

THE NEW STYLE—Here's an old friend all dressed up in a new style. Of course it's Banner milk, but instead of the round bottle which was considered conventional for so many years, a modern-type square bottle is being used. Obviously, it is handier for storing and conserving space. Although the container is new and different, the milk continues to be the same high quality, locally-produced and locally processed product.

Parties, Weddings Estah's Specialty

Work on floral schemes at parties, weddings and similar functions is a specialty of personnel employed by Estah's Flowers, which operates a shop in the Settles hotel here as well as a house at 1701 Scurry street.

Table designs, distinctive in their originality and appeal, are fashioned expertly by the establishment's help, which is prepared to offer its services from beginning to end at such times.

The customer can subscribe for any kind of service he desires, from small house weddings to large announcement parties and lavish church marriages, and be assured of work correct to the last detail. With the Easter season at hand, Estah's expects to be especially occupied with the task of supplying demands for such seasonal plants as Easter lilies, hydrangeas, azaleas, hyacinths and tulips.

West Texas Water Meeting Held Today

KNOX CITY, March 13. (UP)—One of a series of meetings to describe Bureau of Reclamation plans for supplying water to thirsty West Texas cities was held here today. Harry Burleigh of Austin, the bureau's state planning engineer, reported on tentative surveys by the bureau. The plan is to have a number of dams, each to serve more than one city. D. A. Bandeen, manager of the West Texas Chamber of Commerce, also was present, along with representatives from about two dozen communities.

Kite Season Has Attendant Danger

Kite season is at hand and some of the dangers of flying the airborne toys have been pointed out by Texas Electric Service company officials.

Youngsters and grownups alike are cautioned that many of the electrical power lines over town carry as much as 12,000 volts. Kites or strings that become entangled in the wires may become instruments of electrocution. TESCO officials point out.

Any kind of kite string that contains wire, tinzel, or metallic braid is extremely dangerous when it is flown in the vicinity of power lines. For complete safety, use only cotton or linen string that is absolutely dry.

Kites and tails, too, should be made of non-conducting materials. A sudden shift or dying-down of the wind might cause kites to become entangled in electrical lines thereby creating a short circuit and disrupting electrical service over an entire section of town if not injuring the person flying the kite. Dry paper, wood, and cloth used in the construction of kites will eliminate that danger, Texas Electric Service officials declare.

A kite tail or string should become entangled in a power line, simply call the electric company and linemen will promptly take steps to get it down safely. Never attempt to use wire or a stick to push the kite free.

Puncture-Proof Demand Rockets

Seiberling puncture-proof automobile tubes, marketed in the Big Spring area by the Creighton Tire Co., are experiencing their greatest demand in history, according to Charlie Creighton of the local tire establishment.

Charlie Creighton, who operates the Seiberling agency here with his brother, Reuben, said the public demand for the puncture-proof tube is attributed to the fact that it is different from all other tubes. "Seiberling developed this tube itself and it still holds patents which makes it impossible for any other concern to match its product," Creighton explained.

The Seiberling puncture-proof tube does not permit air to escape, regardless of the size or number of punctures. Creighton has a puncture-proof tube and tire mounted

All 15 Escape In Plane Crash

TAMPA, Fla., March 13. (UP)—A big B-29 bomber nosing down through overcast, burst into flames as it crash-landed at MacDill Field yesterday, but all 15 men aboard escaped.

Only man seriously injured was Capt. Charles L. Erickson of Shreveport, La., who fractured a vertebra. Several were cut and bruised.

The plane was on a 20-hour training mission from Barksdale Air Force Base in Louisiana. It was scheduled to land at Maxwell Field, Ala., but came to Tampa because of bad weather there.

Herd, Farmers To Miss Fort Worth Meet

FORT WORTH, March 16. (U) — One of the nation's biggest track and field meets goes on here this week-end but if any records are broken it probably will be purely accidental.

For once the Southwestern Exposition Meet, in its 27th showing, will boast only of its competition. This should be better since all the big guns of the university division—the main one—will be elsewhere.

Texas and Texas A&M, which always run one-two and furnish most of the record-breaking, didn't like the track last year and also didn't care for such a large field that caused preliminaries on the same day as the finals. So they are having meets at home Saturday. Even Oklahoma A&M, another standby, has divided its squad. Most of the top men will be in Chicago for the daily News Relays. There'll be only one defending champion—Oliver Gatchell of Arkansas, who last year won the half-mile.

North Texas State returns to defend its college division championship and Texas Southmost of Brownsville will be back in the junior college class. But Corpus Christi, which won the high school division last year, hasn't yet entered.

There are close to 1,200 athletes already entered from 117 schools with 767 of them in the high school division which also furnishes 75 of the teams. Meet officials expect the total to reach 1,300 before the events get under way tomorrow with preliminaries in the schoolboy division.

There are 147 entries in golf from 25 schools, 15 of them colleges. Thus the total of athletes is over 1,300. Last year, there were more than 1,600 in track and golf combined.

Best chances of records come in the college and junior college divisions. Johnny Stack of North Texas State, who last week won the discus throw with 145 feet in the Border Olympics, may better the college class mark. The record here is 145 feet. Carl Otsuki of Brownsville might clip the 220-yard dash record held by Jack Taylor of the Corners, Okla., Aggies at 21.8. Otsuki did 21.9 at the Border Olympics.

Tyler's Season May Be Over

TYLER, March 16. (U) — Tyler Junior College is in the unusual position of not being able to defend a national championship in basketball unless invited to do so.

The Apaches were eliminated from national consideration in the regional tournament last week. Now, unless one of the regional champions does not choose to be present at the national and Tyler is asked to take its place, the season is over for the Apaches.

But anyway, Tyler has one of the highest scoring freshmen in the business.

O'Neal Weaver, the high school sensation at Little Martin Mill last year when he rolled up 1,066 points, has 628 this year in 38 games.

EX GRIDER DIES

"THAT'S THE WAY, LEON." — Coach Oliver Jackson of Abilene Christian College is giving his star pupil, Leon Lepard, a lesson concerning the start in running the quarter-mile and half-mile events for the ACC cinder squad. Lepard, one of the Southwest's outstanding tracksters, is a former Big Spring high school track star.

Lepard Up To Par At Olympics, Despite His Blistered Feet

ABILENE, March 16. (U) — Despite severe blisters on both his feet that caused them to bleed during the entire meet, Leon Lepard of Big Spring turned in a commendable performance for Abilene Christian college in the annual Border Christian College at Laredo last week-end.

He ran third in the 440-yard dash, an event in which his chief rival, Mike Mercado of East Texas, set a new Border Olympics record of 49.5. Withdrawing from the 800, Lepard anchored the ACC mile relay team to a first over a fast field in the near-record time of 3:24.4.

ACC's coach, Oliver Jackson, expressed an opinion Monday following a workout of his thinly clad star, that Lepard's feet might be healed by Saturday afternoon when the ACCians take part in a triangular meet with the University of Texas and Howard Payne College at Memorial Stadium in Austin Wednesday.

Marlene And Alice Bauer Head Links Tournament Turnout At Augusta, Ga.

AUGUSTA, Ga., March 16. (U) — A collection of 39 champions opened the first round of the Women's Titleholders tournament today and only three or four golfing names which count with the gallery were missing.

The four days the best in feminine golf will chase after the first 1950 crown among the big three of women's open tournaments — the Titleholders, Western Open and National Open.

Recent rains and cloudy hints of plenty more to come made the Augusta Country Club's sandy and piney 6,619-yard course a long playing, short roll layout. Without good ball rolls even this field of stars will be pushed to produce a 72-hole score of 299 to match Peggy Kirk's record-setting work last year.

Miss Kirk, a long-legged, long-balled hitter from Findlay, Ohio, is defending her title. Other titleholders winners trying again are Babe Zaharias of Chicago, Patty Berg of Minneapolis, Louise Sogers of Carrollton, Ga., and Dorothy Kirby of Atlanta. Helen Hicks is the only former winner not playing.

The field of 39 is the largest ever assembled for this invitational tournament. Last year only 27 competed. In one pre-war year only eight played.

With Augustans, who are accustomed to championship golf because both the men's masters and the titleholders are played here annually, Louise Sogers shouldn't lose. Louise, a slim shortie who consistently drives more than a seventh of a mile, won the Western and National Opens this year and has shot sound golf in practices here this week.

Most of the girls who opened the rounds today are oldtimers in titleholders. However, among the crew of newcomers are the Bauer sisters, Marlyse and Alice, from Midland, Texas, who threaten to outdraw if not outscore their elders. Alice is 22, Marlyse 18, and they combine bubbly sex beauty with golf birdies.

They're the delight of the crowd and the younger galleries. Both Bauers usually play in shorts but the chilly weather has chared them into skirts.

The only entry who failed to show up on the opening tee was Mrs. Ballard Cockrell of Mineola, Texas.

Among the few missing stars unable to play are Dot Kieley of Los Angeles, Polly Riley of Fort Worth, Texas, who opened the 1950 season by winning two tournaments in Florida, and national amateur champion Dorothy Germaine Porter.

Harris Eyeing Waiver Lists

By JACK HAND
AP Staff
ORLANDO, Fla., March 16. (U) — Frankly, Bucky Harris is looking for help. The new manager has no delusions about the Washington club that staggered home last in 1949, some 47 games back.

"I'll have my bait out when the other clubs start asking waivers," he said. "Boston has 20 pitchers, the Yankees have four catchers and a luck of pitchers. I'm keeping an eye on that waiver list."

Harris talks like a determined man: If anybody wants first baseman Eddie Robinson for example, the talent cost will be high. Same thing goes for any of the others. He is smart enough to know that no one player is indispensable on a club such as Washington. What is needed is talent in bulk.

Bucky is high on his new outfield combination of Gil Coan in left, Rookie Irv Noren in center and Sam Mele in right. All three are young with their best days ahead.

