State Legion Chief To Visit Here

L. E. Page

Hilton Lambert

Luncheon Set For Commander Next Wednesday

State Commander L. E. Page of Carthage and 19th District Commander Hilton Lambert of Snyder will be guests of the Littlefield American Legion post at a luncheon meeting Jan. 27. Local Post Commander Wayne Butler said details of the luncheon will be announced later.

Place To Be Announced

Page and Lambert currently are touring all posts in the 19th district. Page, Carthage insurance, real estate and investment executive, was elected department commander of the American Legion for Texas at the state convention in Houston last August.

Is Navy Veteran

The new head of more than 80,000 Texas Legionnaires is 41 years old and is a native Texan. Educated at the University of Texas, Commander Page made an outstanding record in the navy in World War II. He served in the Mediterranean, North Africa and Sicily campaigns. He is a lieutenant commander in the naval reserve.

While Page was commander of his hometown Legion post, it secured the largest number of members in its history. He was 3rd District Commander at the time of his election as department commander and has served on many important state Legion committees. He is an active Lions club member and an elder in the Christian church.

County School Administrators Meet Monday

Lamb county school administrators met Monday night at Olton with President Carl Maccon, superintendent of Olton schools, presiding. Attending from Littlefield were J. Ernest Jones, Lamb county superintendent; William Brune, Littlefield school co-ordinator, and Ralph Schilling, principal of Littlefield high school.

The group voted that the textbook committees meet in joint session in Littlefield some time before March 1.

A district 4 workshop for school administrators will be held Jan. 30 in Lamesa. A representative from each school in Lamb county will attend. Attending from Littlefield will be Supt. Hallds Pearce, Ralph Schilling, and William Brune.

Band Parents Play Tickets Now On Sale

Tickets to "If Mother Only Knew," a three-act comedy farce to be presented Friday, Jan. 29, by members of the Band Parents club, went on sale this week. Admission prices are 50 cents for adults and 35 cents for children.

Tickets were issued to members of the Littlefield Senior and Junior high school bands and a large number of the tickets had already been sold Wednesday. Prizes will be awarded the three students selling the most tickets with \$5 going to the top salesman, \$3 for second place, and \$1 for third prize.

Mrs. Earl Rodgers is chairman of advance ticket sales and publicity. The play will begin at 7:30 p.m. in the Senior high school auditorium.

Roy Gilbert Seeks Re-Election

Roy Gilbert, commissioner of Precinct 3, has announced that he will be a candidate for reelection subject to the Democratic primaries. His formal announcement will be issued later.

Joel Thomson Enters Campaign

County Clerk Joel F. Thomson said Wednesday he will be a candidate for re-election. His formal announcement will be made later.

Three Houses Burglarized In City

Three houses in Littlefield were burglarized while their owners were absent Tuesday night, the sheriff's office reported.

Mrs. Jennie Parker, 1021 W. 10th, reported a \$70 set of silverware, a \$10 walnut chest and a \$17.95 electric clock missing from her home. The other homes burglarized were those of Buck Teague, 1015 Monticello avenue, and his mother-in-law, who lives next door. It hasn't been determined what was taken from these two houses.

Officers theorize all three houses were burglarized by the same person. It's believed the break-ins occurred about 9 p.m. The Teague house was entered through an unlocked door and the house next door was broken into by tearing a screen.

School Kids' Aid Asked In Dimes Drive

Polio fund contribution cards will be distributed to 5,000 Lamb county school children next week, Campaign Chairman George White announced Wednesday.

The cards contain slots for a total of \$2 and, White said, "we're hoping everyone of them will be returned with contributions." Children need not fill the cards with their own contributions, but can add contributions solicited from their neighbors and friends.

The school card campaign is just one phase of the March of Dimes drive under way in this county, where it's hoped to raise \$10,000.

A March of Dimes dance will be held in Earth Jan. 29, at the American Legion hall, with music by the Billy Barber trio of Clovis, N. M. The dance will be sponsored by the American Legion, Earth Jaycees, and volunteer firemen. Admission is \$3 per couple.

In Littlefield, a series of "diminishing" silver coffees has begun, a TV set will be given away in connection with the drive, and a mammoth March of Dimes auction is scheduled downtown Jan. 31.

C. A. Duffy jr. of the Amherst Lions club has promised to get the campaign started in that city.

Man Jailed For Check Forgery

A man arrested here for forgery also is wanted by authorities at Plainview and Graham, sheriff's officers said Wednesday.

The man is accused of passing a forged check at Olton. No charge has yet been filed on him in this case.

Texas Co. Asks City For Permission To Drill 4 More Wells

The Texas Company Wednesday filed applications with the city government to drill four more oil and gas wells inside the city of Littlefield. They are the Union Compress Nos. 2 and 3 and the Littlefield School Nos. 1-81-A and 1-97-B.

Schools To Tax Personal Property

A decision to place personal property on the tax roll was made by members of the Littlefield independent district school board at a meeting Monday night in the office of school Business Manager Sid Hopping.

All But Household

Personal property assessed will not include household furnishings but will include equipment such as tractors, trucks, automobiles and farm equipment, Supt. Hallds Pearce said. Decision to tax personal property was made since many people in the school district who own considerable personal property but no real estate are not on the tax roll.

To Spread Tax Load

The decision was made in an attempt to spread the tax load to cover as many people as possible. Superintendent Pearce estimated that 40 per cent of the parents of school children pay no school taxes. This percentage will be reduced by placing personal property on the tax roll. More taxes collected will be more help in supporting the schools, Pearce said.

School Employs Firm To Assess Oil Properties

Littlefield Independent School system has hired the King-Latham-Shults and Company, evaluating and accounting engineers of Dallas, to evaluate and assess the oil properties in this school district.

Boyd Latham of the Dallas firm will do the evaluating on oil properties. No other properties will be evaluated.

The firm was issued a two-year contract. No charge will be made for evaluation done the first year and the firm will be paid three cents on \$100 valuations for the second year.

Decision to hire the Dallas firm was made Monday night at a meeting of the Littlefield school board on the basis that a better and fairer evaluation of oil properties would be received from a firm of experts.

Rivers Speaks To School Assembly

E. D. Rivers, national director of the World Life Insurance Society, who is in Littlefield for the installation of new officers of Woodmen of the World, will speak this morning (Thursday) to a joint assembly of Senior and Junior high school students.

Rivers will also be principal speaker at the Rotary club meeting today.

Leader Regrets Criticism Of A Good Coach

Last week's Leader carried a column condemning an unnamed Lamb county coach for not maintaining proper training discipline among his basketball players. It is not our policy to print such matter. We consider it our duty to tell our readers what goes on in our schools, but we do not think we should attempt to tell school officials how to coach their teams.

But worse than that, in this case the information upon which the accusation was based appears to have been erroneous. After careful examination of the situation we can find no evidence that the allegations of poor training discipline were true. On the contrary, the coach in question enjoys a reputation for fair but vigorous enforcement of training rules, and the performance of his teams seems to prove their effectiveness.

We regret that this piece of untautful and erroneous matter got into print. We have a high regard for all the schools and all the communities of this area. It is our intent to boost them all, not rip them to pieces.

While we have been in this business long enough to know that we cannot expect to print tens of thousands of words every week without making some mistakes, we sincerely hope that we will never again be guilty of a mistake of this nature.

These applications must be held for 10 days to give time for protests before the city commission can act upon them. They will mean a fee of \$300 each to the city government if approved.

Several days ago the school board granted permission for the drilling of these wells if completed before Sept. 1, 1954.

Delayed Until March

Company officials state that none of these wells can be started before March because all have minor irregularities which must be approved by the Railroad Commission before they can be drilled.

(Exact location of each of the proposed wells can be found in the legal notices on page 7 of this paper.)

More Oil Than Water

The Ida Daimont Hewitt No. 2 is still being tested. Tuesday it flowed and swabbed 92 barrels of oil and 45 barrels of water in 18 hours. At the same time it was producing gas at the rate of 439,210 cubic feet per day with casing pressure of 300 pounds.

Testing of the Hewitt No. 2 continues. It is the first well in the pool to produce much gas. There is a possibility that the gas pressure may cause the oil to flow from it without pumping. No change has been reported in the Duggan and Lingnau wells, both of which are pumping a good deal more water than oil.

DeKalb's F. M. Smith No. 1 at Oklahoma Flats a dozen miles south of Littlefield is drilling below 4,000 feet and is rumored to be running high on the structure—a good sign.

Earth JC Officers Installed

Lester Hammons took office as president of the newly-organized Earth Junior Chamber of Commerce at an installation ceremony Monday night, attended by Jaycees from Rails, Lubbock, Littlefield, Muleshoe, Plainview and Earth.

Other new officers are Roger Haberer, vice-president; Jerrell Haberer, secretary; Weldon Barton, treasurer; Ardis Barton, state director, and Board Members Russell Haberer, Rudy Ardis and Gene Brown. Ardis and Brown weren't present for the installation.

Rufus Rush of Lubbock, state vice-president, was installing officer. Ralph Krebs, president of the Lubbock club, was master of ceremonies, and L. D. Whiteley of Lubbock, past state president, was principal speaker.

