Post, Slaton, Abernathy, Hale Center, Plainview, Kress, Tulla, Olton, Littlefield, Lockney, Silverton, Brownfield, Petersburg and Sudan.

**DAIRY
FACTS**

**EXPERIMENTS IN
CATTLE FEEDING**

**Need Mineral Supplements
With Poor Roughage.**

When poor roughage is fed to dairy cows mineral supplements are shown to be necessary in a recent publication of the Wisconsin experiment station. Three cows fed on timothy hay, corn silage and a grain mixture were poor producers of milk. In addition they were slow to breed and when bred they tended to dry up from six weeks to two months earlier than three cows fed on alfalfa hay.

Another test on minerals showed that cows producing from 50 to 60 pounds of milk daily without direct exposure to sunlight were unable to maintain a calcium balance in their bodies even though the ration was otherwise adequate. When the cows were exposed to sunlight for six hours daily they decreased the loss of calcium from their bodies by 25 per cent.

In a comparison of soy bean hay versus alfalfa hay the cows produced approximately the same amount of butterfat and milk but the cows on soy bean hay gained only half as much body weight and wasted more of their hay. The results of this test, which does not check with tests run at some other stations, shows that soy bean hay was calculated to be worth 73 per cent as much as alfalfa hay.

In this connection it is interesting to note some experiments that were conducted in chopping alfalfa and soy bean hay. No advantage was noted in chopping alfalfa, but the cows wasted less of the soy bean hay. This caused the chopping to improve the value of soy bean hay by 23 per cent. These figures indicate that it may prove profitable to chop soy bean hay when used for feeding dairy cattle.

**Modern Dairy Barn Must
Have Good Ventilation**

It must not be forgotten that each cow in the stable actually gives off from her breath alone about ten pounds of carbon dioxide per day and over two gallons of water. Hence, it is perfectly obvious that in the modern dairy stable there must be some system whereby this used, moist, foul air may be regularly taken out of the stable and replaced by fresh air. During the winter months, the occasional opening of doors and windows will help but how often is this done during winter months, and needless to say it is never done during the night.

King and other authorities on stable ventilation have estimated that there should be a continual air flow through the stable at the rate of about 3,000 cubic feet per cow per hour. In other words, in a cow stable 30 feet by 50 feet with an 8-foot ceiling, there should be a sufficient flow of air so that one-quarter of the air would be replaced every hour or that the air be completely changed in the stable six times per day. If this were done by the opening of doors and windows, the resulting chances of temperatures, chills in the animals, etc., would obviously be contrary to best interests. Hence, a regular system whereby such a change of air will go on continuously and still allow the maintenance of uniform heat conditions, should be the ambition of every one installing a ventilation system.

**Well Bred Calves Most
Valuable Dairy Asset**

Calves from low producing stock are worth little more than their value for veal, but those from high producing strains must be assigned much greater valuation, as they command excellent prices as breeding stock.

In the keeping of high producing animals there are, of course, added expenses such as increased depreciation and risk, increased labor in caring for the animals, and expenses of advertising and selling; but it will generally be found that the value of the calves produced from such stock will more than offset the added expense of raising them over and above that involved in the keeping of common stock.

Cold Hampers Cow

A high producing dairy cow cannot continue normal production if she is exposed to severe weather. It is, therefore, important if good yields are expected to hold up through the cold months, that all discomforts be eliminated. A comfortable cow will more than repay for added labor for her protection. Milk is 87 per cent water, and a large part of this gets into the animal's system from the water trough.

Quarters for Cows

In addition to proper feeding, dairy cows will need good quarters if they are to produce maximum returns for their owners. Dairy cows do not have long hair or surplus fat to protect them from cold weather. They are more sensitive to cold winds, drafts and poor quarters than any other kind of farm live stock, unless it is the poultry. Warmth, comfort, ventilation and sanitation should receive consideration in fixing up the dairy barn or sheds for the winter months.

**SUCCESSFUL DEMONSTRATION IN
FEEDING AND PARASITE CONTROL, IS
BY COUNTY AGENT ADAM FOR MRS. CLARK**

During the past few months, D. A. Adam, county agent, has been carrying on a campaign in the cleaning up of flocks in Lamb County, and, as an example of what might be termed quite a successful one, is the case of Mrs. A. Clark, five miles west of Littlefield.

In this flock the egg production was very low, in fact, none at all most every day. Cold weather had set in, and that made the conditions worse. A fine hollow tile house had been started but was not quite complete, and the flock consisted of about 100 hens.

