Council Slates Light Agenda

Littlefield city council members are looking forward to a light agenda in tonight's meeting, at 7 in the council room of city hall. As of Wednesday morning, the only items listed for discussion were the opening of bids on central store items, the discussion of permits for wreckers to operate in the city, and a proposed parking meter survey.

The parking meter survey will receive the most attention, it is expected. For sometime, members of the downtown central business district committee has urged the council to study the possibility of either removing the parking meters or going to a different type of traffic control with the meters.

City Manager J.W. Harrison has said he doesn't know what the parking problems will be when the improvement project is completed, but felt, along with several other council members, there will be a need for improved or re-arranged facilities, if we keep up with the times.

In addition to the items listed, Harrison expects the council to have at least two or three more items to be discussed.

1964 Cotton Quality Up Over 1963

The 1964-65 cotton crop on the South Plains was considerably higher in quality than the 1963-64 crop, according to W.K. Palmer, in charge of the Lubbock Classing Office of the USDA.

The dry summer and the late freeze combined to make this season's irrigated crop one of the finest on record, but the dry summer also caused a very short dryland crop. Excellent weather throughout the fall provided ideal harvesting conditions.

Final harvesting figures of this year's South Plains crop have not been completed but estimates indicate that approximately 1,860,000 bales will be harvested. The 1963-64 season produced approximately 2,018,000 bales.

About two-thirds of the cotton classed at the Lubbock Classing Office this season was in the White grades and the remaining one-third in the Light Spotted and Spotted grades. During the 1963-64 season 41 percent was classed in the White grades and 59 percent in the Light Spotted, Spotted and Tinged grades. These figures indicate that the quality of this season's cotton suffered very little damage from the weather and insects.

The average staple length of cotton classed at the Lubbock Office this season was 30, 1/32nds-inch compared to 29, 8/32nds-inch for the 1963-64 season. Average staple length was very good during the early part of the season but declined as the season progressed. The overall staple average indicates that this season's crop was fully matured and the staple length declined because of weathering.

A comparison between the micronaire readings of this season's crop and the 1963-64 crop dramatically indicates the fine quality of this season's crop. Sixty-one percent of the current crop was in the desirable category of 3.5 and better, compared to 42 percent for the 1963-64 crop. Wasty cotton made up only 3 percent of this season's crop, compared to 6 percent of last year's crop. This was the smallest percentage of wastey cotton in many years.

Quarterback Club To Meet Monday Night

The Littlefield Quarterback Club will hold a meeting next Monday at 7:30 p.m. in the High School cafeteria.

President Jim Mangum stated that during the business meeting a discussion will be held on the proposed bus for school functions, and urged all members to attend.

Police Record: Three Accidents One Auto Theft

Three traffic accidents, including two on Sunday and a auto theft increased police activities following a slow period last week.

Sunday afternoon a 1963 Ford driven by Clarence Beck, Earth, was struck by a 1956 Oldsmobile driven by Herman Wilson of Littlefield at the corner of Griffin and Hilburn. Wilson's car went through the stop sign and struck the Ford causing \$700 damage.

At 8:15 Sunday evening T.W. Fife, of Sudan, had his 1965 Ford damaged when Doris E. Bridges failed to stop her 1956 Plymouth in time and struck the rear of Fife's stopped car on Phelps Ave.

The other accident occurred when Robert E. Wood struck the car of Fay C. Watson, Littlefield when Wood backed out of a parking space on East 4th Ave. Tuesday morning, causing approximately \$250 damage.

The police are looking for a 1961 white and green Buick sedan from George Lightsey, Littlefield Sunday evening. A car similar in description was stopped by Morton police early Monday morning on suspicion but the driver was not held.

FOR SAFETY — City workmen, Monday morning, continued the digging work preparation for the new traffic control signals to be installed at the intersection of High-

ways 385 and 54. City Manager J.W. Harrison said the new lights should be in operation by the middle of next week. —LEADER STAFF PHOTO

Rep. Clayton To Introduce Right-To-Work Law

A House Concurrent Resolution petitioning Congress to retain the Right-to-Work section of the Taft-Hartley Act will be introduced in the Texas Legislature under the sponsorship of Rep. Bill Clayton of Springlake.

E. Clay Lafield of Austin, executive director of the Taxpayers Educational Association, Inc., said he expected the resolution would have strong support, and expressed the hope that Texas would lead the fight to impress upon Congressmen the importance of continuing the authority with states of having Right-to-Work laws on their books.

Texas is one of the 20 states with Right-to-Work laws. Lafield said his organization planned to encourage the introduction of similar resolutions in legislatures of all other states. Repeal of Section 14(b) of the Taft-Hartley Act, the Right-to-Work section, has the endorsement and active support of the AFL-CIO, and is listed as its major legislative objective, Lafield said.

"This is contrary to the best interests of every Texan—and every American—who believes in the inherent right of every person to work and bargain freely with his employer, and who believes that no person should be denied employment because of membership or non-membership in a labor union," he said.

Lafield said his organization was not a labor-baiter, or anti-union, "but we do believe every person should be given a choice of belonging or not belonging to a labor union."

He predicted that if Congress repeals Section 14(b) of the Taft-Hartley Act, the next step will be for the labor unions to ask the courts to nullify state Right-to-Work laws on the grounds that they infringe upon Federal jurisdiction. This, he

said, will place state Right-to-Work laws in jeopardy. "The Right-to-Work Law in Texas, and in other states, has served as the single greatest stimulant to economic growth since World War II, resulting in a prosperity unprecedented in history," he said.

Passage of the resolution in Texas and other state legislatures, Lafield said, was one of his organization's main 1965 objectives. Other objectives, he said, were the passage of a resolution by state legislatures calling for a Constitutional amendment relative to a balanced Federal budget; defeat of medical care for the aged, financed by Social Security, and continuation of the oil depletion allowance.

