FIRST NATIONAL BUYS STATE BANK

THANKS RESIDENTS OF THIS AREA FOR PATRONAGE OF BANK

STATEMENT ISSUED BY FIRST STATE BANK CASHIER

Hugh Sullivan, cashier of the First State Bank, in commenting upon the sale of their bank to the First National Bank, which sale was effective January 30, made the following statement:

"Our volume of business being insufficient to return a profit to the stockholders commensurate with the capital invested, it was our decision to discontinue the investment here. Although we were in a position to pay our depositors in full, we considered it advisable to consummate the sale to the First National Bank, whereby we sold them our assets and they assumed our liabilities, thus saving the time required in liquidation. "We appreciate the pleasant relationship with our customers and friends and assure you of our pleasure in serving this community."

PROMISES TO KEEP EXPENSES OF DEPARTMENT LOW

Len Irvin, who served Lamb county for five and one-half years as sheriff, Wednesday announced as a candidate for election to that office.

In announcing as a candidate for election as sheriff, Mr. Irvin issued the following statement:

"To the Citizens of Lamb County: "After being solicited by hundreds of good people from all over the county, I have decided to make the race for sheriff, subject to the action of the Democratic Primary in July.

"For the benefit of those who do not know me, I was born 43 years ago on a farm in Callahan County, near the town of Cross Plains, where I lived until I was 21 years of age. I then married and moved to my brother's ranch near Baird, where I worked for a time previous to buying a small farm in Eastland County. I lived there until moving to Lamb County in 1923, locating near Olton, where I now live.

"I served as deputy sheriff of Eastland County for six years, and a short time as city marshal of Littlefield previous to being appointed to fill out the unexpired term of Jay Carter as Sheriff and Tax Collector of Lamb County. At the end of that term I was elected Sheriff and Tax Collector, which place I filled for four more years, making a total of five and one-half years as your Sheriff.

LOCAL FINANCIAL INSTITUTION IS IN GOOD CONDITION

FIRST NATIONAL BANK ASSETS INCREASE \$100,000

Littlefield and district is building, in the First National Bank of this city, one of the strongest banking institutions of the South Plains.

With the purchase of the First State Bank of this city by the First National Bank, effective as of Saturday, January 30, the First National is alone in this field with increased opportunities to make rapid progress. The First State Bank was solvent in every detail, but it was deemed advisable by the officers of that institution to withdraw from Littlefield, believing that there was not sufficient business for two banks.

The First National Bank is in excellent condition, as is revealed by the condensed statement, which is published in this issue of the Lamb

GASTON PATTERSON ASKS RE-ELECTION AS COLLECTOR

PROMISES TO RENDER COURTEOUS, EFFICIENT SERVICE

Gaston Patterson, who is serving his first term as tax collector of Lamb county, Wednesday announced as a candidate for re-election.

Mr. Patterson, a young man who has grown up in Lamb county, worked three years in the tax collector's office previous to being a candidate at the last election for the office of collector.

Born at De Leon, Comanche county, Mr. Patterson came to Lamb county in 1922. He farmed all his life until entering the tax collector's office, and still owns a farm, which is located one and one-half miles south of Olton.

Mr. Patterson, in announcing as a candidate for re-election, pointed out that, as an employee in the tax collector's office and as tax collector, he had at all times exerted the maximum in effort to render efficient and courteous service to the taxpayers of Lamb County. As collector, he has retained in his office a courteous deputy who, like Mr. Patterson, has lost no opportunity to render efficient, courteous service to the public.

One of the special services which Mr. Patterson has rendered as collector is that of receiving taxes at chief points in the county at special tax paying times. He has visited the various points personally and, in addition, has paid out of his personal funds the wages of the necessary number of assistants.

"If re-elected to the office of col-

STATE SEED TESTING LABORATORY IS ESTABLISHED FOR PLAINS, PANHANDLE

Lubbock—Establishment of a state seed testing laboratory here and appointment of G. L. Beene, as assistant analyst in charge of that work in Lubbock for the South Plains and Panhandle section was announced Saturday.

