

NEW PAY IN ANDREWS, OTHER POOLS EXTENDED

Wildcats In Hockley And Gaines Counties Holding Attention

SAN ANGELO, July 9—Ray H. Rhodes and others' No. 1 E. W. Cowden opened a new field in southern Andrews county, Schermerhorn-Winton No. 1-A Cordova Union indicated a short eastern extension of the Web-Ray area in Upton county and Shell No. 2 Dora Roberts was completed as the third producer in the Walker area in southwestern Tarrant county and extended it a quarter mile northeast to furnish features of West Texas oil developments this week.

Sharpest interest among wildcats were Skelly No. 1 W. L. Ellwood estate in southeastern Hockley county and Riddle & Warr No. 1 Brown in Gaines county southeast of Seagraves, which logged lime markers, and J. T. Perryman, Jr., No. 1 C. H. Deak in Gaines, which recovered lime showing gas and oil stained and bleeding at intervals in coring to 4,994 feet.

Locations were staked for 37 tests in eight counties, three more

than the number in nine counties the week before, and 23 producers and two failures were completed in nine counties compared with 25 and three, respectively, during the preceding week.

Flows 1,061 Barrels
R. R. Rhodes, J. D. Tompkins and Walter Donnelly's No. 1 Cowden, Andrews county pool opener, flowed 1,061 barrels of 32.7 gravity oil in 24 hours with a gas-oil ratio of 1.029-1 after treatment with 6,500 gallons of acid in two stages, bottomed at 4,220 feet. It topped the pay at 4,163.

The well is 580 from the north, 2,310 feet from the west line of section 1-42-2n-T&P, seven miles south of the Fuhrman field in Andrews and five miles northwest of the North Cowden pool in Ector county. It is only one mile northeast of Sinclair-Prairie No. 2 Emma Cowden, only remaining producer of two that comprised the Emma pool, but the Sinclair-

SLAYER HANGED

Anthony Chebotar (above) was hanged in Milan, Mich., the first man to be executed in that state in 108 years. Chebotar, convicted on a federal charge of slaying during a bank hold-up, was hanged over the protest of Governor Murphy, whose state prohibits capital punishment.

Deep Well In Noodle Area Completed

Gauge Taken On Gas In Callahan County

ABILENE, July 9—Completion of Humble Oil & Refining company's deep discovery for the Noodle Creek field in southwestern Jones county and gauge of this area's largest gas well were features of the week's development here.

Humble No. 1 Riley Horton, offset to a well producing from Fisher county lime at 2,550 feet, was completed at a gauge flow of 15 barrels hourly through 3-4 inch choke and tubing from the Swastika sand at 2,915-32 feet, total depth, natural. The well is on the east side of the main field and in the northeast corner of section 40-18-T&P survey. Humble staked a north and east location for offsets, but announced no plans for immediate drilling.

Four miles to the northeast, Humble No. 1 Dallas Joint Stock Land Bank, in M. Fragoza survey No. 267, undermeasured pipe to a total depth of 2,705 feet after passing both the Noodle Creek and Fisher County limes.

40,900,000 Cu. Ft. Daily
First railroad commission gauge on the Petroleum Drilling company No. 1 Cook Jordan, Ordovician test in the Opila area of southwestern Callahan county, showed a rating of 40,900,000 cubic feet of gas per day on a 30-minute flow with gate valve barely cracked. There was no oil. The well is about a quarter mile south of the Hughes discovery completed in February for a small oiler with a high gas ratio, and is producing from Ellenburger lime with eight feet of porosity to a total depth of 4,417 feet. Location is in section 350, George Hancock survey.

Its east offset, Hughes, Cooper & Weeks No. 1 C. S. Straley, was preparing to shoot a section of saturation at 4,435 feet which is showing four to five million feet of gas and five to ten barrels of oil daily. Plan "Corehole."

Phillips Petroleum company has moved a portable rotary derrick about two miles to the east of the Opila production for drilling a scheduled 4,000-foot "corehole." No further information is being given out.

West outpost to the southern Haskell county Fardus pool, Canyon producing area, Forest Development corporation No. 1 Bankers Life Insurance company, cored in what was believed to be part of the Adams Branch lime section 124 feet lower on structure than the 1,500-barrel producer 962 feet to the east.

The outpost topped lime at 2,618 feet to recover a small amount of saturation at 2,852 feet and two drillstem tests without results. It cored ahead and reported another showing of oil at 3,000 feet, but Forest announced that it had contracted for continuing the test to the Palo Pinto lime, Avoca producing horizon. No. 1 Bankers Life is in J. F. Morgan survey No. 68.