LOWELL MICHAEL FULTO

Services Held For Son Of Local Couple

Funeral services for Lowell Michael Fulto, 24, of Abernathy, son of Mr. and Mrs. Lowell Fulto of Littlefield, were held at 3 p.m. Wednesday at Littlefield Baptist Church. The pastor, Rev. Robert Longshore, officiated, assisted by the Rev. S.L. Harris of Lubbock.

Burial was in Littlefield Memorial Park under the direction of Hammons Funeral Home.

Fulto and a co-worker, James Clifford Hutson of Lubbock, suffocated in cotton seed warehouse accident last Monday. The pair was trapped by falling cotton seed in a tunnel under a seed warehouse at Lubbock Cotton Oil Co.

According to a police report, the two men, who were working in the tunnel shoveling seed onto a conveyor belt, were last seen alive about 10:30 p.m. Monday.

Another employee at the mill sometime later noticed cotton seed was no longer being fed onto the conveyor belt. He cut off the power to the belt and started a search for the two men. No one else was in the tunnel at the time, according to J. Dixon White, manager of the company.

Fulto was dug out of the cotton seed about 11:20 Monday, and Hutson was found about 2 a.m. Tuesday.

A native of Lubbock, Fulto is a graduate of Littlefield High School, was a student at Texas Tech, and worked part time. He had been a resident of Abernathy for the past two years. He was a member of Abernathy First Baptist Church. Survivors include the wife, Ruth, and a son, John Mark, both of the home; his parents, Mr. and Mrs. Lowell Fulto, and a brother, Gary Fulto, all of Littlefield.

Plans To Be Revealed Friday Night

Complete plans for the proposed downtown "Park-and-Shop" project will be revealed Friday night in the district courtroom at 7 p.m.

The committee working on the project has announced they have heard from the utilities and are prepared to go ahead with the project as planned. Dr. Bill Orr, co-chairman of the project, said, "One reason we have waited this long to call the public meeting is we were waiting for the utility companies to make their proposals, we will meet with them tonight, and have called the meeting for Friday night."

The meeting is being called to acquaint the property owners and tenants with the plans for the project and to get the feeling of the people who will be affected by the project. Orr said while the main people encouraged to attend the meeting will be downtown business owners and tenants, the public is invited and will be welcomed.

Kenneth Ware, also a co-chairman of the committee, said, "The response to the plans of the project have been very well received, the property owners have shown a sincere desire to be of help in carrying out plans and have been very helpful in making additional contacts." "We hope," Ware added, "to be in position to lead bids on the project the last of February and to start the actual work the first of April."

Both Ware and Orr urged the attendance of anyone interested, property owner or not. City manager J.W. Harrison has said he and members of the city council will also attend the general meeting, and will help answer any questions the owners or tenants might have, regarding the city's participation in the improvement project.

Auto Tags Go On Sale February 1

Possessing a bright new look, over 15,000 1965 automobile tags will go on sale in Lamb County and the state Monday, February 1.

Workers in the office of County Tax Assessor-Collector Herbert Dunn reports the tags have been brought to the courthouse, from the highway storage department, where they have been sorted for the past several months.

For the first time in the history of the state, the tags will bear three letters and three numerals. The lettered prefix will be from BZZ to BZZ and CBB-CBC. The majority of the numerals will run from 10 to 999. The commercial and truck tags will not be changed in appearance and will contain two letters and four numerals. The county has received 9,900 passenger car tags, 2,900 commercial plates, and 2,650 farm truck tags.

Last year the county suffered a loss in the number of autos and trucks registered in the area. This year the tax office is expecting a gain, now that the auto strike has been settled and the area farmers have got their crops into market.

Commissioners' Court Pass Civil Defense Agency Plan

The Commissioners' Court of Lamb County, passed an order Tuesday creating a County Defense and Disaster Relief Committee.

The order also provides for an office of County Defense Coordinator and providing the duties and responsibilities of that office; Creating an operational organization; Granting necessary power to cope with emergencies threatening life and property in the County of Lamb; Authorizing cooperative and mutual aid agreements for relief work between this and other counties and cities.

The Civil Defense Committee headed by Lamb County Judge, J.B. Davis as Chairman and County Defense Coordinator, will include members from civic, business, industry, labor, veteran, professional and other groups to be selected by the County Judge.

Powers and duties of the committee will include recommendation for adoption by the Commissioners' Court of a Civil Defense Plan for Lamb County.

The committee will also make a survey of the availability of existing personnel, equipment, supplies and services which could be used during an emergency.

Under the order Judge Davis will join with mayors of cities in the county to form a civil defense plan and the appointment of a Civil Defense Director for Lamb County.

The operational civil defense and disaster relief organization will consist of the officers and employees of Lamb County designated by the County Defense Coordinator as well as all volunteer county defense workers. Their functions and duties will be distributed among divisions, services and special staff by the Commissioners' Court.

In other business the Commissioners' Court also passed an order prohibiting the digging of wells within sixty feet of a highway. It was asked for by the High Plains Underground Water Commission to assist in widening of highways.

IN EIGHTY YEARS

Cars, Highways and Habits Change

"Many changes have taken place in and around the city of Littlefield since I moved here on my 44th birthday," remarked J.E. (Preacher) Allen, who last week celebrated his 80th birthday.

Allen, an employee of Paul McCormick Service Station for more than 30 years, worked his regular 5 1/2 to 6 hours on his birthday, last Tuesday. Service station work is somewhat different now than it was when Mr. Allen first began working at McCormicks. The model T and Model A Fords and other cars of that era didn't require as much servicing as our modern cars. It wasn't necessary to wash windshields then, as cars wouldn't run fast enough to get bugs on them. Allen still recalls some customers getting angry when the first electric gas pumps were installed because they didn't think they were getting any gas. They were accustomed to gas pumps with glass tops that held 10 gallons of gas. As the gas went into the car, the customer could see the gas disappear from the glass tank.

