## Schovajsa Ties Record In Brownfield Meet

Led by Larry Schovajsa, the Littlefield Wildcats garnered 59 points to finish fourth in the Brownfield Invitational track meet last Saturday.

Schovajsa broke away from the field around the turn to win the 220 yard dash in 22.5 seconds, equalling the meet record around a full turn. He later led the Wildcat mile relay team to a 45 yard victory as he was clocked in 51.6, the fastest quarter mile of the meet. Larry Coffman, Manuel Davila and Ronald Sitton were the other members of the team. Davila also picked up points for the Wildcats with a third place finish in the 880 yard run. The 440 yard relay team fin-

ished in second place despite a poor baton change, and the Wildcats also picked up a fourth place in the pole vault as Keiser vaulted 11 feet.

A big surprise for Coach Davis was the fourth place finish of George Willard in the discus. Willard only throwing for the second time in competition bettered the old mark by better than four feet as he hurled the discus 152-7 but was still ten feet back of the winner, Davis of Andrews, who got 162 feet.

The Wildcats go to Denver City this Saturday for their third meet of the season. Better than 40 teams are expected to participate in the relays.

IN RETURN MATCH -- Art Nelson (above) will meet Jose Lothario in a return match Saturday night at the Littlefield Sports Arena. The Nelson-Lothario match will be the feature attraction of a card that includes Sputnik Monroe against Don Curtis and Pedro Goday with Ken Lucas in the opener starting at 8:30.

## Basketball Game Set For Friday

Fabulous Goose Tatum and his Harlem Roadkings will appear at the Littlefield Junior High School gym Friday night against the New York Olympians.

Tatum "Clown Prince of Basketball" and his famous sidekick Bryce Vann, along with Goose Tatum Jr. will be the featured stars for the Roadkings.

Sponsored by the Littlefield Lions Club, the game will provide plenty of comedy in addition to basketball as well as an outstanding halftime entertainment.

Advance tickets for the contest are on sale at Piggly Wiggly, Roden Drug and the City Barber Shop.

Proceeds from the game will be donated by the Lions Club to the Littlefield Cemetery Association to be used in their project of getting a water sprinkler system for the cemetery.

## Crews Named Student Of Month

Larry Crews, Junior student of Anton High School, is the student of the month for March. A goodnatured young man who has attended Anton schools since the first grade, Larry has been an outstanding student, athlete and leader throughout his school career.

He was president of the Freshman and Sophomore classes. He was a member of the winning one-act play in his Sophomore year, and has represented Anton High School in math contests. He has been an honor student each year in high school, and is a member of the National Honor Society.

Larry has lettered in football, basketball and track for three years. He was starting quarterback of the football team until his injury this year. He was the "play maker" of the Bi-District champion basketball team this past season and is well-known throughout this area as an outstanding Little League and pony league pitcher.

Mr. and Mrs. Alvin Crews are the parents of this well-rounded young man.

## New Agricultural Weather Service

New services to help area farmers cut weather-induced losses and conduct more effective operations in general will be featured by the specialized agricultural weather service in 1965 and future years, according to Oliver Newton, Agricultural Advisory Meteorologist at the South Plains Research and Extension Center.

Beginning March 15, daily reports on soil temperatures at both eight inch and four inch depths will be released as an aid to farmers in their choice of a planting date for the various crops. To assure that these soil temperatures are accurate and not affected by varied ground conditions, Newton reports that each thermograph or soil thermometer has been placed under bare, cultivated land. And to give a better coverage of the High Plains area, thermographs are located at Seminole, Lubbock, Hereford, Silverton, Lubbek and Locketville, near Ropesville.

HERE FRIDAY -- Goose Tatum will lead his Harlem Roadkings against the New York Olympians at the Littlefield Junior High School gym Friday night. The game, sponsored by the Littlefield Lions Club, will also feature a halftime entertainment.

**Peace Corp Test For March 13**

opportunity for Lamb County area residents to test aptitudes for Peace Corps will come at 8:30 a.m., Monday, March 13 at Lubbock, Room 16A, of the Post Office building.

opportunity is the Peace Corps Placement Test. It is not a test of intelligence, but simply a test where your greatest aptitudes lie. The Peace Corps Liaison Officer, which must be filled out and brought to the test, unless previously submitted, tells what an applicant has done in the past. But the placement test is aimed at finding out what he or she can do in the future. Applicants do not need to register for the test in advance.