Pumping unit was being erected at the western Fisher county discovery of Forest Development and Daube Brothers No. 1 L. G. Bennett, three miles southwest of Rotan, after it failed to flow from the Noodle Creek lime at 3,685-95 feet. A two-stage acid treatment failed to increase production. Forest Development staked location for a 1,320-foot east offset location, 690 feet out of the northeast corner of section 48-2-H&TC survey, but announced no schedule for spudding.

Test West Of Snyder Pool Abandoned

Three New Locations In Southeastern Howard Area

Plugging of the McElvain No. 1 O'Daniel, in the southeast quarter of section 28-30-1a, T&P, apparently defined the western limits on the Snyder pool in southeastern Howard county.

The test, located three-quarters of a mile west of production, was abandoned at 3,007 feet.

At the same time, Greene Production Co. drilled plugs on the abandoned Greene-Geity No. 1 Snyder, drilled eight years ago, and immediately encountered oil. Further cleaning out operations are pending the receipt of pipe.

Three new locations were noted in the area with the moving of the rig from the Moore Bros. No. 4-A Snyder to the site for the company's No. 6-A Snyder, 990 feet from the south and 1,650 feet from the west lines of section 29-30-1a, T&P. Eastland Oil Co. No. 1-B Snyder was staked as a direct west offset, 900 feet out of the southwest corner of the section. Moore Bros. No. 1-C TXL, 330 feet from the north and 990 feet from the west lines of section 33-30-1a, T&P, was staked as a quarter of a mile southwest outpost.

Baller Lost
Moore Bros. No. 1-B O'Daniel moved rig one location south for the company's No. 2-B O'Daniel, 2-310 feet from the north and 1,050 feet from the east lines of section 34-30-1a, T&P. Sun Oil Co. No. 3 Snyder, 2,810 feet out of the southwest corner of section 28, was rigging up.

Eastland No. 1-B TXL, in section 33, ran into more trouble when a second ball was lost 95 feet off

bottom during cleaning out operations. The first ball is still in the hole 18 feet off bottom at 2,814 feet.

Ajax No. 1 O'Daniel, 2,310 feet from the east and 990 feet from the north lines of section 34, drilled to 1,600 feet with a hole full of water. In the southwest quarter of the same section Moore Bros. No. 3-A O'Daniel drilled to 1,585 feet, while immediately north the Magnolia No. 7 O'Daniel was at 1,750 feet. One location west the Magnolia No. 6 O'Daniel passed the 2,000-foot mark.

Other Activities
Moore Bros. No. 8-TXL, completing the 80-acre discovery lease for the Snyder pool, was reported at 2,216 feet. Location is 2,310 feet from the east and 990 feet from the north lines of section 33-30-1a, T&P.

In the area between the Snyder and Chalk extension pools where Lockhart Petroleum Corp. has recently brought in three producers, the Lockhart Petroleum Corp. No. 2 Scott, 330 feet out of the southwest corner of section 86-29, W&NW, drilled to 2,345 feet. Lockhart No. 3-Scott, 330 feet from the north and 990 feet from the east lines of the same section, set surface pipe and moved in rotary.

E. S. Owen No. 1 Dr. J. G. Wright, rank wildcat test in the northwest corner of Howard county, was reported shut down at 1,375 feet in redrock.

Northwest of Stanton in Martin county, the Anderson No. 1 Dr. J. R. Vance wildcat test was drilling below 3,400 feet in anhydrite.

D. D. DOUGLASS, Manager

Big Spring, Texas

Foster, Sterling county wildcat 10 miles southwest of Sterling City, struck a hole full of salt water from 2,214-27 feet and shut down for 6 5-8 inch casing. Contract provides drilling 2,400 feet unless production is obtained or water in struck in the Clear Fork at a lesser depth. No. 1 Foster is in the northeast quarter of section 9-13-SPRR.

John W. Sward and others' No. 1 Brennan, northern Sterling county wildcat in the northeast quarter of section 107-2-HTC, had drilled to 2,220 feet in dolomite.

Coffield & Guthrie No. 1 E. E. Spear, Scurry county wildcat in the southwest quarter of section 130-97-H&TC, showed oil from 2,167-77 and from 2,290 to 2,305 feet. It bailed dry in 12 hours, recovering 35 barrels of oil, and drilled ahead below 2,420 feet in lime.

FORMER BOXER TO BECOME A MONK

CAMDEN, N. J., (UP) — Pat "Reds" Roland, once South Jersey's leading contender for the middleweight boxing title, has joined the Trappist Monks, a Catholic order whose members must maintain strict silence and forewear all contacts with the outside world.

Roland's decision to become a monk was announced by his former manager, Lew McFarland, who conducts a gymnasium here.

McFarland said his former fighter lost a decision to Jersey Joe Walcott in 1935 and then decided to quit the ring and seek his fortunes in the West.

