LITTLEFIELD, LAMB COUNTY, TEXAS, THURSDAY, MAY 25, 1961

NUMBER 1

OWN and COUNTRY by Ed Tooley

has been one hectic week for the folks at the Littlefield office as we've begun changing the letterpress method to offset printing. Readers can very easily see the difference in the two methods because this latest three issues will be half offset and half letterpress.

Two sections of this paper are being printed by the new offset method. One of the offset sections is some "two color" printing.

Our area newspapers are being printed by the new offset method. The general appearance is better, although the reproduction of the original is not as good as the letterpress method.

Change over involves a lot of new type casting machines here at the Littlefield Press. Our new offset printing machines are being purchased by the Littlefield Press.

ESS has been located at Hereford (located at the intersection of the three main highways) and the three participating newspapers are printing the finished copy into Hereford and in the papers have been taken home and

printing corporation of three newspapers printing many other papers in order to keep the new press will copy per hour.

If you enjoy your Littlefield more as we try to better papers, through better process. You will have a little problem in the smaller type will be larger reading type. Everyone should improve the improvement in production.

### Blakley, Tower Meet Saturday In Battle Of Conservatives

The conservatives who will vote for William A. Blakley, 62 year-old Dallas millionaire, and John G. Tower, a 35 year-old Wichita Falls school teacher, beat 69 other aspirants in the April 4 race for Lyndon Johnson's old senate seat and both are "dyed-in-the-wool" right-wingers.

**BLAKLEY**  
A. Education: Following my graduation from high school, I enlisted in the Army in World War I. Later, I attended a semester at the University of Oklahoma. Then, I established residence in Texas, determined to further my education. I taught myself in the fields I had chosen. I first became a certified public accountant; then later, studied law and was admitted to practice.  
B. Occupation: I am a lawyer, businessman, farmer and rancher, and now United States Senator from Texas.  
C. Describe the training and experience you have had which would qualify you for this office: Through many years in various fields of business, the law, farming and ranching, I believe I have an understanding of the problems affecting this Nation, and that my experience will enable me to always give first consideration to the best interest of Texas and the Country. I have had previous experience in the United States Senate, having served for four months in 1957. As a present member of the Senate, I am a member of two of the Senate's subcommittees on Small Business, International Finance, Securities, Constitutional Amendments, Anti-Trust and Monopoly and Constitutional Rights.

1. Will you please give your reasons for your support or opposition to the present United States foreign aid program? If you oppose it, are there any circumstances under which you feel foreign aid would be justified? If you support it, are there any ways in which you think the program could or should be improved?  
The foreign aid program has been continued too long, too much money has been spent on it, and much of the money has been spent the wrong way. I favor an immediate discontinuance of loans or grants to countries not on our side in the cold war between freedom and communism. It is (Continued on Page Five)

**PENN POINT**  
W.A.R.P.

I found out one thing for sure this week. I am either getting old or I am just plain out of shape. I think every bone (muscle?) in my body is sore. Some are sore that I didn't even know existed. The coach of the Littlefield Press Little League team had to be out of town for a couple of weeks and I am working with the team in his absence. If you haven't done much running, throwing or catching in a year or so just go out and coach one of the teams and see how long you last...but the soreness doesn't come until the next DAY.

An unfinished editorial, the last written words of Editor and Publisher Arthur G. Elliott of THE BELDING (Mich.) Banner NEWS were published on the front page under the simple heading "30" in the issue following the sudden death of this lifelong newspaperman late last month. Mr. Elliott, who was a leading figure in Belding and widely known as president of the Michigan Weekly Newspaper Association, began his career as a carrier for THE OWOSSO ARGUS-PRESS at the age of ten and less than seven years ago achieved his life's ambition - a paper of his own.

The partly filled sheet in his typewriter began with the question: "Are weekly newspapers lacking in the courage to stand up for what they know right?" And in his reply he observed: "If we do not get at least one letter a week from someone who does not agree with an editorial we have written, we think we have not done our job well for the week."

"We believe when readers buy a weekly newspaper (in many cases it is the only newspaper he reads) he has a right to expect more than a word puzzle and a rundown on the marriage of a local damsel. He has a right to expect hard-hitting, pertinent editorials."

"The newspaper publisher or editor who does not provide the latter can never hope to be fulfilling his role as a communicator. Agreed that the primary function of this newspaper is to present news. But on an equal plane is the necessity for telling readers through an editorial..."

From here, the page in Publisher Elliott's typewriter was a

blank, the sentence unfinished. But to those who continue to meet their deadlines, whether weekly or daily, his thought could hardly be more clear - or complete.

I think the utility crews are to be commended for their fast action Saturday afternoon in cleaning and repairing the damage left by the high winds and rain. They were out working on lines just as soon as damage was reported and stayed with it until everything had been repaired. The telephone company came pretty lucky, according to Bob Saunders, district manager. The big grain lift that was toppled into their lines didn't sever the cable completely and in fact only broke a couple of the wires. If the cable had been severed, just about all long-distance service would have been gone and the painful job of putting the wires back in the right place begun. Public Service had their crews out replacing and repairing broken or fallen lines and light service was impaired. The city had a crew out working to keep the streets cleared. All these men are to be commended as they are always ready to serve and keep the phone and lights working even in the worst storm.

