School Board Will Select New Coach Friday Night

The Littlefield school board will announce its selection of a new football coach Friday night.

Twenty-six applicants have been interviewed and the Board has screened all applications carefully to a remaining five, Charles Kitchens of Iran, James Love of White Deer, Joe Bob Tyler of Burk-Burnett, Jean Mayfield, assistant coach at Levelland and another of the Plains who wishes to remain anonymous.

School board chairman, Jack Christian, who coached for several years himself, says that the Board intends to interview these five, if they all come to the special meeting, and announce the decision at the close of the session.

The school board is not following the policy of de-emphasizing football at Littlefield, according to Christian, but does want to make a better-balanced program of all athletics that the school can possibly and reasonably afford for the young people. Football will continue to get the same emphasis in instructors, equipment, stadium, fan-support, publicity, and practice time in the school schedule because it gives so much activity to so many students through the game, the band and drill teams.

Canadian Peddlers' "Wool" Tests Out As Rayon

Mrs. Truman Jones, Home Economics instructor at Littlefield High School, called the Leader office Tuesday to say that some peddlers claiming to be from Canada are "working" Littlefield with some piece goods which they are representing to be wool. She says that over their protest she tested it and found it to be rayon, and priced too high for rayon.

She was also displeased to hear that they are telling housewives that the Home Economics Department buys from them. She says they once practically gave the department a length of wool and that since then they have been using the department's name as a customer. She wants it known that the department does not buy from them and does not recommend that anyone else do so.

City Secretary W. G. Street sr. says they have not obtained a license as required by law.

City Investigates Two Accidents Over The Weekend

City police investigated two accidents this weekend within the city limits, one Sunday and one Monday.

At 2:30 p.m. Sunday an automobile driven by Glenn Vaughn and an automobile driven by Tommy Sisson collided on Phelps avenue. The accident report said Sisson's vehicle was stopped for a traffic light and the other car collided from behind.

Damage to the automobile driven by Vaughn was \$50 and \$25 worth of damage resulted to the car driven by Sisson.

An automobile driven by Gary Pass collided Monday with a car belonging to Bobby Yeary which was parked at 501 E. 15th street. Damages to the vehicle driven by Pass amounted to \$217 and to Miss Yeary's automobile amounted to about \$100.

But other sports, it is hoped, will receive greater emphasis than in the past.

Oil Prospects Are Dimmed by Failure of Irving Well

Littlefield oil hopes took their worst setback yet when Mayor Les Hewitt plugged and abandoned his well on the Leonard Irving lease. This well was on the north edge of town, less than half a mile from the latest Texas Compay well, which was completed only a few days ago as a flowing well producing about 70 barrels of oil and 20 barrels of water per day.

Hewitt reports that an 18-foot core was taken from the San Andres sand at 4016' to 4034'. Laboratory analysis showed some oil but so much water that the well could not be operated profitably.

The well was plugged Monday and the drilling rig moved the next day to the Heard lease 1½ miles southeast of town where the Sharples Corporation is drilling a test well.

The rig which has been drilling the Texas Company wells is still stacked on the Union Compress lease awaiting orders for that company's next well in the field which it discovered and in which it has drilled the only profitable wells to date.

Jaycees Present Merit Awards At Installation

Certificates of merit were awarded Carl Keeling, Bill Armistead, Earl Rodgers and Elmo Jones, and certificates of recognition and appreciation were presented radio station KVOW and the Littlefield Newspapers at the Jaycee installation ceremony last Friday night at the Community Center.

Awards were presented by outgoing president Skipper Smith in appreciation for work and cooperation on the recent school bond issue, sponsored by the Jaycees.

Officers were installed by Walter Shaller, national director of Amarillo, and Ralph Krebs, president of the Lubbock Jaycees, was principal speaker.

New officers are Marion Williams, president; Deverelle Lewis, first vice-president; Wayne Ramsey, second vice-president; Cecil Andrews, treasurer; Van Coltharp, secretary; Judd Walker, state director; and Bill Duncan and O. T. Vinson, local director.

Dinner was served to about 100 persons by the Ladies Society of the First Christian church. Following the installation ceremony, Jaycees and their wives danced to the music of a Reese airforce base orchestra.

Lions Convention Begins Thursday

Members of the Littlefield Lions club will join Lions from over Texas in Amarillo Thursday, Friday and Saturday for the annual Lions convention.

Delegates from the Littlefield club will be Harold Clements, Hubert Henry, C. M. Lance, Earl Rodgers and Paul Carmickle. Alternates are Mackey Greer, Alvin Webb, and Doug Howell. Other Lions club members are also planning to attend.

A team of local Lions will represent Littlefield in the Lions golf tournament Thursday afternoon. Highlight of Friday's activities will be the Queen contest, with Miss Joyce Tharp representing the Littlefield organization. Queen nominees will be in a downtown parade at 4 p.m., on a television preview at 5 p.m., and in the contest in the City Auditorium at 7 p.m. The Coronation Ball is scheduled at 9 p.m. in the Crystal ballroom of the Herring hotel, convention headquarters.

Election of district officers will be held at 2:30 p.m. Saturday. The district governor's ball will begin at 9 p.m. Saturday in the Crystal ballroom.

VFW Easter Egg Hunt Attracts 75 Youngsters

About 75 children hunted Easter eggs at Duggan Field Sunday afternoon when Veterans of Foreign Wars sponsored an egg hunt to all of the children of Littlefield.

The children were divided into three age groups and two prizes given for each group, one for a boy and one for a girl.

Springlake Assessments Being Doubled To Cover New School Bond Issue

THIS APARTMENT HOUSE for teachers will be moved to make a place for the new 12-room primary building to be erected out of the \$400,000 in bonds approved by the voters Saturday. The auditorium and gymnasium will be located south of the high school building where the old tennis courts were. The auditorium will open east toward the highway, the gymnasium north toward the school. The architects have not yet decided upon the best place to attach the four room extension to the high school building. (Photo by Taylor)

Rate Will Be Lowered 20%

Real estate assessments in the Springlake School District will be doubled as a result of approval last week of a \$400,000 bond issue for new buildings. Mrs. Melton Melch, secretary of the board, is in the process this week of raising the assessments on all real estate in the district. She says personal property assessments will not be changed.

The increase is necessary in order to get the bonds approved by the attorney general's office. As a general rule bonded indebtedness in excess of 8 percent of real property values is not approved. The new bonds, plus \$103,000 in old bonds, make it necessary that the district have six million dollars in real estate assessments. It now has just about half that amount. No exact figure for present real estate assessments is available, but the combined real and personal values total \$3,283,000.

The 100 percent increase in assessments will not result in doubling taxes, however. The board plans to reduce the tax rate from \$1.50 to \$1.20 per hundred dollars. This will result in a 20 percent reduction in taxes on personal property next year, but it means that real estate owners will pay 80 percent more than this year.

The bond issue passed Saturday by a vote of 106 to 49. Only persons who had rendered property for taxation by the school district were eligible to vote, and most of them did not do so. Election judges were Mrs. Herman Haberer and Mrs. Perry Martin. Clerks were Mrs. A. C. Barton and Mrs. Ernest Baker.

The bond money is expected to add four rooms to the high school building, erect a new 12-room primary building to house the first four grades, and build a new 1000 seat auditorium and a 1100 seat gymnasium. The auditorium and gym will be under the same roof but will be separate units with soundproof partitions which will permit activities in both at the same time.

By taking the first four grades out of the present grade school building the trustees think they will have sufficient room for expected growth of the grades from 5th through junior high. One hundred more pupils are expected to enroll in the grades and 40 more in high school next year than were enrolled this year, so the board plans to expedite the new classroom buildings as much as possible, but know they cannot be ready when school begins in the fall.

Butler and Brashear, architects of Lubbock, have been employed to plan the buildings and supervise the construction.

Hiway Dept. Will Erect New Building

The Texas Highway Department will soon have a new four room office in Littlefield. The Department is advertising this week for bids on the construction of a frame building 32 x 36'. It will be located adjacent to its warehouse building on the Clovis highway near the cemetery.

Bids will be opened at Lubbock May 4.

