Asst. Secretary of State Will Come To Sudan For '54 Fall Festival

Mahon Says He Will Be There

SUDAN—Officials of the Sudan Fall Festival have announced that U.S. Asst. Sec. of State, Thurston Morton, will be principal speaker at the annual festival to be held Sept. 11 this year.

Preparations for the festivities are going full speed ahead following a meeting of the festival committee when Sudan Civic and social organizations were given assignments.

A committee composed of representatives of different clubs will assign countries of the United Nations to various Sudan business firms. The committee is composed of Mrs. Bob Mastri of Epsilon, Sigma Alpha sorority Mrs. Doyle Watkins, Tuesday Study Club, and Mrs. Forrest Ferguson of the 1950 Study Club.

The 1953 Study Club will have charge of the "Parade of Nations" pageant as in the past two years. Mrs. E. J. Stone is president of that club. Serving on the parade committee will be Mrs. Edgar Chance, Mrs. R. S. Galloway and Mrs. J. T. Lybrand. Reed Markham will assist them.

C. O. Gregory, Superintendent of schools, was named chairman of the band committee. Invitations will be sent to area bands in order that they may participate in the festival parade.

The festival committee named Mr. and Mrs. J. W. Miller to secure an organist and Herb Potter and Noel D. Lumpkin a committee for securing a loudspeaker.

Sudan and area residents will be called upon to fill permanent committee places. Those who wish to volunteer their services may contact either of the chairman, Drew Watkins or Joe Salerni.

Olton Chamber of Commerce held a meeting August 15 in which they discussed the possibilities of bringing new industries to the town of Olton. Letters were to be mailed by Secretary David Maxey to industries telling them the possibilities in Olton for new industries.

Vanderpool Says Pioneers Must Pave Way Through Sunset Years

The Rev. Harry Vanderpool, in a speech to the Lamb county Pioneers Tuesday afternoon, said, "We must not be content just to look backward, we must also look forward."

Using the setting sun as a symbol of looking forward, he said, "There is nothing more beautiful than God's sunset."

He told the gathering of over 25 old-timers that "a pioneer is a foot soldier, one who digs out or opens the way for others. When we think in terms of ourselves, we've lost the spirit of pioneering. The youngsters still need the pioneers to open the way through the sunset years."

Before pointing out the steps in the "west road" or in the future for the pioneers to take, Vanderpool looked backward down the "east road," recalling the days when Littlefield's first school, a subscription school, was established in 1913.

### Reserves Offer Best Method

There seems to be a new policy developing with regard to the military reserve forces. They are beginning to get some training instead of just getting in uniform once a week, sitting around for a couple of hours and going home until next week.

A determined effort is apparently being made to create reserve units which could actually move into action on short notice and know what they were doing.

This is a good idea. It looks as if we are going to have to coexist with international gangsterism for a long time. We cannot maintain huge standing military establishments, produce all the needed weapons and keep improving our standard of living, all at the same time. But we can make plenty of military goods and plenty of consumer goods too if nearly all of our people are at home working.

And it is quite possible that once he has received his basic training, a soldier can get about as much training in those few hours a week as he would in the average week of full time military duty. Every vet knows how high a percentage of a soldier's time is utterly wasted, and how much more is spent in housekeeping, feeding, record keeping, guard duty, etc. It is doubtful that more than ten percent of the duty hours of men in the armed services is spent in actual training for combat.

We must keep a well equipped, well manned airforce and army to guard us against sneak attack and handle the first days of combat, but for any prolonged war, where large numbers of troops are needed, we will be much better off to rely on a good reserve program. If the soldiers are living at home they can feed and clothe and house themselves and at the same time produce the weapons which must always be ready.

Without a good ready reserve we must either be dangerously unprepared or carry a burdensome military establishment forever. The decision in favor of the reserve method is wise one.

### Humphries Well Swabs 8 to 10 Barrels Per Hour

It took a lot of acid to get it loose but oil was being swabbed from the Noah Humphries No. 1 Wednesday at the rate of 8 to 10 barrels per hour. Considerable acid water was being produced along with the oil. The well was first acidized on Saturday with 500 gallons of acid mud. On Sunday 2000 gallons regular acid was pumped into the formation. The next day the well swabbed a little less than three barrels per hour, so another 3500 gallons of acid was applied on Tuesday and the increased oil production resulted. The well is being operated by Hall & Stewart Drilling Co. on a "shoot-out."

### Rainfall Varies from 1.46 To 3.46 Inches in County

Rainfall this weekend ranged from 1.46 inches in Littlefield to 3.30 inches in the north west part of the county, according to county agent Dave Eaton. The Enochs area has received about 5 inches of rain in the last two weeks, about 3 inches of which fell last week end, according to members of the community. Paul Lewis reported 3.30 inches on his ranch near Bull Lake and 2.30 inches south of the ranch toward Pep. North of Springlake, 1.40 inches were received and Spade received 7 inches. Eaton said, "The rain was a good, general one that can't help but improve the land." He added that he has received reports of the appearance of the spider and the cotton bollworm has begun to make an appearance. He suggested farmers check terminal buds every three days for the bollworm and if they find three to four worms per

100 terminals and some eggs, then the condition warrants control.

He said farmers can use DDT for control of the bollworm, but if used alone it will tend to build up infestation of the spider mite. He suggested that if the farmer wants to control both he use 2-1, DDT and DDT.

## It's The Law In Texas

With the death-laden Labor Day weekend and the usual series of football weekends coming up, the thoughts of many Texans are turning toward traffic safety. There can be no doubt but that a better acquaintance among drivers with the "rules of the road" and other traffic safety regulations could greatly reduce the death toll of our highways.

To obtain correct and authoritative information about driving is a simple matter. A letter or postcard to the Department of Public Safety, Drivers License Division, Austin, Texas, will bring an official publication, the "Texas Driving Handbook", to anyone who requests it.

Aside from considerations of personal safety, proper driving habits and observance of traffic laws will help prevent financial loss. This is true in spite of the fact that most people now carry liability insurance as a protection under the Texas "Driver's Responsibility Act." Jury verdicts in personal injury cases tend to go higher and higher, and the likelihood of suffering an adverse judgment for an amount in excess of the limits of your liability policy is ever present.

