OFFICIAL WEIGHT AND MEASURE MAN HERE TUESDAY

J. A. Kinard, weights and measures inspector of the State Departrace, as the ment of Agriculture, and old time friend of Judge E. A. Bills, was in allowed, and Littlefield Tuesday making inspecselected on tion of local scales and measuring

"About nine out of every ten scales are incorrect," said Mr. Kincommunity and to a representative of the Leader, Jordan; while discussing the functions of his ade Potter; office. "Not that the merchant ineth Butler; tends they shall be, for it is my exano solo by perience that the large majority of nd a band business men intend to be honest; but it is caused largely from the fact that evening will most of them do not know anything by 20 local about keeping their scales in order." "I just corrected a gravity scale in

"tootsy- Littlefield," he continued. "The inlibited. Two dicator would not stand still when a a weight was placed on the platform. a It kept vibrating from one side to the Presiding other. The test showed this business Mrs. Pat man was losing nearly an ounce every eet, drone, time he weighed an article on that chaperone. scale, which in the course of a few ensemble al months would amount to the loss of e Leader is considerable profit to his business. SHERIFF IRVIN to state for It was caused from lack of oil in the do not un- balancing mechanism. Sometimes the this means oil becomes rancid, loses its life, gets t with your mixed with dirt and sand which also be served causes it to not function properly, resulting in incorrect weights."

In the matter of gasoline pumps, o nab his Mr. Kinard said it was very easy for his best girl the motorist to fail to get his full promptly on quota of five gallons of gas, and store and meat market the Saturday neither he nor the dealer know it. He night before. The boys gave their said sometimes the float valve at the names as Bill Dixon, J. W. Nance and at the bottom will stick. The attendant beginning to pump as soon as the level mark is reached does not realize that the gasoline is also seep out through the valve back into the ist Monday, ground tank, and, frequently before the pump container is emptied from a half pint to sometimes as much as a quart of gasoline will slip away.

Every business man should be extremely careful about keeping his weighing and measuring apparatus in first class order. It means as much to him as it does to his customers. Scales and pumps should be tested at least every six months, he declared.

Speaking of the selling of short

weights in butter, of which there has been considerable in this community, Mr. Kinard declared it to be a violation of law and that the merchant reselling the short weight butter was as ounces, he said, unless it is firmly packed in and rounded over on the outside, the most of the molded butter will run around 14 ounces to the pound unless this precaution is taken. A merchant who will sell 14 ounces violator of the law as though he sold 14 ounces of sugar or any other commodity for a pound. The fact that for a pound does not excuse him in for him to pass on to his customers such short weights when they pay for full weights. If he fails to weigh the butter he purchases of his farmer customers that should be his own loss, not that of the one who buys from

Mr. Kinard said he was very much in favor of having wegihts and measures inspected in every county in the State of Texas, and he believed it would be only a matter of time until such would be inforced through an act of the legislature. Official testing weights cost about \$16.00, while the official measures cost about \$5.00, and it is his opinion that if every county would appoint an official to take care of this important matter it would mean a considerable savnig and qualizing of business methods and transactions throughout the state.

MAKES ARREST ON

Monday Sheriff Len Irvin arrested three boys ranging in ages from 16 to 18 years, at Amherst last Monday, charged with burglarizing a grocery Charley Brown. They were take to jail at Olton.

It was reported that Brown made a confession of the burglary.

Commenting upon Mr. Moody's race, Judge Hopping declared he was Saining supporters faster than any other candidate that had ever run for that office in several years past. Ferguson's harrange, veiled threats, vituperations and false accusations are already having a reactionary influence upon the candidacy of "Ma." Dan Moody in his clean-cut logical manner, backed up by his enviable record as attorney general, is giving the citizens of this state some serious things to think about, declared the

TRADES DAY WILL **BE HELD MONDAY** IN LITTLEFIELD

Littlefield will hold her usual trades on next Monday, June the 7th.