There were reports that a tornado funnel was sighted crossing Littlefield but never hit the ground. Jack Barton, local egg farmer suffered about the biggest loss in the immediate area. He lost four hen houses containing 700 hens. Only about 20 of the birds were killed in the storm but the loss of the houses made it necessary to kill the rest of the birds since there wasn't any way to feed or water them. James Pirkey school principal, told one of the most unbelievable stories about the high wind storm. It seems that some woman couldn't get her car into the garage because as she approached the door, the wind kept blowing her back. The exact amount of the rain that came with the wind will never be known because all of the rain gauges are set up vertically and the rain came horizontally. Now I know why the story of the visitor to Texas who asked the native how much rain had fallen during the past year. The reply was "20 inches and I remember the day it fell."

**Springlake 8th Grade Grads Receive Diplomas**

EARTH - Thirty-nine eighth grade graduates received diplomas at exercises held at 8 p.m. Thursday, May 18 in the Springlake School Auditorium. The program was "On Our Way". Delivering the valedictory address was Karen Barton, daughter of Mr. and Mrs. Weldon Barton. Peggy Upchurch, daughter of Mr. and Mrs. E. A. Upchurch was named salutatorian. She also spoke at the exercises.

The class entered as Jaqueline Parish played "March from Aida" by Verdi. Keats' March of the Noble" also performed by Miss Parish, served as the recessional.

Invocation was by Danny Byers. Class songs were presented by girls of the graduating class. Alice Jaques gave the class history and Marilyn Colker read the class will. A class poem

was given by Joan Sanderson. A citizenship award was presented Jimmy Stone, son of Mr. and Mrs. Jim Steffe. Beverley Kelley was named "Best All Round Girl" and was presented an award while Danny Byers received a similar one for being "Best All Round Boy." Miss Kelley is the daughter of Mr. and Mrs. Lester Kelley. Byers is the son of Mr. and Mrs. R. L. Byers. Jr. C. L. Berry presented the awards. Bill Mann, school superintendent, presented diplomas.

The benediction was led by Jimmy Stone.

**...OUT OF US**

**TEXANS WANT**

- **A FULL-TIME SENATOR.** John Tower is young and vigorous. He has no outside interests to divert him from serving Texas.
- **A SENATOR "OF THE PEOPLE".** John Tower, a native Texan, is not a wealthy man. He understands fully the struggle of the average man to educate himself and to raise a family, for he has first-hand experience in both.
- **A COURAGEOUS SPOKESMAN.** John Tower, a highly articulate conservative, rallied the support of almost a million Texans who applauded his courage with their votes to back his stand against the liberalism of the New Frontier. He has captured the fancy of Texans and the nation with the velocity and quality of his campaigning.
- **A STAKE IN THE FUTURE.** John Tower, by virtue of his youth and dynamic personality has a brilliant political career before him. He is destined to lead Texas into a new chapter of political history. He has already been assured of important committee assignments in the United States Senate where his qualities of leadership and knowledge of government will bring him to the fore in short order.
- **A VOICE AND A VOTE IN WASHINGTON.** John Tower has demonstrated that he will stand up and speak up for the Texas viewpoint. He is absolutely free of political obligation to anyone. He has no influence whatsoever with "Lyndon and Mister Sam" . . . they have none with him either!!!

**TEXANS DO NOT WANT**

- **PART-TIME REPRESENTATION.** During his first interim term in 1957, Wm. Blakley was absent 44% of the time. Between January 3 and April 11 this year he voted only once out of 23 called votes. He was the major stockholder in Braniff Airlines and owner of extensive real estate.
- **A "MILLIONAIRE" SENATOR.** Wm. Blakley, native Missourian, is reputedly one of the nation's richest men. He is a heavy contributor to political parties and candidates. In 1952 he gave \$16,000 to Allai Stevenson's campaign. Columnist Doris Fleeson reported recently that he was "possibly the nation's largest contributor" to the campaign of Lyndon Johnson and Jack Kennedy.
- **A "PHANTOM" SENATOR.** Although twice "appointed" to temporary office, the interim senator failed to win support of the people of Texas when his candidacy was offered in a competitive election. He is seldom present and more seldom heard from in Washington. Many Texans have never seen him or heard him speak.
- **AN HONORARY SENATOR.** Blakley himself has said: "I don't assume to have the qualifications of the office and I have no interest in a political life." He is presently on only two committees of the Senate and is the lowest ranking member of each.
- **A "RUBBER STAMP" FOR THE NEW FRONTIER.** In 1957, Blakley voted with Lyndon Johnson 100% of the time and with Jack Kennedy 89% of the time. Last fall he endorsed the Kennedy-Johnson ticket and the socialistic platform of the New Frontier. He is clearly a captive of the administration without a voice or a vote of his own.

Dear Doctor,

On May 27, the state of Texas will elect a new U. S. Senator, the tenure of office to be 6 years. A mistaken vote cannot be recast until the end of that 6 years, and that may be too late. The "New Frontier" is steam rolling through Congress and Constitutional principles are crushed in the advancing national, if not international socialism. For those of us who do believe in Constitutional government, the choice of a candidate is crucial. The time is late and we cannot suffer many more defeats and errors in judgment without passing the brink, if it has not already been passed.

It has been said that we will be voting between two "conservative" candidates, but let us look at the record. According to Human Events, a Washington newspaper, dated April 21, 1961, Mr. Blakley, if elected will be a "rubber stamp" for Vice-president Lyndon Johnson. As proof, they cite his voting record during his first appointment (1957) when he voted 100% with LBJ. He also voted with ultra-liberal Hubert Humphrey seven out of eight times—88%. It is pointed out that Blakley's campaign manager, Jim Blundell, was Johnson's front floor manager in Los Angeles last July when LBJ was seeking the presidential nomination. Also, Blundell's assistant in the Blakley campaign, Terrell Allen, was an administrative assistant to LBJ for six years. Let us not forget that Blakley supported Kennedy in the general election, and further that another Democratic seat in the Senate is further support for the liberal Democrat who emerges as Committee Chairman by way of the support of the "Conservative Democrat". It is quite obvious that a vote for Blakley is a vote for the "New Frontier" whether he publicly proclaims it or not.