The work already has begun, with some inspections being made Friday and Saturday, said Dean A. H. Leidigh of Tech. Equipment of the school, placed at the disposal of the department and state equipment are being used. Appointment of the assistant analyst here is the result of efforts of the Lubbock grain exchange, the chamber of commerce, J. Bower, Tech agronomist and several local organizations, and the delay has been due to lack of state finances.

Required by Law

The 41st legislature passed the seed testing law which requires that seed offered for sale for planting, in packages of 10 pounds or more, must have a tag showing whether the seed has been tested for germination, noxious weed and grass seeds and amount of inert matter. R. S. Stuard, chief inspector for the Lubbock Grain ex-

change, said the testing office would save hundreds of dollars monthly through the inspection season, to farmers, grain buyers and others.

Under the former plan, Stuard said a car of seed set out here for inspection could be had or else held at the point of destination until the report was made. "Within the past month," said Stuard, "I believe that \$250 was spent in telegraph tolls to secure seed reports for grain held here, without waiting for a mail report. Now it is possible to obtain a germination report and have it forwarded to the destination and arrive there about the time the shipment arrives. About six days are required for a germination test."

All kinds of grains, corn oats, wheat, rye, barley, grain sorghum, sudan and other seeds, come under the provisions of the inspection law. Cotton also is included. A small charge is made for inspection, to take care of costs, the same charge being made here as at Austin. Equipment of the school of agriculture at Texas Tech was placed at the disposal of the department of agriculture. Miss Wynona Robbins, seed analyst, who held a seed grading school at Plainview, inspected the local equipment and

"FLYING HIGH," RIOTOUS SATIRE ON AVIATION TO BE SHOWN AT PALACE

Many people, these days, are taking aviation seriously, but "Flying High," M-G-M's new comedy which opens at the mid-night preview at the Palace Theatre and runs through Sunday and Monday, doesn't.

It gets giggles and guffaws galore out of aviation fields, aviation training and pilots, treating all with highly amusing satire.

The principal protagonists are Bert Lahr, America's most imitated comedian, in his original stage starring role of Rusty Krause, and Charlotte Greenwood as Pansy Botts, the waitress who advertises that she wants to marry an aviator... and does.

Lahr and the long lanky Charlotte make a great comedy team, one of the finest in recent years. The rubber-faced Lahr and the tall and thin Miss Greenwood are admirable foils for each other. The scenes of their flight high in the air, in Lahr's outer aeroplane, are excruciatingly funny.

"Flying High" is a comedy with music, and there are four delightful numbers, three by Dorothy Fields and James McHugh, and one by DeSylva, Brown and Henderson.

Other members of an excellent cast include Pat O'Brien, Kathryn Crawford, Charles Winniger, Hedda Hopper, Guy Kibbee and Herbert Bragioti. Busby Berkeley, who did the ensembles for "Whoopie," directed the colorful dance numbers. Charles Riesner, of "Politics" and "Reducing", fame, directed the production with his usual sure touch for humor.

A \$100,000 plant is being built at Texon to extract the sulphur from natural gas produced in the nearby field. Another similar plant at Midland is manufacturing commercial fertilizer from gas and disposing of the "sweet gas" residue for fuel. Possession of the largest natural gas supply in the known world not only is a source of invaluable fuel, but of numerous by-products, carbon black, one of the few manufactured commodities in which Texas leads the United States, being an important one of them.

Is Your Gasoline Tax Money BUILDING GOOD ROADS OR ENRICHING RACKETEERS?

You pay a tax on every gallon of gasoline you buy. Your state levies this tax to pay for building good roads.

But your state is not getting all the money paid as a gasoline tax. RACKETEERS ARE TAKING AN ALARMING AMOUNT OF IT! They are selling bootlegged gasoline on which they pay the state no tax—but they make motorists pay all or a part of the tax. The racketeer keeps this tax money himself!