The manager said Roland returned to Camden long enough to distribute a considerable amount of cash to his relatives and then set out for the Trappist Monastery. He said he was unable to account for Roland's desire to become a monk.

Funds Approved For Power Lines Along Colorado

WASHINGTON, July 9 (AP)—Representative Lyndon Johnson (D-Tex.) said today President Roosevelt has approved a \$7,000,000 PWA allotment for the Colorado River Authority to build power transmission lines and complete generating facilities at Marshall Ford Dam.

Johnson said \$5,000,000 would build transmission lines from Buchanan, Marshall Ford, Inks and Tom Miller dams in Texas cities signing contracts for power, and \$2,000,000 would be used to complete the Marshall Ford generating plant.

Austin is the only city which has signed a contract, he said, but more than 50 cities and towns have started negotiations and in most cases

Phillips Petroleum company has moved a portable rotary derrick about two miles to the east of the Opila production for drilling a scheduled 4,000-foot "corehole." No further information is being given out.

West outpost to the southern Haskell county Fardus pool, Canyon producing area, Forest Development corporation No. 1 Bankers Life Insurance company, cored in what was believed to be part of the Adams Branch lime section 124 feet lower on structure than the 1,500-barrel producer 962 feet to the east.

The outpost topped lime at 2,618 feet to recover a small amount of saturation at 2,852 feet and two drillstem tests without results. It cored ahead and reported another showing of oil at 3,000 feet, but Forest announced that it had contracted for continuing the test to the Palo Pinto lime, Avoca producing horizon. No. 1 Bankers Life is in J. F. Morgan survey No. 68.

Pumping unit was being erected at the western Fisher county discovery of Forest Development and Daube Brothers No. 1 L. G. Reduced reproduction of the Rogers Peet advertisement which appeared in New York newspapers on May 8 and 9

We confirm the rumor! Our business is ahead!

OUR sales volume for the first four months of 1938 is ahead of the first four months of 1937— with every indication that May will move along at the same pace.

There must be a reason!

THERE'S a very good reason. You see it's this way: If you go on trading for generations on the principle that your customer is entitled to "the best" as well as "the most" that a large organization can give him, sooner or later, most everybody comes to realize that "here's a place where you always get your money's worth—as much as your dollar can buy—often a little bit more—and sometimes a whole lot more".

Confidence!

If you've yet to "get to know the modern Rogers Peet", you will discover that character is as much a part of every transaction as modern style-smartness. You will like the friendly atmosphere of the Rogers Peet stores—the courteous and intelligent service. Come in and see why folks go out smiling . . . get acquainted with "Style Headquarters for young men, and men who never grow old"!

NEW YORK, N.Y.

May 19, 1938

Bureau of Advertising
370 Lexington Avenue
New York City

Gentlemen:

It is gratifying to be able to report that Rogers Peet business is ahead of a year ago...and that newspaper advertising has played a very large part in the increased sales which we are enjoying, even in these more difficult times.

Indeed, this business has been built up on newspaper advertising-- in the daily telling of our "store news" in the newspapers-- mostly in small, single column space, coupled in recent years with some larger display units to give added emphasis, pictorially, to the style-authority of the modern Rogers Peet.

We do not believe in confining our advertising to "sales" messages. We have found it good business to make generous use of institutional copy.

The basic theory of our advertising is-- if you say what you say, in a nutshell, and say it with a smile, you can build up a following who will look to your message daily and react favorably, provided of course, the merchandise and service are on hand to back it up.

Sincerely yours,

Robert M. Ferns
Robert M. Ferns,
Advertising Director.

OBJECT LESSON...

Rogers Peet, well known New York retailer of quality men's apparel, is going ahead, in spite of the times, Rogers Peet's sales volume is up, in spite of the times...largely through newspaper advertising.

Not through large ads entirely, mind you...but "mostly through small, single-column space". Not through sales announcements alone...but through "generous use of institutional copy". Not through spasmodic insertions...but

through frequent, regular messages (read Mr. Ferns' letter).

Rogers Peet's experience, which can be duplicated by many other advertisers, is a timely object lesson for other retailers everywhere...and for manufacturers of things that retailers sell. There is more business today for those who go after it with the right kind of newspaper advertising.

War-Scared Europe Unites In Safety Drive To Make The Homefolks Safe From Bombs

By WILLIAM McGAFFIN
AF Feature Service Writer
LONDON—Picture the soldier up in the front line trenches anxiously awaiting news from the folks back home and you picture the next war as experts see it.

It used to be the other way around. But that was before the perfection of bombing planes.

The boys in the trenches, if French or Italian, will know one consolation—they will know that the folks back in Paris and Rome probably got out of town ahead of the bombers.

If they are English or German, however, they may just have to pray that the air raid shelter held.

Head For The Hills
Mussolini already has urged every Italian who doesn't have to live in the cities to clear out when war comes.

