Van Coltharp has leased the commercial printing department of Littlefield Press, the firm which publishes both Littlefield newspapers. He took over the business on June 1.

Although he is the proprietor of that part of the business, he will continue to operate it under the name "Littlefield Press" and the statements will be mailed together with those for newspaper advertising and office supplies. The latter two departments are not effected by the lease agreement.

Coltharp has had twelve years of printing experience — the last three in Littlefield, where he has been employed by County Wide News and A and B Office Supply. He grew up in Amarillo and worked for some time for the Hereford Brand before moving here.

He and Mrs. Coltharp own a home at 316 East 16th. They have one daughter, Pamela, 9. Mrs. Coltharp is a dancing instructor.

The Coltharps are members of the First Methodist Church, where he is treasurer of the Methodist Men. He is also secretary of the Jaycees, and a Mason.

THIS MIGHT HAVE BEEN a state championship team if there were state playoffs in baseball. Since there are not this Olton High School team had to be content with winning the regional pennant. Their opening game with Plainview was their only loss of their 15-game season. They avenged that later. On the front row, left to right, are Lonnie Stephens, Clifford Curry, Guy Granberry (who pitched 8 wins, 1 loss), Bobby Bryant, and Kenneth Ong. Second row, Coach Joe Turner, Don Macon, Charlie Shelley, Cecil Maddox, Jimmie Priest and Assistant Coach Jeff Smart. Team members not pictured are R. V. Allcorn, Bobby Straw and Archer Souter. ### Rev. Dean Is New Whitharral Pastor

Whitharral — Rev. Dean of Goodlet will move here the latter part of the week to take up his work as the new pastor of the local Methodist church.

Rev. Bill Watson, who has pastored the church here for the past year will go to Cone the latter part of the week.

Rev. Horace Krebs of Cone will become assistant pastor of the Floydada Methodist church. The Krebs formerly resided here.

### Methodists Hold Bible School At Whitharral

WHITHARRAL — A vacation Bible school began at the Methodist Church here Monday afternoon at 2 p.m. with Mrs. Russel Cotton in charge.

Assisting her are Mesdames A. B. Harper, Will Reding, L. E. McDonald and Carrie Eller.

### Rodeo Proceeds

(Continued From Page One)

Jess Tyson, second; Don Workman third.

Tie-down calf roping: Tommy Fienmiken, first; Don Carriker, second; Weldon Jones, third.

Ribbon roping: David Allen, first; Whip Wilson, second.

Barrel race: Georgann Matthews, first; June Matthews and Carolyn Roberts, second; Leta Merle Roberts, third.

### Lums Chapel Goes to Levelland Cooking School

(Whitharral)—The Lums Chapel Home Demonstration Club, as a part of their meeting Wednesday went as a group to Levelland to attend the cooking school in progress there. Those in the group were Mesdames Roy Taylor, J. E. Wade, Hub Spraberry, J. D. Waters, J. B. Wren and C. G. Landers.

In a brief business session Mrs. Roy Taylor was the nominee for the H. D. C. delegate to the state convention to be held in Dallas in August.

### "I See By The News"

Mrs. Jim Mooney and daughter, Mary Lou, of Clovis have been visiting with her mother and sister, Mrs. J. E. Chisholm and Louise, since Thursday. They plan to stay two or three weeks.

Rev. and Mrs. W. H. Vanderpool jr., and sons, Pat and Phil, are vacationing this week in Denton and Dallas, visiting relatives.

Mr. and Mrs. Sherman McCary and Mr. and Mrs. Glynell McCary visited over the weekend at Chattanooga, Okla., with Sherman McCary's brother. It was reported that Mrs. Glynell McCary was the best fisherman of the crowd.

Mrs. Reita Newgent spent the weekend visiting with her daughter and son-in-law, Mr. and Mrs. Ellis R. Forman, of Lubbock.

Mr. and Mrs. Bob Armstrong are enjoying a two weeks vacation in Houston and other southern cities.

Mr. and Mrs. J. H. Ware of Kerrville were in Lubbock several days last week on business.

### Boy Carlson-L. Wright Fights In Saturday Matches

Following his usual procedure, Orv Carlson re-fought his match with Littlefield arena again Saturday night to meet Amarty Wright, in the top double main event.