Born in Rannels County, Allen moved to Littlefield in 1929 from Taylor County and very clearly remembers the rough dirt road between here and Lubbock. He said if you didn't waste too much time, you could make it to Lubbock in a half-day.

An active man for his years, always cheerful and friendly, and never critical, Allen is highly respected by all who know him. When asked to what he attributed his good health, he said "leading a quiet life." He has never smoked or drunk, and tries to get plenty of sleep. He thinks hard work is an asset to good health as it keeps you "toned up." He

intends to quit work when he feels he is unable to turn out an honest day's work.

Allen was a night employee for about six years, and only missed two nights that he was supposed to work out of 2,090. During these six years, he walked to work and home again, a distance of about 1 7/8 miles.

He well remembers one night when he was held up by two men. This was the only time he was robbed, but the same men robbed him twice in one night.

After the men made him, and a trucker that was in the station, hand over their money, they took them out near where Roberts Lumber Company is located and gave him what they thought was the empty billfold, and let them out. As they were walking back to the station the robbers came back by and asked him for the billfold. Unknown to them, or Allen, they had given him the billfold which contained all the money.

As most Littlefield residents well know, when it used to rain, there was quite a river near McCormicks. Allen said they made an end-gate to put in the door to keep out the water and they would stand with brooms sweeping the water, to keep from flooding the station. This was, of course, before the storm sewer was installed.

Before working at the filling station, Allen was a school teacher for five years in Taylor County, where he taught all ages, just anybody that wanted to learn. He also farmed some. Allen is quite well-known for his knowledge of the Bible.

Mr. Allen and his wife, now deceased, had two sons and

three daughters. They are: Austin Allen of Sacramento, Calif., Mrs. Olga Graham, Littlefield; Mrs. Omega Gilstrap, Littlefield; Faye Meadows, Amarillo; and Travis Allen, Arlington.

His father's '65 Ford rides quieter than his father's Rolls-Royce

We know it's hard to believe a Ford could ride quieter than the famed Rolls-Royce. But it's a fact. Leading acoustical consultants conducted tests in which three V-8 powered Fords (Galaxie 500 Sedan, new Galaxie 500/XL and LTD Hardtops) with automatic transmissions rode quieter than a new Rolls-Royce. The tests were certified by the U.S. Auto Club. Of course, the best test of all is to get behind the wheel yourself... and listen to a '65 Ford in action.

That's what Chuck's father did. Ford's quietness really impressed him. But it wasn't the quietness alone that sold him. He shopped around and found that Ford offers features and models and quality that simply aren't matched by other cars in its class. For example:

- 100% new body—strongest Ford body ever.
- New frame "tunes out" vibration.
- Decorator-appointed interiors in LTD's, thick nylon carpeting.
- More luggage space than in most competing cars—trunk holds four 2-suiters standing upright with room left over.

- Thrifty, quiet new Big Six—the biggest Six offered by any car in Ford's class... 289-cu. in. V-8 in XL's and LTD's
 - All automatic transmissions have three speeds, not two as in some competing cars—smoother shifting, more economy
 - Silent-Flo ventilation (in 4-door hardtops) provides fresh air in car with all windows shut.
 - Handy reversible key works either side up.
- There's more... much more in a Ford than you'd expect for the money. Visit your Ford Dealer and take a test drive soon.

TATE CAPITAL Highlights AND Sidelights

by Vern Sanford

Also, both plans would put parts of Dallas, Tarrant and Bexar counties with other counties to equalize district populations. This reshuffling would require some current congressmen to run against each other if they want to be re-elected in 1966.

Some legislators said they liked the plans, but many said they did not like them and that they expect plans by the individual members to be proposed as soon as introduction of bills begins.

TAX REVISIONS RECOMMENDED—Texas Commission on State and Local Tax Policy

has suggested methods of obtaining \$15,300,000 in new state revenue (per biennium) through a variety of tax revisions.

Commission said making sales tax applicable to telephone and telegraph service and other utility tax changes would pick up \$11,200,000; modernizing the inheritance tax, \$6,000,000; and removal of the sales tax exemption of farm machinery, \$9,000,000.

But not all the Commission's recommendations would mean more revenue. Losses would come from repeal of the theater admissions tax, \$1,200,000; repeal of the chain store tax,

\$7,200,000; and exemption from the production tax of gas used in field operations in the same field where it is produced, \$2,500,000.

Main purpose of recommended changes is "to achieve greater equity in taxation and greater ease in administration and compliance," said the commissioner.

GOVERNOR'S APPOINTMENTS—William E. Berger of Hondo was appointed by Governor Connally to a six-year term on the Texas Water Commission.

Berger replaces veteran H.A. Beckwith of Eagle Pass, whose

term had expired in 1963. Beckwith was named chief topographic engineer of the Commission.

Connally appointed Rep. Joe N. Chapman of Sulphur Springs, N. Chapman of the Eighth District Court of Hopkins, Rains, Delta and Hunt Counties, to replace the late Judge L.L. Bowman Sr.

Maj. Gen. Thomas S. Blahop and Brig. Gen. James D. Scott, both of Austin, were named to new terms as adjutant general and assistant adjutant general.

Connally reappointed W.A. Bond of Vernon, John R.

(Dick) Fowler of Memphis and Col. John Anderson of Denison to the Red River Authority Board and named William E. Rechner of Wichita Falls a new member of the Board.

Mayor Ted C. Connell of Killeen, a former national commander of the Veterans of Foreign Wars, was named to a four-year term on the Veterans Land Board.

R.C. Morgan of El Paso and Mrs. Bessie Heard of Houston were reappointed to the Credit Union Advisory Commission.