Tower is in the more conservative of the two parties. Because there is only a weak Republican political machine in Texas, Tower will have few if any debts to pay or favors to render. He is less vulnerable to control by political party machinery in Washington than is his opponent. He will have only his conscience and the people to serve him and guide him, not LBJ and JFK.

A vote for Blakley is a vote for the "New Frontier". A vote for Tower is a vote for individual conservative action --- another voice and another vote in Washington for a return to Constitutional principles. A vote for Tower is a true conservative vote. VOTE FOR JOHN TOWER ON MAY 27.

## LABOR FOR BLAKLEY

### Lots of Ideas In Leathers For Dad's Gift

If Dad has all the ties, socks, sweaters and jewelry he needs — read on: there's a long list of personal leather articles, desk or den accessories and other small leather goods that most men like to receive. These items make grand gifts because they're easy to shop for since no size is involved, and they have a traditional masculine appeal.

If Dad's like most men, his billfold is probably rather old and worn. Dozens of handsome new variations on the slim, breast pocket wallet or the

compact billfold that he can carry in a hip pocket are available.

Pigskin, grained or smooth cowhide, alligator and lizard are among the most popular leathers. These are often lined with brightly colored silk in regimental stripes, foulards or other necktie patterns.

If Dad usually carries a number of credit and other identification cards, a separate card case with transparent acetate "windows" hold the cards for easy reach. Match it in the same leather as his wallet and complete the set with slim leather key case.

A complete gift set of matched leather accessories will add warmth and an important look to his home or office desk. Such practical, prestige-giving accessories are large blotterholders, cigarette boxes, cigar humidifiers, tobacco humidors

and pipe racks, lighters and ash trays, pen and calendar stands, pencil mugs, date books and waste baskets.

For Dad the host — leather-bound ice buckets, flasks, coasters and portable leather beverage cases, complete with unbreakable glasses, are "gifted" items.

A clever innovation is a compartment to hold a transistor radio. The radio can be taken out and carried in a leather over-the-shoulder case.

USDA scientists are developing a new method for dehydrating potatoes, carrots and other vegetable pieces so they will be ready for consumption after simmering in water for about five minutes. It's more good news for busy homemakers.

### Futura's the one that never cramps your style...

Some luxury compacts make you choose between your friends... and your luggage. But not the luxurious compact cousin of the Thunderbird... the new Falcon Futura.

In a Futura you not only get a luxurious interior with individually contoured bucket seats, a handy console between them, wall-to-wall carpeting; you also get room for three people in the back seat, plus...

... a big roomy trunk. You put luggage in this place, not in the back seat which is reserved for your friends. Futura doesn't cramp your style

—or your budget either! It's America's lowest-priced\* luxury compact. It costs you less to run, too. Read about Falcon economy below!

**NOTE:** Under the test conditions of the Mobilgas Economy Run, a Falcon, with standard shift, scored 32.6 miles per gallon... best gas mileage of any 6- or 8-cylinder car in the 25-year history of the Run! (Another Falcon was second, with 31.6 mpg!) Drivers of all cars were experts... and really out to win. But Falcon topped 'em all!

# Scout Camps Expect Record Season for Year

On the basis of early reservations, a record season has been predicted for the Scout camps of Lamb County. The camps are being held at Post and at Tres Ritos on the Rio Grande, both operated by the Plains Council of the Boy Scouts of America. The camping program will open at Post and at Tres Ritos on May 11 after a week's staff training period. There are 14 at Post and 11 at Tres Ritos on the resident staff. These men are responsible for assisting with troop leaders as the troop carries out its own program. Religious services are planned and provided for Scouts of all faiths to enable them to fulfill their religious obligations. The range of activity opportunities at Camp Post and Camp Tres Ritos are large enough to please almost everyone. There are nature trails and nature study opportunities. There's hiking, pioneering, riflery, archery, fishing, rowing, canoeing, swimming and lifesaving training. Campfire programs bring out the best abilities of all campers to entertain, to learn new songs and stunts. The Boy Scouts of America is anxious to instill in all oncoming generations of Scout campers the desire to be good campers.

## Truelock Rites Held Sunday

EARTH-Funeral services for James Mathew Truelock, 88, resident of West Texas for over 30 years, were held at 2 p.m. Sunday at the First Baptist Church of Earth with Rev. Cecil Meadows officiating. Truelock died at his home in Earth at 4:15 a.m. Saturday following a lengthy illness. Burial was in the Springlake Cemetery directed by Parsons Funeral Home, Olton. The deceased was born Oct. 17, 1872 in Henderson, Texas. He moved to Earth from there in 1928 and since that time also lived at Muleshoe and Friona. Survivors are his wife, Neely; six sons: Aaron and Roy Truelock, Earth; Johnny Truelock, Portales, N. M.; Edward Truelock, Olton; Rufus Truelock, San Francisco; Elmer Truelock of Denver; three daughters, Mrs. Elmer Smith, Sulphur Springs; Mrs. H. J. Gilmore; Earth; Mrs. Martha Cowan, Denver, Colo.; four brothers: Ed Truelock, Paducah; John Truelock, Houston; Seth Truelock, Southland; and Tom Truelock, California. Three sisters, Mrs. Amanda Faulkner of Henderson, Mrs. Adera Welch of Albuquerque and Mrs. Sally Hillam, Longview, also survive, and 36 grandchildren and 78 great grandchildren.

