The MOOSE

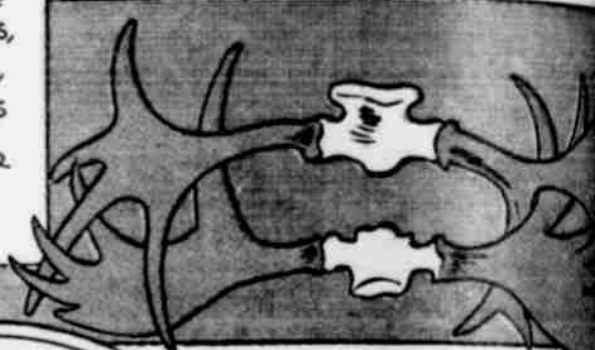

IS FOUND IN THE WOOD-ED AREAS OF NORTHERN NORTH AMERICA, AS FAR SOUTH AS MAINE, MINNESOTA AND WYOMING! TO THE NORTHERN INDIANS IT HAS SERVED AS THE STAFF OF LIFE FOR CENTURIES... FURNISHING BOTH MEAT AND HIDES.

BESIDES EATING TWIGS AND LEAVES FROM HARDWOOD TREES, THE MOOSE ALSO IS FOND OF WATER PLANTS, AND FREQUENTLY DISAPPEARS COMPLETELY UNDER WATER IN SEARCH OF THEM.

THE ANTLERS OF FIGHTING MOOSE SOMETIMES BECOME LOCKED, AND BOTH BATTLEERS DIE A LINGERING DEATH.

MOOSE HUNTERS PAY CANADA ABOUT TWO MILLIONS OF DOLLARS YEARLY FOR LICENSES, RAILROAD FARES, SUPPLIES, ETC.

FOSSIL BONES SHOW THAT IN PREHISTORIC TIMES, A MOOSE WITH ENORMOUS ANTLERS RANGED FAR INTO THE UNITED STATES.

MANY A BULL MOOSE HAS BEEN LURED TO ITS DEATH BY HUNTERS WHO, WITH BIRCH BARK TRUMPETS, IMITATE THE CALLS OF THE COW MOOSE.

ND ELECTION
TO BE HELD
WEDNESDAY

To Pass On Water-
Works Extension
Plan

election has been called for
Friday, August 29, in which the
city tax payers of the City of
Littlefield are asked to vote on the
question as to whether or not the
Commission shall be authorized to
issue revenue bonds in the amount
of \$100,000, the proceeds of which
are to be used in making necessary ad-
justments and extensions to the water
supply system.

Approximately thirty percent of the
cost of labor and material will be
paid by the city, and the balance to be
paid by revenue bonds, drawing
three percent interest, and maturing
in a period of thirty years from
1934.

In view of the situation the Little-
field City Commission have made
the following statement:

These bonds cannot be paid from
city funds and no tax levy for their
purpose will be permitted by the
Commission, should the city commis-
sion desire to levy a tax, which is
prohibited. These bonds must be paid
from revenues from the water de-
partment, and we are of the opinion
that this can easily be done. At pre-
sent the fuel cost of pumping water
through the stand pipe, ready for sale,
is .049 per 1,000 gallons. The
engineer has figured that under
the present set up this water can be
pumped into the stand pipe for .013
per 1,000 gallons, and these figures
have been checked and approved by
engineers for the government.

Saving in fuel costs will prac-
tically pay the interest and sinking
on the bonds, without taking
into consideration the increase in
costs that will naturally come

LITTLEFIELD BANK READY TO MAKE REPAIR LOANS TO PROPERTY OWNERS

NEW THEATER WILL BE OPENED FRIDAY

PERFECT SOUND AND PROJECTION AT NEW RITZ

"Operator 13" Is Chosen As Feature Picture For Opening Night

Littlefield's new motion picture
theater — the New Ritz — will open
this Friday night, presenting as the
chief attraction "Operator 13", a
screen adaptation of the famous novel
by Robert W. Chambers.

The New Ritz, owned by the Ches-
her interests and which will be oper-
ated by them, gives Littlefield two
motion picture houses and total the-
atre seating capacity of 1150, as the
new house will seat 450 persons.

Two motion picture theaters — the
Palace and the New Ritz — will give
to the people of Littlefield and ter-
ritory a wide range in motion picture
entertainment. Both theaters will be
operated as first class houses, offer-
ing the best in pictures as has al-
ways been the policy of the Palace.
However, the admission scale will be
10 cents and 25 cents top at the New
Ritz.

For the balance of the summer the
New Ritz will be operated on Tues-
day nights and matinee and night
on Saturday and Sundays.

Doors will open at the New Ritz at
8 p. m. Friday, and two complete per-
formances will be offered.

New Theater Very Modern

The New Ritz is located in the for-
mer Burleson Furniture Co. build-
ing, which has been completely re-
modeled and decorated, and has been
so constructed as to make possible
the bringing out of the best in sound
and projection. While not a large
house, the New Ritz will offer better
sound and projection than is found
in many of the large houses in some
of the large cities. This has been af-
fected largely through the wide ex-
perience of the Chesher in the opera-
tion of motion picture houses.

The new house has been equipped
with the new wide range high fidel-
ity RCA-Victor sound system, Peer-
less low reflector lamps, a new sound
screen, Powers projectors, and new
opera chairs. All decorations are of
modernistic design, and the color
scheme is in harmony even to the
beautiful floor rugs.

The front of the building is being
stuccoed temporarily. However, at a
later date black carrarra tile glass will
replace the stucco to carry out the
modernistic design and treatment of
the interior.

W. J. Chesher To Be Manager

The New Ritz will be under the
management of W. J. Chesher, who
will also continue in active charge of
the Palace theatre. Mr. Chesher has
spent his entire business life in var-
ious branches of the motion picture
business, and has given to Littlefield
in the Palace theater a house which
always shows the very latest in pic-
tures, often times bringing to Little-
field theater entertainment even be-
field theater entertainment even be-
fore it is presented in the larger
cities. He is being congratulated and
commended on his latest addition to
theater entertainment for the peo-
ple of Littlefield and district, and the
people of this city and territory are
looking forward with much interest
and pleasure to the opening of the
New Ritz.

VOL. 13 LITTLEFIELD, LAMB COUNTY, TEXAS, THURSDAY, AUGUST 23, 1934 NUMBER 2

A Plan for the Building of New Homes in Littlefield

People can't live in a town unless there are houses for them to live in. And it has come to the point where Littlefield is filled to the saturation point as far as the ratio of houses and people are concerned. It needs more houses.

The growth of the business district this year has been admirable and several fine buildings now help distribute business and give an air of expansion to the city. But the growth of the residential section has failed to keep pace. Several homes have gone up, but the number has not been sufficient to meet the demand.

New residents coming to the city have difficulty in getting a place to live, and have little choice in the selection of what they do get.

Money for home building has been and still is scarce. Many people who have small houses here would rebuild or remodel if they were able. Many people would build houses for an investment as rent houses if the cash and credit were available.

That circumstance is now possible. Under the government Housing Act, The Federal government will match every local dollar for building with at least three federal dollars and in some cases with as much as \$4.40.

A movement is under way in Littlefield now to organize a local building association under Federal regulations to meet the building needs and to avail Littlefield of the Federal building money.

For a town the size of Littlefield, the association charter calls for at least 30 members subscribing at least \$25,000, of which \$2,500 must be paid in at the time of receiving the charter. The government would then subscribe \$7,500 to match the local money. On this amount 35 per cent could be borrowed from the Federal Home Loan Banks. This would give better than \$13,000 to be spent in Littlefield. As the local investment increased, the Federal aid would keep pace in the same ratio.

The home builder would be able to borrow this money on lien against the property and improvement at a fair rate of interest and pay it back over a period of from 5 to 20 years. The investor would be paid a fair rate of interest for the use of his money.

And Littlefield would have more houses and better homes for her citizens. And if the association did not wish to borrow from the Federal Loan banks, another plan to obtain additional capital could be used: When the \$10,000, or any part of it had been loaned, the paper could be sold to the Federal Home Loan Board.

Calvin Henson has obtained the information and legal papers necessary to form an association in connection with the above government aid plan, and will be pleased to discuss the matter with all persons who are inter-ested.

Daredevil Rider Crashes Board Wall Here Sunday Last

Johnnie Holden of Fort Worth, daredevil motorcycle rider and stunt performer, appeared here in an exhibition Sunday afternoon at the ball park where he drove his motorcycle at 60 miles per hour through a solid board wall.

A large crowd witnessed the per-
formance.

A large number in the crowd were taken up in the four airplanes brought here for the demonstration.

Mr. Holden and his associates also gave stunt performances in airplanes which included wing walking, ribbon cutting, balloon bursting, stunt flying, etc.

Panhandle Rain Brings Cooler Weather Here

The heat wave in this section was broken last evening with clouds hanging low and a cool breeze blowing from the northwest. Although every indication was that a heavy rain would fall, only a light shower came.