Fault, or liability, is determined by particular facts of an accident. In Texas the law is in several forms—the statutes as enacted by the Legislature, the ordinances of each city and town, and the court decisions in cases similar to the one to be decided.

A negligent or intentional act is necessary in order to impose legal liability for damages. Where both parties to an accident are negligent, the court will very likely say that both are at fault, and that each must pay for his own damages.

Two of the most important legal rules pertaining to accidents are those having to do with "proper lookout" and "proper control." Driving in a lawful manner and complying with all ordinary traffic rules is not always sufficient. In addition, the driver is expected by law to be alert to all that is happening around him.

If an accident should occur and the driver has not been alerted to keep a proper lookout—he may be charged with "improper lookout" as a traffic violation and also held liable in damages to the other driver. The courts call a "proper lookout" such a lookout as a reasonably prudent driver would have kept under the same circumstances.

Of equal importance is the rule of "proper control." This rule means pretty much what those words imply—that the driver should have his car under such degree of control as to be ready for any emergency as might arise. It may be breached even though no violation of ordinary traffic laws is involved.

For instance, a driver may be complying with the legal speed limit but still be driving at a rate of speed which is unsafe under the existing circumstances.

Even though legal speed limits are expressed in terms of a certain number of miles per hour,

## Castillo Charged With Murder In Death Of Garcia

Two men have been arrested by the Lamb county Sheriff's office following two separate altercations near Amherst and Olton. One of the incidents resulted in the death of Juan Garcia, farm laborer of near Sudan.

Garcia died Sunday morning early after he was shot on the Glenn Batson farm near Amherst. County Attorney Curtis Wilkinson said Garcia appeared at the Amherst G. Castillo home at the Batson farm about 5 a.m. Sunday. Some words took place between Garcia and Mr. and Mrs. Castillo and Garcia was shot with a .22 rifle.

Castillo told his employer what had happened and asked him to contact a doctor and the sheriff's office. When Sheriff Dick Dyer arrived, Garcia had been taken to an Amherst hospital, where he died at 4 a.m.

Wilkinson said Castillo has been filed on for murder before Justice of the Peace G. S. Glenn, who set bond at \$100. Bond was posted, returnable Sept 13 when Grand Jury meets to consider the case. Examining trial was waived.

The deceased, Juan Garcia, is survived by his wife and five

## Hollands Are At Home In Olton After Wedding Trip

Miss Juanita Dudley of Plainview exchanged wedding vows at 8 p.m. August 15 with Nolan Holland of Olton. The Rev. Ernest T. Godwin pastor of the Southside Assembly of God Church of Plainview performed the double ring ceremony in the home of the bride's parents at 2618 Wood Ave. in Plainview.

The bride is the daughter of Mr. and Mrs. A. H. Dudley of Plainview and Holland is the son of Mrs. Florence Stears of Olton.

The bride, given in marriage by her father, wore a white length gown of white lace over satin. The full skirt was gathered into a be-dice designed with high neckline, cap sleeves and tiny buttons down the front.

Her hairdress was white and she carried a bouquet of red roses atop her Bible.

Miss Louise Dudley of Plainview attended her sister as maid of honor. The bridegroom's brother, Maryin Holland, served as best man.

Alter decorations included greenery and white bask containing gladioli.

The couple is at home after a wedding trip to Colorado at 402 Avenue D in Olton.

Mrs. Holland, who attended Plainview high school, is employed as bookkeeper for Fry's store in Plainview. Holland who attended Olton high school, is bookkeeper for the Springlake Co-op Gin company.

## Littlefield Girls Return From Summer Trip To Hawaii

by Mrs. Boyd Roberts  
Kay Hendricks and Diane Hall returned to Littlefield recently from a trip that every young girl dreams of taking. They have spent the summer in Honolulu attending the University of Hawaii and swimming, sun bathing, surf board riding, and trying their skill in the outrigger canoe on Waikiki beach.

The girls, Kay, who is the daughter of Mrs. Wilda Fowl and Diane, who is the daughter of Mr. and Mrs. Mancel Hall, made the trip with about 70 girls in a touring study group. Their resident island during their stay was Oahu, which is one of the seven major islands that Honolulu is made up of. The group lived in a section of connected apartments that were just two blocks from Waikiki beach.

One of the highlights of their trip was dinner in a Japanese tea garden. They wore kimonos and ate with chop sticks and of course, they removed their shoes at the front door. Their meal, served in four courses, was cooked by the Japanese right beside their table.

Diane took a side trip to the main island of Hawaii, and toured the island as made up of orchids and volcanoes. Diane and Kay also took a trip to the island of Kauai, which is known as having the greatest rainfall in the world.

The girls were impressed with the mixture of views on the islands and at the University. They also added that the dress of the islands is very informal and the climate is perfect. Diane brought home a orchid plant from the islands.

While they were there, they toured the Dole pineapple factory, a sugar mill, and a plantation.

Another special event of the trip was a formal dinner dance that was given for the touring group in the Royal Hawaiian hotel.

They flew over on the United airlines and came back by the Lurline. They also added that the food on the ship was wonderful and that they had a marvelous time.

Available for both SP and Pull-Type. The attachment moves the guards and sickle forward, with an upward tilt, so that the maize heads will fall onto the platform without hitting the auger and will slide back under the auger. Movement of the sickle will not work them off onto the ground.

BUILDING MATERIALS AND SERVICES

Johnny Palmer doesn't play out of Charlotte, that's just his home. Had difficulty finding members of the gorgeous Charlotte Country Club and the wealthy Myers Park Clubs in Charlotte to call out permission for me to play there. Maybe it is best that I didn't get to play at Charlotte Country Club. I might have hit a swan in the head on one of the many lakes and I know I couldn't do anything with the trees there. I would love to have seen McCary, Best, Webb, Eagan, Barnett or Pro Moore take a round on those trees and lakes. They could have handled them.

My sister-in-law insisted that I show her how to play golf. I taught her the difference between the tee and green, but couldn't get it over clearly which was the rough and fairway (wasn't sure myself).

