

Pitchers Had Pitching Hitters Failed

FRANK ECK
Sports Editor
I am more con-
vinced that the thing
that has kept the
pitching staff from
being better than the
hitters is the failure
of the pitchers to
pitch better than the
hitters. When I write
this I'm sure he'll agree.
There was nothing
wrong with the pitching
staff that couldn't be
cured. He was
pitching for the National
League and saving 15
cents a ball better than
the other by Jim Konstanty
in 1950.

At the Brooklyn pitch-
ing school compiled by Dodger
manager Leo Kluwe.
The Phillies in least
100 games (3.50 per game).
He is in least bases on
balls (1400 innings).
National League strikeout
pitching staff had
pitched in 100 games but it must
be that the pitching staff
and Chuck Drossen
this figure would have
been without Black. Old Joe
Black for a rookie—came
in his first game, games in
starting pitcher might
be to go the distance.
Like Black around
around." is Drossen's
pitching staff accounted

for 20 complete games and received
credit for 57 of the club's 96 vic-
tories. We doubt whether this num-
ber of victories for a rookie group
has ever been reached before.
Of Gil Hodges' World Series per-
formance around first base, it's a
safe bet that Ferris Fain will be
named the first baseman on any
mythical All-Star team. Hodges
let two easy chances slither out of
his glove in the first two games
and seemed to have lost his pep.
Why even Black saved him in the
first game, coming over to cover
first to take a Jack Robinson throw
after Hodges booted the ball.
The only thing wrong with a sub-
way series is that half of the sub-
way gets in my hair. In this city
where everybody seems to be run-
ning to the nearest exit you need
a hat when you ride the under-
ground to the ball parks. Only
trouble was I never found time to
buy a new hat. My new hat of last
year became old in the 1951 sub-
way crush. That's probably why
they say "you can't beat the sub-
way."
It took only the first two games
for Mickey Mantle to show why
the Yankees picked him to take
Joe DiMaggio's place. He hits as
hard as Dimag, runs faster, cov-
ers as much ground in center field,
has a pretty good arm and is off
like a bullet on the bases. Only
knock about him is that he strikes
out a lot.

Now They Know Why

Unbeaten Wildcats Suffer First Defeat At Dumas Friday Night

Monahans Defeats Levelland 47-6

MONAHANS—Monahans broke loose in the second half here Friday night to score a stunning 47 to 6 victory over the Levelland Lobos in a non-conference gridiron battle.

Leading 14 to 6 at halftime, the Monahans eleven ran almost at will in the final stanzas to defeat the visiting Lobos soundly.

Monahans scoring was paced by two touchdown gallops by both Charlie Locke and Ray Yeates, one of the latter's on a 60-yard romp. Donnie Conder and Bobby Greenlee carried for one tally each and Dave Hughes intercepted a Levelland pass for the other marker.

Levelland's offense never got to clicking as the hard-charging Monahans line and wide-awake backfield kept the Lobos in check most of the night. F. O. Scroggins is the Monahans coach.

Tigers Defeat Morton Indians

MORTON—The visiting Slaton Tigers of 6-AA rolled up a 26 to 13 victory over the Morton Indians here Friday night in an inter-conference game witnessed by 1,300 fans.

The Tigers ran into a stubborn Morton defense in the first half and the score after two quarters was knotted at six all.

Duane Soter and G. Butler teamed up to score a pair of touchdowns apiece for Slaton and Lenar Burns and Don McDermott made the two Morton tallies.

After the hard fought first half the Tigers broke loose and scored 20 points in the third period. Morton's last sixpointer came with only a few seconds left in the fourth quarter.

J. W. Clifton was outstanding in the Slaton defense and Paul Cox of the Morton crew was the defense sparkplug on his team.

Morton halfback Rex Faulkner was slightly injured in the last stages of the contest and required hospitalization.

Seminole Ekes Out 6 To 0 Victory Over Brownfield's Cubs

SEMINOLE—Seminole's Indians capped a homecoming celebration with a hard-wrought, 6-0, victory over Brownfield's Cubs here Friday night before an overflow crowd of 4,500 in a non-conference grudge battle in which the Indians gained a measure of revenge for a 28-20 beating last year.

The Indians' winning score was punched over the hard way midway through the second period. Jackie Sparks' fourth down plunge from the half-yard stripe provided the victory margin.

A measure of the mule-like stubbornness of the Brownfield eleven is evidenced by the fact that it took the Indians 19 plays to grind out their 80-yard touchdown drive. At that, it took Sparks four cracks from the five-yard marker to put the ball over.

Another Indian touchdown, coming in the first period, was called back for a clipping penalty. It, too, climaxed a drive, this one going for 55 yards, and ending in a futile 15-yard end run by Sparks.

Sparks carried the brunt of the Seminole attack. He carried nine times for 63 yards in the winning drive. One of his carries was on a handoff play from the Indian split-T formation that went for 32 yards.

During the second half, both teams traded penetrations, but neither was able to overcome the rugged defenses thrown against them.

Score by quarters:
Seminole 0 6 0 0-6
Brownfield 0 0 0 0-0

Happy Cowboys Defeat Amherst To Score 19-13

AMHERST—Elusive Halfback Buddy Selvidge virtually turned back the Amherst Bulldogs by himself here Friday night scoring three touchdowns as the Happy Cowboys won a District 2-A conference game, 19-12.

It was Happy's first victory in conference play against a pair of losses and it was Amherst's first conference game.

Selvidge opened the scoring in the first quarter on a 30-yard run, added another run of 19 yards in the second period and carried across the final tally in the third on another 30-yard run. He kicked Happy's only point-after-touchdown.
(Continued on Back Page)

Billy Wayne Sisson To See Plenty of Action In Tangle With ACC Wildcats

Billy Wayne Sisson, McMurry College guard from Littlefield is likely to see plenty of action when the Indians tangle with the Abilene Christian College Wildcats in a traditional cross-town grudge game on Oct. 18. Sisson, a senior, is one of two three-year lettermen Tribe-sters.

The 22-year-old rivalry will be set this year amidst the McMurry Homecoming and the Indians will be "on the spot." It is normally considered a good grid season on the Reservation if the Tribe beats the Wildcats.

Coach Garvin Beauchamp's Wildcats hold an edge in the 19-game series. The cross-town Christians have been victorious eleven times to the Methodists eight. ACC mangled McMurry 58-13 last season and 24-14 in 1950. The Redskins last scalped the Felines in 1949, when Little All-America Brad Rowland was ramblin' for McM.