You get your tax back in the form of good roads when the state collects the tax. You get nothing when racketeers get your money. And remember—if your state got all the money paid as tax, it could well afford to lower its gasoline tax!

If you want your money to go into road building instead of into racketeers' pockets, make sure the gasoline you buy is not bootlegged. Buy gasoline made by a reliable, law-abiding company and sold under a dependable, well-known brand name, and be certain that your money goes to your state and not to the racketeers. That's the only way to beat the racketeers.

CONOCO Gasoline is a branded gasoline you can buy with safety at the sign of the CONOCO Red Triangle.

Restless, could not sleep
"THERE were days when I felt like I could not get my work done. I would get so nervous and 'trembly' I would have to lie down. I was very restless, and could not sleep at night.
My mother advised me to take Cardui, and I certainly am glad she did. It is the first thing that seemed to give me any strength. I felt better after the first bottle. I kept it up and am now feeling fine."—Mrs. T. R. Gibson, Fort Payne, Ala.

INDUSTRIAL DEVELOPMENT

One of the most important activities in the interests of Texas is that being carried out by Progressive Texans, Inc., an organization which is working actively in advancing the industrial development of this state.

It is the opportunity to once more print the objective of that organization which are as follows:

1. To encourage industrial development in Texas.

2. To create a greater industrial consciousness among the people of the state.

3. To encourage co-operative activity to help Texas manufacturers increase their production, efficiency, and the number of their employees.

4. To help Texas manufacturers, jobbers, dealers and consumers of Texas products.

5. To disseminate information in Texas' industrial growth are reported. Among the news items in the most recent bulletin are the following:

The Rock Asphalt Co. of San Antonio, which for 20 years has been engaged in paving, has established a branch plant in Houston to develop a new angle in its business—that of flooring and roofing. It has been selected as a trade name with a plastic plank and the first products to bear the name. It is planned ultimately to produce in various colors for use in buildings desiring a durable, fireproof and waterproof floor. Roofing shingles are to be added to the line. Black asphalt, asphalt from Texas refineries and cotton fibre, will be used in the products of the new plant.

While the details are still being withheld, it is reported from Jefferson County that the projected paper mill will have secured about 12,000 acres of second-growth pine lands in Marion and Cass Counties to supply for the raw materials to be used in making paper.

The trainload of Texas flour for North Atlantic seaboard ports was shipped from Sherman recently by the Smith Flour Co. The protein content of Texas flour makes it much in demand in the bakery and retail trade of the North and East. Four trainloads of nearly 500,000 barrels of flour in the last six months.

Jacksonville is figuring with Arkansas capitalists on the establishment of a new packing plant.

Results of the Breeder-Feeder movement in Texas are shown by the fact that on January 1 of this year there were 260,000 lambs on feed in Texas as compared with 83,000 on the same date in 1920—an increase of 300 per cent. The increase in the United States as a whole was only 14 per cent.

The Cummer-Graham crate plant at Paris, after a shut-down of several weeks, has resumed operations with enough orders on hand to keep its 118 workers busy for at least four months, besides the others employed in furnishing the materials.

The State Board of Control has promulgated an order that cotton must be the material for sacks in which cement and all other similar commodities purchased by the State are shipped. Paper sacks have been used on much of the cement previously used.

The Hartman interests of California has announced plans for building a 25,000-barrel refinery at some point on the gulf coast between the Neches River and the Houston Ship Channel, at an estimated cost of \$3,500,000. The La Porte Oil & Refining Co. expects to start construction in February on a new 2,500-barrel refinery near LaPorte.

Yount-Lee Oil Co., Beaumont, is constructing a pipe line from Spindletop to its tank farm with additional tanks, the whole improvement to cost around \$700,000.