I took several rounds on a Par 32 municipal course at Portsmouth, Va., with my father. He hits short and low, but straight down the middle. He only had one ball in two days go out of fairway (It went in the lake on inside of a dog-leg).

Water lover that I am, when I went to Virginia Beach you couldn't tear me away from the sand, sky and rolling waves to play on anyone's course, not even the famous tournament course, the Cavalier, at Va. Beach.

My middle son saw the ocean for the first time and said, "Goodness, that lake is as big as the sky."

My oldest boy said it looked like a nudist colony. I inquired about where a six year old learned about such. He told me that his uncle told him. He said he asked his uncle why that "cowboy" was sitting down hard on the middle of the road in a Life magazine picture. His uncle explained it was a "jack-leg" preacher trying to get pictures of a colony of people that don't wear clothes.

My boy didn't want me to take my camera out on the beach because he didn't want me thrown down hard in the middle of the road.

My wife had a difficult time explaining what rain was to our small boys. We read the News and Leader while gone. That's a real treat on a vacation—get your home town paper to keep up with the political campaign, the Little League (little Charles Duval has been doing a super job at report-

ing—that boy is smart enough to find up in the newspaper business when he gets out of school. He knows his sports and is willing to stay up late at night after games to write), and not too surprising resignation of Roy Carter and Joe Simpson.

Roy and Joe are promising young men. They hit it off well with Gene Mayfield and it looked like we had the youth combination of the Plains. I knew we could depend on Supt. Schilling (an old—he's young—Pro from the Washington Redskins) and Mayfield to pick a good assistant. Any assistant coach at Highland Park in Dallas is good.

I still don't know how Smith-Badger lost a half a game. I must have missed an issue of our local paper while gone. I wish the Giants had the pennant in the bag like the Smith-Badger boys (The Indians, too, for that league. Only one fan in Littlefield is pulling for the Yankees).

### Revival Is In Progress At Anton Church

ANTON—A revival meeting is in progress at the First Baptist church this week.

The Rev. Charles Cockrell is the visiting speaker.

Ray Hogue, also of Garland, is the song leader for the meeting. It started August 22 and will last through August 29.

Services are being held at 10 a. m. and 8:30 p. m. at the church.

### Anton Lions To Sponsor Scouts

ANTON—The Anton Lions Club has voted to sponsor the Anton Boy Scout Troop.

The American Legion has been the sponsor for the scouts.

The following officers were elected for the year C. R. Rushing, sponsoring institution representative; Wallace Barrett, Troop Chairman; Ellis Williams, Chester Jones, and Jay Fowler, Troop Committeemen; Zade Hooper, Scoutmaster; George Arthur, assistant scoutmaster.

## LET'S TALK LIVESTOCK

BY TED GOULDY

Fort Worth—Most observers on the market at Fort Worth are of the view that there is a strong probability that more cattle will be fatened in Texas during the next six to eight months than for a year.

Many of the cattle will be grain-fed and many others will be carried on grain pastures with probably some supplemental feeding. Already reports are coming in of the movement of sizeable numbers of "wheat pasture" type calves and yearlings into the winter wheat grazing areas of the Texas Plains and Panhandle.

Conditions have been made quite promising in some sections that have received heavy showers recently. The shower activity has been continuing and while the benefits are not general, there has been enough aid to breed some optimism. Optimism is the commodity that cattlemen thrive on.

Another fact that portends big feeding operations are the big feed crops that are going to be made in sections of the West Texas Plains. In some sections conditions are reported the best in years. Storage is at a premium and there are plenty of cattle around. This means lots of cattle will likely be fed in the Plains and Panhandle.

We are told that the "nubbin" corn produced in many part of the Eastern third of Texas will also be fed to cattle. This corn was of too poor quality to be salable, and when ground with cob, shuck and all the stepped up with some protein and some area to increase the digestibility, it will put pounds on cattle.

Our information is that many farmplots of from half a dozen to a couple of dozen head of cattle will be fed this way and some of the larger feeders will be "in" again this year.

The bankers are loosening the purse strings on farmers in the Corn Belt and more stockers and feeders are moving into those states.

Order buyers at Fort Worth say that they have more orders for the "good kind" than they are able to find in the runs lately.

Many of these are going into Illinois, Indiana and into the Western Corn Belt. However, the de-

mand is spreading to the Eastern Corn Belt and over into the South East as some relief from heat and drought has been reported in some sections there.

It looks like a big year for cattle feeding in the West. Fort Worth's dealers and order buyers report heavy demand continues from Arizona and the West Coast. One order buyer said, "I'd think Arizona would be running over with cattle. Thousands have been shipped there."

The West Coast operators are filling feeding pens and are still taking lots of the "plains" kinds of stockers and feeders off the yards at Fort Worth every week.

The feeling seems to be general that cattle prices have been pretty well established with the better fat steers and heifers due to sell around the \$20 to \$25 range. This more stable situation seems to be predicated on the present earning power of the consumers and the proportion of their expendable income that will be spent on meat.

On Monday's market, prices were strong, spots higher and calves were 50 cents and more higher than last week's close.

In the hog yards, the top was \$23.50 and sow old for \$14 to \$18.50.

Sheep and lamb found the market generally steady with choice Spring lamb up to \$19 and feeder lamb at \$15 down.

**THE BIBLE SPEAKS**  
BY DR. KENNETH J. FOREMAN

Scripture: Acts 18:26; Galatians 6:12; James 1:25, 26-27; 2:14-17; 1 John 3:16-18.  
Devotional Reading: Matthew 10:40-42.

**Some One Needs You**

Lesson for August 29, 1954

IS RIGHT belief all that is needed to make a Christian? In several places in the New Testament a plain NO is given to this question. For one thing, there is the example of Jesus. The first biography of Him we have is the hump-nail sketch from Peter's sermon at Caesarea, spoken (of course) years before the gospels were written down. "He went about doing good," Jesus not only was good, he did good, he spent his time helping people. What can we say of a "Christian" who makes no effort to do as Christ did? Then James and John, different types though they were, agree on the same point. James says flatly that faith without works is dead, and a look at the whole paragraph where he says this, shows that the "works" he is thinking of are just the giving of "things needed for the body," to those who are ill-clad and in need of "daily food. As for John, he makes the same point: if a man sees his brother in need and closes his heart to him, how can the love of God be in such a man?"

