Final Report Says Law Violations Are At a Minimum

The following statement was issued by H. C. Arnold, grand jury foreman, at the close of the December term of district court at Olton:

To the Honorable Charles Clements, Judge of Said Court:

We, your Grand Jury duly impaneled and sworn at the above term of court, hereby render its final report: We find that law violations have been at a minimum in our county, and the credit for this belongs to the Sheriff's Department, the various Constables, and other Peace Officers in our county. With the assistance of our citizens they can continue to keep our county free and clean from the evil influence of the law breakers.

The County Attorney has his work in good shape, and has kept up with the misdemeanor violations that have happened. This has saved us much time, and the county much money.

We want to thank the District Attorney for his assistance to us during the term.

Lamb County Leads South Plains Area In Cotton Ginnings

Lamb county led 17 other South Plains cotton producing counties in ginnings up to December 1, compressing 10,776 bales, only about 25 per cent of bales ginned during the same period last year. Total South Plains ginnings, according to the federal census bureau, were 75,339 bales.

Terry county was second in number of bales ginned. Scurry was third, Lynn fourth and Hale fifth. Ginnings of Swisher, Gaines, Borden and Yoakum counties have not been reported.

The only county to report ginnings of over 10,000 bales, Lamb is still far behind the 42,600 bales compressed during the first 11 months of 1933. Lubbock led other South Plains counties during the same period last year.

Farm Census Hold a Important Time soon after we are now

Members of the Chamber of Commerce of this section weekly luncheon meeting day noon, which was presided over by J. C. Hilliard, Vice-President.

The first matter to come before the meeting was the prospects of cotton oil mill for Littlefield. Mr. Hilliard stated that this should be one of the most important projects of the Chamber for this year, and urged the co-operation of the members of the booster group. He suggested that a committee be appointed at once to take care of the promotion of such an enterprise. It is expected that such a committee will be appointed at next meeting.

A. H. McGavock, representative of the Baker Pump Company of Lockney, who is handling the Peerless Irrigation Pumps, addressed the meeting.

Mr. McGavock said that irrigation is not a experiment any longer on the Plains and that many wells are being drilled by his company, who has about twenty well drillers at work. He stated his company had received around 100 contracts to furnish irrigation pumps on the plains, five of which are in Lamb County, saying that they hoped to install 1900 plants on the South Plains during 1935. These plants are being financed by the First National Company of Lockney, aided by the Government according to Mr. McGavock.

"Irrigation," said Mr. McGavock "will pay where water can be obtained at a depth of 150 feet. The average cost for three inches of water is 55 cents per acre."

He also stated that he was opening an office in Littlefield, and would welcome inquiries as to how these irrigation pumps can be secured and financed, and cost of drilling the wells and operating the plants.

J. H. Ware spoke briefly on Littlefield.

We Do Our Part

THE SALES TAX

The sales tax is an unfair and unjust method of raising revenue. Dr. Karl Ashburn, professor of economics at Southern Methodist University believes.

"This tax is unfair because it places the burden on those least able to bear it—the masses," he said.

"If the tax is placed on every-day essentials, the standard of living in Texas, already low, will become still worse. Should a heavy sales tax be imposed sales would be curtailed and business slowed down," he declared.

Prof. we agree with you; we can't get any clothes now and if they put on some sort of sales tax . . . well, we might go to jail. We only buy one new pipe a year and if they put on a sales tax we probably would be arrested as a public nuisance.

PRESERVING STATE DOCUMENTS

Ravages of time and constant handling are causing disintegration of some of the state's most ancient land documents and title papers, Land Commissioner J. H. Walker will report to the next legislature.

Their care prolongs the life of the documents, but even Commissioner Walker said, it will be necessary to recombine and place the originals in special folders.

Documents should be kept in properly cared for folders when he suggested placing the originals in special folders. The legislator or person who has a lot of valuable documents should discuss this with the Land Commissioner in the most economic manner.

FIRST INSTALLMENT PROLOGUE

Ellen Church was posing for her mother. Posed—a slim, wistful figure—against the dying glory of the autumn garden. Her slender seventeen-year-old arms were outflung to the gold and crimson of the falling leaves.

Her mother said suddenly— "Get a little more limber, Ellen. You're tightening up. Remember that you're the spirit of youth, just now, and loveliness, and new dreams. Remember that you're our magazine cover. Remember that you're our bread and butter for next month. And perhaps, dear mother, sigh, for the month after, and the month after that!"

Ellen flexed her stiffening fingers and dragged her eyes away from the land into which they had been peering. Ellen obediently let herself go limp, inside as well as outside. She wasn't self-conscious about it, not Ellen. All her life she had been posing for her mother. As a new baby, round and plump and naked, in

THE NEW FORD V-8 FOR 1935

The New Ford V-8 for 1935 is the biggest and roomiest Ford car ever built. It is a strikingly handsome car, with modern lines and new, luxurious appointments.