## Instrument Makes Dad 'Music Man'

Idea that "it's too late to play a musical instrument once you're grown" is as last Father's Day gift. A steady increase in number of adults, particularly those who are turning to music as an "after-hobby." Last year, according to the American Music Association, more than 500,000 copies of America's growth of amateur musicians. Teaching methods, especially those used in group, make learning to play more fun. And results come. It is one of the most rewarding of all family activities. A creative outlet — and it eases tensions — music ranks at the top of

## As Needs John Tower

THOSE WHO ARE OPPOSED to John Tower for senator say that Texas would be voting against its best interests if it does not send a Democrat to Senate. If this is true, then New York and Kentucky, with Republican senators, and Arizona, California, Pennsylvania, Illinois and other states with one Republican and one Democratic senator must be debating, declining states. This, of course, is utter nonsense. The fact is that states where the two-party system has been generally made the greatest strides. Arizona's Republican senator is Barry Goldwater. Have you ever heard of Arizona's Democratic senator? Several weeks ago, the El Paso Chamber of Commerce noted that El Paso was losing Government agency offices to New Mexico. In fact, the president of the Chamber of Commerce asked why our senators could not protect El Paso from such a loss. Of course, New Mexico has a Republican governor and lieutenant governor and is a two-party state. Political competition gives the present Administration good incentive to favor New Mexico, because Administration stands to lose in New Mexico if it favors with New Mexico residents. In Texas, how many Washington Democrats in the past have had a collar around the necks of Texans, and Texas endured slights from the Democratic Party and Democratic Administrations which stood to lose nothing by doing so. Accordingly, Texas has a great deal to gain by competition in politics. The fact is that some of those who say otherwise fear the wane of their own political influence. It is they—not Texas—who stand to lose if John Tower is elected, and their loss would be Texas' gain. Texas needs John Tower's brilliant and articulate leadership in the Senate. He will be one of this Nation's outstanding senators.

## Freedom Was Priceless Then; It Is Just as Precious Now

FREEDOM NEVER CAN BE TAKEN for granted, lest it be lost. Neglected, it withers and dies, like a flower denied moisture and nourishment. Or is smothered by the creeping weeds of tyranny's lust for domination and for ever-spreading aggrandizement. Those who came to what is now our United States of America in longing search for freedom were aware of this. They had known tyranny and its ways firsthand in the Old World. SO, WHEN THEY AND THEIR DESCENDANTS found it necessary to give their lives, their all, to achieve that freedom by establishing a government of, by and for free men, their first thought was of a Constitution which would safeguard what they so agonizingly had won. Thus it was that the Constitution for the United States of America came into being Sept. 17, 1787, at the Constitutional Convention in Philadelphia. And that, further to safeguard the rights of the individual and of the states, the historic Bill of Rights — the first 10 Amendments — became part of the Constitution Dec. 15, 1791, upon ratification by the states. Yet, farseeing though they were, these safeguards of the dignity and freedom of the individual cannot alone preserve this heritage. Neglected, they wither and die. Or are erased or subverted by ambitious or foolish men, from foreign shores or within our own land. SO IT IS THAT AMERICANS OF our troubled and perilous times must remain aware of the origins and meaning of our Constitution and Bill of Rights, and as vigilant in guarding them, as were the Founding Fathers who achieved them. The Freedom Foundation at Valley Forge, a nonpolitical, nonpartisan, nonsectarian organization, is dedicated to maintaining that awareness and vigilance. It has formulated a "Credo of the American Way of Life," an expression of the political and economic rights provided us by the Constitution, the Bill of Rights, and the laws of the nation stemming from these. That the first freedom mentioned in this credo is the "right to worship God in one's own way" seems particularly

fitting and significant. For it comes, of course, from the very first clause of the first Article of the Bill of Rights: "Congress shall make no law respecting an establishment of religion, or prohibiting the free exercise thereof; . . . ." Further, the search for freedom of worship and the concept of self-government went hand in hand in the beginnings of the United States of America. H. G. Wells, in his "The Outline of History," describes the Plymouth Colony settlers as "republican-spirited men, hopeful of resistance to the Grand March of James I and Charles I."

THE PILGRIM FATHERS, ALONG with their quest for freedom according to their own rights, carried also the spark which would give the first glow to the beacon of self-government. They gave expression to that belief even before stepping ashore at Cape Cod in 1620. "Before landing," Clement Wood writes in "A Complete History of the United States," "the Pilgrims assembled in the cabin of their little boat, the Mayflower, and pledged themselves to form a government, and obey it. This was the first instance of an agreement to abide by complete self-government in the history of the European settlement of the Americas."

That freedom of worship was so preeminent in the minds of the founders of free America carries a further significance. It is a right which always is among the first to be limited or wiped out by those who like the Communists, put the state above all individual rights and freedoms. FREEDOM OF WORSHIP IS ONE of the stones in the arch of liberty which the Constitution raised in protection over Americans. This is a stout and stalwart arch, if those whom it protects keep it in repair and safe from assault. And, in an arch, each stone must be forever kept in place and unremoved. For, if one is lost, the whole structure tumbles into dust. It is the same with the freedoms erected by the Constitution for the United States of America.

