Court Due To Take Up 84 Report

scheduled to take up a final report on a right-of-way appraisal of U.S. Highway 84 Wednesday afternoon at a special meeting.

The court had planned to discuss the project Monday, but the report had not been received from Appraiser Homer Robbins.

County Judge Pat Boone Jr. was in touch with Robbins' office Monday, however, and he was told the report would be ready be the Wednesday meeting.

The special meeting was called for commissioners to meet with the letter offering several representatives on group

Chevy pickup pulls through "bottomless" pastures to keep stock fed!

At the Hall Bros. Dairy Farm, Montgomery, Ala., they say this 4-wheel drive Chevy will go anywhere to keep stock fed-even through hub-deep muck that makes it a fight all the way. And yet after a full year of it-no mechanical trouble of any kind!

That Chevy pickup may not win any beauty awards (till it's cleaned up). But it's sure walking off with the top prize for depend-ability. And that's standard Chevrolet proce-dure. Put a Chevy truck to work and it keeps on working until you say quit. Not before.

We aren't claiming that every Chevrolet truck is turning out to be a miracle-worker and averaging 100,000 miles before a valve job. (Even though some are going 150,000!) You're sure to find, however, that you can't buy more truck dependability at any price. And that's borne out by the fact that more truck owners put their faith, and their payloads, in Chevrolets than in any other make. Take your load and schedule figures to your Chevrolet dealer. He'll specify the best way to handle both and save in the bargain.

No job's too tough for a Chevrolet truck!

Now's the time-see your local authorized Chevrolet dealer for a real truck

New Texas Highway Map Ready For Distribution

state highway travel map is a-Worth, Houston, Lubbock, San vailable for distribution by the Antonio, Waco, and Wichita Falls, Texas Highway Department.

pedia" of Texas, as it has been called, may be obtained by writing the Texas Highway Department, Austin 14, or at the highway district offices and travel information bureaus. County tax offices have map cards available for requesting copies of the map.

The new map is the answer to today's demand for more and more travel information. The steady growth of Texas from a state with a population of slightly over seven million just ten years ago to its present estimated population of more than nine million is reflected by the information appearing on the 1959 map.

WHAT ARE the popular gifts for graduation? Should the gift be a frivolous one? Is it more important to send young people off to other ventures bogged down with erudition — gifts of books, language records, a summer course in a favorite subject? on the 1959 map.

Nine more cities and towns are se in a favorite subject?

Most young people say "no. shown than on last year's map, making a total of 1,821. The increased mileage in U. S., state, a farm-to-market roads is much in evidence. The map reflects some 1,600 miles of multilane divided highway now completed in Texas, including the completed restinger.

Most young people say "no." They've had it for a while, whether they are going on to college or out into the big, cold world. So they'd like a gift that takes them away from it all. As one senior puts it:

"The greatest disappointment of including the completed sections of the national system of interstate and defense highways located in the state.

"The greatest disappointment of my life was to get a dictionary when I graduated from grade school. I wanted something that ted in the state.

ted in the state.

The map now shows approximately 61 major lakes and reservoirs, and includes countless rivers, creeks, and streams. Roadside parks, long cherished as rest stops and picnic areas by Texans and tourists alike, now number 1,046 as compared to the 1,026 shown on last year's man. Hot in that I almost cried."

The young man is an excellent student, but just thought that graduation gifts should be tokens of fun or sentiment.

Most popular gifts for shown on last year's map.

Fight Against Cancer Needs Everyone's Help

This has been a century of medical milestones, Since 1900, life expectancy has risen from 47 years to nearly 70 years. Since 1900, the nation's population has doubled. But the number of Americans 65 years old and over has more than quadrupled-from 3,000,000 to 14,000,000.

Among Amercans 65 and over, most killing diseases of the past have been effectively controlled. Since 1900, influenza and pneumonia deaths have declined nearly 80 per cent in persons over 65 while tuberculosis deaths have been reduced by 85 per cent. The cancer death rate, on the other hand, has risen 91 per cent since 1900. And unless this rate is checked, the annual death toll from cancer will double within the next 50 years. The disease already claims 255,000 Americans a year, half of them 65 and over. By 1975, the number of Americans over 65 years old is expected to exceed 20,000,000.

Must we be resigned to a formula which states that more life is equal to more cancer? Obviously not.

The problem of cancer has a solution. This disease will be overcome as other dread afflictions have been overcome. If cancer has lasted longer, it is proof only that more must be done to conquer it.

More research is needed. That means more scientists, more equipment, more centers for training and

Public education must be stepped up. The cancer patient needs more and better care.

Our doctors need more information on the best means of diagnosis and treatment of cancer.

To achieve these objectives, the fight against cancer needs more money. How much more? As much as will take to eliminate cancer as a major killing disease. That would be an attainment, cheap at any price.

The goal of the 1959 Cancer Crusade is a vital one. The goal is unlimited. No price should be put on the lives of the 40,000,000 Americans who will some day

Let all of us give all-out support to the American Cancer Society for its unlimited drive against cancer. Do your part when local workers ask for your help to-

Problems With Children? Tell It To The Governor

Nearly all Texans have ideas about the problems of children and youth today, but seldom do they get the chance to tell it to their President and Governor. Now they can by simply filling out the Public Opinion Poll on this page and mailing it to Governor Price Daniel in Austin.

lel want each citizen's ideas about the state and nation's contract. Their respective legal ate by itself. future citizens. President Eisenhower has called a by set and determined. If the con-White House Conference on Children and Youth, as tract is poorly and haphazardly each president has done every ten years since Teddy drawn, a harvest of regret may be reaped at a later date. Roosevelt. This week Governor Daniel issued a call for all Texans to look at barriers to the future development of the state's most precious resource -- its child-money contracts, binders, receipts,

WASHINGTON, APRIL 8, 1959

USDA Announces 1959 SUPPORT PRICES for 11 Classes of DRY BEANS

The prices are set to return to growers the national average support price announced on February 18 (press reelase USDA 467-59) at \$5.35 per hundredweight, which is approximately 60 percent of the February parity price of \$8.88 per hundredweight (announced January 30).

Classes of Dry beans included under price support are pinto, great northern, pea, and medium white, small white and flat small white, red kidney (including dark, light, and western), pink, small red, large lima, and baby lima beans. The class support rates listed in the table in this release are for U. S. No. 1 grade cleaned and bagged beans with all charges, except receiving and loading out, paid through maturity dates for price support loans on the 1959 crop. (Discount for U. S. No. 2 grade beans will be 25 cents per 100

As under past programs; beans will be supported through loans and purchase agreements, which will be available from harves time through Jan. 31, 1960. Maturity dates for loans and agreements will be Feb. 29, 1960, in Michigan, Pennsylvania, and New York, and April 30, 1960 in all other States. '59 Support