The Peace Corps Questionnaire can be obtained at all Furr's Super Markets. On college campuses they are available at college placement centers or the offices of Peace Corps Liaison Officers, who are members of the faculty or college administration. If you can't find a Questionnaire, write the Peace Corps, Washington, D.C. 20525.

There are two parts to the Peace Corps Placement Test: a general aptitude test and a foreign language aptitude test which knowledge of a foreign language is not necessary. Applicants should plan on about an hour and a half hours at the testing center, unless they wish to take the Spanish or French language achievement test, which requires an additional hour.

Test results are used, with character references and questionnaires, to estimate the applicant's potential for completing the intensive training program and his ability to be an effective Volunteer over-

**Lawmaker Urges Gun Law**

A Texas lawmaker urged Congress to stop harassing legitimate gun owners, and instead open war on the criminal element by setting a 25-year mandatory federal sentence for possession of firearms in committing crime.

U.S. Rep. Bob Casey of Houston today introduced legislation to make the 25-year sentence mandatory for use or carrying of firearms during any robbery, assault, murder, rape, burglary or kidnapping. He urged Congress to take quick action on the measure.

Casey introduced a separate bill covering the District of Columbia, pointing out that Congress could swiftly enact a national program of prevention of control of illegal gun-use in its own crime-ridden home.

The fourth-term Democrat introduced proposed gun registration bills before Congress completely "ineffective" in dealing with the criminal use of firearms.

"I see little need to further harass the legitimate gun owner, the collector, or the sportsman when the problem is caused by the criminal, most of whom are repeat offenders often carrying stolen weapons to commit crime," Casey said. "No man with a right mind can expect to plan a robbery with a stolen gun without being detected by federal authorities, or to be alarmed because he hasn't done so."

In the past, Casey pointed out, Congress has been reluctant to act in such a field, leading to the prosecution and punishment for crimes of violence in the States.

"But the problem of outlawing guns is nationwide, and the States have failed to deal with it effectively," Casey said. "The Federal government sets mandatory sentences for trafficking in narcotics, and the illegal use of guns by criminals affects far more citizens than does the State."

"Here in the District of Columbia, as over the nation, the serious problem of illegal gun use has been severely aggravated by extreme laxity on part of the courts in meting out punishment to violators," Casey said. "The time has come to get this problem head-on, and take from the courts the power to turn loose on society second and third offenders who continue preying on our citizens. My bill leaves the courts no discretion in sentencing the guilty, and I think it will go a long way in solving the growing problem."

"Passage of my bill also will stop the hysterical cries to unreasonably penalize law-abiding gun-owning citizens through imposition of rigid and unworkable restrictions on sale, registration or taxation of firearms, when the heart of the problem is finding a way to protect the same citizens from the criminal element," Casey said.

### Passenger Safety Is The Safeway Taxi Company's Watchword

During the past two and one half years the operators of the Safeway Taxi Co. have driven over one hundred thousand safe miles carrying passengers thru and fro throughout the Littlefield area. This enviable record was made by Marvin Webster, owner, and his drivers for the Safeway Taxi Service. Here is a brief resume of Marvin Webster, mostly in his own words. Marvin Webster moved his family to Littlefield in 1949. He worked most of the time for Mobil Oil Co., delivering gas, oil and butane over most of the county. ### Questions & Answers

Q -- I had National Service Life Insurance prior to January 1, 1957, and let it lapse. I am now uninsured by any commercial company at their highest rates because of disabilities not the result of service. May I apply for insurance when the new insurance law becomes effective on May 1, 1965?

A -- Yes, if you can establish that your uninsurability existed on October 13, 1965, the date the law was passed.

Q -- A number of buddies at the plant had injuries or diseases in service but did not file a claim with the Veterans Administration. Should we file now to establish service connection in order to qualify for insurance under the program effective May 1, 1965?

A -- Yes, information and assistance may be obtained at any VA office.

Q -- I am a World War II veteran with only 18 months active duty, and I was separated from service due to a service-connected disability. Am I eligible for a VA guaranteed loan?

A -- Yes, if all other loan requirements are met. The deadline for World War II veterans who were separated due to service-connected disability is July 25, 1967.

# Kellys To Attend Meeting Of Historical Committee

Mr. and Mrs. Marshall Kelly of Earth will represent Lamb County at the 1965 State-wide Historical Survey Committee meeting on March 16 in Austin.

