In regard to his bill allowing

juvenile court judges discretionary powers over whether juvenile court or adult court will try a juvenile's case, the Senator said it would clamp down on flagrant offenders, but would not affect the average juvenile.

He said there are numerous delinquents who feel an im-munity from the law by virtue of their age, since penalties as-sessed in juvenile courts are light and probation is relatively easy to achieve.

Spears thinks his bill would act as a deterrent to juvenile crime because the punishment of adult court is more certain. With the knowledge in mind that he can be punished as an adult for repeated felonies or for a crime of a serious nature, the juvenile is less likely to contemplate the crime," he said.

The bill contains two checks on the process: If the juvenile judge decides to transfer jurisdiction, the district court judge must sit as an examining magistrate and agree that the transfer is in the best interests of the child and society. The grand jury must then make the same

Either the district court judge or the grand jury can return the case to the juvenile court; or, finding no probable cause for believing the child committed the alleged felony, may throw

## Cemetery Water Bids To Open

The Littlefield Cemetery Association will hold a meeting Tuesday night March 9 to aprove bids on the water system

for the cemetery.
In November, plans of the cemetery were drawn up and distributed to water sprinkler companies for bids on the project. The bids have been re-turned and a decision will be

reached at the meeting. Mrs. Maud Street, association spokesman said that the pro-ject has reached a point where water is a necessity. "We have seen much improvement made in the condition of the cemetery but now, unless more funds are received to complete time for spring care a great deal of the work done by many volunteers will have been wasted."

## 1965 Feed Grain Program Sign Up Now Underway

Signup for the 1965 feed grain program is now underway in the ASCS county office, and will continue through March 26. Program for 1965 is basically the same as last year. It is voluntary, and combines corn, grain sorghum and barley in a single feed grain base. Participating farmers will qualify for diverted-acre and price-support payments, and will also be eligible for price-

support loans.
Farmers who participate in the program may divert for payments as small an acreage as 20 percent of the farm's feed grain base or as large as 50 percent of the base or 25 acres, whichever is larger.

Two rates of diversion payment are offered. The lower rate applies to the first 20 percent of the feed grain base actually diverted. The higher rate applies to diverted acreage in excess of the minimum. If both the intended diversion and the acreage actually diverted are equal to at least 40 percent of the base, the higher base applies to the entire acreage diverted.

New provisions in the 1965 program include an opportunity to substitute feed grains for wheat or wheat for feed grains by growers who take part in both programs, and (2) a spe-cial provision for designated varieties of malting barley.

Under certain situations, producers may apply to over plant their barley base acreage by 10 percent. A producer electing this option will be el-igible for the full count barley support rate, based on a national average of 96 cents per bushel, but he will not be eligible for barley diversion or price-support payments.

## Surprise!

Even experienced Cadillac owners find themselves unprepared for the quality of Cadillac performance in 1965. The car is unbelievably smooth, steady and quiet in operation.

No matter how many Cadillacs you may have ownedor admired - this newest version of America's favorite luxury automobile is a revelation to drive! Cadillac's big V-8 power is so quiet that some first-time drivers find it difficult to believe. With its newly refined Turbo Hydra-Matic transmission, the flow of power is incredibly smooth. And Cadillac's entirely new frame and suspension tackle

the roughest road with such composure you can scarcely sense you're off the turnpike. To complete your driving pleasure, Cadillac for 1965 also provides such exclusive accessories as the tilt and telescope steering wheel that adjusts to your exact desire. If this is your year to enjoy motoring satisfaction in the grand manner, drive a Cadillac and discover what quality performance really means!

HIGHLIGHTS AND SIDELIGHTS Gov. John Connally's top leg-islative project -- creation of a powerful coordinating board to control state colleges and universities -- apparently is headed for early enactment.

Bills to establish the board breezed through Senate and House committees to floor claendars without direct attack after members of the Governor's Committee on Education Beyond the High School testified for

Quick and easy committee approval contradicted early rum-bles that establishment of the strong central board would meet rigorous opposition in the Legislature.

It seems that opposition, if there is to be any, will be con-fined to specific details of the bill and not to the overall pro-

If enacted, the 18-member coordinating board would have broad powers over all aspects of higher education in Texas-junior colleges, as well as senfor institutions.

It would have the final word on launching or eliminating college degree programs, control the addition or deletion of courses, develop future plans for higher education and pass on proposals to create new senior colleges.

It would supplant the existing Commission on Higher Education, although members of the commission would be eligible

for appointment to the board. Said Governor Connally: "I am very pleased with the action of the two committees. This reflects what I have said all and fences has been overrated along -- that there is a great will and desire on the part of the Legislature to make some real strides toward excellence noise control is to soften the in higher education."

Rep. Dick Cory of Victoria is handling the bill in the house and Sen, Bill Moore of Bryan has it in the Senate.