The infield will be the same as 1949 with Robinson on first, Al Koussak on second, Sam Dente on short and Eddie Yost at third. Al Evans is set as No. 4 catcher, followed by Grasso.

"I'm counting on seven pitchers definitely," said Harris. "I'll carry ten altogether. The first seven are Scarborough, Sid Hudson, Joe Haynes, Dick Weik, Lloyd Hittle, Mickey Harris and Steve Nagy."

Local Girls Will Appear On WTST Conclave Program

Big Spring and Forsan high school volleyball girls are to stage a demonstration in volleyball during the Physical Education section of the West Texas State Teachers' association meeting at Midland Friday and Saturday.

Coach Arsh Phillips, Big Spring, is chairman of the PE section and will direct the volleyball demonstration.

The demonstrations this year will be a new method of instruction used at the WTSTA meeting. Lectures and discussions formerly made up the program for the association gatherings, but the demonstration techniques were introduced last year.

Other demonstrations to be presented for the Physical Education section this year include tumbling by Lubbock high school acrobats, by Midland high school tap dancing, Midland folk dancing, Andrews, square dancing, Denver City, and modern dancing, Odessa.

Lakeview Plans Rabbit Drive

A rabbit drive has been scheduled for the Martin county Lakeview community Tuesday, Lloyd White and Robert Burnett, two of the drive's sponsors, have announced.

The drive is slated to begin at 8:30 a. m. with hunters to meet at the Lakeview church, 11 and a half miles northeast of Stanton. A free barbecue luncheon will be served those participating, White said.

Shotguns are the only types of firearms that will be allowed on the drive.

SAN ANTONIO, March 16. (U) — Theft of an estimated \$25,000 in jewelry from the home of Lewis Kayton, local business man, was reported by police today.

BATTLE NAMED SNYDER AIDE

Hal Battle of Big Spring, a graduate of Sul Ross college at Alpine, has been named an assistant coach and teacher at Snyder, Head Mentor Milton (Speedy) Moffett announced Wednesday.

BATTLE, who finished his football eligibility at Big Spring high school in 1940, will begin work Monday. Since Snyder, a Class A school, does not have spring football training under Texas interscholastic league rules, Battle will concern himself with teaching and may be assigned to other sports until fall.

The Big Spring youth, married and father of a boy, served as a paratrooper in Germany during and immediately after World War II. He also played football with service troops overseas.

A guard in high school, Battle became a center after enrolling in college. He attended Tulsa University for a short while, before enrolling at the Alpine school.

He has been attending Sul Ross recently, working toward his master's degree.

Battle becomes the fourth assistant on Moffett's staff. The others are Mule Kayser, now varsity line coach under Moffett; Jack Blanchard, B string mentor; and Rodney Grayson, junior high coach.

Hal joins the growing list of Big Spring graduates who have entered the coaching profession. Their number includes Billy Womack, now at Moran high; Good C. Graves, Lakeview; Frank Barton, Wink; and H. C. Burrus, Washington university of St. Louis.

BRAVES FACE ST. JOHN'S

Duquesne Tries CCNY Five In NIT Semi-Final Round

NEW YORK, March 16.—Whether CCNY's rocketing sophomores can keep up their sensational surge toward the National Invitation Tournament basketball title is up for decision again tonight.

Nat Holman's youngsters meet their toughest foe yet in Duquesne's Iron Dukes, out to slow City's fast break to a fizzle, (8 p. m. EST).

Topseeded Bradley, till the tournament favorite, plays St. John's of Brooklyn in the second semi-final. All-America Paul Unruh and Stubby Gene Melchiorre give Bradley a five-point edge over St. John's.

Unseeded City College of New York rates a six-point favorite over the third-seeded Pittsburgh Dukes. CCNY reached the semi-finals by defeating second-seeded Kentucky and defending champion San Francisco by wide margins.

The performance of St. John's 6-6 Bob Zawoluk will determine just how much of a battle the Redmen can give Bradley. If the slender sophomore is not he may offset the smoother Bradley attack and greater reserve strength.

Bradley depends on 6-7 Elmer Behnke to hold down Zawoluk while Unruh, Melchiorre and Bill Mann spark the offense. The St. John's offense is built mostly around Zawoluk, with some help from set shots Gerry Calabrese and Jack McMahon.

But it's different with Bradley. If Zawoluk stops Behnke at center, Coach Forrest Anderson can move either the 5-8 1-2 Melchiorre or Unruh into the pivot. Anderson's fast-breaking offense is so versatile that blocking one man isn't the answer.

The junior-sized Melchiorre is in line for tournament scoring honors. He tallied 26 in Bradley's first game against Syracuse.

St. John's is the only club left that has won previous NIT titles—in 1943 and '44.

The tournament's outstanding performer so far, CCNY Forward Ed Warner, weaving in and out of the pivot, will try the same tactics against Duquesne Center Charley Cooper.

Sophomore Warner, just 6 foot 2 1/2 inches tall, has scored 52 points in two games, many coming while he was working the pivot.

Lubbock Here For Exhibition

Coach Dee Alexander will have four pitchers ready to go when his Lubbock Westerners square off with Conn Isaacs' Big Spring Steers in a practice baseball game at Steer park at 3:30 o'clock this afternoon.

Of the quartet, three are lettermen. They are Benny Day, Jimmy Hamilton and Jim Wilson. Dick Oldham, seeking his first numeral, has also been looking to advantage and may see action today.

Isaacs planned to lead with Floyd Martin, a right-handed curve ball specialist. Frank Philley and Jack Sparks are other Steer hurlers due to get into the fray.

Lubbock is a heavy favorite to cop championship honors in District 3AA. Big Spring is well liked in 5AA.

Donkey Casaba Game Carded Here Tonight

Kiwanis and Key club members are all set to mount donkeys at 8 p. m. today in a donkey basketball game at the high school gymnasium.

Burros to be used in the game are to be shod in special boots, permitting them to stand on the gym floor without damage.

Jockeying the animals into position for shooting a basket will probably be the biggest problem facing the two teams. Kiwanis have lined up an array of potential cagers to battle the teenage members of the Key club, a high school organization patterned after

LOOKING 'EM OVER

With Tommy Hart

Bobbye Savage, who is so ably representing Big Spring and Texas in Iowa coaching circles, watched his Eagle Grove Junior college basketball team win the Northwest Junior College conference championship the past season, seven victories in eight games.

The Eagle Grove clan later got bumped in the second round of the state tournament, losing to the defending champions by three points. The Pirates, as the school team is known, had earlier beaten the titlists by 22 points.

Two of Savage's boys, Bobbye writes, without identifying them, were named to the all-state team.

Savage, who finished high school here around 1940, and then matriculated at Colorado A & M, is now concerned with coaching the school's baseball team. He reports he has all his boys back from last year's squad and is expecting great things of his charges. Since Savage took over the baseball coaching reins, the Corsairs have won 15 of 19 games.

Bob may get out of the junior college coaching business after this season and devote all his time to high school athletics. He would prefer it that way and has been told such an opportunity may develop.

Amarillo may build another high school shortly, a factor which could hack the school athletic teams there down to size.

Something like 100,000 persons now reside in the Potter county capital and taking care of all the students in one high school has become a major problem.

DISTRICT 15AA HAS ONLY TWO BASEBALL TEAMS
Only two schools are fielding baseball teams in District 15AA this year, only three in 6AA and 14AA.

The active aggregations in 15AA are Laredo and Robstown. Mineral Wells, Stephenville and Weatherford are sponsoring clubs in 6AA, while Austin, Corpus Christi and Victoria are active in 14AA.

NORTHEASTERN WITHDREW FROM TOURNEY

Northeastern Oklahoma A & M was originally lined up to take part in last week's Region 5 Junior college basketball playoffs in Amarillo but withdrew at the last moment in favor of Sayre.

The Aggies came down to their last two games in fine shape and excellent spirits and then proceeded to lose both starts by lopsided margins. That influenced the coach and the school's president to decide to call it quits for the year.

Incidentally Sayre's Steve Barker, star of the 1949 Region meet, is now playing with Wyoming university.

HCJC players, back from the meet, say they should have handed Carnegie a licking. Instead, the Jayhawks hit a cold spell and were beaten by 14 points. Some of the Big Springers were of the opinion that Sayre had a better team than Carnegie, which lost to Amarillo in the finals after clipping HCJC in the first game.

ALL SENIOR OUTFIT CHOICE OF COACHES

Lamesa and Lubbock placed two men each on the All-District 3AA basketball team, chosen recently by the coaches.

Wally McNeil and Royce King were the Lamesa lads honored while Walter Norton and Jimmy Sexton represented Lubbock on the team. Charley Hooper of Odessa rounded out the club. All of the boys are seniors, which means that Big Spring won't have to contend with any of them when it enters 3AA again next season.

Five Longhorns Will Take Part In Meet At FW

The Big Spring high school track and field squad will be split this week, part of them going to the Southwestern Exposition meet at Fort Worth while the remainder heads for the Water Valley invitational.

Those making the trip to Fort Worth with Coach Bert Brewer will be Bobby Gross, weight star, and members of the "miff" relay team, including Bobby Wheeler, Billy Wayne King, Johnny Fort and Austry Burk.

Earl Crawford will take the other members of the squad south to Water Valley. In that meet, the Longhorns will be fairly well represented in practically all events.

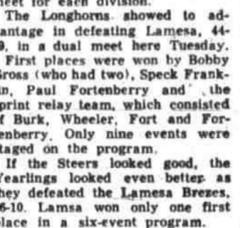

Crawford will be busy as the proverbial cranberry merchant, since he'll also have the Junior high and grammar school squads in tow. Water Valley is staging a meet for each division.

The Longhorns showed to advantage in defeating Lamesa, 44-29, in a dual meet here Tuesday.