The local office employees eleven men and serves Lamb, Bailey, Castro and Palmer counties. It is presently occupying a small frame hut on what will be the new courthouse lawn.

The Highway Department hopes to be in the new building by September 1, just a month after the target date for completion of the courthouse.

Jimmie Hine To Instruct Course At DE Conference

Littlefield highschool distributive education instructor Jimmie Hine has been requested and approved as an instructor for the annual in-service conference for D.E. teachers to be held next August, according to Supt. Hallds Pearce.

Pearce received a letter from M. A. Browning, assistant commissioner for Vocational Education stating that a planning committee for the conference has suggested Hine as instructor in the subject "Problem Solving Techniques."

The letter said, "Included in the roster of instructors for various subjects taught in this conference each year have been some of the outstanding coordinators of Distributive Education... The committee believes Hine will render very valuable service to all the teacher-coordinators in the state through teaching this course."

ASC Asks For Release Of Unused Acres

Charley Hill, Lamb county ASC manager, appealed this week to cotton farmers to let his office at Amherst know as soon as possible if they do not plan to plant all their cotton quotas this year. He says it will enable the county ASC committee to allot the acreage to other local farmers.

Hill also warns that failure to report acreage which will not be planted may adversely affect the grower's history for future allotments.

June 4 is the deadline for releasing allotments.

Texas Tech Exes Will Organize

Revolution
Lesson for April 25, 1954

VERY few people in America can logically say they believe that revolution by force is invariably wrong. On the contrary, some of the most distinguished and respected Americans, both men and women, are proud of the letters "S. A. R." and "D. A. R.," Sons and Daughters of the American Revolution. If revolution was always wrong, then our country started on the wrong track to begin with, and we should be still a part of the British Empire. (The question might be asked, whether that Empire would have gone as far as it did and been as strong as it was, if it had not learned the lessons which only the American Revolution gave it. But that is another story.) The Bible tells the story of a revolution which had the full approval of a prophet of God. In fact, one of the prophets gave the chief revolutionists the idea.

Preacher Meets Rebel
Prophets in ancient times were something like preachers of these times, with two important differences. Prophet and preacher both speak for God to men. But the modern preacher has a church; the prophets had no established church, no chapel. They could not so much as rent a school-room or a theatre as preachers sometimes have to do. The prophets had to say their say wherever and whenever they could. There was no "regular eleven o'clock service." The other difference was that while the modern preacher likes to have a large church full of people to preach to, the prophet of olden times did not always (perhaps not usually) try for large crowds, but rather picked their listeners very carefully. They would be content with an audience of one, provided the one man was the right man. So the prophet Ahijah met a young man named Jeroboam alone one day, and gave him the idea that changed the lives of a whole nation. Tearing his long cloak into a dozen strips ("Is the man crazy?" Jeroboam must have thought, for the cloak was brand new), he invited the younger man to take ten of the pieces. The ten strips were ten "tribes" of Israel, and putting them into Jeroboam's hand meant that he was to be the leader of the revolution and secession which would tear those tribes away from the then united nation. The preacher, in short, was inviting and inciting rebellion and revolution.

When Is Revolution Necessary?
It is not the first time that preachers have been on the side of the revolutionist. In the American revolution some churches, among them the Presbyterian, were so active in promoting that revolution that when British soldiers searched the houses of citizens suspected of revolutionary tendencies, if they found in the house a copy of the Presbyterian hymn book or catechism, the evidence was considered sufficient to make arrests on the spot. This raises a serious question. Why is it that churches and preachers, which are generally conservative and teach and preach patriotism as a Christian attitude,—why is it that they have ever supported revolution, even by violence? Over in England a famous convention of preachers and other religious leaders in the year 1648 wrote it into their creed that "it is the duty of people to pray for magistrates (they meant the government in all its branches), to honour their persons, to obey their lawful commands, and to be subject to their authority. . . ." Yet in the very next year, 1649, some of those same religious men took off the head of King Charles I. How can men who believe that obeying laws and authority is a Christian duty, also become revolutionists?

For the People
Revolution is not something for every day or every generation. It is a desperate last resort. But as in the days of Ahijah, so since then it is true that a government which ceases to be of the people, for the people and by the people, has forfeited its right to respect. The reader of I Kings will discover a gem of wisdom in what the old counselors said to the young Rehoboam: "If you will be a servant to this people today and serve them . . . then they will be your servants forever." Rehoboam turned his back on this wisdom, looked on his royal power as a means of tyranny; and so Jeroboam's revolution had an easy victory.

Oven Hot Rice and Sausage Casserole
INGREDIENTS:
1 1/2 lb. bulk pork sausage
1 can (1 1/2 cups) condensed vegetable soup (without meat)
2 1/2 cups cooked rice
1 cup water
QUICK METHOD FOR COOKING FLUFFY WHITE RICE:
To make 3 heaping cups of white, fluffy, perfectly cooked rice:
1. Put 1 cup uncooked rice, 2 cups cold water and 1 teaspoon salt into a 2-quart saucepan and bring to a vigorous boil.
2. Turn the heat as low as possible. Cover the saucepan with a lid. Do not remove lid or stir rice while it is cooking.
3. Leave saucepan over this low heat for 14 minutes. Turn heat off. The rice is now ready to use. However, leave the cover on the saucepan to keep the rice warm if you are not ready to use it immediately.
For extra fluffy, tender, separate grains—allow the rice to steam for an additional 10 minutes—

with heat off, but without removing lid.
METHOD: Fry the bulk sausage until brown. Do not form the sausage into patties or balls. Break up the sausage as it fries if it clings together in large pieces. Drain off the fat. Combine sausage, soup, rice and water in skillet. Mix well. Bake in a greased casserole or in individual casseroles in a 350°F. oven for 20 minutes.
If you want to add a decorative touch, make some of the sausage into small balls, and use these with some of the soup as a top garnish. Add this garnish during the final minutes of this cooking period.
This is an ideal dish which may be prepared early in the day or the night before, and stored, covered, in the refrigerator until meal time. Vary this basic recipe for a main dish by using other combinations of cooked meat and condensed soup, rice and water to make a family satisfying, time and money saving main dish.
This recipe makes 6 servings.

"Ma & Pa's" Newest Is A Hilarious 'Kettle' of Fun

"Ma and Pa Kettle At Home" brings the whole hilarious Kettle clan back to the old homestead, and the result is everything their most ardent fans could ask for. The newest in the ever-popular series of Universal-International comedies, which opens at midnight Saturday at the Palace Theatre, puts Marjorie Main and Percy Kilbride in charge of an even more generous allotment of heart and hilarity than ever before.
The basic theme of this Kettle special gets the story underway at once and keeps it moving at a merry pace. Son Elwin wins an essay contest which puts the Kettle acres in a model farm contest. If this isn't funny enough to start with, the announcement that the contest judge is due to inspect the place sends Ma and Pa, the assorted Kettle brood, and the ever-faithful Indians, Crowbar and Gooduck, hurrying and scurrying to patch up the place.
Arrival of contest judge, hypochondriac Alan Mowbray, carries the funny-business to even greater heights as Mowbray comes to grips with pigs, goats, frogs and other livestock—all endowed with the characteristic Kettle unpredictability. When the farm comes apart at the

How To Give A Baby Food Shower

By Cecily Brownstone
A spring baby shower on the calendar for an expectant mother in your neighborhood? Then try a new idea — give her a baby-food party, so she won't be deluged with frilly miniature garments the newcomer will swiftly outgrow.
Ask each person coming to the party to think ahead to Baby's needs when he arrives in this wide and wonderful world. Some cereals, cans of strained orange juice and strained meats; other guests can bring cans or jars of strained vegetables and fruits. Eight-ounce bottles for formula and 4-ounce bottles for orange juice and water might also be included.
If each guest puts a sticker on the container of baby food she brings, and adds the date and her own name, the guest of honor will enjoy the reminder when she feeds Baby.
Other useful shower gifts along the feeding line are a small silver spoon, a baby dish and mug, and sterilizing equipment for formula. And how about something for Mother herself? Why not a colorful smock or bed jacket to wear when she's giving Baby his
If party funds permit, present the shower gifts in a real bassinet, sized for early sleeping needs and handy toting, both at home and outdoors. The bassinet can take on a party air with a wide ruffle of crepe paper.
To make the bassinet ruffle, cut a strip of pink or blue crepe