Texas Angora Goat Raisers' Association is taking an active interest in the establishment of a mohair mill in Texas and has named a committee to investigate the possibilities. Texas, raising the bulk of the mohair produced in the United States, has not a single mill for its manufacture into finished products.

THE TREE GETS A BREAK

The West Texas Chamber of Commerce is sponsoring a movement to make this great country of God's a more glorious thing of beauty. They propose to do it by furnishing trees, flowers and shrubs, through local nurserymen, at the lowest possible cost, and spreading the gospel of home beauty from El Paso to Fort Worth, from Texline to Del Rio. West Texans will soon be quoting "But only God and cake a tree" and "Beauty is its own excuse for being," and know exactly what they are talking about.—Scurry County Times.

EIGHT YEARS AGO IN LITTLEFIELD

(Excerpts from Littlefield Leader)

In Lamb County there are gins at Sudan and Littlefield, and the estimate gin runs of these three places is put at around 2,000 bales to date. Muleshoe, in Bailey County, has turned out 500 bales. About 2,000 bales have been turned out by the two gins at Ropesville, in Hoekley county.

Nearly \$2,000 valuation of dry goods was disposed of at the J. E. Brannen auction sale here last Friday and Saturday. Four sales were held during those two days, attended by large crowds of buyers.

Mrs. G. D. Weaver and son, Arthur, arrived in Littlefield Saturday from Blackwell, to join the doctor in making this their future home. More than fifty families from Blackwell and vicinity are now residing in and about Littlefield.

J. E. Brannen is in receipt of a communication from Governor Pat M. Neff, including credentials as delegate to the annual convention of the Lee Highway association, to be held in Washington, D. C., February 5th and 6th.

of Texas in this capacity at the instigation of its chief executive is one to be appreciated by any worthy citizen.

L. E. Davanay of Sherman last week closed a deal with the local townsites owners for a stock of land on the south side of the railroad and just opposite the Littlefield Grain Company's elevators, on which will be located a 5-80 saw stand cotton gin.

Mr. Davanay says his gin will be of fire-proof construction, of the very latest modern type of machinery, and he expects to begin the building con-

struction within the next 30 days. E. I. Sturges of Lubbock is this week busy erecting a building just north of the Butler lumber yards, which, when completed, will be occupied by an up-to-date grocery and meat market.

Last Friday and Saturday were busy days with County Tax Collector T. M. Kennan and his force of assistants. From early morning until late at night the bank lobby was crowded to capacity with citizens anxious to liquidate their assessments and pay their poll tax.

L. Huber of Oklahoma City, last week purchased two lots in block 16, north of the Butler Lumber company, on which he will soon begin the erection of a two story hotel.

Rev. Gilbreath performed the ceremony uniting Chas. Dotson and Miss Ruth Linville at the bride's home northwest of Olton January 15. A wedding supper was served to the relatives and guests present. These young people will be at home to their many friends at their farm near Spring Lake.

Dr. Pillion reports the birth of a baby girl last Saturday to Mr. and Mrs. R. E. Hendrix, residing on the Cornelius Loewen farm west of town.

Jess Albright has been given the contract for moving the Methodist Church to the selected location in town.

Money is also being raised this

week for the erection of a building for the accommodation of Rev. Edgars, local pastor.

ENJOYS LIFE BETTER THAN

YESTERDAY'S MILLIONAIRE

Fifty years ago only a rich man could afford to burn 25 candles to read by—and, if he burned them, he got no more light than the man of most modest means gets from one electric lamp today.

Fifty years ago the best entertainment available to rich men could not remotely compare with the Electric "movies" and the Electric Radio that practically all can afford today.

Fifty years ago Electricity was just an experiment. Today it is the biggest single convenience in life. So widespread is Electricity's application today that without it the wheels of the world would stop.

Are you letting Electricity do for you what it is ready and willing to do?

Electricity is the cheapest thing—considering how much you can do with it—you can buy today.