First places were won by Bobby Gross (who had two), Speck Franklin, Paul Fortenberry and the sprint relay team, which consisted of Burk, Wheeler, Fort and Fortenberry. Only nine events were staged on the program.

If the Steers looked good, the Yearlings looked even better as they defeated the Lamesa Brees, 36-10. Lamsa won only one first place in a six-event program.

MRS. SIMMS THINKS HITLER DEAD

Local Club Told Naziism Is Transplanted In S. America

Naziism has been transplanted successfully in South America. Mrs. David S. Simms, lecturer, told approximately 100 Knife & Fork club members at the Settles Wednesday evening.

"Before Hitler died," she declared, "nazism was pulled up by the roots and was moved to Argentina."

German leaders, she said, had gotten out of Germany before the final collapse and took their money with them. She added, however, that she believed Hitler was dead but that his program was being carried on under the regime of Col. Juan Peron more aggressively than ever.

This was part of her thesis that the symbol of South America is the whip. Although in the clutches of totalitarian rulers, the oppressed men and women south of the equator offer the greatest hope for understanding with the United States, she thought.

Today there is no pure democracy in South America, in Mrs. Simms' opinion. The clutches of Col. Peron have extended in almost any direction, and Chile alone shows substantial hope of resisting.

Peron, whom she lashed as not only a dictator but as having developed the wealthiest government in the world by capitalizing on the post-war misery, may be approaching a day of reckoning. Today he is bankrupt, having dissipated his vast reserves on maintaining his police and army and in extending his tentacles into other countries, she asserted.

Resurgent nazism now boldly proclaims (from 532 Sacramento

Bldg., Buenos Aires) that Germany must get rid of the occupation as soon as possible, unite Germany as before the war and cast lots with Russia (as an equal), according to Mrs. Simms. This is predicted on a basis that Russia might prevail over the U. S. in a war, but the speaker thought also that Peron had reasoned that both would be destroyed, leaving the nazis free to take over.

In their oppression, the Indians of South America have a bond of universal brotherhood. They are, Mrs. Simms said, on the move - "and they want that thing that they think makes us tick."

What was it that they thought made the United States the symbol of the land of plenty and progress?

In their oppression, the Indians of South America have a bond of universal brotherhood. They are, Mrs. Simms said, on the move - "and they want that thing that they think makes us tick."

What was it that they thought made the United States the symbol of the land of plenty and progress?

Religion, said Mrs. Simms, the Christian principle of "doing unto others as ye would that they do unto you."

It was this quality alone, she thought, that gave hope for sheltering the "caste system that is in many respects worse than that of India," and installing the real freedoms of democracy. The U. S., nevertheless, has a tremendously great challenge to live up to its ideals, "reach up for the spiritual and put it down here where it can go to work."

South American politics are based upon control of the army and police, she said. Only the upper or "cultured class," the fabulously rich, control the situation and because leadership is for sale, revolutions constantly ensue. In a word, she commented, the situation is "rotten."

Mrs. Simms spiced her talk with interesting sidelights on the Indians of the continent, and on many other time spent in Bolivia. She had Parkinson's descriptions of the country and incidents that gave flavor. She was introduced by Dr. F. W. Malone, who noted that in Big Spring she had found childhood friends, Mr. and Mrs. Friend Talbot with whom she was reared in Hickory, Neb. Lewis H. Price, president, reminded that the next meeting was April 17 with I. D. Richardson as speaker. The series then skips until October and November before the current slate terminates. Organ music was furnished by Gene Nabus.

MRS. SIMMS THINKS HITLER DEAD

Local Club Told Naziism Is Transplanted In S. America

Naziism has been transplanted successfully in South America. Mrs. David S. Simms, lecturer, told approximately 100 Knife & Fork club members at the Settles Wednesday evening.

"Before Hitler died," she declared, "nazism was pulled up by the roots and was moved to Argentina."

German leaders, she said, had gotten out of Germany before the final collapse and took their money with them. She added, however, that she believed Hitler was dead but that his program was being carried on under the regime of Col. Juan Peron more aggressively than ever.

This was part of her thesis that the symbol of South America is the whip. Although in the clutches of totalitarian rulers, the oppressed men and women south of the equator offer the greatest hope for understanding with the United States, she thought.

Today there is no pure democracy in South America, in Mrs. Simms' opinion. The clutches of Col. Peron have extended in almost any direction, and Chile alone shows substantial hope of resisting.

Peron, whom she lashed as not only a dictator but as having developed the wealthiest government in the world by capitalizing on the post-war misery, may be approaching a day of reckoning. Today he is bankrupt, having dissipated his vast reserves on maintaining his police and army and in extending his tentacles into other countries, she asserted.

Resurgent nazism now boldly proclaims (from 532 Sacramento

Bldg., Buenos Aires) that Germany must get rid of the occupation as soon as possible, unite Germany as before the war and cast lots with Russia (as an equal), according to Mrs. Simms. This is predicted on a basis that Russia might prevail over the U. S. in a war, but the speaker thought also that Peron had reasoned that both would be destroyed, leaving the nazis free to take over.

In their oppression, the Indians of South America have a bond of universal brotherhood. They are, Mrs. Simms said, on the move - "and they want that thing that they think makes us tick."

What was it that they thought made the United States the symbol of the land of plenty and progress?

What was it that they thought made the United States the symbol of the land of plenty and progress?

Religion, said Mrs. Simms, the Christian principle of "doing unto others as ye would that they do unto you."

It was this quality alone, she thought, that gave hope for sheltering the "caste system that is in many respects worse than that of India," and installing the real freedoms of democracy. The U. S., nevertheless, has a tremendously great challenge to live up to its ideals, "reach up for the spiritual and put it down here where it can go to work."

South American politics are based upon control of the army and police, she said. Only the upper or "cultured class," the fabulously rich, control the situation and because leadership is for sale, revolutions constantly ensue. In a word, she commented, the situation is "rotten."

Mrs. Simms spiced her talk with interesting sidelights on the Indians of the continent, and on many other time spent in Bolivia. She had Parkinson's descriptions of the country and incidents that gave flavor. She was introduced by Dr. F. W. Malone, who noted that in Big Spring she had found childhood friends, Mr. and Mrs. Friend Talbot with whom she was reared in Hickory, Neb. Lewis H. Price, president, reminded that the next meeting was April 17 with I. D. Richardson as speaker. The series then skips until October and November before the current slate terminates. Organ music was furnished by Gene Nabus.

Proposals For City's Budget Worth Serious Consideration

It perhaps is premature to comment upon the proposed municipal budget, since it is still in the formative stage and subject to further revision before being tossed out for the public hearing.

But it is not too early to encourage citizens to make a study of the proposed budget when it is presented in its final, tentative form. Fiscal operations of the municipality are wrapped up in the budget hearing, not when the routine matter of setting a tax rate comes in for consideration in the summer or early autumn.

Despite Delay, There's Nothing Amiss With Getting Acquainted

At the last minute, the Herald has been forced to postpone its "Get Acquainted" edition. The decision—not an easy one—was based upon meeting a deadline with an inferior product or revising it and replacing some weak links.

Despite staff shortages in the composing room, steps had been taken to produce the issue on time. But at the last minute, some of the finished etchings—which are the very crux of the section—turned out to be inferior. Because it was felt that individuals would not be happy with work that was not sharp and clear, the Herald decided to have these particular etchings replaced.

The delay is particularly regretted because people have been so generous in

cooperating with the idea of a "Get Acquainted Week." Many organizations and clubs had planned programs developing this theme.

We hope, however, that this spirit will carry over for another week. After all the idea of getting to know one another better ought not to be hemmed in to any specific spot on the calendar or made dependent upon special activity. In West Texas, where hospitality and friendliness are a Shibboleth, making and renewing friendships should be constant and sincere. Shortly we trust, special emphasis and promotion can be added to the idea, but in the meantime, there's no reason why we can't get out of our way to know more people and know them better.

The manager's first draft included \$66,000 as capital outlay items. Of this amount \$27,000 would go to water production development, \$19,000 to additional water distribution. Another \$20,000 is set up for new service line connections, and \$7,000 for new water meters. In other words, 57 per cent of this total is earmarked for water developments to meet demands of a growing community.

We mention this because it is typical of many of the items involved in the preliminary budget. The more we grow, the greater our needs—and, we hope, the greater our ability to supply these needs. At any rate, you ought to be in touch with your city government toward the end of the month to get a copy of the final draft of the proposed budget—then study it.

Affairs Of The World—DeWitt MacKenzie

There's No Reason For A King Who Cannot Be Symbol Of Unity

ONE OF THE TOUGHEST DECISIONS a man could face was that called for from Leopold III of the Belgians in Switzerland Tuesday by Belgian Prime Minister Gaston Eyskens.

Sunday's plebiscite in Belgium showed 57.68 per cent of those voting desired Leopold to return to the capital and resume his throne. Now Eyskens wanted to know his majesty's desire. There were two alternatives:

1. The king could signify a wish to accept this vote as a mandate from the people for him to return.

2. He could turn the tiny majority down as too small, and abdicate in favor of Crown Prince Baudouin.

MANY OBSERVERS HELD THAT THE second alternative was, from almost any angle one viewed it, the logical one to choose. Indeed, the prime minister was reported to have advised the king at the outset of their fateful meeting.

Why this harsh second alternative, which meant that Leopold must sacrifice his birthright? A majority had voted for him. Well, the true answer lies in that tiny majority.

In these days of democracy there is only one reason for the existence of a king. He is the emblem of unity—high above parties and creeds.

A king must have the love and support of all his people—not half, or three-quarters but all of them. Approval of 57.68 per cent of the voters isn't good enough by a long shot, or of 75 per cent or of any number much less than the absolute maximum.