But most important of all it is especially designed to give you smooth, easy riding over all kinds of roads—"a front-seat ride for back-seat riders."

This ease of riding is achieved by the use of three basic principles never before combined in a low-price car.

1. Correct distribution of car weight by moving engine and body forward eight and a half inches.
2. New location of seats by which the rear seat is moved forward, toward the center of the car—away from the rear axle and away from the bumps.
3. New spring suspension which permits the use of longer, more flexible springs and increases the springbase to 123 inches.

The result is Center-Poise—which not only gives you a new riding comfort but adds to the stability of the car and its

ease of handling. You can take curves with greater safety.

There are many new features in the Ford V-8 for 1935 which make the car still easier to drive. New brakes give more power for stopping quickly with far less foot pressure on the pedal.

A new type of easy-pressure clutch employs centrifugal force to increase efficiency at higher speeds. New steering mechanism makes the car still easier to handle. New, wider, roomier seats.

The New Ford V-8 for 1935 retains the V-8 engine which has demonstrated its dependability and economy in the service of more than a million owners. There are refinements, but no change in

basic design. You buy premium performance when you buy this Ford V-8—full 85 horsepower and capable of 80 miles an hour. All Ford V-8 cars for 1935 come equipped with Safety Glass throughout at no additional cost.

We invite you to see this New Ford V-8 for 1935 at the showrooms of Ford dealers. You will want to ride in it—to drive it yourself. You will find it a new experience in motoring.

I knew that you'd get me, that I'd never be free, or myself, as long as I cared for someone. Your father taught me that. I loved him too, so much that it hurt—so much that it still hurts!"

Rapidly she was gathering up the twisted tubes of paint, the canvases—all of the paraphernalia of her trade. "I wish," said Ellen, "that you'd tell more about Father. After all, he belonged to me, sort of, too; although I never saw him. I can't help wondering why you always say such queer things about him."

Great tears had begun to well in her mother's eyes, to roll down her cheeks.

"I always knew," said her mother, "that it would have to come, some time. You can't keep everything shut away, no matter how hard you try! But I couldn't hope to shield you from everything forever—some day something would come up! Perhaps it's better, after all, that you should hear my story from me."

Ellen had crept close. She didn't speak, but her mind, following her mother's voice, made pictures.

Pictures drawn from her lonely childhood, from the years which she had lived with her mother in the brown house that lay back of the garden—years that had been broken only by business letters and the rare visits of the art agent, who sold her mother's work in the city. Their very clothes had been chosen, wholly from department store catalogues!

Once a week, always, Ellen and her mother had walked the two miles to the village and ordered their supplies. And Ellen stared at the village girl who was stared at by the village boys—while her mother exchanged conversation with the storekeeper. But her garden and the weather. A certain aged laborer came up to the brown house when there was hard work to be done. He reported, back in the village, that he thought the artist lady was queer.

Perhaps, in a way, he had reason to think so. Certainly Ellen and her mother were hermits, defying custom and convention—learning their

own lessons of life from trees and flowers. But Ellen, even with a lack of preaching, knew about an upagan God. Didn't God make, said her mother the only dependable thing in the world, Beauty? And Ellen knew of the Christ who had played—perhaps, also, a solitary child—on the shores of a blue sea, and who had prayed in a garden (was it like their garden, she wondered?) and who had died on a cross.

"Think of Him," her mother had once said, "whenever you feel that you want to see, to love, people. He, Ellen, was love. He loved all of the people of the world. And people, Ellen, nailed His hands and His feet to a wooden cross!"

These were the pictures that Ellen saw as she croched beside her mother, in the fading garden.

"I've had my fill of cities," her mother was saying. "That's why I never left this place, not since your father brought me here more than twenty years ago. . . . That's why I've kept you here, too. Don't think I was unconscious of what you were missing—I knew! But when I told myself that you needed boarding schools and beaux and fun and gaiety, I told myself also that you didn't know you were needing them. . . . I told myself that I'd rather have you sitting on a window-sill, separated from the world by bars, than a part of the crowd outside of the window! As long as you sat on the sill, I told myself, you couldn't be jostled too much. Jostling hurts. . . ."

"I was once entirely a product of the city," Ellen's hand, creeping up, found her mother's hand. "I was going to art school, studying to be a portrait painter, when I met your father. After that my plans were all different! I met him at one of the student dances (I don't know yet how he happened to be there), and we were both in costume. He was a cavalier, and I wore a hoop-skirted dress, and I had a tiny wreath of moss rosebuds in my hair. . . . We weren't even introduced. He just came up," the mother's eyes had a listening look, "and took me in his

arms, and we danced away. It was a waltz, the Blue Danube. At the end of the waltz he—kissed me. At the end of a week we were married.

A leaf fluttered down from one of the autumn trees. Her mother went on.