McMurry mentor Wilford Moore is far from optimistic about the coming battle, but has shown no crying towel, either. "Though underdogs, we'll be on the warpath provided we get ready physically and emotionally," Moore asserts.

It would seem that Abilene Christian could rest easy, according to comparative scores and crystal-ball gazers. Midwestern University, for instance, downed the Indians 19-6,

BILLY WAYNE SISSON

while ACC blanked the Wichitans 21-0; making Coach Beauchamp's boys 34 points than Moore's Stanley Woodward, national predictions expert, gave the 'Cats a 58-13 win over McMurry in pre-season guessing. That's a duplicate of the 1951 outcome.

Nevertheless, Abilene's cautious bettors will keep their billfolds clasp shut. As one fan put it, "It just ain't safe to bet on this one!"

Muleshoe Observes Homecoming With 13-6 Win Over Sudan Friday Night

MULESHOE—Muleshoe from District 7-AA celebrated its homecoming here Friday night with a 13-6 win over potent Sudan of District 2-A—the first Muleshoe victory over Sudan in 14 years. It was a non-conference melee.

Coach T. J. Bailey's eleven fought all the way to win it.

After a scoreless first half, the Mules broke the ice when Fullback Bobby Seid hot-footed across from less than a yard out where Muleshoe had gobbled up Sudan's fumble. He hit pay in the first stab. Bob Willis pumped through the extra point.
Sudan bounced back and early in

the fourth quarter pulled almost in reach with six chalk marks. Kent broke away 25 yards for the score. Point try was nil.

Muleshoe added the clincher in the fourth as Halfback Benny Bickle ankle 20 yards.

Wayne Birkhead, a stalwart tackle, performed yeoman service in the line for Muleshoe.

Pitcher Joe Nuxhall of the Cincinnati Reds holds the distinction of being the youngest player ever to perform in the majors. He played with the Reds in 1944 when he was only 15 years old.

The Littlefield Wildcats were dumped from the Class AA unbeaten list Friday night. The Wildcats were 33-20 victims of the Dumas Demons of District 1-AA.

Running without two of their tri-captains, Tackle Cam Jordan and Back M. C. Northam, the Cats were stubborn losers—keeping the score close until the final period.

Featuring a big, fast line the Demons scored early in the first quarter with Keith Mixon going over from the 2. Corky Randolph kicked his first of three conversions.

The Wildcats first TD came in the second period. After first having a 34-yard touchdown run by R. L. Rhoten called back, the Cats drove down to the Dumas 2 and Jackie Beckner carried over from there. Douglas Perkins' try-for-point was good, knotting the score at 7-7 as the half ended.

The Wildcats in the third period went ahead in the game by way of a Bill Jones to Perkins aerial that covered 68 yards. Rhoten's try for point was no good. This was the first time in five games the Demons had been behind in the score.

Dumas' second series of plays after Littlefield's tie-breaking TD led down to the Wildcat 11. From there Joe Pat Mowery went over and with Randolph's conversion put the Demons ahead, 14-13. Taking to the air after the kickoff, Littlefield had an aerial intercepted by Randolph who ran 42 yards for another Dumas touchdown. Randolph's conversion ran the score to 21-13. The Wildcats came right back on the second play after the kickoff as Rhoten ran 65 yards for a touchdown. Perkins' conversions closed the score to 21-20.

Dumas was stopped on one drive in the fourth period on the Wildcat 15. But came back later to score on a 22-yard aerial from Joel Lummus to P. D. Fletcher. Randolph's
(Continued on Back Page)

Brownfield Mentor Is Practice Victim

BROWNFIELD—Coach L. G. Wilson, a member of the Brownfield High School coaching staff, was temporarily put out of "coaching commission" last week when he received a broken leg during a Cubs' practice session.

He had his arm drawn back to pass when one of the players tackled him, and as he fell he twisted his ankle, breaking the fibula or small bone in his right leg. The ankle had been sprained when Wilson played end for the Abilene Christian College team.

Although he is confined to bed at his home, Wilson plans to be up and around on crutches this week. The Brownfield coach expects to be back on duty next week, although most of his coaching directives will have to be from the sidelines for awhile.

Scarlet Fever Increases In Fall

The State Department of Health has just issued a warning in regard to scarlet fever, as the number of cases usually increases during the fall months. The majority of deaths from this disease occur from October through February.

Scarlet fever is a very contagious and serious disease. Grown people may contract it, but children under 15 years are especially apt to have it, if exposed. It is especially dangerous for children under 5 years, and Dr. Geo. W. Cox, State Health Officer, warns mothers to "not let your children take any chances with scarlet fever. Call the doctor as soon as the first symptoms appear."

If your child has contracted scarlet fever, the first signs you may notice are that he seems tired, restless and out of sorts. Usually, there is a sore throat,

chills, vomiting, or convulsions and fever. His skin is dry and hot. His tongue is furred, and, under this white covering, it is red and swollen. In ordinary cases, these early signs are followed in a day or two by a rash. Little flat red points, close together, appear first on the neck and chest and soon the rash, very red in color, spreads over most of the body.

The doctor is required by law to report the case to the local health officer. Do your part by following carefully the quarantine instructions which the health officer will give you, since a severe or fatal case of scarlet fever may develop from contact with some one who has only a light attack. Children who have had scarlet fever, or who have been exposed, must not return to school until permission is given by the health officer and physician.

Health Talks

Prepared by the State Medical Association of Texas

Blindness is a word that puts fear into the heart of man. Some people may assume that blindness is, more or less, bad luck or an act of God. Certain employers, for example, set aside large funds and buy insurance to treat workers with eye injuries, or pay them compensation for the loss of their eyes, neglecting the positive approach of a thorough-going program for guarding against accidents.

Some blindness is unavoidable, it is true, but programs to prevent the loss of sight have been proved effective in many areas, including adequate care for expectant mothers to save the eyesight of their babies, and safety campaigns in industry. Research into the causes and treatment of some eye diseases is still needed, but more than half the cases of blindness could be prevented using medical knowledge already existing.

People with good eyesight are anxious to do all they can to hold on to it and want their children to be free from the handicap of blindness. The logical question, then, is "how can I save my sight and care for my child's eyes?"

Care of the eyes begins even before birth. Every pregnant woman should have a thorough examination and treatment for syphilis or other disease which may affect the child's eyes. Adequate care of the mother is protection for the child. Laws requiring the use of drops in the eyes of newborn infants to prevent blindness from gonorrhea have helped cut the rate of children admitted to schools for the blind as a result of this disease from 28 out of 100 admittances in 1908 to 2 out of 100 today.