THERE ARE STRONG DIVISIONS in the Belgian population—political, racial, religious. If the country's constitutional mon-

archy is to be a success the king must be above these differences, in truth an emblem of unity. Unhappily for all concerned, destiny has pushed Leopold into some situations which have made him also the subject of controversy.

The first of these events was his surrender of the Belgian army to the invading Germans at the outbreak of the world war, he himself becoming a prisoner. This was a terrific blow to the allied cause, and brought about the British disaster at Dunkerque.

Leopold was assailed not only by the allies but by his own people. Later the world took a more kindly view, it being widely accepted that his motive was to save little Belgium from annihilation by the Germans.

ANOTHER THING WHICH SOME BELGians disapproved was Leopold's second marriage. This was while he was a prisoner of the Germans in his castle, Laeken, near Brussels. He married a commoner, Mlle. Mary Lillian Baels, daughter of a former cabinet minister. In 1941, she renounced the rank of queen and took the title of Princess Astrid of Sweden, who was widely beloved by the people. She was killed while motoring with the king in Switzerland when the car with the king at the wheel, swerved from the road into a tree. The ruler was grief stricken and remained in comparative seclusion for years.

Sunday's referendum, instead of deciding the issue, served to accentuate differences among the Belgian population regarding the ruler. Leopold was pushed into a position where the wise decision seemed abdication in favor of his son. In any event he was forbidden to return to Belgium pending permission by parliament.

The Internal Revenue Bureau especially is the victim of its own successes. The T-men caught Al Capone in their mousetrap after he had successfully evaded punishment for every type of major crime; they repeated that triumph with other famous mobsters, including Dutch Schultz and Waxy Gordon. They are now suffering from a current common inference that, if they only tried, they could inflict similar mayhem on Frank Costello and his gambling pals.

The trouble is that criminals, like the rest of the unhappy citizenry, have learned that the income tax is here to stay. Capone and Schultz never filed returns at all, Gordon reported only about one-third of the amount he spent for rent of a Fifth Avenue apartment in New York. Today, the most careful returns come in from people who are the most suspected. Too, gambling, for example, is not a federal crime and if the returns are reported, the T-men have no further duty.

Congress Itself Is Directly Responsible For Government's Runaway Spending

WASHINGTON — With economy the watchword on Capitol Hill, senators and congressmen might be better off criticizing the bureaucrats less and paying more attention to how Congress itself handles the taxpayers' money.

The power to tax and spend rests squarely on congressional shoulders, and by juggling the purse strings Congress can control the federal government.

Yet, believe it or not, Congress appropriated \$29 billion last year without so much as a record vote. In other words, the taxpayers had no way of determining how their representatives voted.

In many cases, the majority of congressmen didn't even show up to vote when expenditures running into millions of dollars were approved. This is clear from the Congressional Record which shows that a quorum wasn't always present to vote on appropriations—though the Constitution clearly provides that "a majority (of each house) shall constitute a quorum to do business."

Because this is a careless way to handle the taxpayers' money, conscientious Rep. Dwight Rogers of Florida is urging a resolution to require a rollcall vote on all appropriations. This would help remedy the slipshod method in which some appropriations are handled.

Note—Here are some of the appropriations approved last year without a rollcall vote: \$7,617,738-261 for independent agencies; \$11,949,562,496 for the military establishment; \$3,090,528,903 for the Treasury and Post Office Departments; \$2,387,779,885 for the Labor Department and Federal Security Agency; \$715,601,607 for the Agriculture Department; \$384,090,797 for the Interior Department; \$100 million for Palestine refugees.

SOVIET VS. PEARSON The Soviet-controlled press recently launched a diatribe against yours truly, calling him among other things, "the chained dog of the monopolists of Wall Street." The attack was published in Ogonek, the Life Magazine of Russia, and in order to give everyone a break in the popular pastime of throwing bricks at this writer, here are the highlights of what they say in Moscow.

"In his newspaper column," says Ogonek, "Pearson resorts to complicated sleight-of-hand. He is an acknowledged master of the art of lying and slandering, and other Communists and commentators envy him."

"Pearson's connections are widespread. He doesn't have to hunt for sensations. Ministers, generals, admirals, high-placed government officials and gangsters supply him with sensational rumors, gossip, and, in particular, slanderous fabrications about the Soviet Union. With Pearson's help, dark intrigues are frequently camouflaged."

ey, Bridges and other arch-reactionaries. In the House of Representatives, he enjoys the favor of the speaker, Sam Rayburn, and the Republican leader, Joe Martin. Pearson also has ties with the FBI (the American Gestapo).

"Pearson frequently comes out with provocative announcements. In the general howl of the warmongers his voice also is heard, the husky voice of the mongrel true to his master. Pearson is an unwavering adherent of the material plans for the establishment of world domination by American monopoly. He has cynically declared that the U. S. has enough atom bombs to throw a few on every one of the countries that are members of the UN."

"Some time ago the international organization of journalists, at the proposal of the Polish delegate, adopted a resolution condemning malicious instigators and propagandists for war. It called upon the National Association of Journalists to expel from their ranks persons blackening themselves with war propaganda, race and national hatreds, misinformation and slander. In the disgraceful list of these journalists appears the name of Pearson, a gangster of the press, the chained dog of the monopolists from New York."

AND THE POLITICAL education of Japan took place without fanfare the other day—

9,000 miles from Japan in a Washington committee room. Though no reporters were on hand to witness it, members of the United States Senate and Japanese Diet sat across the table from each other and exchanged political ideas.

If the same scene had taken place 10 years sooner, Pearl Harbor might never have happened. It was a curious sight, these American and Japanese legislators taking a belated look at each other. The Japanese had come to watch democracy at work and were keen-eyed with interest. They rattled off questions, and scribbled the answers in notebooks.

One senator on the American side of the table was a former missionary to Japan—high-minded Elbert Thomas of Utah. Another had been a Marine wounded in battle against the Japanese—scholarly Paul Douglas of Illinois.

This battle scene was solemnly recalled by Senator Douglas. He told how the Japanese fought a last-ditch stand though outnumbered two to one by the Americans.

"The Japanese fought bravely and valiantly," declared Douglas. Then, looking squarely at the Japanese legislators across the table, he added: "I am now looking forward to the Japanese fighting just as hard for democracy."

Throughout the visit, the Japanese asked most of the questions, chiefly on the technical processes of democracy.

Mercedes Gets Hubby, Settles In Hollywood

HOLLYWOOD, March 18 (U)—It wasn't movie offers that convinced Mercedes McCambridge to settle in Hollywood. It was acquiring a husband.

Miss McCambridge is the heavy favorite to snag an Oscar for her hard-bitten performance in "All The King's Men." Despite the acclaim she won in her first screen role, the radio actress was indifferent about settling here.

"I had never thought about Hollywood before," she said. "It was like another world. I managed to keep busy—and happy—working in New York. The idea of invading Hollywood never occurred to me."

That was before she and radio producer Fletcher Markle tripped off to Las Vegas to tie the knot.

"I'm married now," she said. "And a wife has to go where her husband goes." Markle works in Hollywood.

The actress is doing her second film role in "Lightning Strikes Twice." What about the future?

"I'm just browsing around," she said guardedly. "I've had good parts both times, so I'll defer my opinion until I've had more experience."

One thing is certain—she won't change her name.

"A lot of people have told me it's too long and I should change it," she remarked. "I won't. It's

my own name and I like it." They had better let her have her way. She might want to adopt her full handle—Carlotta Mercedes Agnes McCambridge Field Markle. It's mer-say-deer, by the way, with accent on the say. Friends just call her Mercy.

Around The Rim—The Herald Staff

Backwoods Occurrence Of Forty Years Ago Still Is Unexplained

Every now and then, something happens which cannot be explained by science. Such is the case which I am about to relate.

This story was told to me by an old man whom I knew very well. I shall call him Campbell. In his middle age he had been a school teacher in a backwoods community, where he had settled with his wife. They were a childless couple, but Mrs. Campbell was pregnant, and, at the time this narrative opens, she was within a week of her confinement.

The modest Campbell home was situated on the edge of a forest about three miles from the village. There were no neighbors in the immediate vicinity, and the one doctor available lived in the village. Campbell, naturally, was worried for his wife, and had arranged to move her into town, where she would be closer to the doctor when her time came. However, as it turned out, the storm was a little beforehand.

"It was a Saturday evening in late January, and snowing hard," Campbell told me. "We were to go into town the next day. But when I came into the house about five o'clock, after doing the chores, I found my wife writhing upon the bed in her labor pains. My first thought was to hitch up the mare and drive off for the doctor, but that would have meant leaving Susan all alone for at least an hour. While I hesitated, she began to scream like an animal, and I realized that it would be folly to leave her by herself even for a few minutes. In her condition, she was desperate enough to do anything."

"I did what I could for her—it was not much—and sat beside the bed holding her hand and praying God to send a neighbor along the road. Now and then I would dash to the window and look out to see if anyone were passing, but I saw nothing but the whirling snowflakes. Meanwhile, Susan's pains had augmented, and I felt that I was going mad."

"I don't know how long my reason was on the verge of quitting, me, the door swung open and Dr. Moore entered. I hailed him as if he had been an angel from heaven. He took in the situation at a glance, and went to work. It proved to

be a long and difficult labor, but at gray dawn it was all over. I was the father of a fine boy, and Susan was sleeping as peacefully as the infant.

"I cooked up a skilletful of bacon and eggs and made a pot of coffee. While the doctor was eating, I noticed that he kept glancing at me from time to time in a puzzled way. Finally, he gave tongue to the thought that had been bothering him.

"Look here, Campbell, why did you drive your wife right after telling me your wife was in labor? As I told you, I would have been with you in a minute, but when I came back into the office you were gone and the street was empty. I could have got out here sooner if I had not had to follow you in my own buggy."