Bath exercise for your baby can make his daily tubbing a pleasure.
What's more, you can combine his exercises with skin care for paper as deep as the bassinet, plus 3 inches to extend over the top. Be sure that the paper is long enough to go around the basket three times. Gather the paper on one edge to form the top ruffle, then attach it to the bassinet with thumb tacks. Decorate the ruffled bassinet with a wide pink or blue satin ribbon bow and sprays of pink or blue flowers, choosing the color of the flowers to contrast with the bow.
Of course your shower guests have to be fed. Favorite kinds of sandwiches and coffee, with olives and nuts, are a good bet. For dessert, why not carry out the baby-food theme? Here is a recipe for a baby-food ice cream, and one for a baby-food sherbet. Put a scoop of each kind on each serving, and pass with small cup cakes or fancy cookies. Tastes good, and everyone will enjoy the variety.
--- baby food ice cream ---
Ingredients: 1 cup strained plums with tapioca, 1/2 cup cherry juice (drained from a No. 2 can pitted red sour cherries, 1/4 teaspoon almond extract, 1/4 cup sugar, 2 egg whites (stiffly beaten).
Method: Mix strained plums with tapioca, cherry juice, almond extract and sugar. Fold in beaten egg whites. Pour into a freezer tray and partially freeze. (Have refrigerator at coldest setting.) Remove to a chilled bowl and beat until smooth but not melted. Return to freezer and freeze until firm.
The Baby Food Ice Cream and Baby Food Sherbet, served together, will make about 10 portions.

a double dose of beauty.

After the bath, place your little tot on a dry bath towel on a well padded table. Cup baby lotion into each hand and softly stroke your palms over his entire body talking soothingly to him as you stroke. After he is coated with the lotion, take an extra few minutes for a few simple arm and leg movements.

Let him close his small fists around your fingers, then gently, rhythmically move his little hands from the center of his chest position out to the table surface. Do this two or three times.
Gently hold one foot; stretch

it out straight, then bend it back so the knee touches his chest. Do this two or three times to a regular rhythm. Now repeat with the other foot.
Most babies learn to love those

few moments when Mom exercises their arms and legs, particularly if a little song or rhythmic chant accompanies each movement. You will notice after Mom pauses that the baby will kick, wave his hands and grab hold of his own feet. He'll ladore these few minutes when he gets undivided attention at play.
When bathing and smoothing a baby's skin, use as many of the soaps and lotions meant especially for babies as are more pleasing to them when they are delicately scented. Mom can intrigue her baby by using the nursery with a pleasant aroma.

**Best L. Owens
Nominates For
District Clerk**

The voters of Lamb County will like to take this opportunity to announce my candidacy for District Clerk in Jones county 35 years ago moving to a farm one mile north of Littlefield in 1914. I have served the county for the past two years and county. My experience of dealing with the public I think I am well qualified to fill the office of District Clerk.

My intention is to see each voter in the county on or about July 25. I am running for my first term in public office and influence will be appreciated.

**Olton Wins
At Baseball**

The Olton High School baseball team won its first two games of this season, beating Floydada in a conference tilt last Thursday afternoon, 19-2, and running away with Spade, 25-2 Tuesday afternoon.

The Mustangs have one of the few high school baseball teams in this area and have promises of making a good showing for Lamb County.

In the Floydada game, right handed Guy Granbury pitched a 4-hitter getting the assistance of 14 hits from his Mustang teammates.

Left-handed Clifford Curry pitched a 6-hit game against Spade high school Tuesday afternoon on the Spade diamond. Spade's ace pitcher was gone and the relievers allowed too many walks and balks, where the Mustangs got the majority of their runs.

All-state football star, R. V. Alcorn, plays left field for the Mustangs.

Olton is scheduled to play Aberrath high school at 4 p.m. in Olton this afternoon in a second conference game. This season's schedule is not complete because Lockney pulled out of the conference, not being able to field a team this spring.

Six Lamb county boys from two schools, Olton and Littlefield will compete in the Class A Regional track meet in Lubbock Saturday beginning at 9 o'clock in the morning.

Anton, Sudan and Amherst have several boys each qualified for the Class B Regional meet at the same time.

Keith Davis and James Durham of Littlefield, R. V. Alcorn, Pete Souter, Rose and Shelley of Olton will be the only Lamb county boys in the Class A events.

Davis qualified in the District meet several weeks ago for the high jump and the 180 low hurdles. Durham won the mile in his District meet to qualify. Rose and Souter of Olton will be in the pole vault event, Shelley the high jump and R. V. Alcorn will be trying for first in the 100 yard dash.

**County Sheriff's
Department Files
Traffic Charges**

The county sheriff's department arrested two drunks Saturday night and filed several charges for traffic violations.

Sunday traffic offenders were charged with driving on the wrong side of the road, improper passing, and permitting an unlicensed driver to drive.

Members of the sheriff's department also filed charges against one man for violating the liquor law by possession of liquor for the purpose of sale. The man pled not guilty before Judge Kirk and was released on \$500 bond.

**"I See By
The Leader"**

Mrs. Jimmie Hine, Cathy and Pamela, are visiting relatives in Abilene this week. Jimmie Hine accompanied them there for the Easter holidays but returned Monday.

Mr. and Mrs. Wayne Barnett visited in Petersburg over the weekend with her sister and family, Mr. and Mrs. M. M. Stevens, then had a picnic at MacKenzie Park in Lubbock.

Mrs. Lorena Hall of Fredrick, Okla., visited Mrs. C. T. Cotton here last weekend. Mrs. M. L. Standifer visited here Friday and Saturday. They were also guests of Mr. and Mrs. Truman Cotton and Mr. and Mrs. R. O. Cotton.

**Cotton Price
Support Up
Half A Cent**

The local ASC office reports that the 1954 upland cotton will be supported at not less than 31.25 cents per pound, gross weight, and it may go higher.

This figure is based on 90 percent of current parity prices. If parity is higher on August 1, the support will increase accordingly. The support price for 1953 upland cotton was 30.80.

This is the price for middling 7-8 inch staple. A differential for 15-16 inch staple will be announced later.

Grain Sorghums grading U.S. No. 2 or better will be supported at \$2.21 per hundred weight in Lamb county for 1954.

**Plainview Grocer
Fuy's Food Basket**

The Food Basket has been sold by Cloise Foust to James K. Redden of Plainview. The store has been closed since the sale which took place some ten days ago and Redden, a former grocerman, has not yet announced when he will reopen it.

Foust has operated the 9th Street grocery since he purchased it from Frank Angeline 2 1/2 years ago. He has not yet decided what his plans for the future will be.

**65 Scouts Pitch
Camporee Here**

About 65 Boy Scouts from troops 41 and 34 of Littlefield pitched their tents, cooked their meals, and participated in a variety of events last Friday afternoon and Saturday at Littlefield city park.

Muleshoe Scouts were high troop in the Camporee events and are eligible to attend the Camporee April 30 and May 1 at Plainview.

In emergency first aid competition, one member of each patrol was selected as victim and the rest of the patrol rendered the suitable emergency treatment.

Scouts competing in the water boiling event were given two 2x4 foot boards, one quart of cold water with soap in to make it foam and eight minutes in which to produce boiling water.

Scouts used flint and steel or the board drill method in the fire-by-friction contest. To show axemanship skill, each Scout got two whacks at a log and the group of 16 Scouts which whacked farthest into the log won the event.

Other contests included tent pitching, identification of ten different native plants, signaling via Morse code, uses of the compass, and tying specified knots.

Huston Hoover was in charge of the Camporee. He was assisted by Alex Wilkins of Muleshoe, Jim Doherty, Earl Rodgers, Charles Duval, Garland Thornton, Ralph Schilling and Tom Hilburn of Littlefield, members of the Explorer Post of Muleshoe, and Bill Strain, district Scout Executive.

The boys broke camp after lunch Saturday afternoon.