Reports received this morning in-
dicate a quarter of an inch rain fell at Hale Center and getting heavier as it extended northwest 1 1-2 inches at Canyon.

Monday night the North Panhandle reported rain, Canyon receiving more than an inch. A quarter of an inch fell across the Panhandle from Amarillo to Arrian. Showers also fell at Channing, Tascosa, Claude and Clarendon.

Election Results To Be Available In Littlefield

Results of next Saturday's elec-
tion will be available in Littlefield. A black board will be set up, and the results posted as rapidly as they are available.

This is the same program as was carried out for the first primary. There is much interest in the remaining county and precinct races and in the state contests, particularly for the office of governor.

Efforts will be made to obtain as extensive state returns as possible.

Two Muleshoe Men Charged With Theft

H. Sterling and Jack Payne were arrested at Muleshoe and brought to Littlefield by Deputy Sheriff Walraven.

Sterling has been charged with the theft of clothing and passing worthless checks. Payne was charged with being drunk and with theft of clothing. He was fined on the drunk charge in Justice of the Peace B. L. Cogdill's court.

The charges of theft and passing worthless checks against Sterling and the charge of theft against Payne will be acted on by the grand jury, which will reconvene at Olton Friday.

Local Bank Among First In Nation To Pledge Cooperation

The First National Bank of Little-
field is listed among the first of hun-
dreds of banks and other financial
institutions throughout the nation to
pledge their support and cooperation
in the federal government's plan to
stimulate home repairing and remodel-
ing by issuing "character loans" of
from \$100 to \$2,000 to property owners.

These loans are now available, J. C. Hilburn, president of the Littlefield bank announced, to persons of this section who are in condition to repay the loans in regular monthly payments, or annual payments may be arranged by farmers.

To Draw Five Percent Interest

The loans shall be made at the rate of five per cent interest and the funds can only be used for additions, repairs and maintenance of property.

The notes on the loans may be made to run for any number of months from one to three years. Notes extending from 37 months to

MAN SENTENCED FOR THEFT HERE ESCAPES JAIL

Stalcup Gets 10 Years For Stealing Car From Local Garage

Clarence Brown and Virgil Stalcup who were held in the Littlefield jail for several weeks, and who were tried in the district court at Olton on Wednesday of last week, and were taken to Dickens that same day by Sheriff Len Irvin and State Ranger Driscoll Irvin, escaped from jail there, Saturday morning. They were still at liberty late yesterday.

Stalcup was sentenced at Olton to 10 years imprisonment for the theft of a car from the Hewitt Chevrolet Co., in this city. He previously had sentences totaling 254 years.

Brown was tried at Olton, but was not found guilty.

Lacy Wingfield, a prisoner in the Littlefield jail for the past month, was given a nine year sentence in connection with the theft of the car from the Hewitt Chevrolet Co. He was brought to Littlefield from Wichita Falls for trial at Olton by Sheriff Irvin.

Wingfield will be sent to Huntsville at an early date to serve his sentence according to Deputy Sheriff J. L. Walraven.

Stalcup and Brown at the time of their escape, were awaiting trial at Dickens for the alleged robbery of a bottling company's truck driver of \$100 near that city three months ago. They were scheduled to be tried Monday of this week. Both men were captured at Lawton, Okla.

THE LITTLEFIELD BAND

The Littlefield High School Band — the only band that Littlefield boasts — was organized some time ago by A. B. Taylor, who has been putting in some real consistent work in training the members, although during the summer months, with such a number absent from time to time, he has not been able to accomplish what he would like to, yet he has kept them pretty well in line, and expects to have a real live organization this fall.

A band is a worthy organization. Besides the publicity it brings a city, it also creates good will. There are very, very, few people who do not enjoy good music.

What a splendid encouragement it would be to our loyal group of musicians if we would all use our best endeavors to attend the concerts. We know the boys would play better, and that others would become interested and join the group, and that it would not be long before the bandmaster would have at least one-hundred members—and what a splendid boost it would be, not only to the band, but to the city as well.

Let's go — let's get behind the Littlefield Band — and watch it grow.

EIGHT YEARS AGO IN LITTLEFIELD

(Excerpts from Lamb Co. Leader)

Judge R. C. Hopping, general sales manager for the Spade Lands, reports the sale of 18 quarter section farms last week, farms being purchased mostly by farmers from Oklahoma and Central Texas.

Rain in abundance has fallen all over the South Plains country during the past week, and in the Littlefield vicinity there have been sufficient to insure the perfect production of all growing crops.

At the Chamber of Commerce directors meeting held here Tuesday W. G. Stret was unanimously elected as temporary financial secretary with salary of \$25 per month for his services. T. S. Sales, Aryan and Gas Shaw were appointed a committee to secure premium money for the first bale of broom corn brought to market this year.

Chas. Touchan of Tucson, Arizona is prospecting in Littlefield this week.

Mrs. E. M. Grantham of Washington, D. C., who is visiting her mother Mrs. J. C. Houk, underwent the operation of having her tonsils removed last week and is getting along nicely.

Dr. J. B. Ferrell, optometrist, was in Littlefield Tuesday looking for a location with the view to making this his future home.

Ernest Williams of the Shaw-Arnett Company left Tuesday for Perryton to move his family to Littlefield, making this their future home.

Trades-Day To Be Resumed Here as Regular Feature

A trades-day to which farmers are invited to bring their stock, implements, or anything that they wish to trade or sell will be resumed in Littlefield next first Monday, J. W. Horn local auctioneer, stated. Farmers will trade, buy and sell among themselves or can secure the services of the auctioneer to dispose of their possessions.

A trades-day has been a regular fall feature of Littlefield for several years and has found popular favor among many of the people.

Beginning Saturday of last week Mr. Horn resumed public auctions at the old auction grounds near the center of the city and will continue them as weekly features.

He invites you to bring your goods to him for sale.

It always delivers maximum power and miles on a minimum amount of fuel—every month in the year—because every month it is seasonally adjusted by the Phillips process of CONTROLLED VOLATILITY.

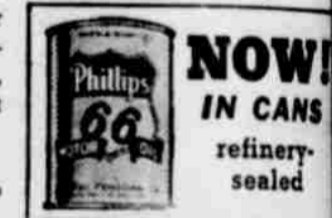

This makes it a superior Summer gasoline in Summer; a great

Phillips invented, developed, tested, and perfected this scientific seasonal change of gasoline specifications. CONTROLLED VOLATILITY is accepted, acclaimed... and imitated! Children Eat 325 Pound Sandwich at Chicago Fair

Chf. Ed Grauel (center) and John R. Thompson, Jr., were kept busy serving portions out of this 3-foot square ham sandwich last Children's Day of the World's Fair. The sandwich weighed 325 pounds. More than 250 pounds of dough, containing 5 pounds of yeast, 15 pounds of shortening and twelve gallons of milk, and 90 pounds of ham and 10 pounds of butter made up the sandwich. It was impossible to estimate the number of individual sandwiches it made, but there was such a mob of children clamoring for one that Chef Grauel had to cut 'em mighty thin even to begin to go around. There is always some special and unique stunt arranged for every Children's Day (Thursday) when admission to the Fair, and almost everything else, is only a nickel.

To The Patrons and Tax Payers of The Littlefield Independent School District

As there seems to have been some misunderstanding as to where the funds were to come from that the Board of Trustees were to purchase school trucks with, I wish to say these funds were, not our local tax, but state funds, cash on hand. I would have been much opposed to buying trucks or anything that we could do without, if we had to call on the local taxpayers to foot the bill at this time in the face of this drought and crop failure, but in-as-much as we could have used funds that belong to our children that were given to them by the State, I do believe that they could have been used for that purpose and give the children living in the country a safer, more comfortable, and more dependable transportation where it could have been done at much less cost.

In fact, by using those State Funds in purchasing trucks for the school, we could operate our trucks on State Funds, and that would be a saving of several thousand dollars of our local tax funds.

These State funds should not be used for any other purpose, other than teachers salaries and transportation of the country children to and from school. If not used in above stated way it may have to go back to show a real need for truck aid be withheld this year as we do have to show a real need for truck aid funds before we can get the \$2.00 per pupil per month that the State allows at this time, (actually \$11,232.00 per year for Littlefield district).

As I see it, to purchase these trucks would have been the same procedure and a saving of about 50 per cent after once paid for with state funds, NOT LOCAL FUNDS.

I believe by the school owning the trucks and with a properly organized system we would have a right to expect much better service. There would be a saving in the upkeep of truck bodies, as they would not be used for any purpose other than transporting pupils, and could be replaced the chassis year around and the prevent damage as racking bodies placing them off the chassis year.

I hope that this may be of information to the patrons of our school that may have been informed the funds were to come from and not State funds.

To all the truck dealers that entered bids I wish to thank you at the same time apologize for putting you to so much trouble and expense in preparing your bids. I feel sure you gentlemen offered real bargains in this matter.