"At first," she said, "we were ever so happy, your father and I. Although I had to give up my painting (your father didn't approve of women having careers.) I was far too much in love to argue the matter. We lived in a little apartment, and your father went every day to his office. I didn't know what he did in that office—he resented my questioning, somehow. But I did know that his income seemed to grow more and more inadequate—and that, at the same time, he seemed to grow more and more restless. I tried so hard," the steady voice broke, at last "to hold his interest! But I suppose I was different than I had been in a pink gown, waltzing! Men, Ellen, like glamor. . . ."

"It's a long story. I won't tell it to you, all. Only, after ten years of scripping and economizing, your father suddenly bought this place and brought me here to live.

He, didn't ever stay here very much himself. . . . It seemed almost logical to me that he shouldn't for I could understand that his business would make staying in the city necessary! I loved him so greatly," Ellen's mother was fighting for self-control, "that I naturally trusted him. But I was very lonely—so lonely that I actually had to do something. The place is isolated now, it was far more isolated when I first came here to live, I had no neighbors

len, with a rake at packet of seeds. I brought a packet of blossoming things to around this house in which we lived. And at last, when my garden was flourishing, I got out an old color box and dusted it, and began to make sketches. I hadn't thought of doing anything commercial—that all came after your father's going, when I found that I must earn our livelihood. At the beginning I just made pictures for companionship. They were pretty too—but they had an emptiness about them. I guess that's why God sent you to me, child. He knew I needed something alive and cuddly to make my garden perfect!

"Oh, Ellen," the fingers that the girl held were returning her pressure fiercely. "I'd given up all idea of having a baby, ages before you came to me! I'd had ten lonely years in the city, and five lonelier years out here, before I knew that you were coming. I couldn't believe it, as first. It was just too utterly lovely. And the knowledge held something else beside loveliness—it brought a new hope to me. I couldn't help feeling it would make a difference in the relationship between your father and myself; a baby couldn't help but bring a sense of responsibility into his life. He always liked new things. . . . and there is nothing so new as a little baby. . . ."

Lady Says CARDUI Eased Pain In Side

Cardui helped an Oklahoma lady, as described below, and many others have been benefited in a similar way. "I had a hurting in my side every few weeks," writes Mrs. Bill Stewart, of Dewar, Okla. "I had heard of Cardui and started taking it. It stopped my hurting and built up my strength. I took 11 bottles and I sure felt better." Try Cardui for pains, cramps, nervousness due to a run-down condition. Thousands of women testify Cardui benefited them. If it does not benefit YOU, consult a physician.

which, according to Mr. Hammons will afford considerable more space than was possible in the present establishment.

Certain improvements also will be carried out in the exterior of the building, one of which will be the making of the front porch into a sunroom.

Mr. Hammons has been in business in his present location for the past four years, carrying on a furniture and undertaking business. Prior to that time he was located in the building now occupied by the Piggly-Wiggly Grocery & Market, and carried on a similar business for about four years.

It is the plan of the Hammons Funeral Home to have a formal opening of the establishment about February 1.

We face the new year with many pleasant memories of the past, 1935 was not a bad year for the First Baptist Church, many happenings could be mentioned that brought joy to the heart of both pastor and congregation, but now as we turn to the new lets make 1935 even greater. We again invite the public to worship with us.

THE PRESBYTERIAN CHURCH
Hubert Travis, Pastor

Now that another year is over let us make no foolish resolutions; but let us make up our minds to be better neighbors and better citizens. Sometimes it is difficult to be a good neighbor or a good citizen; but only difficult tasks are worth doing.

We are trying to be good neighbors and good citizens over at our church. Come over and help us in our worship and praise of our only God. Sunday school will open at 10 o'clock, and the sermon topic for the 11 o'clock hour will be, "THE CHILDHOOD OF JESUS." There will be young people's groups at 6 o'clock, and an evening worship service at 7 o'clock.
Come and worship with us.

METHODIST CHURCH
J. W. Hendrix, Pastor

Yes, we have de New Year! Indeed it is now. In all history, of all the nations, of all the races, kindred and tribes, none of them have littered it with their poor living, or glorified it with their sacrifice. Some are given to make New Year's resolutions—maybe too quickly to break them—and it is well to do so. It is an excellent time to turn a new leaf, begin a new ledger, to improve the record on a fresh clean sheet. Permit a suggestion that in the New Year you place on your calendar a period of worship. There are literally millions who give this as there very best investment; that out of this they derive the greatest pleasure. Begin this record somewhere the first sabbath of the year—Jan. 6th.

If you should chose the above mentioned church it has certain offerings to make to you, Christian fellowship, periods of pleasure, periods

of worship, times of instruction. Church school — 9:45 a. m. Supt. F. A. Hemphill in charge.

Morning worship — 11 a. m. served with excellent music and sermon to fit the New Year. Subject, "A 1935 MODEL."