It is the object of the Littlefield Merchants' Association in holding Saturday, "and the board of directors these events to furnish entertainment are exceedingly proud of the cofor the people in the surrounding country and to show interest in the people who come to Littlefield to do their business and trading.

During the afternoon there will be a program consisting of a band concert by the Littlefield Band, a few vocal and instrumental numbers and some athletic stunts and bronce busting

The drawing for cash prizes will also be had, and there will be a substantial purse given away in several cash prizes. Everyone is urged to get their trades day tickets from the various merchants in order that he may have chances at these prizes.

The Littlefield Chamber of Commerce has written letters to different ones in the various communities adjacent to Littlefield asking them to have something ready in the way of entertainment furnished from these communities along the line of quartette music, readings or any other feature that they might care to bring. and the town which win are the ones There is nothing that will give each that hustle. community more advertisement than to have some stunt of some nature to put on before the great crowd of people that gathers on these trades days. If any community cares to take advantage of this it may let the secretary of the Chamber of Commerce or any of the business men in town know of it and arrangements will be made for them. Advertise your community that the people in general may know there is such a place and that it is populated with live and wideawake citizens.

YANTIS-RAMSEY

Two very popular young people, Miss Jessie Yantis and Mr. Murl Ramsey, were married here last Monday.

The bride is the daughter of Mr. and Mrs. O. K. Yantis, one of the older families of the community. She was reared here and is a graduate of the local high school. The groom is the son of Mr. and Mrs. C. W. Ramsey, formerly of Littlefield, but now residing in Cisco, where he is in the grocery business. Immediately following the ceremony, the newly weds departed for Cisco, where they will ske their future home.

LUBBOCK PLANS BIGGER & BETTER SO. PLAINS FAIR

The opening gun in the campaign to make a bigger and better Panhandle South Plains Fair this year was sounded last Saturday when the board of directors met to transact routine business relative to the opening of work for the coming exposition.

The City Auditorium, frame structure, which was donated to the fair association by the Lubbock Chamber of Commerce recently was formally accepted and work will start immediately in tearing the building down and moving it to the fair grounds where it will be used.

The catalog and premium list will go to the printer in the next few days and will be off the press and ready for distribution to exhibitors about the first of July.

"We're counting on a larger number of community and county exhibits this year, together with more interest in the live stock and poultry departments of the fair," Geo. Benson, retiring president, stated Saturday. "All over the Panhandle and South Plains agricultural conditions are the best they have been in years, and farmers are raising more live stock and poultry. This is strictly an agricultural fair and we are going after this type of exhibits and expect to have the best exposition in this respect to be found among the regional fairs of Texas."

A nominatnig committee was apponited by the board to fill the places of thir retiring members of the board. Those leaving are Geo. E. Benson, president and W. O. Stevens, retiring, and Chris Harwell, deceased. Members of the board who are carried over till next year are Walter Myrick, Jr., E. L. Robertson, Norton Baker, W. H. Stanton, R. W. Blair, and S. E. Cone.

"The fair is strictly a Panhandle South Plains exposition, known over the entire Southwest as the "Show Chamber of Commerce and Retail Window of the Plains," Benson stated operation they are receiving from every community over the entire section to make the exposition a true representation of the Plains."

CALL IT CHARITY

Nothing annoys the average business man or merchant more than to be approached by someone soliciting an ad for a church, school or lodge program with the statement that "We want you to advertise in this." well knows it isn't advertising, and he also knows that in 99 cases out of 100 it won't do him a penny's worth of good. But he also knows that back of the solicitation is a threat, even though it may not be uttered, that "if you don't come across our crowd will of the trip to Amarillo in about three forget you when it comes to buying what you have to sell."

The fine spirit existing among Littlefield citizens, as manifest the game of baseball played last week between the "fats and leans" is worthy the highest commendation. SMALL TOWN STUFF"

The Country Gentleman and some other popular magazines frequently run a column which they label "Small and Ithink it sounds better." Town Stuff," and generally written by some gink who either misses the rediculous. But after all if it were days ago talking business. ·[=|=|=|=|=|=|=|=|=|=|=|=|=|=|=|=|=|=|= THE CROSSINGS.