## Harry Guffee, 'Half Doctor, Half Cowboy'

In Franklin, Tenn. a rodeo-minded community surrounded by white fences, Confederate monuments, mountains, and broad bluegrass pastures, lives one of the busiest men you will ever come across. He is Harry Guffee, half doctor and half cowboy, featured by Methodism's family magazine as the sixteenth in a series entitled: "People Called Methodist." According to the magazine, it is not unusual for Dr. Guffee to deliver a baby or perform an emergency operation after leaving a calf-roping contest (in which, chances are, he participated) or a bit unorthodox to enter the hospital in cowboy boots.

He operates a 1,600-acre ranch stocked with fine horses and cattle, and likes nothing better than to range over his acres on the back of a saddle-horse. But he never shirks his duty as doctor—often without pay. "Between office and hospital the doctor drives an automobile," reports Together. "On side roads off the highway he travels in a jeep. When the going gets really rough, he saddles up the Tennessee quarter horse he hauls in a trailer behind the jeep. Then, if his horse can't make it, he walks. # WSCS Circles Accept Pledges In Ceremony

EARTH—"The Light and the World" was the theme of an impressive, candle-light pledge service held May 15 at the Earth Methodist Church sanctuary by the three circles of the Women's Society for Christian service. A large candle representing Jesus the Light was placed near a world globe with smaller candles symbolic of various missionary efforts in the foreground. As the officers of the organization read messages on pledging, Mrs. Norman Sulser lit the candles. The tall candle was lighted by Mrs. B. T. Hamilton, WSCS president. Others participating were Mrs. J. L. Hinson, secretary of spiritual life; Mrs. Carroll McDonald, secretary of promotion and Mrs. Eugene Lee, treasurer. Soft piano music was played by Mrs. J. L. Hinson as the pledges were offered. Mrs. Norman Sulser led a dismissal prayer.

"Answering God's Call" was the story told by Mrs. R. S. Cole to approximately 10 Baptist Sunbeams who met Tuesday afternoon at the church. The students worked on African murals during the handwork period. They were dismissed in prayer by Judy Jacques. Refreshments of candy bars were served by LaQuita Raught. Friday, May 19 marked the closing date of the 1960-'61 school term for Springlake students. Elementary school students received report cards on that date. Junior High and High School students will be mailed their cards after Wednesday of this week.

and began work on Indian headaddresses. Mrs. James Lackey, den mother served refreshments. The meeting time of den 4 had been changed to Thursday afternoon at 3:00 p.m. at the Community building. Dennis Rylant led the group in the Pledge and the Cub Scout promise.

Mrs. David Cearley and children, Friona, spent last Wednesday night and Thursday as guests of the Sam Cearleys.

Dinner guests Sunday of Mrs. Mildred Free were Mr. and Mrs. Raby Kellogg and family, Morton.

Den 3 met Monday afternoon with 9 boys present and the den chief, Lynn Hamilton. The boys completed their shields and guidance of Mrs. W. D. Holt, den mother and assisted by Dwayne Parish. Mrs. Herman Galloway served refreshments. The boys will meet Monday afternoon at 2:30 p.m. at the Community building and go to the Sandhills for a picnic and rock hunt.

Mrs. Annie McNeill and Mrs. Lewis Faver and girls were in Muleshoe Wednesday afternoon where Mrs. Faver visited H. N. Seymour, patient at West Plains Hospital.

Word was received this week of the serious illness of Mrs. J. F. Elmore; Haskell, mother of Chester Elmore. Mr. and Mrs. Chester Elmore left Wednesday to be at her bedside.

Den 1 met Tuesday afternoon with 7 boys present and the den chief, Bill Coffee. The boys made Indian Tom-Toms under the supervision of Mrs. Jim Glasscock. Bill Coffee served refreshments. This was Bill's last meeting with the group; he is moving to New Jersey with his family at the close of school.

Mrs. H. F. Blaylock; Dimmitt was dismissed last Saturday from Farmer County Community Hospital, Friona and is recuperating at her home.

Den 4 met Monday afternoon with 2 Cubs present and the den chief, Arboth Rylant. The boy finished making their Indian shields and made Indian necklaces

A camp for Juniors of the Earth Methodist Church will begin Monday, May 22. Students will go to the sand dunes each day. A large canopy will provide shade for the campers.

Mrs. Kenneth Walker and Kenney and Connie Glasscock were guests of Mrs. Bo Bryant in Muleshoe Wednesday morning.

**HENHOUSES LEVELED**—Strong winds Saturday afternoon destroyed four henhouses at the Jack Barton XIT Egg Farm located two miles west of Littlefield. Three of the houses were in one place while the fourth was located at another farm. In all 7200 hens were left without a home. Barton said that only about 20 hens were killed in the storm. There was other damage in and around Littlefield as the result of the strong winds. (STAFF PHOTO)

**Sandhills Philosopher**

**Philosopher's Advice To JFK: Don't Trust Ole' Khrushchev**

Editor's note: The Sandhills Philosopher on his Johnson grass farm gets into international affairs this week. Anything to get the spotlight off his own shortcomings.  
Dear editor:  
I've never been interested in trying to tell the President of the United States how to operate things I've got more than I'm interested in tackling out here on this Johnson grass farm and anyway, it's a lot easier to criticize yesterday than to prescribe for tomorrow, but I'm going to break my rule and offer some advice.  
As I understand it, the President is going to meet in Europe with Premier Khrushchev so the two can sort of get acquainted and size each other up and discuss future relations of the two countries.