Carlson, headlocking, following his usual procedure, wanted to get rough — and Palacio obliged. The second exposure should be even better than the first.

All in all this double feature card could develop into one of the better exhibitions of the season.

### Golfers Go To Colonial

Dr. and Mrs. O. W. Still, Alvin Webb and son, Billy, flew to Fort Worth Thursday for the opening day of the annual Colonial Golf Tournament.

They left Littlefield at 11:15 a.m. in Dr. Still's Beechcraft Bonanza aircraft and returned in the evening about 7:15.

Mrs. Still told the press they had a wonderful time watching the big Professional players and Billy did not get tired one bit. She said they followed the three-some with Ben Hogan in it most of the round, but did see the first team with Byron Nelson and the first day leader, Australian PGA champion Peter Thomson for two holes.

Mr. and Mrs. David Keithley left by automobile Thursday afternoon after Rotary Club meeting for Fort Worth. They plan to see the Tournament through and return Sunday evening.

Jim Tom Brittain left Monday to stay with a friend and former employee of the Brittain Pharmacy, Paul Humphrey. Jim Bob and Paul planned to make the rounds of the Colonial and other Fort Worth courses early in the week and spend Thursday through Sunday watching the Colonial Tournament.

**FEATURE ATTRACTION**

**6 - count 'em - 6**

**Electric Ranges, FREE!**

And you have a wonderful opportunity to win one of them. Feature Attraction is holding forth now at your Reddy Kilowatt Electric Appliance Dealer. He wants you to come in and have a complete demonstration of his electric range.

After you have seen the many features of the electric range in action—features that make it the modern cooking method—you just pick the feature that most appeals to you, and tell why it does in 25 words or less. That's your entry in Feature Attraction, and your opportunity to win one of the six free ranges.

It's easy to enter Feature Attraction, because it's easy to find outstanding features on an electric range. Electric cooking is easy, too, as you'll discover after you've seen it in action.

Look for the Reddy Kilowatt Dealer sign, and the "It's Feature Attraction Time" window streamer. That's the place to enter the big Feature Attraction Contest.

**HERE ARE THE RULES...**

Have your Reddy Kilowatt Dealer give you a complete range demonstration. Pick the feature that most appeals to you, and tell why it does in 25 words or less on the entry card that he will give you. Leave your entry with the dealer.

Entries will be judged on originality, sincerity, and aptness of thought, and all entries become the property of Southwestern Public Service Company. Your entry must be in by June 12, 1954.

Six ranges will be given away free. If a winner buys a range during the campaign, the purchase price will be returned.

Dealers, distributors, SWPSCO employees, and their families, are not eligible for Feature Attraction.

## EDITORIAL

### There's More To It Than The Price

Our good friend Tom Phillips, editor of the Holdenville News, after receiving a circular letter advertising a "saving" on fire and automobile insurance, offered by a "mail order" mutual insurance concern, published the following editorial in his next issue:

"No thanks! We shall be obliged to reject the offer. . . We get reasonable insurance rates by purchasing our insurance protection from established, reputable local agents who are here on the ground and whose services will be available should we have a loss against which we are protected in the standard insurance policies in our safe. We would not be obliged to indulge in lengthy correspondence with some stranger in Kalamazoo, or Timbuktu. The local boys would be on the job, would check and report the loss, and settlement would be made without difficulty or quibbling.

"Moreover, the established insurance agents are our friends and neighbors. They help support the schools which are aiding in the mental development of my 10-year-old daughter; they help support the churches that provide me and mine spiritual stimulation; they help support the police agencies that protect my property against plunder; they help support the fire department that protects my property against fire; they help support the city, school district, county, and state governments that bestow many blessings upon me.

"Why should I take my insurance business from these benefactors, these friends, these fellow citizens and give it to some foreign concern that doesn't care a tinker's dam about Holdenville, except for what profit they can extract from Holdenville?"

"The few cents I would save on every hundred dollars of insurance protection I now have wouldn't begin to compensate me for the trouble and inconvenience in event of a loss. It isn't worth the difference.

"Cheap insurance is like any other cheap commodity; it's very apt to be more expensive in the long run."

### Highlights And Sidelights From Your State Capitol

By VERN SANFORD  
Texas Press Association

AUSTIN, Tex. — Most discussed subject in Austin is the United States Supreme Court decision abolishing racial segregation in the public schools.

