CUTS BRING SIZEABLE SAVINGS TO TAXPAYER

The Lamb county commissioners court has reduced the tax levies on all road districts for 1949, according to an announcement by Judge Otha Dent.

The working out of these reductions was completed at last Friday's session of the commissioner court. These reductions represent sizeable savings to the taxpayers in the various road districts.

The reductions were made possible through equalization of assessed valuations; an anticipated total tax valuation for the county of \$12,000,000; and the reserve in the sinking fund which guarantees the retirement of principal and interest on the county's bonded indebtedness without access to additional funds from taxation.

Rev Forster B. Cook Ordained Friday

Rev. Forster B. Cook of Palestine, Texas, but formerly of south of Sudan, and the brother of Mrs. Verble Baker of Amherst, was ordained Friday night, August 12, at the Calvary Baptist church, Palestine. Rev. Otis Selton is pastor.

Ministers who served in the ordination service were: Rev. Dennis, Palestine, Texas; Rev. Medlock, Tyler, Texas; Rev. Otis Felton, Palestine; and Rev. J. J. White of Palestine, father-in-law of Rev. Forster Cook.

Rev. John Duckett of Athens, Texas, brought the ordination message. Rev. Cook is pastor of the Tri-City Baptist church near Athens, Texas.

Rev. Cook is the son of J. H. Cook of Arlington, Texas, formerly of five miles south of Sudan.

Road District 1A last year had a levy of \$1.15 per \$100 valuation as compared with 80 cents under the new levy;

Road District 3 last year had a levy of \$1 per \$100 valuation as compared with 75 cents under the new levy;

Road District 4 last year had a levy of \$1.25 per \$100 valuation as compared with \$1 under the new levy;

Road District 6 last year had a levy of 75 cents per \$100 valuation as compared with 60 cents under the new levy.

Reductions Average 25 Percent
The average for the four districts will be approximately 25 per cent decrease in levies for bonded indebtedness.

Road District 1A includes approximately the south one-third of the county; Road District 3 includes Amherst and vicinity; Road District 4 includes Sudan and vicinity; and Road District 6 includes Earth and vicinity.

The county tax levy remains at \$1.40 per \$100 valuation.

The total of the county rate, plus the rates in the road districts, will be the amount to be paid by each taxpayer of the county.

Merchandise Display Course Is Sponsored

The Retail Merchants Committee of Ltd. Chamber of Commerce in corporation with the Distributive Education Program of the Littlefield High School has announced that they will sponsor a merchandise display course beginning September 5.

This course will be conducted in ten one-hour class sessions over a period of two weeks. An enrollment fee of \$1.50 per student is the only cost connected with this course.

Any person who has the responsibility of displaying merchandise in a store window should enroll in the course. In addition to store employees, owners and managers should also enroll in this course because it contains much information about store window modernization and illumination of interior and window displays.

Dan Berg and Elmer McKimney, the Distributive Education teacher in our local High School will work together on sponsoring this course.

There will be twelve miniature display windows used to teach the course along with actual demonstrations, miniature merchandise, an actual practice.

Here are some of the topics to be covered:

1. Principles of Arrangement
2. Principles of Balance & Proportion
3. The unit Principle in Display
4. Display Illumination
5. Window Background Design & Construction
6. Color in Display
7. Display of Ladies Apparel
8. Display of Men's Wear
9. Drug Store Displays
10. Hardlines Displays
11. Interior Displays & Modernization

Mr. W. G. Bohannon, Display and Advertising Specialist of the University of Texas, Division of Extension, will be the instructor for this course. Mr. Bohannon has had years of experience in the commercial art and display field. His practical ideas and demonstrations of display arrangements will be of great benefit to the beginner as well as to the experienced display man.

Dan Berg, Chairman of the retail merchants committee of the Chamber of Commerce has stated that approximately 35 people thus far have indicated interest in the course.

The Leader Brings The News Of Littlefield And Lamb County Churches

Springlake Baptist To Endeavor To Qualify As Model Church

The First Baptist church of Springlake is the nearest to a model rural church, and has great possibilities of becoming the model rural church of the state, according to Rev. Floyd Chaffin, now assistant to J. Howard Williams, who is state secretary in Baptist work and in charge of rural church work. Rev. Chaffin was the evangelist in charge of the revival meeting at the First Baptist church here, which closed Sunday. He was very enthusiastic about the possibilities of the Springlake church.

Among the projects it would be necessary for the Springlake church to carry out to make it a model rural church, would be to acquire 10 acres of land adjoining the building; complete the parsonage; light the playgrounds for the children; have picnic grounds on which to hold barbecues and other outings, etc.

BIBLE STUDY CLOSES FRIDAY

The concentrated Bible Study which has been going on at Emmanuel Lutheran during the past three weeks for the children of the community will come to a close tomorrow night, Friday, August 19, with a special program beginning at 8 p. m. in the sanctuary of Emmanuel Lutheran, 417 West Third street. Especially for the benefit of the parents of the children who attended this school is this program being arranged; however all parties interested are cordially invited. This evening session will demonstrate in simple ways the things which were accomplished thru the medium of this school. Each of the departments, beginners, primary, junior, and senior, individually and collectively, will present some phase of the school activity. Following the closing program, the parents will be given an opportunity to see the handwork of theirs and other children. In all probability, Emmanuel Lutheran will hold a similar Bible school sometime during the summer of 1950.

The foolishness of man when he allows his mind to think that he has everything just as long as he is making money and a success of life was forcefully brought home to some 100 more or less people last Sunday night as they watched the picture "Beyond Our Own" one of the movies which made a night's program in the local high school auditorium. In a lighter vein were the shorts—the one dealing with Jose Iturbi of piano fame, the other a comedy. In a matter of minutes a cross-country tripp was taken, sopping off along the way long enough to behold in natural color some of the beautiful wonders and scenic spots of America.