The state-wide goal of placing 1,000 markers a year was reached the first year of RAMPS -- and went over, with more than 1,300 markers erected in 1964.

To this date, there are 3 Official Texas Historical Markers and Medallions erected in Lamb County.

The marking portion of RAMPS is receiving major emphasis this year. Markers are to commemorate houses, sites, landmarks and individuals over the state, explained the state survey committee and the state organization will also stress publication of the proper tourist information on the markers, he added.

Mrs. Burrus long has been one of the county's most prominent figures in local history preservation and study. She was appointed recently for a two-year term by County Judge J.B. Davis.

The highlighting of the session is a discussion and planning of the second year for RAMPS, according to information they have received from the Texas State Historical Survey Committee.

RAMPS is the accelerated, state-pointed program of Restoration, Appreciation, Marking, Preservation and Surveys of Texas history. It was begun in 1960 and is now being engaged through the cooperation of the county, regional and state historical survey groups.

Twenty-one projects pertaining to RAMPS are slated for completion during a five-year period, announces the TSHSC, state agency with headquarters in Austin.

The Kellys, members of the Lamb County Committee, will meet with other county chairmen for a discussion of plans and problems in having successful RAMPS projects in Lamb County.

# Health And Safety Tips

There is a right way and a wrong way to do everything, including the taking of medicine. When medicine is taken correctly, the exact dose is taken the proper time under conditions that insure against error.

A pamphlet of the American Medical Association offers a few useful directions for taking medicines--

- Store medicines in a cabinet, preferably locked, away from the reach of children.
- Keep only medicines currently in use.
- Destroy old prescriptions, because many drugs lose potency or may be chemically changed by time.
- Read the label in a good light before opening the bottle or box. Read it again before taking the medicine.
- If you have more than one box of pills or capsules to take, be sure one is closed before opening the other. This avoids switching covers, and also the pills.
- When pouring from a bottle, keep the label up so that any dripping will not soil it and make it hard to read.
- When taking medicine at night, be certain that the light is on and that you are wearing glasses if you need them. It is easier to misread and misunderstand labels at night when you are sleepy than when fully awake during the day.
- Keep medicines away from the bed. Make it necessary to get up to take them. Keeping drugs and medicines on the nightstand by one's bed is dangerous because an overdose may occur if the medication is accidentally repeated while sleepy.
- Keep medicines in the original labeled container. If you carry pills in a pocket pill box, identify them with a label. Never use medicines in containers identified with foods.
- Avoid using medicine for children which is disguised as candy. Poisoning -- or at least overdoses -- can occur when children find and take medicine which looks and tastes like candy.

# STATE CAPITAL Highlights AND Sidelights by Vern Sanford

If you want to sit in on the committee hearing for the bill which would legalize the sale of miniature bottles of liquor in restaurants, you better come early.

That's what Sen. Jim Bates of Edinburg, sponsor of the bill in the upper house, is saying. He expects as many as 3,000 persons will be at the Capitol to testify or to listen when the bill comes up before the Senate Committee on Jurisprudence at 2 p.m., Tuesday, March 16.

Bill would allow establishments where at least half of the monthly business is for meals to get a state license for the sale of 2-oz. bottles of liquor, enough for a single cocktail.

There's organized support on both sides. The line-up:

--In favor, The Texas Restaurant Association, which hopes the bill will permit its members to meet the competition of private clubs, which increasingly are getting the restaurant business from people who like a drink before dinner.

--Opposed, church groups which generally are against any liberalization of liquor regulations and a strange bedfellow, the Texas Package Stores Association, which contends the bill as written would prevent liquor stores from continuing to sell beer.

The Texas Package Stores Association also believes the same section it opposes would prohibit restaurants from selling beer and wine if they sold miniatures.

A hearing is yet to be scheduled on the House version of the bill by Rep. Willis Whitley of Houston.

CONGRESSIONAL REDISTRICTING -- Texas Republicans, whose lawsuit resulted in present congressional districts being invalidated, have offered their version of how the lines should be redrawn. Plan is embodied in a bill sponsored by Rep. Frank Cahoon of Midland, only Republican in the 59th Legislature.

The GOP product satisfies many objections raised to others introduced so far, since it disturbs fewer incumbents than any plan to date.

Only U.S. Reps. Graham Purcell of Wichita Falls and Omar Burleson of Anson would be facing each other as opponents in a newly-created Congressional District 13, and U.S. Reps. John Dowdy of Athens and Lindley Beckworth of Gladewater, in a newly-defined District 3.