Yours sincerely,
J. W. JAMES

Popular Choice

"Song of the Lark," the painting by Jules Breton, was unveiled at the Art Institute's World Fair exhibit in Chicago, as being the painting which received the most votes in a contest conducted by the institute and a Chicago paper. Mrs. Eleanor Roosevelt officiated at the unveiling, after visiting the Fair.

Gigantic Irrigation System Now Underway

HOUSTON, Tex., Aug. 22. —(UP) A gigantic irrigation system now is under construction on the Brazos River at Juliff in Fort Bend county, 22 miles south of Houston.

The system, estimated to cost at least \$200,000, is being built by five Bay City men, R. T. Briscoe, E. E. Woods, R. I. Pegrum, L. D. Clemons and Victor Le Tulle.

The irrigation system probably will be called the Brazos Canal Company, the men said. A Matagorda county capitalist is furnishing the money for construction.

Purpose of the canal system sponsors said, was to open up possibly 100,000 acres of fertile land for farming.

The system when completed will be available to all types of farmers including those with only one acre in cultivation.

Through cooperation of the agricultural department, it is planned to introduce a new plan of farming in the gulf coast country. It will involve preparation of land by plowing in 36 inches deep to store up plenty of moisture.

Experiments have shown that by deep plowing water can be stored up in the soil for long periods of time, it was said.

The irrigation system will encourage a good deal of rice growing in the section served, operators said. It was planned to put 20,000 acres in rice as soon as the system is completed.

It was hoped to have the system ready and operating by next crop planting time.

Houston Wants Centennial Celebration

HOUSTON, Tex., Aug. 22. (UP). Houston is determined to have the Texas Centennial Celebration in 1936 if it takes a bond issue of \$3,000,000 to get it.

Already the militant challenge of more than 1000 Centennial leaders and an army of volunteer workers is ringing in the ears of every citizen. A house to house canvass of the city to obtain signatures of property owners pledging their support for the bond issue is under way.

It was Houston's first step to bring the Centennial to this city, where it would be held on a vast site two miles long.

Recovers Shoes Stolen From Tyler Store

TYLER, Tex., Aug. 22. (UP) — City Patrolman Oscar Burnett practically ran the shoes off a negro who was lugging a bulging sack that excited the policeman's suspicions. He didn't overtake the negro, but he did recover the sack, which the fleeing man discarded as too much ballast. The sack contained 26 pairs of shoes stolen from a Tyler store.

BUILDING ON INCREASE
HOUSTON, Tex., Aug. 22. (UP). Houston's building record since the first of the year has passed the \$3,000,000 mark. Last year the \$3,000,000 mark was not passed until the end of September.

Most of the building permits called for erection of store and office buildings, and warehouse space.

Dog Racing Track To Be Opened At El Paso Labor Day

EL PASO, Tex., Aug. 22. — (UP) Plans are under way to open the Dona Ana dog racing track near here Labor Day.

At present the plan calls for a 30-day race meet with schooling races to be held 10 days before the meet opens in order to train the dogs.

Attorney R. B. Rawlins has been appointed general manager of the meet. J. E. Ringer will be racing secretary. Other officials were to be announced later.

It was expected that more than 150 dogs from the best kennels in Kansas, Oklahoma and California would be entered. About 50 local thoroughbreds have been booked.

The racing schedule calls for between six and eight races daily. Pari-mutuel betting under the supervision of New Mexico officials will be in effect at the track.

GIVEN TWO-YEAR SENTENCE FOR THEFT OF SUPPLIES FROM HIGHWAY DEPARTMENT

Floyd Bentley, arrested in Clovis several months ago for the alleged theft of supplies from the Highway Department building at Sudan, was sentenced in District Court at Olton to two years in the state penitentiary.

J. B. Bentley, arrested at about the same time as his brother Floyd, was held in the Littlefield jail, and was turned over to Portales authorities Tuesday.

Two other brothers are serving sentences in the New Mexico state prison at Santa Fe.

All four brothers were arrested in the vicinity of Portales and Clovis, and are alleged to have been identified with thefts and robberies.

Re-Organization of NRA Being Chartered By The President

In a series of conferences Tuesday, President Roosevelt chartered a re-organization of the national recovery administration that will be completed early in September.

Definite indications of the presidential plans were coupled with his sudden decision to return to Washington immediately after the funeral of Speaker Henry T. Rainey at Carrolton, Ill., instead of going directly to Hyde Park, N. Y.

Administration advisors are hoping for a sharp upturn in business this fall and every effort will be made to accelerate the expected increase with more simplified and stabilized NRA code machinery.

A blueprint of plans for revamping the blue eagle's roost has been prepared, one version of which calls for a form of military organization with a five-man board to direct the activities of five "sectors" or groups of industries.

This reorganization of NRA to give business a fuller opportunity of self-government is but one phase of President Roosevelt's intensification of recovery plans before winter sets in.

The national emergency and executive councils are directed by the president upon his return from his Hawaiian cruise to write special reports on the progress of the entire recovery program and to submit suggestions as to how it could be improved and speeded.

During the afternoon Donald R. Richberg, director of both the executive council and the industrial emergency committee, presented the first of these reports at a meeting of the council with the chief executive.

Richberg described his report to newspapermen as "very heartening" and added a series of reports dealing with his general summary would be prepared soon. They will be "purely factual", he said, and "obviously the basis for continuing the activities of the administration."

Quarantines On Plains for Boll Worm Modified

Federal and state quarantines on cotton lint and seed in the South Plains pink boll worm areas have been modified for the 1934 season.

J. E. McDonald, Texas commissioner of agriculture, said a disinfection program, coupled with excessively dry weather gave "high hope of complete eradication."

Counties in the area are Cochran, Gaines, Hockley, Terry, Yoakum and parts of Bailey, Lamb and Dawson. Federal and state quarantines were invoked when a light infestation was found in the fall of 1933.

Under modified regulations seed will be permitted to move officially to designated mills for treatment and crushing.

Assigned to Sea Duty on Botrd U. S. S. Antares

John W. Keithley, Jr., a graduate of Littlefield High School class of 1930, and one of the four graduates of Lamb County high schools to enter the U. S. Marine Corps during the past year, recently received assignment to sea duty on board the U. S. S. Antares, now at Port Everglades, Fla. He is the son of J. W. Keithley Sr., of Littlefield.
Keithley was accepted for this service last September at the district office, 535 St. Charles Street, New Orleans, and completed the training course in November. He was assigned to the 1st Battalion, Fleet Marine Force, stationed at Quantico, Va., where he remained until recently, when that group replaced the 2nd Battalion on the Antares.
The Fleet Marine Force is an expeditionary organization held in constant readiness to embark for foreign lands to protect American lives and property. It has bases at Quantico and San Diego, Calif., and has two "floating" battalions, one on the Antares and the other on the U. S. S. Colorado. The men of this force are trained and equipped for duty on either land or sea.

MINISTERIAL ALLIANCE MEET AT FIRST BAPTIST CHURCH, SUDAN

The members of the Alliance and their visitors met in the First Baptist Church of Sudan Monday Aug. 13. The meeting opened with an extra swell dinner served by the ladies of the church. Twenty men enjoyed the meal fully.
Following the meal which was served in the basement of the church the men went up stairs where the meeting was called to order by chairman, Rev. Hendrix. Rev. Evans of Amherst led the hymn, "Heaven of Rest," and the Rev. North led the opening prayer. The Rev. Ross A. Smith of the San Jacinto Baptist Church of Amarillo Texas who was holding a meeting in the First Baptist Church in Sudan gave the devotional message of the morning.

After the Rev. Smith's talk the Rev. Chas. Doversak, Priest of the Catholic Church in Littlefield, was introduced to the group and asked to speak to them. He expressed his interest in the Legion of Decency and stated that the Motion Picture Companies and the magazines of the day were two forces which were playing up sex to our young people. Following the priest's talk the Rev. Grizzle reported that he had five thousand pledges ready to give out for the small sum of 25c per 100. The Ministers of Lamb County alone reported that they received over a thousand signed pledges and they had only begun.

A motion was carried having the chairman appoint a standing committee on programs. The Rev. Evans and the Rev. Lee of Amherst were placed on the committee.
The paper of the Day was given by the Rev. Joiner of Sudan on "How to Strengthen the Law on Prohibition Enforcement". He reported that state laws were so arranged that a county officer cannot pursue his victims from one county to the other. This handicaps the officers.

The men rose in a vote of thanks to the women who prepared the wonderful meal for them at a nominal price.
The Rev. Evans of the First Baptist Church in Amherst invited the Alliance to Amherst next Monday noon. The program committee announced the following program for the next meeting.
The Devotional — The Rev. H. H. Allen of Earth.
A paper — "The Things We Should

Undertake to do as an Alliance", by the Rev. J. W. Hendrix of Littlefield. A Round Table Discussion on the above subject.
The Inspirational Talk — The Rev. H. F. Cole.
T. A. Arnold of Sudan gave the closing prayer.