The Leader has frequently called attention to the great need of crossings on Main street, thus enabling citizens to travel back and forward from either side of the street; but either through negligence, lack of ment to make whatever contributions It is just such spirit of co-operation funds or some other reason unknown the City Commission has yet failed to remedy the need.

During the rains last Saturday the condition was deplorable. Autos plunging through these mud holes splashed the water and mud on broadcloth and blue jeans, calico and silk ience accorded the public in trying to navigate from one side of the street to the other. A culvert or two and two or three crossings would not cost very much and the city treasury must be in a sad plight indeed if it can not provide such. Just two business concerns on the east side of the street year paid more than \$1,400.00 taxes to the city, yet whenever it rains they are practically ostracised and isolated from business because of a couple of mudholes and no crossings.

To say the least such condition is not equitable and just to tax payers and business men on the east side of the street, and the Chamber of Commerce is to be highly commended for its action this week in calling upon the City Commission to give the needed remedy.

Alas, some people's idea of a clean novie is a picture that is chock full of bathing girls. _.

STUCKEY, SUICIDE VICTIM, FOUND

T. E. Stuckey, a farmer living about four miles east of Littlefield, commited suicide some time last Saturday night, according to a verdict rendered at the coroner's inquest. The body was found Sunday morning by his wife and brother-in-law when they returned to the home.

According to information Stuckey evidently placed the muzzle of a 12gague shotgun in his mouth, pulling the trigger and blowing off one side of his head.

It is reported that Stuckey is an ex-soldier, having served in France, where he was wounded by shell, and since returning home had showed signs of mental turptitude causing frequent family frictions. The day before his death, it is alleged there was family trouble in which his brother-in-law took part, defending his sister, Stuckey's wife, from the brutal treatment of her husband, and it was upon the return of his wife and brother-in-law the next morning in an effort to seek a reconciliation that his dead body was discovered.

Considerable discussion ensued regarding condition of local sidewalks and streets. The two mudholes existing in the vicinity of the Ford garage and Butler Lumber Co., were soundly denounced and a resolution passed urging the City Commission to see to their eradication and the building of some crossings on Main street from the west to east side thereof.

There were further plans and discussion relative to the delegation from here that will go to Amarillo June 1st. Build Better with Sheetro

THE wallboard in greatest demand today is Sheetrock, the fireproof wallboard.

There is good reason for its ropularity.

Sheetrock is fireproof - made from rock. Sheetrock's easy to erect-you just nail it to the joists or studding. Sheetrock makes rigid, non-warping walls and ceilings at low cost.

Because of its rock-nature and tight joints Sheetrock will not harbor vermin or collect dust; it make for cleanliness and good health.

Sheetrock is ideal for repairs, remodeling and new construction. Ask us for a sample and prices.

EXPOSES WILES OF FAKE STOCK SALESMEN AND PROMOTERS

Latest Methods of Confidence Men Described by American Bankers Association Official - Declares That Shrewder Schemes Than Ever Before Are Taking Peoples' Savings.

> By W. R. MOREHOUSE, Public Relations Commission, American Bankers Association.

> > ARTICLE NO. I

MUCH of the distress of many people in America today is due, not to the fact that they have not had an opportuanity to earn and save money, but to the fact that they have lost

their savings in fraudulent schemes of one kind or another. Many a widow is in financial difficulty not because she was left penniless by her husband but because she lost her inheritance by investing it in "gold bricks." Many a bank depositor who once carried a fine balance is penniless today not because he did not know how to save but because he did not know how to invest. Perhaps if I relate some wild-cat promotions

that give an insight into the activities of investment sharks it will quicken a relentless determination to provide depositors with much needed advice in investment matters. I have come in personal contact with many cases, some of them al-

most unbelievable because of the very crookedness of the schemes the defraud, yet thousands of our hard-working savers have been led to invest their savings in these promotions. In giving the high lights of certain cases I am not draw-\$ lag on my imagination in the least, excitedly back to the derrick, wrench