Three new districts would be developed: A District 23, giving Harris County a third congressman; District 17, giving Bexar County and a group of South Texas Counties another representative; and District 7, giving Dallas County a second congressman. U.S. Rep. Joe Pool, who lives in District 7, but now is elected statewide, could thus retain a seat.

LAND PROGRAM RENEWAL PROPOSED -- Voters will get another chance to say whether they want to continue the veterans land program under which thousands of Texas vet-

erans have purchased farm property at low interest.

A proposed constitutional amendment to extend the program -- first amendment cleared this session -- was approved by the Senate and sent to the governor. Amendment will be voted on in November. Rep. Gus Mutscher of Brenham and Sen. Criss Cole of Houston are the sponsors.

SMALL LOAN HEARING -- A housewife from Dallas told members of the House Committee on Banks and Banking that a \$50 loan, which she later decided she did not need in the first place, cost her \$1,500 over a three-year period by the time she went through renewals and additional loans to meet high interest rates.

She testified in a hearing on a bill by Rep. W. Reed Quilliam Jr. of Lubbock, which would reduce interest rates on loans \$100 or less by one-half to two-thirds.

An association of small loan companies appeared to oppose the bill. A citizens committee from Dallas and ex-Attorney General Will Wilson favored it. The bill went to a subcommittee.

GUADALUPE PARK ASKED -- Senate adopted a resolution by Sen. W.E. Snelson of Midland urging fast action by Congress to appropriate funds for buying land to create a Guadalupe Mountain National Park.

A federal agency has recommended that the park be created, and an area man has offered to sell 72,000 acres. Area contains the only stream in Texas where mountain trout thrive and is stocked with bear, mountain lion, elk, bighorn sheep, deer, turkey and a great variety of birds.

INTEREST BILL UP AGAIN -- Rep. James Nugent of Kerrville has reintroduced the amendment to the state conflict of interest statute which failed to pass during the last session. Among the changes is addition of a section which would prohibit any member of the Legislature from introducing or causing to be introduced legislation which would directly affect any client or employer from whom the legislator receives a retainer fee or any other financial consideration during his term in the Legislature.

HORSES STALLED -- Rep. V.E. (Red) Berry of San Antonio was left at the post again in his latest try to legalize race track betting on the horses.

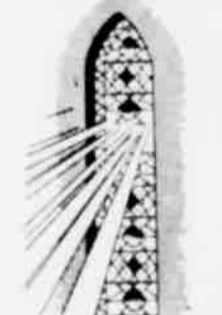

Berry couldn't win for losing when he argued for a constitutional amendment to permit parimutuel wagering in Bexar, Dallas, Tarrant, Harris, Galveston, Hidalgo, Cameron, Midland and Webb Counties on a local option basis.

House Constitutional Amendments Committee tucked Berry's proposal away in subcommittee.

Frank Newsom, executive secretary of Texas Racing Association, said his group preferred a bill by Rep. Maurice Pipkin of Brownsville (scheduled for House State Affairs Committee hearing on March 29). That bill would permit parimutuel betting at licensed tracks in all counties, subject to local option elections.

## Poison Prevention Week Proclaimed By President

Poison used to be prominent in intrigue, punishment, and assassination, but nowadays children under five are the main victims and many such innocent victims owe their agony to careless parents.

To reduce such needless suffering, and to call attention to the hazards around the average household, President Lyndon B. Johnson has proclaimed March 14-20 as "National Poison Prevention Week."

The idea is to help people understand that many common household products are dangerous, especially if swallowed. These include certain bleaches, cleansers, furniture polishes, kerosene, and other fuels, paint thinners and removers, and the like.

While Federal law requires labels on such products to indicate their dangerous or harmful nature, experience indicates that many adults ignore such

warnings -- even those which plainly say "CAUTION, DANGER, WARNING - KEEP OUT OF THE REACH OF CHILDREN."

But keeping things "out of the reach of children" is not easy. Young children, especially toddlers, are naturally curious and inquisitive. Keeping them from harm requires cautious and conscientious parents.

The "awful enemies" of children include items usually stored under the sink, aspirin and other medicines left on a bedside table or in an unlocked medicine cabinet, and handy-man cleaners and fuels left in the garage.

Removing hazardous items from their original container to soft-drink bottles and the like is a common and dangerous habit which traps many an unsuspecting child.