Not only are the people talking about this important ruling, but they are taking their pens and pencils in hand to let Governor Shivers know how they feel about it. There is no doubt about how Texans feel on the subject for the mail shows a 30 to 1 ratio in favor of maintaining segregation.

Governor Shivers pointed out that "the Supreme Court has indicated it will have more to say on this matter later this Fall and there is very little that can be done until we know its final opinion."

The Texas Education Agency has advised schools in Texas to plan for continued segregation in the term starting next September.

Roy M. Hall, executive director of the Texas Association of School Boards, said that the segregation problem will be mostly a local headache and that in most instances it will be at least several years before the reality of non-segregation becomes evident.

**Insurance Company Probe**  
Hottest news out of Austin is the insurance company probe. Indicted by a Travis County grand jury were Leslie and Paul Lowry of Beaumont, D. H. O'Neil, Beaumont, and Spencer Treharne of El Paso.

Nine indictments charged these four persons with criminal violations of Texas insurance laws. In addition to perjury counts against the four, Paul Lowry was charged

with submitting a false statement. All indictments concerned submission of alleged false reports to the State Board of Insurance Commissioners regarding funds of insurance firms at Beaumont, Ennis and El Paso.

Investigations which have been going on since the first week Attorney General John Ben Shepperd took office in 1953 reveal that some insurance companies have been formed in Texas with borrowed capital which banks deposited to the credit of the insurance firm, but with the understanding that the money was not to be withdrawn. Once the firm was approved by the Insurance Commission and a charter granted, the bank's money was returned, the loan canceled and the insurance company was in business. Loser in the transaction was the policy holder who was dealing with an insufficiently financed firm.

Shepperd has been working closely with Travis County District Attorney Bob Long in connection with the grand jury's investigation. One of Shepperd's top assistants, Willis Gresham, has been appointed by the attorney general to handle the prosecution. Gresham played a big part in the attorney general's recent investigation in Duval County.

**Tightening of Insurance Laws**  
Legislation tightening the state's insurance laws is indicated. Acting Governor Ben Ramsey has called the legislative council into session to begin a study of existing laws.

Court disclosures of loopholes, lack of safeguards, and loose enforcement which permit improper organization and operation of small insurance companies, prompted the move.

Executives of the 1,884 insurance companies doing business in Texas have been asked by Ramsey to submit recommendations for remedial legislation. Changes recommended by the legislative council will go to the Legislature next year.

**New Duval Grand Jury**  
The way has been opened for the appointment of a new grand jury to look into the jumbled affairs of Duval County.

The Court of Criminal Appeals refused to set aside 79th District Judge A. S. Broadfoot's discharge of a grand jury commission the judge ruled was lax in selecting fair and impartial grand and petit jurors.

### Living In Christ

By Tommy Williams, Minister

For several weeks, this column has been devoted to a discussion of blessings which come as a result of living and believing in Christ. It seems that a summary is in order at this time. We have seen the following truths:

1. Those who live and believe in him live forever. "Whosoever liveth and believeth in me shall never die" (John 11:26).
2. Believers are secure in him. No man can "pluck them out" of his hand (John 10:27-28).
3. Reconciliation to God is in him. "God was in Christ reconciling the world unto himself" (2 Corinthians 5:19).

In view of these things, it is very important that we know what it is to "live and believe in him."

1. It involves entrance into

**Island Development Delayed**  
A dispute over the amount of land to be given for highway purposes has snarled the proposed development of Padre Island as a big vacation spot. The obstacle arose when County Judge Oscar C. Dancy of Brownsville said that the 100 feet which developers want to give for the island's highway right-of-way is insufficient.

C. S. Eidman, jr., of Brownsville and one of the island's land owners, said all the property owners had agreed that 100 feet was enough for the right-of-way. The squabble will be aired at a public hearing before the state highway commission.

**Inks Lake Resort**  
Construction of a state-owned \$1,000,000 tourist resort at Inks Lake State Park, northwest of Austin, will start in the near future.

Two years has been spent getting this project ironed out.

Board Chairman Frank D. Quinn reports that all preliminaries have been successfully completed.