Evening Worship — 7:15, with a big sing, many songs selected by the audience as their favorites. Then a sermon with this subject, "BANKRUPTCY AT THE HALF-WAY HOUSE." How many present? Is it crowded? Come and hear about it.

Leagues meet in their rooms at 6:30, and have forty-five minutes till evening worship. A goodly number of young people meet every evening at these Leagues.

The officers of the church take this opportunity to thank all who have in any way contributed to the success of the past year, and earnestly solicit your utmost co-operation during the year, 1935.

BLACK-DRAUGHT

"Such a Good Laxative," Says Nurse Writing from her home in Festus, Mo., Mrs. Anna LaPlante says: "I am a practical nurse and I recommend to some of my patients that they take Black-Draught, for it is such a good laxative. I took it for constipation, headache and a dull feeling that I had so much. A few doses of Black-Draught—and I felt just fine." Because so many people know from having used it that Theodor's Black-Draught is a good, purely vegetable laxative, millions of packages of it are sold every year.

Powerful lights will be installed and ready for use before the summer softball season begins. Olton high school gridders will probably play about seven home games under the lights next season.

Ordinarily, singing a paean of praise is a paen in the neck to this begrudging old dept., but as it was a West Texas team that whipped Corpus Christi for the state interscholastic championship at Dallas Saturday, we get a twinge of pleasure from assembling this humble effort. Try it on your zither:

The Sandies and the Bucs engaged in conflict plenty salty; The Christi's fell, but Cherry's crew stood firm like Old Gibraltar; So drink 'er down to Sandies strong, (Their power really warps us.) They, in departing, left behind A trail strewn with Corpuses.

They jerked our license for that last line.

Owing to the surprising success of our prognostication on recent football games, we are going to swear off while we have a one hundred per cent standing—four straight misses—and begin a forecast of basketball games.

Littlefield Wildcats are entered in the Anton invitation tourney Friday and Saturday. And are we gonna play safe? Listen to our guess on the outcome:

The Wildcats will play at least one game, maybe more. They may win it; they may lose it. The score may be lopsided; then again, it may be a close game. We've learned our lesson.

But win or lose, with the Cats go all the good wishes in the world and a slap on the back from this colyum to Coaches Barksdale and Hobbs who are straining every fibre to turn out a top five.

Motor Transportation Meeting at Austin

AUSTIN, December 26 (Special) Looking forward to mapping a more progressive program for their industry, motor transportation men of Texas will meet in a three-day convention in Austin the last part of December.

Conclave plans have received such unusually good response, according to Walter Beck, in charge of Texas Motor Transportation Association activities, that arrangements are being developed for a comprehensive motor truck and equipment exposition to be held in connection with the business sessions which will open December 27 and close three days later.

Splendid facilities of the University of Texas will be employed for both convention and exposition. Business meetings will be conducted in huge Gregory Gymnasium, on the University Campus, and a paved and parked area, 120 by 550 feet, will be the scene of the exhibition of the most modern machines and equipment.

AMARILLO SANDIES ARE STATE GRID CHAMPS AS BUCCANEERS LOSE 48-0 JOUST AT DALLAS

Starts Fistic Broil

NEW YORK... Steve Hamas (above), American heavyweight contender, has thrown the Madison Square crowd here into confusion by announcing he has accepted a match with Max Schmeling in Germany and to be staged soon.

The Amarillo high school Gokien Sandstorm literally blasted Corpus Christi's Buccaneers off the grid in the most lopsided victory ever recorded in a state interscholastic championship affair at Dallas Saturday afternoon. Final count was 48 to 0.

Coach Blair Cherry's husky line tore the Corpus defense to shreds while Sandie ace backs, Harlow, Stidger and Bufkin raced for one score in the first period, three in the second, one in the third and two in the fourth. Haas, Coast hope, threatened but was held in check.

Stidger booted six out of seven extra points. Amarillo made 27 first downs; Corpus 12. Sandies gained 464 scrimmage yards; Buccaneers 81; Waggoner, other Sandie back, was a blocking marvel all afternoon.

Fireboys Win Twice; Beat Amherst 33-29, Dunn's Flyers 21-14

Bob Cox's Firemen rounded out a perfect week with a Monday night 33-29 victory over the independent Amherst cagers here and a 21-14 win over Dunn's Flyers, also on the home floor.

Woody and Howton, forwards, were high point men for the victors Tuesday night, with Howton and Craig shining for Amherst. Woody and Howton repeated Tuesday night, while Dale and Gill, forwards, accounted largely for Dunn points.

Olton Cagers Defeat Spring Lake Five, 20-17

The Olton court squad trounced Spring Lake last year's champions, 20 to 17 in a holiday game which went to an extra period last week. Hair's field goal and Nixon's free shot broke a 17-17 tie early in the overtime quarter.

Spring Lake, although leading through most of the affair was erratic on close shots. Price and Banks were standouts for the losers. Olton, though a little weak on passes, made up for it with a fairly smooth defensive.

