Cerebral Palisied Children Clinic To Be Held Aug. 14

A clinic for the examination of cerebral palisied children will be held Monday, August 14. Five specialists will be present at the Center to examine children.

Cerebral palsy is a condition which may be present from birth or may be caused by childhood disease as whooping cough or measles, or by head injuries. Under treatment, many of these children improve to the extent that they can care for themselves, attend school or become employable. Treatment begun at an early age is most effective.

Parents interested in bringing children to the clinic on August 14, are requested to register the child at the Center at some time before the clinic date. Further information may be obtained by contacting Dr. Esther Snell, Director of the Treatment Center, 3502 Avenue N, or by calling Lubbock 6541.

State Water Meeting Set For Tuesday, August 29

Notices of a 21-county hearing by the State Board of Water Engineers on designation of underground water conservation districts will be posted soon.

The High Plains Water Conservation and Users Association office in Littlefield today said it understood the hearing date is Tuesday, August 29, at 10 a. m. in the Plainview city auditorium.

Six counties, Lamb, Hockley, Dallam, Lubbock, Hale and Swisher have petitioned the board for designation of reservoirs for the purpose of forming districts.

Farmers who draw irrigation water from the Ogallala sands—scattered over parts of 21 Panhandle-South Plains counties—will have an opportunity to appear at the hearing. The number of irrigation wells in the area is estimated to be between 12,000 and 15,000.

Notices of the hearing will be posted in each county and will appear in at least three newspapers, in Plainview, Lubbock and Amarillo, it was understood.

1 Hodgood Reported Drilling Lead To Test Ellenburger

The Oil & Refining company Hodgood was last reported ahead on an 11,000-foot test to test the Ellenburger.

Prospective discovery is six miles west of Anton, in the Central-North portion of county. It is eight miles south of Littlefield.

Shows of production were reported on drillstem tests by the well, which already has shown possible Permian discovery.

Drill was recovered on a test identified dolomite at 8,000 feet.

Other wildcat, Danciger Oil & Refining company No. 1 C. V. Cook, reported to have recovered 10 barrels of drillstem mud, with no shows.

Wildcat was slated to test near Fork of the Permian at approximately 7,000 feet. Operation has passed original completion depth, but recent shows of gas warranted deepening the well still further.

Above test on the Danciger well was the same section indicated for production in No. 1 Hobgood. The No. 1 well reportedly running low to Hobgood.

Twister Hurls Chicken House Over 15 Feet

While Littlefield suffered a sand and rain storm late Tuesday afternoon without receiving any speakable damage Jack Taylor's farm 5 miles north and one mile east of town did not escape so lightly.

A 10x25 foot chicken house was lifted completely off the ground, turned over and hurled 15 feet against the garage, smashing the chicken house and administering damage to the roof and side of the garage.

In addition to this, Taylor said that 26 acres of feed were destroyed by the small twister and several acres of cotton were washed away. He declined to estimate the total cost of damages.

The twister struck the Taylor farm at 5:15 Tuesday afternoon.

It did not touch the house or barn nearby and no other damage has been reported in the area.

At the time Misses Jo Ann Wallace of 604 W. Second St. and Bonnie Dutton of Amherst were visiting the Taylors.

ON THE LEGAL FRONT: Lubbock attorneys have been most complimentary of 64th District Judge E. A. Bills, Littlefield jurist who exchanged benches last week with 99th District Judge G. V. Pardue and tried several cases here. Pooled statements: He has admirable, judicial temperament, quietly maintains courtroom decorum, reflects in prompt and unbiased rulings his knowledge of the law and procedure and, in general, is a worthy successor to the 64th district's veteran presiding judge, C. D. Russell, resigned. Judge Bills became widely known for his general practice of law over more than two decades before his appointment to succeed Judge Russell.

Mr. and Mrs. W. C. Thaxton of Trench "th" hosts

Those qualifications which are essential to a competent presiding judge of a trial court—judicial temperament, knowledge of the law, integrity, dignity, actual trial experience in trial courts and in courts of appeal—are so plainly evident in Judge E. A. Bills of Littlefield, candidate for the office of District Judge of the 64th Judicial District, that our neighbors to the south of us have seen fit to recognize those qualities in unsolicited public print.