**Need for Bread**

Some one needs you. This is as certain as that you are a human being. Nowhere in the New Testament is it suggested that any one should be so super-generous as to make a pauper out of himself. But all through the New Testament it is strongly suggested that if there is a need in the world that we can supply, we do not have to ask ourselves, "What shall I do?" but only "How can I help?" The simplest needs are physical. There are children in our own families; there are the perpetually poor, the unemployed, the defectives, in every community. There are people without work, hard-up people, even in the best of times. These are people you can see.

And you do not have to travel farther than the nearest church to be reminded of hungry people you will never see but whom you can help through that church. In Korea, for example, missionaries in every church that is at work there have been spending a large part of their time, in these last few years, in famine relief. Through "Church World Service," CROP and other interdenominational agencies you are offered the chance to help widows and orphans who without your help would simply starve. When your church helps to support "agricultural missions" you are helping people in backward countries to farm more intelligently and feed more people on the same amount of land.

**Not by Bread Alone**

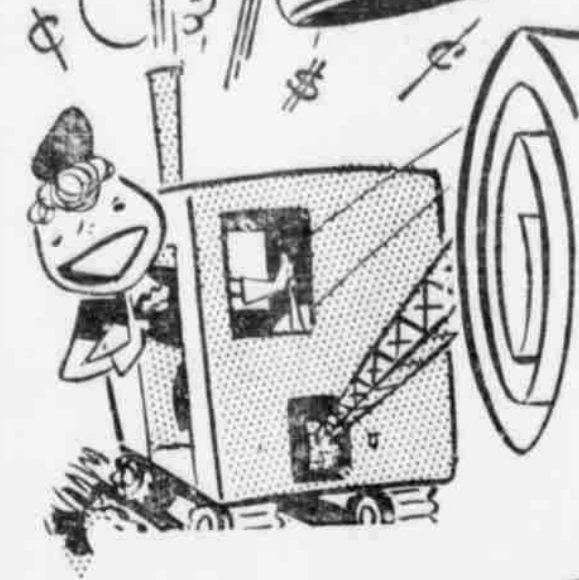

But man does not live by bread alone, though to be sure he does live by bread. Just because he is man and not brute, he has needs which are mental and spiritual. Every minister of a prosperous congregation knows families that never have needed help to pay their bills; they have all the money they need and all that money can buy. But these may be among the most needy families of the congregation, their lives may be empty, or filled with fear and despair. Physically well-fed, spiritually starving people are all around us. In these days in particular there is need for cheer and courage. We are certainly living in the darkest hours of human history, and many believe these are the last hours of the human race. At such a time men's hearts melt within them.

**Sharing and Bearing**

There are also the needs of those who have missed the mark, who have been (to quote Paul) "overtaken in a fault" and need above all to have their spiritual health restored, they need to "get right" with God and man. Here again is a need which Christians supply not only to those whom they personally know, but—through the missionary work of the church which they support—to others around the globe. Wherever, in mid-Africa or in a lonely western mining camp, or anywhere else, the message of Christ is brought by those who are supported by churches such as those in your community, there the Christians in the home churches are helping the deepest human needs perhaps other than they could if they were there themselves. Each of us has his own load of responsibility to bear, but also each of us can share some of the burdens of the heavy-laden, near and far.

**LYMAN'S RECIPE OF THE WEEK**  
By Mary Lee Taylor  
**Nut Frosted Layer Cake**  
1 lb. 2-oz. package white or yellow cake mix (see note)  
1 1/2 cups Fat Free Evaporated Milk  
1/2 cup water  
1 cup sugar  
1 Tablespoon cornstarch  
2 eggs  
1 cup finely cut nut  
Turn on oven and set at 375 (high moderate). Grease well, then dust with flour two 8-inch round layer cake pans. Put cake mix into a 2-quart bowl. Add half of mixture of 3/4 cup milk and half of the water. Beat hard 1 min. Stir in rest of milk mixture, then beat hard 2 minutes. Put into prepared pans. Bake on oven rack slightly above center about 30 minutes, or until cakes pull from sides of pans. Let cakes stand in pans 5 minutes, then turn out to cool. Meanwhile, mix in a saucepan the sugar, cornstarch, eggs, nuts and 1 cup milk. Cook and stir over medium heat until mixture is thickened, about 10 minutes. Cool thoroughly. Spread between the layers and on top and sides of cake.  
Note: Use a well-known brand that calls for milk on the package.

## Highlights And Sidelights From Your State Capitol

By VERN SANFORD  
Texas Press Association

By Vern Sanford  
Texas Press Association  
The state...  
Large billboards over Texas...  
The problem is this:  
Shivers, as a conservative dem-  
ocrat, presently heads the state's  
party organization which also is  
conservative democrat.  
In addition, his followers took  
control of the party convention to  
be held September 14.  
If Yarborough, as a liberal-  
loyalist, wins the August 28th run-  
off, the situation for the next two  
years could see the head of the  
state Democratic Party at odds  
with his party's official organiza-  
tion.  
White, Porter Spear  
State Agriculture Commissioner  
John C. White has charged that  
the Texas drought relief plan for  
stockmen may prove a failure if  
"Republican political ambitions"  
are not separated from the pro-  
gram.  
While accused Jack Porter  
Republican national committ-  
ee man from Texas, and other Re-  
publican leaders with blocking the

effectiveness of the program.  
Porter in turn stated that White  
was angry "because New Dealers  
are being replaced with people  
who believe in sound principles of  
government."  
White said that in his three  
years of drought relief work it had  
never been necessary to clear  
anything through national com-  
mittees of either party.  
He had earlier stated that the  
FHA, administering the program,  
was being made to depend on the  
Republican committee for its poli-  
cies in drought relief.

# Here's Food Fun on a Budget

## Here's a Handy Do-It-Yourself Kitchen Trick

HANG THINGS anywhere this way.

HAVING a kitchen tool, utensil or ingredient within easy reach is a secret to nappy cooking. The home handyman can do much to make this possible by erecting a panel of perforated hardboard—a material available by the sheet at all well-stocked lumber yards.