Lois Gray of Fort Worth to the Board of Trustees, Teacher Retirement System; Dave Smith of Austin to Board of Trustees, Employees Retirement System; and P.C. Naylor Jr. of San Antonio and Harold Chapman of Lubbock to Texas Real Estate Commission.

Gen. Aubrey L. Moore of Hillsboro was appointed director-at-large of the Tri-County Municipal Water District, composed of cities in Hill, Bosque and Johnson Counties, succeeding Jack Altaras of Cleburne.

Aluminum is the most abundant of metals.

TIN — The 59th Legislature faced with the heaviest load in state lawmaking eased into its second session with some top Senators representatives on the abate. A good many legislators took off for Washington and the inauguration of Lyndon B. Johnson.

The events highlighted the legislature's opening week. Ben Barnes of DeLeon elected Speaker of the House by acclamation. He is the youngest speaker named in reconstruction days.

Tom Creighton of Minnells was named president of the Senate, to succeed when Lt. Gov. Preston Smith is not present. In choosing Creighton, the Senators went to tradition when they passed over Sen. A.R. Schwartz of Austin, who was next on the city list. Schwartz has opposed door sessions.

Second \$3,500,000,000 budget, calling for an increase of \$300,000 in general revenue, was introduced in the Senate. Proposal calls for \$300,000,000 general revenue, compared to \$599,000 recommended by Gov. Connally.

Senate standing committees, Senate was thus organized ready for business on the first day of the session.

House, Barnes — whose leadership campaign had to be conducted in a few days due to expected appointment of ex-ear Byron Tunnell to the road Commission — concluded with members day and in an effort to speed committee appointments there.

Representatives drew priorities for bills. Both houses completed appointment of employees, other ordinary routine and marked before the big battles.

Despite controversial decisions to be made on congressional and legislative redistricting, big finance and other matters, Smith and Barnes expressed confidence the Legislature would complete its work within days. But some lawmakers aren't so sure.

LETTING BILL SHOWN — battle over whether Texas are going to bet on horse racing has begun again. This time Rep. Maurice Pipkin of Waville is introducing the track betting bill. Last session Rep. V.E. (Red) Berry of San Antonio couldn't get it through the Legislature.

Pipkin's bill would allow thoroughbred and quarter horse racing on licensed tracks. Also, the city, county, state could collect taxes on the track operators. Betting a track could be licensed in a county, voters in that county would have to call and approve a referendum.

The bill is backed by Texas Betting Association, which has raised more than \$150,000 from the most prominent men in Texas ranching and business. Supporting the association will be a group of businessmen being organized by the Texas Council Churches and the Texas Baptist General Convention.

Pipkin said the state would collect \$20,000,000 a year from a betting tax of from four to six percent on all bets and that state would get millions more from increased tourism.

One of the first men to speak in opposition, Rep. J.C. Whitfield of Houston, said, "The main facts are that legalized betting and gambling will not damage the moral fabric of our people, but that the revenues they bring in are more an offset by losses in other, more legitimate fields of commerce."

LIQUOR BILL INTRODUCED — A Texas Restaurant Association bill which would make legal selling of two-ounce bottles of liquor in licensed restaurants has been introduced.

Sen. Jim Bases of Edinburg handling it in the Senate and Rep. Willis J. Whatley is in charge of it in the House.

The bill would permit customers to fix their own drinks from the small bottles of liquor. This would go part of the way for those people who like to buy their liquor by the drink.

Church groups and others will oppose it.

REDISTRICTING PLANS — A committee of the Texas Legislative Council, which made up of representatives from both houses of the Legislature, has prepared two plans of congressional redistricting.

According to a Houston federal court order, the Legislature must redraw the present districts so that their populations will vary no more than one per cent from the mathematical average of 416,508 and they must do the job by August

Both plans would give South Texas a new congressman. They

would have a district from Laredo to South San Antonio and from Del Rio to Zapata.

Lions Conference Set At Lubbock

One thousand Lions, representing 57 clubs in District 2-72, will assemble in Lubbock this weekend for the two-day Mid-Winter conference.

Heading the program will be Herb Petry, chairman of the Texas Highway Commission, plus entertainment acts from throughout the area, including a full pledged circus directed by Go-e the Clown, and the popular folk singing group, "The Continentals."

Activities begin Saturday evening with the circus. All events will be held at the Ko Ko Palace.

Lovelaces Employed As Missionaries In Japan

In the spring of 1963 Rev. and Mrs. Beryle C. Lovelace spent "four glorious weeks" in Japan assisting with music for the Japan Baptist New Life Movement, a nationwide evangelistic campaign.

Soon they're going back to Japan for a five-year term of service. They were employed January 14 as missionary associates of the Southern Baptist Mission Board. Mr. Lovelace, now minister of music and education at First Baptist Church, Littlefield, will direct music at Kanto Plains Baptist Church, an English-language church located just outside a U.S. air base near Tokyo.

He and his wife applied to the Foreign Mission Board three years ago for regular missionary appointment but were not accepted because of health problems.

Both Mr. and Mrs. Lovelace are the children of Baptist ministers. Born in Levelland, he lived in Vernon and Morton, while growing up. She, the former Elouise Roberts, was born in Greenville, and lived in several Texas and Missouri towns during childhood, graduating from high school in Thayer, Mo.

Music is a major interest with both of them. He plays piano and accordion and she plays piano, organ, clarinet, and oboe. He became choir director for his father's church when he was a teen-ager and subsequently directed the music program of churches in Tucumcari, N.M., Okmulgee, Okla., and Dublin, San Angelo, Corsicana, Brownfield, and Dallas, Tex. (he also directed re-

ligious education for four of these churches). He has served with the Littlefield church since May, 1962.

Mrs. Lovelace, now a private music instructor in Littlefield, formerly gave private instruction in Dallas, Brownfield, and San Angelo, served as organist for churches in Corsicana and Okmulgee, and taught music in the schools of Wolfe City and Saltillo, Tex.