SENATE JOINT RESOLUTION NO. 2

BE IT RESOLVED BY THE LEGISLATURE OF THE STATE OF TEXAS:

Section 1. That the Constitution of the State of Texas, Article 16, be amended by adding thereto another Section, Section 61, which shall read as follows:

"Section 61. All district officers in the State and all county officers in counties having a population of twenty thousand (20,000) or more according to the then last preceding Federal census, shall hereafter be compensated on a salary basis. In all counties of this State the Commissioners' Court shall be authorized to determine whether precinct officers shall be compensated on a fee basis or on a salary basis; and in counties having a population of less than twenty thousand (20,000) according to the then last preceding Federal census, the Commissioners' Court shall also have the authority to determine whether county officers shall be compensated on a fee basis or on a salary basis. All fees earned by district, county or precinct officers shall be paid into the County Treasurer where earned, for the account of the proper fund, provided that fees incurred by the State, county and any municipality, or in case where paper's oath is filed, shall be paid to the County Treasurer, when collected, and provided that where any officer is compensated wholly on a fee basis, such fees may be retained by such officer, or paid into the Treasury of the county as the Commissioners' Court may direct. All Notaries Public, County Surveyors and Public Weighers shall continue to be compensated on a fee basis."

Section 2. The foregoing Constitutional amendment shall be submitted to vote of the qualified voters of this State and the next general election to be held on Tuesday, after the first Monday in November, A. D. 1934, at which election all voters favoring said proposed amendment shall write or have printed on their ballots the words:

"For the Amendment of the Constitution of the State of Texas adding Section 61 to Article XVI, abolishing the fee system of compensating all district officers and all county officers in counties having a population of twenty thousand (20,000) or more; and authorizing the Commissioners' Court to determine whether County officers in counties containing less than twenty thousand (20,000) population shall be compensated on a fee basis or a salary basis; and authorizing the Commissioners' Court in all counties of this State to determine whether precinct officers shall be compensated on a fee or a salary basis."

"Against the Amendment to the Constitution of the State of Texas adding Section 61 to Article XVI, abolishing all district officers and all county officers in counties having a population of twenty thousand (20,000) or more; and authorizing the Commissioners' Court to determine whether county officers in counties containing less than twenty thousand (20,000) population shall be compensated on a fee basis or a salary basis."

SENATE JOINT RESOLUTION NO. 13

BE IT RESOLVED BY THE LEGISLATURE OF THE STATE OF TEXAS:

Section 1. That Section 3 of article VIII of the Constitution of the State of Texas be so amended as to hereinafter read as follows:

"Section 3. Taxes shall be levied and collected by general laws and for public purposes only; and the total amount of revenue which the State shall be authorized to collect during such biennium from taxes, licenses, permits and fees, (except fees paid by students to state educational institutions, and except rentals and royalties obtained from public lands and other public property) shall not exceed a sum reasonably estimated to equal the product obtained by multiplying the number of the inhabitants of this State by the sum of Twenty-two and 50-100 (\$22.50) Dollars; provided, however, the total amount of such revenue which may be so collected shall be reduced by the amount of any surplus funds or unexpended appropriations remaining at the close of the preceding biennium. The expenditures of the State government of funds derived from the sources above referred to shall never exceed during any biennium, a sum equal to the product obtained by multiplying the number of inhabitants of this State by the sum of Twenty-two and 50-100 (\$22.50) Dollars, provided however, that the population of the State (in determining the amount of revenue which may be collected from taxes, licenses, permits and fee or expended from the revenue thus obtained) shall be determined by the then last preceding Federal census, then last population shall be added or deducted as the case may be, for each year that has lapsed since the average yearly increase or decrease of the population as shown by said Federal census when compared with the

Federal census which immediately preceded said last Federal census. Provided, further, that in case of war, riots, or insurrection, or a statewide calamity caused by earthquake, fire flood or an epidemic which seriously threatens the health of the citizens of this State the Legislature shall have authority, by a two-thirds vote of both Houses, to suspend for a definite period this constitutional limitation as to the amount of money which may be collected and expended during the biennium."

Section 2. The foregoing Constitutional Amendment shall be submitted to the electors of this State qualified to vote on constitutional amendments at an election to be held throughout the State on the first Tuesday after the first Monday in November, A. D. 1934 at which election each ballot shall have printed the words:

"For the Amendment of Section 3 of Article VIII of the State Constitution providing for the levying and collection of taxes and fixing the maximum amount thereof which can be collected and expended each biennium."

"Against the Amendment of Section 3 of Article VIII of the State Constitution providing for the levying and collection of taxes and fixing the maximum amount thereof which can be collected and expended each biennium."

Each voter shall scratch out with pen or pencil the clause which he desires to vote against, so as to indicate whether he is voting for or against said proposed amendment.

HOUSE JOINT RESOLUTION NO. 14

BE IT RESOLVED BY THE LEGISLATURE OF THE STATE OF TEXAS:

Section 1. That there be added to Article IX of the Constitution of the State of Texas a new section to be numbered Section 2-A and to have five (5) lettered subdivisions and which section shall read as follows:

"Section 2-A. (a) General management and control of the affairs of the County shall hereafter be vested in the Commissioners' Court, provided that in the exercise of powers not specifically granted to the Commissioners' Court by the Constitution and Amendments thereto, the Court shall be subject to the Authority of the Legislature of the State, and the Court shall also be subject to all general laws of the State now in force not in conflict with the provisions of this Amendment until such laws are modified or repealed.

"(b) All duties heretofore performed by the Clerk of the District Court and the County Clerk shall hereafter be performed by an officer to be known as Record Clerk, all duties heretofore performed by the County Tax Assessor and the County Tax Collector shall hereafter be performed by one officer known as Tax Clerk; and in the counties where the sheriff performs the duties of the tax collector he may hereafter perform the duties of the Tax Clerk. The Record Clerk and the Tax Clerk shall be elected to hold office for a term of two (2) years and until their successors shall be elected and qualified. The Commissioners' Court shall have authority to combine the office of County Treasurer and the office of County Surveyor, or to combine either, or both, of said offices with any county office. Within the maximum, and minimum limits prescribed by the Legislature the Commissioners' Court shall have authority to fix the compensation of all county and precinct officers except County Auditor, County Judge and County Commissioners. The Legislature shall fix the compensation of District Judges, District Attorneys, County Judges and the County Commissioners and may provide for a County auditor and prescribe his duties and fix his compensation and the number and compensation of his assistants. The Commissioners' Court shall fix the compensation of deputy assistants and clerical personnel of all precinct officers and county officers except the county auditor.

"(c) City and county officers and employees may, in addition to their duties as such city and county officers or employees, be required to perform such other similar duties for cities, towns and districts within the county, or for the county, as may be mutually agreed upon and contracted for between the Commissioners' Court of said county and the governing board, or boards, of such cities, towns and districts; and the cost of such service shall be provided for in said contracts and paid by such county, cities, towns or districts into the Treasury of the county or city, town or district, as provided for in said contract. All such contracts shall be approved by the Attorney General of this State and such contracts shall not cover a period longer than two (2) years.

"(d) The Legislature shall have authority, by general law, to provide for complete forms of county government and organizations different from that provided for in this Constitution to become effective in any county when submitted in such manner as may be prescribed by the Legislature to the qualified voters of such county in an election held for such purpose and announced by a majority of the qualified voters in an election. Provided, however, that no such law shall have the effect of terminating the compensation of county and precinct officers other than the County Auditor to fix the number of

personnel which said officers may employ; nor shall such general law change the present constitutional limitations as to particular and total tax levies for any or all county purposes; nor shall such general law change the present constitutional limitations on counties to incur public debts.

"(e) In any and all cases where provisions of the Constitution of this State are in conflict with the provisions of this Amendment (Section 2-A, Article IX) shall control; provided, however, should any county adopt a Home Rule Charter under authority of any provisions of the State Constitution or Amendment thereto, this Amendment shall not be applicable to such county."

Section 2. The foregoing Constitutional Amendment shall be submitted to the electors of this State, qualified to vote on Constitutional Amendments at an election to be held throughout the State on the first Tuesday after the first Monday in November, A. D. 1934, at which election each ballot shall have printed thereon the words:

"For the Amendment of Article IX of the State Constitution by adding Section 2-A thereto, giving the Commissioners' Court general management and control of county affairs, and authorizing the Legislature to provide more economical forms of county government and different than as now provided by law."

"Against the Amendment of Article IX of the State Constitution by adding Section 2-A thereto, giving the Commissioners' Court general management and control of county affairs, and authorizing the Legislature to provide more economical forms of county government and different than as now provided by law."

Each voter shall scratch out with pen or pencil the clause which he desires to vote against so as to indicate whether he is voting for or against said proposed amendment.