WOMEN'S RIGHTS DEBAT-ED -- Legislative committees set aside another Ladies' Night to hear a familiar debate -should the state constitution be amended to insure that no legal rights be "denied or abridged

because of sex?"
Without even hearing arguments for or against, a Senate panel quickly agreed that the amendment should be submitted

to the voters. On the other hand, the House committee listened to hours of testimony. Most of it was in opposition to such an amendment. The State Bar ard spokesmen for university law schools

led the opposition. Opponents claim the amendment goes too far and would "open a Pandora's box" of future litigation. Specific statutory changes were recommended as preferable for correcting such

discrimination as might exist. Spokesmen for the women's groups, who have stubbornly pushed the amendment, retort with considerable conviction; after all these years of talking about giving women full powers to manage their property and

other rights long denied them, little serious effort has been made to repeal the discriminatory statutes one at a time.
POOLING BILL NEAR PAS-

SAGE -- Although subject to bitte r legislative controversy two years ago, the oil and gas lease pooling bill cleared the Senate with no more than a hand-

ful of dissenting votes.

There was practically no floor discussion on the bill which is backed by Governor Connally and Lt. Gov. Preston Smith, as well as most oil and gas interests.

its House companion landed in a friendly sub-committee after an extended hearing.

Bill would authorize Texas Railroad Commission to prescribe requirements for owners of small tracts to pool their interests for oil and gas drilling purposes when they cannot

get together voluntarily.

Among opponents of the bill were members of the Texas Farm Bureau and local farm bureaus in oil counties which have had small-tract problems.

C.H. Devaney of Coahuma. TFB preisdent, asked the committee to consider the oppos-ition to the bill "in the light of the fact that an overwhelming majority of our member families are landowners and that the Texas Farm Bureau probably represents the largest single group of landowners in any orgainzation."

Devaney read a policy state-ment saying in part, "We oppose any and all legislation that would deny the landowner or mineral owners the American tradition of freedom of choice.

Free choice remained the central issue as the measure went on House and Senate calendars. Opponents called the measure "compulsory unitiz-ation" and "land collectivism." House sponsor, Rep. Wayne Gibbens of Breckenridege, said

it is intended "to encourage voluntary pooling." PERMIAN RATE CASE AR-GUED -- Three top Texas officials entered personal protests before the Federal Power Com-mission in Washington of gas rate findings for the Permian Basin area of West Texas and New Mexico.

Governor Connally, Atty Gen. Waggoner Carr and Railroad Commissioner Jim Lang-don argued egainst approval of an F.P.C. eraminer's memorandum recommending a rate range of 10 cents per million cubic feet to 16.75 cents per mcf. State contended single price of 20 cents per mcf would be more reasonable and forward-looking.

Adoption of the examiner's findings would be a serious economic blow to the state. It would result in a tax loss of \$4,500,000 a year, officials contended. They pointed out that 4,700,000 acres of land belonging to the University of Texas or the Permanent School Fund are located in the vast Permian Basin. Income to the university and the public schools, in ad-dition to substantial amounts of

taxes, depend heavily on gas prices. Similar hearings, Carr reported, already have begun in the Gulf Coast and East Texas fields. Hearings begun in 1961, now cover 35,000 pages of testi-

COMMITTEE ON AGING EN-DORSED - Senate State Affairs Committee gave its blessing to establishment of the Governor's Committee on Aging as a per-

manent organization.
Sen. Walter Richter of Gonzales, chairman of the present committee, is author of the Senate bill to set up a nine-member panel aided by seven state officials and executives dealing with problems of aging. Committee now is trying to get programs going for senior citizens in every county.

COURTS SPEAK -- Third

Court of Civil Appeals agreed with the trial court that the cigarette distributor's permit of a Houston dealer of participating in a fraud scheme which cost the state an estimated \$4,200,000 should be revoked. Comptroller Robert S. Cal-

vert cancelled the permit of the House of Tabacco (headed by Mair J. Schepps) last October. Trial of Schepps and six others is scheduled for May 3 in Aus-Same court heard arguments

WITH FURCHASE OF 2.50 OR MORE

Fancy. But not too fancy. Just enough to make your friends think you've found oil in the basement. You may think so, too, when you get acquainted with Buick's V.6-the best thing that ever happened to 6 cylinders. Its 225 cu. in. delivers 155 h.p., without delivering you to the gas station all the time. As to the plain, homely price: you'll find it looks restful in the family budget. We design the Buick Special so you can drive a Buick and still enjoy the other good things in life. See your Buick dealer. Remember: a Buick for only \$2343.00°. That's the plain, honest (inspiring) truth.

Plain price: \$2343.00

See your local authorized Buick dealer-

"Manufacturer's suggested retail price for Special V-S S-dr. coups. Price includes Penbral Excise Tuz and suggested dealer dulivery and handling charge (transportation charges, accessories, other eptional equipment, state and beal taxes additional).

Wouldn't you really rather go first class?