The French have plans to evacuate more than half of Paris at the first sign of trouble.

The Germans think evacuation a good idea but are appalled at the job of planning. The British haven't yet made up their minds.

Mussolini is banking mainly on population dispersal because:

1. Italy's geographical vulnerability makes evacuation, in his mind, the most effective safeguard.
 2. The need for utmost economy in air raid precautions.
- Evacuation will be at the citizen's own expense unless he is too poor. He is to arrange to stay with friends in the country.

There are Italian plans for underground shelters but few have been built yet. The government leaves it up to the civilian whether he will have a gas mask.

The French plans for quitting Paris have been worked out so minutely they even include timetables and special railroad tickets ready for distribution.

Time Tables Ready
Evacuation will be voluntary. The idea, however, is to leave behind only a million and a half persons who will have to stay. (The population of Greater Paris is

about 5,000,000.)
The exodus will start on the second day after mobilization and be complete within 10 days. Free transport, housing and food will be provided wherever necessary.

Parisians who don't leave the city will be equipped with gas masks and will find refuge in the Metro (subway) and in 27,600 private cellars capable of protecting 1,760,000 persons.

Underground quarters have been built in Paris for skeleton staffs of all important government and financial agencies.

IF THERE'S AN AIR RAID
This is a picture from one of the government posters to teach people what to do during an air raid. People with masks are to wear them; others are to use wet handkerchiefs. Everybody is to go to the nearest public shelter. Other governments have plans similar to Italy's.

Warning sirens are blown regularly to make sure they're working and to attune the public ear to the signals.

German Attics Cleared
In Germany, the Air Protection League organizes and instructs the people in the protection of their homes.

Each of the league's 13 million members pays a mark a year for membership, swelling the precautions pot by more than \$5,000,000 annually.

There are 2,000 local training schools, each of which has a fire house where civilians are taught how to put out bombs and fight fires.

Attics have been cleared of inflammable litter, and war time plans call for a woman in each attic to extinguish incendiary bombs as they fall.

Public shelters for 80,000 persons have been built at points of unusually heavy traffic in Berlin. The program calls for shelters accommodating 40,000.

Each householder is expected to set aside a room, preferably the cellar, to be made raid proof at the landlord's expense. Few have been fixed yet.

No plans have been made for evacuation because of the prod-

igious problem involved but some sources are urging that it be tackled soon.

The public is compelled to buy gas masks which cost approximately \$2 apiece. Five million have been distributed in vulnerable areas of 100 towns.

Britain Gets Busy
The Germans declare everybody in Berlin knows what to do if an air raid should start tomorrow.

That's more than you can say for London.

Public apathy and government indecision combined to make Britain's ARP (Air Raid Precautions) a complicated muddle.

But now the government has set an end-of-summer deadline for the enrollment of a million volunteers and the completion of an ARP organization in every important area. An ARP "dictator" has been appointed.

Up to recently only 40,000 volunteers, by the highest estimates, were enrolled. Approximately one-third of these are trained, another third in training.

Millions Of Masks
The London County Council is considering evacuating the 500,000 schoolchildren in greater London. But such a scheme would only come under a city-wide policy of evacuation, which the government is not sure would be feasible.

At the moment it is emphasizing a shelter program along German lines. Householders are urged to equip one room as a refuge, or, if they can't spare the space, to dig a six-foot trench in the garden. The government plans to dig long trenches in public parks.

In such shelters, people would have to wear gas masks, and Britain leads the world in mask manufacture. Thirty million (includ-

Regenerated Man Discussed Before Revival Crowd

Spendid crowds are attending the open air revival services being conducted by Rev. Horace C. Goodman, pastor of the Fundamental Baptist church at Fourth and Benton streets. Rev. Goodman addressed a large audience Friday evening on the topic, "The Two Natures of the Regenerated Man." Following the text, "That which is born flesh is flesh, and that which is born of the Spirit is Spirit" (John 3:6), the minister said in part:

"Here we see two lines of heredity, the flesh line and the spirit line. The scriptures speak of the flesh line as the Natural man and the spirit line as the Spiritual man.

"Of the natural man the scriptures say, 'That his understanding is darkened.' Eph. 4:18; that he cannot perceive the things of God, for they only are spiritually discerned. (1 Cor. 2:14).

"That the natural man is a child of wrath. That he is at enmity with God, and can not please Him, that his heart is deceitful and desperately wicked. That he is spiritually dead and there is no good thing in him.

"The natural man without supernatural help cannot change his character.

"The spiritual man has a divinely imparted life and is born of God. Through the Seed the word of God vitalized by the Holy Spirit, his New Birth imparts a 'New Nature'; this nature is Spiritual, and cannot sin. Whosoever is born of God doth not practice sin,

ing a device for the tiniest baby) already have been stored. They can be distributed within eight hours.