During infancy, the tears are the best protection against infection, but if it is necessary to wash out the eye, one level teaspoonful of table salt added to a pint of water

may be used; an all-rubber syringe of the type used to wash out ears will provide a means of gently irrigating the eye. Large clumps of mucus can be removed with soft cotton swabs soaked in plain water.

Everything which might come in contact with the child's eye should be clean—clothes, bedding, toys. The eyes should be protected from undue glare, such as direct sunlight. Toys should be large with no sharp edges.

If there is any doubt that the two eyes are not working together, especially after the age of 6 months, the baby's eyes should be examined. Parents whose children have crossed eyes should not expect them to "grow out of it."

If a child has not been examined by the time he enters school, he should have a complete eye examination and should report for a checkup thereafter as often as directed by the doctor. Those whose vision is severely handicapped even with glasses might be better off either in sight-saving classes or a special school than in regular classes.

More than half of the eye accidents among children occur during unsupervised play. Dangerous toys—air guns, fireworks, slingshots, and so on—should be forbidden. If an accident happens, however, the child should receive prompt medical attention. A wound of the cornea (the outside layer of the eyeball) if not healed within twenty-four hours may become infected, with the eye being lost and even the opposite eye may be blinded as the result.

Many of the rules for the care of children's eyes hold for adults; the same salt solution may be used to wash out the eyes; everything coming in contact with the eyes should be clean; and serious infections and accidents should be

LET'S TALK LIVESTOCK

By Ted Gculdy

FORT WORTH—The swine plague—vesicular exanthema—has struck in Texas! Positive diagnosis of a case of the disease was made at Fort Worth today from a "sick pig" discovered in the stockyards last Thursday.

Vesicular Exanthema has been rampant in the Midwest for some months and originated in California, where it has been common for many years. Called "VE" for short, the symptoms are identical with the dread foot-and-mouth disease.

For this reason careful tests were made at Fort Worth and calves, lambs and a horse were inoculated with serum from the feet of the infected hogs to be sure of the diagnosis. On Monday, Dr. C. F. Layton, veterinary inspector for the Bureau of Animal Industry of the USDA, sent word to this writer that the VE diagnosis had been proven.

This poses a very serious problem to hog producers, hog buyers and markets where hogs are handled. Producers certainly are concerned deeply about avoiding a start of the disease in their herds. Buyers are fearful of tremendous losses if a sick animal is found in their plant. Losses of \$5,000 and \$10,000 have resulted when VE pigs have been found in packing plants. The loss is caused by the fact that much pork must be destroyed and a thorough cleanup of the facilities and premises must be made.

In fact the virus is believed by many to be spread as much from pork scraps in garbage as from contact or otherwise. One hog feeder called this writer at Fort Worth Sunday night and suggested that all dining car garbage should be either cooked or destroyed and not fed to hogs. It was his theory, and shared by many others, that dining car garbage was probably respon-

able for the praid cross-country spread of the disease.

The Eastern Meat Packers Ass'n last month passed a resolution demanding that garbage feeding of hogs be stopped by law. It is the considered opinion of a majority of observers in the matter that the trouble does seem to center around feeding operations where raw garbage is fed.

Texas faces a big job. It is fortunate that the disease was discovered early and speaks well for the alert inspector for the Texas Livestock Sanitary Commission and the Bureau of Animal Industry of the USDA on the Fort Worth Livestock market.

Efforts are being made to trace the origin of all the hogs found to have the disease here.

IT'S THE LAW
in Texas
A public service feature of the State Bar of Texas

When a person suffers injury due to some negligent act on the part of a minor, his usual reaction is to seek out the minor's parents to press a claim for damages, leaving them to deal with their offspring in their own way.

It may therefore come as a surprise to many to learn that the minor himself may be held legally accountable. It is a well settled principle of law in the State of Texas that a minor, who by his negligent acts injures another, is liable in damages to the injured party.

Upon proper proof being presented to the court, a judgment for the damages inflicted by the minor may be secured in behalf of the injured party. In cases where a minor is thus sued for his negligent acts, it is necessary that the judge appoint a special guardian for the minor, known as a Guardian Ad Litem.

The duty of this person is to see that the minor's rights are properly protected, and that he is adequately represented on the trial of the case.

A judgment secured in such cases against the minor is a valid and binding judgment which may be satisfied by levying execution upon any property which the minor may own which is legally subject to execution.

Should the minor have no property upon which execution can be levied, and satisfaction made, then steps should be taken to keep the judgment alive. There are means of keeping such judgments alive for many years. By doing this, and by keeping track of the minor, it is possible to make the judgment follow him until he eventually does acquire property subject to execution.

WHEN YOU HAVE IMPORTANT BUSINESS AND ASK OLD KONKLEWEIGHT PERMISSION TO LEAVE A FEW MINUTES EARLY

THANK TO X.G.O. ST. LOUIS, MO. GEO. NUTTAN

IT NEVER FAILS

BUT WHEN THIS CUTE LITTLE RED HAS A BEAUTY APPOINTMENT... THAT'S DIFFERENT - IT NEVER FAILS

Of course, there are practical considerations in a lawsuit against a minor. The most frequent stumbling block is naturally the situation of a minor having absolutely no property to satisfy any judgment which may be secured.

However, this lack of property in no way affects the right of the injured party to his judgment, which, as mentioned above, may eventually pay off after the minor reaches majority and accumulates enough property to satisfy the judgment.

Now, however uncertain this means of gaining redress for injuries may seem, in many cases it may prove to be the ONLY method of collecting damages. For, when the chips are down, your chances of FORCING repayment from the parents are usually very slim. From a legal standpoint, there is nothing

in the parent-child which automatically entitles the parent to sue for the child's negligence.

In order to be permitted to sue for the child's negligence in some way, the parent must first establish the liability of the child.

Thus, although the extremely protective ward minors and their liabilities, allowing privileges not accorded to minors, made no substantial gains with regard to negligence.

This column, based on information written to inform—No person should ever interpret any law without an attorney who knows

WE'LL be the first to admit that you can buy a car for less than the price of a Buick.

But not so much less as most people think.

And just to save those few extra dollars, you'll miss fortune in fun.

For the few extra dollars you pay for a Buick, you get the ginger and thrill of a lot more power than you'll get in any other car of its price and pounds—plus the big mile-per-gallon figures of Buick's famed high-compression Fireball 8 Engine.