Unless the President has other business in Europe, I have a suggestion to make. Why doesn't the Lamb County Leader run a contest to pick the most unreliable man in the United States and let him sit in for Khrushchev and hold the summit meeting in this country? It'd save time and travel expense and we could hear all the lies in English.  
Discussing the future with Khrushchev is like trying to draw up a contract with the weather.  
I'd just as soon rely on my corns to tell me when a tornado's coming as to bank on what Khrushchev promises.  
What we ought to do is find the most unreliable man in this country, let him sit in for Khrushchev, hold the meeting in Washington, solemnly report what he has to say, toast

him with vodka, and get to work on some accurate missles.  
You know, around here, after a man has pretty well established a reputation for breaking his promises, nobody sells to him on credit. Based on what Khrushchev has promised and what he has done, I'd say he couldn't even buy a second hand tractor with steel wheels on time in Lamb County.  
Khrushchev makes a great pose of representing the great moral fibre of a dedicated nation burning with zeal for humanity, but that's mostly hogwash. He's a tough, smart shrewd character whose promises today have no relation to his deeds tomorrow. He proclaims his word is as good as his bond, but you've got to remember that's a Russian bond he's

Yours faithfully,

Wheat yields in several Panhandle counties are expected to be cut from infections of wheat streak mosaic virus. The disease causes light green to yellow streaks in the leaves and heads of infected plants do not fill out properly, says Harlan Smith, extension plant pathologist.  
June's plentiful foods list from the U.S. Department of Agriculture is topped by milk and all dairy foods. Other plentiful are potatoes and a host of spring vegetables. Broiler -fryers are co-starred with the dairy products as a budget-low item.

Texas Railroad Commission has ordered the present eight-day production pattern for the oil industry continued through June. But since June has only 30 days, compared to 31 in May, the daily allowable for June will be up by 48,013 barrels a day for a daily flow of 2,702,699 barrels.  
Texas Employment Commission has launched a "hire now" drive in an effort to take up the slack in the Texas labor supply. Employment in Texas has increased in the past few weeks, says a TEC spokesman, but is still lagging behind this period last year.

# Vegetable Dehydration Research Is Continued

Scientists of the USDA's Rural Research are developing a process of dehydrating carrot or other vegetables so they will last to eat after simmering in water for about 15 minutes. Before this process is recommended for commercial use, cost estimates, methods of making and storage are being studied.

According to the scientists working on this process, vegetables prepared by this method are palatable and their structure is maintained by interrupting the process at the point where the pieces would begin to become shriveled, subject to pressure-cooking then suddenly releasing the pressure. This gives the pieces their structure before the final stages of dehydration.

One of the advantages of this process is that the vegetables are difficult to dry and can be prepared much more rapidly than otherwise. Also, considerable savings in vegetable pieces are achieved by the new process.

## Black Rot is a Threat

Black rot is a constant threat to the grower. The fungus is common in higher altitudes and usually appears through July.

Spores appear on plants. The spots enlarge and dark spots appear on the diseased area, and usually dry, become shriveled.

Spores (seed) are produced in large numbers in the spring. These are washed by rain to healthy parts of the plant and cause new infections. Many generations of the fungus are produced. Moisture on plant parts is necessary for infection. The incubation period varies from 8 to 21 days.

## Cotton Institute Names Committees In Area Counties

The Cotton Producers Institute with headquarters at Memphis, Tenn., recently named representatives of counties in this region as members of the High Plains Founders Committee.

Roy Fortner of Lubbock, chairman of the institute's organization committee, said county committees will help acquaint cotton growers with aims of the institute.

"Program of the Institute centers around research and promotion," he said. "Through research we can lower production costs and improve fiber quality and thus overcome the one-billion-dollar inefficiencies now existing. Research can also give cotton improvements in consumer qualities which will enable it to compete in additional markets totaling five million bales. In promotion, cotton desperately needs a national advertising campaign directed to consumers."

Fortner envisions up to a 10-million-dollar research and promotion fund to expand the market for cotton.

The High Plains Founders Committee for the Institute includes: Bailey County: W. T. Millen, David S. Anderson, Horace Hutson, Oscar Allison, A. M. McBea, and Jack Ferguson.

Briscoe: Fred Mercer and G.A. Elms.

Castro: Allen Webb, Willis A. Hawkins, Sr., Paul Brooks, Charles Armstrong, Fred Bruegel, Jr., and Charles B. Martin.

Deaf Smith: R. G. Peeler. Floyd: LeRoy Durham, Harold Loden, J. R. Belt, Jr., Leslie Ferguson, Helmuth Quebe, John Key West and R. G. Dunlap.

Hale: Grady Shepard, S. M. Truss, Jr., Jason Allen, Ernest McEachern, Erceel Givens, J.C. Mills, Frank Moore, Shelby Howell, Kenneth Robertson, and Dub Scarborough.

Lamb: J. D. Smith, Roy McQuatters, Sr., R. D. Nix, F. M. Smith, J. B. James, Elmer McGill, H. G. Walker, Delvin Batson, W. E. Miller, Billy W. Clayton, and W. L. Hackler.

Lubbock: A. I. Coon, Howard L. Alford, Jack DeLaney, Frank Gray, Fred McNabb, Earl Weaver, Frank Guess, Joe Walker, Jr., and Billy Fortenberry.

Swisher: Ed Braisher, Virgil Hill, J. P. Jones, Harvey Milner, and Otis Harmon.

### Information On Peace Corp Is Available Here

The Peace Corps, which came into being on March 1, 1961 with the issuance of an Executive Order by President Kennedy, is in operation. Applications are being accepted.