Air raid wardens in scattered areas are conducting house-to-house canvasses, giving instruction and fitting masks. Ultimately, every house in Britain is supposed to be visited.

for His seed (life) remaineth in him; and he cannot sin, because he is born of God. (1 John 3:9).
"This new spiritual nature is called 'Christ in you'; and is 'hid with Christ in God.' And bears fruit unto God. Is a new creature in Christ.

"Now after a man has been born again, he doesn't get out of the flesh but becomes a 'dual nature.' For the flesh lusteth against the spirit; and the spirit against the flesh, and these are contrary the one to the other; so that ye cannot do the things that ye would."

(Gal. 2:27.) This is the spiritual dwelling so vividly portrayed by the Apostle Paul in Rom. 7:14-25.
"But thanks be to God we (that are born again) now overcome the natural man (flesh) by the spiritual man."

RE-ELECT C. V. TERRELL RAILROAD COMMISSIONER (Democratic Primary July 23, 1938)

The need for continuing the services of an experienced man on the Railroad Commission of Texas, should insure the re-election of C. V. TERRELL, its present Chairman.

His policy of oil and gas conservation has added millions of dollars to the permanent school funds, and should not be disturbed.

His successful efforts for lower freight rates on livestock, cotton, and other commodities have greatly benefited Texas.

Thousands have profited from his orders lowering gas rates to the consumer.

His honesty and efficiency in office are unquestioned.

His devotion to the cause of Texas education has characterized his entire public career.

100% in favor of organized labor.

Brother And Sister End Long Separation

MONTREAL (UP)—A brother and sister have been reunited here for the first time in 34 years.

They are Mrs. A. Banks, of Montreal, and Dr. A. Hearn, of South Africa.

Mrs. Banks left England as a child to come to Canada 34 years ago, leaving behind her 8-year-old brother. The brother, Dr. Hearn, grew up and went to South Africa, where today he practices in Cape Town.

CIVIL WAR VET AT PLAINVIEW DIES

TULSA, Okla., July 9 (AP)—One of the few remaining Civil War veterans here, Robert A. Wyly, 91, died today in a hospital after a short illness attributed in part to stomach poisoning which also struck his 76-year-old wife and a son, H. A. Wyly, who lived with them.

The three became ill yesterday. Mrs. Wyly's condition was considered critical late today.

The elder Wyly lived in Texas 60 years before coming here 12 years ago.

Survivors include two brothers, George and Oliver Wyly, both of Plainview, Tex.

STATE SHOWS GAIN IN DISBURSEMENTS

AUSTIN, July 9 (AP)—State business showed little signs of recession in June when disbursements by all departments totalled \$28,816,028, an increase of approximately \$16,000,000 over May. Receipts aggregated \$22,612,618.

A statement from the comptroller's office today showed a balance July 1 in all state funds of \$20,893,626, despite large deficits in the general funds and Confederate pension fund.

Balances included \$11,550,299 in the highway fund, \$3,965,916 in the permanent school fund, \$7,981,282 in the county and road district highway fund, \$2,956,916 in the highway motor fuel tax fund and \$1,415,948 in unappropriated cash from tax collectors.

OIL FIRMS CITED FOR NEW PRICE FIXING TRIAL

WASHINGTON, July 9 (AP)—Joe Lewin, special assistant to Attorney General Cummings, said today that five oil companies and 10 individuals summoned to testify before a federal grand jury at Madison, Wis., were "only the first" facing subpoenas.

The grand jury, he said, will be asked to investigate complaints of anti-trust law violations by mid-western oil companies.

The alleged violations involve the "same kind of subject matter"—price fixing—that was raised in the recent Madison oil cases, Lewin said.

Lewin, who will present the government's case to the grand jury July 20, said additional subpoenas would be issued "when the time comes."

New York and Wisconsin are the principal cheese-making states.

Big Spring Herald Today and Tomorrow By Walter Lippmann

(Mr. Lippmann's column is published as an informational and news feature. His views are personal and are not to be construed as necessarily reflecting the editorial opinion of The Herald—Editor's Note).

Hollywood LOVE ON THE RANGE

Sights And Sounds by ROBBIN COONS Chapter Eight MASQUERADE While Lee Trone went off to meet his friends, and take them to luncheon, Blur Ankrum took himself to a small restaurant on a side street labeled, "Greasy Spoon," and put some grub under his own belt. It was, therefore, in a fairly cheerful frame of mind, considering the prospect of trouble that lay before him, that he returned to the car and gave himself up to speculation concerning the appearance, habits and characters of those old friends of his—the Struthers.