SENATE JOINT RESOLUTION NO. 16

BE IT RESOLVED BY THE LEGISLATURE OF THE STATE OF TEXAS:

Section 1. That Section 1 of Article 8 of the Constitution of the State of Texas be amended so as to hereafter read as follows:

Section 1. TAXATION TO BE EQUAL AND UNIFORM AS TO REAL ESTATE AND TO BE EQUAL AND UNIFORM AS TO ALL REASONABLE CLASSIFICATIONS OF PROPERTY; AND OCCUPATION AND INCOME TAXES: EXEMPTIONS; LIMITATIONS UPON COUNTIES, CITIES, ETC.

"Taxation of real property shall be equal and uniform. All property in this State, whether owned by natural persons or corporations, other than municipal, shall be taxed in proportion to its value, which shall be ascertained as may be provided by law. The Legislature may by general laws make reasonable classifications of all property other than real property for the purpose of taxation, and may impose different rates thereon; provided that the taxation of all property in any class shall be equal and uniform. The Legislature may impose a poll tax. It may also impose occupation taxes, both upon natural persons and upon corporations, other than municipal, doing business in this State. It may also tax incomes of both natural persons and corporations other than municipal, except that persons engaged in mechanical and agricultural pursuits shall never be required to pay an occupation tax; provided that Two Hundred Fifty (\$250.00) Dollars worth of household and kitchen furniture, belonging to each family in the State, shall be exempt from taxation, and provided further that the occupation tax levied by any county, city or town for any year on persons or corporations pursuing any profession or business shall not exceed one-half of the tax levied by the State for the same period of such profession or business."

Section 2. The foregoing amendment to the Constitution of Texas shall be submitted to a vote of the qualified electors of this State at an election to be held throughout the State on the first Tuesday after the first Monday in November, 1934. At this election, all voters favoring said amendment shall write, or have printed, on their ballots the words:

"For the Amendment to the Constitution of the State of Texas providing that taxation of real property shall be equal and uniform; and that all property in this State, other than that owned by municipal corporations, shall be taxed in proportion to its value as ascertained as may be provided by law; and providing that the Legislature may make reasonable classifications of all property, other than real property, for the purpose of taxation, and that the taxation of all property in any class shall be equal and uniform; and providing further that the Legislature may impose poll tax and occupation tax and income tax and exempting from occupation tax persons engaged in mechanical and agricultural pursuits; and exempting from taxation Two Hundred Fifty (\$250.00) Dollars worth of household and kitchen furniture belonging to each family; and providing that the occupation tax levied by any county, city or town shall not exceed one-half that levied by the State for the same period."

Those voters opposing said proposed amendment shall write or have printed on their ballots the words:

"Against the Amendment to the Constitution of the State of Texas providing that taxation of real property shall be equal and uniform; and that all property in this State, other than that owned by municipal corporations, shall be taxed in proportion to its value as ascertained as may be provided by law; and providing that the Legislature may make reasonable classifications of all property, other than real property, for the purpose of taxation, and that the taxation of all property in any class shall be equal and uniform; and providing further that the Legislature may impose poll tax and occupation tax and income tax and exempting from occupation tax persons engaged in mechanical and agricultural pursuits; and exempting from taxation Two Hundred Fifty (\$250.00) Dollars worth of household and kitchen furniture belonging to each family; and providing that the occupation tax levied by any county, city or town shall not exceed one-half that levied by the State for the same period."

Section 3. The foregoing amendment to the Constitution of Texas shall be submitted to a vote of the qualified electors of this State at an election to be held throughout the State on the first Tuesday after the first Monday in November, 1934. At this election, all voters favoring said amendment shall write, or have printed, on their ballots the words:

SENATE JOINT RESOLUTION NO. 21

BE IT RESOLVED BY THE LEGISLATURE OF THE STATE OF TEXAS:

Section 1. That Section 1 of Article 9 of the Constitution of the State of Texas, be amended so as to hereafter read as follows:

"Section 1. The Legislature shall have the power to create counties for the convenience of the people subject to the following provisions: First. In the territory of the State exterior to all counties now existing no new counties shall be created with a less area than nine hundred square miles, in a square form, unless prevented by the pre-existing boundary lines. Should the state lines render this impractical in border counties, the area may be less. The territory referred to may, at any time, in whole or in part, be divided into counties in advance of population and attached, for judicial and land surveying purposes, to the most convenient organized county or counties.

Second. Within the territory of any county or counties now existing the Legislature may by a two-thirds vote of both Houses, create new counties, combine existing counties and parts of counties and abolish existing counties and change county boundaries at will, provided that no new county shall be created with an area of less than nine hundred square miles nor shall any existing county be reduced in area so as to contain less than nine hundred square miles, unless such new county, or such remaining county, and both shall have a population of not less than fifty thousand according to the last United States census prior to the date of the creation or change of such county. When any part of a county is stricken off and attached to, or created into another county, the part stricken off shall be held for and obliged to pay its proportion of all liabilities then existing of the county from which it was taken, in such manner as may be prescribed by law.

Third. No part of any existing county shall be detached from it and attached to another existing county until the proposition for such change shall have been submitted in such a manner as may be provided by law to a vote of the electors of both counties and shall have received a majority of those voting on the question in each."

Section 2. The foregoing amendment to the Constitution shall be submitted to a vote of the qualified electors of this State at an election to be held throughout the State on the first Tuesday after the first Monday in November, 1934. At this election all voters favoring said proposed amendment shall write or have printed in that ballot the words:

"For the amendment to Section 1 of Article 9 of the Constitution of Texas, providing that the Legislature may by a two-thirds vote of both Houses create new counties and change the boundaries of existing counties."

SCHOOL TRUCK DRIVERS ARE APPOINTED

Trucks to Have Long Wheel Base and No Older Than 1932 Model

At a meeting of the School trustees of the Littlefield Independent School District held Monday evening the following drivers for the school trucks for the coming nine months were appointed:

Joe Blackwell, John Blair, Dick Eyer, J. H. Taack, Henry Bradstreet, J. L. Roundtree, Charlie Kelley, Roy Carstern, O. K. Yantis, R. W. Dent, Lee Bruce, B. H. Howton, J. W. Stewart, R. L. Miller, E. N. Faucett, Fred Lichte, H. S. Ross, Art Holberg and Henry Clark.

A condition of the contract with the drivers is that they are not allowed to use an older model truck than 1932, and of long wheel base.

Jail Break—

(Continued from Page One)

At the time the break occurred. In some manner the two men unlocked three of the four jail doors between them and liberty.

Mrs. Arthur opened the other door to go to a supply room and the prisoners jumped into sight from behind the door. One of them threatened her with a long knife and ordered her to keep quiet. Then the prisoners ran onto the street and took a 1933 Chevrolet belonging to Frank Spear, operator of a drygoods and grocery store on Dickens, and cousin of Mrs. C. C. Beebe of this city, in which they escaped.

Mrs. John Koonman of that city and daughter of Mr. and Mrs. Beebe, who is visiting in the Beebe home, said that Mr. Spear saw the fugitives get in the car and drive off just after he had parked it in front of his place and business and opened the store Saturday morning.

They were traced to a filling station about fifteen miles west of town, and off the highway, owned and operated by a widow, Mrs. R. D. Shields, where they filled the gas tank.

Attempt Escape Here

While in Littlefield, the pair and Lucy Wingfield, three times attempted to break jail. Tuesday night of last week they sawed six bars and escaped from their cell into the run-around, but were prevented from making a getaway by L. A. Ratliff, deputy sheriff who was on duty. They carried saw blades which had been fitted into the soles of their shoes.

Deputy Sheriff Ratliff telephoned Sheriff Len Irvin and Deputy Walraven and the three men were put in another cell.

A constant guard is maintained at the Littlefield jail to frustrate any attempts to escape custody.

Shalcup and Brown are believed to have been in this section Saturday night.

Two men, one of whom is said to have had a sawed off shotgun, obtained a supply of gasoline at Muleshoe, but made their getaway without paying for the fuel.

A Sudan man and a party of friends were fired on late Saturday night, between Sudan and Amherst, when they refused to obey a request of two men to abandon the car in which they were riding. Six shots were fired, four of which hit the car. Officers do not believe, however, that Shalcup and Brown had any connection with the affair.

The supply of gasoline which two men failed to pay for, was obtained at a Gulf Service Station, Muleshoe, operated by Graham Chandler and Wayne Wallace. Mr. Chandler was on duty at the time. The two men who obtained the free supply of gasoline visited the station on foot at about 10 o'clock, then returned at about 12 o'clock. At that time they were driving a 1933 Chevrolet sedan. One man remained in the car with a sawed off shotgun across his knee. As the gasoline was put in the car the man who had remained out of the machine again took the wheel, saying that he would drive up on level ground and have the oil checked. But as soon as he entered the car, he put the machine in low gear and a hurried getaway was made.