When completed the Inks resort center will be the biggest tourist facility in Texas. The project is self-liquidating, being financed through the issuance of revenue bonds. It is the first of three similar big scale revenue-financed undertakings by the state park system. Others would be in Eisenhower State Park near Lake Texoma, and on Possum Kingdom Lake in northwest Texas.

**Draft Quota High**  
Brigadier General Paul L. Wakefield has issued a draft call for 1,187 men for July. It is the largest draft quota in six months.

The state director of Selective Service declared that calls for the next 12-month period will be on an increased level. Cause of the increase, General Wakefield asserted, is the fact that more men will be getting out of uniform during the government's next fiscal year.

**Coke Fights Congress**  
Coke Stevenson Jr., Texas Liquor Administrator and newly elected president of the National Conference of State Liquor Administrators, is readying a blast against federal interference with state liquor laws.

The National Conference adopted a strong resolution to be presented to congressmen pointing out that the repeal amendment returned to the states the licensing and supervision of the liquor industry. There are bills now pending in Congress prohibiting beer and liquor advertising.

**Need Information Safety Law**  
Elevators in Texas are not inspected for safety, says C. H. Cavness, state auditor. He advocates inspection laws similar to those in many other states.

Cavness' commented also on the need for an industrial safety law,

with proper authority for enforcement.

He noted that 247,371 accident claims were handled last year by the Industrial Accident Board. This compares with 179,152 cases eight years ago. Claims last year totaled \$22,000,000 as compared with \$10,581,000 eight years ago.

Present laws do not require safety inspections of boilers in schools and courthouses. The Labor Department will ask the 1955 legislature to pass a law requiring such inspections.

**Dairymen to Promote Industry**  
June is Dairy Month. Dairymen of Texas will contribute two cents per hundred weight of the milk and one-half a cent per pound butterfat in cream they sell this month to the state ADA headquarters in Austin.

Sam Von Rosenberg, state manager of the American Dairy Association of Texas says that it is a voluntary plan proposed to the 30,000 milk producers in the state to provide \$150,000 annually to promote an increase in the sale of milk, butter, ice cream, cheese and other dairy products through advertising.

**More Wild Life**

Wild animals seem to be taking a liking to the rugged area west of Austin. There has been a panther scare there for several months. Latest report is the appearance of a 33-inch long alligator — which walked out of Shoal Creek almost in the heart of this capitol city.

Texas Tech's 1953 co-captain, end Vic Spooner of Colquitt, Ga., dealt Southeastern Conference kickers misery last season. He blocked a crucial extra point in Tech's 27-20 victory over Mississippi State and slapped down an attempted Auburn punt to set up the clinching touchdown in the Red Raiders' 35-13 Gator Bowl win.

We wish to express our appreciation to our many friends who made our Formal Opening far greater than we had dared hope for.

Mrs. Hazel Hickman of Amherst, Lamb county home demonstration agent, was a member of the committee making plans for the South Plains agricultural exhibit at the 1954 State Fair in Dallas. Plans were laid at a meeting in the Caprock hotel in Lubbock Wednesday morning.

It was agreed, after lengthy discussion, that the South Plains agricultural exhibit at the Oct. 9-24 event will be based on the theme "Team Work in Agricultural Research." It will depict the various functions of South Plains farmers and agricultural agencies in aiding the area to become one of the greatest agricultural territories in the world.

### Miss Lemur Is Graduate Nurse

Miss Doris Leathers Lemur of Amherst was among 15 graduating student nurses of City-County Hospital of Nursing in Fort Worth for whom baccalaureate and commencement exercises were held last Sunday.

Exercises were held at Polytechnic Methodist church. Rev. Hayden Edwards gave the baccalaureate sermon at 11 a.m. At commencement exercises at 5 p.m. Rev. Gaston Foote, pastor of the Ft. Worth First Methodist church, was the principal speaker.

Alumnae of the School of Nursing were hostesses at a reception in the Nurses Residence after the exercises. Mr. and Mrs. Lavern Long, Gaylen, Joy and Judy, and E. L. Leathers Jr., of Amherst, and Mr. and Mrs. Joe Lemur of Lawton, Okla., attended the services. Mrs. Long is the sister of Miss Lemur.