"You may imagine my astonishment at his words. I thought at first he was joking, but I soon saw he was in deadly earnest. It seemed to me, then, that he must have mistaken me for someone else who had had a hunch that things were not going well out at my place. I told him as much.

"The doctor was very angry. "No, Campbell," he insisted, "it was you. I was in my office reading a medical magazine when I happened to look up and saw you standing there in the full light of the lamp. Before I could say a word, you told me your wife was at death's door, and begged me to hurry. I jumped up and went into the next room for my bag and overcoat, calling to you over my shoulder to wait and drive me out. I can assure you I was annoyed when I came back and found you already gone. I put it down to your excessive anxiety for your wife; though, to speak truth, it was a lucky thing that I got here when I did."

"I finally managed to convince the doctor that I had not been in town for several days and then his astonishment was as profound as mine. We talked the matter over all the morning, and discussed it often in the days to come but neither of us ever was able to solve the mystery. "I've never seen you since," he said.

Such was Mr. Campbell's story. The reader is welcome to draw his own conclusions. R. G. MACCREADY.

It's Up To McCarthy To Make Good His Communist Charges

WASHINGTON, (U)—THIS IS A strange story here. . . the hearings on Senator McCarthy's attack on the loyalty of present and former employees of the State Department.

No one is predicting how long the hearings will continue. The Wisconsin Republican McCarthy, hasn't finished reading his list of people upon whom he's casting suspicion.

The five members of the Foreign Relations Committee's subcommittee, which is conducting the hearings, are now sort of sitting back, letting McCarthy roll off the names.

Movie lights make the room brilliant. Cameras are busy. Newsmen line both sides of two long tables. Policemen keep traffic moving through the door.

PEOPLE ARE CONTINUALLY MOVING in, standing or finding seats, and leaving. The big room in the Senate Office Building is packed with them. Every chair is taken.

The dark-haired and heavy-browed McCarthy, a former Marine, bends his head over his lists and reads on, naming names. Newsmen hurry from their tables to send out bulletins on their wires.

Those news bulletins flash around the country. Other newsmen in other places see the McCarthy charges and if one of the charges lives nearby, he's quickly asked for a statement.

Back across the country flow the denials of the people McCarthy has just named. It's "boring," one says. "Fantastic," says

another. "McCarthy is a cowardly liar," says another.

People listed as suspects by McCarthy will be given a chance to answer him in front of the same subcommittee and the lights and cameras.

ONE OF THEM, MISS DOROTHY KENYON who testified Tuesday and flatly denied McCarthy's charges against her, spoke of the damage to her reputation and wondered whether her denials could ever catch up with McCarthy's charges against her. Senator Hickenlooper of Iowa, a Republican colleague of McCarthy, questioned Miss Kenyon and then said he has no doubt about her loyalty.

Whether the other charges, if they come here to state their case, will make out well remains to be seen. But, of course, this isn't a one way street for McCarthy.

When he undertook to throw suspicion on the loyalty of a number of Americans, he was sticking his neck away out. If he can back up his charges, he's done a public service in uncovering disloyalty.

BUT IF IT TURNS OUT THAT HE can't back them up, the public memory is long, and, although McCarthy doesn't have to run for re-election until 1952, this situation probably will not be forgotten.

Senator Tydings of Maryland, chairman of the committee, for the first two days of the hearing which began last week, gave McCarthy a rough time, making him stop every minute to explain in detail the charges he was making.

Boy Wonder Of Manhattan Real Estate Collects Silver Trowels

NEW YORK, (U)—THERE ARE TWO unusual things about Herbert Fischbach. He is one of the few men in America who collects silver cornerstones-lying trowels. And he is the only man in America who is building what he calls "the largest single unit apartment house in the world."

At 31 Fischbach is the current boy wonder of Manhattan real estate.

He is supervising construction of a building for scores of families where only one family used to live. But the family was that of the late Charles Schwab, the steel titan.

The new building will replace the elegant 75-room stone chateau built by Schwab at the peak of his wealth and once known as "the finest home in the United States." Schwab poured from \$6 million to \$10 million in it, and died insolvent. An odd fact about the chateau: Its refrigerators could hold 25 tons of meat, but Schwab in his last years ate only a boiled egg for dinner.

"STEEL STARTED GOING UP FOR the building last week, and it'll be finished by Nov. 1," said Fischbach. "But already it is 70 per cent rented."

The apartments have about everything: Automatic waste-disposal units, electric dishwashers, fireproof paint, big closets with built-in drawer space, and maid, valet, catering and shopping services.

"A woman could live here forever and never even have to leave the building," says Fischbach, who has learned consid-

erable about feminine psychology. Most apartments have either two or three television outlets.

"Many families today find one television set isn't enough for their needs," he explained. "There is a growing trend toward more gracious living."

There must be, as the apartments rent from \$1,300 a year for a two-room unit to \$3,600 for a super-duper penthouse.

Over 400 Tickets Are Purchased For Dallas Symphony Concert Here

Over 400 tickets to the Dallas Symphony performance set for Saturday at 8:15 p. m. in the municipal auditorium had been sold early this morning. Lorraine had been added to the list of surrounding towns which will be represented at the local program. Other tickets have been purchased by residents of Midland, Odessa, Snyder, Lubbock and Colorado City.

chased a section of seats for the membership and local members are entitled to seats in that section at no charge or to a \$1.50 discount on higher priced seats. Miss Brown says that Town Hall tickets will not be good at the door because ticket sellers expect to be busy serving out-of-town and other late purchasers.

Local residents might be interested in knowing that the Fort Worth subscription season of the Dallas Symphony Orchestra has been assured for 1950-51. Giovanni Cardelli, orchestra manager, said 1,500 subscribers out of a seasonal goal of 1,800 already had been enrolled, "with the rest and more in sight."

RIBBON RAMBLINGS

By Mildred Young

Did you ever get up in the morning and from the very minute you started your day everything went completely wrong? You made everyone you met mad or they crossed you? Your fingers were all thumbs and things in general seemed to be just one big mess? We were reading Floyd Poe's "This, That & The Other" and he was recalling a story that happened in Dallas recently. It sounds so typical of some off-days which we have, we thought we'd repeat it.

"An out-of-town stranger strolled into Cokesbury's Book Store and found her way to the Bible department. A very gracious woman who holds an important position on the sales staff greeted the stranger with the time honored, 'May I serve you?' Then the following dialogue took place:

Woman purchaser—Is this the Bible department?
Salesperson—Yes it is, what can I show you?
Woman purchaser—Well, you don't have much of a display.
Salesperson—On the other hand we thought we had a very satisfactory display.

Purchaser—What's that fancy name you have over the door "Cokesbury"? I thought this was the Methodist Book Store.
Salesperson—So it is. This is a Methodist book store named after two Methodist bishops, Bishop Coke and Bishop Asbury.

Purchaser—What are you doing with those Catholic Bibles up there?
Salesperson—They are not Catholic Bibles but Episcopal prayer books.

Purchaser—Well it's all the same any way—no business in a Methodist store. Why don't you have some Methodist Bibles on display?
Salesperson—Sorry, but we Methodists do not have a Bible.

Purchaser—In heaven's name! Do you mean to stand there and tell me that the Methodists do not have a Bible?
Salesperson—That is exactly what I mean. The Methodist church has never published a Bible solely for Methodists.

Purchaser—I've been a Methodist for forty years and I didn't come here to have some clerk preach to me!
Salesperson—I've been a Methodist all my life, but when some narrow-minded woman like you comes in here I feel like quitting and joining some other church."

The purchaser who wasn't a purchaser after all, flounced out of one of the most beautiful book stores in this section and bought her book somewhere else.

Ever have the same type of thing happen with you in the shoes of the salesperson? We have, and it's a great life, isn't it? Or is it?

Handy and Easy
Are Both Wrong

Handy Peterson and Easy Roberts got in quite an argument the other day over at Fred's Garage talking about the best spot to fish up at Green Lake.

"Opposite the old sawmill is the best spot," says Handy. But Easy "poo-hoo's" him. "I've seen the biggest fish caught off Cedar Point," says Easy. "I've been catching them there for years."

Then Fred goes into his office and brings out the biggest mounted rainbow trout you ever saw. "Bet that was caught at the sawmill," comments Handy. "Cedar Point,"

Belated Tax Returns
Reaching Uncle Sam

WASHINGTON, March 16. (U.S.)—The federal government jingled several billion dollars in fresh spending money today as late check-laden returns trickled in from taxpayers across the nation.

One commentary on what yesterday—income tax day—meant to most people was provided unwittingly by a late-payer who was in the line at the Bureau of Internal Revenue in Washington.

He left behind a laundry bundle, containing several of the shirts off his back.

Noting that even though billions richer, the government still is in the red, Republicans in Congress grasped at the chance to belabor

the Truman administration and its financial policies. Democrats resorted to reminiscences of the depression years.

In Detroit, what may have been the day's biggest tax payment—a \$114,373.394 quarterly installment from General Motors Corp.—showed up in the same mail with what certainly was one of the smallest: Two cents.

And in a long list of cities, the day marked the last chance the government had to catch up with 1943 tax fraud cases involving an estimated \$15 million. At midnight last night, the seven-year statute of limitations went into effect, closing the books on any new action against those who evaded taxes during that war year of high profits.

Local Guard Plans
Anniversary Party

Four Big Spring Guardsmen have been appointed to a committee to work out arrangements for the local Guard unit's second anniversary party.

Sgt. John N. Schuelke was named chairman of the group. He will be assisted by Harold Hamill, Bob Meador, and Paul Hooper. The second anniversary for the organization, Battery B, 132nd Field Artillery, is April 19. The Guard party will probably be held the week before, Capt. T. A. Harris, commander, said.

Miss Hatchett Is
Made Assistant Bank
Vice-President

Edith Hatchett, long time employe of the State National bank of Big Spring, has been promoted from cashier to assistant vice-president by directors of that organization.