Two men are reported to have been freed on by police in Clovis and Fort Sumner.

First Bale To Be Ginned Here Is Turned Out Tuesday

E. H. Garner, who resides four miles north of Littlefield, brought in Tuesday the first bale of Lamb County cotton to be ginned in Littlefield. This bale was turned out at the Farmers Gin Co., graded strict middling, and weighed 432 pounds.

Steps are underway to obtain a premium for Mr. Garner.

The United States once issued 5-cent bills.

Tuning Up Their Challenger For Gold Cup Races

NEW YORK... The British Gold Cup challenging yacht "Endeavor" (below), is getting her tuning up trials off the Connecticut shores as her owner, Mr. T. O. M. Sopwith and wife (above), smile optimistically in the hopes of lifting the famous yachting trophy which the late Sir Thomas Lipton tried so valiantly to take back to England... The International races are scheduled to start off Newport, R. I. about September 15... Mrs. Sopwith will sail in the races with her husband, as timekeeper, the first woman ever aboard in the historic classic.

MISS HEMPHILL AND MRS. WADE ARE HOSTESSES AT BRIDAL TEA AND SHOWER WEDNESDAY HONORING MRS. ROY YOUNG

One of the outstanding parties of the season took place Wednesday afternoon, when Miss Dahlia Hemphill and Mrs. Roy Wade entertained at a bridal tea and shower, at the home of Mr. and Mrs. A. G. Hemphill, 707 East Eighth Street, complimenting Mrs. Roy Young, who prior to her marriage on August 12, was Miss Gladys Wales.

Miss Dahlia Hemphill, Mrs. J. R. Wales, Mrs. Mallory Etter and Mrs. Roy Wade formed the receiving line, while Mrs. Bob Badger ushered the guests to the dining room, where Mrs. R. B. Whittenburg, Miss Naomi Freeman and Miss Eva Gertrude Chisholm served sherbet and cake to those attending.

Mrs. M. M. Brittain presided at the guest register. The honoree, Mrs. Young, received a large number of beautiful and useful gifts, including a dinner set, table and bed linens, electrical gifts.

Those attending were; Mesdames J. R. Wales, Bob Badger, Mallory Etter, Miss Eva Gertrude Chisholm, Mrs. Dick Whittenburg of Deming, N. M., Miss Naomi Freeman of McMurray Station, Abilene, Mesdames M. M. Brittain, A. G. Hemphill, S. J. Farquhar, J. D. Dodgen, W. C. Thaxton, J. S. Hilliard, J. E. Norman, E. G. Courtney, Jesse Seale, G. S. Glenn W. J. Aldridge, J. W. Hendrix, W. D. T. Storey, Sam Hutson, J. P. Spinks, J. M. Stokes, H. C. Martin, Otha Key, J. M. Tunnell, J. Everett Whicker, T. Wade Potter, G. M. Shaw, L. R. Crockett, Bill Jeffries, Morris Morgan, B. L. Cogdell, J. T. Elms, W. H. Gardner, J. R. Coen, and Miss Nel Stogner of Oklahoma City, and Misses Eddythe Walker, Ellen Crockett, Mary Louise Thaxton, and Dixie Durfee.

Many social events are being planned in Mrs. Young's honor.

Mrs. Bob Badger is entertaining today noon with a bridge luncheon at the home of her parents, Mr. and Mrs. A. W. McKee at Lubbock, and Miss Myrtle Porter will be hostess at a breakfast at the Hilton Hotel, Lubbock, Sunday morning, honoring the bride.

Bond Election—

(Continued from Page One)

when we have the additional water to sell, or the present revenues from the sale of water system as it now exists. Under these conditions we are of the opinion that there will be no trouble in meeting the payments from the revenues from the water system.

"It has been reported to us that some citizens of the town do not see the necessity for these improvements, and are of the opinion that our present water supply is sufficient for the needs of the town. It has also been reported that the wells are not being pumped all the time and that more water could be produced from the present wells. This information is in error, for the wells are being pumped day and night, seven days in the week, and this has been going on for the past fifteen months. It is absolutely necessary for the city to authorize this bond issue or to take some other steps to increase the supply of water, or it will be but a matter of a short time until we will be unable to supply the town as it now exists without taking into consideration any future growth or expansion. The City at present owns four small wells, of which three have been pumped day and night for the past fifteen months. The fourth well has dropped off to such an extent that it is too expensive to pump it, as it will produce only seven gallons per minute. The other three wells are now producing a total of about one hundred sixty gallons per minute, and are steadily getting weaker.

"The requirements of the State Fire Insurance Commission provide that a town the size of Littlefield shall be able to pump as much as two hundred

forty-seven gallons of water per minute. We are now pumping about one-hundred sixty gallons, the total capacity of the wells, or eighty seven gallons per minute, short of the state requirements. For this shortage and also for the 2,200 feet of six inch water main, we are being penalized in the fire insurance key rate. These penalties will be removed if the plan as outlined under the PWA application is carried out, which will figure about six cents reduction in the key rate.

"In view of the fact that the city has been barely able to supply the needs of the town with water during the past summer, it will be amatter of impossibility for the present water system to take care of any further growth or expansion. If the voters do not authorize the City Commission to accept this loan and grant, it will be necessary to drill additional wells at the present or some other location, which is an expensive and unsatisfactory method, as these wells in the past have shown that the water supply at this location is inadequate, and the wells are of short life.

"Taking into consideration the thirty per cent grant which has been allowed us, it will make the bonds actually draw about three per cent interest, and our opinion is that if we do not accept this proposition now, it may be a long time before we have another opportunity to get money for these improvements at this low rate of interest.

The city commission urges all property owners to go to the polls Wednesday next and vote their decision in this important issue.

J. O. Garlington will be the presiding judge in Wednesday's election, with W. J. Aldridge as associate judge, and Mrs. John Blair, and Mrs. L. W. Jordan, clerks.

week before school opens, in the following manner; eighth grade folks will report Wednesday, September 5, 9:00 A. M.; Ninth grade folks Thursday, September 6, 9:00 A. M.; and 10th and 11th grade folks Thursday September 6, 9:00 A. M. It is very important that all the folks be here at the stated times. The indications are that the classes will be full this time and the first come will be first served. In other words if you are late and want a particular subject and the class is already full there wont be a chance to get it.

There has been one new course added to the curriculum of the school this year. The course is bookkeeping has been added as a fourth year agriculture course. This course has no connection with other agriculture courses and is open to junior and senior boys and girls. The agricultural teacher will teach the course. One full unit of credit will be allowed for the course. Affiliation is expected to be granted on the first years work but nothing definite can be given out on that point until the work is submitted for examination.

Considerable new equipment and repairs have been added to the school since the close of last year. It will be recalled that new lockers were added toward the close of the last year at a cost of \$1000.00. Now each and every child in the high school can have a place to lock his books and supplies. Combinations locks are kept at the school for use on the lockers. A deposit of \$1.00 per year is required. This will be returned at the close of the year provided the lock is returned in good condition.

New chairs have been purchased for agriculture department, new gas stoves have been added to the Home Economics departments, new desks have been secured to replace broken ones in the class room, and the old

Ride Ancient Tandem to Fair

The first tandem bicycle to have been ridden to the Chicago World's Fair since the Columbian Exposition was pedaled from Newark, N. J., by Charles, 14, in the rear, and William G. Toland, Jr., 16, sons of an investment banker of that city. The boys dragged the machine from the attic of their home where it had been for 50 years, tinkered a bit with it, and used it to spin around the home town. One day

they found themselves 45 miles west of Newark, thought it a good idea to continue on to the Fair, and 8 days and 2 hours later reached the gates. The Wings of a Century management invited the boys to join Jane Kermit, the bloomer girl in the pageant, and Edward Denny, her partner, in their part of the afternoon performance.

desks in the grammar school have received a good coat of varnish.

At this same meeting the Board decided to accept no pupils under six years of age for the first two weeks. If at that time it appears there will be room they may decide to take some under on a tuition basis at \$3.00 per month.

The tuition rate was set by the board as follows; Primary (first three grades) \$3.00 per month; Intermediate grades (fifth sixth and seventh grades) \$4.00 per month and the high school \$5.00 per month. The above amounts will be charged folks who do not live in the district when their transfer money has been consumed at the above rate.

There will be no formal opening of the school where the public is invited due to the fact that our auditorium holds 700 and our school enrollment will be something like 1200 to 1500. This seating capacity would not accommodate the pupils and patrons. Work will begin in earnest the first day.

Dies Following Lengthy Illness and Operation

Funeral services were conducted Wednesday afternoon, August 22, at 3:30 o'clock at the grave in the Littlefield Cemetery for Mrs. L. M. Rathers, aged 64, who died at 2:30 A. M. Wednesday morning, at her residence in the west part of Littlefield following an operation and lengthy illness.

Deceased had been confined in the Lubbock Sanitarium for a month and had not been home long when death came.