Judge Bills, who has lived and practiced law in Littlefield and this district for 26 years, has all the necessary qualities to make and is making an outstanding trial judge. His qualifications as recognized by the bar and citizens of this district and our neighbors to the south merit his election to a first full term in office. Judge Bills was appointed by the Governor upon C. D. Russell's resignation as of January first this year, the Governor making such appointment upon recommendations of citizens of this district.)

On the basis of recognized and acknowledged ability to handle this office, Judge Bill's candidacy is presented to you for your consideration.

This presentation of Judge Bills, candidacy is submitted on his behalf by friends and supporters.

National Farm Safety Week To Be Observed July 23-29

National Farm Safety Week is being observed throughout rural America, July 23-29. Therefore we feel that now is the time to salute another nation-wide safety activity in progress 365 days a year. It is the 4-H Farm and Home Safety program carried on by nearly half a million 4-H Club members between the ages of 10 and 21. We are told that these youth—who conduct safety surveys of their home farms and neighboring farmsteads—have the best organized safety program in the rural field. They not only ferret out hazards, but follow through and correct thousands of unsafe conditions relating to farm machinery, livestock, home-making, recreation motoring, and scores of other things.

Since the project was launched on a national basis eight years ago, enrollment has increased five times. This would indicate that our farm boys and girls have steadily become more safety minded. It means also, that in addition to the 4-Hers themselves, safety education has reached parents, residents of the local community, club leaders, and extension personnel.

So it seems a foregone conclusion that many times the half-million young folks taking part in the 4-H safety program are influenced and benefited. Perhaps this widespread flux of safety knowledge

 DISTRICT JUDGE
 SIXTY-FOURTH JUDICIAL DISTRICT
 LITTLEFIELD, TEXAS
 July 20, 1950.

To the Voters of the 64th Judicial District:

As you know, I am now District Judge of the 64th Judicial District. The Governor of this State appointed me to fill out the unexpired term of Judge Russell who resigned.

At the time of my appointment I had practiced law for many years, over 25 years in this district, in the district courts and appellate courts of this State. During the 6 months I have been District Judge I have tried many cases, civil and criminal, and by diligent work the dockets of the courts are up in good shape. I am willing to leave it up to the people who know me and to the jurors, litigants, lawyers, and others who have appeared in the courts as to my qualifications.

The fact that I have been engaged in the trial of cases almost every day since my appointment has made it impossible for me to see you. I therefore take this method of personally soliciting your vote and support in my race for a regular term as District Judge.

Sincerely yours,
E. A. Bills

MIDDLES By Bob Karp

HULLABALOO

By LYN CONNELLY

REMEMBER way back almost two decades ago when you used to tune your crystal set into a completely unorthodox bit of entertainment called "The Three Doctors?" And how, during the lush days of the golden era, one of the popular doctors, name of Ransom Sherman, went off on his own and conducted a daytime program from Chicago that is still discussed as one of the best radio shows in that medium's history?

If you remember the delightful nonsense written and delivered by "Dr." Sherman, you'll be glad to know he's come out of his hide-out in Hollywood to star in his own television show.

Ransom is back in Chicago where, "when someone says he's glad to see you, by golly he means it." He chose the Midwest city for his TV debut because he likes the natural, homey type of show that NBC Chicago develops. . . . "New York and Hollywood only think in terms of fabulous productions," he explains and, rather than get lost in a maze of arty background, he came back home where he could be himself. . . . It was a wise decision and we can safely predict that Ransom will do as much for the early days of TV as he did for the pioneer days of radio.

PLATTER CHATTER
MERCURY—Bill Bicke's Star-litters turn out a nifty platter in "Sometime," an oldie that is scoring big again. . . . A pretty little ditty, "Marianne," is on the flip. . . . Frankie Laine and Patti Page combine voices effectively in "If I Were You Baby, I'd Love Me" . . . "I Love You for That" backs it. . . . Jan August is at his best with a pair of unique tunes—"A Day at the Seashore" and "Egyptian Nights."