TODAY'S FASHION HINTS VERY LATEST By PATRICIA DOW

Designed in sizes: 4, 6, 8 and 10 years. Size 6 requires 1 1/2 yards of 3/4 inch material for the jumper and 1 yard for the contrasting blouse, with 3 yards of ribbon for trimming.

PEASANT FROCK

Pattern 8381—The vogue for peasant style of frocks is shown in many ways, but one of its most fetching examples is the little dress sketched.

The upper part of the jumper, which would be a bodice on a grown up, becomes a little plain squared yoke above which the white waist shows. This blouse is sweet on a small child because of its neckline drawn up into gathers by means of the cord or ribbon.

The puff sleeves are finished with the same cord and bows which may be in a gay color to tone in with the dress. A cotton material in small gay print is suggested with a white cotton for blouse.

Corn-Hog Program For 1935 Discussed

A corn-hog program for 1935 has been definitely decided upon by the Agricultural Adjustment Administration, and the contract and other forms are being prepared now," according to E. M. Regenbrecht, Extension swine husbandman. "Farmers will be invited to sign these contracts either late in December of this year or early in January 1935.

"The 1932-1933 base already established will be used again in carrying out both the programs. Farmers will be permitted to produce hogs to 90 per cent of the established base, and benefit payment will be figured at \$15 per head for the 10 per cent not produced. Another feature of the 1935 hog program is that it permits the unrestricted purchase of feeder hogs by contract signers from contract signers.

"An outstanding feature of the 1935 corn program lies in the fact that the exact amount produced is optional with the farmer within the limits of 70 per cent to 90 per cent of the established base. Benefit payments will be made at the rate of 35 cents per bushel on the appraised and adjusted yield.

"Regulations as to what contract signers may plant on all land kept out of corn production will be liberal. The only restriction is that they may not increase the amount of land planted to any other base commodity.

"Exact details of the corn and hog programs are not yet available, but it is hoped that they will be announced some time within the next 30 days," Mr. Regenbrecht said.

1935 V-8 Fords Are On Display In Littlefield

GRIFFIN-PASS DISPOSE OF SEVERAL CARS

The new 1935 Ford Cars went on display at the showrooms of Griffin-Pass Motor Company, Inc., of this city Saturday, December 29, who already report having made several sales in this new Model.

Most striking feature of the new car is body lines which are distinctively modern and a definite departure from any previous Ford design.

The new car also embodies a combination of major engineering developments aimed at increased riding comfort — Which has been called the "center-poise" ride.

Numerous improvements in chassis design to provide increased ease of control also are included.

Two important improvements have been made in the Ford V-8 engine of which more than 1,300,000 are now on the road.

In addition Ford has developed a new type of body—the Touring sedan with unusually sleek lines and embodying a fitted rear trunk compartment integral with the body.

Safety glass is standard equipment not only in windshields, but also in all doors and windows in all body types.

The new car marks the present culmination of developments begun by the announcement of the V-8 engine. In the three years intervening Ford has been engaged in the development of a combination of engineering improvements aimed at providing a degree of riding comfort and ease of control comparable with the performance of the engine itself. The new body designs are a further evidence of the progress of Ford engineering.

In appearance, the new cars are characterized by a freshness of conception utilizing flowing curves to carry out the modern motif, plus a new treatment of interior and appointments which sound an entirely new note in Ford body styling.

The engineering advances in engine and chassis are comparable in importance. Principal among these is the new "ride" affected by the new spring suspension system, proper car weight balance and passenger weight distribution and the location of the passenger closer to the center of the car—so that they ride between the wheels.

To accomplish this, the front spring which has been lengthened is located more than four inches in front of the front axle and the engine is moved forward more than eight inches so that its weight rests over the front axle. Front and rear springs have been made more flexible. Added chassis room available as a result of the front end improvements permits redistribution of the passenger weight—now concentrated between the wheels—so that the weight on the two axles is approximately equalized, giving rear seat passengers the comfort of a "front seat" ride.

Key to the changes made in outward design is found in the relocation of the front spring and engine. This has permitted moving the body forward so that passengers ride between the axles, and the development of rear quarter panel treatment along flowing lines. The car is approxi-

mately eight inches longer from bumper to bumper.

The modern design note is carried without break through the new slanting vertical grille with horizontal beading, the sweeping line of the low hood and more sharply slanting windshield, the beautifully molded body and the flowing rear quarter panel. Fenders are deeper and more highly crowned, with sweeping skirts.

Bodies are materially wider. Slanting vertical louvers with horizontal stainless steel bodies are combined to form an attractive hoodside adornment. The radiator ornament is fixed in position, the radiator filler cap being under the hood.

Wheels are smaller, tires larger. The hub caps are adorned with a new and modern treatment of the V-8 insignia. The result is an impression of mass and stability most pleasing to the eye.