**Jim Baccus Wins
County Tractor
Operator Contest**

Jim Baccus of Sudan high school, was named Lamb county winner in the 1954 Texas County FFA Tractor Operator's contest held at Olton, April 17 by Adams Tractor Company. Three Future Farmers from this area participated in the contest. They were Jim Baccus of Sudan, Kenneth Lowe of Springlake and Eugene Edmondson of Olton.

The three judges in the contest were Bub Holt, Olton farmer, R. L. Kamp, Sudan farmer, and Leland Board, Lubbock Ford tractor district supervisor.

The county winner, Jim Baccus, will compete in one of ten district contests to be held before July 15. The district contest locations will be announced in the near future.

District winners will compete in a state contest to be held at San Antonio by the Stewart Co., Texas distributor for the Ford tractor and Dearborn farm equipment. The state contest will be held on July 20, the day prior to the opening of the State FFA Convention in San Antonio.

A new Ford tractor will be awarded the state winner by the Ford tractor dealers of Texas, according to A. D. Adams of Adams Tractor Co.

**Mrs. Alderidge
To Head Olton
P-TA In 54-55**

OLTON (Special)—Mrs. W. R. Alderidge was elected to presidency at a recent meeting of the Olton P-TA.

Other officers are Mrs. W. T. Hall, first vice-president; Mrs. Roy Alkman, second vice-president; Mrs. J. W. Dale, third vice-president; Mrs. J. M. Crawford, fourth vice-president; Mrs. Jim Fite, secretary; Mrs. Martin Phillips, treasurer; Mrs. Carl Macon, parliamentarian; Mrs. Ben Sanders, reporter; Mrs. Owen Jones, song leader; Mrs. Merrill Bergance, historian; and Harold Dean Carson as pianist.

Grade school students presented skits entitled "Story Book Land" for the entertainment of the P-TA members.

"Spiritual and Moral Training for Every Child" was the theme of Tuesday's meeting.

Mrs. Wilton Bodkin was leader of the program. The prayer was led by J. Henry Cox.

Panel members were Mrs. J. W. Bailey, Mrs. Barton Prestreder, Mrs. Alderidge and Mrs. D. M. Granberry.

**Ray S. (Ves)
Brock, Candidate
For Co. Comm.**

To the voters of Lamb County I would like to take this opportunity to announce my candidacy for county commissioner, precinct 3.

I lived in northern Hockley County twenty years before moving to a farm five miles north of Littlefield in 1948.

I am a graduate of Whitharral High School and a veteran of World War II, having served with the U. S. Navy in the South Pacific for 2 1/2 years overseas.

I worked with heavy duty machinery and construction in Colorado prior to my time in service.

I am seeking my first term in public office and will try to serve and cooperate with the public to my best ability. It is my intention to see each and every one in precinct 3 between now and July 25.

Your vote and influence be appreciated.

ANTON (Special)—The Anton high school seniors held their banquet at the Chicken Village at Lubbock with all the class present but one. There are 14 in the class.

Professor Bridges from the English department at Tech, was the main speaker.

Billy Lyda sang a special number. The Lubbock high school band played.

**LHS Students
Have Poetry
Published**

Four students of Littlefield high school have been singly honored this year by having their names listed in the High School Anthology of Literature which is published in Los Angeles.

The publication is made up annually of poems selected from all over the United States.

Littlefield has three junior students represented this year. They are Ben Northam, cited for his poem "Winter"; Marcela Chandler, a poem called "Youth"; Carl Robinson, poem called "Dance of the Dead".

Sue McCown, a senior student, has won acclaim for the second year, having been the only student listed from Littlefield last year. This year her winning poem is named "Perpetual Motion".

Sue has been given special recognition for her work in the field of creative writing and plans to be a writer.

Littlefield high school is justly proud of these students since they represent a comparatively high number for the size of our school. Lubbock high school only listed four students year before last.

Mrs. Eloise McDougal is the instructor for the work and the students are given the benefit of all extra-curricular material available on the subject.

STRONG DEMAND FOR CATTLE CONTINUES

FORT WORTH—Movement of cattle to markets over the nation Monday was again far behind a week earlier and also the same date a year ago. This same situation enabled most classes of cattle and calves to hold onto gains established at Fort Worth a week earlier when rains then drenched the bulk of the Western and Northwestern Texas counties.

Stocker demand remained strong on the kinds with quality. Some packers complained canner and cutter prices were at unrealistic heights but could accomplish little when a downward adjustment was tried.

Creeped calves again topped at \$18 to \$22 freely and the medium and lower grades sold from \$17.50 downward to \$10 to \$14 for culls. Medium and good stocker steer calves and yearlings drew \$16 to \$20, and indications were numerous that load lots of strictly choice steer calves could bring \$22. Replacement cows drew \$10 to \$14.

Fed cattle were pretty scarce again, with some good and choice kinds at \$18 to \$23, odd head to \$24. Others drew \$13 to \$17.50. Fat cows cleared at \$11 to \$15, a load from Kirk Edwards, Clay county, was representative of the top at \$15 and they weighed 1,170 lbs. Cannery and cutters drew \$8 to \$11, a few shells below \$8, some cannery from the JA Ranch drew \$9.75.

LAMBS STAGING STRONG COMEBACK

The better than 10,000 sheep and lambs at Fort Worth Monday did not deter the salesmen in their fight to win back lost ground during the ten days before Easter when sheep and lamb prices broke drastically.

On Monday at Fort Worth, good and choice Spring lambs drew \$3 to \$25.50, while the medium and lower grade scaled from \$10 to \$13 on culls to \$15 to \$22 on common to medium killers. The market was steady to .50c higher on the class, the top lambs were \$2 to \$2.50 above the low time eight days earlier.

Shorn fat lambs of good and choice kinds sold for \$20 to \$22 or .50c higher. Cull, common and medium shorn lambs drew \$9 to \$18. Stocker and feeder lambs drew \$15 to \$20.

Yearlings and two-year olds sold from \$14 to \$16.50. Old wethers cashed at \$9 to \$12.50. Slaughter ewes sold for \$5 to \$7. Old bucks bulked at \$4 to \$5.

Some very good quality solid mouthed ewes went out as breeders for \$12.50, and some younger ewes with quality went to the range at \$14 to \$15.

HOGS HIT ANOTHER NEW SEASON HIGH

The short hog crop was reflected again by curtailed receipts at all points and higher prices Monday. Top at Fort Worth was \$28 to \$28.50, or steady to .50c higher. Sows were also fully steady to strong at \$22 to \$24, a few to \$24.50.

Luncheon Rice Salad

INGREDIENTS:
3 cups hot cooked rice
2 tablespoons French dressing
2 tablespoons minced onion (young green onion preferred)
1 head of lettuce
1 pint pickled beets
Water cress or parsley
3 whole tomatoes peeled (if desired) and quartered
1 whole canned pimiento, cut in long thin strips

ever, leave the cover on the saucepan to keep the rice warm if you are not ready to use it immediately. For extra fluffy, tender, separate grains—allow the rice to steam for an additional 10 minutes—with heat off, but without removing lid.

METHOD: Add the French dressing to the rice and toss lightly with a fork. Mix in the onion. Press into a large greased mold or into individual molds. Chill thoroughly. Unmold the rice by shaking the rice mixture out of the mold. Arrange the lettuce on a large serving plate. Place the molded rice on the lettuce. Garnish with pickled beets, the water cress or parsley and the tomatoes. Top the rice mold with the strips of pimiento.

If desired, radish roses and egg slices may also be arranged around the molded rice; and the rice may be sprinkled with finely grated sharp cheese.

QUICK METHOD FOR COOKING FLUFFY WHITE RICE: To make 3 heaping cups of white, fluffy, perfectly cooked rice:

1. Put 1 cup uncooked rice, 2 cups cold water and 1 teaspoon salt into a 2-quart saucepan and bring to a vigorous boil.
2. Turn the heat as low as possible. Cover the saucepan with a lid. Do not remove lid or stir rice while it is cooking.
3. Let saucepan over this low heat for 14 minutes. Turn heat off. The rice is now ready to use. However, leave the cover on the saucepan to keep the rice warm if you are not ready to use it immediately.