The Corps, according to V. G. Young, state agricultural agent for the Texas Extension Service, represents an opportunity for individual citizens to work directly with people of other countries to provide economic, social, or educational assistance and to further the cause of peace through personal relationships and the development of mutual understanding.

He adds there is much similarity between the Corps and the International Farm Youth Exchange which has been a part of the 4-H Club program in the nation since 1949. This interest in such programs has brought local county extension service agents into the picture, says Young.

The agents now have sufficient information on the program, according to Young, to answer most questions from interested persons. Young advises persons interested in getting more information and the details on how the Corps will operate to contact the local county extension office.

### Palmer McCowan To Graduate From Hardin-Simmons U.

Abilene - Degrees will be conferred on 185 graduate and under-graduate students in Hardin-Simmons University's 1961 commencement exercises at 10 a.m. May 29.

Dr. James M. Godard, executive director of the Council of Protestant Colleges and Universities, will be the commencement speaker. Baccalaureate services for the graduates will be held at 3 p.m. May 28, with Dr. Robert E. Naylor, president of Southwestern Baptist Theological Seminary, as speaker.

Three honorary degrees also will be conferred by the university, a doctor of laws to Wayne Evans of Fort Worth, doctor of humane letters to John H. Winters of Austin, and doctor of divinity to the Rev. W. H. (Dub) Jackson Jr. of Abilene. Evans is business manager of the Southwestern seminary; Winters is Texas commissioner of public welfare, and Jackson is a Baptist missionary to Japan.

Undergraduate degrees will include 60 bachelor of arts, 43 bachelor of business administration, four bachelor of music, and 72 bachelor of science. Six master's degrees -- arts, music and education -- will be awarded.

Louis Palmer McCowan, Littlefield, will receive a BA degree.

**FORUM INSTALLS**—Above are officers installed by the Forum at their Spring Dinner Friday evening: Mrs. Mike Cotter, secretary; Mrs. Howard Burks, treasurer; Mrs. Joe Fenn, reporter; Lucille Betts, parliamentarian; Olene Gibson, Federation secretary; Lula Dickenson, vice-president; Mrs. A. D. Ward, president; and Addie Abernathy, installing officer. Below is a group picture made of the dinner meeting, showing Mrs. John Driskill, outgoing president, Mrs. Raymond G. Schellin, and Mrs. A. D. Ward at the head table.

### Virus Expected To Lower Wheat Crop In Texas

Wheat yields are being lowered in many Panhandle counties due to infections of wheat streak mosaic virus. This disease causes light green to yellow streaks in leaves and heads do not fill normally, advises Harlan Smith, extension plant pathologist.

A microscopic mite transmits the virus from infected native grasses or volunteer wheat to planted wheat. He points out the mite responsible for transmission of this disease is the tulip mite and not the commonly known brown wheat mite. When the mite is present in large numbers, one may note that top leaves are severely rolled. Mites may be found inside these rolled leaves but only with the aid of a hand lens or microscope. Early planted wheat is more severely attacked. Late planting, from late September to mid-October, seems to give best control of the disease. This allows growers time to destroy volunteer wheat and frost to kill native grasses so the virus cannot be transmitted to planted wheat. Volunteer wheat should be destroyed two or three weeks before planting the new crop so mites responsible for transmission will be eliminated.

For more information concerning this disease, growers are urged by Smith to contact their local county agricultural agent.

Local county extension agents now have information available on the Peace Corps. Persons interested in details on how the program will operate; how to file an application; who is eligible, can obtain this information from the local office of the county extension agents.

Buying a pair of men's slacks is as easy as buying him a pair of socks. All you have to do to find proper size — is put a tape measure to the inside waist-band of a pair of his trousers (be sure the waist-band is stretched to its fullest when you measure it.)

Then, measure the inside leg seam from the crotch to the bottom of the cuff. With these two measurements, the store has all it needs to give you a perfect fit for him.

For the nation as a whole, eggs sold per farm increased 94 per cent from 1954-59 but for the South Central States, including Texas, it increased by 300 per cent. John McHaney, extension economist, says egg production in this region is becoming highly commercialized and that the trend indicates that Texas producers will have to increase the size of their operations to remain competitive. They must also strive for greater efficiency in production, he said.

**REDISTRICTING APPROVED--** Despite disappointments and conflicts, a legislative redistricting bill has passed both House and Senate.

Sen. Jep. Fuller carried on a nine-hour filibuster against the Senate portion of the bill. Fuller protested that Jefferson County (Beaumont - Port Arthur) has more than enough population to be a one-county district. In the bill Jefferson is placed in a district with Orange County, as before.

Nor is all good cheer in the House where a number of members face the prospect of running against each other. Many rural areas with dwindling populations were enlarged or combined with other districts.

Rep. Will Ehrle of Childress, who is placed in the same district with veteran Rep. Bill Healy of Paducah, has announced that he has given up the idea of running for speaker next term.

**CLUB REGULATION PASSED--** A bill to license and regulate private clubs serving liquor by the drink gained final House passage.

Rep. Tom James of Dallas, sponsor, declared it was a law enforcement measure needed by the Liquor Control Board in order to halt saloons operating in the guise of private clubs. Opponents declared it would legalize liquor by the drink.

Under the bill, clubs would pay annual license fees, ranging from \$500 to \$10,000. James noted it would bring in some \$2,500,000 a year.

**"SIT-INS" ARE TARGET** -- A bill aimed at outlawing "sit-ins" and "stand-ins" has received preliminary House approval.

Rep. Lloyd Martin of Norman is author of the bill. It would provide a fine of \$200 for persons who refuse to leave a business establishment after being asked to do so.