Plans as they stand at the present time call for a repetition of his evening some time during the last half of October. Full details will appear in this paper.

HOLDS NATION'S SOCK . . . Michael E. Slindlee, acting as agent of the United States, looks on as Georgia Neese Clark, new signer, signs her name to receipt for \$27,424,541.375.78 in the U.S. Treasury vaults. The cash, currency and securities formerly were the account of Slindlee. The receipt was confirmed by six who certified the figures to two-thirds of a cent.

SPOTS BEFORE YOUR EYES . . . Both Herbert Harris, 11, Chicago, and Sally Brady, 9, Evanston, Ill., have enough freckles, individually and collectively, to have won over 30 other contestants in the Chicago railroad fair's freckle contest. They were named king and queen at the Indian village and also "Tob-poh-mah," pinto face, by the chief, Spenser Asah of Oklahoma. Counting these freckles would be like counting the stars in the skies on a cloudless night.

HERO RETURNS HOME . . . Roger Young, American infantryman hero of World War II, immortalized in great ballad that has achieved world fame, is taken home. His flag-draped remains pass through Chicago enroute to his Ohio home town where he was placed in his final resting place. Here, Master Sgt. Arthur L. Sloan (left) and Sgt. Ed Kiersztian of 5012 Escort Co., Ft. Sheridan, Ill., place a flag over the casket of Pvt. Roger Young at the Chicago quartermaster depot.

CHARGES KIDNAPING . . . Mrs. Edythe Horowitz, Brooklyn, looks longingly at a news photograph of her three-year-old son, and his father at a sidewalk soda spa in Tel Aviv, Israel. Mrs. Horowitz declares that her estranged husband kidnaped the boy. A few days ago she charged Horowitz with abandonment of the son she bore him.

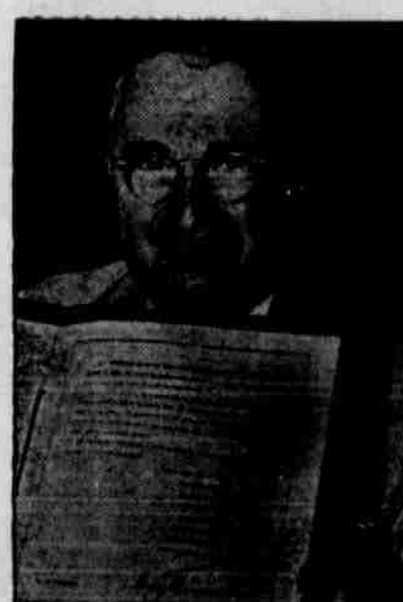

TO WED VALEE . . . Eleanor Kathleen Norris, 21, red-haired University of California co-ed, will wed Rudy Valsec in September. She said she turned him down the first three times he asked for dates.

PLAN MARRIAGE . . . H. E. H., the Earl of Harewood, 26, son of sister of King George of England, and Vienna-born Marlon Stein, 22, concert pianist, plan to marry in Church of England chapel this fall.

"LOG"-RHYTHM—"Miss Palo Duro"—vivacious Harriet Carter, 18, of Amarillo, Texas—conditions herself for "The 'Wheatheart of the Nation'" beauty contest at Perryton, Texas, this month. Miss Carter is pictured at Palo Duro Canyon State Park, the Panhandle's natural wonder, which she will represent.

(G) RATIFICATION . . . Grati-fied at the ratification of the Atlantic pact is President Truman as he holds the document bearing his signature. It effects US participation in the treaty and obliges US aid to Europe.

SENTIMENTAL JOY . . . Angela Lansbury, British star, and Peter Shaw, singer, wait in New York for London where "planned marriage" is a war refugee's dream.

SEMI-VEEP TO BET . . . Mrs. Carolyn S. Hadley, St. Louis, Mo., widow, whose name is being linked romantically with that of Vice-President Alben W. Barkley.

IMPERIAL POTENTATE . . . Harold Lloyd, movie comedian assumes office as leader of the nobles of the Mystic Shrine after being installed in Chicago meeting of Shriners.

HEARD, BUT NOT SEEN . . . "Children should be seen, not heard" does not hold good for Kathryn Beaumont, 11, British young star, who will play the movie voice of "Alice in Wonderland." A Disney cartoon version of the Lewis Carroll classic. When she has finished her lines in the filming of the story, she is making another delivery on the tennis court. Kathryn is a daughter of Kenneth Beaumont, British singer and radio performer.

LITTLEFIELD FOOTBALL SEASON OPENS WITH GAME FRIDAY NIGHT SEPT. 2, AT DALHART

Allstars Down Earth Saturday Afternoon To Tune Of 10-14

To the tune of 10-14 the Allstars downed Earth, Lamb County's Champion, before a crowd of about 500 fans Saturday afternoon at Earth.

The game started at 2:30 P. M. Gauna Pitcher for Earth. Guana pitched for Earth, while Clayton caught the ball.

During the last five innings Brock of Littlefield caught, and Lance also of Littlefield pitched. Weaver outstanding player.

An outstanding player was Weaver of Amherst, who is only 14 years old. He played shortstop, and made five plays without an

error; he was at bat six times, got a triple, double, two singles, and one walk.

Another outstanding player was Baird, also of Amherst. He played center fielder; made five put-outs, and got four hits for five times at the bat.

Tech Football Players Will Report for Season Sept. 1

Football players of Texas Technological college, seeking its ninth Border conference championship and the third in succession this fall, will report for the season Sept. 1.

Coach Dell Morgan and his aides expect a rough fall, with one of the roughest schedules ahead which could be planned. Four Southwest conference opponents, five of the Border conference and Tulsa of the Missouri Valley circuit will be faced.