THE FLIGHT OF THE SOUTH

As most Southerners have known all along, but to which they have closed their eyes because of a false pride, are the specific economic ills affecting Dixie which were emphasized this past week in a report to President Roosevelt by a special committee of experts. This group analyzed the South's economic status and found a good many things wrong—enough things to make it appear that Mr. Roosevelt is right in his concern over the economic condition of the nation's "No. 1 economic problem."

THE MORAL CLIMATE OF EUROPE It may be said without exaggeration or cynicism that, as Secretary Hull sees the world, there is no law in Europe governing the relations of the great powers. Contracts and understandings among governments, whether they be the Covenant of League, the Briand-Kellogg pact, treaties of aggression or of mutual assistance, debts, axes or alliances, are as good as and no better than day to day than Lippmann seems expedient.

Man About Manhattan

NEW YORK—The quality of gab in New York is not strained. It falls as a cloudburst from Heaven upon the Broadway stubs beneath. You have only to thrust your head into a bar and 40 back-room philosophers are fuming the latest gags into your ear. And most of them are pretty bad. That's why it is so easy to get pun-drunk! But you have to listen. If you don't, the time may come when the boys naye something worthwhile to say, and then they are apt to pass you by. When this happens, the only way you find out what is happening is by reading it in your rival's column.

Daily Crossword Puzzle Solution of Yesterday's Puzzle

Grid for crossword puzzle with numbers 1-51 and corresponding words listed in 'ACROSS' and 'DOWN' sections.

1) No other similar area in the world gambles on a single crop as the South does on cotton. Southern farmers receive less than one-third of the total farm income, although they constitute one-half of the total fur population.

Now what he said may or may not be the fact. But this conversation illustrates the state of mind one acquires in the present climate of Europe. For though both of us respect and greatly like France, it never occurred to either of us even to mention the fact that France is bound to come to the assistance of Czechoslovakia by a solemn treaty and by every recognizable criterion of national honor.

2) Agriculture is unable to provide adequate income for the South's workers. Expansion of industry there has been inadequate to absorb workers who have moved from farms to cities.

It goes without saying that if this is the moral climate in which one thinks about the relations of two liberal democracies, as regards the rest of Europe and Asia, it would seem reasonable to believe that of the great dictators from Berlin through Moscow to Tokio are bound by anything but necessity and interest or that there is any limit to their purposes except the lack of force needed to execute them.

And yet it is reasonably certain that they speak so violently because they feel fairly confident that for the time being their words are not going to provoke a major war.

KEEP COURTHOUSE PROJECT IN MIND Future outcome of the proposal to erect a new courthouse for Howard County depends, of course, upon the plan of the commissioners' committee's application with PWA. That government agency, now considering other applications in its haste to release "pump-priming" funds, may not act on the Howard county case in some months.

Peace, as men understand the word in Europe today, means only that the armies, navies, and air forces of the four major powers are not to be let loose against each other. The whole effort of diplomacy on both sides is to confine the struggle to subsidiary regions, and to keep the contest from getting beyond the stage of partial intervention, gun running, subsidies, propaganda, intrigue, and agitation.

There have been submitted the alternative plans of voting bonds for financing the local share of the project, or of selling a part—or all—of the courthouse square and using the money thus derived to pay the county's debt. However, neither of these plans is likely to give the county the benefit of the bond issue, and let them know how they should proceed.

For the atmosphere of Europe in July, 1938, was in no respect as serene as the atmosphere today. In those days, when the peoples still had freedom of speech, their rulers spoke with the greatest restraint until war actually broke out. In this Europe the peoples are comparatively restrained in Britain and France and are almost dumb where but their voices talk in times of peace as soon as to talk only in the worst hysteria of wartime.

JOHNSON TO SPEAK AT TEXARKANA WASHINGTON, July 9 (AP)—Louis Johnson, assistant secretary of war, and one of the most active creators of the "Bible cabinet," leaves Sunday on a 10-day social transatlantic spearing and impromptu tour.

WANTS TO MARRY

CAIRO, Egypt, July 9 (AP)—Prince Abdul Moneim, 39-year-old second cousin of young King Farouk and heir to a \$50,000,000 fortune, has asked the Egyptian monarch for permission to marry Princess Myzeen, 28-year-old sister of King Zog of Albania.

LEGAL NOTICE

SHERIFF'S SALE

THE STATE OF TEXAS,
County of Howard

NOTICE IS HEREBY GIVEN
That by virtue of a certain Order of Sale issued out of the Honorable District Court of Howard County, on the 11th day of June 1939, by Hugh Dubberly of said District Court for the sum of Twelve Hundred Sixty-five (\$1265.00) & 00/100 Dollars and costs of suit, under a judgment rendered in favor of George C. Frazer, Jr., George L. Burr and David H. McAlpin in a certain cause in said Court, No. 3230 and styled Frazer, Burr & McAlpin vs. Fox Striplin, et al., kindness, untiring service and gifts given us following the destruction of our home in a recent cyclone. We especially wish to express our thanks to the following organizations: The American Red Cross, the Rebecca Lodge of Big Spring, the American Legion and the Eastern Star of Coahoma.