The new Earth club was presented its charter during the ceremony.

The installation and dinner was held at Springlake school, followed by a dance in the American Legion building at Earth.

Littlefield Jaycees and their wives attending included Mr. and Mrs. Skipper Smith, Mr. and Mrs. Carl Keeling, Mr. and Mrs. Sam Williams, Mr. and Mrs. Bill Holder, Mr. and Mrs. Bill Duncan, Mr. and Mrs. Marion Williams, Mr. and Mrs. L. V. Pierce, Mr. and Mrs. Van Coltharp, Mr. and Mrs. Cecil Harp, Mr. and Mrs. Wayne Ramsey, and John Alford.

Cold Front Hits Here Wednesday

The mercury began a rapid descent of the thermometer Wednesday morning, according to temperature records at West Texas Gas company.

The low early Wednesday morning was 44 degrees, but at 9:30, when the cold front hit Littlefield and vicinity temperatures dropped rapidly to 36 degrees and were still falling at that time. Skies were clear except for wind-blown dust.

Temperatures recorded for the week were: Saturday low 32, high 74; Sunday low 37, high 47; Monday low 35, high 74; Tuesday low 44, high 72.

Lions Club Invites Girls To Enter Queen Contest

The Littlefield Lions club Thursday asked for candidates to enter the Queen Contest to be held in connection with the third annual club Minstrel in the high school auditorium, Feb. 25-26.

Hart Camp FB Elects Neinast

L. H. Neinast was elected president of the Hart Camp Farm Bureau at its regular meeting Monday night. Other new officers are:

Blanton Martin, secretary; Ray Monroe, first vice-president; Mrs. H. V. Lynch, second vice-president or refreshment and program chairman; Mrs. Paul Hukill, alternate; Mrs. Junior Muller, reporter; Ted Hatcher, director; K. Sorrensen, director.

Neinast, Martin and Monroe were elected by acclamation.

After several talks, refreshments of cookies, cocoa and coffee were served the 14 families and several individuals attending. Among guests were County Agent David Eaton and his assistant, Lonnie Coie, and Service Agent Marvin Carter. The next meeting will be Feb. 15.

PV Men Will Stage Style Show For MOD

The Pleasant Valley Social club and the Pleasant Valley Farm Bureau will stage a men's style show at 7:30 Tuesday night. The men will model five styles of clothing.

Mrs. R. L. Roubinek is president of the Social club and Harry Engleking is president of the Pleasant Valley Farm Bureau. Half of the proceeds from the show will be given to the March of Dimes campaign.

County Agent David Eaton will serve as master of ceremonies. Pie and coffee will be served for an additional charge.

Building Permits

City Secretary W. G. Street issued one building permit this week to Thomas F. Fulbright, Jan. 19, for a \$10,000 dwelling to be constructed on West Fourth

Tax Cases Due For Grand Jury

The government income tax cases against J. B. Haire of Littlefield and E. L. Caraway of Spur probably will be presented "in due course" to the federal grand jury now in session in Dallas, U. S. District Attorney Heard Floore of Dallas said Wednesday.

Floore told a Leader reporter by telephone that neither man has yet been summoned to appear before the grand jury.

Four other west Texans charged in income tax cases appeared before District Judge T. Whitfield Davidson in Dallas Monday but Floore said those appearing Monday "were only the men who wished to plead guilty and waived grand jury indictment." Those four drew fines ranging from \$1,000 to \$7,500.

Haire, who has said the charge against him "is an unjust thing," is accused of evading payment of \$21,255 in taxes on his 1947 income. He is a farmer.

Caraway, a Spur auto dealer, is charged with evading payment of \$3,284 in 1947 taxes.

70 Percent School Tax Paid Here

About 70 percent of Littlefield's school taxes for 1953 have been paid, Assessor and Collector Sid Hopping said Wednesday. Citizens have paid \$110,000 of the \$142,000 due, Hopping said. Taxes become delinquent is not paid by January 31.

Beginning Feb. 1, a penalty of 1 percent per month is added to taxes due, until July 1 when an 8 percent penalty, with 6 percent interest, begins.

THE NEW LAMB COUNTY courthouse in Littlefield is going up rapidly now. Workmen have poured concrete for the basement and the first floor and have forms up ready to pour concrete for the second floor. The courthouse, which contains voted \$600,000 to build and equip, is due to be completed next summer. (Photo by Taylor)

LAMAR KELLEY — Amherst Boy's basketball Coach who, with L. W. Harris, jr., of Amherst arranged and promoted the successful Amherst Invitational Tournament last week. Sudan boys and girls won the tournament championships and both Amherst teams placed second. Littlefield boys and Whiteharral girls placed third.

Sudan Wins Both Titles At Amherst

Sudan high school boys and girls won both the boys and girls basketball championships Tuesday night beating the Amherst teams, which had placed second.

The Sudan boys defeated Amherst boys 52-42 in a crowd-thriller and the Sudan girls came out to defeat a strong Amherst sextet, 53-45.

Large, beautiful trophies were given to the Sudan boys for winning the Tournament and others were given to the Sudan girls for their second. Littlefield boys were awarded the third place trophy and the Spade girls won the other third place trophy. Muleshoe boys and Whiteharral girls won the consolation trophies.

Jerry Gage of Whiteharral, high-scorer in the Tournament, led the boys with 23 three games and Judy Littlefield led the scoring in the girls' contests with three games.

The team scoring was this: BOYS: Sudan 181, Littlefield 152; Amherst 135, Whiteharral 134. GIRLS: Amherst girls sank the baskets in the whole tournament, 177 points and Whiteharral 135, Sudan 133, and Spade 132.

The tournament was held with many close games and by large crowds, with the arena filled to capacity several times on schedule for the days without varying more than a single minute.

The Amherst boys coach, Kelley, and girls coach, L. W. Harris, Jr., arranged and promoted the Amherst tournament.

Littlefield Wins Over Olton in Final Seconds

The Littlefield Wildcats won their first Conference engagement Tuesday night from Olton, 48-47, with a thrilling last second shot in the three-minute overtime play.

It was Boyd Mears who made the difference in the exciting over-time with a one-handed, wideopen, set shot from back of the free throw line as the clock ticked off the last three seconds of the "do-or-die" period.

Littlefield led most of the way through the game, but a scrappy Mustang quintet, sparked by the thrilling floor-play of the gridiron All-Stater, R. V. Allcorn, tied the score midway in the last quarter.

The lead changed hands several times from there until it looked like the Wildcats almost

had it by one point. Then a Mustang stole the ball and went for a shot. "Rabbit" Vaughn drew a foul just before the shot and the goal made didn't count as the buzzer sounded, ending the game.

After a little time-out discussion on the floor the referees fi-

nally convinced all concerned that the foul was committed before the shot was attempted by the Olton player and the basket didn't count but the lad had two free throws coming his way.

With the score in the Wildcats' favor, 43-42, the Olton man sank one of his free shots to tie the score, forcing overtime play.

In the extra three-minute play, Boyd Mears found himself open as the Mustangs guarded Wildcat high-scoring center, Gardner, very close. He sank the field goal then Gardner made a charity throw to put the Wildcats ahead 3 points.

Olton came through with two field goals to put the Mustangs ahead again, 47-46. The Cats brought the ball down on sure passing, moving the ball around deliberately and suddenly, with three seconds left, Dan Howard shot the ball over to Boyd Mears, who was in the open near the free-throw line and the ball plunked in, running the score to 48-47. Olton hardly got the ball over the center line and the buzzer ended the overtime with the Wildcats on the lucky end of the first District 2-AA contest for Olton and Littlefield.

Again the Littlefield fans went wild, filing out of the highschool

gymnasium and crowding around to congratulate Coach Joe Simpson and players as they modestly sought a path through the crowd to the showers.

Littlefield entertains Lockney Friday night in their second Conference tilt in the local, modern highschool gymnasium here.

Trudy Smith Tops Scoring As Girls Lose To Olton

Littlefield's Trudy Smith continued her high-scoring habits Tuesday night as the Littlefield girls' basketball team lost their first conference game to Olton, 47-42.

The Wildcat ace from Fieldton hooked in 26 points while Patsy Shelley and Gail Silcott led the Olton winners with 17 points each.

This game gave the Olton girls one win against no losses and Littlefield vice versa in the District 2-AA conference play, as the next six weeks will find both teams in mostly conference games.

(Olton B and Pettit only played two games; other teams played three).

Wildcat B's Down Olton B's

The Littlefield Wildcat "B" team ran away from the Olton "B" squad in a preliminary game Tuesday night, 56-35, when the two schools met for a conference in the local high school gymnasium.

Junior Joe Giddens, took high-scoring honors with 25 points, assisted by Wildcat team-mate Bill Fore who made 13, Dennis made 10 points for the losers and others scoring were: Littlefield, Bobby Orr 7, Ben Northam 5, John Clayton, McShan and Durham 3 each; Olton, Edwards 9, Gray and Kennedy 6 each, and Rhodes 4.