Twenty-five lettermen will be back, along with several likely transfers and many promising sophomores. But nine key lettermen have been lost from the 1948 champions and coaches see difficulty molding a winning team.

Big Don Williams, letterman tackle, has been shifted to guard to fill a major vacancy. With several good fullbacks, it is expected a shift or two from that post to right halfback will be made to correct another deficiency.

Three ends graduated, but replacements are seen in Dick and Hugh Jackson, brothers from Phillips, both transfers. Jack Davis, Littlefield sophomore, also is expected to help.

Strongest spots for the Red Raiders seem to be at tackle and center. All-Conference Marshall Gettys and John Andrews, starters of last year are back, along with reserves Doug McSwane and Bobby Broyles. Jerrell Price, all-state two years at Brownfield high school, is seen as a stand-out addition at tackle.

Bobby Williams is back at center for his fifth year, bolstered

The Birth of the Forward Pass
It was back in 1906 when the first forward pass was seen in a football game. Brad Robinson was the passer and Clarence Kenny was the receiver.

They played for St. Louis University, and in a game with the University of Kansas, Robinson was credited with a pass play of 80 yards. It was this year, 1906, that the overhead play was made legal, but Robinson had predicted that it would come into being, and he had practiced it religiously for many months.

In 1913, the forward pass made headlines. A man named Knute Rockne so consistently and effectively that the Irish of Notre Dame defeated the highly favored Army eleven from West Point.

With the forward pass, football has grown by leaps and bounds, until it is one of the outstanding games of the nation in the professional, collegiate, and schoolboy realms.

Though Brad Robinson is not remembered by most of us, such names as Knute Rockne, Ray Morrison, Paul Christman, Sammy Baugh, Bobby Layne and many other greats are synonymous with the phrase "forward pass."

Competition Keen For First String Positions

The football season is here, and Littlefield fans are already discussing the pros and cons and the outlook for achievements in the next few months.

Dalhart played the initial game of the season in Littlefield last year, and this year the Cats will go to the North Panhandle city for the season's opener.

The game will be played under the lights Friday night, September 2, and will start at 8:15.

Daily Workouts
Forty sophomores, juniors and seniors are working out from 6:30 until 9 each morning, and from 7 to 9 p. m. and 22 freshmen are working out from 7 to 9 p. m.

Coach Fikes reports. This latter group will be increased to 30 some time in September.

Competition is keen for high places on the varsity squad.

Dickie Hopping is working out for center position, and is being pushed hard for the honor by Freddie Howard and Edwards.

Floyd Pinkerton is playing first string right guard, but is being pushed for the position by Jackie Davis and Rutledge.

Jim Fowler is running first string left guard, but he'll have to watch Teddy Brewster and Dan Heard.

Robert Attaway and Jerry Haire are pushing John Fowler for first string right tackle.

Co-Captain Jerry Cotter has been running first string left tackle, but he has every reason to watch Arlen Wesley and Hanna.

Floyd Goff has been running first string right end, but has competition for the honor in Bobbie Cox, Joe Paul Owens, and Pierce.

Johnny Edwards has the inside track for left end, but is being pushed by Bobbie Barker, Barnett, Roberts, and Kennedy.

ley is being pushed for string honors by Jackie McCanlis.

There is real competition for full back honors. Tommy Bailes is really being pushed by Gene Renfro.

Tailbacks, Frank Gage and Charles Askew, are neck and neck for string honors.

Steve Brock is having opposition for first string wing back in the person of Clifford Hopping.

Among other boys who are coming out for the squad are Brantley, Lowe, Fields, and Northham.

Dr. Faust Attends Medical Meeting

Dr. and Mrs. F. B. Faust and children, Faith-Helen and Bruce, returned recently from a nine-day vacation trip to Colorado, Montana and Wyoming. On the trip they drove 3630 miles.

Dr. Faust attended the Rocky Mountain Medical Conference of the Joint Medical Societies of Colorado, Montana, New Mexico, Utah and Wyoming, which convened August 2 through August 4, at the new Finlen hotel at Butte, Mont.

Dr. Cyrus C. Sturgis, M. D., professor of medicine, University of Michigan, who is an authority on anemia and high blood pressure, was one of the chief speakers at the meeting.

Dr. John Royal Moore, professor of orthopedic surgery, Temple University, Philadelphia, also took a prominent part on the program. He was Dr. Faust's perceptor at the Philadelphia General hospital, where Dr. and Mrs. Faust both served internships.

Dr. Henry L. Barnett, assistant professor of pediatrics, Cornell University, gave an excellent lecture on Bright's disease in children.

Many other prominent members of the medical profession lectured on various diseases.

Tuesday evening of last week Dr. Faust, at a staff meeting of doctors, nurses and laboratory technicians of the Payne-Shotwell Hospital, discussed the meeting, and information gained at the conference.

Dr. and Mrs. Faust and children also visited Leonard mine at Butte which is a part of the Anaconda has been reported.

All citizens of Littlefield and surrounding communities are invited by the Lions Club to be at the Higginbotham-Bartlett store Friday morning and get part of the DDT for their protection.

Revival Meeting to Open at First Baptist Church, Springlake, Aug. 28

Rev. Lee Hemphill, pastor of the First Baptist church of Littlefield, will preach at the revival meeting, which will open at the First Baptist church, Springlake, Sunday, August 28, and continue through Sunday, September 4. Charles Heathman, recognized as an outstanding musician, will be in charge of the singing.

Rev. Hemphill is a very forceful and outstanding speaker, and Rev. C. T. Jordan, pastor of the Springlake church, stated Saturday

they were most grateful and happy to have Mr. Hemphill conduct the meeting.

Services will be held twice daily at 10 a. m. and 8 p. m.