When mounted on strips, these panels accommodate patenthooks for shelves and utensils. Their positions and arrangement can be changed at will. Paint the panel to match the kitchen.

## If You Have More Time than Money, You Still Can Eat Well and Plenty

By CECILY BROWNSTONE  
Associated Press Food Editor

**YOU HAVE MORE TIME THAN MONEY?** Then use your time to help out your budget—to make your family's meals taste delicious and wholesome, look gay and inviting.

**Spend time shopping.** Watch out for the best food buys of the week. Make your menus changeable. You'll probably find "specials" on foods you've never used. Never mind if they are new to you, try them. Develop cooking skill and make your meals interesting, your money stretch.

**Look out for alternate foods.** There is evaporated and non-fat dry milk as well as fresh—and budget-wise cooks use all three forms. They know, too, that both evaporated and non-fat dry milk can be whipped. Brown eggs cheaper than white in your neighborhood? Buy the brown; the color of an egg does not affect its flavor or food value. Meat? There's more than steaks, chops and roasts on the hoof! Learn to use thrifty cuts; they may need long and careful cooking—but didn't you say you had more time than cash? Do you put fish on your menus often? Find regional varieties that are modest in cost.

**Take time to save food.** Saving money in the kitchen is a long-range project. If you throw out crusts of bread every week, you'll end by wasting pounds of bread every year. Dry the bread, grind it into crumbs, and use to extend many dishes. Never pour the liquid from canned or cooked vegetables down the drain; if you do you'll be throwing away valuable nutrients. Use the liquid in soups, sauces and gravies. Save beef, chicken, duck and ham fat; take the time to render them. These fats may be used many ways. Cook bacon over low heat so those drippings are pale in color, fresh and sweet—ready to use.

**Grow herbs.** In summer, herbs can take their place in the garden; in winter, they can grow in pots indoors. Or warm weather's bounty may be dried for later use. Herbs make many low-cost dishes enticing. Know how marvelous fresh chopped dill tastes in a simple sauce over ordinary fish fillets? How basil in tomato dishes or a salad will make your tasters ask for more? Ever put rosemary on cube steaks? Use spices to give foods zest. Take the time to rub a little chili powder into a pot roast before browning. Know the tang chili powder gives to French dressing? Or how about celery salt? Have you ever used it in soups, gravies and sauces, with fish?

**Spend time making your meals gay,** your food attractive. You don't need expensive linen, crystal or silver. Simple place mats, made at home from colorful cottons, can be changed often, are easy to launder, and add variety and freshness. Arrange food with care. Garnishes and an eye to color help here. For example, paprika and parsley add pale foods such as fish and potatoes; thrifty casseroles benefit from golden-brown toppings of tiny buttered bread cubes or grated cheese. When you eat out, notice how a professional chef fixes food, then understudy him at home!

Others include a daughter, Mrs. Ivy Eldridge of Lubbock; a brother, C. J. Beach of O'Donnell; three sisters, Mrs. T. G. Gallineau of Amherst, Mrs. Helen Raines of O'Donnell and Mrs. Annie Griffith

## Thanks, Friends

In behalf of my family and myself, I would like to express our sincere appreciation for the encouragement, support, and many kind and gracious favors shown me while campaigning for County Clerk. The people have been wonderful, and I appreciate each and every vote I received in the July 24th Primary.

I would like to ask for a continuation of your help and support in the run off primary, and to any person that did not support me in the first primary—regardless of reason—I earnestly and humbly ask for your vote and support in the second Primary on August 28.

I am a graduate of North Texas State College in Denton, Texas having worked my way through school and graduated in the upper 10 percent of the class. I have worked for Good-year Tire and Rubber Company in

Dallas Division Accounting Office as an Accounts Payable Clerk and Auditor, as bookkeeper for 2 years in cotton gins; and for the last 1 1/2 years have been employed by an insurance inspection company. A large part of my duties on this job consisted of working with deed records, oil and gas lease records, criminal records, death and birth certificates, and the other various records in the County Clerk's office, and feel that this experience will be invaluable to me if elected.

I will continue my campaign asking for the job strictly on the basis of my merits and qualifications to discharge the duties of the office in a capable and efficient manner as I fully realize the responsibilities placed on the person serving in this capacity.

Sincerely yours,  
**Max and Mary Ann Hulse,  
and Cheryl Ann**

# WARNING!

## TEXAS FARMERS-RANCHERS WARNED OF CIO LABOR PLANS

AUSTIN, Tex., Farmers and ranchers of Texas were warned this week that the CIO plans to organize the farm workers of Texas if its candidate wins the Governor's race.

This warning came from Governor Allan Shivers who charged that the backers of his opponents "want to turn the state government over to the same bunch that is trying to wreck Port Arthur."

"One of the first things they would do is put one of their red-hot organizers from Port Arthur in as labor commissioner. Then every time a farmer or rancher wanted to hire someone he would have to go through the CIO."

Governor Shivers said there was no doubt in his mind that the aim of the CIO after the job of organizing industry in Port Arthur and along the Gulf Coast is finished is to begin organizing farm labor in all parts of Texas.

"You can imagine what will happen

when the CIO starts dictating how many laborers are needed to plow ten acres of land, refusing to allow a man to work more than thirty-five hours a week during the harvesting season and telling how much a farmer can charge for his crop," he said.

The Shivers administration, the Governor said, has worked hard to help preserve and protect the rights of the working man.

"But as long as I am Governor, the professional labor bosses who have been sent to Texas from the East—specifically those in the CIO and its Political Action Committee—are not going to run our State Government," Shivers promised.

Shivers said the average working man in Texas appreciated good government and that they were not going to let CIO bosses and professional organizers from the East do their thinking—and voting—for them.

Sagebrush Fried Chicken —  
The Best of the Old West

Here is a different way to serve chicken — but probably easier than any you've ever tried. Once you've cooked this way, you'll have it again and again. Crispy and brown, fried to a "T", it's served over yellow corn and rice. The rice is browned to develop a nutty flavor, perfect with fried chicken. Green pepper and yellow whole kernel corn are mixed with the browned rice — and it's what a perfect combination with fried chicken!