She also had summer jobs as youth director for First Baptist Church, Paris, Tex., and Vacation Bible school worker for the Sunday school department of the Baptist General Convention of Texas.

Both Mr. and Mrs. Lovelace studied music in Howard Payne College, Brownwood, where they graduated with bachelor of arts degrees. He also holds the master of religious education degree from Southwestern Baptist Theological Seminary, Fort Worth.

Married in 1952, they have two children, Byron Kent, 11, and Laura Beth, nine.

They were among four missionary associates employed during the January meeting of the Foreign Mission Board, bringing the Southern Baptist overseas mission staff to 1,903 (including 43 missionary associates).

Rev. Onstead To Preach In New Zealand Crusade

Rev. Norris Onstead, pastor of the First Baptist Church of Phillips, and son of Mr. and Mrs. L.D. Onstead of Littlefield, will participate in a nationwide evangelistic crusade to New Zealand in September. He will leave from Dallas September 7 and return September 28.

The Home Mission Board's division of evangelism of the Southern Baptist Convention has been asked to help enlist 100 Baptist evangelists and pastors from the United States to participate in a nationwide evangelistic campaign in New Zealand. New Zealand Baptists in their annual assembly voted to hold a similar evangelistic campaign in Australia in 1964.

Emil F. Lawson, associate

director of the division of evangelism, will be responsible for recruiting the evangelists from the United States who will participate. Onstead was one of those selected for this invitation. Lawson will spend at least two weeks in New Zealand in February working on details and plans for the campaign. There are 1.5 million people in the two islands of New Zealand and more than 16,000 Baptists.

No Southern Baptist missionaries serve in New Zealand, where British Baptists first began missionary work in 1851. The Baptist Union of New Zealand was formed in 1882 and is now self-supporting. Large-scale evangelistic crusades may prove to be the pattern for much of Southern Baptists' approaches to world evangelism. In 1963, Texas Baptists sponsored a crusade in Japan. The New Zealand crusade will be sponsored by the Home Mission Board of the Larger Southern Baptist Convention.

Rev. Onstead is a Littlefield native and graduated from Littlefield High School, Hardin-Simmons University and the Southwestern Baptist Theological Seminary in Fort Worth. He and his wife, the former Maxine Johnson of Littlefield, have one daughter, Janith.

High Plains Growers LABOR SAVING? See For Yourself!

Would you ever believe you could get 175-80 pound bags of fertilizer in just one TIDE Tilt-Box? You sure can. Count them. Using Tide's Tilt-Box you don't have to handle a single bag... simply open a gate and fill your fertilizer applicator in minutes. Labor saving? I'll say it is!

HOW TIDE'S TILT-BOX SERVES YOU:

Tide's TILT-BOX, pictured above, is an air-tight, all weather container. It keeps your fertilizer dry, fresh, and free-flowing. This TILT-BOX puts 14,000 pounds of fertilizer where you want it... at the most convenient location to the field and high enough to make loading any type of application equipment easy.

PRESCRIPTION MIX FERTILIZER

Tide takes soil samples from your land and send them to an independent testing laboratory free of charge, to determine exactly what your soil needs. Then your fertilizer is mixed from high analysis raw materials to fit your exact requirements. Because it is made "on order", your fertilizer is fresh, dry and free-flowing.

ECONOMICAL

Ease of handling fertilizer in Tide equipment reduces cost... saves time and labor. One man can fill an applicator or spreader with Tide fertilizer in 2 to 3 minutes simply by opening a gate.

With "prescription-mix", you buy only the nitrogen phosphate, and potash your soil tests shows you need. High analysis fertilizer cuts material handling costs. No bags to handle (unless you want it bagged) and storage is no problem, as Tide's Tilt-Box, holding 14,000 pounds, provides air-tight delivery and storage at the end of the row.

TIDE SERVICES

Tide grower services and products are planned to save time and labor... help take the guess-work out of farming. Agricultural Consultants, free soil tests, and Tide's custom-designed, weather-proof, delivery and storage equipment, cut your production costs. TRY TIDE... you'll be glad you did.

DORY FUNK, JR.

Texas Death Match Here

An old fire was rekindled in the Littlefield Sports Arena last Saturday night when big Art Nelson answered the challenge of "the boy", Dory Funk, Jr. Funk and Nelson had built a hatred for each other in earlier matches during the latter part of 1964. In fact, the final 1964 card had the two pitted in a Texas Death Match, but the death of Promotor John Usery caused cancellation of the card and the match was never held.

Funk entered the ring prior to last week's main event and asked Nelson to agree to reset the match. Nelson ignored the urging of young Funk, but later in the evening agreed to the match after being Funk around for interfering in Nelson's match with Jose Lathario.

Nelson lost last week's main event to Lathario in an odd twist of events, but both Lathario and the intruder, Funk, got the worst of the issue. Promotor Johnny Usery could see no reason for putting off the match any longer and has signed the two again for the fan-pleasing Texas Death Match. The match will be the main event of this Saturday night's card.

In a Death Match the referee stays outside the ropes and only enters the ring to count for a pin or to grant a submission hold. A rest period of 30 seconds is allowed before the contestants go at it again. Falls do not count, there can be no disqualification and the match ends when one wrestler is unable to answer the bell to continue the match.

The main event will be supported by two top notch battles. The semi-final scheduled for 2 out of 3 falls with a 60 minute time limit matches newcomer Sato of Japan against another newcomer to the territory, Don Curtis. Sato showed plenty of savvy last week in beating Billy Graham into submission in winning a short semi-final match with two straight falls.

Duke Hoffman will make a return engagement in the preliminary event when he battles The Lawman. This match is slated for one fall with a 15 minute limit.

You Can Always Depend on Mobil Products

"The business of a service station is to serve his patronage with prompt, courteous service, with quality products for dependability, safety, economy and give them the assurance that his work is well done. This makes repeat patronage," says Virgil Zoth.