Interiors are roomier, with wider seats — front and rear. Span of the front seats has been increased up to 5 1-2 inches, providing room without crowding for three persons in bodies with full-width seats. Driver's seat in all closed cars is adjustable. Upholstery and appointments harmonize with the remainder of the design.

Engine improvements include:

Addition of a new system of directed-flow crankcase ventilation, which exhausts water vapor and gases from the crankcase and valve chamber. This minimizes the collection of excess water in the oil and lessens formation of sludge. Dilution of the oil by unburned gasoline is reduced. The continuous flow of air also exerts a cooling effect which tends to lengthen oil life and minimize engine wear.

Use of aircraft type copper-lead floating connecting rod bearings similar to those used in high-speed racing cars and airplane engines where reliability under the most severe operating conditions is of paramount importance.

A new cast alloy iron camshaft. Additional major chassis improvements include:

Newly designed internal expanding mechanical type brakes, intended to give more effective braking control—with less pedal pressure — and embracing a new "floating wedge" as part of the design. This aids in equalizing pressure upon brakeshoes and in turn upon the drums. Additional drum ribs give a 40 per cent increase in cooling effect.

A new clutch of simplified design requiring less pedal pressure at starting and gear-changing speeds and with much softer action. At higher speeds the pressure is increased by centrifugal weight action to increase the power transmitting capacity of the clutch.

New, stronger, more rigid frame heavier front and rear radius rods, wider rear wheel track and a strengthened rear axle.

Nine body types are listed. The following are available with de luxe equipment; Phaeton, roadster, 3-window coupe, 5-window coupe, cabriolet, Tudor sedan, Fordor sedan, Tudor sedan, Tudor touring sedan, Fordor touring sedan. The roadster and cabriolet are fitted with rumble seats.

The 5-window coupe, Tudor and Fordor sedans also are available without de luxe equipment.

Dusolina Giannini on Ford Radio Hour

DUSOLINA GIANNINI, who, despite her foreign-sounding name is one of America's brightest contributions to the operatic and concert stage, will be guest soloist with the Ford Symphony Orchestra and chorus in the Ford Sunday Evening Hour broadcast, December 30. The program is heard from 8 to 9 o'clock, Eastern Standard time, over the coast-to-coast network of the Columbia Broadcasting System.

Giannini not only was born in this country, in Philadelphia, but also received all her musical education and achieved her first successes on this side of the Atlantic. Her early training was given her by her father, who had been an operatic tenor and had sung with the great Adelina Patti. Later, having attracted the attention of the eminent singer and teacher, Mme. Marcella Sembrich, Giannini went to New York to study under her personal tutelage.

Her debut, which came quite by accident, was one of the most sensational in recent musical history. Giannini was substituted at the last moment for Anna Case, who had been taken ill, as soloist with the Schola Cantorum. So remarkable was the effect of her debut, that as a result of this single appearance, she was offered more than forty concert engagements.

Since then, the path to eminence for this charming artist has been easy. She has sung in every im-

portant musical center in the United States, has toured Australia and New Zealand, and has made five triumphant tours of Europe. Recently, she established something of a record among concert artists by making 112 appearances in the space of eighteen months. Thirty-seven of these were in Europe, twenty-seven in America, thirty-nine in Australia, ten in New Zealand, and one in Hawaii.

OUR COMMERCIAL TEACHER

Miss Ruth Martin, present stenography teacher in Littlefield High school, was born at Austin, Texas and attended the Austin Public schools. She graduated from Woodridge, John T. Allen High School and Austin High School.
She then entered the University of Texas at Austin, where she received her Bachelor of Arts degree, and a permanent high school certificate, graduating in 1932.
For two years Miss Martin served as substitute teacher in the science department of the Austin Public schools.
The Teachers Appointment Committee of the University of Texas recommended her to teach at Littlefield Texas, where she has made known her ability by her diligent work.
The phrases, "I served with some distinction" and "Where is the man who has the power and skill to stem the torrent of a woman's will" were inserted by Miss Martin's name in the school annuals of the University of Texas and we may see by them why she is a successful teacher.

CAMPUS PHILOSOPHY

The existence of life is evidence of immortality.
Don't covet a reputation so good that you can't sustain it.
Possessing all you desire destroys the hope of the future.
One's manners depend on how he acts when company has gone.
Beware of him who offers much for a little.
A person is judged more by the way he listens than the way he talks. Grammar adorns, but it doesn't make a gentleman.
Doing a mean thing and lying about it is double sin.
The best thing you can do with a sad face is not to expose it.
An abundance of learning makes one want more.
Never marry a person who accepts you for lack of a better opportunity.
The length of life is not measured by years alone.
An argument is seldom settled.