The first step was to complete the house which was done, and the flock was put into it, kept in all day and night with plenty of ventilation to prevent chickens getting too warm and contracting colds. These hens

then were put on an egg mash, which also had in it tobacco, 2 pounds of dust to 100 feed. The tobacco was used for a worm control, and was acting at the same time as they were eating the mash.

This kind of feed was fed for three weeks, and then the dust left out. Green stuff, sprouted wheat or oats was often as possible, and encouraged to get out during the exercise. As a result the production within three weeks had risen from only one or two eggs 18 per day, and still rising. This goes to show that feeding of poultry is a very important management.

COLLEGE NEWS

Quite a few visitors were here last week as a result of a board meeting held last Wednesday night. A number of people were here who were not board members in order that they might see after business matters.

L. C. Gregg and family moved to Littlefield last week. They are now making their home a few miles north-east of town.

Dotson G. Lewis was in Levelland last Sunday where he preached.

A number of students, patrons and friends went to a school house about six miles northeast of Muleshoe, Sunday where Roy E. Hazelton preached. Those who went from here to the meeting took their lunches with them, and spent an enjoyable day.

R. W. Jones, wife and daughter, Miss Edith, visited in Lockney, Saturday night and Sunday.

Oliver A. Burk and family, accompanied by Mrs. Faye Record and son, Marshall, made a business trip to Lubbock, Monday.

Surveying of the college began Monday.

SMITH-DOVE

After the evening preaching at the Methodist church last evening, W. T. Dove and Mrs. Smith, of Amherst, turned enough for the pastor, Bert Turrentine to unite them in matrimony. Mr. Dove is an employee of the "M" System store in Amherst, they will make their home.

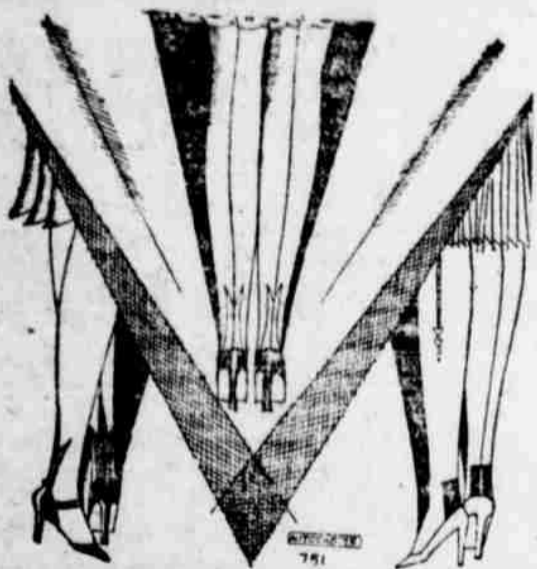

B. Y. P. U. MEETING

The Senior department of the B. Y. P. U. Baptist church, met last evening at 6:30 with Leslie as leader.

Sixteen members and eleven guests were present. One new member was voted in.

Thelma Ramirez was elected quiz leader.—Secretary.

A Moor considers it a sin to bread with a knife, declares hands were given for that purpose.

AND KEEP UP WITH THE TIMES IF YOU WOULD SUCCEED, SAYS A THRIFT EXPERT

W. STRAIN, President
 American Society for Thrift
 "The general advice would you give a young man anxious to succeed in the world?"
 "The question is very often asked of me. Inasmuch as every individual is confronted with his own life, it would not be possible to give advice that would apply in every case. Such counsel were general in nature."
 "It is obvious that success of any kind must stand on a solid foundation of character and resources, which are developed only through thrift."

A young man saves money with which to secure an education, learn a profession or embark in business. He saves money with which to buy a home. He saves money with other commendable plans in mind. In these processes of saving, he develops a sturdy will, shuns bad company and vicious practices. He builds character. We may say in all truth, therefore, that the foundation of all success is thrift.

But this is not enough. The aspiring young man must always keep abreast of the times. He must study himself and the world about him to find wherein he will fit to his own best advantage. He must keep pace with the changing times.

This is the day of electricity, the radio, the automobile, the chain store the airplane. To keep in the swing of life, as we know it today, is necessary to personal progress.

And this is an exemplification of thrift because thrift means simply to thrive through personal efficiency.

C. OF C. APPROVES THE PLAN FOR A NEW HOTEL

The regular Tuesday luncheon of the Chamber of Commerce was well attended.