## Texas Highway Patrol Gives 34,686 Tickets During April

If you were stopped by a Texas Highway Patrolman during the month of April for an infraction of the traffic laws — you had a lot of company. As a matter of fact you had exactly 34,686 other folks in the same boat with you.

You could have been "lucky", though. You might have been one of nearly half of the total who got a warning ticket instead of an arrest ticket. And you might not have been involved in one of the 13,496 accidents during the month. Better than that, you might not have been one of the 6,840 persons injured in traffic accidents in April. And one thing is sure — if you are reading this you're really fortunate because you weren't among the 168 killed in Texas traffic during the thirty-day period.

Walter J. Elliott, Chief of the Texas Highway Patrol, has just released a comprehensive breakdown of the activities of 441 patrol men who were on duty during the month. It shows that the men, comprising the sixteen Texas Highway Patrol Districts, worked a total of 108,922 hours during April at duties running the gamut from giving road information to tourists to making 11,850 arrests and passing out 16,926 warning tickets. Thirty-seven percent, or 40,239, of these hours were turned in on night duty.

The 444 patrolmen operated 317 cars for the incredible distance of 1,682,617 miles. It wasn't all riding and writing tickets, however. Accident investigations took up 3,555 hours of the time; another 2,151 hours were devoted to safety work other than enforcement; and the men spent 3,612 hours on court duty.

According to Chief Elliott's figures, 8,544 of the arrests made were for hazardous traffic violations — the sort that cause accidents. Speeding, as usual, led the field with 4,861. Next in order was "Improper Passing" with 801; and drunk driving accounted for 554 of the apprehensions.

Speeding was also the leader in the "Warning Tickets" category, with 7,438. The nearly 17,000 motorists who received warnings, however, didn't get off entirely "free". A copy of the warning ticket was filed in their permanent driving record at the headquarters of the Driver's License Division of the Texas Department of Public Safety where enough of them, just like a small collection of arrest notations or accident experiences, will automatically bring the errant driver up for suspension or revocation action on his license.

"Our men always give two or three times as many warnings as they do arrest tickets," Elliott explained. "But sometimes we wonder if we're really doing the motorist a favor when he is released with merely a warning. We always hope the warning will work; that is, that it will keep the driver from repeating his error, but many times a Patrolman is called to investigate a fatal traffic accident and the driver of one of the cars is a fellow to whom he gave a warning a couple of hours earlier. Maybe an arrest would have saved a life. Maybe. I don't know."

**Lamb County Soil Conservation DISTRICT NEWS**

Frederiksen, who lives five miles east and one half mile south of Littlefield, became a member with the Lamb county Soil Conservation District in the fall of 1951. At that time, with the aid of local Soil Conservation Service technicians, a complete conservation plan was prepared for his 320 acre farm. This included bench leveling 52 acres of land, installing 4,000 feet of underground concrete pipe, a rotation cropping system, which included a legume

for a green mature crop, and the use of fertilizers. The 52 acres were bench leveled that same spring and planted to improved pasture grasses. Buck thinks the best mixture of grasses are those where he drilled ten pounds each of Brome and Kentucky Fescue grass along with seven pounds of Madrid Clover per acre. The grasses were planted in the fall following a crop of cow peas which were planted immediately after the land was bench leveled. Two hundred pounds of 16-20-0 per acre was applied when the cow peas were planted. Two hundred pounds each of 20 percent super phosphate and ammonium nitrate per acre was applied when the grasses were planted. Ammonium nitrate was the only fertilizer used after the grasses were planted, a hundred pounds per acre in the spring and an equal application in midsummer each year. The ammonium nitrate was applied by broadcasting on the soil whereas the super phosphate

was drilled in at a depth of three to four inches. The 52 acres of bench land are divided into eight pastures. Frederiksen says this enables him to graze each acre evenly, and to keep the cattle out of a pasture after watering to prevent trampling of the grass while the soil is wet. Buck believes each pasture should be mowed once a month May through September, to prevent the grasses from becoming too tall and tough, also to graze the different kinds of grasses evenly and keep weeds down. The bench land is irrigated from the underground concrete pipe system. He thinks the concrete pipe is a time, labor, soil and water saving investment. The concrete pipe conserved water by reducing evaporation and seepage which an open ditch would cause. The concrete pipe also does away with a fast ditch which is encountered on a steep slope and usually causes the ditch to erode. Buck has a valve for every two borders, which reduces the time and labor necessary with an open ditch sys-