The First Baptist church of Springlake has just recently been constructed and seats about 300 people. The church has a membership of 111. Springlake is a rich agricultural territory in which are living many prominent and progressive farm families.

Copper Mining Company Property

Dr. Faust reports they were lowered 3400 feet through the shaft. Arrangements to go down in the mine is made through the Chamber of Commerce at Butte. Forty passengers are taken down daily. The Faust family also visited Yellowstone park.

They returned through Salt Lake City, across the mountains to Denver, and then home.

ON HONOR ROLL

George Thompson and Georgia Faye Thompson, both of Littlefield, were among 33 students at McMurry college, Abilene, to achieve the scholastic honor roll for the first summer session.

To be listed as an honor student requires the maintenance of a "straight A" average in all academic courses.

Garland Motor Open Used Car Lot at E. 3rd and Highway 84

The corner of East Third St. and Highway 84, which is owned by B. D. Garland, has undergone considerable improvement.

One small building has been moved away, and 50 feet taken off the warehouse building. The structure has been remodelled inside, and to provide an office. The lot, which is 100 feet wide and runs back about 50 feet, has been gravelled.

The Garland Motor Company, with M. E. Wortham in charge, are now operating a used car lot at this location.

M. D. WELBORN WILL GRADUATE FROM HARDIN-SIMMONS

M. D. Welborn, Jr., son of Mr. and Mrs. M. D. Welborn, of Littlefield, will graduate from Hardin-Simmons University at Abilene Friday, August 19. Welborn is a graduate also of Wayland College.

Mr. and Mrs. V. G. Overby and daughter Sherry Jeanne left Wednesday after spending a week with their daughter and son-in-law, Mr. and Mrs. Jodye Jones, Mr. and Mrs. Otto Jones, and Mr. and Mrs. Jarold Jones.

Jess Moody, Young Evangelist Is On Tour Of Europe

Jess Moody, 24-year-old youth evangelist of Waco, Texas, spoke to a capacity crowd in one of the regular sessions of the Baptist World Youth congress in Stockholm, Sweden on August 9.

Young Moody is a senior at Baylor university and made an evangelistic tour of Europe in 1948 with

Rev. Jess Moody

another Waco evangelist and musician, Bob Randall. At present Moody is leading a second evangelistic tour in Europe made up of five young men. They are the Rev. Ben Welemaker, pastor of the First Baptist church in Livingston, Texas; Clyde Rabun, ministerial student at East Texas Baptist college in Marshall, Texas; Milton DuPriest, evangelist of Temple, Texas and Baylor student; and John Breland, of Beaumont, and music student at Baylor.

The group acted as spiritual counsellors at a youth encampment in the mountains of northern Norway the last week in July and reported 90 conversions. After the Congress, the group travelled to Cannes, France where they will conduct a series of meetings, rallies, and street services. The tour also includes working in revivals and mission points in Paris and Nice, France; Rome, Florence, and Venice, Italy; Bern and Zurich in Switzerland; and London, Sheffield, Hull, and Camberwell, England. The group will return Sept. 15 to resume their studies at Baylor and evangelistic work in the southland.

Moody is publisher of the *Shield*, a Christian youth magazine and director of the "Where He Leads" broadcastings heard over Texas on Saturday mornings. He is the son of Mr. and Mrs. H. F. Moody of Waco and formerly of Littlefield.

Attend Optometric Meeting at Lubbock

Drs. B. W. Armistead, Ira Woods and Glenn S. Burk, all of Littlefield, attended a meeting of the South Plains Optometric society which was held in Lubbock Wednesday evening, August 10. Captain R. L. Castleberry of the Texas Department of Public Safety, driver's license division, was guest speaker of the evening. Captain Castleberry discussed the visual standards for licensing purposes.

Others attending were Drs. C. M. Neel, J. Davis Armistead, G. G. Boyson, Wm. M. Cauley, Chloe Swart Farron, Millard F. Swart, A. A. Holmquest, J. W. Klnard, and Weston A. Petty, all of Lubbock; O. R. McIntosh and J. W. Kimble of Floyd; B. R. Putman of Muleshoe and Dick Ragsdale of Slaton.

25 YEARS... on the job

This month marks the 25th anniversary of the day we first went to work for the folks in the Panhandle-Plains Pecc Valley-Eastern New Mexico area. We say "went to work" because that's exactly what we did.

Our job for the past quarter-century has been to keep pace with the great strides these folks—our customers—have made... agriculturally, industrially, commercially.

We've really enjoyed our work, and we're looking forward to many more pleasant years "on the job" for the area we serve.

Our 25th Anniversary

In the years to come... as in the past... it is our constant aim to keep pace with the ever-increasing power needs of the vast area we serve... to provide low-cost, dependable electric service for better living—electrically—for everyone.

Southwestern Public Service Tuco Power Plant Is Important Unit In Progress of This Section

As you drive through the rich agricultural country between Plainview and Lubbock, nature's handiwork suddenly gives place to man's as you come upon Tuco, power supply to the plains, just north of Abernathy.

"What a place to put a power plant" is a normal reaction the first time you see Tuco, for the plant looks as out of place as a city boy on a Texas farm, sitting as it does, in the heart of a rich agricultural area. But a little research discloses that this main source of power supply for the Plains Division of the Southwestern Public Service Company is ideally located.

Big Output of Power
Tuco has loomed on the landscape for 19 years. The went into operation in 1930, and externally looks little different than it did in those days. Inside, however, Tuco has the "new look" and where once was heard only the hum of a single 7500 kilowatt generator can now be heard the roar of three turbines putting out 40,000 kilowatts of electric power.

Horses are easier to picture than kilowatts, so, for the moment, let's make horses out of the kilowatts. In terms of horsepower, those 40,000 kilowatts of electric energy producing capacity are the equivalent of 53,640 horses pulling to produce electric power for you and your neighbors. That's a lot of horses—and a lot of power.