The road committee reported the proposition of a better road leading from the north as progressing.

The secretary reported several new members recently added to the roster.

J. L. Dalrymple and B. Leverton, of Lubbock, were present, speaking on the plans for a new hotel here, and a committee was appointed to act with them in the matter.

METHODIST MISSIONARY

The Missionary society of the Methodist church met Monday afternoon with Mrs. H. B. Teal.

The Missionary Voice lesson was taken and the pledge service for the year was made.

Refreshments of osgood pie a la mode and coffee were served to the following members: Mesdames Collins Glenn, Cogdil, Clark, Hemphill, Lakey Reed, Thaxton, Fondren, and the hostesses.

J. F. TILLMAN DIED HERE SUNDAY FROM PARALYSIS

J. F. Tillman, of Prague, Okla., died here Sunday, at a local sanitarium, of paralysis caused by high blood pressure. He was buried in the local cemetery Monday afternoon by the Littlefield Masons, Rev. Geo. Turrentine, officiating, and the funeral in charge of the Burleson-Mason Undertaking company.

The deceased was 45 years of age at death, and is survived by his wife and nine children.

Mr. Tillman was made a Mason in 1920, and the following year became a member of the Church of Christ at Bethel Grove, Okla.

Reindeer hair, shed in spring by the animals, is gathered and sold by the Eskimos for stuffing for life preservers.

GASOLINE LIKE

Says Gasoline Isaac: "Most drivers have brains, and know that slick wheels will skid when it rains; To save being towed in on portable cranes Don't start on a journey without any chains."

YOU NEVER CAN TELL—
 When a storm will overtake you on a muddy road or a skiddy pavement. One siew may put you in the hospital and your car in the shop. Chains cost so little that it's folly to be without them.

NEW MEMBERS ARE TAKEN IN ROTARY AT LAST MEETING

The Littlefield Rotary club met last Thursday with 24 members present, and President R. E. McCaskill in the chair.

After the luncheon the following visitors were introduced: Mrs. T. Wade Potter, Miss Jimmie White, Mrs. Sid Hopping and Mr. Harold. Miss White favored the club with two readings which were enjoyed by all present, after which several songs were sung, with Mrs. Hopping at the piano.

The meeting was then turned over to E. A. Bills, program chairman for the day. He divided the club into two classes and had an old fashioned spelling match, which was enjoyed by all.

The president announced the application of H. B. Teal, which had been favorably acted on by the board. He will become a member after the expiration of the usual time.

The following new members were introduced and received into the club: Rev. Charles Devorak, J. W. Porcher, R. L. Mayhew, and E. H. Williams.

Over a Billion Deadly Germs in a Single Drop of Water

Germs are so small that there may be as many as one billion, seven hundred million of them in a drop of water. And just a few of these tiny germs, if they get into your blood through a cut in your skin, may make you so sick you will be in bed for weeks—may cause the loss of a limb through blood poisoning—may even infect you with that most dreadful and fatal of diseases, lockjaw.

Just because you can see no dirt in a cut does not mean that it is clean. You cannot see germs. The only safe and sane thing to do, is to thoroughly wash every cut, no matter how small, with Liquid Borozone, to kill the germs, and then dust it with Borozone Powder, to hasten the healing. Liquid Borozone costs 30 cents, 60 cents, \$1.20 and \$1.50; Borozone Powder, 30 cents and 60 cents, and can be had at

Stokes & Alexander Drug Company.

TURNER-BAKER
 Miss Virginia Turner and Marvin Baker, of Lubbock, were married Saturday, January 27th at Lubbock. They will make their home in Lubbock.

LEAGUE MEETING
 The senior Epworth League, Methodist church, met Sunday evening at seven o'clock. There was no program given due to starting so late. Miss Lucille Bruce was elected president. It was voted to send a letter of appreciation and sorrow to Bern Blair former president of the League, who is seriously ill.

Electricity

—the restless energy that lightens housework, makes possible efficient, throbbing industries, brightens and leads city building.

The greatest authorities of the age attribute the great growth of industries and life in America, the present enviably high standard of living in America, to electricity and the many uses to which it has been put. This mighty force of nature has been harnessed to lighten the home work, to drive great industrial plants and to make safe the constant growth of cities and communities.

This company is now serving more than three dozen communities in this immediate section. By modern methods of production the current is lower in cost than any time in the past. You can afford to make every available use of electricity for power, light and cooking purposes. You cannot afford to be without it in this fast progressive age.