**INGREDIENTS:**

- 1 frying chicken
- 1/2 cup flour
- 2 teaspoons salt
- 1/4 teaspoon pepper
- Fat for frying chicken
- 2 tablespoons butter or margarine
- 1 cup uncooked white rice
- 1/2 cup onion, finely chopped
- 2 tablespoons chopped green pepper
- 2 cups water
- 1 teaspoon salt
- 1/4 teaspoon pepper
- 1 — 16 oz. can (2 cups) whole kernel yellow corn, drained

**METHOD:** Cut chicken into serving pieces. Wash in cold water. Pat dry. Mix flour, salt and pepper in a paper bag.

Place one piece of chicken in bag at a time and shake to coat with the flour. Heat 1/2 inch fat in a skillet until a drop of water just sizzles. Brown meat pieces first, adding low meaty pieces last. With tongs or spoon, turn to brown evenly.

When lightly browned, 15 to 20 minutes, reduce heat, cover tightly and cook slowly until tender, about 40 minutes. Turn as necessary to brown evenly. Uncover the fat 10 minutes to crisp the skin.

While chicken is cooking, melt butter or margarine in a skillet. Add the rice and onion and cook until the rice is browned. Slowly add green pepper, water, salt and pepper. Bring to a vigorous boil. Turn the heat as low as possible. Cover and leave over the low heat 14 minutes. Turn off heat. Stir in the corn. Cover and cook over on for 10 minutes or until ready to serve. Put corn and rice on a hot platter. Arrange the fried chicken over the corn, or place servings of the chicken on dinner plates and arrange the corn and rice on the plates. Garnish with tomato slices if desired. This recipe makes 6 generous servings.

Candidate for  
County Clerk of Lamb County  
To My Many Friends and Voters of Lamb County:

I am asking for you to vote for me for the office of County Clerk in the second primary August 28th, 1954, on the fact that I need the job and to make a place for myself in the county, a place where I want to make my home.

I do not ask for your vote on the fact that I spent nearly four years in military service. I consider it an honor and a privilege to fight for my country, and my family, that they might enjoy a free country and the ideals of the American way of life.

For my honesty, integrity and character I give you references of what all the employers that I have worked for think of my work, my honesty and my industrious activities. I invite your personal investigation of my character.

I challenge any man who says that I cannot and will not handle your County Clerk's office in an honest, fair, impartial and businesslike manner. I will give each and everyone of you the best, quickest and most efficient service that can be given from this office.

In consideration of your time and trouble, I will not pass out cards on election day.

Your vote and influence will be greatly appreciated and I will be forever grateful.

Yours for good service in  
the County Clerk's Office.

## Puppeteers Will Appear At Panhandle-South Plains Fair

PUPPETEERS WILL APPEAR at the Panhandle South Plains Fair in five free shows daily which will include some of the outstanding circus and vaudeville acts which have been presented at children's theaters from New York City to San Francisco.

The specially prepared puppet show will be given in Puppet Palace, located next to the new Fair Park Coliseum. The free shows will be presented five times each day during Fair week, Sept. 27-Oct. 2.

Among the dolls which will perform here are Winky, a little friend, Elmer, the elephant; the little monkey who does a realistic juggling act; a clown on a flying trapeze; and a pair of circus trumpeters.

The Lesellie Marionettes have appeared at children's theaters, fairs and expositions throughout the nation. For several summers the puppeteers conducted a class in puppeteering at Pennsylvania State College. They have lectured for art shows and have arranged puppet exhibitions for art galleries. Recently they have made several motion pictures using their dolls and have appeared on several television programs.

This will be the first time any such puppet show has been presented at the regional Fair in Lubbock, President Charles L. Adams said. It is designed especially for the many youngsters

who will attend this 37th annual exposition.

Additional free acts will be announced later.

For the gala opening of the 5,500-seat Fair Park Coliseum, the Fair will present a Grand Ole Opry show twice daily. Heading the cast of outstanding Western entertainers will be Webb Pierce. Among the extra attractions will be the appearance of Slim Whitman and other top-notch singing stars.

Cecil Bailey, principal and completed training at North Texas as State college in the field of

driver education this summer. Bailey is now qualified to teach high school driver safety classes. He is the son of Mr. and Mrs. Cull Bailey of Bridgeport.

### Greatness Through Service

By TOMMY WILLIAMS, Minister

It is said that Thomas Jefferson was riding one day with his grandson when they met a slave. The slave removed his hat and bowed courteously. Jefferson raised his hat and returned the bow, but the grandson rode on without returning it. Jefferson said to him, "Do you permit a slave to be more of a gentleman than yourself?"

expressed in the words which immediately followed: "But it shall not be so among you; but whosoever will be great among you, let him be your minister (servant) and whosoever will be chief among you, let him be your servant. Jesus not only so taught, but he furnished an example. He completed his lesson by saying, "Even as the Son of man came not to be ministered unto, but to minister, and to give his life a ransom for many."

Here we have two viewpoints. One holds an artificial distinction and respect of persons according to "position in society." It was expressed by Jesus when he said, "Ye know that the princes of the Gentiles exercise dominion over them, and they that are great exercise authority upon them" (Matthew 20:25).

The other viewpoint Jesus

**YOUR CHILD DESERVES A START FROM YOUR SHOULDERS**

As you have gone through life, you've learned a lot from experience—some of it the hard way. These are the lessons you want to pass on to your child. Chances are you'll want to teach him the value of thrift and the importance of "taking care of his own".

An excellent way to do this is to start him a life insurance program with State Reserve's new Foundation Plan. It provides a systematic savings program and automatically increases to three times the original amount at age 21 with no increase in premium. The increase in protection at age 21 provides a basic estate at the time adult responsibilities are assumed. Call your friendly State Reserve Life representative and let him explain. No obligation, of course.

# TEXAS is on FIRE with a CRUSADE

... to hold Texas for Texans!

From time to time in the history of this great freedom of ours, it has become necessary for the people to rise up in righteous indignation against great grasping threats from without!

AT THIS MOMENT THE PEOPLE OF TEXAS STAND AT SUCH A CROSSROAD! The issue is clear: Whether we will hold TEXAS for Texans or surrender our great TEXAS heritage to out-of-state labor bosses, pinkos, the promoters and their henchmen.