You get size and room and looks to do you proud—comfort you'll hardly believe—and that good sense of security that only ample weight can impart.

You get the all-coil-spring ride that a million dollars could duplicate. You get handling, steering, braking, turning—all with an ease that women especially appreciate.

We could go on at length about a lot of other things, including a fair-sized list of items you get in every Buick which cost extra on lesser cars.

But why go on? The fun and fine feeling and wonderful comfort you enjoy in a Buick are things you shouldn't be missing for just a few extra dollars. And the value—just can't pass that up.

Got a little time to drop in and let us prove our point?

Equipment, accessories, trim and models are subject to change without notice. *Standard on Roadmaster, optional at extra cost on Super Series. †Optional at extra cost on Roadmaster and Super Series. **Optional at extra cost—available on most models.

Morton Jaycees Are Organized

Morton organized a Junior Chamber of Commerce Monday, Sept. 29, with 33 paid members.

The Loveland Junior Chamber of Commerce members helping to organize the new group were Wyatt Hanks, state director of the Junior Chamber of Commerce; Jim Setser, Dave Kisner and David Bates.

Members from Lubbock were Ralph Krebbs, state Junior Chamber of Commerce Extension Committee chairman; Rufus Rush and Howard Howell and Buddy Blackman, regional vice-president, from Muleshoe.

A tentative date for the charter banquet has been set for the third week in October and John Ben Sheppard will be the speaker. A definite date for the banquet will be announced later.

The Morton club will be affiliated with state and national Junior Chamber of Commerce clubs.

Bobcats are so secretive in their movements, that they are seldom seen by men, even in places where there are many of them.

Truman Lewis In German School

Munich, Germany—Cpl. Truman O. Lewis, son of Mr. and Mrs. Virgil Lewis, Earth, Texas, recently graduated from the Seventh Army's non-commissioned officers academy at Munich, Germany.

The six-week course emphasized the use of weapons, Army administration, tactics, supply, physical fitness and organization. Students were carefully selected by their organization commanders before attending the school.

A 40-mm gun pointer with Battery A of the 27th Anti-Aircraft Battalion, Lewis entered the Army in March 1951. He has been awarded the Army of Occupation Ribbon for service in Germany.

ABOARD THE USS BENNINGTON

Spade Business Man Hunting In Colorado

H. N. Bennett and Boots Gray, accompanied by the latter's brother-in-law of Hobbs, New Mexico left Monday morning on a hunting trip to Durango, Colorado. They plan to return home Friday or Saturday.

The trip to Colorado is an annual affair for Mr. Bennett and Mr. Gray.

JAPANESE HANDS

DISHWASHER HANDS

There's a difference in hands that "do" dishes and hands that "dial" dishes. Hands that "do" dishes are often rough and red, chapped and creased and unattractive. Hands that "dial" dishes are soft and smooth, the nails are polished and pretty, and they always look beautiful and bright.

An automatic electric dishwasher — the way that lets you "dial" dishes — makes dishwashing a snap. Just scrape the dishes, stack them in the dishwasher and snap the dial.

For your hands' sake, don't "do" dishes, "dial" dishes.

LOCK HAVEN, Pa.—Not far from this Susquehanna River valley town is the village of McElhattan, where a little grey grandmother is hailed as the only woman of her years in the U.S. to head a boys baseball league.

And more than that—she manages her own team.

She is Mrs. Carrie Piney, sixtyish, a tanned tense lady who got mixed up with the game 23 years ago. In those two decades and more she's been a manager, scorekeeper, league official, and, yes, even an umpire.

Folks in McElhattan are as interested in the progress of Carrie's young team as they are in the latest on Bobby Shantz of the Philadelphia Athletics, or the woes of the Phillies' Whiz Kids. At bull sessions in Lena Miller's general store, the boys ask how Carrie's team made out before they check the papers for news of the majors.

Mrs. Piney's team is entered in the Clinton County Junior League, a circuit organized three years ago for boys in their early teens. She was an organizer of the league and served one term as vice president before being elected president in 1950.

The story of Carrie Piney's involvement with baseball is one of a mother who thought the game was good for her boys and did

something about it. Once she got into the sport she couldn't get out. Now, long years after the summer day she organized her first team, she finds herself still coaching and planning schedules and teaching youngsters the art of being good losers.

You find her most any evening at the little ball diamond her boys have carved out of a farmer's field on the outskirts of McElhattan. Clad in a simple house dress she stands on the sidelines shrilling advice and encouragement as she sends her young charges through a practice session.

At various times in her busy life—which at one time included operating a combined general store and branch post office—she's managed an adult ball club and been its official scorer. In emergencies she's called them from behind the plate.

And she never hesitated to give a player a tongue-lashing for losing his temper. "I can't abide a poor loser," she says in her Pennsylvania Dutch, "a man like that shouldn't play ball."

Mrs. Piney is the wife of retired railroad worker Robert Piney, a man who never had much use for baseball. Her sons are grown up now and married with kids of their own. They think Mom should take it easy with approaching old age.

But Carrie Piney—the Connie Mack of Clinton County—only smiles at such a suggestion.

MRS. BASEBALL of Clinton County, Pa., is Mrs. Carrie Piney, a sixtyish greying grandmother who is serving her third term as president of a junior league and manages her own club. At left is the team's captain, pitcher Scotty White. The other players with Mrs. Piney are Ronnie Stabley and Herb Spong.

The American Negro is a new race of people whose ancestors represent many tribes in Africa with admixtures of white and Indian blood.

The decay of adult teeth is due to organisms which gain entrance to the tiny crevices which are always present where the enamel plates are joined.

HAVING FUN AT THE STATE FAIR

Fun at the fair, the great 1952 State Fair of Texas in Dallas, is typified by the happy faces of these kids who visited the mammoth exposition on the first weekend. Top left, Bill Meredith of Longview on the Midway; top right, Jerry Brower of Plano in front of the Hall of State; lower left, Sally Ann White and Shirley Bass of Jacksonville near the huge Sky Wheels; lower right, Donald Oldham of Paris eating a hot dog in front of the Cotton Bowl.

AP NEWSFEATURES

AP Newsfeatures

These are the days when left-overs taste juicy and mid-overnight clothes look dreamy. Every family feels the pinch of prices and new dresses are few and far between.

Most young girls go back to school with at least one new outfit, and after its newness has worn off, what then? We are likely to stare at our tarnished wardrobe fixedly and even the new dress begins to look shabby.