Coach Roy Carter's boys had the game their way most of the time as the Olton "B" squad didn't seem to be as hot in shooting and passing as last week when they gave Littlefield's "A" team a fairly good game.

Sudan Beats Springlake

The Sudan Hornets marched on in their District 2-A cage conference with another win, their fifth, thus far, over the Springlake Wolverines, 58-36 Tuesday night in Sudan.

This completes the first half of the District 2-A contests and it leaves Sudan in the lead with no losses and five wins. Coach Francis Smith's Hornets are favored to take the Conference championship without much trouble this year. The Hornets have beaten schools in higher conferences repeatedly, losing only to Brownfield this year in a very close and exciting game.

The Hornets' tall center, Leon Hill, pumped in 16 points to lead the scoring, and Evans of Springlake followed with 15. Springlake won the girls game, 47-31. Joan Maxcey led the most made by a Sudan girl the winners with 20 points.

THERE ARE 20 POINTS on the buck's head J. D. Smith, center above, is showing. Lonnie Taylor, left, got a 10-point buck and Howard Reese, right, an 8-point buck on their recent hunting trip to Colorado. Shown with the hunters and their prizes is A. G. FORMER WILDCAT Joe Walden, who is a Sophomore at West Texas in Canyon, made a splendid football record this past season.

Joe played in 10 games and made three touchdowns as half-back. He gained 496 yards rushing on 81 carries, averaging 6.1

yards per try. He had no attempts at passing but intercepted 6 passes that he ran back for 92 yards. Joe also had 11 kickoff returns for 261 yards and 6 punts for 67 yards, and 11.1 yard average.

R. L. Rhoten, freshman at West Texas, another former Wildcat, played in 6 games with 2 touchdowns. R. L. gained 154 yards on 33 carries for an average of 4.6 yards per try. Rhoten wasn't in the aerial attack area for he had no interceptions or punt returns but booted once for 43 yards and a real professional average of the same. He returned 3 kickoffs for 68 yards and an average of 22.6.

Next week we have a letter to print about the possibilities of Gene Renfro, now at Baylor. Maybe we'll hear from Tech about Black and Northam in time for press.

GIRLS' BASKETBALL.
The following letter is worth the space for every word: Dear Mr. Cunningham:

In reply to your article here is my opinion:
The Wildcats (girls) do not want to drop basketball. Basketball is about the only important sport in high school sports which can take part in. The girls do not have a great variety of sports like the boys do.

Basketball helps break the monotony of every day routine, and you might say it helps the grades too. If you aren't passing in so many subjects you can't play, and if the girls care enough about it they will study hard so they will pass.

In P. E. classes they have different sports but there is a loss of interest since they do not get to play other sports.

Geigel-Overhuls Official Tossed Out Of Ring, Schedules Rematch

The Bob Geigel-George Overhuls wrestling feud, reaching great heights here last week, continues in Littlefield's Sports Arena Saturday night.

Geigel, tall, hairy ex-University of Iowa football and wrestling star, now working out of Des Moines, and Overhuls, short, husky, blond from Amarillo, didn't get the issue settled to everybody's satisfaction last week. The fans demanded a re-match, and that is what Promoter Tony Bernardi is providing this week.

Bernardi recently purchased the Littlefield professional wrestling franchise, the Sports Arena and its furnishings from Clay and Vaughn of Hereford, and will operate in Littlefield under the jurisdiction of the Southwest States Enterprises of Amarillo. Dory Detton, general manager of S. S. E., announced the change of ownership last week. The company is the central booking office for professional wrestlers working in the territory.

In the match last weekend, Geigel and Overhuls had won one fall each when Overhuls hit Geigel with a flying tackle and Geigel in turn hit the referee, knocking him out of the ring. Overhuls pinned Geigel for a full minute but the referee was still out and unable to return to the ring in time to award Overhuls the bout.

So Overhuls turned Geigel loose and was assisting the ref back into the ring when Geigel got up and moved behind Overhuls, hitting him a terrific blow in the neck. Geigel knocked Overhuls down and pinned him. By then the referee had recovered

Barbara Baker

Bob Geigel

and seeing Geigel pinning Overhuls, awarded the bout to Geigel. At that, Dory Detton and the new promoter, Tony Bernardi, jumped into the ring and after a long argument convinced the referee Overhuls had rightfully won the bout. The referee called it no contest and Bernardi held up the purse. Winner in the rematch this Saturday will take both purses.

In last week's opener, Benny Trudell was disqualified for unnecessary roughness and Gene Dutton declared the winner. Carol Cook defeated Ruth Boatcaille, two falls of three, in 7

minutes, 22 seconds. The Saturday night card this week is further embellished by the appearance of two good-looking and strongly-built women wrestlers. They are Betty Hawkins of Louisville, Ky., and Barbara Kaker of Columbus, Ohio. They share main event honors with Geigel and Overhuls. Each match is scheduled for two out of three falls or one hour.

Hawkins, a pretty brunette who holds the Florida State Championship, and Baker, a blue-eyed blonde, are considered two of the top ten women wrestlers. They feature speed and aggressiveness, and their time on the canvas is never wasted.

Al Getz, of Pittsburgh, Pa., and Billy Weidner of Amarillo, two bold veterans, are matched in a one fall or 20-minute opening event.

(Continued from Page 3)

If the girls weren't interested in basketball they would not go out for it, because you really have to work hard to make the team and stay in the class.

As for losing, the Wildcats had a great setback by losing two "A" team players this year. Some of the girls who took their place were inexperienced since they had never played before the 10th grade. If basketball could be started in the 7th grade, by the time they were in high school they would at least know the basic rules, plays, shots, and passes.

As it is they do not learn this until the 10th grade. And if they do not have a good team due to this you can't blame the girls or their coach. They are trying hard and doing their best. Sure, they have lost quite a few games, but just because of that I don't think they should drop it.

The football boys lost quite a few games too and you notice no one said anything about them dropping football. As for taking attention away from the boy's varsity games I don't think that is true. If the people didn't want to see the girls play they would either leave before the girls played, or not come until after the girls game was over.

I don't think their morale is helped any by the lack of interest shown by the students at the games. If the students would yell for the girls like they do for the boys, that would make them feel like the students and people still had faith in them. As it is when the girls go on the court there is the feeling that they have already lost or are going to lose. And if you don't believe it helps to have some one rooting for you, just ask anyone who plays in any sports.

Even when the girls are 20 points behind and feel like giving up, they don't. They feel there may still be a chance, and if they can't win, the other side's score won't get any larger if they can help it. And for breath-taking games, the girls games can be too, as they proved in the Pettit game. The girls are really and truly trying hard to make a better team.

A tournament would help to get more people to come to the games. Advertising on the radio and in the paper would help, too. To drop basketball would have the same effect on the girls that would be on the boys if football was taken away from them.

The name of the girls team is Wildcats, not Wildcatettes. The team picked Wildcats and that is what is on their suits.

Sincerely,
Marcella Chandler

This letter is the best I have heard on the subject of Girls Basketball. We're for it and for the lady WILDCATS, too. My girls will play when they get in high school. I hope they get to play against the daughters of Art Gatts in Lubbock sometime. (Hope my boys play football for S. M. U. against Lubbock res-

dent's Bobby Layne's sons).

LOSING TEAM, WINNING SPIRIT

This is not to just hand out flowers for the fun of it. We really believe the Littlefield Wildcats (girls) team is one of the best examples of a losing team with a winning spirit.

Marcella's letter shows he spirit that is high through the entire Littlefield's girls team. There is more to win than just the score. Maybe these girls have won than so-called "winning teams."

Another example of American sportsmanship is seen when Pep boys only had six boys to play. Two fouled out and they thrled to make a contest for the fans with just four boys

Five Charged In DWI Cases

Five men were charged with driving while intoxicated as a result of weekend arrests, county court records show.

One of those charged, Frank-

and finally forfeited the game only when they realized it was no longer interesting to the fans.

COMING UP

February 4 the Littlefield F. F. A. will play the local Jaycees in a Donkey basketball game in the Wildcat Gymnasium.

lin W. Jackson of Anton, pleaded innocent and is free under \$1,000 bond. The other four pleaded guilty and County Judge Robert Kirk ordered them each to pay a \$100 fine and costs. They were Leslie Rae Mitchell of Albuquerque, James Douglas of Olton, Donald Ghalston of Sudan and Harvey G. Hammett of Cotton Center.

Twenty-four others were jailed over the weekend. 18 for drunkenness, two for reckless driving, one for violating the liquor law, two for disturbing the peace and one for forgery.

He expects to be assigned to 18 months service in Germany. A 1950 Littlefield high school graduate, he received a degree in chemistry from Texas Tech in August, 1953. He was drafted into the army last Sept. 8 and received 16 weeks of basic training in the field artillery at Camp Chaffee, Ark.