Another thing that really counts is to give correct tourist information. As a member of the Triple A's, most information is available.

For the past 40 months,

Zoth has been running the Zoth Mobil Service located on Highway 385 and 84, Littlefield. Here you find everything a first class, one-stop service station, affords including clean rest rooms, washing and greasing facilities, tires, batteries, in fact, most automotive needs.

Zoth also fixes both car and truck tires, does minor motor adjustments and if car trouble is beyond his scope, he will get someone that can do the job for you.

"Service with a smile is his

slogan'. To keep a car on the road is his main objective.

Zoth Mobil Service is open 24 hours every day. His attendants are experienced, willing and obliging workers no matter what hour you drive to his location. The treatment you receive is the kind that you will like. Again the address is Highway 385 and 84, phone 385-6974, Littlefield.

SAVINGS BOND SALES

Savings Bond sales for the first eleven months of 1964 totaled \$177,827 in Lamb County. Of this amount \$33,012 were purchased during the month of November according to Mrs. C.O. Stone Chairman of the Lamb County Savings Bonds Committee.

During November Texas purchased \$11,577,054 in Series E and H Savings Bonds. This represents a 9.6% increase over the same period last year. Cumulative sales for eleven months of 1964 amounted to \$135,945,497 which is 90.6% of the state's goal of \$150 million.

"A good habit to get into during the new year is buying U.S. Savings Bonds regularly -- buy one a month at \$7.50 and you'll have \$90.00 a month coming back when the bonds mature," Chairman Stone stated.

Open House Slated For Methodist Sanctuary

Earth Methodist Church will have its formal opening service of worship in its new sanctuary Sunday, Jan. 24.

The church has 285 membership—Congregational has erected an additional present education building, which consists of 6 classrooms, a fellowship hall, kitchen, parlor, chapel, choir room, pastor's study and a sanctuary which will seat 385 with an additional choir seating of 36.

The first service will be conducted by the pastor, Albert F. Lindley, with Dr. J.E. Shewbert, Plainview, District Superintendent, participating in the Service of Consecration.

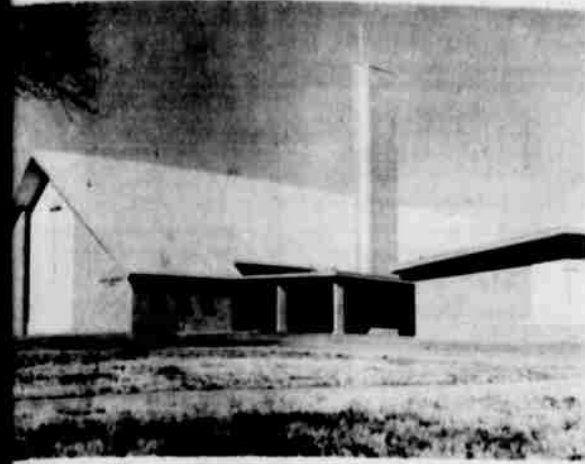

The service will begin at 10:45 a.m. in the old Sanctuary and the worship service will include the processional of the congregation into the new Sanctuary just west of the present building.

The \$153,000 addition is the culmination of plans and prayers for some years and will provide a plant that will be capable of meeting the needs of the church program for some time to come.

Open House of the new structure will be held at 3 p.m. with the Chancel Choir, in a short service in the new Sanctuary Sunday.

This will precede the refreshments and a tour of the building for those in attendance.

Everyone is most cordially invited to the activities of this day at the Earth Methodist Church, Earth.

Witness to Attend Three Day Convention in Hobbs

The Littlefield congregation of Jehovah's Witnesses is canceling all meetings January 22-24, so that all members can attend a three-day convention in Hobbs, N.M. The convention is to be held in the high school cafeteria building, which will be used as a huge Kingdom Hall for this occasion. Mrs. Loyd Lowery, spokesman for the group, said they will assemble with delegates from sixteen congregations from the three states of New Mexico, Oklahoma, and Texas. An attendance of more than 500 is expected.

PCG Mill Tour Set for Feb. 16

Arrangements are now complete for a highly educational and interesting tour for High Plains cotton producers and allied interests. The tour, sponsored by Plains Cotton Growers, Inc., will take area residents through a variety of textile mill operations in the Spartanburg, S.C. area.

All groups and individuals in this area interested in making the Plains Cotton Growers Mill Tour are asked to contact Mencil Hall or Joe Montgomery of Littlefield.

The tour will leave Lubbock at 9 a.m. Tuesday, Feb. 16 by chartered plane and arrive at Greenville - Spartanburg Airport at 2 p.m. the same day. Various industries and mills will be toured Wednesday and Thursday and the plane will leave the airport at 4:30 p.m. Thursday to return to Lubbock.

In the past, these tours have been a tremendous success and it makes an impression on textile men to see producers interested in the processing of their cotton. Among those attending will be ginners, compress men, members of Chambers of Commerce, Vocational Agriculture teachers, young farmers, etc. Wives are also welcome to attend.

a regular part of an advanced ministerial training program for the Witnesses and others interested in the Bible. Special attention will be given to help all present to appreciate and accept Christian responsibilities, both toward themselves and toward all other persons interested in the worship of God.

One of the principalspeakers on the program will be Harry A. Fetzik, from the world headquarters of Jehovah's Witnesses in Brooklyn, N.Y. On Friday, January 22, he will open the convention on the assembly theme, "Speak the Word of God With Boldness." Sunday he will deliver the public address entitled, "Our Divided World—Is It Here to Stay?"

A&M Economist Reviews 1965 Outlook For Cotton

Cotton growers of Texas and the nation will add an estimated 600,000 bales to the carryover on August 1, 1965. This, points out John G. McHaney, Extension economist, Texas A&M University, will bring the national carryover to 13 million bales, the largest since the record carryover of 14.5 million bales in 1956.