Travis, Bowie, Crockett, Houston—all great names in the fight for Texas Liberty—gave their lives for TEXAS! The least we can do to hold their faith is to give our vote.

THEY KEPT TEXAS FOR TEXANS—WE MUST KEEP THEIR TRUST ON AUG. 28th!

## Vote for Shivers

**TIME AND MONEY**  
OWOSSO, MICH. (AP)—Each time John Penyska opened his mouth in Circuit Court it cost him 30 days in jail. The judge told him to pay his ex-wife, Sally, back alimony or serve 30 days in jail.

Penyska said he'd take the days and protested when the judge told him time in jail wouldn't wipe out the debt. "Maybe 60 days would be better," the judge suggested to the bitterly protesting Penyska. "Make it 90 as long as I'm going to jail," Penyska said. The judge did.

## Storm Warning System Set To Serve State Thru Radar

AUSTIN—A network of radar stations which will give Texas the best storm warning system now available in the world will be in operation within six weeks at Austin, San Antonio and Lubbock. Besides the one at Lake Charles, those already functioning are at Amarillo, Victoria, Brownsville, Corpus Christi, Houston, Abilene, Fort Worth, Galveston, Midland, San Angelo and Wichita Falls.

Hardy told the Governor that once the network is completed, it will be "the best and most up-to-date storm warning system now available anywhere in the world."

Hardy added that storm reporting and the general warning service maintained by the US Weather Bureau will be extended and improved tremendously by the installation of the equipment, which is able to detect heavy rainfall, tornadoes, hurricanes and other severe weather manifestations.

The US Weather Bureau ties the radar net into the Department of Public Safety communications centers between the two organizations. All Weather Bureau radar reports are received by Public Safety Communications within about two minutes after a warning is issued.

Once reports are received, Public Safety units track the storm and warn people who are in its course. The Public Safety units also advise the Weather Bureau as to whether the storms are turning into tornadoes.

"This one phase will do much to save lives and property," Hardy noted.

William L. McGill, state coordinator of civil defense and disaster relief, agreed. As a specific example of what the network can do, McGill said the radar storm warning equipment would have been of vital use in the recent flood in the Upper Rio Grande Valley.

Federal, state and local government agencies worked out arrangements for the new equipment. The US Weather Bureau made surplus radar equipment available.

The Texas A and M College Research Foundation was given a contract to modify this equipment for storm warning use.

The Texas Department of Public Safety agreed to cooperate in making maximum use of the Bureau gives on a 24-hour-a-day basis. The Division of Civil Defense and Disaster Relief of the Governor's Office arranged meetings in the cities in which first-order weather stations are located. A team of representatives of the disaster relief office, the Weather Bureau, the A and M Research Foundation, and the Texas Department of Public Safety explain-

ed the plan to local government agencies.

The initial cost of modifying and installing the equipment was underwritten by the cities involved.

Once the network is completed, Texas will be served by the first storm warning system of its kind ever to be installed by any state or area.

PHOENIX, Ariz. (AP)—When Jay Brashear, reporter-photographer for The Phoenix Gazette, was sent on an assignment he came back with more than a story and picture.

As he was taking a picture at the opening of a savings and loan company office, it was announced he had won the door prize—a \$1,000 savings account.

## Super HOME Market!

When your grocer has big sales, you can take full advantage of them with an electric home freezer. Yes, the freezer is a super home market, always ready with high quality foods purchased at quantity prices.

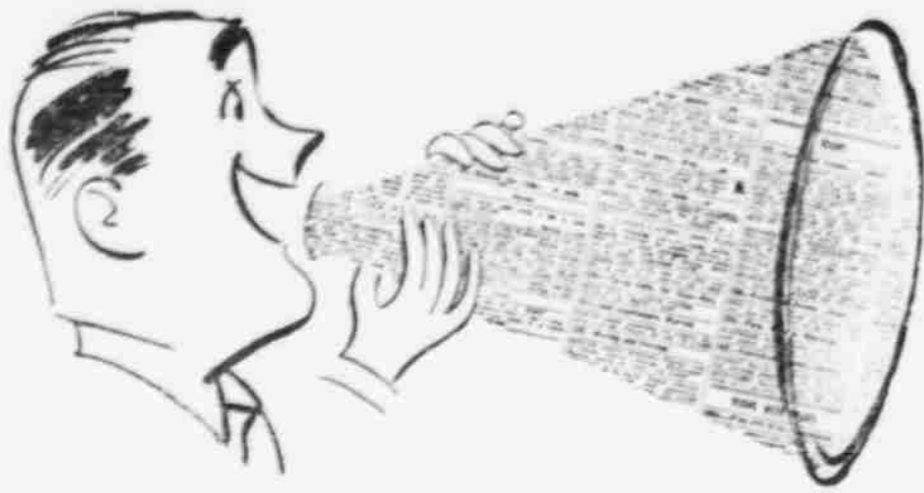

Still another freezer advantage is that you need never waste a scrap of food. There's real economy here, too, for waste uses up 10% of the average food budget.

Save food, money, and meal preparation time with an electric home freezer—an investment in good living.

**NOTICE OF SALE**  
Sealed proposals for the sale to the highest bidder for the purchase of the Texas Highway Department's old warehouse site at Littlefield will be received at the office of the District Engineer, Lubbock, Texas, until 10:00 a.m., October 15, 1954, and then opened and read publicly.

The size of the property is 0.792 of an acre, more or less located on the northeast corner of State Highway 51 and F. M. Highway 54 at Littlefield. The property will be conveyed by Quitclaim Deed and a complete abstract of title will be furnished by the State to the purchaser.

Bidders or authorized agents are invited to be present. Each proposal shall be accompanied with a Certified or Cashier's Check on a State or National Bank of Texas for \$200.00 made payable to the order of the State Highway Commission of the State of Texas as a guaranty that the bidder, if successful, will consummate the purchase. Proposals will be received on or before the hour and date set for the opening thereof, and must be in the hands of the official indicated by that time. The price bid for the property shall include the amount of \$102.48 to cover the cost of the abstract and of advertising the property as required by law. The purchaser will pay for the internal revenue stamps on the deed. The right is reserved by the State Highway Commission to reject any and all proposals or to waive all technicalities. When submitted by mail, the bids shall be addressed to Mr. S. C. McCarty, P. O. Box 771, Lubbock, Texas.