IT'S REALLY NOT THIS ROUGH, JOE—Taking it on the ears from both sides is enough to discourage most boxers from entering Golden Gloves competition. But not little Joe Wol. The 136-pounder, fighting for Amarillo's Borden's Boxing Club, is expected to enter the novice competition when Amarillo stages its 18th annual regional tournament. Joe posed for the picture to increase interest in the tournament. (AP Photo)

Party Line

Don't try to clean your refrigerator, vacuum, and polish your silver, copper or brass all the same day. Spread these tasks out through the week and you'll be surprised at how quickly and easily you accomplish them.

When soap or detergent is used to clean a linoleum floor, be sure to rinse well after using. Then when wax is applied, there will be no chance for your having a sticky floor.

Occasionally a wool tuft on a rug will rise above the pile surface. When this happens, just snip off the high-rising tuft so it is even with the rest of the rug.

Handle hamburger meat lightly! Unwrap the waxed paper package it comes in, divide it into portions with a knife, shape each portion into a ball gently, then flatten out.

Floods In East, Drouth In West

While West Texas continued dry in December, Central and East Texas had heavy local rains and a 6-inch cloudburst at Taylor brought on a flash flood that claimed one life.

Rainfall averages varied from one-tenth inch in the Lubbock area to nearly five inches in northeast Texas during December. The statewide average was 1.76 inches — three-fourths of normal. West Texas and the Panhandle rainfall averages were deficient while the averages in Central and East Texas were normal, the Texas Board of Water Engineers reported.

First Of Diminishing Coffees Given Tuesday

The first in a series of diminishing coffees to be given this year as part of the March of Dimes fund campaign was given Tuesday morning by Mrs. Elmo Jones at her home, 510 E. 14th street.

Each of her seven guests contributed one dollar to the fund and they in turn will each have a coffee, inviting six other persons. Each of these 42 guests will invite five persons to a coffee and so on down the line until just one guest is to be invited.

This is the second year the diminishing coffees have been used as part of the campaign. All funds collected by hostesses are to be turned in to the March of Dimes Diminishing Coffee fund at the Security State Bank.

Attending the coffee given by Mrs. Jones were Mrs. L. V. Pierce, Mrs. Skipper Brown, Mrs. Bill Holder, Mrs. Ray Keeling, Mrs. Jack Brodie, Mrs. Boyd Roberts, and Mrs. Guy Brown.

They expect to return home in about 10 days. Mrs. C. E. Waincott, of Cone, mother of Mrs. Pettett, and Mrs. James Lacy of Healdton, Okla., sister of Mrs. Pettett, are staying here with the Pettett children.

Hubert Dykes To Run Again

Hubert Dykes of Sudan, county commissioner from precinct 4, said Wednesday he will seek election to a second term. His formal announcement will be made later.

GM Builds First U.S. Gas Turbine Car

The XP-21 Firebird, first gas turbine automobile in the United States, has been announced by General Motors. In the cockpit, beneath a plastic bubble, is Test Driver Mauri Rose who put the car through shake-down paces at GM's proving grounds near Milford, Mich., and Phoenix, Ariz. The car's aerodynamic styling has an aircraft motif with a "needle" nose, swept-back delta wings and vertical tail fin.

Because the gas turbine uses large volumes of air, the Firebird has scoops on either side of the driver's cockpit and a large tail cone for exhaust gas. Its kerosene burning engine, mounted at the rear of the driver's seat, consists of two mechanically independent parts, a gasifier section and a power turbine. The power turbine delivers power to the car's rear wheels via a two-speed transmission.

The Firebird is an experiment to determine whether gas turbines will be feasible for ground vehicles.

Sudanite Faces Liquor Charge

Eugene Shepherd of Sudan is free under \$500 bond after pleading innocent in county court to a charge of violating the liquor law. Sheriff's officers charge he had "a small quantity" of whiskey when he was arrested Saturday.

Mrs. Hollis Smith went surgery Jan. 19 in clinic in Lubbock. Littlefield Sunday, recuperating at the home of her parents, Mr. and Mrs. Holladay. Her mother, Hazel DuBoise, left Friday after a week here while she was in the hospital.

Get A Feedbag Apron?

Barbara Roe
Women's Editor
has tried out a pos-
sible time.

This is one of the neatest tricks you can do on your sewing machine. If you happen to be a feedbag collector, you can make an

apron from one bag. If not, use any gay cotton that takes your fancy.
Even a beginner will find it a cinch to make a pocketed poncho (pictured) by following these simple directions from local sewing center experts planned to feedbag measurements):

To obtain one piece of material to work with, cut the chain stitch at a corner of a 100 pound cotton feedbag. Take the top thread in your right hand and the bottom thread in your left. Pull, and it rips in a flash. Soak bag in warm, soapy water to get brand name and label off.

Cut the bag into two lengths, one measuring eight inches longer than the other, to allow for pocket lapover. Hem or bind the edges. Sew shoulder and side seams. Allow sufficient opening for neck and armholes. Divide width into three equal parts for pockets, and sew with a double row of stitching, leaving enough space for small items that are so easily misplaced when you are busy.

Finish neckline in desired style: straight, round or V-shaped, with or without turned-back lapels. Hem or bind to finish raw edge. Add ties or belt in the middle.

Now give your imagination free rein and go to town with trimming. Along the edges sew bright rickrack. Applique gay designs on pockets or shoulders or personalize a gift by fashion-stitching a monogram. For one that is really different, make matching lapel linings and belt in contrasting fabric or color.

Combine smartness with thrift and delight birthday friends with this attractive gift which costs next to nothing to make.

Even the men in your life would be delighted to receive a tailored version which would afford such complete protection for the

This Is What You Call Jambalaya

By CECILY BROWNSTONE

Associated Press Food Editor

Here comes New Orleans! Yes, we've been cooking that wonderful Creole dish—Shrimp Jambalaya. We've been streamlining it a bit, too, so you can make it successfully for your next buffet supper.

One accompaniment to this Jambalaya we always like—a green salad. Use romaine or water cross and cucumbers, if they are available, for the salad; otherwise make do with what you can get. Just be sure your greens are chilled and crisp, and that the salad has plenty of French dressing on it. This Jambalaya is not a saucy dish—it cooks dry—and you need a salad doused in dressing to go with it.

This recipe will make hearty servings for eight. But if you should not have that many, don't worry. Put the leftovers in a covered casserole in the refrigerator. Next day, stir in a little curry powder, dot with butter or margarine, and heat uncovered in a very hot oven. When we tried this, our tasters gave us compliments aplenty!

SHRIMP JAMBALAYA

Ingredients: 2 pounds shrimp, 2 tablespoons salad oil, 1½ cups diced smoked lean raw ham (sliced thin), ¼ cup butter or margarine, 1 green pepper (chopped), 2 medium-sized onions (chopped), 1 clove garlic (minced), 1 bay leaf (crumbled), 2 cups uncooked converted-type rice, 1 cup strained court bouillon (to start with), one No. 2½ can tomatoes, salt and pepper and cayenne (to

taste), onion rings.

Method: Cook shrimp in court bouillon. Shell and devein. Heat oil in 12-inch skillet. Add ham and brown. Remove ham from skillet; set aside. Add butter to remaining oil in pan. Add green pepper, onion, garlic and bay leaf; cook until onion is partly tender and lightly browned. Add rice; cook and stir constantly until browned. Stir in 1 cup court bouillon, tomatoes and reserved ham. Cover skillet and simmer, stirring with fork occasionally, about 30 minutes or until rice is cooked. Add salt, pepper and cayenne. If mixture becomes too dry before rice is cooked, add more court bouillon—you may need ½ cup extra.

When rice is cooked, stir in shrimp; if shrimp are large, cut in two lengthwise. Turn into casserole; garnish with onion rings. Place in hot (425°F) oven just long enough to heat shrimp—5 to 10 minutes. Makes 8 servings.

COURT BOUILLON FOR SHRIMP

Ingredients: 1½ quarts water, ½ stalk celery, 1 carrot (sliced), 1 small white onion (sliced), juice of ½ lemon, 1 teaspoon salt, a few peppercorns.

Method: Put water in saucepan. Add all ingredients and bring to boil. Add shrimp. Let water come to boil; simmer 2 to 3 minutes. Drain shrimp, reserving court bouillon.

Speaking of Deviled Ham!

Busy you—lunch packer for the wage-earner, the school children, the sports spectator! So just prepare a variety of sandwich fillings in advance, store in wax containers and you'll be ready for any occasion.

Zestfully-seasoned deviled ham is a natural for a basic ingredient. Not only does deviled ham satisfy everyone's individual taste, but it's filling and nourishing, too. For a lift to any packed lunch, vary the sandwiches by making them with melba toast or rounds. Here are two sandwich suggestions:

DEVILED HAM AND FRUIT

2 cans (2½ oz. each) Underwood Deviled Ham
1 tart apple, chopped
4-5 large soft prunes, pitted
mayonnaise

Combine ham, chopped apple and chopped pitted prunes. Add 2-3 tablespoons mayonnaise to give mixture spreading consistency. Makes approximately 1½ cups filling, or enough for 5-6 sandwiches.