And, continues the economist, the large 1964 crop will likely offset the high disappearance expected during the period from August 1964 to July 31, 1965. Lower net costs of upland cotton to domestic users, resulting from legislation enacted last April, were cited as contributors to the expected domestic use of 9.7 million bales during the present crop year of 1964-65. This is 1.1 million more bales than were used in 1963-64 and the largest domestic usage since 1950-51.

Per capita mill consumption of cotton for 1964 shot up about 5 percent from 1963. But, points out McHaney, cotton's share of the total fiber consumption showed a slight decline to a low of 55 percent. U.S. exports of upland cotton for the 1964-65 season are expected to total 5.2 million bales, compared with 5.7 million for the 1964-65 season but above the average for the past four years. McHaney believes exports will hold at the high level due to the continued upswing in foreign free world consumption. But, he adds, foreign free world cotton production for 1964-65 set a new record and thus, will make more competition for U.S. producers.

Farm prices for cotton in recent months have been trending downward to reflect the 2.5 cents per pound reduction in the 1964 support price. For the 1965 crop, the basic support price for middling 1-inch cotton, gross weight, at average location is 29 cents per pound. Farmers who plant within their domestic allotment will be eligible to receive an additional payment of 4.35 cents per pound on their farm's normal cotton yield, as determined by the county ASCS committee. The national acreage allotment for the 1965 crop of upland

cotton has been set at the statutory minimum of 16 million acres.

Dropout Is Cause For Concern

Three million of the nation's young people between the ages of 16 and 19 have become school dropouts. Although this alarming number is cause for concern, nevertheless, the rate of dropout has decreased from 41 percent to 30 percent since 1950, says Patsy Reynolds, Extension Service specialist in family life education.

The term dropout doesn't bring pleasant pictures to mind. Many people often associate the colloquial term with juvenile delinquents. Yet the boy or girl who becomes a dropout may be a nice young person — just bewildered, unsure of himself and his goal in life, the specialist says.

Many youngsters face the decision of whether to leave school or continue before they are old enough or experienced enough to decide wisely. The process

which leads to a student leaving school is a long one—and it is affected by the student, his family and his school. "Youngsters need guidance and encouragement from their families and school officials. Many people must share the blame for a school dropout. We have made much progress in reducing the dropout rate—but 30 percent is still far too high," Miss Reynolds says.

While money to stay in school will help curb dropouts in some instances, yet people who care what happens to a youngster can help even more, the Texas A&M University specialist adds.

1964 TEXAS COMMERCIAL VEGETABLE PRODUCTION VALUABLE — Value of commercial vegetables produced in Texas last year totaled \$99, 808,000, says the Texas Crop and Livestock Reporting Service. An increase of \$245,000 over 1963. Leading crops in value of production for fresh market were carrots, onions, Irish potatoes, cantaloupes, watermelons, lettuce and cabbage.

Conservation Practices Urged Now

"Now is the time to do or plan such conservation practices as terracing, construction of water ways, land leveling or diversion construction," says Edward Mitchell, chairman of the Lamb County Soil Conservation District, (L.C.S.C.D.) Board of Supervisors.

Money Available For Conservation Programs

The 1965 funds are available to farmers and ranchers for the Great Plains Conservation Program. Lamb County has been one of the leading counties in Texas in participating in this program. County farmers and ranchers are finding in the program a faster and less costly way of solving erosion problems and making yields and income more dependable.

The Great Plains Conservation Program is a voluntary one. Its core is a complete soil and water conservation plan, based on the soil, the plant conditions, the available water and on the problems and needs of the farmer or rancher. There are several practices and alternative treatments for each land use; cropland and pasture, both dry land and irrigated, and on rangeland. Cost-share rates from 50% to 80% help apply a complete farm and ranch conservation plan at a stepped-up pace.

The program is a long-term contract that guarantees cost-sharing to complete his conservation plan. It is especially suited to the man who depends entirely on farming or ranching for a livelihood. He can get up to an average of \$2,500 a year as the Government's contribution in cost-share payments for work on his farm or ranch.

The minimum contract period is three years, the maximum 10. The contract can be modified to meet changing conditions. The Program makes use of help from other programs, agencies, and organizations at County, State, and Federal levels.

For additional information and application for participating in the Great Plains Conservation Program contact the local Soil Conservation Service.

CONSERVATION MEASURES—Vegetated water way in foreground with level open end terraces emptying into it, on a farm located 3 miles south of Sudan.

prevent any gullies in the field. Terraces are built so that they break up the water shed of the field slope and either store the water in the soil or let it flow off the field at a controlled rate to a properly prepared outlet. At the present time there are more or less two types of terraces. They are the standard field terrace and the parallel terrace, which can be level or graded, whichever will fit the system best. The construction of both have the same specifications. The difference being, the standard terrace is laid out on the contour with some straightening out of short curves, while the parallel terraces are laid out on the contour with some variation in elevation along the baseline and is corrected by doing some earth moving on the base and channel line to prevent ponding. By doing this the terraces can be built parallel to one another eliminating point rows and making farming them much easier.

Mr. Mitchell stated that he found out from talking to farmers who had terraced dryland this year the terraces were the difference in a fair cotton and grain crop and no crop.

All of the LCSCD Board of Supervisors urge anyone who has land that needs any kind of conservation treatments to contact the SCS personnel and discuss and plan the need with them. They will give you guidance and assistance in planning, layout and what assistance can be received for the practice.

Big travel bargain for cities along Santa Fe

It's Chico Bargain Fare time again on the Santa Fe—through April 30, 1965.