Serve this Luncheon Rice Salad with your favorite dressing or mayonnaise. This recipe makes 6 servings.

Verticillium Wilt Costs West Texas

Verticillium wilt is considered a "growing problem for West Texas" in the May issue of The Progressive Farmer magazine. This cotton disease strikes when the crop is fruiting. It is a cool weather disease and usually becomes a problem when soil temperatures drop below normal.

It first gave serious trouble on the High Plains in 1949 and has continued to spread since then.

The disease lives in the soil. As long as soil temperature stands at 90 degrees, there is no outside evidence of "v-ert." The disease has 200 host plants. It avoids certain types of soil that contain a lot of salt or high sodium content.

The disease is usually carried to new areas by wind-borne leaves and trash. Land leveling also helps distribute it.

Some cultural practices help the cotton grower to live with the disease. In West Texas, more plants per foot give better yields. In this area, the high 2-row bed increases the soil temperature and reduces wilt damage.

Only moderately deep cultivation is recommended where wilt is a problem. Fertilizers seem to have little effect on this type of wilt. Well-balanced complete fertilizers are preferred to nitrogen alone.

In areas where it is no longer a common practice to rotate alfalfa with cotton, wilt has increased. "Vert" has spread rapidly on the High Plains since the area turned heavily to cotton. It is believed cotton acreage control may check the spread of the disease.

You'll Like This New Pineapple Upside-Down Cake

Like to surprise your family with a super-delicious Pineapple Upside-Down Cake? Here's a grand-new idea in upside down cakes—one that saves you lots of time and trouble because you use a packaged biscuit mix.

Pineapple Upside-Down Cake
2 tablespoons butter
1/4 cup C and H pure Cane Brown Sugar
9-oz. can (4 slices) pineapple, drained
3/4 cup C and H pure Cane Granulated Sugar
1 1/2 cups packaged biscuit mix
3 tablespoons soft high-grade shortening or butter
1 egg, unbeaten
2/3 cup milk
1 teaspoon vanilla

Preheat oven to 350° (moderate). Melt butter in a 9 x 1 1/2-inch round, or an 8 x 8 x 2-inch square pan.

Sprinkle with brown sugar. Cut through each pineapple slice crosswise, making 2 thin rings; arrange over sugar. Set aside while you make the cake batter:

Mix granulated sugar with biscuit mix in bowl. Add shortening, egg, and 1/3 cup milk. Stir, then beat vigorously 1 minute. Gradually stir in remaining 1/2 cup* milk and vanilla; beat 1/2 minute. Pour over pineapple and brown sugar in pan. Bake at 350° for 35 to 40 minutes, until done in center when tested with wooden toothpick. Invert on a warm plate; leave pan over cake a few minutes. Serve warm, plain or with whipped cream.

J. R. (BILLY) HALL

ATTORNEY-AT-LAW
PHONE 335 LITTLEFIELD, TEXAS

This is the 1954 Chevrolet Bel Air 2-Door Sedan. With 3 series, Chevrolet offers a model to meet every individual and family need.

These facts about the New Chevrolet can help you make an important decision

Don't you agree that buying a new car calls for careful consideration? Regardless of make, it involves a substantial amount of money and a lot of future satisfaction. This information can give you a better idea of comparative value and help you decide which make to buy.

A good customer of ours was telling us the other day how he sizes up a new car. Because he's bought a number of them over the years, we were interested in what he had to say. We think you will be, too.

Actually, what he does is to ask about seven basic questions. The answers give a pretty complete picture of the car and its comparative value. Here's what he wants to know.

How well do I like its looks?
That's one question, of course, that only you can answer. You're the one who buys the car and you, above anybody else, should be proud of its appearance.

All we can tell you is that we hear a lot of nice things about Chevrolet's new styling. People seem to like the new front-end and rear-end designs, and the way the bumpers curve even farther around the fenders. They like the new styling touches all around the car and the wide choice of bright new colors and two-tone combinations. A good many tell us that Chevrolet has a decided edge over the other cars in its field for smooth and graceful lines.

Who makes the body?
This question takes in much more territory than the appearance of the car. It involves the quality of the

interior as well as the strength and safety of the body construction. That's why we think it worth your consideration that Chevrolet has the only Body by Fisher in the low-price field.

You can see the difference outside and inside. We'd especially like you to look over the new interiors. Just sit in the car, if you will. Feel the quality of the fabrics and notice the more generous use of vinyl trim.

In all these ways, you'll find evidence of superior quality and workmanship. And after all, isn't that what you would expect in Body by Fisher? As you know, Fisher is the largest and most famous manufacturer of automobile bodies in the world. Doesn't it stand to reason that Fisher can build extra quality into the Chevrolet body? It's there and you can see it.

What's under the hood?
You hear a great deal of talk these days about engine power. The truth is that the number of horsepower isn't nearly as important as what the horsepower does for you.

In this year's Chevrolet, you get increased power in two finer engines. There's the "Blue-Flame 125" engine teamed with Powerglide automatic

transmission and optional on all models at extra cost. In gearshift models, you get the more powerful "Blue-Flame 115" engine.

But, actually, the increase in horsepower is only a sort of by-product of design changes made for other reasons. Chevrolet engineers were after greater engine efficiency, not just greater power. So, you get improved acceleration, with greater and safer passing ability. You get quieter, smoother operation. You climb the steep hills with new ease.

How hungry is it for gasoline?
A car's reputation for, and record of, economy of operation is certainly an important consideration to most people. We'd be glad to have you compare Chevrolet in this respect with any car at any price.

And, in the case of this new Chevrolet, you do not have to sacrifice economy for finer performance and more horsepower. That's because the Chevrolet engines are high-compression engines. Their compression ratio of 7.5 to 1 is the highest in any of the leading low-priced cars.

This means simply that the engine compresses, or squeezes, the fuel mixture to a greater degree in order to wring more work out of it. That's how Chevrolet is able to give you an important gain in performance along with money-saving gasoline mileage—and on regular gas, of course.

Is it up to date in features?
We can't think of a new feature or development you might want that you can't have on the new Chevrolet.

Now you can have Chevrolet's zippy and thrifty Powerglide automatic transmission on any model. You can have Power Steering on all models and at a new, lower price. You can have Automatic Window and Seat Controls on any Bel Air or "Two-Ten" model, and you can have Power Brakes on any model equipped with Powerglide. All are, of course, optional features at extra cost.

How popular a car is it?
When you come right down to it, there's no better way to judge the satisfaction a car gives its owners than by its popularity. How many people buy it and keep on buying it?

Well, as you may know, Chevrolet is by far the most popular car in this country. That's true today and it's been true for a good many years now. But it couldn't be true—or wouldn't be true—unless Chevrolet gave its owners an extra measure of satisfaction and value.

How much does it cost?
There's a short, sweet answer to that one: Chevrolet is priced below all other lines of cars. This lower cost is made possible by the greater production facilities and purchasing power of the world's largest manufacturer of automobiles. That is why Chevrolet can offer you all the advantages we've told you about here—and many more, too.

We'd be more than glad to have you see all these things for yourself and to try out this new Chevrolet on the road. We'll be happy to see you at any time.

News From Olton...

Mr. and Mrs. Jerry McKenzie and children are spending the holidays in Corpus Christi with Jerry's mother, Mrs. Addie McKenzie and daughter, Connie. They plan to visit relatives of Mrs. McKenzie, also, and plan to be gone about a week.

Mrs. Edd Thompson and children are vacationing in Colorado during the Easter holidays.

Methodist Youth Rally at Plainview Tuesday was well attended by the Olton M.Y.F. The sponsors were Rev. and Mrs. Campbell.

A daughter was born to Mr. and Mrs. Jack Coleman April 10. She has been named Linda Laverne and weighed six pounds, two ounces. Grandparents are Mr. and Mrs. Albert Walther of Olton and Mr. and Mrs. Floyd Coleman. The Jack Colemans have a son, also.

Mr. and Mrs. Glen Godsey are the parents of a daughter born April 10 in the Olton Memorial hospital. The young lady has been named Yolanda Jean and weighed in at 6 pounds, 2 ounces. Mr. and Mrs. Godsey are the Mexico Mission ministers. They also have two sons, David, 3, and Lynn, 1.