Her position as cashier will be assumed by John D. Cags, who has been vice-president of the bank at San Augustine, Tex. Cags is expected to move here shortly with his wife.

Miss Hatchett went to work for the bank as a bookkeeper and stenographer in 1923. She became a teller around 1926 and was elevated to the job of assistant cashier the following year. In 1944 she assumed the position as cashier.

Prior to taking employment with the bank, Miss Hatchett worked as bookkeeper for the Rix Furniture and Undertaking company.

Chiang Takes Control
Of Nationalist Forces

By SPENCER MOOSA

TAIPEI, Formosa, March 16. (U.S.)—Pres. Chiang Kai-Shek took direct control of Nationalist Chinese armed forces today.

The office of Southeast Asia commander, formerly in command of

Formosa armed services, was abolished. Premier Chen Cheng held the post until he took the premiership this week.

The move was part of an effort to streamline the government and step up the war machine to prevent another defeat—which might cost Nationalist leaders their heads.

Ho Ying-Chin, former premier, is expected to be named to succeed the present chief of staff, Ku Chi-Tung. Ku has been under sharp fire for asserted incompetency.

Chiang abolished his office as leader of the Kuomintang party. The job became superfluous with his resumption of the presidency.

As these moves were made, tribal chieftains in Formosa pledged loyalty to the Nationalist and vowed to fight against Chinese Communists until the end. The chieftains represented 140,000 tribesmen. They gave their pledge at a formal ceremony before Chiang and Madame Chiang.

HOUSTON, March 16. (U.S.)—The famed Bauer Sisters—Marlene and Alice—may play in the Texas Women's Golf Association Tournament at Brae Burn Country Club here April 17-22.

The Bauers, now touring in women's golf, are residents of Midland, Tex., and as members of the country club there are eligible to compete in the tournament here.

A field of close to 130 is expected. Mrs. Frank Goldthwaite of Fort Worth, president of the association, says. Among the entries will be Betsy Rawls of Austin, the defending champion; Polly Riley of Fort Worth, Betty McKinnon of Mt. Pleasant and Betty Dodd of San Antonio.

The tournament will last a week.

Jones Murder Trial
Continuing Today

SHERMAN, March 16. (U.S.)—The murder trial of William Morris Jones continues today after yesterday's session was interrupted when the defendant began struggling with officers in the courtroom.

The 26-year-old farm laborer, who is pleading insanity, was returned to his jail cell to stop the outburst and court was dismissed until today.

Jones is charged in the fatal shooting of Ramsey H. McLean, former Dallas tire dealer, near Lake Texoma last Feb. 21.

Joint Local, State And Federal
Crackdown On Gambling Drafted

WASHINGTON, March 16. (U.S.)—A rough draft of plans for a joint local, state and federal crackdown on big-time gambling began to take shape today.

Mayor Thomas D'Alessandro of Baltimore called together his newly appointed legislative committee of the attorney general's conference on law enforcement for a two-day closed session at the justice department.

The get-together is expected to outline the area of cooperation in which law enforcement officers generally might function to curb crime.

The law enforcement conference, assembled here last month by Attorney General McGrath, indicated general agreement on a joint action program. It also indicated that first action should be directed against curbing organized gambling, which FBI Director J. Edgar

Hoover has described as the "next egg" of the underworld.

Mayor D'Alessandro was designated by the conference to head a legislative committee to bring in recommendations for new laws covering the crime and gambling-regulation field.

The conference specifically directed the committee to look into the possibility of congressional acts. Such federal laws might forbid interstate communications for gambling purposes and prohibit interstate shipment of slot machines and other gambling devices.

The legislative groups are scheduled to make a specific report by April 15. Objective is to obtain action on any federal legislation recommended at the current session of Congress.

A DAZZLING CLEAN WASH
WITHOUT RINSING

...THERE'S NOTHING LIKE TIDE!

Just wash—wring out—hang up!

WOMEN EVERYWHERE say it's the best washday news ever! They love the time and trouble and water they save by skipping the rinsing! But most of all they love the way their clothes come dazzling clean. You already know how clean Tide gets clothes with rinsing—cleaner than any other washing product known. Now try the same wonderful Tide without rinsing, and compare the results. You'll be amazed to see how bright and clean your wash comes right from the wringer. Get Procter & Gamble's Tide today. Every package of Tide on your dealer's shelf right now will give you a dazzling clean wash without rinsing!

HERE ARE THE FACTS ABOUT WASHING WITHOUT RINSING

- 1. Will this method really get clothes clean? Yes, Tide keeps the dirt suspended in the sudsy water. When you wring out the clothes, the dirt runs out with the washwater—clothes come from the wringer CLEAN and as bacteria-free as rinsed clothes.
- 2. Will clothes come white? Yes, clothes come dazzling white! Just see if you can possibly tell the difference between a rinsed, and an unrinsed Tide-washed shirt!
- 3. How about ironing unrinsed clothes? When you use Tide without rinsing, clothes dry soft and fluffy... iron easily.
- 4. Is this method safe for fabrics? Yes, it is safe... skipping the rinsing and extra wringings actually saves wear and tear on clothes.

"SAVES SO MUCH TIME ON WASHDAY!"
SAYS MRS. JOY MAYO OF PORTLAND, MAINE
"No more rinsing! It's wonderful news for every woman who washes clothes! It's such a timesaver to take the wash right from the Tide suds, put it through the wringer, and onto the line! And everything looks so bright and clean!"

When you wash without rinsing—
NO OTHER WASHING PRODUCT
KNOWN WILL GET CLOTHES
CLEANER THAN TIDE

SAME PACKAGE!
NEW MIRACLE!

Plentiful Poultry Is Help To Budget

Poultry of all kinds is on the plentiful foods list. Serve it often. By serving poultry, now at lowered prices, there's a chance to balance the food budget with one of the thriftiest buys on the market. There's more in eggs and chicken than meets the palate. They furnish complete protein, vitamins and minerals to help maintain top efficiency.

Select young plump chickens. Split down the back and breast bone. Brush with melted butter. Place skin side down on greased rack in broiler pan with top surface about 4 inches from source of heat. Broil 15 to 20 minutes, depending on size, turn, brush with fat, and continue broiling until done. When juice is no longer pink and flesh is tender the chicken is done. Allow one half small broiler per person.

Variation—Broiled chicken barbecue. Baste frequently with your favorite barbecue sauce while broiling.

Breakfast Substitute Of Coffee Brings On That 11 O'Clock Slump

If you are among the readers of current magazines who take the articles with a medical slant seriously, you probably already have abandoned the black cup of coffee breakfast.

A good breakfast has been found to do more than establish a sense of well being.

There is one school of theory that the substitution of black coffee for a good breakfast brings on the 11 o'clock slump that afflicts so many persons these days; that the slump itself is not as serious as the fact that the sugar content of the blood reaches a dangerous low point among many who omit break-

fast, and that other meals of the day can scarcely repair the loss.

Then there is the medical school making a study of mental acuity, speed of reaction, as related to breakfast. By showing that omission of breakfast increases reaction time, breakfast is being recommended, not only to start people off on their toes to meet every busy day's events, but also as a safety precaution against potential accidents due to breakfast skipping or skipping.

Government nutritionists have long recommended that breakfast supply about one third of the daily protein needs.

If you have been stricken this year with the virus earlier called "flu", your family doctor probably has reminded you to eat more cooked cereals, eggs, milk, etc. the kind of soft foods ordinarily associated with a hearty breakfast.

The basic combination of fruit, cereal, milk, bread and butter meets almost anyone's protein standards.

It also is a combination which fits in with the meatless meals of the Lenten season, observed in numerous homes. For those who observe Lent, a well planned breakfast is especially important to help give the day balance.

More Eggs
Eggs add variety, not to mention nutritional values, to breakfast menus. Experts recommend at least one egg a day for every member of the family. Insist on it, say dietitians—even be hard-bitten about it.

Eggs, not one, but several for each member of the family, aren't hard on the food budget these days. Eggs are lower in price than in many Lenten seasons. Besides the breakfast egg, they can be used in many invisible but important roles, to thicken, leaven, enrich and garnish other foods.

For breakfast, there are boiled and coddled eggs, poached eggs, scrambled eggs, fried eggs, shirred eggs, and the omelet.

The woman who really enjoys cooking will never be bored with preparing eggs for breakfast. She will introduce eggs in a new guise almost every time she says "Good Morning" to her family.

The usual poached eggs may be varied by substituting milk for water in the poaching process. A bit of the milk poured over each serving of poached egg on toast increases the nutritional value of the dish.

Poached eggs benedict are delicious. Slices of fried or broiled ham, cut in rounds to fit the poached egg, rest on the toast. Some families substitute toasted English muffins for the toast.

English Muffins
1 cup scalded milk
3 tablespoons shortening
1 1/2 teaspoons salt
3 tablespoons sugar
1 cake compressed yeast
1/4 cup lukewarm water
1 egg, beaten
4 1/2 cups all purpose flour

Combine scalded milk, shortening, salt and sugar, and cool to lukewarm. Soften yeast in lukewarm water, stir and combine with cooled milk mixture; add egg and 2 cups of flour; mix well. Turn out on a well-floured board; knead in remaining flour, and continue kneading until firm and elastic or about 12 minutes. Place dough in warm grease dish and brush lightly with melted shortening; cover and let rise until double in bulk about 1 hour. Turn out on board, roll 1/4 inch thick, cut with large cutter into 3-inch rounds, cover and let rise on board about a half hour or until doubled in size. Bake slowly on an ungreased griddle or heavy skillet. The heat

should be regulated so that the muffins brown slowly, allowing 7 to 8 minutes for each side. If baked in muffin rings, the browning will be more even, but very satisfactory muffins can be baked without the use of rings.