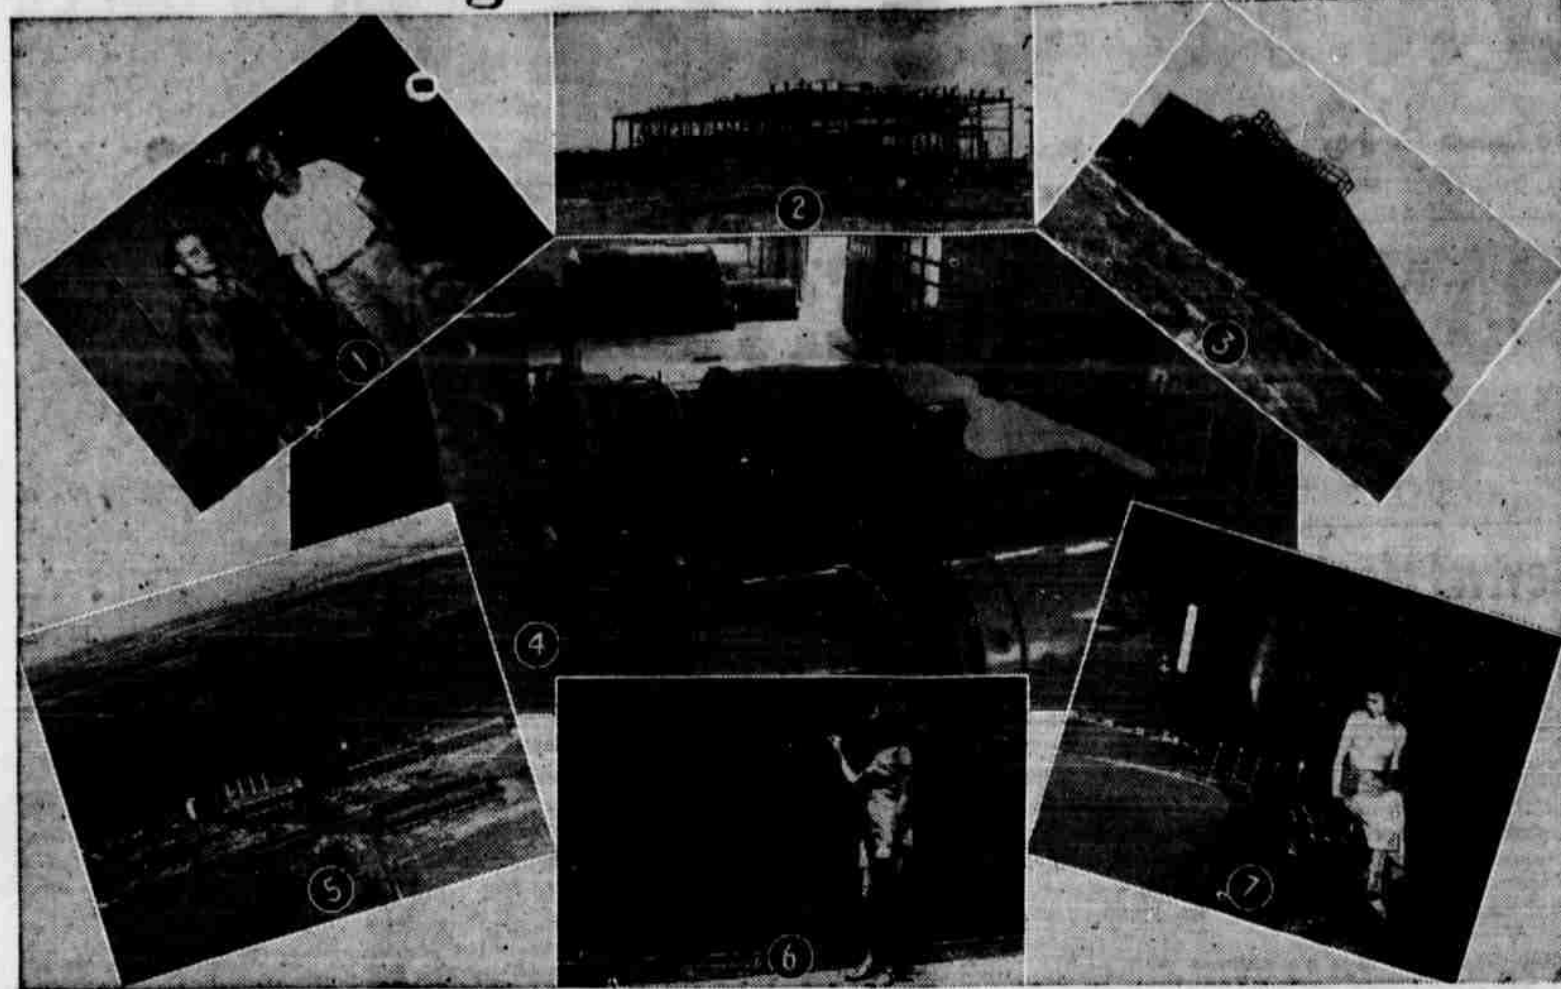

Well Planned Power Plant
Tuco is a well-planned power plant in many respects. That accounts for the fact that externally it looks little different than it did nearly two decades ago, while actually it can now produce more than five times as much electric energy as it could when it went into operation. When it was built, room was left for the installation of additional generators. Two have been added. A second 7500 kilowatt unit went "on the line" in 1938 and a new 25,000 kilowatt General Electric steam turbine generator has just gone into operation.

So well was Tuco planned when it was first constructed that even now Southwestern Public Service Company engineers, looking into the future and visualizing increased needs, are working their slide rules and measuring sticks and wondering if a fourth unit can't be placed in the building without an addition being made to it. There's room left, the only question being is there enough.