Sharon and Jim Speer are spending the Easter holidays with their parents, Mr. and Mrs. Jim Speer. Sharon is a senior in Lubbock Highschool and Jim is a senior in the University of Texas. Mrs. Speer's mother, Mrs. Couch is also visiting the Speers at this time.

Sudan Library Adds 40 Books

SUDAN (Special)—Forty new books were added to the Sudan library this week. The books were made possible through a \$50 donation from the Tuesday Study Club.

Also twenty new books were added to the Sudan colored school through a \$20 donation from the Women's Missionary Society of the Baptist church.

LIPSTICK LOGIC
LAWRENCE ALLEN

Why is it so much more fun to do a big job ourselves if we first count up how much it would cost to hire someone?

Take a man and his yard. He puts in a 20-hour weekend transplanting shrubs and geranium plants; he makes so much money not spending it on help, that he gallops over to the greenhouse and spends the same amount on three more shrubs and half a dozen tulip. The next day he feels so prosperous that he can overlook the stiff knees and aching back.

Or take a woman in her home. The windows need washing, now that spring has come. So she gets a price. At 35 cents a pane, let's see... Twenty windows, inside and out... hmmm... fourteen dollars. Gosh, I could have a new cotton dress. So she lets the regular housework go hang for three or four days, just blows by the cookstove at mealtime, feels a little like a Christian martyr. But... she gets the windows washed. Then happy over the saving, she runs downtown and finds a darling little cotton for only \$19.95 (fair bonus for keeping the money at home).

There are several by-products of this do-it-yourself craze, however, that we may overlook. We exercise muscles that get mighty flabby in between bursts of money-making energy. And we're gaining a little new respect for the workman who is "worthy of his hire." Half the time, we finish a job saying, "I sure wouldn't do it for 75 cents an hour for anyone else!" Then the next time we feel a desire to beat the game, we weigh the odds and, if we lose, feel better about paying to have it done.

Anton Scouts Get Badges

Curried Rice and Tuna in Tomatoes

INGREDIENTS:
2 cups cooked rice
8 medium sized ripe tomatoes
4 tablespoons minced onion
2 tablespoons minced green pepper
4 tablespoons butter or margarine
1 7-ounce can tuna fish
1 teaspoon curry powder
1/4 teaspoon salt
1/4 teaspoon pepper
1/2 cup water

QUICK METHOD FOR COOKING FLUFFY WHITE RICE:
To make 3 heaping cups of white, fluffy, perfectly cooked rice:

- Put 1 cup uncooked rice, 2 cups cold water and 1 teaspoon salt into a 2-quart saucepan and bring to a vigorous boil.
- Turn the heat as low as possible. Cover the saucepan with a lid. Do not remove lid or stir rice while it is cooking.
- Leave saucepan over this low heat for 14 minutes. Turn heat off. The rice is now ready to use. However, leave the cover on the saucepan to keep the rice warm if you are not ready to use it immediately.

For extra fluffy, tender, separate

grains—allow the rice to steam for an additional 10 minutes— with heat off, but without removing lid.

METHOD: Peel tomatoes easily by scalding, plunging into cold water and then peeling. Slice off stem end of tomatoes. Carefully scoop out pulp. Cook onion and green pepper in the butter or margarine until tender. Add the tuna fish, rice, curry powder, salt, pepper and water. Use more curry powder if desired. Mix thoroughly.

Fill the tomatoes with the tuna and rice mixture and bake at 350°F., about 15 minutes or until the tomatoes are tender and piping hot. Serve hot. Garnish with green pepper rings if desired.

This is an ideal dish to make early in the day or the night before, and store, covered in the refrigerator and have ready and waiting to heat in the oven at meal time.

This recipe makes 8 servings or 3 cups of the curried tuna and rice mixture.

grandchildren. All were present Sunday except one son.

Weekend guests of Mrs. Grace Gilley and Mr. and Mrs. M. G. Smith and family in the Oklahoma Platt community were Mr. and Mrs. Doyle Gilley and family of Amarillo.

Mr. and Mrs. T. D. Northern and children spent the weekend in Quanah.

Mrs. F. J. Bryson, Jr., and son of Midland were weekend guests of Mr. and Mrs. F. J. Bryson, Sr., and Gwen.

Mr. and Mrs. Jack Bryant and sons visited Mrs. Bryant's sister Mrs. Marie Macklin and family in Levelland Sunday.

Jake McFarren has returned from Olton, Okla., where he visited his parents. His mother,

who has been in ill health for sometime, is not doing so well at the present.

Mr. and Mrs. V. D. Hodges and Mr. and Mrs. Norman Hodges have returned from Bixby, Miss., where they visited their son and brother, Otis, who is stationed at Keesler AFB there.

Miss Maude Hicks has been ill for several days this week. Mr. Chester Borders taught her second grade for her.

A shrimp cocktail salad makes a delicious main course for Friday's lunch. Place the cooked and cleaned shrimp (fresh, frozen or canned) on salad greens. Season mayonnaise with catchup or chili sauce, lemon juice, Worcestershire sauce and horseradish and spoon this sauce over the shrimp and greens.

be boarded up and completely blind while making the Porkkala transit. Because of the interesting stories connected with this pocket of land, I decided to take the Helsinki-Turku trip myself. I learned that Porkkala had been taken from Finland by the Russians after the last war in accordance with the peace treaty. The Russians pay rent for the pocket, but this rental fee always goes back into the Russian treasury. The yearly tariff that is charged for permitting the Helsinki-Turku express to pass through Porkkala, exactly equals the rental fee for the entire pocket of land.

use a periscope to see what is going on in the Porkkala area. I boarded the train and in a few minutes we pulled out. When we reached the frontier, the Finnish locomotive was taken off and a Russian one substituted. I saw a large red star on the front of it. I wasn't looking out the window very long when a soldier came past and lifted a window cover into position. Every window in the train was blinded in this way. During the next hour there were numerous stops, starts, tooting of the whistle and very little continuous riding. The ride was only fifteen miles from one side to the other, yet it finally took us exactly one hour, during which time the train stopped 12 times.

From what is said in Helsinki, the Russians would not stop that Helsinki-Turku express for love nor money. At one time there was a fire in one of the coaches, but it was left unattended while the train raced through the zone. Local opinion accepts that the Russians have established a military base of substantial strength in Porkkala. The Finns don't like this, of course, because it is so close to their capital city—just ten miles away, to be exact.

and The Old Testament

15: Col. 2:14). Yet, many principles are taught in the Old Testament which have always applied to man. Examples are there for us. 5. Nine of the Ten Commandments are repeated word for word, or in principle in the New. One not repeated is "Remember the Sabbath day..." Christians observe the first day of the week (Acts 20:7). The Old Testament furnishes much help in living the Christian life. To bind its rites and ordinances, however, is a yoke which Peter said, "Neither we nor our Fathers were able to bear" (Acts 15:10). Hawaiian Theme Is Used For Spade 8th Grade Banquet

Spade — The Spade eighth grade held its banquet in the school cafeteria last Monday night.

The Hawaiian theme was used in room decoration with palm trees, stars and the moon on the wall. Programs were in the shape of guitars and the place cards were canoes with the name on the paddle.

Meredith Tinsley was the mistress of ceremonies. Gloria Gray gave the welcome. Reva Castle gave the class will. The invocation was given by Mr. Bailey.

The menu consisted of meat, gravy, creamed potatoes, lemon salad, rolls, tea, chocolate or pineapple pie.

Following the meal the program was completed with "Highlights of the 8th grade" by Meredith Tinsley. The 8th grade girls sang a song. Darrell Hardin gave the farewell.

Mrs. Roy Dykes is the class sponsor.

New Officers Installed At P-TA Meeting

Bill Stockard presided over the final meeting of the 1953-54 program of the Springlake P-TA. The meeting was in the study hall of Springlake high school.