This is the time when ingenuity counts. If the allowance permits and Mom's sewing machine is handy, a skirt and blouse can be turned out with a simple stitching assignment. Two yards of fabric can make a skirt, and depending on the fabric, this can mean anywhere from a \$3 to \$10 saving. Simple blouses can be teamed with it

at a fabric investment of about 1 1/2 yards per blouse. Odds and ends can be converted from the family scrap bag into

such glamorous accessories as scarfs, collars and ties. And last fall's wardrobe can be perked up by creative stitching.

Last fall's suit can be made mod-

ish by relining the jacket with a paisley print. A matching blouse will lend a couture touch. For a professional look to this sewing project, follow the general rule of "pin, baste, stitch, remove bastings and press." Run basting thread around neck and armholes to prevent stretching fabric when assembling.

If you have a number of skirts, you can do limitless fancy touches. The zigzag attachment of your sewing machine can help create amusing things with felt appliques in a few minutes. One clever teenager applied felt geometric squares, triangles and circles on the hem of a swirl-type skirt. Another girl made eyes of felt and stitched lashes on with black darning thread. Her "eye-cue" was achieved by using up old worn-out felt hats.

Scallops and ruffles can take the plain skirt out of the classroom and put it on the dance floor. Faced scalloped hemlines are practical for most fabrics and are easily achieved by tracing scallops on wrong side of facing. Place right side of facing and dress fabric together and baste. Stitch around

scallops. Cut around scallop one-eighth inch from stitching line. Turn facing to wrong side, press and hem in place. A deep ruffle of bright or printed taffeta stitched to the underside of a skirt hem is another way to brighten up an old skirt or dress.

Pockets can help perk up the dreariest looking skirt. If the skirt already has a pocket, cover it with pretty artificial posies, or sequins, braid or fringe. Prowl the notion counter of department stores and investigate the dress-up possibilities of novelty buttons. Sew on gay pockets made of bright grosgrain ribbon.

Sweaters have endless possibilities of becoming party-wear. Beads or sequins from old cast-off gowns in Mom's closet or the attic can be used to decorate the neckline and sleeves of sweaters for a pretty effect.

A jumper can be made out of an old dress by scooping out the neckline, ripping out the sleeves. The armholes may need slight altering to accommodate the blouse or sweater you'll be wearing with it.

An extra-smooth and stylish skirt can be made from scratch by using black wool jersey and raffia. Or use your old black jersey skirt as a basis for the raffia designs. Raffia, which can be bought in hobby

OLTON JUNIOR TO MEET SENIOR

Olton High School's Senior will meet the Senior in what may well prove of the season's most football battles.

CARD OF THANKS
Words fall us as we try to express our gratitude and thanks to the many who were so kind and good to us during our recent sorrow—when our loved one, Joe Clark was taken from us.
We do wish to especially thank the ladies of the First Methodist Church, who brought food, and helped in so many ways—we wish to thank those who sent flowers—and to those who gave us words of sympathy and encouragement.
We are most grateful to Dr. W. C. Nowlin, and to Rev. and Mrs. W. H. Vanderpool, jr., and to Rev. Lee Hemphill.
May God's richest blessings be with each and everyone.
Mrs. Joe Clark
Linda and Donna Clark
Mr. and Mrs. Leo Clark
Mr. and Mrs. L. N. Rainey

CARD OF THANKS
We are deeply grateful to the many kind and gracious friends, who were so good to us during our recent bereavement—at the time of the passing of our husband and father, George Sherling.
We do especially wish to thank the members of the Missionary Baptist Church, members of the 6th and 8th grade who sent flowers and fruit—the friends and neighbors who cooked and brought food to our home—and to those who contributed to the beautiful floral offering.
May God bless each and every one of you.
Mrs. Donie Sherling
Lois, Patsy, Joyce,
and George Sherling jr.

CARD OF THANKS
May we take this means of expressing our thanks to the many who were so kind and good to us during the long illness of our daughter and sister, Miss Juanita Wells, and also at the time of her death.
We do especially wish to thank Rev. Lee Hemphill and his wife for the deeds of kindness shown to us, and to Miss Betty Bonner of Amherst, who administered to her during her last illness.
We also wish to thank the ladies who brought food, and to those who sent the beautiful floral offering.
We are most grateful.

Have Happy
Reunion In Germany
A-1c Calvin L. (Stump) Bryant and Cpl. Stanley Ancinec had a happy reunion in Germany on Labor Day.
Bryant, son of the R. H. Bryants of Whitharral, has been in Germany for the past 16 months and is stationed at Erding Air Base there. He is a 1949 graduate of Whitharral High School.
Ancinec, son of the Joe Ancinecs, who live east of Whitharral, arrived in Germany in July after being stationed at Camp Rucker, Ala. He is a 1947 graduate of Whitharral High School.

Technical Sgt. Jack F. DeLoach, USMC, Drill Master of the Naval Aviation Cadet Drill Team, nationally famous precision drill unit from the "Ampelis of the Air," U. S. Naval Air Station, Pensacola, Fla. (Official U.S. Navy Photograph—109939)