To our many friends and neighbors who were so kind and helpful during our illness, we wish to express our sincere thanks. May God's richest blessings rest on each of you.

(Continued from Page 1)

Monday for Waco to attend the Texas Florist convention to be in session there five days.
Mrs. J. L. Terry left Saturday for Range, Texas, for a visit with her parents. She will return September 1.
Mrs. George Wilke left a few days ago for Seattle, Wash., where she will spend two months with her sister, Mrs. Guy Farborough. She planned to stop in Los Angeles and San Francisco for brief visits.

W. J. Hannaford is a visitor in Clyde this weekend.
Mrs. J. E. Sullivan and daughter, Mary Frances, of Magdalena, N. M., are guests in the home of Mr. and Mrs. A. M. Underwood.
Hazel Smith, student of T.C.U. this summer, is here for the weekend with her parents, Mr. and Mrs. N. C. Bell.
Mr. and Mrs. W. E. Hornbarger are leaving Monday morning for Long Beach, Calif., where they will spend a month's vacation. They plan to visit in Santa Catalina island, making the trip from the mainland by airplane. This will mark the Hornbarger's 20th trip to California for vacation.
Mr. and Mrs. Buck Richardson, accompanied by their niece, Margaret Ann Steele, left early Sunday for Abilene where they were to

be guests at the wedding of another niece, Emma Rose Stewart.
Mr. and Mrs. Elmer Bostler left Sunday for Mineral Wells for a week's vacation. Their daughter, Kathleen, has gone to Fort Stockton to enter a girls' camp.
Mr. and Mrs. Harvey Rix, Mr. and Mrs. Randall Pickle and children, Joan and Don, Mr. and Mrs. Chester Matheny, and Mr. and Mrs. Joe Pickle left Sunday morning for a vacation trip to points in Northern New Mexico.
Dr. and Mrs. W. B. Hardy and two sons, Wofford, Jr., and Jimmie, returned Saturday evening from a vacation trip through California and Pacific northwest states.
While in San Francisco, Dr. Hardy attended sessions of the Kiwanis International convention, to which he was a delegate from the Big

Spring Elwanah club.
Mr. and Mrs. Paul L. Hamilton and son, Billy, of Fort Worth are guests this weekend of their mother, Mrs. James Currie.
Hospital Notes
Big Spring Hospital
Mrs. M. Hamilton, 805 Johnson street, who underwent an appendectomy nine days ago at the hospital, returned to her home Saturday.
Mrs. Clyde Grable of route 1 Big Spring underwent major surgery at the hospital Saturday morning.
Primo Valenzuela of Fort Stockton was admitted to the hospital Saturday for treatment.

Foundmaster Does Duty And Violates 2 Laws
ALAMEDA, Cal. (UP)—Foundmaster Thomas Ross is in the embarrassing position of having violated the law in the performance of his duty.
Called by a housewife to protect her ducks from a strange bird that was attacking them, Ross spied the bird in a nearby tree. He decided it was a chicken hawk and promptly shot it. The bird later was identified by the curator of the Snow museum as a black-crowned night heron, which is on the protected list of both state and federal game laws.
The family name of the English royal house was changed from Wettin to Windsor July 17, 1917.

Delegates To Short Course Leave Monday
Contest Winners Announced At Council Meeting

Last-minute instructions to the delegates who are to leave Monday for College Station to attend the Texas Home Demonstration convention and short course at College Station, were read before a meeting of the Howard County council Saturday afternoon by Mrs. A. R. Rude in the form of a message from Miss Helen Swift of the extension staff.
The council decided to have an all-day meeting with a picnic at the city park July 30 for the purpose of hearing reports of the College Station delegates. The group also decided to have a two-day encampment at Christoval Aug. 11-12 and appointed Mrs. J. W. Phillips, Jr., chairman of the recreation committee for the occasion.
Winners of the reporters' contest which closed July 2 as announced by Mrs. Duke Lipscomb were Mrs. Frank Tate, Overton, first; Miss Mary Brown, Vincent, second; and Mrs. C. A. Ballard, Chalk, third.
Mrs. Hart Phillips, Jr., was appointed chairman of the delegates to College Station which include Mrs. Ben Brown, Mrs. A. R. Rude, Mrs. Frank Montgomery, Mrs. L. C. Mathies, Miss Mary Brown and Mrs. J. W. Phillips, Jr.
Mrs. J. W. Phillips, Jr., was appointed as chairman of the arrangement committee and Mrs. H. C. Reid, chairman of the invitation committee for the all-day meeting at the park.
Mrs. Ross Hill gave an interesting talk on the care of the dependent child in the home rather than in an institution.
Present were Mrs. H. C. Reid, Mrs. A. D. Martin, R-Bar; Mrs. L. C. Mathies, Mrs. Shirley Fryar, Mrs. Jim Millan, Hiway; Mrs. A. W. Thompson, Mrs. J. M. Wilson, Mrs. C. A. Coffman, Coahoma; Mrs. C. A. Ballard, Mrs. Rude, Mrs. O. N. Green, Chalk; Mrs. S. T. Johnson, Mrs. J. W. Phillips, Jr., Knott; Mrs. Ed J. Carpenter, Mrs. Ben Brown, Mary Brown, Vincent; Mrs. W. H. Ward, Mrs. J. G. Couch, Mrs. G. J. Couch, Fairview; Mrs. Ross Hill, Mrs. Hart Phillips, Jr., Overton; Mrs. Lipscomb, Elbow; Mrs. Frank Montgomery, Center Point; Mrs. Myrtle Sprull, Luther; and Annie Merle Mathies, Hiway.