tem, where siphon tubes are almost a must. With the exception of the winter months this 52 acres of improved pasture is supporting Buck's entire breeding herd of Angus and their calves with no supplementary feeding. Buck does not believe in buying any feed for his cattle except salt and minerals which is the reason for his 900 ton silo. Buck believes corn cut in the hard dough stage makes the best silage. He tries to have around 40 acres of corn for silage each year. The corn is fertilized with 100 pounds of anhydrous ammonia. Fifty pounds is applied when the corn is from three to five inches tall and the other 50 pounds when it is knee high. Every fourth or fifth year the corn is followed with alfalfa which is left for four or five years. The alfalfa seed is always inoculated with the proper inoculate for nitrogen fixation before planting in the fall. A nurse crop of oats is drilled in three to four weeks be-

fore the alfalfa. The oats protect the young alfalfa from wind erosion during the winter and spring months. 300 pounds of super phosphate is applied to the land in the spring before drilling in the fall, and another 100 pounds in the spring. On the years that the corn is not followed by alfalfa it is followed by Madrid Clover which is drilled in immediately after the corn is off. The Madrid Clover is usually turned under in late May and a late crop of Hegari planted. The clover is always turned under, never being grazed or cut for hay, and is always inoculated before planting. This acts as a green manure crop, which adds to the soil's organic matter content, enabling it to take water better, return nitrogen to the soil, and conditioning the soil for good tillage. Approximately 150 acres of his land is covered each spring, when wind erosion is at its worst, with alfalfa, pasture grasses and clover. Besides the alfalfa, corn and improved pasture grasses, Buck

**Lisa On The Lapps**  
by Lisa Paulsen

In the Lapp world, women don't rate very highly as cooks. Old Lapp wisdom explains that if you want the food edible, it is best to keep women away from the pots and pans entirely! (Lapp women aren't too dissatisfied with this situation!) This, of course, is only true of the nomadic Lapps. The others that have chosen civilization are completely revising their standards and behavior. Shocking as it may seem to the nomad, the domesticated Lapps are even sending their children to school! But out on the Arctic plains—the home of the nomad—the Norwegian government has to send travelling schools to tend to the nomadic child's education. The Lapps and their reindeer herds don't stay in any one place long enough to satisfy the local school authorities. These ambulatory schools are regarded with great suspicion by the Lapp people. Their children are forced by law to listen to the "foreign" teachers — and then they return to their tents with strange ideas. Any influence that tends to change the Lapp customs and thinking is regarded with great distrust. For this reason, the travelling school teachers have to be careful that the Lapp tribe they have been assigned to hasn't already left when they wake up in the morning!

**July Draft Call Is '54's Biggest**

AUSTIN, Texas. — The state draft call for July — 1,187 men — will be the biggest monthly quota for the past six months period, Brigadier General Paul L. Wakefield, state Selective Service director, said Wednesday. Local board quotas for the July call are scheduled to be mailed from state Selective Service headquarters Wednesday, following receipt of the state quota from national Selective Service headquarters several days ago. At the same time, General Wakefield said, the state draft headquarters is planning to send 2,417 men for the combined physical-mental examinations in July. The local board quotas for this call for examinations are expected to be placed in the mail Friday. "The July call is the biggest monthly quota we have received since February," General Wakefield commented, "when we were asked to deliver 1,314 men." The state director of Selective Service said he had been expecting quotas to go up in July and predicted that the calls would stay at the increased level or higher for a 12-month period beginning in July. "The national quota was increased from 18,000 to 23,000 in July," General Wakefield pointed out. "The national figure had been at 18,000 over a period of the past several months."