Rev. Joe F. Grizzle, Pastor of the First Baptist Church, officiated at the services, and Burleson's Funeral Home had charge of the burial.

Mr. and Mrs. Rathers and family came to Littlefield from near Carlsbad, N. M., about six years ago. Mrs. Rathers passed away about a year and a half ago.

Deceased is survived by four children.

Local Residents Take Examination For State Post

The first examination ever held in Texas for the post of state inspector, under the new hatchery code, was held at Lubbock Saturday following a two day school conducted by Dr. H. H. Reid, poultry husbandman at Texas A. and M., and head of the poultry department there. He was assisted by Ray C. Mowery, head of the poultry work at Texas Tech and C. Baker, vocational agriculture instructor at Tech.

About thirty-five hatchery men from Texas and New Mexico took the examination, when they were examined in the government code for the industry.

Frank Lehman, who conducts the Littlefield Hatchery, and Mr. and Mrs. A. G. Maxwell also of this city took the examination.

Others taking the examination were:

Otes Wheat, Belton; F. D. Allen, Temple; W. E. Fredemak, Belton; H. S. Stevenson, Dallas; Mr. and Mrs. Clyde Akers, Lubbock; H. E. Hansz, Lubbock; W. H. Hartenstern, Roswell, N. Lamar, Okla. Man Purchases Grocery Stock and Equipment

A deal was consummated Thursday last, whereby Guy Yeates of Lamar, Okla., purchased the grocery stock and equipment of Payne Wood, who has been operating a Red & White Store in this city. Possession was taken by the new owner Thursday evening.

Mr. Yeates, who will continue the business as a Red & White store, got a new shipment of groceries Friday to replace any items needed.

He conducted a general store at Lamar for eighteen years, and until about two months ago when he closed out his merchandise, with the exception of drygoods and shoes, which he had shipped to his new location here.

According to Mr. Yeates, he will do considerable improvements to the interior of the store, and will remove the partition at the rear where he will have the drygoods and shoes department.

Charlie Clark, who has been in charge of the meat department, will continue with the new owner.

Mr. and Mrs. Yeates and two sons, John Dale and Roscoe arrived here last week and are living in the J. G. Singer residence on East Sixth Street. The boys will attend the local high school, when fall term starts.

Former Sudan Banker Feeding Out Cattle In Elmdale, Kansas

Pete Boesen of Sudan, veteran newspaper man and large land owner of this district, is feeding out 500 head of cattle at Elmdale, Kansas.

Mr. Boesen, who is a stock man of many years' experience, fed out 1410 head of cattle in the Sudan vicinity last year, but on account of the dry weather and lack of feed transferred the stock to Kansas this year.

In an interview with Mr. Boesen when he called at the Leader office recently, he remarked that Sudan was "just a cross roads town with about 25 farmers located around that city in the spring of 1917 when he located there.

Mr. Boesen has lived in West Texas for the past thirty-two years. He first settled in Amarillo back in 1902, when he purchased the Semi-weekly Herald, publishing that paper for about three years, when he started the Daily Panhandle in 1905. Amarillo was then a city of about 3500 population. He operated this daily paper until 1912, when he sold to John S. Harper, and moved to Groom, Texas, where he operated a land business for the next two years.

He organized the First National Bank at Sudan in 1923 in which he took an active interest until he sold out in 1933 to T. W. Newsom of Dallas. Since that time he has been looking after his farming and stock interests.

Eugene Latimer Appointed Civil Service Examiner

Eugene Latimer, who has been employed as Postal Clerk in the Littlefield postoffice since March 1, 1929, was recently appointed Civil Service Examiner from this office, and has charge of all Civil Service Examinations held here.

Mr. and Mrs. Latimer have returned from a visit to Shelby county, Texas, and state that generally the entire route of their trip was dry and crops needing rain. However, Mr. Latimer says Shelby County has a fair crop.

"The tomato crop was short, and didn't bring a good price. The farmers in general did not receive the money that Lamb County is receiving from their plowup. Naturally, they do not farm on as big a scale as we do here," said Mr. Latimer.

Filling Station Is Being Rebuilt

The filling station property located across from the local postoffice, owned by Charlie Harless, which was burned several months ago, is being completely rebuilt.

According to J. H. Wells, contractor on the job, the building will be entirely renovated and a station modern in every respect built. The awning which was badly burned will be replaced by a new one.

This station was operated previous to the fire by R. E. Riley.

It is understood that the building will be completed by September 1, and used as a Panhandle oil station, carrying this company's products, including oil and greases, and distillate and kerosene.

In an interview with the Panhandle oil company, they stated the station would be sub-leased.

Applications For Tax Exemptions Being Received

Applications for tax exemption under the provisions of the Bankhead Act are rolling rapidly into the offices of the State Allotment Board now that all counties are finally supplied with all necessary printed forms from Washington. The Board has set up three shifts of workers and will run a 24 hour day until all the allotments are made, according to the chairman, E. R. Eudaly.

First counties to come in with their applications complete were DeWitt, Jim Wells, Lavaca, San Patricio, Fort Bend, and Refugio. The Board detained the messengers who brought the applications, met at once to act upon them, and sent the allotments of tax exemption certificates into the counties by these same messengers.

Every possible effort will be made to hasten the work, Eudaly says, and in this connection he emphasizes the fact that the greatest speed of all can be made in the counties by assuring accuracy in the applications before they are sent to the Board.

"If the batch of applications hurried from the county to the Board turns out to be in such shape that it has to be returned to the county for correction much time is lost, and the county finds itself further down the waiting list than it would have been if a little more time had been spent on checking for mistakes in the first place" Eudaly said.

"County committees or adjustment assistants asking the Board to set a 'deadline' date after which no application may be taken within the county must be careful to ask for a date sufficiently far ahead to allow its being published in the local paper. And farmers must remember when that date is set that it is like a train passing. If they do not go aboard before the train pulls out they are left behind and no one can make the train return to take them on," Eudaly stated.

Returns From Trip Thorough New Mexico Arizona, Colorado

Mr. and Mrs. E. S. Rowe and family returned home Wednesday of last week from a two months' vacation trip.

While gone they visited Carlsbad Caverns, El Paso, Juarez, Old Mexico, Silver City, N. M., fished on the Black River in Arizona for a few days; spent some time in Durango, Colo., and camped and fished several weeks on the Rio Grande River at Creed, Colo.

Mrs. Rowe reports a splendid time saying the climate was so cool that it was necessary to make a wood fire each evening, which they enjoyed.

Mahaffey Gets 5 Years in Pen

Robert (Bob) Mahaffey of Portales, N. M., recently arrested in Boise City, Idaho, and returned to Olton for trial in the hijacking of Stone Service Station Station last January was found guilty by a jury in district court and sentenced to five years in the state penitentiary.

The case was called by Judge Charles Clements Wednesday morning of last week and consumed most of the day, going to the jury about the middle of the afternoon.

The case was deliberated until bedtime without reaching a decision and the jury was locked up for the night. When court assembled Thursday morning the jury notified the sheriff that a verdict had been reached and was immediately called in by the judge.

LOW FIRST COST!
\$595 and up, F.O.B. Detroit. Ford V-8 prices are at their 1934 low.

LOW UPKEEP COST!
The new Ford V-8 is the most economical car to run that Ford has ever built.

HIGH TURN-IN VALUE!
Year after year the record shows that Ford cars retain an unusually great per cent of their original value.

THE Ford V-8 would be a great buy even at a much higher price. It's the only V-8 selling for less than \$2500. Ford alone has been able to put a V-8 engine in a low price car.

The first cost of a Ford V-8 is decidedly low. But that saving is only the beginning; Ford V-8 valves seldom need grinding. Carbon removal is virtually eliminated. The new Ford V-8 consumes less gasoline and oil than last year's economical Ford. And Ford V-8 parts cost very little.

In addition, on that distant day your Ford V-8 earns its honorable retirement, you'll find that it has a high trade-in value. The record of years proves it.

Smallest Yield of Grain Predicted In Thirty Years

Although the smallest yield of grain in 30 years, or more has been predicted by federal reporters, Secretary Wallace makes the statement that there is no danger of food shortage.

The drouth's ravages affected not only the grain crops but directly or indirectly the entire food supply of the Nation and cotton as well.

For example, the crop reporting board forecast that this year's production of corn would be only 1,607,108,000 bushels, a decline of more than half a billion bushels or 24 per cent over its estimate of conditions on July 1. The average yield of this important feed and food crop is around 2,500,000,000 bushels.

The wheat yield, to the surprise of many observers, increased six million bushels today over the July prediction, the estimate today being 490,360,000 bushels. But that figure is the lowest since the 1890's.

The dry siege both directly and indirectly, is rapidly paring the Nation's meat supply. Millions of cattle and sheep are being bought by the Government, both because they are starving now from lack of feed and water and also because there will be no feed for them in the months to come.