THE STATE OF TEXAS
To the Sheriff or any Constable of Lamb County—Greeting:
You are hereby commanded to

summon D. D. Skelton, Mrs. Anna E. Bradley, S. E. Bradley, John H. Arnett, C. R. Kemp, Alice Dyer, and Mrs. E. L. Bennett, a feme sole, by making publication of this Citation once in each week for four successive weeks previous to the return day hereof, in some newspaper published in your County, if there be a newspaper published therein, but if not, then in any newspaper published in the 64th Judicial District; but if there be no newspaper published in said Judicial District, then in a newspaper published in the nearest District to said 64th Judicial District, to appear at the next regular term of the District Court of Lamb County, to be holden at the Court House thereof, in Olton, Texas, on the 4th Monday in February, A. D., 1932, the same being the 22nd day of February, A. D., 1932, then and there to answer an amended petition filed in said Court on the 23rd day of December, A. D., 1931 in a suit, numbered on the docket of said Court No. 817, wherein Houghton Brownlee and M. H. Goldsmith are Plaintiffs, and D. D. Skelton, Mrs. Anna E. Bradley, S. E. Bradley, John H. Arnett, C. R. Kemp, Alice Dyer and Mrs. E. L. Bennett, a feme sole, are Defendants, and said petition alleging as follows, to-wit:

Plaintiffs allege that on the 26th day of January, A. D., 1928, defendant D. D. Skelton made, executed and delivered his series of eight promissory notes, dated January 1st, 1928, numbered Nos. 1 to 8 inclusive; Notes Nos. 1 to 7 inclusive, for the sum of \$300.00 each, and Note No. 8 for \$3100.00, payable to the order of plaintiffs at Littlefield, Texas, on or before January 1st, 1929 to 1936, respectively, bearing interest from date until maturity at six per cent per annum, and from maturity until paid at the rate of ten per cent per annum, interest payable annually on January 1st of each year as the same accrues; said notes providing for ten per cent attorney's fees if placed in the hands of an attorney for collection, and further provides that in the event of default in payment of principal or interest, or either, shall, at the option of the holder immediately mature all of the remaining balance due thereon; whereby said defendant became liable and bound to pay said notes according to the tenor, effect and reading thereof. That Notes Nos. 1 and 2 of said series have been paid, and all interest paid on all of said notes to January 1st, 1930.

That said notes were given for a part of the purchase money of Labor No. 18, in State Capitol League No. 661, Original Grantee Abner Taylor, containing 177.1 acres of land in Lamb County, Texas; which said land was on or about January 26th, 1928 conveyed by Arthur P. Duggan to defendant D. D. Skelton by his deed of writing of said date in which was retained a vendor's lien on said land to secure the payment of said notes. That thereafter the defendant D. D. Skelton sold and conveyed said land to defendant Mrs. Anna E. Bradley, and in which deed the said grantee assumed payment of said notes.

That on all dates mentioned herein a seven room frame house was situated on said land; that on or about Dec. 15th, 1931, defendants Mrs. Anna E. Bradley and husband, S. E. Bradley, moved or caused to be moved said house from said land above described, and moved or caused the same to be moved to and placed on that parcel of land lying and situated in Southmoor Addition to the town of Littlefield, in Lamb County, Texas, known as Lot No. 11 in Block No. 4, of said addition according to the map or plat thereof recorded in the Deed Records of Lamb County, Texas, reference to which is here made for a more particular description thereof; that said house was and is of the value of \$3,000.00. That defendants John H. Arnett, C. R. Kemp and Alice Dyer have and claim some right, title, interest and estate in said last named lot of land; that defendant Anna E. Bradley and husband S. E. Bradley are the real and true owners of said lot; that defendant Mrs. E. L. Bennett, a feme sole, is claiming and asserting some right, title, interest and lien against the above described tract of 177.1 acres of land; that any such interest held or claimed by her is inferior and subordinate to the lien and claim of plaintiffs, that the claims of defendants John H. Arnett, C. R. Kemp and Alice Dyer to said Lot No. 11, in Block No. 4, of Southmoor Addition, and to the seven room house moved thereon and above described is inferior and subordinate to the claim and vendor's lien held against same by plaintiffs herein, and that plaintiffs have a prior and su-

perior vendor's lien on the same, superior and prior to the claim or lien of defendants or any other person or persons.