PERSONAL ITEMS FROM STANTON

STANTON, July 9—Mr. and Mrs. John Pinkston and son plan to spend the weekend in Abilene, where they will attend the family reunion of the Angel family, relatives of Mrs. Pinkston. The reunion will be held at the Abilene state park.
Rev. Fred McPherson, pastor of the First Baptist church, and Mrs. McPherson are in Leaders attending the Baptist encampment.
Rev. and Mrs. Raymond Van Zandt are in Blackwell, Texas, where Rev. Van Zandt is conducting a two weeks meeting.
Mr. and Mrs. J. E. Moffett and daughter, Mary Sue, have just returned from a trip to New Orleans, where they spent the Fourth.
Mr. and Mrs. Phil Berry left Wednesday for Cisco where they joined Mr. Berry's parents, Mr. and Mrs. J. T. Berry, for a trip to Lufkin, Houston and New Orleans. They plan to be gone a week.
George Blocker and Ladd Laws returned recently from an extended tour of the Northwest and the Pacific coast. They visited Washington, Oregon and California and other western states.
Mr. and Mrs. George Bond, Jr., are spending a few days in College Station where Mr. Bond is attending the short course being conducted at A. and M. Bond is county agent for Martin county.
Mr. and Mrs. O. B. Bryan spent last weekend in Lubbock, guests of Mrs. Bryan's sister, Mr. and Mrs. Ike Kennedy. John Ike Kennedy returned with them for a visit here.
Mrs. P. L. Daniel and children accompanied her parents, Mr. and Mrs. Roy Ebberson, to their home in Abilene, where she will remain for a three weeks visit with them.

duties were! This is either fantasy or whimsy.
The mere enumeration of the principal characters requires more than four pages, and a list of the firms in the book runs a bit more than a page. The effort of keeping all these straight is more than the average reader of intelligence will want to take on—after all, there are plenty of good books which aren't constructed like mail order catalogs.
The word "good" was used advisedly. Miss Stead's elephantine financial fantasy has one very great virtue—its people are amusing, though too much alike. The aphorisms and epigrams fall like seeds from a maple in spring, but they are often very effective in their way. The situations strain one's credulity very much, and because Miss Stead is at heart a kind of literary Maude Adams with a taste for whimsical sex instead of plain whimsy, one often is unable to decide just what the situation was intended to be, and whether Miss Stead herself knew at the time of writing.
Lastly, "House of All Nations" is done in 104 "scenes," and it is a literary tradition that if you call your chapters "scenes" they don't need to follow each other logically. Miss Stead takes full advantage of this convention. Perhaps "House of All Nations" is really several books of short stories....

History Papers Room
ROCK ISLAND, Ill. (UP)—Front pages of newspapers showing big news breaks from 1961 to 1938 provide a unusual wall covering in a hotel here. Because it would be impossible to duplicate most of them, the owner is negotiating for their insurance.

READING AND WRITING
"HOUSE OF ALL NATIONS," by Christina Stead (Simon & Schuster; \$2).
The theory about Christina Stead's latest book (as stated by her latest publisher) is that she has abandoned fantasy and written a fictional study of the shadier side of high finance. This proves, upon examination of Miss Stead's 706-page book, to be one of those shining soap-bubbles publishers delight in puffing out. "House of All Nations" is a fantasy if (the reader ever saw one.
If it has a central core (a possession the reader may come to doubt through long spaces of the "novel") it concerns the banking house, so called, of the Bertillons in Paris. But whether you can believe it or not, Miss Stead late in the novel actually asks you to believe that the oldest employees of the bank not only didn't know anything about its affairs, which is conceivable, but didn't know who the officers were or what their