CHRISTMAS

In all Christian counties, Christmas is celebrated as the anniversary of the birth of Christ. That day, December 25, is marked by special religious services in various churches by the exchange of gifts and by merrymaking.
The time when the Christmas festival was first observed is not known definitely, but it was along in the third or fourth century. Other days were celebrated, but finally December 25 was universally adopted.
Without the Christmas tree and Santa Claus for the little folks, the day would be incomplete and lose much of its deeper meaning to families. The custom of sending greetings on Christmas cards started more than fifty years ago.
Christmas should be respected with the deepest reverence as it is the symbol of the birth of our Lord.

The life of every man is a diary in which he means to write one story and writes another; and his humblest hour is when he compares the volume as it is with what he hoped to make it?

GEORGE MAHON SENDS GREETINGS TO PEOPLE OF NINETEENTH DISTRICT

The Leader is in receipt of a letter from George H. Mahon, Congressman of the newly organized nineteenth Congressional District of Texas, and thinking it would be of interest to our readers we publish it as follows:

"Dear Morley: I am inclosing a check for \$1.50. Please apply this on a subscription to your paper. When I need to pay you again just send me a bill. You may address the paper to me at the House Office Building, Washington D. C.

I have no particular news. I have been in Washington a week, and I am very busy trying to get ready for the session of Congress which convenes January 3. I have called on many of the officials and departments of our government in order to get better acquainted before Congress meets.

I hope that you will experience a good year with your paper, and that Providence will be generous with the people of the 19th District and give us less drouth and more spiritual and material prosperity in 1935.

We Think—

Inspiration. Milo's dog went afar, never to return; Bill's dog has wandered once or twice, but always has been returned; Sun's dog is missing now; Harvey's dog is a home loving critter, and the editor's dog has seen too much of the world to be tempted far from the opportunity to toast his toes with the assistance of the product of the West Texas Gas Co. In fact, the editor's dog has made an airplane flight; broke a leg; had one toe seriously mashed in the paper scutter, and has had distemper.

All the foregoing is by the way of suggesting that if anybody knows the whereabouts of "Sun's" dog Bozo, black with some white on him and around six months old, the said "Sun" would break down in tearful gratitude for information.

YES, THERE ARE REAL RANCHES IN TEXAS!

Jack Barnes, son of Mr. and Mrs. O. W. Barnes, was badly injured when he got caught in the center of a cattle stampede.

He was mending fences on the Storey ranch when a herd of cattle stampeded, tore down the fence and trampled him.

That's ample evidence that ranching continues to be one of the important industries of Texas.

There are some people who are of the opinion that Texas ranching is confined to the motion picture screen.

AUSTIN GOES LITERARY

Attorney General-elect William McCraw is not to be outdone in literary matters by Governor-elect James V. Allred.

Allred appointed a poet as one of his staff. McCraw will have a novelist on his force.

Merton Harris, novelist-lawyer will be assigned by McCraw to East Texas to look after oil law enforcement. His novel, "The Golden Mirage", is a story of the oil fields. Harris is a former district attorney in Bastrop County and was a candidate for the Democratic nomination to Congress in that district four years ago.

We are wondering if we could get a job down in Austin; we've been sending a typewriter in newspaper offices from the Hudson Bay to the Gulf of Mexico for over 20 years.

"COTTON" DOBBS WILL SOON BE SENDING OUT INVITATIONS TO A DELIGHTFUL LITTLE HOUSE PARTY ATOP THE ROOF OF THE NEW PLANT OF THE CRYSTAL ICE CO.

Editor's Note: We have a first class job printing department and Charley Hearldston says that he could print "them there" invitations as "sick" invitations should be printed. ALL THE FOREGOING IS BY THE WAY OF TELLING FOLKS THAT "COTTON" HAS GONE NEW "WEE" ALONG WITH BILL "CHESHER".

Here's the lowdown: A modern apartment being built atop the new plant. It will have five rooms and a bath, and will be occupied by Mr. and Mrs. Dobbs et al. (That last funny looking spelling means the baby and the bull pup). Thank you, Cotton, we will accept an invitation.

"Happiness Ahead" Featured at Palace Thursday and Friday

One big song hit is no longer a guarantee of Fame's bright blessing. Today the world remembers Fritzi Scheff for "Kiss Me Again", Bessie McCoy for "Yama Yama Man"; May Irwin for "He Certainly Was Good to Me"; Hazel Dawn for "Beautiful Lady"; and Blanche Ring for "Rings on My Fingers and Bells on My Toes."

A song would be introduced in New York, taken on the road months later and long afterwards the whole country would become familiar with it.

The talking picture and radio have changed it all.

Dick Powell star of "Happiness Ahead," which will be featured at the Palace Theatre Tonight (Thursday) and Friday, in less than two years has put over in a big way a score of songs that become national hits within a few weeks.

"Happiness Ahead" is a romantic comedy drama directed by Mervyn LeRoy, with an all star cast of talented players.

Josephine Hutchinson, in the feminine lead was formerly a member of Eva Le Gallienne's Civic Repertory company in New York.

