President Views Drouth In

President Eisenhower ended a 4,500-mile tour of the Southwest Tuesday night and announced he will ask Congress to earmark \$76 million for drouth relief.

But, at the same time, the President said he thinks the state and local governments ought to help farmers and ranchers more with their problems.

Eisenhower told a special conference at Wichita, Kan., that he will ask Congress to: Let him spend \$25 million from the disaster loan revolving fund for emergency feed assistance to ranchers and farmers: extend, until June 30, 1958, \$25 million of the unobligated funds appropriated for agriculture conservation, so Agricultural Ser. Benson can pay farmers to carry out wind erosion prevention and other emergency conservation measures; appropriate an additional \$26 million Jaycees heard Kenneth Ware, primarily for refinancing farm indebtedness by direct loans.

WHITHARRAL - Mr. and Mrs. W. H. (Sonny) Shackelford, Jr., seniors at West Texas State College at Canyon were among the 340 Texas students who gathered day, in Nashville, Tenn., recently for the four-day Baptist student World Missions Congress. The congress was termed the "most signific-ance of its kind" in recent years.

The students were carefully chosen by local campus groups as delegates commissioned to study world conditions and interpret the Christian's role in solving pres-

ent-day problems. From the key-note address by eading of the T.H.D.A. Creed and cultert G. Rutenber, professor at Eastern Seminary, Philadel-Phia, Pa., to the closing service with Evangelist Billy Graham, the evidence of the world need for the Christian Gospel was

clearly and forcefully presented. The Texans joined others from state colleges, from private col-leges, and from Southern Baptist Colleges in 25 states and Canada. They represented many more countries, Nigeria, Japan, Jordon, to name only a few. A feature of the program was the internation-al voice choir from the University of Texas.

Speakers included Theodore Adams, Howard Butt, Jr., Baker James Cauthen, Paul Geren, Billy Graham, Culbert Rutenber, and James L. Sullivan.

Methodist Youth **Hear Swedish** Missionary Here

Dr. John Larson missionary to India from the Swedish Meth. odist Church and currently on a study furlough in this country, was the principal speaker at the meeting of the Brownfield distrist of Methodist Youth Fellowship at First Methodist Church, Littlefield, which drew an attendance of almost 200.

A forceful and engaging speaker, Dr. Larson told of customs of India, of the great need for education in agriculture and mechanics in the country, illustrating his talk by telling of see-ing fifty tractors which had been given by some charitable agency but standing idle because native workers knew nothing about operating it or any other machinery. He told of how little the average worker is able to wrest from the small acreage allotted each family and how desperate is the need for education of a practical nature among the workers of the country.

The youth of the Northwest Texas Conference of the Methodist Church have pledged \$10,-000 to pay the salary of an agriculture worker for five years, as a part of the five year program sponsored by the youth with Dr. Larson.

DAILY HEALTH ...

Your capillaries are important in feeding oxygen and food to your body's organs and tissues. They also carry away waste material.

High-Potency Vitamins work to improve the efficiency of Vitamia C, which helps make your capillaries functional. A properly functioning capillary system can make you feel better. And there is no substitute for good health.

Anderson said he was awake when the man came in, but he thought at first it was his grandchildren moving about.

The Renfro home was en ered about 4:30 a.m. by a subject who answered the description of the man at the Anderson residence. Rentro said the man came through the front door, which was unlocked, and apparently went into the guest sedroom, where a visitor, Kingman Nix of Portales, N.M., Was steeping.

The man took a billfold containing \$4.00 out of Nix' pocketbook and apparently started out of the house, But, he found the wrong door and entered Renfro's daughter's bedroom,

Renfro awoke and heard the man say something to his daughter. He rushed to the front of the house and saw the man run out the front door.

President Views

(Continued from Page 1) credit which could be paid back at a low rate of interest.

The President flew Tuesday from Tucson to Pueblo, Colo., and Garden City, Kan. He ended the day with a drouth conference with men who gathered Monday to prepare a proposed plan for solving the Southwest's big problem.

On hand to greet President Eisenhower at the Clovis Air Base was New Mexico Governor Edwin L. Meccham and more than 10,000 civilians and military personnel.

