Foreign affairs experts-political and military—talk peace but can see war in Europe. If the selection of Dr. Kurt Schuschnigg as chan-cellor of Austria means that he will attempt to seat Archduke Otto on the throne you can look for rupture with the Little Entente. The three nations that constitute this group have pledged one an-

other to make war rather than per-mit a Hapsburg to sit crowned at Vienna. Czechoslovakia was under the Hapsburgs for centuries. Roumania was mutilated by them and her people hate them. Jugo-slavia has burned into her heart the memory of the crushing of Serbia by the Hansburg combine. Any one who has ever enjoyed the confidence of President Masaryk of Czechoslovakia can testify that he will lead his country to war rather than permit a Haps-burg to wear a crown again. # "I Always Feel Safer in a Ford"

ALL-STEEL BODY AND SAFETY GLASS-The strength of steel protects you when you ride in a Ford V-8.

Around you is an all-steel body, electrically welded into one piece. Beneath your feet is a rigid, X-type steel

Out in front of you and behind you are strong

steel axles, triangularly braced by steel radiusrods and supported by a steel torque tube.

You ride upon steel-spoke wheels, also electrically welded into one piece. The windshield before your eyes is safety glass. (All Ford V-8 De Luxe closed cars are equipped throughout with safety glass at no additional cost.)

Another reason why you feel safer in a Ford V-8 is something that makes every driver a better driver . . . ease of handling. There is always less strain and less likelihood of tight situations when you drive an alert, obedient car.

The Ford V-8 gives you an extra margin of safety because of its quick acceleration, eightcylinder speed and power, ease of steering, stability on curves and rough roads, and powerful, oversize brakes.