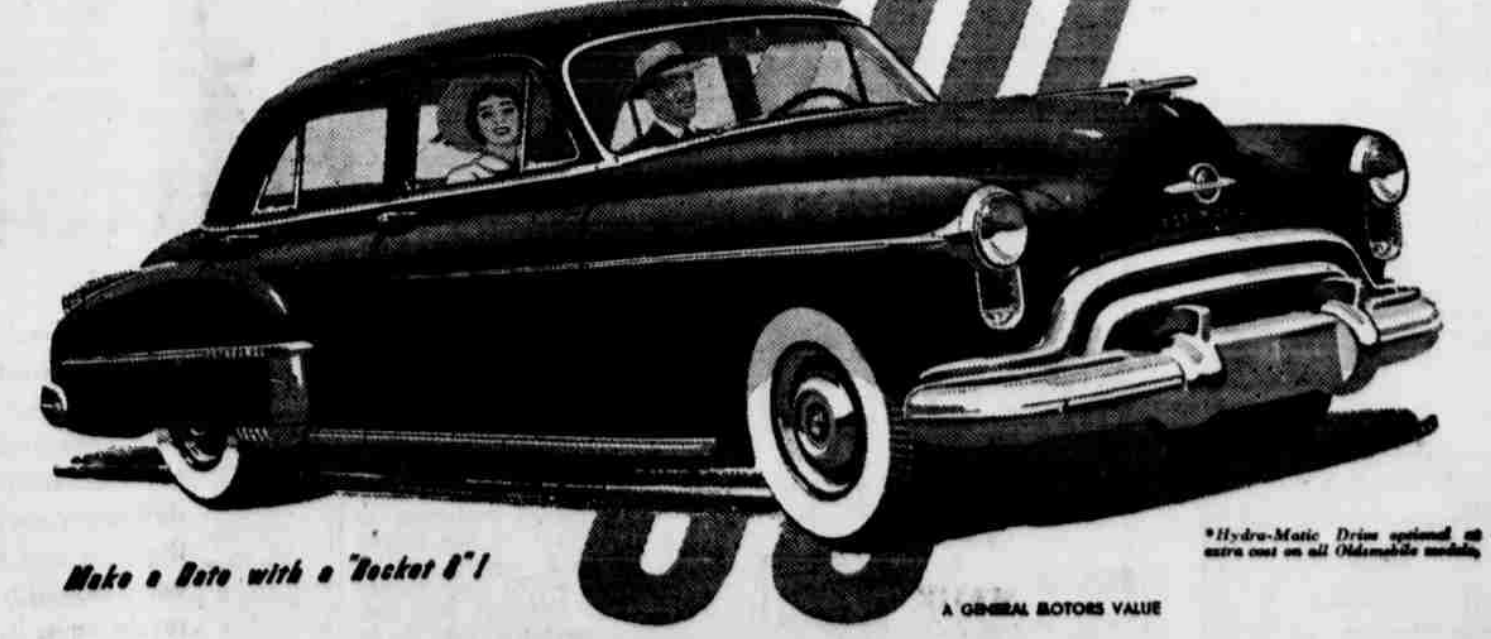

COLUMBIA—Frank Sinatra turns out a nice rendition on that old favorite, "Polkiana" . . . "There's No Business Like Show Business" backs it. . . . Frank combines with Rosemary Clooney in a real cutie, "Peachtree Street."

BULL LAKE PHILOSOPHER FINDS A WAY TO BE LAZY EVEN ABOUT GOING IN SWIMMING THESE DAYS

Editor's note: The Bull Lake Philosopher on the Johnson grass farm on Bull Lake has reached another peak of some sort this week in finding a lazy way to go swimming.

Dear editor:

When the weather gets as hot as it's been lately and a man feels about as productive as a washed

out, a thinking man slows down and cools off. If you work in town, it's possible to cool off and keep workin'. If your store is air-conditioned, and while some people may call that progress it don't strike me that way. There's a little difference all right between bein' hot and workin' and bein' cool and workin', but not

much. It's still work, hot or cool. A chunk of ice is just as heavy and just as hard to work whether you work in the summer or the winter. Personally, I favor a method that lets you cool off and loaf at the same time.