**TAX REFUND ORDERED** -- State must return to several Dallas liquor stores \$89,246 in liquor taxes paid under protest, says the State Supreme Court.

These are taxes paid by the stores on liquor in stock before the effective date of an increased tax passed by the Legislature in 1959.

Not involved in this suit is another \$73,937 in liquor taxes paid under protest under the same circumstances.

**DPS EXAMS ANNOUNCED** -- Young men between 21 and 35 may make application through June 9 to attend the next school for state highway patrolmen. Department of Public Safety has announced that men meeting the patrol's standards will take exams in several cities June 13, 14 and 15. Prospective applicants may write to the Department of Public Safety at Austin for information.

**FLOOD OF BILLS** -- With the clock running out on this session, a large volume of bills is being moved at a swifter pace.

**Attend the Church of your Choice Regularly**

When  
the  
last

Nothing quite compares with the exhilaration of that final day at high school.

The drudgery of note-taking, the monotony of assignments and recitation, the tedium of term papers, the nights of cramming, the toiling tension of exam week . . . it's all behind them.

And ahead . . . graduation . . . the prom . . . college . . . a job.

But as an earnest parent, pause to take stock of your son's spiritual maturity. Has the soul's growth kept pace with the mind's?

The firmness of the bond between the Home and the Church holds the answer. Strengthen that bond every Sunday. In a world that constantly tests the faith of men . . . the last exam is not over.

**THE CHURCH FOR ALL . . . ALL FOR THE CHURCH**

The Church is the greatest factor on earth for the building of character and good citizenship. It is a storehouse of spiritual values. Without a strong Church, neither democracy nor civilization can survive. There are four sound reasons why every person should attend services regularly and support the Church. They are: (1) For his own sake. (2) For his children's sake. (3) For the sake of his community and nation. (4) For the sake of the Church itself, which needs his moral and material support. Plan to go to church regularly and read your Bible daily.

### Elephant Could Hold His Liquor

FORT WORTH —Maybe "don't feed the animal" signs at Forest Park Zoo should be amended?  
A 22-year-old Grand Prairie youth was caught giving beer to one of the zoo's two elephants—3½-ton Queen Tut.  
Officers hauled the offender off to jail on a charge of malicious mischief.  
Zoo curator Lawrence Curtis when asked if the beer affected Queeny, replied:  
"I'm not really sure. Did you ever try to make an elephant walk a straight line?"

### Billy Graham Slated For Dallas Address

DALLAS —Evangelist Billy Graham will be one of the main speakers for a nationwide Southern Baptist evangelism conference here July 2-4, 1963.  
C.E. Autrey, Southern Baptist evangelism director, said more than 20,000 persons from 37 states are expected to hear Graham's address in a Dallas football stadium. The main session of the conference will be held in the city auditorium.  
Autrey said the purpose of the meeting is to spearhead a nation-wide evangelistic emphasis due to be crystallized during 1964, the 150th anniversary of organized Baptist work in North America.

### Taxi Driver Is Taken For 'Ride'

LONDON —Two generous youths loaded with boxes and parcels offered to pay taxi man Julian Orleans with 15 packs of cigarettes for a five-shilling—75-cent—ride.  
At retail prices, 15 packs of smokes come to \$8.38, so Orleans happily accepted.  
As his passengers vanished into the night, Orleans had a horrible thought.  
He sped quickly back to where he had picked the two men up—in front of his uncle's tobacco shop.  
Sure enough, the shop had been burned.  
"I feel like a fool about this," Orleans said. "I wasn't suspicious at first because all sorts of people carrying parcels take taxis at night."  
Uncle Hyman Radinsky said the thieves made off with about \$1,400 worth of stock.  
Julian returned the 15 packs to Uncle Hyman, who paid his nephew the five shillings for the eleven-day ride.

### Blakley Endorsed By San Antonio Papers

SAN ANTONIO —The San Antonio Express news have endorsed William Blakley for the U.S. Senate.  
"Too seldom does the public have a man of this caliber offer himself for public service," the newspaper said.  
"Sen. Blakley is a refreshing breath with the rugged individualist but he is acutely aware that America is a world leader with a leader's responsibilities," an editorial read.  
The Express and News supported Atty. Gen. Will Wilson in the special election for the Senate post given up by Vice President Lyndon Johnson, Wilson failed to make the runoff.

### Solons Studying Measure To Curb Obscene Material

AUSTIN —The Senate Jurisprudence Committee has under consideration a House-passed bill that would levy fines up to \$10,000 and prison sentences up to 5 years for distributing obscene material.  
The bill passed the House May 11 on a local and unopposed calendar. No hearing has been set for it in the Senate committee.  
The bill defines obscene as "whether to the average person, applying contemporary community standards, the dominant theme of the material taken as a whole appeals to prurient interests."  
**Has Broad Coverage**  
Upon conviction, a person could be fined up to \$10,000 and given a year in jail for having any part in posing for, printing, selling, giving away, exhibiting or possessing "any obscene book, magazine, story, pamphlet, paper, writing card, advertisement, circular, print, pictures, photograph, photograph record, motion picture, film, image, cast, slide figure, instrument, statue, drawing, presentation or any other article which is obscene."  
The punishment would be increased to \$2,500 fine and two years in jail for giving, selling or exhibiting obscene articles to a minor.  
Conviction of a second violation would be considered a felony with punishment increased to five years in prison and a fine up to \$10,000, or both.