DEVILED HAM CRUNCH FILLING

1 can (2½ oz.) Underwood Deviled Ham
½ cup chopped celery
½ cup grated carrot
¼ cup cottage cheese or mayonnaise

Combine all ingredients. Taste and add desired seasonings. Makes approximately 1½ cups filling, or enough for 5-6 sandwiches.

This Tastes Good in Texas

"Chip-wiches" are a new taste treat—crisp potato chips topped with tasty spreads. Here are recipes for a few of the spreads ideal for dipping potato chips into.

BLUE CHEESE DIP

¼ lb. blue cheese, crumbled
½ cup chili sauce
3 tablespoons salad dressing
¼ teaspoon garlic salt
¼ cup chopped parsley
2 tablespoons minced onion.
Combine all ingredients. Blend well and chill till serving time. Makes about 1 cup.

CREAMY ORANGE DIP

1 3-oz. package cream cheese
1 teaspoon grated orange rind
2 tablespoons orange juice
1 teaspoon honey
Dash of cinnamon.
Cream all ingredients together thoroughly.

CHEESE-TUNA DIP

½ cup salad dressing
1 5-oz. jar or roll of Cheddar spreading cheese
½ can bite-size tuna
2 tablespoons grated onion
Dash of Tabasco sauce.
Stir salad dressing to Cheddar spreading cheese. Add remaining ingredients and mix well.

AVOCADO-ROQUEFORT DIP

1 sliver of garlic—grated or chopped fine
2 oz. Roquefort cheese
2 tablespoons lemon juice
2 peeled very ripe avocados
¼ teaspoon chili seasoning
1 teasp. Worcestershire sauce.
Beat with a fork. As mixture tends to darken on standing, stir or beat occasionally.

SARDINE-CAPER DIP

2 3-oz. packages cream cheese
1 tablespoon lemon juice
½ teasp. Worcestershire sauce
3 tablespoons salad dressing
¼ teaspoon seasoning salt
1 tablespoon chopped parsley
1 can (3¼-oz) sardines, rinsed
2 tablespoons capers.
Mash together until smooth cream cheese, lemon juice, Worcestershire sauce and salad dressing. Stir in seasoning salt, chopped parsley, sardines and capers. Season to taste with salt and pepper.

SWEET-SOUR BEANS

2 strips bacon
1 cup minced onion
1 tsp. flour
¾ cup vegetable liquid
¾ cup vinegar
2 tsp. sugar
1 tsp. salt
¼ tsp. pepper
2 cups cooked green or wax beans.
Brown bacon until crisp. Cook minced onion in bacon fat until yellow. Stir in the flour. Add vegetable liquid, vinegar, sugar, salt and pepper, and bring to a boil. Stir in the beans. Stir gently until heated through. Serve with the crisp bacon sprinkled over top. (Serves 4.)

SOUP WITH MEAT BALLS

Soup:
1 cup chopped celery and celery leaves
1 large onion, chopped
1 cup cooked tomatoes
2 medium carrots, sliced
1 cup diced potatoes
3 cups water
1 teaspoon salt
Meat Balls:
½ pound hamburger
2 slices bread
¼ cup milk
¼ cup finely chopped onion
2 tablespoons fat
1 egg
½ teaspoon salt.
Place all the soup ingredients in a kettle. Bring to a boil and cook 20 minutes. Soak bread in the milk and add to hamburger. Brown onion in fat. Add onion, egg, and salt to meat mixture. Shape into 1-inch balls. Drop the balls into the boiling soup. Cover and simmer 10 minutes. Serve hot in soup bowls, topped with chopped parsley. Serves 4.

Cattle Prices Still Steady

By Ted Gouddy
 FORT WORTH—Among observers at the livestock market at Fort Worth this week the consensus of opinion has been that recent weeks have seen the most stabilized conditions on cattle and calves that have been had in over two years.
 The prices of most cattle and calves have swung up and down in response to the pressure of supply and demand on the various classes, but there have been few times when the rise or fall of prices has tilted more than \$1 per hundred. Of even more significance has been the trend in prices to regain lost ground, or to trim down the advances, within a few days after the upset takes place.

The trade is generally inclined toward a little more optimistic view of the future, although most seasoned observers temper their hopes with various qualifications, "ifs" and "buts."
 The narrowed spread between stocker and feeder prices and the prices paid for fed cattle and fed lambs in recent weeks is cause for some fears the speculative buying may run prices up and over the prices buyers are willing to pay for replacements at later dates. This situation could result in another period of sharp downward readjustments later if the speculative urge forces the stocker prices into unrealistic levels.

On the favorable side is the continued broad consumer demand for meat. The expected crop of over 40 million calves next year promises to keep America on a beef eating spree for another year, but unless there is a drastic change the public appears ready and willing to pay going prices or maybe a little bit more for the privilege.

On the Fort Worth livestock market Monday fed steers and yearlings were slow and weak. Cows steady to 25 cents higher. Bulls were fully steady. Fat calves drew strong prices. Stocker and feeder cattle were strong to 50 cents higher. A. B. Edsall, Elbert (Throckmorton county) marketed a load of fancy steer calves that averaged 529 pounds, and topped at \$21, best price for stock calves in some time. Stocker yearlings ranged freely from \$17 to \$19.50, and some older steers drew \$18.50 down. Stocker cows had good demand at \$9 to \$15.50.

Party Line

Don't try to clean your refrigerator, vacuum, and polish your silver, copper or brass all the same day. Spread these tasks out through the week and you'll be surprised at how quickly and easily you accomplish them.

When soap or detergent is used to clean a linoleum floor, be sure to rinse well after using. Then when wax is applied, they will be no chance for your having a sticky floor.

Occasionally a wool tuft on a rug will rise above the pile surface. When this happens, just snip off the high-rising tuft so it is even with the rest of the rug.

Handle hamburger meat lightly! Unwrap the waxed paper package it comes in, divide it into portions with a knife, shape each portion into a oval gently, then flatten out.

Mr. and Mrs. Joyce Jones and Larry or Blossfield visited his parents, Mr. and Mrs. Otto Jones, last weekend.

Mr. and Mrs. Otto Jones attended the recent dealer showing of the 1954 Cadillac in Kansas City.

Mrs. A. A. McManan left this week to visit her mother, Mrs. Colla White of Linden, who has been ill for several weeks. Mrs. McManan expects to return in about two weeks.

Mrs. Hollis Smith who underwent surgery Jan. 12 at Taylor clinic in Lubbock returned to Littlefield Sunday. She is recuperating at the home of her parents, Mr. and Mrs. D. W. Holladay. Her sister, Mrs. Hazel DuBoise, and children left Friday after spending the week here while Mrs. Smith was in the hospital.

Mrs. O. F. Dent and daughters, Patricia and Joy, moved Friday to Austin where they joined O. F. Dent, former Lamb County judge, who is on the State Board of Water Engineers. The Dents have been residents of Littlefield for the past three years, moving here from Ofon.

A Good Soup Can Make a Hearty Meal

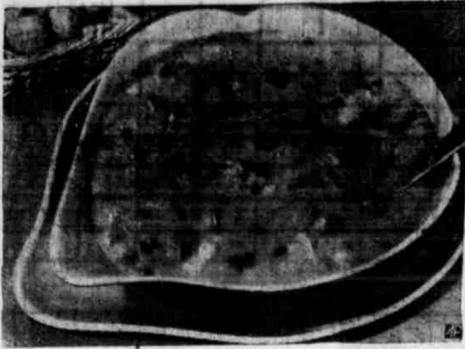

By CECLY BROWNSTONE

Associated Press Food Editor
A hostess trick from a famous cook book author, Irma Rombauer, the distinguished and charming author of "The Joy of Cooking" (Bobbs-Merrill), has been visiting in New York City, and while I was cooking dinner for her at my house one night, she let me in on one of her own secrets.

Mrs. Rombauer lives in St. Louis and has a small country house in the Ozark foothills. It's in the country that she has lots of company during weekends. It's there, she says, that she finds it a big help to serve soup as a first course. She ladles it into cups and brings it to her guests—before they sit down to table—on a tray. Then as they are enjoying this, she says, she has time to put the last touches on the main course and get it ready to be brought to the table as soon as she has sent her guests. This is, of course, a fine idea for the hostess who has to be cook and waitress, too.

That conversation started us on an Ode to Soup. Mrs. Rombauer and I are both devoted to this good course, and we agree that a hearty and delicious soup is a wonderful main dish for a company lunch or Sunday night supper. You can serve a salad after it, if you like. Or you can follow it with an assortment of cheese, offered—as they do in France—with crusty bread and sweet butter.

It goes without saying that a substantial dessert should follow a soup meal. A good choice would be a favorite of Irma

OUT-OF-THIS-WORLD CHOWDER, made with lobster, mushrooms and vegetables.

Rombauer's—nut cake.

If you like the idea of an easy-to-get soup meal, we urge you to try this Lobster Chowder. Our taste-testers were enthusiastic about its combination of flavors.