McCASKILL, Manager, Ellis Bldg., Littlefield, Texas
 Electricity is Your Lowest Priced Servant

THE FIRST LAW OF MOTORING—be sure of your OIL

If motorists could only be thoroughly impressed with the paramount importance of proper lubrication, cars would last longer, depreciation would decrease and operating costs would tumble to a fraction of their present staggering figure.

When you allow an unknown, unbranded, "mystery" oil to go into your crankcase you are violating the first law of economical and efficient motoring.

By demanding the tried and tested brands marketed by the Continental Oil Company you are sure of your oil. Back of each of these brands stands the experience of almost 50 years—and a reputation which stands for nothing but the best. Ask for these brands at service stations and the better garages.

Conoco Motor Oil insures protection. It seals compression—saves gasoline—fights friction. Flows freely at low temperatures. Stands up under most intense cylinder heat. In short, does a complete lubricating job in all kinds of weather. Ask for the grade made especially for your car.

CONTINENTAL OIL COMPANY
 Producers, Refiners and Marketers of high-grade petroleum products in Arizona, Arkansas, Colorado, Idaho, Kansas, Missouri, Montana, Nebraska, New Mexico, Oklahoma, Oregon, South Dakota, Texas, Utah, Washington, Wyoming.

Conoco Amalie is 100% Pennsylvania Oil—refined from premium crudes by a special process. Universally recommended by automotive engineers and lubrication experts. Through exhaustive laboratory and road tests it has demonstrated its ability to lubricate properly under the most trying conditions of motor operation.

A. C. C. COLLEGE, ABILENE LOOSES MAIN BUILDING

The administration building of the Abilene Christian college burned shortly after midnight last Monday morning.

Nothing was saved but a portion of the library and all the records. The loss is estimated at more than \$100,000.

The fire was discovered by one of the students who turned in the alarm.

President Baxter has stated that the school work will continue in temporary quarters for the year.

EDITORIAL

There is no hope for the man who knocks his home town, he would knock any town that he might move to, and any man who knocks the town he lives in is making a failure of life.

BUT NOT OBEYED
The difference between a written and an unwritten law seems to be that the latter is often enforced.

Judge: "Do you wish to marry again if you receive a divorce?"
Liza: "Ah should say not. Ah wants to be

withdrawn from circulation."

We are still inclined to argue, that this is one of the finest winters we've ever seen, and we've seen lots of 'em.

She was but a janitor's daughter, but she swept him off his feet.

AN OPPORTUNITY ...FOR STOCKMEN...

WHY NOT OWN A RANCH WHERE YOU CAN FINISH FUTURE MARKETS AND ADD TO YOUR PROFITS EACH YEAR?

Several real buys in small ranches out of the famous Yellow House Ranch on the South Plains of Texas, in Lamb and Hockley Counties, as listed below. All these tracts are located convenient to railroad, splendid schools, good towns, and surrounded by the greatest agricultural development in Texas where feed is plentiful.

This section is destined to be one of the best finishing grounds in the South, and the small rancher here will have an advantage worth-while.

14,000 acres, including Yellow House Ranch headquarters improvements. No better cattle or sheep range, with plenty of good agricultural land that will increase in value. Fenced and cross-fenced. It will pay you to investigate this promptly.

Price \$15.00 per acre. Liberal terms, 6% interest on deferred payments.

2500 acres. One of the best little combination propositions in this section, splendid location.

Price \$15.00 per acre. Reasonable cash payment, liberal terms on balance, 6% interest.

4500 acres. Two miles from \$30,000.00 brick school building store and gin. Fine location and splendid little ranch, with plenty of good agricultural land.

Price \$16.00 per acre. Liberal terms, 6% interest.

3500 acres. Mostly enclosed with sheep proof fence. Splendid location and includes some good agricultural land.

Price \$16.50 per acre. Liberal terms, 6% interest.

3000 acres. A splendid little ranch and all the good farm land needed.

Price \$16.00 per acre. Liberal terms, 6% interest.

Also, smaller combination farm and ranch tracts, if desired at attractive prices.

In addition to these combination tracts, we have some fifty thousand acres of 100% agricultural land surrounded by developing tracts of 177.1 acres each at \$30.00 and \$35.00 per acre. One-fifth cash, balance liberal terms, 6% interest.

It will pay you to investigate these propositions at your earliest convenience, as these lands are selling and the country developing rapidly.

Now Is The Time to Buy!