Plaintiffs pray for a temporary writ of injunction restraining defendants and each of them from executing and delivering any deed or deeds to said last named lot of land; and from selling or attempting to sell, and dispose of the same; and from moving or attempting to move, and from selling or mortgaging or attempting to sell or mortgage said house and said lot, pending the determination of this suit; for judgment for their debt, \$4600.00, interest and attorney's fees; for foreclosure of their vendor's lien on said land and on said house moved therefrom; for all costs of suit and for general and special relief.

T. WADE POTTER,
Attorney for Plaintiffs, Houghton Brownlee and M. H. Goldsmith.

Herein fall not but have before said court, at its aforesaid regular term, this writ with your return thereon, showing how you have executed the same.

Given under my hand and the seal of said Court, at office in Olton, Texas, on this 16th day of January, A. D., 1932.

M. W. ETTER,
Clerk, District Court, Lamb County, Texas.

Murder—

(Continued from Page One)

Driggers' wife and his son-in-law had seen the attack, County Attorney Johnson said. Immediately precipitant circumstances had not been determined, he reported.

Had Shared House

The attack is believed by Johnson to have resulted from differences over possession of the three-room house on the farm. The building had been shared by the aged man and McGuire, and members of the younger man's family. McGuire, formerly of Wilson, Okla., recently had purchased the farm, and about ten days ago the two men went to the place preparatory to moving.

McGuire said he knew of nothing which provoked the assault. Neagle had been asked to give possession of the farm and had refused. He would do the best he could. The following morning, McGuire said, he was informed by Neagle that he had moved to a place and would move in a few days.

Found on Floor

At 1:30 Tuesday afternoon, the man stepped from the south room occupied by himself and his father-in-law into the center room and then outside the building. As he left the middle room he said he saw Neagle peering from the door of the north room. Five minutes later, or possibly even less, McGuire said, he returned to find Driggers on the floor, wounded. He then heard members of the family leave their north room and then he heard an automobile start. Neagle and his oldest son left in a car, McGuire said.

A few minutes later Mr. and Mrs. Alva Leopard, son-in-law and daughter of Mr. Driggers, drove up in a truck in which they were moving part of their equipment to the farm.

A bloody ax was found behind a trunk in a small house nearby, where another family was living, Johnson said. Neagle was arrested at the side of the road about half way to Whitbarral, Johnson said. From the arrested man the county attorney learned that the man and his son left their car and hailed a ride with Granville Hill, a farmer. Hill's automobile ran out of gasoline and it was then that the suspect was arrested. Driggers was admitted to West Texas hospital at about 5 o'clock Tuesday. An emergency operation was performed to relieve pressure on the brain.

County Attorney Johnson described Neagle and members of his family as transient cotton pickers who had lived in the house three or four weeks. Neagle, he reported, previously had lived in Crosby county eight or nine months.

Bank—

(Continued from Page One)

County Leader. Assets \$100,000 Greater. One prominent feature of the statement is the fact that the assets are more than \$100,000 greater than on December 31, 1931.

Another feature is that, notwithstanding the acquiring of some loans made by the First State Bank, the loans of the First National Bank at this time are less than on December 31, 1931. In fact, the total of the loans are lower than they have ever been at any time since 1922.

Deposits Total \$349,663.27

Still another prominent feature of the statement is the fact that deposits total \$349,663.27, as against \$245,825.92 on December 31, 1931.

The statement shows loans and discounts at \$124,964.85, and available cash as \$208,334.67.

Men, well versed in financial matters, who have reviewed the current statement of the First National Bank, are very favorably impressed with the condition of that institution.