New officers were installed by Mrs. Melton Welch. Mrs. Marvin Sanders is the new president. Mrs. Pat McCord, membership chairman; Mrs. Bill Burrows, yearbook chairman; Mrs. Ed Haley, publicity chairman; Mrs. Roy Simmons, hospitality; and Mrs. Bud Jones, secretary-treasurer.

Mrs. E. C. Hudson, program chairman and Mrs. John Williams, vice-president, were unable to attend.

In other business, Mrs. Stockard reviewed the projects of this past year and Mrs. Bud Jones gave a financial report.

Mrs. Ed Haley was presented with a lifetime membership by Mrs. Welch. This award is presented to those people who have devoted their time and effort unselfishly toward the success of the P-TA over a period of years.

Sweet Rice Ring With Fruit

INGREDIENTS:
3 cups hot cooked rice
1/2 cup beet or cane sugar
1 cup whipping cream
1/2 teaspoon vanilla
2 cups fresh, frozen or canned fruit

QUICK METHOD FOR COOKING FLUFFY WHITE RICE:
To make 2 heaping cups of white, fluffy, perfectly cooked rice:
1. Put 1 cup uncooked rice, 2 cups cold water and 1 teaspoon salt into a 2-quart saucepan and bring to a vigorous boil.
2. Turn the heat as low as possible. Cover the saucepan with a lid. Do not remove lid or stir rice while it is cooking.
3. Leave saucepan over this low heat for 14 minutes. Turn heat off. The rice is now ready to use. However, leave the cover on the saucepan to keep the rice warm if you are not ready to use it immediately.

For extra fluffy, tender, separate grains—allow the rice to steam for an additional 10 minutes—with heat off, but without removing lid.

METHOD: Thoroughly mix the sugar with the hot rice and chill. Chill the cream and whip. Mix the vanilla through the whipped cream. Fold the chilled rice into the cream. Pack the rice into a well greased ring mold.

The mold may be unmolded immediately or held in the refrigerator until time to serve. Unmold by running a knife around the outside and inside edges of the ring. Place the bottom of the mold into hot water for a second. Place a plate over the mold and invert plate and mold together. Serve with the fruit.

This recipe makes 7 servings. If desired, the sweet rice mixture may be served in individual dessert dishes instead of being molded.

A variety of sauces may be served with this basic rice dessert. A butterscotch, hot fudge, or chocolate, hot mince, strawberry, peach, cherry, raspberry or any other fruit sauce is delicious served with this rice dessert. Any of the "sundaes" sauces available are also delicious.

A basic fruit sauce is made as follows:
INGREDIENTS:
1 tablespoon corn starch
1/4 cup water
2 cups fresh, frozen or canned fruit
1 tablespoon beet or cane sugar
Juice of 1/2 lemon

METHOD: Add water to corn starch. Place in a saucepan over a low heat. Add the fruit. Cook, stirring constantly, until mixture thickens. Add sugar and lemon juice. Mix well. Serve hot or cold over the sweet rice.

When you take over, this General Electric motor will still be driving our pump!

General Electric built this motor longer. Look at that cast-iron rain, sleet, or dust protection! We don't have to get steel bands rusting away. Protection like a shed is built into this motor. It's fully protected against all kinds of weather. I like about G-E motors. They don't have to be lubricated. When you do, there are places to take care of—one at the top, one at the bottom—both

EDITORIAL

What's Your Opinion?

Littlefield school board has stopped the architect from drawing up plans for the new school buildings because there have been a number of complaints about moving the ninth grade from junior to senior high school. They are waiting for what the public has to say about it. So if you have an opinion, and everyone should have, they would like to hear it.

Those opposed to moving the ninth grade are making their views heard. Unless some sentiment in favor of it is expressed it will probably be abandoned. Superintendents Pearce and Schilling both favor it and make a pretty convincing argument for it. They admit they like the idea of the 6-3-3 division of the 12 grades; the six lower grades in elementary school, 7th, 8th and 9th in junior high, and 10th, 11th and 12th in senior high. They point out that there is nothing magic about these grades and that very few schools actually use such a division. They give the following reasons why they are recommending a 6-2-4 arrangement here:

1. The junior high building has space enough for two grades of the larger size now moving up through the lower grades.
2. There is no practical way to add on to the thirty-year-old junior high building.
3. Available funds will not build a modern junior high with necessary auditorium, gymnasium and laboratories, and if it would the grades would be left without new classrooms they must have.
4. Since it is going to be impossible to have 7th, 8th and 9th together in a junior high building, it is better to put the 9th in with senior high than it is to put the 9th in with the grade school.

They also note that 9th graders get several advantages in being in high school a year sooner, such as better lab-ors, and an extra year of eligibility for literary, musical and sports events. Many larger systems, they say, with limited resources to divide the junior and senior high schools anyway they like, use the four year senior high school. Each of us should form an opinion on the matter and let the school board know what that opinion is. And this space available on this page for anyone who wishes to draw the attention of the public the reasons for his stand. Drop a letter to the editor and it will be printed on the editorial page of the next issue. Be sure to sign the letter and we will withhold your name if you request.

Knobs On Our Heads

We will get knobs on our heads if an Amarillo promoter goes his way, but we have decided it is not fair to the people of our community for us to cooperate with him in his game of charging \$52 each from some mighty fine citizens of this area. His pitch is that newspapers of the area have asked him to draw a story and draw a cartoon of the man for use in their columns. When he is in this area he has been listing Littlefield newspapers among them. We have not checked with the other papers but we do know that we have never asked him to get any stories or pictures for us, and we have told him that we do not intend to publish any such material when he charges the subject for it. We have told him that we might occasionally be interested in him to draw a cartoon of a local citizen at our expense, but we do not approve of asking the subject of a news story to pose for the picture we want to run of him. We hope that our friends who may have already given money will understand when we do not run their car-icatures that we are really trying to protect them and their neighbors from what we consider to be a racket. We want to know that any time they do anything newsworthy, we find out about it, it won't cost them a penny to get it published in their local newspapers. We want them to know they can't be fooled by an out-of-town promoter who wants to charge them \$52 for what any good newspaper will do at an expense, if there is occasion to do so.

Highlights And Sidelights From Your State Capitol

By VERN SANFORD
 Texas Press Association

AUSTIN, Tex.—This is the week of decision. Governor decides to run again. On the other hand, should he choose not to run, there will be a mad scramble. So this is truly the week of decision. This situation parallels that of last January two years ago when, at a convention of the Texas Press Association, the Governor revealed that he would campaign for election to his present post. A deluge of announcements from other office seekers followed within 24 hours. So it will be this time, except that they will go into high gear as the May 3 deadline for filing is only three weeks away.

George T. Hinson, member of the Texas House of Representatives from Mineola, already has filed as a candidate for Lt. Governor on the Democratic ticket. He was co-author of bills for teachers' and state workers' pay raises and the state building program.

Two members of the Texas House of Representatives have resigned since the special session of the legislature ended April 13. They are Gabe Garrett, newspaperman from Corpus Christi, and Richard S. Stark of Gainesville. Stark gave no reason for his retirement. Garrett resigned to run for Congress.

announced that precipitation over much of the state, including drouth-ridden West Texas, brightened the prospects for farmers and ranchers this year. Everywhere, the situation was described as improved, but more moisture was needed to insure agricultural success during the coming season. While the rains helped, the Texas drouth was not completely broken. Governor Shivers said he would ask for more Federal aid for dry West Texas counties.

As usual, Texas weather went to extremes. In the Lower Rio Grande Valley, there was too much rain. Flood situations existed for a time in Alamo, McAllen, San Juan, Donna, Dinburg, and El Paso. Turbulent weather conditions brought a tornado warning to Central Texas, reminding of the Waco disaster last year, when on May 11 a twister caused 114 deaths, injuries to 500, and vast property damage.

to the precarious position of the dairy industry. To that end, dairy farmers of Texas are setting aside two cents for each 100 pounds of milk and one-half cent for each pound of butter fat for cream. An important victory was won by the State of Texas in a five-year-old attempt to collect anti-trust penalties from ten major oil companies.