For the record—and power plants like presidential speeches—have to go "on record," Tuco's new 25,000 kilowatt unit—that alone is equal to 33,525 horsepower—went "on the line" July 9th, 1949 at 10:32 p.m. CST. The new unit has operated for short periods at full capacity, but the power dispatchers of Southwestern Public Service have not as yet asked Tuco to provide a new maximum output over a sustained period. You have to work the "bugs" out of new turbines and that's what they're doing now at Tuco. The new unit came "on the line" smooth. The engineers say there are very few "bugs" to be worked out before Tuco will be ready to produce its new capacity, 40,000 kilowatts, on a full time basis.

Tuco's location in the midst of a rich agricultural area is important to the farmers of that area. This is an irrigation country and that means water is important to the farmer. It's also a little hard to get along without if you plan to use steam to generate electric energy. You can't use up the water your customers need for their farming—and still have customers. That accounts for the location of the plant. Tuco's water supply comes from a lower water level that does that of the farms in the surrounding area. As water is needed by city folks too, Tuco was located outside of a populated area.

Serves 3,000 Square Miles
Tuco serves an area that covers more than 3,000 square miles, extending from Dimmitt and Silverton on the north to

This is the Southwestern Public Service Company's Tuco generating station—electric power source of the plains. 1—M. C. Davidson and Frank D. Bishop. Their combined safety records total 35 years. 2—Sub-station, starting point for transmission of electric energy. 3—Cooling tower for reducing temperature of water to be re-used. 4—Generator Room with the new 25,000 kilowatt unit in the background. 5—Aerial view showing Tuco surrounded by rich farm lands. 6—Miss Jerry Dyer, plant manager's daughter, inspects one of the 18 giant cooling tower fans. 7—Miss Dyer again, this time viewing some of the controls on the new 25,000 kilowatt generator.

Levelland and Crosbyton on the south. Most of the communities in this area, especially those in the northern half, receive a major portion of their power from Tuco. Southwestern Public Service Company's Denver City plant helps Tuco carry the load in the southern end of the region. Geographically, Tuco is located close to the center of this area, another reason why it was a good place to put a power plant.

Tuco's location is important—and good—as far as the tying together of Southwestern Public Service Company's power producing facilities are concerned. There are ten steam turbine generating plants in the system, spaced from 75 to 100 miles apart. Tied together by high tension transmission lines, they are able to help each other carry the load if one has to be "down" for any reason. For example, power generated at Tuco could be transmitted to Clovis if the New Mexico plant needed additional energy, or Tuco and Denver City or some other plant could combine to help another area. A network of 2561 miles of transmission line—with the main arteries in the system extending from Borger to Carlsbad, New Mexico and from Amarillo to Portales, New Mexico—make it possible for the ten plants to share the load.

A power plant is an around the clock operation—24 hours a day, 7 days a week. Thirty two men are needed to direct operations at Tuco. Once a power plant gets going, operation is almost automatic because of the many instruments that control the various machines generating the electricity. That accounts for the relatively small number, 32 men, needed to keep Tuco's 53,640 horses at work. Each of the 32 is a technician, specializing in one particular field of the operation, but knowing enough about the over-all running of the plant that he could fill the breach at any job.

Monthly Payroll \$10,000
Tuco's "dollar and cents" contribution to the area it serves is a very important one. The monthly payroll at the plant averages around \$10,000 and has been as high as \$14,000. Many articles of supply and equipment are purchased locally and aid the community economy. For example, the new cooling tower which has installed for the 25,000 kilowatt generator was fabricated by a Plainview firm, Lillie-Hoffman Cooling Towers, Inc. Tuco's tax bill, and that of

other Southwestern Public Service Company installations in the area, helps pay the cost of providing good local government.

Housing facilities of families of 12 of the 32 employees are provided at the plant and the remainder of the staff make their homes in Abernathy and the surrounding place in the area to work despite area.

Tuco is probably the safest the usual belief that power plants are hazardous places to make a living. There hasn't been a time-lost accident at the plant in 5 1/2 years. One reason for this record is that everyone at Tuco believes in the philosophy that accidents don't happen, they are caused. An-

other contributing factor is that families of the employees as well as the men themselves get in on the safety tests that are given. Recently, 17 year old Jerry Dyer, daughter of plant manager Bob Dyer, led the entire plant in an examination. Mrs. Dyer was also high on the list. Nobody fails the examinations and high grades are the rule, not the exception.

Two of Tuco's employees have seen each of the three units now in operation go "on the line" for they have worked at the plant since the day it went into service. The two are N. C. Davidson, maintenance foreman, and Frank D. Bishop, shift foreman, who have worked side by side for 18 years without a time lost accident.

Tuco's "up in the air" these days, too, and picture post cards of the plant are given to passengers flying above the plant aboard the equipment of Pioneer Air Lines.

Tuco has been carrying its share of the electric power load for nearly two decades. Its share has grown bigger, as has the area it serves, but sound planning and good operation have kept the plant ahead of the power needs of the region. It doesn't look like it belonged where it is, but it's in the best possible place to do the job that has to be done—provide electric power for you.

Lutheran Vacation Bible School Is Progressing
According to the first week of Vacation Bible School Time at Emmanuel Lutheran, 417 West 3rd, there is every indication that the entire three week period, August 1 through August 19, during which time this school will run, will be singularly successful.
Though room for more children, yet the 60 or more who are enrolled manage to keep the teaching staff well occupied.
Last Friday during the regular opening devotion an offering was raised by the children for the continued support of the men who make the Family Worship Hour transcriptions available to our local KVOW, every Tuesday morning.

ALUMA Seal our new "HINGED" milk bottle hood

more sanitary...easier to use... made of clean, lustrous aluminum

AlumaSEAL has earned its popularity in thousands of homes... earned it through actual use by many families such as yours. Here's why.