There has been no change in the officers of the First National Bank, as a result of the purchase by that institution of the First State Bank. J. C. Hilburn continues as president; J. T. Elms, as vice-president, and C. O. Stone, as cashier.

Irvin—

(Continued from Page One)

Irvin's office last January and going back to the farm, I have had lots of time to think and look back over my past record and experiences and can see where I made mistakes, and at my present age, with 12 years of past experience as a peace officer, I feel I am better qualified to fill the office of Sheriff than ever before, and it is on these grounds that I earnestly solicit the vote and influence of all the good people of Lamb County. If elected I will exert every effort to serve you to the best of my ability.

"I also want to mention that when I was in office that I not only served as sheriff, but also as tax collector, because of the fact that the offices were combined. The offices have since been separated, which gives the sheriff a full opportunity to carry out the duties of his office.

"If elected, I will strive to operate the sheriff's department at the least possible cost to the taxpayers. I also will urge closer co-operation between the citizens of Lamb county and the sheriff's department.

"I expect to make a clean race and will not resort to mud slinging, false rumors, etc., and it is my desire to see each and every one of you before the primary, if possible, but having to look after my farm and try to make a living, my time will be limited and in the event I don't get to see you, your vote and influence is earnestly solicited and will be appreciated.

Sincerely yours,
"LEN IRVIN."

man is, only we dislike to confess it.

And if America hadn't won the war probably she would have been deprived of the pleasure of footing the bills of those who lost it.

There are lots of times when silence is not only surpassing eloquence, but is the only irrefutable logic.

Some people grumble about the shortage of the dollars buying power, whereas our grumble is about the shortage of the dollar.

It is a rule among gamblers that "If you can't pay, don't play," which wouldn't be a bad rule for nations to adopt in the game of war.

Listen, friend, here is a valuable tip: If you are in the market for free advice, legal, medical, or other sort, you will surely soon be in need of real, honest, paid for advice if you are fool enough to act on the free advice you have snatched.

THIS IS WELL WORTH READING—

Parable of a Prodigal Father
By E. W. Godfrey, in "Man of New York."

A certain man had two sons, and the younger of them said to his father, "Father, give me the portion of thy time, and thy attention and thy companionship and thy counsel which falleth to me." And he divided unto them his living in that he paid the boy's bills and sent him to a select preparatory school, and to dancing school and to college and tried to believe that he was doing his full duty by the boy.

And not many days after, the father gathered all his interests and aspirations and ambitions and took his journey into a far country into a land of stocks and bonds and securities and other things that do not interest a boy; and there he wasted his precious opportunity of being a chum to his son.

And when he had spent the very best of his life and had gained money but had failed to find satisfaction, there arose a mighty famine in his heart and he began to be in want of

sympathy and real companionship. And he went and joined himself to one of the clubs of the country; and they elected him Chairman of the House Committee and President of the club and sent him to Congress. And he would fane have satisfied himself with the husks that other men did eat, and no man gave him any real friendship.

But when he came to himself, he

said: "How many men of my acquaintance have boys whom they understand and who understand them, who talk about their boys and associate with their boys and seem perfectly happy in the comradeship of their sons, and I perish here with heart hunger. I will arise and go to my son, and will say unto him, "Son, I have sinned against Heaven, and in thy sight; I am no more worthy to be called thy

father; make me as one of thy acquaintances." And he arose and came to his son.

But while he was yet afar off, his son saw him and was moved with astonishment, and instead of running and falling on his neck, he drew back and was ill at ease. And the father said unto him, "Son, I have sinned against Heaven, and in thy sight; I am no more worthy to be called thy father, forgive me now and let me be

your friend."

But the son said, "No, it were possible but it was a time when I had companionship and I got the wrong kind, but I got the wrong kind, alas, I am wrecked in my body, there is no more hope for me and there is nothing for me. It is too late, too late."