The third Court of Civil Appeals, here, ruled that there was sufficient cause of action to entitle the state to a trial. Filed in 1949, the state's suit alleges that the companies conspired to fix and maintain non-competitive tank wagon prices on gasoline. Defending companies argued (Continued on Page 2)

HEALTH IS YOUR BIGGEST ASSET

Good health is most important to accomplish your goals in life. When health fails, with loss of earning power, life insurance goes to work to provide food, shelter and other necessities. While you now enjoy good health you should provide for the time when you may be ill or disabled.

There's no better way to provide for emergencies or for your old age than a safe, sound, legal reserve Woodmen life insurance certificate.

NEWS ABOUT THE MODERN LIVING CAR

And the trend keeps growing to Lincoln

Perhaps it's because of Lincoln's clean lines. Or it could be this fine car's unmatched performance. The fact is that Lincoln sales have more than doubled in two years; last year sales were the highest in Lincoln's history. You can find out the reasons for the growing trend to Lincoln. You're only as far away from the answers as one short visit to us. First, stand back and look at Lincoln's superb lines. Notice the lack of bulging fenders and swollen sides. Then study Lincoln's careful use of chrome; note the lack of tricky glitter you often see on other cars. Next, get behind the wheel. Take Lincoln out on the road. You'll

discover a ride that's wonderfully different from any other. You control an engineering masterpiece—Lincoln's great V-8 engine. In traffic you glide along effortlessly, quietly. Take a curve on the open road. Lincoln's ball-joint front wheel suspension gives you maximum control. Finally, try some stops in this great car. They're quick, sure, safe because of Lincoln's new, enlarged brakes. Find out for yourself why the trend keeps growing to Lincoln. Consider this your invitation to inspect and to drive a Lincoln or a Lincoln Capri at your first opportunity. No obligation, of course.

For the fourth straight year, Lincoln won first place in its field for economy in the famous Mobilgas Economy Run.

It's the Law In Texas

LAW PROTECTS ATTORNEY— CLIENT CONFIDENCES

Most people do not realize how zealously the information given by a client to his lawyer is guarded. It is a fundamental principle of the legal profession that all information confided to lawyers must remain secret. It is the prerogative of the client the same as though it were money, and is not the property of your lawyer to give away. There are only three people in whom you can confide and know that your lawyer, your doctor and your minister.

Even the law itself protects you in your relationship with your lawyer. No one can compel him to divulge any information confided to him by a client. The reason for this protection is obvious. Unless you are able to confide fully and completely in your lawyer, he is unable to help you. He cannot protect your interests unless he knows all the facts.

There is an exception to this protection, however, for under the Canons of Professional Ethics to which the lawyer subscribes, the announced intention of a client to commit a crime is not included within the confidences which he is bound to respect. The lawyer may properly make such disclosures as may be necessary to prevent the act or protect those against whom it is threatened.

The same Canons outline other principles which attorneys must follow. For example: A lawyer may not represent clients with conflicting interests except with the client's consent after they have full knowledge of the situation. He is bound to give a frank opinion on the merits and likely result of a lawsuit, and should advise his clients to make a fair settlement if he can avoid or end a lawsuit.

He should not overvalue or undervalue his services. Ability to pay is no justification for an excessive lawyer's fee, although lack of finances on the part of the client may require a reduced fee or none at all. And he must never regard his profession as a money-getting trade but always remember that it is a branch of the administration of justice.

The same code requires that he be fair to other lawyers and that he be frank, cooperative and respectful to the courts. He is responsible for decisions regarding the best procedure to follow in a trial. He must do his best to prevent his client from acting improperly toward the court or jury, or in his duties as a citizen. These and many other restrictions are voluntarily accepted by the lawyer because the acts forbidden are felt to be unworthy of the high standards of the profession.

It is rare that one finds a lawyer who willingly and knowingly reports from the ideals of the code of ethics. It is more strict than the law itself, and many acts which are lawful are frowned upon by the code as improper con-

that the petition should be thrown out because it did not give specific names, dates, and details of the alleged conspiracy.

Reversed by the court's decision was a ruling handed down in 1952 by District Judge Charles O. Betts, whose opinion was that the state had failed to show a cause of action.

Companies involved in the suit are: Arkansas Fuel Oil Co., Cities Service Oil Co., Continental Oil Co., Gulf Oil Corp., Magnolia Petroleum Co., Humble Oil and Refining Co., Standard Oil Co. of Texas, The Texas Co., Sinclair Refining Co., and Phillips Petroleum Co.

The group allegedly controls 90 percent of the state's gasoline outlets.

Hugh F. Lyerly, jr., assistant attorney general, presented the state's case on appeal and was

duet for attorneys. A lawyer may find himself criticized severely by his fellow lawyers and the courts, or even called before one of the Texas Bar's 31 grievance committees, because he has done something which, though lawful, is contrary to the Canons.

pitted against more than a score of Texas' leading lawyers. Lyerly pleaded mainly for a chance to get the question before a jury. Penalties totaling \$14,000,000 are sought by the state.

Law enforcement is the subject of a conference to be held in Waco next week at the call of Attorney General John Ben Shepperd and jointly sponsored by the Baylor University School of Law.

Reports will be received on crime and crime-fighting methods.

About 400 prosecutors and peace officers will attend.

San Jacinto Day is a pretty important date. The U. S. Senate investigating committee ordered a one-day delay in its hearings on the Senator McCarthy-Army hassle so that the Senator might speak at the historic battleground on the anniversary of Texas' victory over Mexico in the war for independence.

McCarthy asked for the postponement of hearings because of what he described as a mix-up. He had been invited to speak in Texas on Independence Day, and he was thinking of July 4. The Texans who invited him, of course, had April 21 in mind.

That was the day the committee hearings were scheduled to start.

C. E. (Everett) Fulgham of Lubbock becomes Secretary of State on May 1, by appointment of Governor Shivers.

He succeeds Howard Carney who has resigned because of the press of private business.

Fulgham served as chairman of the Industrial Commission which investigated Communist infiltration of labor unions. He is a farmer and rancher.

Shivers also announced the appointment of Hal Peterson, Kerr County stockman and rancher, to the Game Commission to fill the unexpired term of Scott Schreiner, who resigned.

Peterson resigned from the Upper Guadalupe River Authority in order to accept this appointment.

Showers Take Energy

OMAHA (AP)—It takes four times as much energy to take a shower as a bath says Dr. Howard A. Rusk, chairman of the department of physical medicine and rehabilitation at New York University.

That's important to two million Americans crippled by heart diseases, Dr. Rusk told a University of Nebraska medical college audience. Taking a bath instead of a shower is one way cardiac victims can conserve their overtaxed hearts.

Age Ban Lifted

CINCINNATI (AP)—The Cincinnati city council has lifted a ban against persons over 70 years old continuing to work. They now may work as long as they are physically fit.

Dr. Rusk also confirmed that many a bedridden patient has suspected: It takes twice as much energy to get into a bed pan as it does to use a bathroom.

Jesus and The Old Testament

By Tommy Williams, Minister

In view of the fact that the law of Moses revealed in the Old Testament has been abolished (Eph. 1:1-2; 10:9, etc.) and we are

under a New Covenant today, the following is set forth to show the relationship between Christ and the Old Testament, and to help us to make the proper use of the Old Testament.

1. Jesus recognized the Old Testament (Lk. 16:29; 24:27).
2. Many Old Testament ordinances and rites were types of Christ. Example—the Passover (1 Cor. 5:7; 1 Pet. 1:18-19).
3. Jesus came to fulfill the law and the prophets (Matt. 5:17).
4. The ordinances of the law are removed (Eph. 2:

16; Col. 2:14). Yet, the principles are taught in the Old Testament which always applied to man.

5. Nine of the Ten Commandments of the Old Testament are repeated word, or in principle in New. Not one repeated day . . . Christians observe the first day of the week (Acts 20:7).

The Old Testament preaches much help in the Christian life. To be a Christian is to be a Christian in deed, is a love which said, "Neither we nor Fathers were able to do" (Acts 15:10).

FORD IS FIRST IN SALES

BECAUSE IT'S FIRST IN VALUE

More people are buying Ford cars than any other make because they have found that Ford gives them more of the things they want—and at the price they want to pay.

National new car registration figures* for the latest six-month period available show Ford out front by thousands.