Bidding forms and any additional information may be obtained at the office of Mr. W. H. Garrett, Sr. Resident Engineer, Box 898, Littlefield, Texas. Certified or Cashier's Check of the highest

bidder may be retained until after the purchase is consummated. Checks of all except the highest bidder will be returned within forty-eight hours after opening bids.

**LIPSTICK LOGIC**

August, in the Southwest, is a month of many moods. First come the dog days, bright and hot—just some more of July. Then it is that we cling to our coolest cottons, the crispest salads and lightest desserts. We stay cautiously indoors after ten in the morning and before five in the afternoon.

done before fall: Better get busy: summer is getting away. We paw through the clothes closet for a dress that looks fallish, feels cool. We get out the sewing basket with an eye to snaps and buttons and sagging hems. But as the noonday heat presses in through open windows and doors, we've forgotten what the morning might have said.

When the August moon is full, the nights begin to whisper, too. Cooler, softer, gentler—the lazy breeze denies the heat of the day. Then comes one August morning, maybe early, maybe late, when daylight no longer frightens the

cooiness away. And if we wake early, and walk softly, we catch a glimpse of Autumn as she brushes light fingertips over the willow and the apricot trees.

August in the Southwest has a personality all its own: the fulfilling of summer, a promise of harvest and crisp, cold days ahead.

**1-economy**

What's it going to cost to keep that new car in gasoline? In oil? What about service and repairs? Check into it and you'll find that Chevrolet has the greatest name of all for keeping upkeep costs down over all the miles you drive.

**2-price**

Take a look at what you pay and what you get. You'll see that Chevrolet has more for you and asks less from you. It's priced below all other lines of cars. Chevrolet builds the most cars—and can build them better to sell for less!

**3-performance**

Do you want livelier, smoother performance on less gas? Then be sure your new car has modern high-compression power. That's just what Chevrolet gives you—the highest-compression power of any leading low-priced car.

**4-appearance**

You, of course, are the only one who can decide which car looks the best to you. But you might well consider this: Chevrolet's the only one in the low-price field with the smooth lines and graceful beauty of Body by Fisher.

**Reynolds Announces Plans For Bula School Opening**

The Bula school will open August 30 with a complete faculty, according to Supt. H. A. Reynolds. The Bula school gained a teacher last year, based on the average daily attendance, so the faculty will consist of ten teachers this year.

The building will be repaired for the coming year, and the lunchroom floor painted, Reynolds said. Work already completed on the building includes refinishing the floors, installation of new window shades and gym-eating on the floor of the gymnasium.

Lunches will be served the first day, August 30, Reynolds said by the operators, Mrs. E. L. Vaughn, manager, and Mrs. F. L. Archer and Mrs. A. N. Moses, assistants.

Thompson, departmental work in grade school; J. Logan Green, vocational agriculture; Mrs. Gladys Morrison; Joe Turner, commercial subjects; Mason J. McDaniel, English; and Supt. H. A. Reynolds, mathematics. Mrs. B. C. Gunter will teach piano.

Mrs. Thompson will register the fifth and sixth grades and issue books, and Morrison will register and issue books to the seventh and eighth grades. Scholars will register with J. Logan Green, Juniors with Turner, sophomores with McDaniel and freshmen with Ristinger.

**GIGANTIC TRAINLOADS OF SILVER DOLLARS**

If paid in silver dollars, the \$459,000,000 in benefits received by Woodmen of the World members and beneficiaries since the Society was founded in 1890 would weigh 13,770 tons\* and fill 257 box cars.

These millions, of course, were paid by check in these past 64 years to settle Woodmen life insurance claims and pay refunds.

The \$559,000,000 of safe, sound, legal reserve protecting some 438,000 Woodmen now enjoy would weigh 16,770 tons\* . . . a load for 435 box cars.

Though not measured in money, Woodmen also enjoy many other benefits and much pleasure from Woodmen's fraternal and social activities.

Ask a Woodmen representative how you can share in this safe, sound, legal reserve Woodmen life insurance protection and fraternal benefits. Let him help you select the type of certificate that best meets your needs.

A slight change has been made in the operation of the lunchroom for the year. Meal tickets will be sold for \$5 each, which is 25 cents per meal. Without a ticket meals will be 30 cents at the door. Meal tickets will be available Friday, August 27, in the office of the Superintendent.

Junior and senior students will meet with W. C. Ristinger and Supt. Reynolds at 1 p.m., Friday to discuss the schedule of work.

Reynolds has invited the school patrols to attend the school opening at 8:30 Monday August 30 to meet the faculty. Registration is slated to be completed that day.

Faculty members are Mrs. Hazel Crook, first and second grades; Mrs. Bernice Swinney, third and fourth grades; W. C. Ristinger, Claude Morrison and Mrs. Claude

**What Has ROY GILBERT Done For Precinct Three?**

I am asking for re-election as your commissioner for one more term, on the basis of past service and on my experience. I feel that experience as commissioner and as a former county official has been valuable to me in my work as your commissioner.

While serving in this office, I have increased the equipment belonging to the precinct so as to be able to better serve the people. There have been 22 miles of pavement built, five of them out of county funds — the first roads ever paved here without a bond issue. 19 miles of bond issue pavement has been turned over to the state for maintenance, thus saving the county funds.

Approximately 400 miles of dirt roads, much of which covers mail routes and school bus routes have received my personal attention at all times to keep them open and in good shape.

The new Lamb County Court House is one of the things that all of us can be proud of. When the county officials move into the courthouse this fall, your commissioner will be one of the men who worked hard to see this dream come true for all of us.

There are a number of miles of roads that will soon be constructed by the state and there is a mile of road to be built out of County funds that will be under the Commissioner's supervision, and I would like to see both of these jobs completed.

I have given my best efforts and full time and am asking for re-election on the service that I have rendered and feel that I will be able to render in the next two years.

May I say thanks again for all past favors, and ask for your vote and support in the run-off election on August 28.

Sincerely,  
**ROY GILBERT**