LOBSTER CHOWDER

Ingredients: 2 tablespoons butter or margarine, 1/4 cup finely diced onion, 1/2 cup finely diced celery, 1 1/2 cups water, 1 small bay leaf, one 10-ounce package frozen mixed vegetables (defrosted), one 3-ounce can chopped broiled mushrooms, 1 tablespoon cornstarch, one 8 ounce can tomato sauce, 2 cups milk, 1 teaspoon salt, 1/2 teaspoon pepper, one 6 1/2 ounce can rock lobster.

Method: Melt butter in sauce-

pan over moderate heat. Add onion and celery; cook 5 minutes, stirring often. Add water, bay leaf and contents of package of defrosted vegetables. Cover and bring to boil. Cook until vegetables are barely tender, from 5 to 10 minutes. Remove bay leaf. Drain mushrooms, reserving broth. Mix mushroom broth with cornstarch until smooth; add to saucepan, stirring constantly until liquid thickens. Add drained mushrooms, tomato sauce, milk, salt and pepper. Coarsely flake lobster and add. Heat slowly to serving temperature; do not boil. Simmer a few minutes and serve. Makes 4 generous servings.

Mrs. Tims Sells Farm, Will Move

Mrs. P. L. Tims is in Amarillo on business. She spent the weekend in Clarendon with her father who is ill. Mrs. Tims has recently sold her equipment on the S. J. Ayers farm.

She and her daughter, Robbie, will move the last of the week to Amarillo where they will make their home. Wylie and Morris Walker with their mother, Mrs. Ada B. Walker, all of Littlefield, will move to the Ayers' farm soon. They have been visiting their sister and daughter, Mrs. Fred Smith and Mr. Smith for several weeks.

Mrs. J. B. Wren sr. has gone to Brady to visit her mother who is ill.

McDaniel To Leave Army

Kenneth (Sonny) McDaniel will receive his discharge from the army in the near future at Camp Chaffee, Ark. He returned about 10 days ago from some time spent in Austria and Germany.

We Believe in Jesus Christ

Jesus is the Son of God, the eternal divine Word made flesh and dwelling among men. In His sinless life He revealed the nature of His Father and our Father. His infinite wisdom is our guide. His sacrifice upon the cross is our redemption, and His resurrection from the dead is our pledge of eternal life. He lives today, unseen though ever present, and in the acceptance of Him as Saviour and as Lord lies humanity's hope for the present and for the future.

Miss Joyce Tharp, Tech Freshman, Winner Of Several Beauty Honors

Miss Joyce Tharp, daughter of Mrs. H. B. Tharp of Littlefield, received acclaim at Texas technological college for her beauty and personality. Miss Tharp, in five years at the college, has already won three contests based on beauty and personality. She entered Tech Sept. 7, 1952, for each week during which she was "rushed" by several of the college's national sororities. She decided to pledge Delta Delta Delta, which had been D.F.D. of the Tech social clubs affiliated with national sororities in fall of 1952.

MISS JOYCE THARP

(Photo by Nail)

Miss Tharp was elected secretary of her pledge group and was initiated during Delta Delta Delta on campus, Feb. 7-14. She was selected as the club's pledge for "Miss Pledge of Tech" and was chosen over candidates from the four other colleges by the rushes of Sigma Sigma men's fraternity, early October.

During the latter part of October Miss Tharp was chosen T.C. Wing Sweetheart by officers of the R.O.T.C. unit of Tech. She was introduced as the R.O.T.C. squadron sweetheart on a Lubbock television program.

In December she was nominated as one of 160 Tech coeds to compete for a position among the top ten beauties in Texas sponsored by the staff of a Yonkers, college yearbook.

Beauty photographers judged girls, eliminating 60 girls in first phase of the contest, 50 in the second and finally choosing 20 of the original 160 to compete in the last elimination. Miss Tharp, who had been chosen star Audie Murphy will be one of the remaining 20 girls, including Joyce, from pictures of her. The top ten will each be featured in a double page spread in the yearbook published this spring.

Miss Tharp, a business education major, said she hopes to earn a two point, or B, average

at the end of the semester, Jan. 28.

She is taking 12 semester hours and is taking an active part in Tri-Delta pledge activities. Her dormitory residence is Horn Hall.

A 1953 graduate of Littlefield high school, she was a member of the Wildcat band four years, a majorette for four years and head majorette for three years. She also served as band secretary one year and made "Who's Who in Band" her junior year. She was on the SKAT staff two years and was elected to the Student Council one year. As a sophomore in high school, she

won third place in the district in declamation and was a member of the dramatics club two years. She was a two year member of the AllState Band and belonged to Future Homemakers of America.

Other Littlefield girls who have been candidates in Tech beauty contests during the last few years are Joan Thornton, Joan Schovajsa, Jackie Farr, Jeanine Hill and Connie Hopking.

However, local girls have been among the candidates in Tech beauty contests intermittently since the college was founded in 1925.

Miss Joy Walker And James Clements Married Friday Night In San Angelo

Miss Joy Walker and James Clements exchanged wedding vows in a double-ring ceremony at 7:30 p. m. Friday in the home of Mrs. and Mrs. Glen Hukill of San Angelo, uncle and aunt of the bridegroom.

The vows were read by Bill Daniel, Church of Christ minister, in front of a large mirror with arrangements of white pom-poms and chrysanthemums. Making the mirror were two bridesmaids.

Miss Joyce McCormick of Littlefield served as organist and accompanied Miss Betty Mills who sang "I Love You Truly." Simon Hukill, uncle of the bridegroom, sang "The Lord's Prayer."

Miss Walker was attended as bridesmaid by Mrs. Geraldine Hoover, sister of the bridegroom. The bridegroom's uncle, Mr. Hukill, served as best man. The bride was given away by her father, Thomas Earl Walker of Sulphur Springs.

Miss Walker wore a powder blue costume suit with black accessories and carried a white corsage topped with white gladioli. Mrs. Mercer wore a beige dress with black accessories. Her hair was of light pink modish.

At the reception following the ceremony Miss Janet Kohutek served cake and Mrs. Glen Hukill served punch. Attend-

ees at the reception were Mrs. Paul McCormick, Mrs. La Nell McCormick, Mrs. Joyce McCormick, Mrs. Mary McCormick, Mrs. John Allen, Mrs. Andy McGeehee, Mrs. Paul Pharris.

"Three boys, the oldest in school, the youngest just one, are the reason I have to wash every day. But the task isn't at all exhausting, thanks to my automatic washer, and I still have time and energy to enjoy my sons."

With a load of dial my clothes are washed. I don't do other housework while I'm washing. That's where I save the time that lets me enjoy my family.

When you're done as my wife, does you know what I do? I enjoy my family and have cleaner clothes. That's why I use a Reddy Kilowatt automatic washer.

The clothes are clean and I feel better. The automatic washer does the hard work for me. It's time-saving plus labor-saving.

Decision For Darkness

Most men are able to make the vital decisions in their lives without fanfare or publicity. The twenty-one young Americans who have elected to remain in Korea with their Communist captors have had the eyes of the world focused upon them while they were making up their minds. They had a chance to stand up and testify to freedom; instead they renounced their country.

It is hard to understand the thinking of these deluded Americans. They must not have witnessed the treatment given their fellow prisoners who refused to fall for the Communist line. They must not realize the enormity of the lies they have been told.

The time may come when they will regret their decision. It is likely that when that time comes, however, it will be too late for them to salvage the liberty they have forfeited so carelessly.

Americans can sympathize with the parents and the loved ones of these men whose minds have been poisoned by the Communists. It is always tragic to look upon men who have turned their eyes away from the light and entered into the kind of darkness which can consume them.

Eisenhower Farm Program Requires Minimum Legislation

The farm program submitted to Congress this week by President Eisenhower requires only a minimum amount of new legislation and is designed to maintain agricultural income at high levels.

This plan, product of the most comprehensive study of the American farm problem in all history, embodies these major recommendations:

1. That the bipartisan Farm Acts of 1948 and 1949 become effective as now scheduled with the 1953 crops.
2. That not to exceed \$2.5 billion worth of surpluses acquired by the government under the present program be withdrawn from the market and placed in a special reserve stockpile.
3. That Commodity Credit Corporation's borrowing authority be increased by \$1.75 billion—from \$6.75 billion to \$8.5 billion—to permit continuation of price support operations on basic commodities at 90 percent of parity through 1954, as existing legislation requires.

In urging that flexible price supports become operative on basic commodities in 1955, the President emphasized the need for balancing production of various crops with changing demands. Price supports, ranging between 75 and 90 percent of parity, would vary from year to year in accordance with the actions of farmers themselves in gearing production to annual requirements.

Although this program was enacted by overwhelming majorities of both parties in Congress, its effective date was postponed by continuation of mandatory price supports on basic commodities at 90 percent of parity through 1954. In developing the new farm program, it was recognized that it would have little chance of success if it had to carry the initial handicap of a \$6 billion stockpile accumulated under prior operations. The depressing effect of these surpluses upon free market prices has been in evidence for two years.

The parity ratio—the yardstick which measures the relationship between prices received by the farmer and those which he pays for goods and services—had tumbled from 113 at the peak of the Korean War in 1951 to 94 when the new administration took office in January of 1953. Today it is 91, although it has averaged about 93 during the year.