Consequently, a thinkin' man takes off and goes swimmin' on days like we been havin' around here. A swimmin' hole is a poor man's air-conditionin' system, with the advantage that there ain't much faimth you can do at the same time, and you blame sure can't run a addin' machine or sell drygoods.

However, I have seen lots of people who don't even know how to conserve their energy when they're swimmin'. Flail their arms around and kick and splash and make work out of what ought to be sheer rest.

My favorite swimmin' place is in a bend in a creek where the water runs swift over a sand bar, on account of I'm able to stretch out and let the water push over me which is the same effect as lashin' out with your arms and legs and don't take near the energy. If the effect of floatin' through the water is what you're after, why not let the water do the work I say. People waste too much energy. They don't take advantage of situations.

I know lots of men who have made money by goin' out after it, but I also know a lot who have made even more by sittin' still and lettin' it come to em, and the latter generally do it in air-conditioned comfort. I tell you, it makes a man pause, and if there's anything I like to do it's to pause.

Yours faithfully,
J. A.

COFFEE

the "Fraidy Cat"

By FAITH HELEN FAUST

Coffee was a tan foxhound. He was one of a pack of Foxhounds. The other Foxhounds called him "Fraidy Cat." He was afraid of the foxes.

One day, as he was walking in the forest, a fox poked his head out of the bushes. Coffee turned around and ran home. The fox yelled to another fox, and they chased Coffee home.

"Ha. Ha! Bow-Wow-Wow!" the other foxhounds yelled at Coffee and the foxes—"Fraidy-Cat," "Fraidy-Cat."

Coffee didn't like to be called a Fraidy-Cat.

The two foxes went back into the forest.

One of them said "that dog is really scared."

"Hey, I got an idea," said the other fox. "Listen, we can"

The next day Coffee took another walk in the forest. Suddenly a big fox jumped on him from behind. Coffee was suddenly very angry. He didn't like anything to jump on him from behind before the fox knew what was happening. Coffee hit him. The fox turned around and ran. Coffee chased him and hit him again. Coffee found out that the foxes were afraid of him. He is not a "fraidy cat" any more.

Information For Veterans

Q—Is compensation ever paid by Veterans Administration for disability due to misconduct?

A—Compensation may be paid under such circumstances if the disability was not due to the veteran's own willful misconduct. Penalties for non-service-connected disabilities will not be paid if it is determined they are due to the veteran's willful misconduct or vicious habits.

Q—My sister was in the Women's Army Auxiliary Corps when it was first organized. Is she eligible for VA benefits?

A—She may be entitled to hospitalization and burial, but women in the WAAC are not considered as having been in the active military service for the purpose of establishing entitlement to other VA benefits. The U. S. Employment Compensation Commission and not VA has jurisdiction to decide mine eligibility to compensation for those members of the WAAC who were honorably injured or killed in the performance of their duty.

Q—My grandson is requesting compensation from VA because his father was killed in battle. I am now in dire need and had but one best hope. He would have been my sole support. May I file a claim that claim for retro-payment?

A—Yes.
Q—There was in the claim when I am taking on-the-job training under the GI Bill has been received in the past month. Is now to go to the VA to get the VA and the hospital expenses in a lump sum?

A—No. Any disability claim while in training under the GI Bill does not entitle you to retro-payment because of your war service.

They Don't Get "Swind" and "kid" impressions experts to gross \$50,000 from his radio and television work this year—more than he ever made for a season of pitching. . . The Boston Braves have signed 17-year-old Frank Followell of Long Beach, Calif., southern high school pitcher who has been cited by 16 major league teams. In his three years of high school ball, the youngster won 22 out of 46 games, pitched five no-hitters and recorded 436 strikeouts. . . Steve O'Neill, new manager of the Boston Red Sox succeeding Joe McCarthy, is no novice at the game. He starred in the Cleveland club from 1920 to 1926, went from there to Buffalo in the International League, after which he led Detroit's farm club at Beaumont, Tex., in a pennant in 1942. When Earl Baker, Tiger manager, resigned in 1942, O'Neill took over there. . .