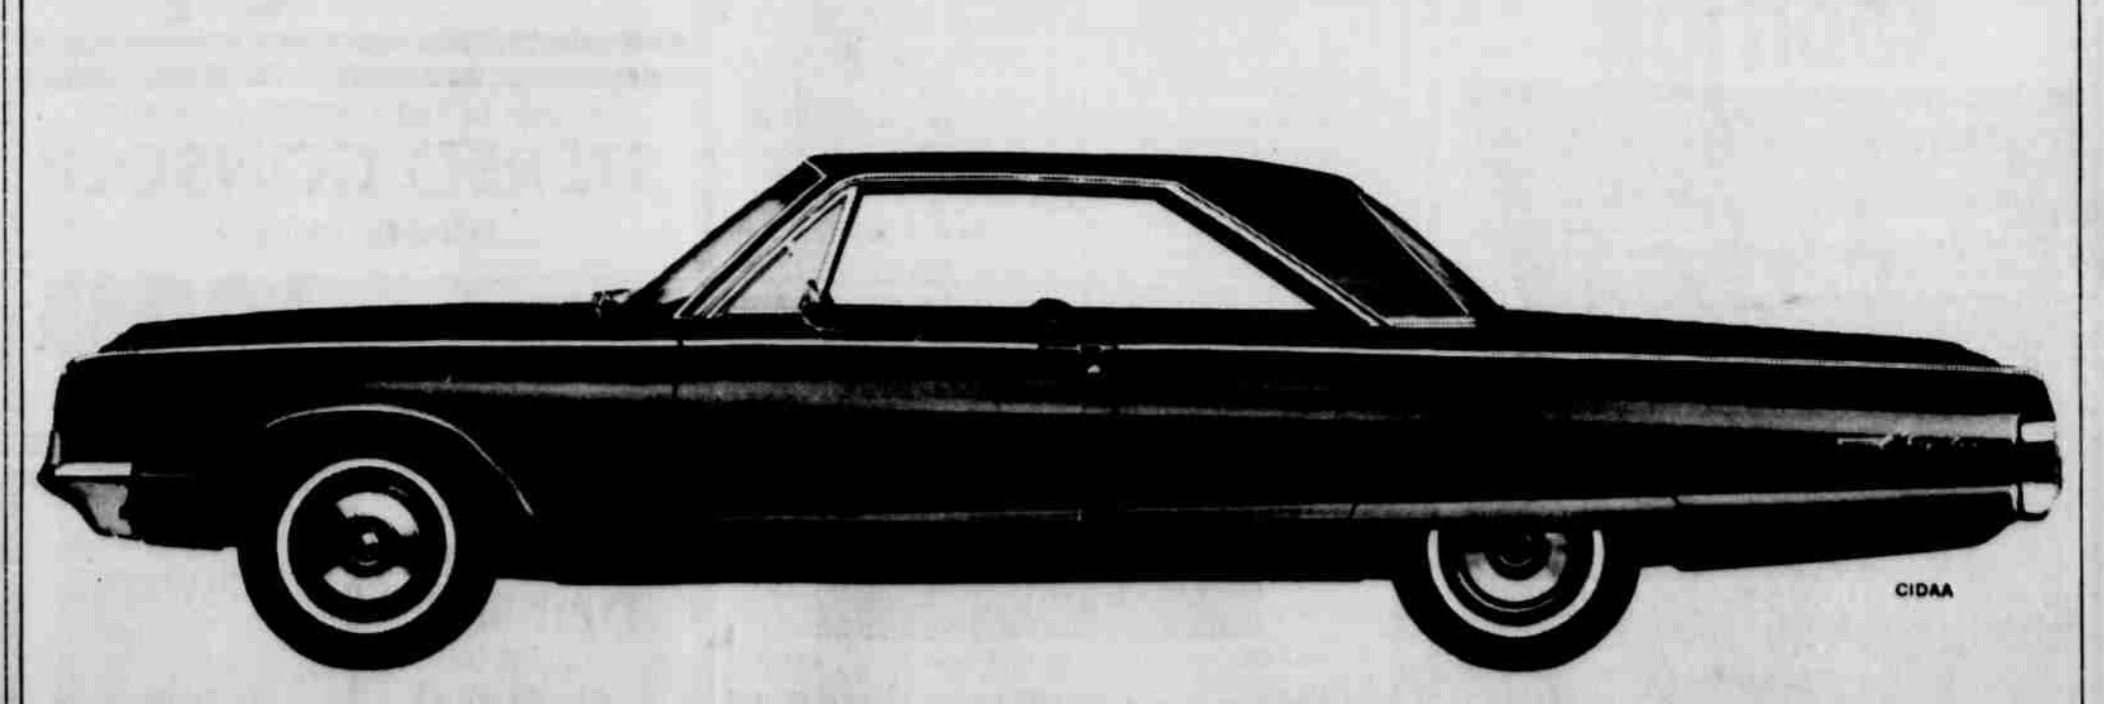

For example, a regular round-trip ticket costing \$100 will be sold at the off-season bargain fare of \$80. Round trips costing \$75 now will be only \$60, and similar reductions will apply for round-trip tickets from all stations except for local trips within the State of California.

No matter where you travel on Santa Fe trains, round-trip bargain fares will save you approximately 20%. Tickets on sale every day with a return limit of 30 days. Yes, bargain fares apply for both round-trip coach and first-class tickets.

Now you can leave the car at home and save money traveling by Santa Fe.

See the Santa Fe Agent in your home town for complete information

See us. We deliver: the one big car that's all big car.

Every Chrysler we sell is big. Full size. One size. The right size. With no half-pint editions to dilute your investment. Every Chrysler we sell is a mover. Even our lowest priced models have a 383 cu. in. V-8 — that runs on regular gas.

And note this point. Almost half of the 1965 Chryslers are priced only a few dollars a month more than the most popular smaller cars comparably equipped. That figure includes power steering, power brakes, automatic transmission, radio and heater. Want to make a lot of car sense? Move up to Chrysler. It's easy.