 In keeping with its stature—the World's Largest Coaching School—a book of 140 pages has been published by the Texas High School Coaches Association to give full information on the giant clinic to be held in Dallas Aug. 10-14.  
 It's probably the largest brochure of its kind ever produced.  
 Stan Lambert, publicity director of the association, went all out on this one. He distributed it before starting to worry about what the association's finance committee would say when the bill for it was presented.  
 In basketball, Donald (Dudley) Moore of Duquesne and Eddie Hickey of St. Louis University will be the lecturers and coaches Hickey are among the great basketball teachers of the country.  
 Frank Anderson, whose track teams at Texas A and M have won seven of the last nine Southwest Conference meets) Alex Hooks, baseball coach of Southern Methodist; L. R. Meyer, athletic director of Texas Christian and member of the national football rules committee, and Wayne Rudy, a Southern Methodist trainer, make up the remainder of the staff. Meyers will interpret the football rules. Redy will lecture on the treatment and prevention of injuries.  
 The book gives the history of all the coaches and all of the all-star football and basketball players. It discusses the value and scope of the coaching school, the influence the association has had on the rules of football and most everything else pertaining to high school athletics in Texas. It is quite informative, even relating some of the foibles of the coaches.  
 For instance, there's the story of the high school football player, Billy Corbett of Shelbyville, who was invited to play on both of the all-star squads and accepted each invitation. It seems the coaches got mixed up on which territory Shelbyville was in—the North or South. After Corbett had been announced for both squads, it was found that Shelbyville was in the south. He was removed from the North squad and left on the South. "Life's like that," mused Lambert.

## Texans In Washington

by Teex Easley

WASHINGTON (AP) — Fate of the 162-mile Wichita Falls and Southern Railway, which reached its hey-day in the oil boom days of the 1920s in the Ranger-Cisco-Pioneer-Breckenridge fields, is up to the Interstate Commerce Commission.

Men concerned with the outcome went before that court-like tribunal in the stately white stone ICC building on Constitution Avenue last week.

The W. F. & S. has filed application for permission to abandon the line, which runs from Wichita Falls to Dublin, via Olney, New Castle, Graham and Breckenridge.

The Chicago, Rock Island & Pacific Railroad has applied for permission to buy the property and operate the Wichita Falls-Breckenridge section in connection with existing Rock Island service between Wichita Falls and Fort Worth. Service on the 62-mile link between Breckenridge and Dublin would be abandoned.

W. B. Hamilton, former mayor of Wichita Falls, and Rep. Frank Beard of that city appeared before the ICC to urge that the decision, whatever it is, provide for continued rail service between Wichita Falls and Breckenridge. Hayden Head of Corpus Christi, head of the W. F. & S., also appeared at the hearing. Attorneys for the line said it now operates at a loss.

Spokesmen for the Rock Island, which reportedly would pay about \$75,000 for the property, said it would spend about \$175,000 a year for three years in rehabilitating the track, bridges and equipment if its application to buy the line is approved.

The Rock Island has stipulated its offer would remain good only to Aug. 1. The ICC is expected to act within a few weeks.

John Wesley Denton, Immigration officer at Eagle Pass, and his wife came to Washington as tourists and ran into sight-seeing red tape.

They found, as do swarms of tourist daily, that special admission cards now are necessary to get into the Senate and House chambers. These are to be had for the asking from the legislators. The regulation was put into effect as a result of the March 1 shooting in the House.

Although now constituents of Rep. Lloyd Bentsen of McAllen, the Dentons called on the congressman from their old home town of Waco, Rep. Bob Poage, for their cards. In Poage's office they greeted the congressman's mother, visiting here from Waco. Denton had grown up with some of the Poage boys.

En route to Washington, the Dentons visited his brother, the Rev. J. Raymond Denton, an Episcopal minister at Luray, Va.

The former Josephine Frick of Houston, a member of the staff of Rep. Teague (D-Tex.), and her husband, Edward (Red) Cox, worked out a compromise in naming their newborn first child Lee Sherman Cox, born May 7, 1954, weight 8½ pounds.

On her side are a lot of Shermans. Cox, who is administrative assistant to Rep. Rains (D-Ala.), objected to the name of Sherman but later agreed if she'd put the name of Lee with it. Cox says his family was related to Confederate Gen. Robert E. Lee. William T. Sherman was a Union general known for his march through Atlanta to the sea.

Jules Leverett, a native Galvestonian and secretary to the Galveston district congressman for the past 35 years, is retiring.

On the staff of Rep. Thomson, he also served the late J. J. Mansfield and Clay Stone Briggs.

Leverett was 4 years old at the time of the 1900 Galveston flood, and remembers seeing bodies washing about in his yard during that disaster that claimed many lives.

He and his wife have a home in nearby Maryland.