The President, wearing a brown hat and topcoat, was the first to step from his personal plane. He was greeted by a great cheer and a stiff "West Texas-New Mexico breeze". Hats were hastily doffed, but most members of the working press, with cameras to handle in a stiff wind, couldn't hold their hats and take pictures, so they took pictures.

As the 9th Air Force band, under Chief Warrant Of,icer Patrick Veltre, saluted him with 'Hail the Chief," Eisenhower walked between lines of an honor guard and stepped into a limousine for a tour of the nearby farming area.

Secret service men were everywhere at the landing field and an the tour of the farming area. They have a well-timed, smooth plan of operation in guarding the President, but they were very courteous with the press and others who accompanied the Chief Executive on the tour of the farming area adjacent to Clovis.

With the President on the farm tour at Clovis were Agriculture Secretary Ezra T. Benson, about of Steamboat, Neva- 17 other agricultural specialists, and approximately 200 newsmen

and cameramen. Following a tour of the coun tryside, Eisenhower met with a group of New Mexico farmers and ranchers for a short conference in the air base Officers

A press conference was not held. However, James C. Hagerty, presidential press secretary, was on hand and assisted and visited with the press. He said that the President seemed "much impres sed" with what he had seen at Clovis, San Angelo and Woodward. The press secretary said he was sure the tour would help in formulating drouth aid plans, but said that he had no information as to how immediate any aid

would be forthcoming. We learned that there are 388 irrigatinon wells in Curry County, of which Clovis is the county sent, and that with these wells they are attemp,ing to irrigate 80,000 acres.

Curry County has 480,000 acres of dry land.

The average depth of an irriga-tion well in Curry County is 400 feet, which make these wells expensive to drill, equip and op-

Curry County did not give much attention to irrigation until the drouth conditions of the past few

years.

Members of the press were transported by bus on the farm tour at Clovis. They were shown irrigated and dry land, with the difference in methods easily dis-cirnible from the bus windows. Some idea of the drouth can be

gained from this information about a field of wheat planted last

We were told that "io our right" was a field of wheat planted last fall, From the bus the area looked like a field that had been well worked but not

"We don't see any wheat," we informed one of the tour announ-

cers on the bus. "You can't see it from the bus." he replied, at the same time in dicating on one finger that the wheat had attained a height of only about two inches.

We noted fields of grain sorghums that "did not make" and

were never harvested.

We also observed other felds that had been plan e t to grain sorghams and harvested. There was ample evidence that a very poor crop had been made.

Other fields had a great amount

of drifted sand,

The chief inspection made by President Eisenhower on the Clovis stop was at the 320-acre farm of Raymond Worrell. He told the President his debt has increased steadily since 1950 and that land,

Worrell's total net earnings in 1950 were \$6,204. Earnings Were considerably lower in 1951, 1952, and 1953, and dropped to \$2,786 in 1954. The year 1955 showed a loss of \$3,652, and last

year a loss of \$104.

Formerly the lawmakers' see etaries, usually including many University coeds, were on and off the floor all during sessions, House members' secretaries had no desks of their own,

Now the house secretaries have basement offices. Their employers have new private telephones to call their secretaries, other awmakers' desks and outside.

But banished secretaries can console themselves with pay raises — up from \$9 to \$10 a day in the House, from \$12 to \$14 in the Senate. Both are paid seven days a week.

Even so, many observers deplored the passing of the secretarial "beauty parade." House members also voted to

New Task-Force 57 Chevrolet Trucks

Six heavily loaded Chevy trucks ran all the way up the rugged Alcan Highway in less than 45 hours! That's cutting more than a full day off the normal running time! They ran right around the clock, stop-

ping only to refuel.

But the important fact about this run was that it proved new Chevy trucks through and through. The Alcan Highway is a supreme test of every truck component. Engines had to prove their power up high-climbing grades and through washouts. Frames and suspensions flexed their muscles over axle-deep ruts and miles of pounding gravel. "And not a single truck turned back or dropped out due to mechanical failure," states the official AAA report of the test. Every model proved its over-all economy by its ironclad ability to stay on the job! Stop by; we'll talk
