PWA—

A year ago we were promised that Public Works Administration would put several million men back to work. This was when Secretary of Interior Ickes, doubling in brass as PWA's boss, first set out optimistically to pump \$3,300,000,000 into emergency construction all over the country.

As the days wore on Ickes found it was a tough job to spend three billion dollars—especially if the out-laws was to bear future scrutiny of political opponents who might be looking for signs of the old pork barrel.

Employment estimates were curtailed slowly but surely following the realization.

Last winter word went out that Public Works would reach its peak in the spring. When spring came the fatal date was put off to June. Then it was made July.

July is here. Public Works officials concede they have reached their top employment. From now on their line will run horizontally across the chart and then start dipping downward about the time cold weather sets in.

If, like "Al Smith," you want to take a look at the record, here it is.

Latest confidential compilations show that 406,378 men are now employed on federal projects and 118,800 on non-federal works—a total, in round numbers, of \$232,000.

But not all of PWA's money goes into such work. The administration shows a grand total of \$96,790 actually on jobs.

Most of the difference between the two figures is accounted for by the CCC camps. They have 312,294 men enrolled, including Indians and military personnel.

The rest of those employed at PWA's expense are the officials and clerks who administer the various emergency alphabetical set-ups.

In this connection there is one rather striking figure. The "administrative personnel" of CCC is fixed at 24,995.

On its face that would work out at approximately one civilian employe to every 13 boys in the forests.

Homer H. Norton Selected
To Lead Cadets Out
Of Wilderness

COLLEGE STATION—Homer H.
Norton, the man Texas Aggie ath-
letic officials have picked to lead
the Cadets out of the wilderness
of football defeat, has moved his
family to the campus and already
is deep in consideration of the
Cadets' football problems for the
coming season. Norton held
Spring practice here in March but
moved to the college only the past
week.

The re-establishment of the Ag-
gie football prestige, however, will
be but one of many duties for
Coach Norton, for, in addition to
being head football coach, he also
will be head of the college physical
education department. He will
have general supervision over all
Aggie intercollegiate athletics, over
a complete curriculum of physical
education courses, over the annual
free coaching school the Aggie
athletic department conducts each
August and over a broad program
of intramural athletics in which
more than three-fourths of the Ag-
gies' student body of more than 2,
000 participate annually.

Coach Norton comes to A. & M.
from Centenary College, with
which he has been connected since
1920, and relieves Madison Bell as
the Aggie's athletic leader. He was
director of athletics in addition to
being head football coach while at
Centenary.

A record-breaking demand for Chevrolets has sent pro-
duction to the highest total reached by any automobile
manufacturer during 1934

SINCE January 1, 1934, more than half
a million people have come to the sound con-
clusion that Chevrolet offers the world's greatest
values—and have bought Chevrolets. No other
manufacturer can point to such a record in the
same length of time, and for a very good reason.
No other manufacturer has so much to offer as

Read How She Lost FAT AT 45 Wonderful Letter To Fat Folks "I am a mother 46 yrs. old, just one year ago I weighed 196 1-2 lbs. and had been sick for 2 yrs. before I started taking Kruschen Salts. I now weigh 143 lbs., and feeling fine have not been sick all winter-not even a cold. My friends all say I look 15 yrs. younger and sure feel it too. I used to wear size 50 dresses now can wear 36. I feel as if I was made over. I did not reduce in places. I reduced all over even to my feet. So I cannot praise Kruschen Salts enough, they have done wonders to me. I want to tell you I have no double chin either." Mrs. F. L. Healy, Detroit, Mich. Read that great and sincere letter again you doubting fat men and women-are you going to keep on puffing and wheezing up the stairs or take a half teaspoon of Kruschen in a glass of hot water before breakfast every morning. Get it at Collins Bros., or any drugstore in the world-keep cool with Kruschen-adv.

WE NEVER grow so old that we do not recall our childhood concern as we thought of what might have happened to the two story-book children who wandered aimlessly into the forest and became lost. We never grow so wise that we can walk blindly into the marts of trade and straightway find the shoes, car, ham, cleaner, rug, antiseptic or what-not that best fits our individual need, fancy or pocketbook. Without a dependable buying guide we are all Babes in the Woods lost when it comes to judging qualities, values or styles. "Know the reputation of the store," is one rule. "Know the reputation of the product and its manufacturer," is another. The two together make wise selection doubly certain. You can form a very reliable estimate of the stores which advertise consistently. So also of manufacturers. Only sound merchandise, attractively priced, can continue to repay the retailer or the manufacturer for his advertising outlay. If he can risk the money it costs him to tell you about his goods, you can be reasonably sure that your path through the woods will lead to the best values for your buying dollars.