AUTHOR

Of the Week

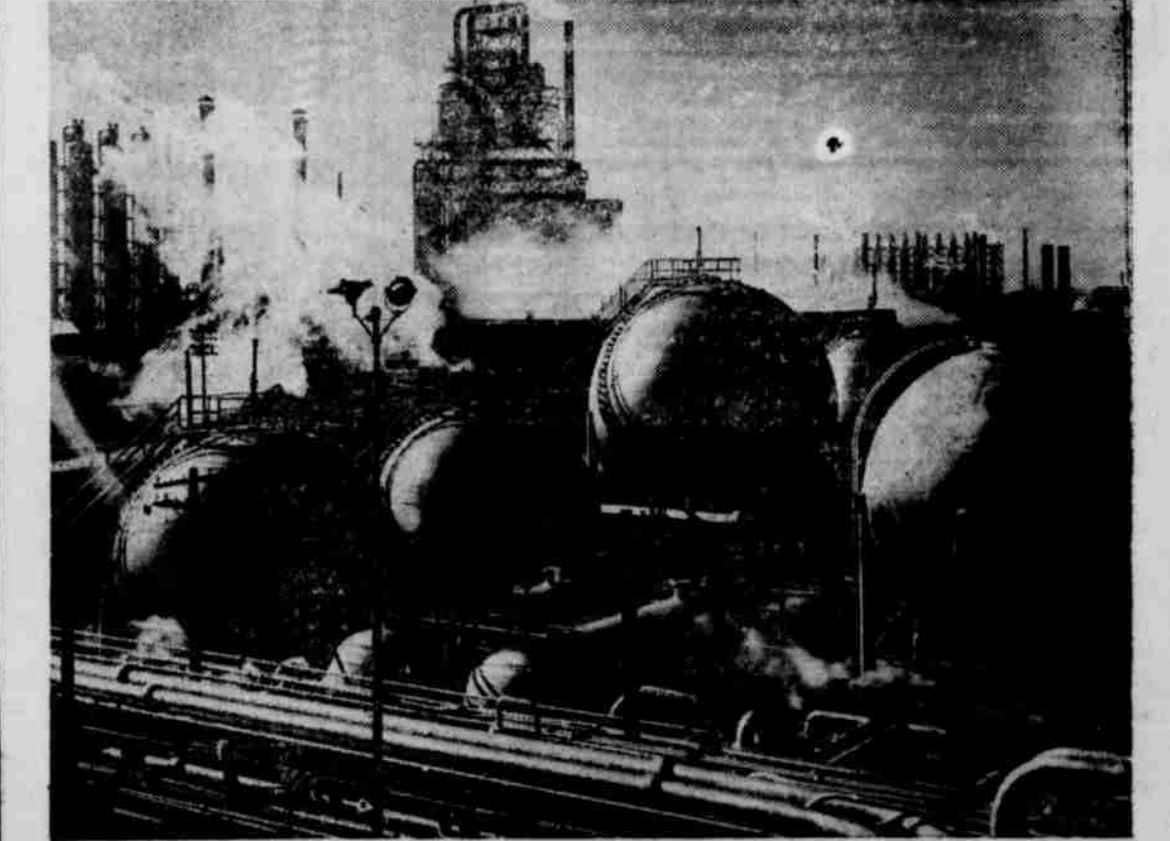

AP Newsfeatures

William Carlos Williams, author of a novel, "The Build-Up" was born in 1883 in Rutherford, N.J., where he has practiced medicine and written his books since the first decade of this century. It was poetry which won him a National Book Award, but he has written a good deal of prose, including his autobiography, essays, short stories and other novels. His fellow students at the University of Pennsylvania included Hilda Doolittle, Marianne Moore, Ezra Pound and Charles Demuth, and he has been well acquainted with other leaders

in the advanced creative arts, among them Joyce, Stein, Hemingway, Stieglitz and Hartley.

Pressure Cookers

Crude oil must be processed in giant refineries before it has any real commercial value. In monstrous towers such as these, the crude oil is heated under pressure, and such products as gasoline, light and heavy oils, waxes, and asphalts are drawn off. Molecular structures are joggled and reformed to make many new chemicals, compounds and products. Refineries cost millions of dollars to construct.

SQUIRE EDGEGATE—Miss Tricolet Is All There

Overseas Christmas Packages Must Be Mailed By Nov 15; Requirements Given

The period from October 15 to Nov. 15, has been designated for the acceptance of Christmas parcels for members of our Armed Forces serving outside the continental United States.

Many Christmas parcels will be sent this year by persons in this country to their loved ones serving overseas and the following instructions should be CAREFULLY OBSERVED with the view of assuring delivery of the gift parcels on time and in good condition. Patrons are advised that foodstuffs subject to spoilage and breakage should not be sent overseas since military personnel are well supplied with food by the Armed Services.

The term "Armed Forces overseas" includes the personnel of our Armed Forces, members of their families, and authorized United States civilians employed overseas who receive their mail through an A.P.O. care of Postmaster, New York, N.Y., San Francisco, Calif., New Orleans, La. or Seattle, Wash. or Fleet Post office at New York, N.Y., or San Francisco, California.

AIR PARCEL POST intended for personnel of the Armed Forces serving overseas or in naval vessels should be mailed not later than November 25, 1952. Air parcel post mailed subsequent to this date cannot be assured airlift overseas and may not be delivered prior to Christmas. Air parcel post is LIM-

ITED IN SIZE TO 30-inches length and girth combined and to 2 pounds in weight.

TIME OF MAILING. The importance of mailing Christmas parcels during the designated period is EMPHASIZED STRONGLY. The public can be reasonably sure that parcels mailed through the regular surface mails prior to November 15 will reach their destination before Christmas. However, no assurance can be given that surface parcels mailed after November 15 or Air Parcel Post mailed after November 25, will be delivered in time for Christmas.

NOTE—Senders are cautioned NOT TO DELAY mailing of parcels until December assuming that timely delivery will be assured through the use of Air Service. For the reason that, in addition to the huge volume of Christmas mail, it is necessary that medical and military supplies be given the highest priority on the available overseas airlift, particularly that to combat zones. Also, after air parcels arrive overseas final delivery, in many cases, must be made through the use of such surface transportation facilities as are available. Parcels destined for Japan, Korea, and the islands in the Pacific should be mailed as early as possible, preferably not later than November 1, in view of the distance involved.

Parcels for Navy and Marine Corps personnel serving in the most remote areas should be mailed not later than October 15.

SIZE AND WEIGHT. The regular size and weight limits for domestic surface parcel post are applicable to Christmas parcels for the Armed Forces except that a limit not to exceed 50 pounds applies for parcels addressed for delivery through A.P.O.'s 22, 120, 124, 125, 125-B, 147, 179, 190, 191, 192, 193, 194 and 755 care of Postmaster, New York.

PREPARATION—Boxes for overseas transmission must necessarily be of strong construction on account of the great distance these parcels must be transported and the handling and storage they must undergo. It is absolutely necessary that all articles for overseas delivery be packed in boxes of metal, wood, solid fibreboard, or strong double-faced corrugated fibreboard, testing at least 200 pounds.

Each box should be securely tied with a strong cord, preferably by four separate pieces, two lengthwise and two crosswise, knotted at crossings. Sealing the flaps with gummed tape where they meet strengthens the box, but the use of such tape alone will not be sufficient, since the tape loosens if the boxes become wet or exposed to moist atmosphere.

Boxes should contain sufficient cushioning material so that the contents will be tightly packed to prevent any rattling or loosening of the articles within the parcels. Unless completely packed and tightly filled, boxes are likely to be crushed.

NOTE—Existing instructions require that Customs Declarations be made and accompany parcels mailed to certain A.P.O.'s, this list of A.P.O.'s is lengthy and you should consult your Postmaster in relation to this requirement.