The paper-lined aluminum foil covers the entire pouring lip of the bottle. This makes it unnecessary to wash the top of the bottle before using it. It means added health protection to your family.

Notice how easy it is to open the AlumaSEAL. It's "hinged". To open, peel back hinged section, as indicated on the hood, then pour milk without removing hood from the bottle. This means your milk is kept pure at all times—even while it is being poured from the bottle. To reclose, simply push hinged section back down over the pouring lip. Here's continued sanitary protection and real convenience, as well.

Drink more pure, wholesome milk—milk that's protected by AlumaSEAL.

That Nagging Backache

May Warn of Disordered Kidney Action
Modern life with its hurry and worry, irregular habits, improper eating and drinking—its lack of exposure and infection—throws heavy strain on the work of the kidneys. They are apt to become over-taxed and fail to filter excess acid and other impurities from the life-giving blood.
You may suffer nagging backache, headache, dizziness, getting up nights, leg pains, swelling—feel constantly tired, nervous, all worn out. Other signs of kidney or bladder disorder are sometimes burning, scanty or too frequent urination.
Try Doan's Pills. Doan's help the kidneys to pass off harmful excess body waste. They have had more than half a century of public approval. Are recommended by grade A men everywhere. Ask your neighbor!

DOAN'S PILLS

ASTHMA

Don't let coughing, wheezing, recurring attacks of Bronchial Asthma ruin sleep and energy without trying MENDACO, which works thru the blood to reach bronchial tubes and lungs. Usually helps nature quickly remove thick, sticky mucus. Thus alleviates coughing and aids freer breathing and better sleep. Get MENDACO from druggist. Satisfaction or money back guaranteed.

Betty Jo Taylor and Leona Gillette Presented in Concert

Betty Jo Taylor, 17, niece of Mrs. A. E. Billis, and a daughter of Mr. and Mrs. H. M. Monahan, and Leona Gillette, daughter of Mr. and Mrs. Ralph Gillette of Fort Worth, formerly of Monahan, father is a former resident of the city, were presented by Blanche Freeman, music instructor of Monahan, in a concert Tuesday evening, July 26, at Methodist Church, Monahan, the two piano arrangements of the concerto in B flat Op. 23, No. 1 by Tschaiikov.

Gillette is a son of W. W. who formerly owned and operated the Chevrolet automobile here.

Teacher 11 Years
Students have studied under direction of Mrs. Freeman seven years and are accomplished musicians. It is unusual for a young to play a concerto as advanced as Tschaiikov's Concerto, Mrs. Freeman the concerto is played in movements.

Abilene College
Taylor was graduated from school this year, and will attend Abilene Christian College. She is planning to major in education.

Monahan resident, she moved to Fort Stockton several years ago and has continued her musical instruction under the supervision of Freeman. She is fifteen years old and is also an outstanding member in the Fort Stockton community center.

From where I sit... by Joe Marsh

Specs And I See Eye To Eye

Asked Specs Allen to go hunting last week. Known him all my life, so I wasn't surprised when he showed up with no gun. Specs doesn't like to kill anything.

Couldn't ask for a better hunting companion, though. We tramp around the woods, and whenever the dogs flush a bird, I blaze away while Specs just watches.

Told him once I was surprised he went along... feeling the way he does about shooting anything. "Well, Joe," he says, "you do what you think is right and I'll stick to what I think is right. I've no call to dislike you for not seeing everything the way I see it."

From where I sit, open-mindedness is a wonderful quality. There are plenty of things Specs admires that I don't care for. Like his fondness for buttermilk. I'd rather have a glass of beer anytime... but Specs Allen and I don't let little differences get in the way of something big like friendship.

BULL LAKE PHILOSOPHER CLAIMS TIMES WILL BE HARD AS LONG AS A WOMAN IS RUNNING U. S. TREASURY

Editor's note: The Bull Lake Philosopher on his Johnson grass farm on Bull Lake probably is letting himself in for a lot of trouble in his letter this week, but it's his worry, not ours. Any woman reader who disagrees with him can take it up with him, not us.

Dear editor:

While talk of things tightenin' down a little hasn't bothered me much, after you've been tightened down on most of your life you get to where you don't notice it so much, it's like my cow, as long as she's confined all her life to Johnson grass she don't miss alfalfa, as far as she knows Johnson grass is all there is, and I notice people especially up north have been worryin' a little over the fact people ain't spendin' money as fast as they used to and business has fallen off a little.

Also, I notice the experts and the thinkers have been workin' on the problem and there seems to be as many explanations as there are experts. One of 'em

claims the fault lies in the fact we are undergoin' a natural readjustment followin' the war, another says big business is timid, another says the buyer is timid, another says the cost of livin' is too high, another says wages are too high, another says they're too low, and so forth.

If you ask me, I think I know what the trouble is.

The trouble is, we got a woman in charge of the United States Treasury.

I don't know anything about her personally, but my experience has been a woman likes to spend money, is free and easy with it as long as you hand it out to her, but once you put her in charge of the purse strings she clamps down like a vice and prosperity is over. Puttin' a woman in charge of your money is an open invitation to shut the door on comfortable livin'.

I ain't never seen a banker so tight-fisted I hadn't rather hit him up for a loan than to ask my wife for some of her egg money.

Women handlin' money ain't even satisfied to give you a simple no, they got to go into a long discussion of why you're triflin' and no account for wantin' a little spare money in your pocket when

you go to town on Saturday. They'd deny you the necessities of life, cut you off from pipe and tobacco, and then turn around and send off twice as much as you asked for to a hungry European.

If you ask me, times is gonna be pretty difficult, money is gonna be hard to get hold of, as long as we got a woman runnin' the United States Treasury. It just won't work. But I would appreciate you not sendin' a copy of your paper out this way the week you publish this letter, as I blamed sure don't want my wife to get hold of it.