Others in the cast include John Halliday, Allen Jenkins, Ruth Donnelly, Russell Hicks, Majorie Gatenon, Mary Treen, J. M. Kerrigan, Mary Russell and Gavin Gordon. The story is by Harry Sauber, and the screen play by Sauber and Brian Marlow.

Ministerial Alliance Meet At Local Church

The Ministerial Alliance of Lamb and Bailey counties met in the study of the First Methodist Church, Littlefield last Monday morning. The meeting was opened by the chairman, Rev. J. W. Hendrix, who introduced Rev. A. C. Haynes, pastor of the Sudan Methodist church. Rev. Haynes led the devotion reading the 21st. chapter of John and addressed the alliance on the Divine Call To The Ministry, his address was greatly enjoyed by all present. The chairman appointed a committee on the exchange of pulpits over the field the second Sunday in January. A Motion carried to send greeting to the incoming District Judge and Attorney. Such resolutions were drawn and signed by all.

A motion was carried to set up some definite objectives for the early part of the year and that we work diligently to bring about some changes over the field. The first mentioned was That we continue to push the campaign against gambling in every form, and to carry the campaign to all our churches both town and country. Second, That we condemn what is known as the Saturday night Preview and the Sunday night picture shows, and that some steps be taken to better this condition, and

Third, That we vigorously push the campaign against liquor in any form, looking forward to having our counties dry in the near future.

The Alliance was organized a few months ago with 13 ministers. Since that meeting we have steadily grown until now we have some thirty ministers and a goodly number of co-operating laymen. Our meetings have been pleasant, the joy of knowing and having fellowship with the Ministers over the field alone is worth our efforts, but the feeling that we are no longer as single sticks easily broken but rather many driving toward the same goal adds joy to our meeting.

The next regular meeting will be held with the Amherst ministers Monday morning January 14 at ten o'clock. We invite any one wishing to meet with us to do so. The meeting will open with a devotional exercise, after which will follow the business session and will close with an inspirational address by Rev. Jim Parton. Come if you have a suggestion we want it. It is our chief desire to make 1935 one of the greatest years in all our churches ever.

REWARD Reward for return of English Setter Bitch, white and blue ticked, has collar with E. F. Brown name on plate. Notify O. D. Brown, 8 miles East, 4 north of Littlefield. (21-1t-p).

L. M. "MICK" RATLIFF WEDS BROWNFIELD GIRL TUESDAY

The marriage of Miss Bessie Thompson of Brownfield and L. M. (Mick) Ratliff of this city was solemnized Tuesday, January 1, at 3:30 P. M. at the home of Mr. and Mrs. Roy Herod at Brownfield.

The beautiful ring ceremony was performed by Rev. Ed. S. Sharp, Pastor of Methodist Church, Brownfield, in the presence of close relatives of the bride and groom.

The bride was becomingly attired in rust brown, with accessories to match, while the groom wore a black suit.

Mrs. Ratliff is the popular and accomplished daughter of Mr. and Mrs. J. M. Thompson of Brownfield, a graduate of the Brownfield High School and Baylor College, Belton, following which she taught school for three years.

Mr. Ratliff is the son of L. A. Ratliff, Deputy Sheriff of this city, where he has lived for the past ten years, with the exception of short periods when he was employed by an oil company at McPherson, Kans., and Troup, Texas, where he was also a member of their baseball League. He has taken an active part in this sport for the past seven years.

Attendants at the wedding were; Misses Edith and Bootsie Ratliff, sisters of the groom, Beaman Phillips, a cousin; Mrs. F. E. Yohner and Jesse Steffey of Littlefield; and Mrs. J. M. Thompson, mother of the bride; Mrs. Glen Webber, Mrs. Red Woods, Mrs. Lolan Flippin, Mrs. Leorval Lewis, Miss Lena Mae Ballard, Mrs. Cyl Tankersly, Miss Leo Holmes, Mrs. Downing, and Mr. and Mrs. Roy Herod, all of Brownfield, and Mrs. Jake Warnick of Lubbock.

The happy couple left Wednesday to make their home in Troup, Texas, where Mr. Ratliff is connected with the Sun Oil Company.

Littlefield's Trades Day Program, which has been taking place each Saturday in this city, announcing that the Saturday celebrations had been discontinued. He stated, however, that there had been some discussion of re-organizing, and sponsoring a program once a month, preferably on first Monday, but that nothing definite as yet had been agreed on.

Mr. Hilliard made a talk on the highway projects for this district, stating that the north and south highway had been designated, but that right-of-ways had to be secured and turned over to the State, and urged that this be done at the earliest possible time.

He announced that he had received a letter from the State Highway Department at Santa Fe in the matter of the East and West Highway, rejecting the proposition. Mr. Hilliard stated that the road committee would continue their efforts to get this improvement.

Mr. Mills, in an interview with the Leader said that the company had enjoyed a thirty percent gain in "paid for business" this year of December 1, as compared with same period of 1933.