PROHIBITED ARTICLES—In addition to the usual articles prohibited in the mails, matches of all kinds and lighter fluid may not be mailed to overseas military addresses. CIGARETTES and other TOBACCO PRODUCTS are prohibited in parcels addressed to certain A.P.O.'s and Navy Post Offices—so before you prepare your Christmas parcel determine if the above restriction applies—ALSO, COFFEE cannot be mailed to a long list of A.P.O.'s.

POSTAGE—The domestic rates of postage are applicable, and postage must be fully prepaid. Fourth Class matter (parcel post) sent by surface mail is subject to the zone rate applicable from the post office in care of which the parcel is addressed. Air-mail articles weighing not to exceed 8 ounces are chargeable at the rate of 6 cents per ounce or fraction thereof, and those weighing over 8 ounces are chargeable at the rate of 80 cents per pound or fraction thereof.

ADDRESSING—Addresses must be legible and prepared in typewriting or ink. It is best that the outside addresses be handprinted

oyce (I Give You Texas House, B right Fort Worth author and after-dinner speaker, visiting Hollywood, is told by Sam Zimbalist (MGM producer of "Quo Vadis" and "King Solomon's Mines") about his next picture, "Mogambo," spectacular African story starring Clark Gable. House worked with Zimbalist as technical adviser-writing consultant on "Boom Town" some years ago.

Exploration Crew at Work

Exploration crews must brave all kinds of hardship in the ceaseless search for more oil. They work in the mountains, valleys, plains, deserts and swamps. Here a seismograph crew is making ready for a test shot in the bayous of Louisiana. Waist-deep in muck and water, they emphasize the ruggedness of the job that all oil men face in keeping America strong with an abundance of petroleum and petroleum products.

DIRECTLY ON THE WRAPPERS OF THE BOXES rather than on labels pasted to the wrapper—since experience has shown that the labels frequently fall off when subjected to moisture. It is highly desirable that a slip of paper containing the names and addresses of the sender and addressee, together with a list of the contents of the package be enclosed in each parcel so as to provide identification and proper disposition of the mail (in the event the addresses on the outside become defaced in transportation, or the parcel becomes broken open).

CHRISTMAS CARDS—Greeting cards for Armed Forces personnel overseas may be mailed at any time, but patrons should mail such cards prepaid at the 1st class rate prior to November 15, 1952; and at the Air-mail rate prior to December 1, 1952, if they are to have reasonable expectation of delivery prior to Christmas.

If you plan to mail anything to any of the Armed Forces overseas cut this out of the paper for reference.

People with old cars tend to drive faster than those with new, high-powered machines, according to a British survey.

NEW FIRE ALARM FOR AMHERST

A new fire alarm for the city of Amherst was installed last week and is now ready for use according to Raymond Cantrell, City Fire Chief.

The new system is atop the city hall. The C. & C. Electric Company made the installation.

Persons needing to turn in an alarm are asked to call the City Hall at 2421 before 5 o'clock and after that time, call J. D. Bench at 2431 or 2331 or Raymond Cantrell at 4187.

The old alarm was destroyed when the Amherst Hotel burned several weeks.

Record these numbers in a prominent place where you can see them, on a moments notice.

NEW RESIDENTS

Mr. and Mrs. R. J. Dunson formerly of Wellington are new Littlefield residents. Mrs. Dunson has accepted a position as teller in the First National Bank, and Mr. Dunson is employed with the Fire Department at Lubbock.

There is strong evidence to indicate that tooth infection apt to occur if the teeth cleaned promptly after especially after consuming soft drinks, says the Electric research laboratory.

Olton And Canyon Battle To 7-7 Tie In Non-Conference Game Friday

OLTON—The Olton Mustangs and Canyon Eagles battled to a 7-to-7 tie here Friday night at Olton Memorial Stadium. It was not a conference game.

Coach Joe Turner's Mustangs scored in the first quarter. Johnny Durham carried the ball five yards around left end for the touchdown, and R. V. Allcorn kicked the extra point.

The Eagles, coached by Fred Murray, scored midway of the second quarter when R. A. Burgess ran six yards around left end to pay dirt and then faked a pass and ran through center for the extra point.

The second half was a tug-of-war up and down the field, with neither team able to score. Statistics for the game follow:

First downs: Canyon 13, Olton 7. Yards gained from rushing: Canyon 159, Olton 150. Passes: Canyon 3 of 8 for 35 yards; Olton 2 of 12 for 28 yards. Penalties: Canyon 6 for 40 yards; Olton 5 for 45 yards. Punts: Canyon 4 for 150 yards; Olton 7 for 157.

Happy Cowboys —

(Continued From Page 1)

Trailing 6 to 0 in the first period, Amherst got back into the game on a 44-yard run by A. L. Nuttall, Bulldog halfback. Nuttall passed for the extra point. The half ended 12 to 7.

After the half, Bulldog halfback Martin Hardwick broke through for 43 yards to put Amherst ahead 13 to 12, but Selvidge slammed through minutes later for the clinching score. The final period was scoreless.

Amherst racked up 11 first downs to 10 for the Cowboys and was penalized 10 times for 110 yards. Happy lost 40 yards in six penalties. Center James Anderson was outstanding on Bulldog defense.

Wildcats —

(Continued From Page 1)

try-for-point was blocked. Later in the same period Dumas' Mowery ran back a punt 52 yards for the final Demon six-pointer. The game ended with the Wildcats on the Dumas' 14-yard-line.

The Demon's Mowery was their main offensive spark, as he made repeated gains on pitch-outs around end. But not even he could dent the middle of the Wildcat line. Although outweighed, the Cats' line was great on defense. Dumas was held to their lowest score of the season.

The Wildcats sorely missed Northam in their offensive. The load being taken by Rhoten with help from Beckner playing his first game of the season and aerial-artist Jones.

The Wildcats old weakness—pass defense—sprang up again. But the Cats were aided somewhat by Dumas passer Joel Lummus as he consistently overshot his intended receivers.

Even in losing the Cats scored more points than all the previous Dumas opponents combined.

This coming Friday finds another real test for the Wildcats, as they play host to the Seminole Indians from District 8-AA. The Indians will come to town with virtually the same team that shaded the Wildcats last season, 26-24. Seminole is rated No. 6 in Class AA in the state and has already defeated two members of District 7-AA. They beat Brownfield 6-0 Friday and Levelland 44-13 the week before.