To facilitate the transition to the new program and, at the same time, strengthen agricultural commodity prices in the market place, the President has recommended that up to \$2.5 billion worth of government-owned surplus farm goods be placed in a special reserve to be used for

war emergencies, famine relief, foreign aid, school lunch programs, charitable undertakings, and disposal through newly developed commercial channels.

Sizeable quantities of wheat, cotton, vegetable oils and, possibly, dairy products would be "frozen" under this plan and thus reduce the annual carry-over for at least the first year to near normal. These items could at no time be disposed of in such a manner as to interfere with regular domestic and foreign trade operations.

The existing authority for support and purchase programs on such commodities as oats, barley, grain, sorghums, soybeans, flax, wheat, poultry and eggs, dairy products and fresh fruits and vegetables would be virtually unaltered under the proposed plan. Potatoes would become eligible for aid on the same basis as other vegetable crops.

Price supports on five of the basic commodities—wheat, corn, cotton, peanuts and rice—would range between 75 and 80 percent of parity, depending on the supply from year to year. It was recommended by the President that the modernized parity formula, now scheduled to become effective January 1, 1956, be applied to four of these crops at that time. It is already effective on rice, tobacco and non-basic commodities.

The modernized parity is based upon the price relationships of the various commodities to one another over the past 10 years. It brings the old 1909-14 formula up to date.

The President further recommended that legislative action be taken to prevent a decline of more than 5 percent in any one year, as a result of the transition from the old to the modernized parity on various commodities.

For tobacco, the present parity would be continued with price supports at 90 percent of parity when marketing quotas are in effect.

Continuation of the sugar program in its present form is recommended.

Honey and tung nuts would be dropped from the list of commodities on which price supports are mandatory. Future supports would be at the discretion of the Secretary of Agriculture, as is now the case with most other non-basic commodities.

A completely new program is proposed for wool. Direct payments would be made to make up the difference between the overage price of wool during the marketing season and 90 percent of parity.

The special problems of the operators of millions of small farms, most of which receive little or no direct benefits from price support programs, are to be made the subject of a broad

THE AMERICAN WAY

The Card Sharp

study recommended in the President's message.

At the same time, plans are outlined for high level trade missions and for a world conference on international trade problems with a view to expanding our exchange of agricultural goods with other nations.

Why is a new farm program needed?

A. Because the present farm program is proving unworkable. Huge surpluses are mounting steadily. At the same time, farm purchasing power has dropped in spite of aggressive application of price support laws now on the books.

The Commodity Credit Corporation's investments in surplus commodities have more than doubled in the past year alone. Jumping from \$2 billion in October, 1952, to \$4.5 billion in October 1953, the CCC's financial obligations now are pressing hard against the \$6.75 billion limitation of its borrowing power.

Acree allotments and marketing quotas have spread to wheat and cotton for the 1954 crops. Acree allotments for corn seem certain. And millions of acres diverted from these crops can be expected to cause serious trouble with the supplies of other crops.

But even with the application of price support programs, farm income has gone down. Thus a new program—an improved program—is needed.

Q. Is the new program entirely different?

A. There are a number of new features. But in general, the program would retain successful features of past programs, strengthen others, and replace the least successful portions.

Q. What are the most important features of the new program?

A. These features stand out:—a flexible (rather than rigid) price support program, adjustable according to the supply of the respective commodities.

—a modernized parity formula, permitting the price support program to reflect the ever-changing pattern of farm costs as farming methods are improved.

—a "freezing" of excess commodity reserves, isolating these stocks for emergency use, and other uses outside regular channels, thus preventing them from having a depressing effect on the market or handicapping the new program with burdensome stocks accumulated under present high rigid price support.

—high level trade missions and a conference with ministers of agriculture and food of other countries to discuss the stabilizing of prices for farm products moving in international trade and the utilization of accumulating supplies of food and fiber.

—an increase in the Commodity Credit Corporation's borrowing authority to \$8.5 billion to cover present price support commitments for 1954 crops.

In addition, the program would provide an entirely new program for wool. It would continue virtually unchanged the programs for tobacco, meat animals, dairy products, poultry and eggs, fruits and vegetables, sugar and feed grains other than corn. Except for tobacco, the "basic" commodities would be placed under the adjustable provisions of the Agricultural Acts of 1948 and 1949.

Potato growers would be given the same price support assistance as the growers of other fruits and vegetables, on a permissive basis. And mandatory price supports would be discontinued for tung nuts and honey, which would be placed in the category for which price supports are permissive.

It's The Law In Texas

The death of an intestate person (one who has made no will) may give rise to many problems regarding distribution of his separate estate. In the preceding column we investigated the manner of dividing the community estate upon the death of a husband or wife. Now we shall see that, where separate property is involved, a completely different set of rules applies in determining heirship and apportioning the estate among the rightful claimants.

It may be well to recall that the separate estate of a husband or wife includes property owned by either before marriage, and that which is acquired after marriage, by gift or inheritance. Any other property acquired after marriage

is presumed by law to be community property until the contrary is clearly proved.

Now, here is a general idea as to how your separate property will be divided if you do not make a will with contrary provisions prior to your death.

If your husband or wife survives and if, in addition, there are surviving children or descendants of previously deceased children, the children and their descendants immediately obtain a full (fee) title in two-thirds of the real estate involved. The surviving spouse receives a life interest in the remaining one-third of the real property, which passes on to the children and their descendants upon the death of the spouse.

The rule for distributing personal property—cash, stocks, bonds, furniture, or any other items not constituting real estate—is different. Here the surviving spouse gets full ownership of one-third, and the children and their descendants inherit the balance.

Now suppose your husband or wife survives, but there are no surviving children or their descendants. In this case the surviving spouse inherits all of the personal property involved.

With regard to real estate, the survivor obtains full title to one-half, and the other half is divided between your mother and father, if both survive you. If only one of them survives, he or she receives only half of this portion, and the other half (or one-fourth of the entire real estate) will be divided among your brothers and sisters (and their

AUSTIN.—A decisive turn on the question of a special session of the Legislature was due this week as a state committee considered a way out on the teacher pay problem.

J. W. Edgar, commissioner of education, had announced a week's delay in the all-important meeting because some of the 25 members could not be present.

Before the committee was a

compromise plan to give teachers a \$102 salary increase and require local districts to pay a percentage rather than fixed amount of basic school costs.

Governor Allan Shivers indicated that if the committee agreed on the plan he would ask the views of the legislators and then make his decision about calling a special session.

A sub-committee and most descendants) who survive. If there are no surviving brothers and sisters and their descendants, then the one surviving parent inherits the full one-half.

Where no parents survive, but there are brothers and sisters and descendants, the full one-half is divided among these survivors.

And, if there are no parents or brothers and sisters (and their descendants) surviving, then the surviving husband or wife inherits all of the real estate.

The Will To Know

By TOMMY WILLIAMS, Minister

"If any man will do his will, he shall know of the doctrine, whether it be of God, or whether I speak of myself" (John 7:17)

Great things are revealed in God's Holy Book, but the knowledge of these things is for those who are willing to put forth diligent, prayerful, untiring effort to search them out, to know them, and to do them when knowledge of them is obtained. We shall not blindly stumble upon the great truths of God. We shall know only if we are willing to know and do with all the open minded, consecrated effort which that means.

The people of Berea were called "more noble than those in Thessalonica in that they received the word with all readiness of mind, and searched the scriptures daily, whether those things were so" (Acts 17:11).

An announcement of a Gospel Meeting at the West 9th Street Church of Christ appears elsewhere in this paper. We invite you to consult that announcement for the details. We also invite you to come to the services. After having heard the messages, "search the scriptures" to see whether the things spoken are so.

It's June In January

SEASONED TRAVELER . . . Back and White shepherd check worsted with capelet effect, white collar, designed by Leonard Arkin.

January is the season of the shopper's bonanza. If she's looking for bargains she can pick up duds at half its former price.

If she's a winter vacationer, she can choose gay new resort clothes that will see her through next summer. And if she's just plain farsighted, she'll buy summer clothes now, even if she doesn't plan to stir away from her own back yard all winter. For shops always have their best assortment of hot-weather fashions in the resort collections, and come summer it will be hard to find those gay, cool garments that every woman cherishes—because in summer the store buyers are hard at work on fall.

It may be a silly system, but that's what our modern merchandising has come to, and you might as well face it.

Resort clothes in the stores now are a preview of the best styles you'll be seeing next summer. Fabrics are varied and beautiful, ranging from featherweight wools that look like silk to heavy silks that look like wool, and from satiny cottons with a silken feel to "miracle fiber" blends that are a boon to travelers for their wrinkle resistance and easy washability.

Slim, sleek silhouettes are the thing for resort as well as next spring, fitted like the paper on the wall, often with Empire lines and the briefest possible bolero jackets. The same line is stressed in one-piece sheaths, with fitted midrifts that outline every curve of the body—and are unmercifully revealing toward any waistline bulge.

GLOBE TROTTER . . . Brief contour bolero in navy and white check with velvet collar and cuffs over navy sheath, by Arkin.