Shirred Eggs
For shirred eggs, use either individual baking dishes such as custard-cups or muffin pans or a shallow baking dish large enough to hold the number of eggs desired. Grease the baking dishes and break an egg into each, taking care not to break the yolk. Add 1 tablespoon-cream for each egg; sprinkle with salt and pepper; dot with butter; sprinkle with fine bread crumbs. Bake in a moderate oven about 350 degrees for 15 minutes or until the whites are set.

Eggs baked in bacon rings are special fare. Partially cook bacon, one strip for each serving, remove from pan while still soft. Fit into greased muffin pans. Break an egg into each muffin pan, and proceed as above.

French Toast
One of these indirect ways of serving the family those nutritionally important eggs is French toast. If prepared properly, and served

Big Spring (Texas) Herald, March 1950

pipin hot with maple syrup, honey, marmalade or a favorite jam. French toast gives happy new variety to breakfast.

1 egg slightly beaten
1 cup milk
1/4 teaspoon salt
6 slices stale bread
Combine egg, milk and salt. Cut each slice of bread in half. Dip in egg mixture, saute in butter or other fat until browned, turning to brown on both sides.

French toast is delicious with bacon curls, made by twisting the bacon strips around a fork just before the crisp stage is reached. Complete crisping.

The addition of 1/4 cup brown sugar to the egg mixture makes a sweet variant on French toast that many persons prefer. Stale raisin bread dipped into this mixture and sauteed in butter is a real treat.

For Variety
Breakfast interest will never lag if planning keeps bringing something new to the table. Start with fruits, and juices. Grapefruit and oranges may be the standbys, but the whole canned fruit shelf of your grocery, the deep freeze counter, and the fresh fruit displays can furnish a different fruit or juice for every day of the month.

Dry cereals may be alternated with cooked cereals. Coffee may be the standard breakfast beverage, but milk, hot chocolate, postum, tea, and others may be substituted or included.

Ham, link sausages, sausage patties, miniature breakfast steaks very tender and juicy, and many other meats may be stand ins for the ever popular breakfast bacon. With eggs cheap, a breakfast of brains and eggs will please many families. Left over beef, creamed and served on toast, or creamed chicken may be something entirely out of the ordinary and a real appetite teaser.

Griddle cakes and waffles, offered from time to time with a varied accompaniment of ham, sausages or bacon, or waffles with chopped pecans baked in, are hearty fare.

Griddle Surprise

For want of a name, this suggestion is being called Spam Surprise, or Tricky Treat. Just take slices of Spam, Treet, or whatever may be your favorite canned chopped ham or luncheon meat, dip in griddle cake batter and fry in fat, or brown on a lightly greased griddle. If fried, drain well, so the batter cover will be quite crispy. Turned on a griddle, these surprises are more like a pancake, but whether fried or griddled, the centers of the meat are juicy and luscious, surprising by so.

Serve this breakfast dish immediately, with maple syrup. You will have even the war veteran husband who vowed never to taste canned lunch meat again asking for seconds.

Bran Muffins Are Not Out-Of-Date In New Cookbooks

Do you perchance think it's a little old-fashioned to serve home-baked breads? If you do, you'd better give the idea another thought. For this is indeed the day of speed in our kitchens. The baking sections of cookbooks will be out-of-date shortly because all of our newest recipes have the note "Quick Method" attached to them.

And this is where you'd better change your mind about hot breads. The newest quick recipe is one for raisin-bran muffins, the most popular bread served on many a restaurant menu. The new method could more properly be called the one-bowl method. All ingredients go into one mixing bowl and you stir them all together at once rather than creaming sugar and shortening, beating egg and so on. Having quick bran muffins for breakfast doesn't mean giving up much sleep. Combine the dry ingredients the night before. Mixing won't take more than five minutes in the morning. They bake while you set the table, make the coffee and so on. And a tray of these modern muffins make a "good morning" better.

Raisin-Bran Muffins
1 cup ready-to-eat bran
1/4 cup milk
1 cup sifted flour
2 1/2 teaspoons baking powder
1/2 teaspoon salt
1/4 cup sugar or molasses
1 egg
2 tablespoons soft shortening
1/2 cup seedless raisins
Combine bran and milk in mixing bowl. Sift together flour, baking powder and salt; add to soaked bran with sugar or molasses, egg shortening and raisins. Stir only

\$1.2 Billion Cut In President's Budget Slated

WASHINGTON, March 16. (AP)—The House Appropriations Committee has tentatively worked out a \$1,200,000,000 cut in President Truman's spending proposals for the 12 months beginning next July 1.

The committee has not formally taken final action, but it was learned a "central committee" has recommended the cut.

The committee is working on an omnibus bill embracing items for which Mr. Truman asked \$30,326,000,000.

Members of the committee said these have been trimmed to roughly \$29,126,000,000.

The President's overall budget requests for the fiscal year starting next July 1 were \$42,439,000,000. This included approximately \$3 billion for Marshall Plan foreign aid and \$9 billion in so-called permanent appropriations and trust funds.

These two items are not dealt with in the omnibus bill.

The "central committee" recommendations will be presented to the full committee next Monday. The following week the omnibus bill is scheduled to go before the house.

Committee members gave figures on tentative committee action including:

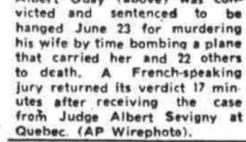

Defense Department: Requested \$13,028,000,000 granted \$12,839,000,000.

Independent offices, including Veterans Administration and Atomic Energy Commission: Requested \$8,458,000,000, granted \$8,024,000,000.

Agriculture Department: Requested \$799,000,000, granted \$764,000,000.

Army Engineers' civil functions: Requested \$834,000,000, granted \$675,000,000.

Acheson Calls Russia's Bluff

BERKELEY, Calif., March 16. (AP)—Secretary of State Acheson challenged Russia today to demonstrate her desire for peace by accepting a new seven-point program to free the world from "destructive tensions and anxieties."

Boiled down, the seven steps Acheson proposed call for an end to Russia's aggressive diplomacy, both in her dealings with satellites and with the western world, and for new moves to conclude peace treaties and to find some solution to the problem of atomic controls.

Bluntly, he predicted Russian refusal of any attempt to settle these points of "greatest difference" between the east and the west.

But he insisted that they "must be identified and sooner or later reconciled if the two systems are to live together, if not with mutual respect, at least in mutual security."

Otherwise, he said, the United States can only continue to resist aggression where it finds it, and to "press ahead with the building of a free world."

"We are always ready to discuss, to negotiate, to agree," Acheson declared, "but we are understandably loath to play the role of international sucker."

Acheson's address — a major statement of American policy said to have taken three months to draft — was prepared for delivery at the University of California, in connection with the conference on international cooperation for world economic development.

Bond has been set at \$1,000 each at San Angelo for Jimmie Lee Banks, 22-year old Negro, and Juan Gutierrez, 48, charged with possession of marijuana.

The two were arraigned before the U. S. commissioner in San Angelo following arrest by Big Spring police and Howard Gossage, U. S. Narcotics Agent. No date has been set for consideration of the charges by a federal grand jury.

Pioneer Week Of HCJC Postponed

Pioneer Week, a traditional spring activity at Howard County Junior college, has been postponed for a fortnight.

The student council earlier this week decided it would be better not to start the observance today as formerly scheduled.

New date probably will be April 6-7-8. A full state of activities is being planned.

HST ENJOYING VACATION

Truman Signs Oleo Tax Repeal Bill

KEY WEST, Fla., March 16. (AP)—President Truman today signed the bill to repeal the federal tax on oleomargarine.

It was Mr. Truman's first action after his arrival here for a vacation after a sea voyage from Washington.

Charles G. Ross, presidential secretary, said the signing of the bill was done at the "Winter White House." The measure was flown here by courier plane from Washington yesterday.

Under the new law all federal taxes on margarine are wiped out. But it does not interfere in any way with taxes or restrictions placed on oleomargarine by any state government.

Earlier, Mr. Truman, his spirits buoyed by calm seas yesterday and today, was inclined to laugh off the misery of Monday and Tuesday when the presidential yacht Williamsburg unsettled stomachs and made life miserable.

"I lost four pounds," he said of the rough day, "because I couldn't eat." He laughed heartily. Reporters, viewing his bulging waistline, were inclined to be skeptical.

He even indicated he might try a sea trip here again, something Secretary Ross hinted during the height of the rough weather was unlikely.

C., when she was a civilian employee of SCAP in Tokyo and he was employed as an assistant superintendent of a hydrophonic plant there. She is to arrive in Washington on March 17. (AP Wirephoto).

GROUNDING AFTERMATH

Courts-Martial For Mo Officers Ordered

NORFOLK, Va., March 16. (AP)—General Courts Martial were ordered today for the commanding officer, the operations officer and the navigator of the battleship Missouri as a result of the vessel's grounding in Chesapeake Bay.

The officers to be tried are Capt. William D. Brown, of Frostproof, Fla., the Big Mo's skipper; Comdr. John R. Millett, operations officer, and Lt. Comdr. Frank G. Morris, of New York, navigator.

The courts martial were ordered by Rear Adm. Allan E. Smith, commander of the cruiser force of the Atlantic fleet, after a review of the proceedings of the naval court of inquiry which investigated the grounding.

Fechteler said "the formal charges and specifications to be served upon these officers and upon which they will be tried, will not be made public prior to the convening of the respective courts."

The individual officers concerned however, may release the charges and specifications in their respective cases at their own discretion.

Brown, Millett, Morris and Carr were defendants before the court of inquiry, which heard a half hundred witnesses during 18 days of sessions between Feb. 3 and Feb. 28.

Odessa Man Injured In Automobile Mishap

W. S. Howard, Odessa, was released from Cowper hospital this morning after treatment for injuries sustained when his car was involved in a mishap about 15 miles west of Big Spring last night.