Littlefield's hopes will be somewhat brighter with the return of Northam to the lineup. Jordan may or may not see action in this last game before district play starts for the Wildcats on Oct. 31.

Anton Romps Over Farwell 35-13

ANTON—Anton's Bulldogs drove to their second straight District 3-B triumph here Friday night in a wild-scoring 35 to 13 battle.

The running of James Burdette, Jimmy Jones and Scottie Woodson for the Bulldogs were more than a match for Farwell's passing duo of Eddie Smith and Len Carpenter.

Fullback Kenneth Hice set up Anton's first score with a pass interception Burdette carried 40 yards on the following play for the Bulldog's first touchdown. Quarterback Buddy Spears ran the extra point.

Farwell came back in the second quarter on a 40-yard pass gainer Smith to Carpenter to make the score 7 to 6, Anton. On the kick for extra point, the ball hit upright and fell back into the field of play.

Jones completed first half scoring on a 33-yard scamper off tackle with Hice running the extra point. In the third period Jones put the game out of reach of the Farwell eleven on a 10-yard scoring drive. Spears passed to Johnny Harper for the extra point.

Farwell fought back gamely with Smith connecting with Carpenter again on a 30-yard touchdown play. Burdette and Woodson capped scoring for Anton on runs of 10 and 35 yards.

Farwell's final counter was pushed over by Dennis Raney.

Dodgers Had —

(Continued From Page 1)

"When he does better with the strike zone he'll hit 50 points higher," says Johnny Neun, the old Baltimore soccer player who scouted the Giants for the Yankees.

By the way, "whatever happened to Leo Durocher?" was the leading question of the Series. Even the writers who traveled with the Giants were a bit incensed. Leo left the city during the fifth inning of the Giants' final game of the season and flew west.

Everybody put the needle into Durocher for his fast exit. Drossen tried to give it a little twist, too, for which nobody blamed him.

"He has gotten some mighty lucky breaks out of baseball," says Chuck. "You would think he'd stick around. I did last year and it was a mighty hard thing to do after losing that playoff. And last winter I had to listen to him at all those California banquets."

ON USS MT. OLYMPUS

Recently participating in operation Main Brace on board the amphibious force flagship USS Mount Olympus was William J. Rogers, boatswain's mate seaman, USN, son of Mr. and Mrs. Omen Rogers of Route 1, Littlefield, Texas.

In daily maneuvers the NATO naval forces conducted air and surface operations, fueled at sea and trained in communications designed to bridge language barriers and the differing techniques among the international forces.

The War Paint Problem

Hallowe'en marks the day that the children can get a greater variety and quantity of stuff on their faces than any other time of the year. Mother's problem is to remove Junior's war paint before his later-than-usual bedtime.

A solution of All-Purpose Surf, applied with wash rag or sponge will whisk away almost every type of "decoration" the little fellow can get on his face... and his delicate skin will remain baby-smooth.

Springlake Downs Dimmitt 13-12

DIMMITT—A determined Dimmitt rally fell a point shy here Friday night as the Bobcats lost to Springlake, 13-12, before a crowd of 3,000 in a Conference 2-A football game.

Two one-play touchdowns put the Bobcats behind midway through the second quarter, 13-0.

Later in that period, Jess Burch slammed off tackle on a quick opener and went 40 yards to score. His try for the extra point was no good. Neither team could count in the third quarter.

In the final stanza, however, Burch took a pitchout, circled end and ran 35 yards for his second touchdown. Edgar Dennin tried to run over the tying extra point but was stopped short.

The game was the third defeat in four games for Dimmitt and the fifth victory without a loss for Springlake.

The score by quarters:
Springlake 0 13 0 0-13
Dimmitt 0 6 0 6-12

I. B. Holt, Jr. Qualifies In Aircraft Carrier Landing And Take-off

I. B. Holt, Jr., Naval Aviation Cadet, recently took off and landed his SNJ "Texan" trainer six successive times aboard the USS Cabot. The Cabot was cruising in the Gulf of Mexico.

This completed Cadet Holt's aircraft carrier qualifications.

Cadet Holt is the son of Mr. and Mrs. I. B. "Doc" Holt. He enlisted in the Navy in September 1950.

IS OFFICER OF PANHANDLE CLUB

Jack Ramsey of Plainview will head the Panhandle club at Texas A. and M. College this school year. Other officers are Dennis Zahn of Littlefield, vice-president; Berkley Sorelle of Canyon, secretary-treasurer; Ted Perkins of Canyon, social chairman and Paul Roper of Shamrock, reporter.

REST MY CHIN—A Denton County Fair visitor who traveled a long way from Brownwood shows how tired she is. "Little Tyke" is from the Cinderella Jersey Farm, and carried out her rest period while her Mama competed in the Fair's dairy cattle show. Tyke was too young to compete herself, but came along just for the ride—and three square meals a day, by the way. —AP Photo

Hereford Whitefaces Battle To 0-0 Tie With Dalhart Wolves Friday Night

Ralph Rudd Buys Springlake Service Station

A deal was made the past week whereby Ralph Rudd purchased and has taken possession of the Goforth Service Station at Springlake. Mr. Rudd is well known in the Community and with customers at the Service Station having been employed there for the past four or five years.

Ernest Goforth, who has owned and operated the station for the past eight years, plans to devote all of his time to farming interests in the Springlake community.

New Mexico claims it has the oldest road in the United States, El Camino Real, established in 1581.

DALHART—The Hereford Whitefaces battled a favored foe Friday night for the second time this year as the Dalhart Wolves couldn't penetrate a rugged defensive line.

The Whitefaces had no trouble, too, however, when home 19 and 14 without being able to score.

Strong defensive stands order of the game, though Dalhart going to the 21st quarter and being stopped.

Hereford was ahead on statistics.

Center J. J. Mathews led a Dalhart pass in the first and the Whitefaces drove before a Wolves plug stopped.

Longest run of the game 30-yard end jaunt by Dalhart my Hammitt.

The Herefords now have record, playing a scoreless Levelland earlier, and the have won two, lost three one.

Texas Democrats want **TEXAS-BORN IKE**

"RESOLVED... that it is the recommendation of the Convention that every Democrat in Texas vote and work for the election of Dwight D. Eisenhower for President and Richard Nixon for Vice-President"

TEXAS STATE DEMOCRATIC CONVENTION
AMARILLO, TEXAS • SEPTEMBER 9, 1952

A Vote for EISENHOWER Is a Vote for TEXAS!

TEXAS DEMOCRATS FOR EISENHOWER