SHIPBOARD ROMANCE . . . These cruising sun-worshippers have fallen in love with their new resort clothes. Left,

Empire sheath in bright yellow silk nonan with open neck and soft bustline drape; right, all-occasion travel dress in

black and white printed surah with graceful dolman sleeves, slim skirt. Both designed by Grabois.

Smaller Wheat Crop Predicted For 1954

By David Eaton
Lamb County Agents

A smaller wheat crop is the forecast for 1954.

If the acreage seeded approximates the national allotment of 62 million acres and if yields are normal, we will produce about 950 million bushels.

Output in 1953 is estimated at 1,203 million bushels.

The anticipated 1954 crop would about meet domestic needs and export needs in 1954-55. This should prevent a substantial build-up in carry-over stocks.

What about the supply of wheat?

Even though wheat production in 1954 declines, the total supply for 1954-55 would still be close to record levels. The carry-over of July 1, 1954, is expected to be around 800 million—highest on record and nearly 45 percent higher than on July 1, 1953.

With a 950-million bushel crop in 1954, plus an 800-million bushel carryover, we would have a supply in 1954-55 of 1,750 million bushels, about the same as 1953-54.

Let's take a look at the demand for wheat:

About 700 million bushels of wheat are expected to be used in the United States in 1954-55. This period is the marketing year, July 1, 1954, to June 30, 1955. This would leave about 1,050 million for exports and carryover.

Exports are likely to remain below the level of most recent years, since domestic production in importing countries has recovered from wartime levels.

Supplies of wheat in other exporting countries will probably be large.

If experts run about as expected in 1954-55, the carryover on July 1, 1955, would be about the same as the 800 million bushels expected on July 1, 1954, the beginning of the marketing year.

Prices in 1954

On October 8, 1953, the Secretary of Agriculture announced a minimum loan level of \$2.20 per bushel for the 1954 crop. This price is adjusted for applicable premiums and discounts to individual farmer, based on quality, etc.

This price is only one cent less than the \$2.21 for the 1953 crop.

Watch International Developments
Future developments on the international front could have a great effect on the price of wheat as we all know. The outlook for wheat is based on the assumption that the international situation will stay about as is.

A Few Facts:
1. Marketing quotas will be in effect for all farms planting more than 15 acres of wheat.

tions when and if it decides as to the special session."

Another "Loyalist" and prospective candidate for governor also took a slap at Shivers, without calling any names.

Agriculture Commissioner John C. White blasted the state's cross-filing law as "a blessing for Republicans and a curse for Democrats."

"When a man cannot reconcile his personal beliefs with those of his party, then he should sever his connections with that party," White declared.

"But under no circumstances should he use his conflicting opinions as an excuse to betray his party."

"And that is the most damning charge that can be made against some of our public officials during the year 1952," he said.

White's attacks made it apparent that he would make cross-filing an issue if he and Shivers should become opponents in this year's race for governor.

He is the only state official who refused Republican cross-filing in the 1952 elections.

Governor Shivers, on the other hand, allowed his name to be placed on the GOP ballot and helped carry Texas for Eisenhower and the Republicans.

West Texas farmers and ranchers face increasing costs for drought emergency hay.

Applications for transportation aid have been halted.

Agriculture Commissioner White said the program in the future will cover half of the freight costs up to a maximum of \$10 per ton.

On past shipments the program absorbed half the total cost and the railroads the remainder. The railroads stopped their reduced rates January 1.

Freight cost payments have averaged \$12.23 per ton, according to agriculture officials. But they say that stockmen now are

ordering from such states as Nevada and Idaho thereby increasing the costs to about \$35 per ton.

White estimated that aid allotments already made will exhaust the state-federal fund, if the allocations are used.

In addition, stockmen who already have allotments but have not placed orders for hay will be subject to the new payment policy.

Texas faces another serious problem in the overcrowded conditions in state hospitals.

"It is evident that with the expected increase in population overcrowding will remain a problem for years to come," the Board for State Hospitals and Special Schools reported to the governor.

Although the \$35 million seven-year building program has been going for three years, the board pointed out, it is not keeping pace with demands for bed space in the various hospitals.

According to the board, a survey of some of the institutions showed 29,850 patients occupying space suitable for 13,200.

Recommendations to the Legislature to subsidize care of the aged in private nursing homes is planned. Also, as soon as money is available, a system of outpatient control at mental and tuberculosis hospitals will be started, the board stated.

An organization of Texas cities has started an early campaign to get the attention of legislators before the regular session.

A program to obtain additional revenue from sources other than property taxes has been laid out by the League of Texas Municipalities.

Cities are "entitled to a fair share of the revenue from any increase in gasoline taxes" or any tax levied for road purposes, the league emphasized.

League members also plan to press for abolition of the ad valorem tax on motor vehicles.

They would submit registration fee one-third, with the balance paid to the vehicle owner.

In view of the problem, the legislature "aid services" by cities asking for fixing cases.

An act of the legislature is paying off with efficiency in state agencies.

The Texas Legislature held its sixteenth session during the week ending here.

Among outstanding for the session are Hoyt, publisher of Post and Dr. George president of Harts Searcy, Ark.

Bible Words to Live by

MATTHEW 28:19-20 — "Go...and lo, I am with you always, even unto the end of the ages."

His promise is: He is to be by our side to rebuke, to lead, to comfort, to encourage, to assure final victory.

The reward is collectible only by faithful ex-cutors of this will. That reward is final success because of His presence "by the side of," or "along with the worker, and of His participation in the assigned responsibilities.

He will be by our side to rebuke our sinfulness, for Light always rebukes darkness. How uncomfortable we feel in the presence of the saintly.

He is with us to lead us. "He leads me in the paths of righteousness for His name's sake."

He is with us to comfort us. "Yea, though I walk through the valley of deep shadows, Thou art with me, Thy rod and Thy staff, they comfort me" — give me strength.

When a farm boy, I went with my father across a small river to see another farmer. We were detained: the hour was late afternoon: we needed to save time. Instead of returning by the way of the bridge, we crossed on a submerged ledge of rock only a few feet wide. Deep water was immediately on both sides. Father rode his horse through first, then turned and faced me, saying, "Son, keep your eye on me and come straight."

"He has been there before you and He knows the way through."

"I will be by your side always — even until all the days of the eternities are completed."

NEWS ABOUT THE NEWEST LINCOLN

Take a long look at the '54 trend-setter!

Why have Lincoln sales more than doubled in two short years? Why do so many more people want the new Lincoln for 1954? Because people have changed their ideas about fine cars. No longer do they want useless bulk, glitter for the sake of glitter, power for power alone.
 The new Lincoln for 1954 keeps pace with these new ideas. The fresh new styling is bold and imaginative; with its low, straight lines it echoes the homes of modern living.
 Lincoln's colors, too—inside and out—set a new trend towards

the distinctive, the dramatic. Interior fabrics and leathers combine beauty with durability—as do those in today's modern homes.
 The real excitement comes when you drive the new Lincoln. Never, we believe, have you felt such smoothness and surge, such sure, safe power. For Lincoln's world-famous V-8 engine has a new automatic 4-barrel carburetor which gives new liveliness.
 There's one way to find out why the new Lincoln for '54 is the trend-setter in design and in action. We invite you to try the new Lincoln or Lincoln Capri today.

Performance proof: Lincoln again won 1st, 2nd, 3rd and 4th places over all stock cars in the 1,912-mile Mexican Pan-American Road Race.

where she contracted tuberculosis. Two girls she worked with have since died of it, as did her next door neighbor with whom she frequently visited.
 When her disease was discovered, she entered McKnight and stayed the full nine months at that time.
 Back at home instead of continuing to recover Lora became steadily worse until 19 months later the doctor convinced her that her one chance to live lay

Lora Simpkins

in lung surgery.
 The time limit on hospital stay had been lifted by the state, so back she went to McKnight and now both lungs were involved. Removing the destroyed tissue and salvaging the vital machinery of just breathing was no simple feat. But it was successful and now for the first time in six years Lora is thinking of clothes. Clothes she can wear outside her hospital room because she now is allowed to walk in the sanatorium grounds.
 With this new lease on life came the problem of what to do with it. She can't go back to her former job. Nor does she want to. She wants to write.
 She has ambitions toward newspaper work, but sanatorium officials have convinced her the physical activity involved again will put her life in jeopardy.
 Seth Henderson, vocational counselor assigned to the hospital, has worked out a plan to bring her dream of writing a little nearer reality. She is taking over as editor of sanatorium newspaper, "San Echo," while the Division of Vocational Rehabilitation for the Texas Education Agency trains her in library science.
 The realistic counselor has shown her the advantage of being able to earn a living while she tries her hand at free lance writing.
 "He has brought the greatest medicine ever to come to this sanatorium," she said of Henderson.
 It used to be that most of us spent our days here wondering how we could get away. Now we spend them wondering when we will be well enough to get into his training classes. It's wonderful to think of being able to hold our heads up and make our own way back in the world we were born in.
 That's Lora Simpkins' definition of the word "rehabilitation."