Yours faithfully,
J. A.

Red Cross News Information On Power of Attorney

By Mrs. L. M. Brandon Executive Secretary

When we have no actual news for this column we will try to tell about the Red Cross and its activities. A good way to start is with something of its origin. It is surprising how many people are not familiar with the Red Cross story.

Foremost of the founders was Henri Dunant, born in 1828 at Geneva, of wealthy Franco-Swiss family, he was traveling as a neutral in the war zone and arrived at Solferino, Italy, during the battle of King Victor Emmanuel of Sardinia and Emperor Napoleon III, one of the bloodiest battles of history. He did not see the actual fighting, but the result, which was much worse. Thousands of dead and wounded scattered over the fields and heaped in the ravines, the hasty burials, the evacuation of the wounded to nearby towns and their suffering, which was increased by lack of supplies and medical care. Dunant did what he could to relieve suffering by organizing the women and boys of the town. This was very difficult because of the disorder and confusion. The wounded were bedded in private homes, in churches and monasteries, and finally in the court yards and along the streets. The women, seeing that Dunant made no distinction between nationalities, followed his example, showing the same kindness to everyone and often repeating, "Tutti Fratelli"—"All men are brothers."

Later Dunant wrote a detailed and passionate account of this battle and its aftermath and called it "Un Souvenir de Solferino." This little book aroused public opinion in behalf of his plan to make it possible to "found and organize all civilized countries a per-

Wonderful New Comfort

The Beautiful Chrysler Silver Anniversary Model

New Convenience! Easiest car ever made to get into and out of. Women enter and leave with dignity. Common sense engineering of wider doorways, and natural step-in entrances make it seem absurd ever to have to wrestle your way in and out of a car.

New Wider Chalk-Height Seats! We don't fold you up like a "jackknife." You sit comfortably in seats the height of your easy chairs at home. We've more headroom, legroom, and shoulder room for you. And no other car has ever been so completely engineered from the fundamentals up for your comfort, your convenience, your peace of mind.

New Easier Steering! In one of the great advances since the war, we give you new "center control" steering. For the first time, tie rods of equal length give you a balanced control. There's no wheel fight. There's greater road stability, easier handling, less road shock. Yes, and greater safety, too—for every-thing about this car is designed for safer driving.

New Smoother Driving! Chrysler's mighty Spitfire engine now has still higher compression for faster acceleration, smoother response. And along with its better all-around performance goes an amazing new Waterproof Ignition System that's exclusive with Chrysler. You can drive through high water but it won't stall. You get quicker starting, even in dampest weather, smoother idling, longer life.

Walther Leaguers Go Camping

Monday morning, August 8, five days of camping began for members and friends of the Walther League societies at the South Plains Lutheran congregations. Under the leadership of Pastor L. Pabor of Eola, Texas, an interesting program of Bible Study, topics, recreation, fellowship, among other things is being carried out.

Emmanuel Lutheran's young people were represented by Arthur Gohlke and Alton Synatschik at this camp.

The permanent camp of Texas Walther Leaguers is located at La Grange, Texas. This additional one is carried out because of the distance involved in getting to the one at Lagrange.

Sunday night, August 14, at 8:30 p. m. in the Littlefield High School auditorium, Walther Leaguers sponsored an evening of wholesome movies for the benefit of all who might desire to attend. Included in one hour and a half program was a travelogue on the scenic spots of the United States, two shorts, one a comedy dealing with "Little Boy Blue" and the other showing the unusual piano playing skill of Jose Iturbi, and a religious movie entitled "Beyond Our Own" depicting the simple truth that life's real things lie beyond the pale of material, earthly possessions.

To defray the expenses a free will offering will be received. The public is cordially invited to be present.

Condition of G. L. White Showing Improvement

G. L. White, 14, son of George White of Littlefield, who has been suffering from both the bulbar type and the paralytic type of polio and is a patient of the Hendricks Memorial hospital at Abilene, is now getting along nicely, according to Mr. White.

Mr. White, accompanied by two of G. L.'s pals, Everett Winston and Don Erwin, made a trip by plane to Abilene last week and visited the boys.

G. L.'s arms, back and neck were paralyzed by the disease, but they are gradually coming back, according to his father. He is now able to swallow, and is walking some. Although it is expected he will be obliged to remain at the Abilene hospital until about January 1, it is believed that he will not have any ill effects of the disease. He is now allowed to be out of bed half an hour in the morning and the same time in the afternoon.

The hospital provides for instruction at the institution, and the patients attend classes much like they would do in the public school.

TO RECEIVE DEGREE

Miss Dora Jo Covington, student of the University of Texas, will be awarded a BA degree at the close of the current summer session, as announced by Dean H. T. Parlin.

Don't let your youngsters start school this Fall, while laboring under an unsuspected physical handicap. Entirely too often, such unsuspected ailments — however minor — set an otherwise normal youngster apart from his classmates . . . make him rebellious and indifferent . . . and lay the foundations for an insecurity that can reflect harmfully upon his schoolwork, and even upon his whole future. So, take no unnecessary chances. A visit to the 2 D's — Doctor and Dentist — will help to start your child off after the 3 R's with the perfect health that makes for success.

HOUSE DESTROYED BY FIRE THURSDAY

A three-room house and contents were completely destroyed by fire Thursday morning one mile north of town, when a coal oil stove exploded throwing the flame over the place.

All the personal belongings and furniture of the family, including the clothes of a eight months' old baby except for a few items, were burned.

The family was all in their sleeping clothes when the fire occurred. The stove had just been lit for the purpose of heating water to make coffee for the breakfast meal, and when the woman of the house walked back to the bedroom the fire occurred.