Doctors said Howard received a head laceration in the accident. Police did not have details of the wreck.

COMPETITION CONCLUDED WEDNESDAY

Grand Championship Of Local Stock Show Won By R-Bar Boy

Eighteen top quality steers, entered in three weight classes, were paraded before judges and some 300 spectators Tuesday afternoon to conclude the competitive phase of the Howard County FFA and 4-H Club Livestock show.

Derrell Robinson, R-Bar club boy, won the Grand Championship of the show with a middleweight animal that placed first in his class.

Reserve Championship was won by Bobby Powell, Coahoma FFA member, who exhibited the best steer in the heavy-weight class.

Frank Newsum, agent for Brewster and Jeff Davis counties and judge of the steer division of the show, lauded Robinson for "smoothness and even covering throughout" his animal at the conclusion of the judging. Other club boys also received praise.

"After selling 23 top steers that won championships in shows all over the state I don't see how they can have a show," he told the crowd. "They do have one, and a good one."

Showmanship prizes were awarded Lloyd Robinson, Knott, Perry Walker, Center Point, and Wayne White, Coahoma after the two champions had been named. Cash awards were made to four other youthful stockmen.

Ronnie Davidson was presented a \$50 prize for showing the Grand Champion at the San Angelo Stock show several days ago. A similar award went to Lowie Rice for having the Grand Champion of the Abilene show.

Bobby Powell, who exhibited the Grand Champion lamb in the Howard county show this morning, was presented a \$15 prize and Robinson was given \$25 for showing the Grand Champion steer.

The awards were made by Wooten Produce company, Big Spring, and Universal Mills, Fort Worth. All animals entered in the show

Clearing Of Frizzell In Myers Case Seen

Cowboy Acquitted In Jones Slaying

MIDLAND, March 16.—A 70th District court jury cleared Herbert Frizzell of a murder charge and apparently paved the way for exoneration of the Beaumont cowboy on another similar court here Wednesday evening.

A verdict of not guilty was returned in the case charging Frizzell with the murder of Henry Preston (Buck) Jones. Martelle McDonald, 70th District attorney, said a motion for dismissal probably would be filed in the case charging Frizzell with the murder of Carl Myers, Abilene college student.

The slight, dark-haired bronco-buster, who stands five feet and seven inches tall and weighs approximately 135 pounds, showed little emotion when the verdict was read Wednesday evening.

His wife, Dorothy, who was seated by his side when the jury came in, embraced her husband, and then both of them rushed to shake hands with two of Frizzell's attorneys, Clyde Thomas Sr. and George Thomas of Big Spring.

Dallas Scarborough, Abilene attorney, who had been at the defense table, had left for his home immediately after the jury received the case.

Several cowboys, including some who had appeared as witnesses in Frizzell's behalf, were in the courtroom when the verdict was returned, and they pushed forward to shake hands with the defendant.

Mrs. Florine Jones, widow of the shooting victim, sat motionless with tears in her eyes when the verdict was read. The state had introduced her as a witness on Tuesday.

The verdict came approximately eight hours after Frizzell had taken the stand himself and declared that he fired in self defense. He had told how Jones threatened him and said he knew "one of us wasn't going to be around very long, and I wanted to make sure it wasn't me."

Scarborough and Clyde Thomas Sr. both emphasized testimony pointing to self defense during their arguments to the jury.

"If ever there was a case of self defense in Texas, this it is," the veteran Abilene attorney roared.

Elton Gilliland, 118th District Attorney, had asked the jury to "send this man to Huntsville for a great number of years."

Gilliland's statement in the argument was the only reference to a prison term during the arguments. Martelle McDonald, 70th District

Pioneer Woman Dies Wednesday At Colorado City

COLORADO CITY, March 16.—This community's oldest citizen and one of its best loved pioneers, Mrs. James D. Wulfjen, 95, died at her home Wednesday afternoon.

She had been ill for five days. Almost totally blind since young womanhood, she was still active and interested in her town, her family, the pioneer association and her church until her last illness.

Each year Mrs. Wulfjen had been presented with flowers as the oldest member present at the annual reunion and open house held by the Mitchell County Pioneer association.

Mrs. Wulfjen had been a member of the Methodist church since childhood, was a member of the Daughters of the King Sunday school class and was the last surviving member of an early day prayer group. Begun by Abe Mulkey nearly half a century ago, the group met for weekly prayer for more than 40 years, often in the Wulfjen home.

She was the widow of one of the first prominent Mitchell county ranchmen, and mother of several widely known ranching sons. Two of her sons, Urde and Sam Wulfjen, died recently. Urde in September, 1948 and Sam in 1949.

The open house given by her children on her 90th birthday on Dec. 9, 1944 is still one of the city's best remembered parties. Hundreds of friends attended.

Born Mary Jane Coe in Sumnerville, Tenn., she was married to Mr. Wulfjen in San Marcos on Feb. 24, 1874. In 1885, he having disposed of a mercantile business, the couple moved to Mitchell county and established the famous "96 ranch" 12 miles south of Colorado City. Her husband died in 1933.

One son, Bert Wulfjen, Mitchell county rancher, and two daughters, Mrs. Everett Winn, with whom she lived, and Mrs. S. H. Wallis, Tucson, Arizona, survive. Also surviving are eight grandchildren, two great-grandchildren, among them Francis Winn, James Wulfjen, Mrs. Eelon Harrell. Two daughters-in-law, Mrs. Urde and Mrs. Sam Wulfjen also reside here.

Funeral will be held at 4:40 p. m. today at the First Methodist church with the Rev. J. E. Shewhart, pastor, officiating. Burial was to be in the Colorado City cemetery under direction of Kiker & Son.

DOUGLASS IS LANDMARK

City Hotel Changes Management Today

Only one day short of the 22nd anniversary of its opening here, management of the Douglass hotel passed from the hands of a member of the Douglass family today.

J. C. (Jake) Douglass, Jr., announced the consummation of a lease agreement with Herbert Wilson of the St. Angelus Hotel Corp. for operation of the hotel facilities here.

The change was effective as of Thursday, and Wilson said that the announcement of a manager for the hotel would be made within a few days.

Closing of the lease agreement for operating the 100-room hotel, completes a triangular operation for the St. Angelus group. Since June 1, 1957, the corporation has operated the St. Angelus in San Angelo and since November, 1947 the Windsor in Abilene.

Wilson said "we have had our eyes on Big Spring as a logical place for a long time." After a year of close study of cities in the area, Wilson said that negotiations were started a year ago with Douglass.

No personnel changes are involved in the transaction, which affects only the operation of hotel facilities at the present time.

Nor will there be any change in fundamental policies, said Wilson. He added that the St. Angelus had been impressed by these policies, and in turn Douglass added that the deliberateness of negotiations had been with an eye to perpetuating the character of the hotel.

In due time, Wilson indicated a program of redecoration for the hotel will be undertaken. He will pay regular visits to the property in his capacity as executive head of the operating corporation.

Wilson said he was impressed by the possibilities of Big Spring and believed that the wave of growth was just now getting underway.

Douglass will remain in Big Spring, attending to other interests, he said.

The hotel was erected by his father, J. C. Douglass, Sr., Rudosa, N. M., and opened on March 17, 1926. Jake Douglass died by fire in 1926. Jake Douglass has been active in operating the hotel since 1940 when he completed studies at Texas Tech. In 1947 he acquired the property from his father.

Scurry County Beer Referendum Cancelled

The beer referendum set for April 1 in Scurry county has been called off.

At Snyder Wednesday, Scurry County Judge Edgar Taylor said the order of a beer election had been rescinded. There were two reasons, he said. One was that the date set lacked one day filling the legal requirement under the law. The other was the failure of the petition to have been certified by the county clerk before presentation to the county commission-er's court.

Leopold Leaves Future To Solons

GENEVA, March 16. (AP)—Leopold III, exiled king of the Belgians, has decided to leave the decision on his future to Belgium's parliament, he announced today.

"Whatever the decision which parliament will take and for which it assumes, in conformity with the constitution, the entire and exclusive responsibility, I will bow to it," Leopold said in a statement released by his secretary, Jacques Pirenne, at a news conference.

Leopold, exiled from his homeland since the war, won 57.7 per cent of the vote in an advisory referendum last Sunday on whether he should return to his throne.

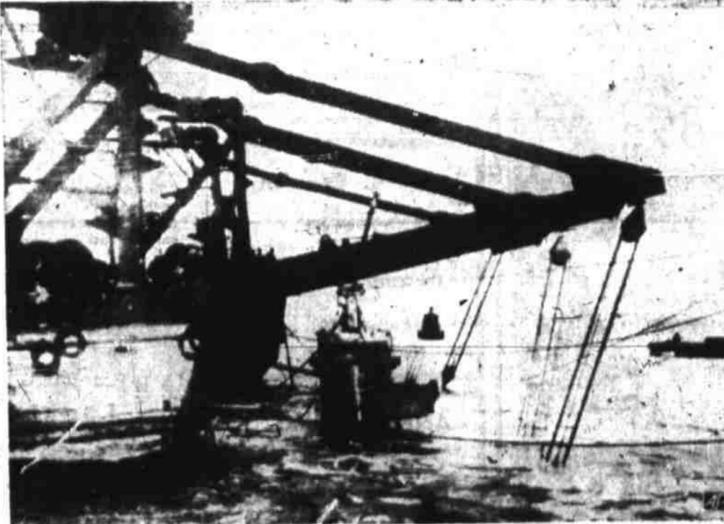

Many political leaders in Belgium feel this percentage is far too small for a king, who is supposed to represent unity for his people. Other political factions feel he should be returned.

Premier Gaston Eyskens denied published reports that he had urged Leopold to abdicate.

No School Friday

There will be no school in Big Spring Friday. Teachers and administrators will be in Midland attending the West Texas State Teachers association district meeting Friday and Saturday.