But the Secretary of Agriculture, although visibly concerned over the too enthusiastic co-operation that the drouth has given the Farm Administration's surplus reduction campaigns, said that even though the customary supply of "sirloin steaks and pork chops" would be reduced next year, "there will be plenty of food to keep everyone in the best of health."

A THOUGHT FOR TODAY!

Said the little red rooster: "Gosh all hemlock, things are tough. Seems that worms are getting scarcer and I cannot find enough. What's become of all the fat ones is a mystery to me; there were thousands through that rainy spell, but now where can they be?" The old black hen who heard him, didn't grumble or complain; She had gone through lots of dry spells; she had lived through floods of rain; So she flew upon the grindstone and she gave her claws a whet, as she said "I've never seen the time there weren't worms to get." She picked a new and undug spot; the earth was hard and firm. The little rooster peered. "New ground! that's no place for a worm." The old black hen just spread her feet she dug both fast and free. "I must go to the worms," she said "The worms won't come to me." The rooster vainly spent his day, through habit by the ways, where good fat worms had passed in squads back in the rainy days. When nightfall found him supperless, he growled in accents rough: "I'm hungry as a fowl can be; conditions sure are tough." He turned then to the old black hen and said, "It's worse for you; for you're not only hungry, but you must be tired too. I rested while I watched for worms, so I feel fairly perk. But how are you? Without worms too? And after all that work?" The old black hen hopped to her perch and dropped her eyes to sleep; and murmured in a drowsy tone, "Young man, hear this and weep. I'm full of worms and happy. for I dined both long and well BUT The worms I HAD were TO DIG there as Like ALWAYS

GOOD, SOUND ADVICE FOR ALL OF US

This story of the hen who obtained her fill of worms because she didn't fail to "Dig Like Hell," and the rooster who had a flat tummy because he failed to "Dig Like Hell," was furnished the Lamb County Leader by W. H. Badger, manager of the Yellow House Land Co. He hasn't the least idea of the name of the author; all he knows is that it was clipped from some publication. But, at any rate, there's good sound advice in it for all of us.

He said food prices would be higher but he doubted the farmer would receive any more for his product than he did in 1914. The aim of the Farm Act is to give the growers prices that are on a par with those in the 1909-1914 period. The Secretary revealed his administration intended to do all it could to prevent food profiteering and that there might be a temporary abandonment of intensive acreage next year. He said, however, acreage restrictions were not exercised in 1935, and that he felt his administration's program had helped to ease the drouth situation.

The wheat crop, if government figures are borne out, will be about 7 per cent below the 1933 crop of 527,978,000 bushels and almost 45 per cent lower than the 1927-31 average of 886,359,000 bushels.

In the southern section of the drouth belt, the crop report said "some early corn developed ears before the drouth became severe and around the outer margin of the area corn has reached the tassling without forming ears and in many fields the corn is drying up before more than a small fraction of the usual yield of fodder has been produced."

Regarding the general outlook the report said, "Growing conditions are poor practically everywhere except along the Atlantic Coast, in the eastern cotton belt and in the Pacific Northwest."

"In a large area that includes most of Texas, Oklahoma, Missouri, Kansas, Nebraska, the Dakotas and some adjoining portions of Arkansas, Illinois, Iowa, Minnesota, Montana, Wyoming, Colorado and New Mexico, all growing crops and pastures were seriously hurt and most of the corn was scorched beyond recovery."

Serious drouth effects also were reported on late crops including cotton, grain, sorghums, buckwheat, late cuttings of alfalfa and clover, emergency hay and forage crops, potatoes, sweet potatoes, sugar beets, apples and some late commercial truck and canning crops.

Loss of some gardens was characterized as "a serious blow to those living in the drouth States."

The forecast for oats, barley and flaxseed were all below those of a month ago and beans, soybeans, cowpeas, peanuts, sugar beets and broom-corn are all expected to give exceedingly low yields per acre.

Condition of pastures, regarded as one of the best indications of growing conditions was only 39.6 per cent of normal, compared with 55.6 per cent on August 1, 1933; 56.4 during the drouth of 1930 and averages from 62 to 70 in the drouth seasons of 1931, 1926, 1925, 1911 and 1894.

"Pastures are furnishing so little feed that many farmers are now feeding hay, corn fodder and other roughage that will badly needed next winter."

President Places 12 Cent "Bottom" On King Cotton

The 12 cent "bottom", which President Roosevelt has placed under cotton was described as a move to permit the south to market its cotton in orderly fashion. Farmers will not have to sell at prices should the quotations drop near future, officials said.

Several factors prompted the administration to announce Tuesday that the RFC through the Commodity Credit Corporation would increase its lending from 10 to 12 cents a pound on cotton, low middling or better. One is a threat of a widespread strike in cotton mills, which would tend to diminish the demand for the staple. There also has been a drop in consumption this year. If a grower decides against selling his cotton now, he can borrow 12 cents a pound on it from the govern-

ment. The regulations are expected to follow closely those issued last year when the government loaned 10 cents a pound. If that is the case the grower can keep his cotton over any period of price dips, then sell it, repay the loan and pocket the profit. If cotton should go below 12 cents and stay below, the government would face a loss. The market price now is more than 13 cents a pound. The President's action, in effect, pegs it at a minimum of 12 cents. Officials said privately they expected cotton to sell for 13

cents or more after the textile labor situation is straightened out. It is the view in official circles that no immediate action will be taken to make similar loans on wheat and cotton, although such proposals have been made.

Tire Company Moves Door South Present Location

The Hilliard Motor Parts Company will move the end of this week one door south of their present location on Phelps Avenue, into the building formerly occupied by the R. E. Biles Grocery.

This company has branched out, and established a business of the same nature at Clovis, N. M. Mr. Hilliard plans on taking care of the Clovis business, while Newman Holmes, who has been connected with the company here for sometime, will continue at the Littlefield establishment.

This Littlefield concern carries a full line of automobile parts, and Brunswick tires.

Revival Meeting In Progress At Amherst Baptist

A revival meeting has been in progress at the Baptist Church, Amherst, for the past week, with Rev. Joe F. Grizzle, pastor of the First Baptist Church, Littlefield, doing the preaching.

George Wilson, Indian singer of Albuquerque, N. M., is directing that portion of the meeting. The meeting will close Sunday evening.

I. O. F. District Meet to Be Held At Muleshoe Sept. 20

The South Plains District Convention of the Order of Odd Fellows will be held at Muleshoe September 20, when the Sudan lodge will be host.

It is expected that the Littlefield Lodge will be well represented. It is estimated that around 200 will attend this gathering.

Civil Service Examinations Are Announced

WASHINGTON, D. C. — Aug. 22 The following statement is made by the United States Civil Service Commission.

The Commission warns the public against jaying money for "coaching" courses in preparation for Federal civil-service examinations.

Schools which sell such courses under present conditions accept money under false pretenses. A purveyor of civil service courses is now under indictment in Iowa for false representation. It is expected that other such cases of prosecution will follow.

Comparatively few appointments are being made in the Federal civil service. Vacancies which must be filled are filled by the transfer of those in the service or the reinstatement of those who have been in the service, wherever practicable.

It is seldom necessary to announce an examination. In most cases registers of eligibles exist as a result of examinations held during the past year. When an examination is announced, the applicants are usually hundreds of times in excess of the need.

Money paid for civil coaching courses at this time might almost as well be thrown to the four winds.

NEWS BRIEFS

One hundred and eleven men and women will graduate from the West Texas State Teachers College, Canyon, on August 23, at the end of the 22nd annual summer season. Among those upon whom bachelors degrees will be conferred on them is Glen Daugherty of Olton.

Abernathy's long sought water system has been authorized by the PWA in a list of 215 non federal projects amounting to \$24,540,270 announced Friday. Abernathy will receive a loan and grant of \$26,000. The loan part will be secured by a bond issue.

Officials of the agriculture department has estimated that water levels throughout Texas are from one to seven feet below normal for this time of year as a result of drought conditions.

When cotton picking time is over in Texas this Autumn, approximately 125,000 individuals will have been required to gather Texas crop, estimated in latest reports at 3,000,000 bales.

It has been estimated by Standard Statistics Company that the aggregate farm income this year will be the largest since 1930. It is believed that agricultural income, including bounties, relief payments, etc., will approximate \$8,250,000 an increase of 29.9 per cent over last year.

FREE NURSERY SCHOOL FOR CHILDREN MAY BE ESTABLISHED IN LITTLEFIELD

Under the Federal Emergency Relief Administration it is possible to establish a Free Nursery School for children between the ages of 2 and 5. The Nursery School would care for these children between the hours of 9 a. m. and 4 p. m. Free lunches would be provided the children. A program embracing instruction play, food, and rest periods would be followed. A head teacher, assistant teacher, nurse and cook would comprise the personal of those employed.

An attempt to establish such a school here in the Basement of the First Baptist Church is being made. Those parents who are interested should go to the Baptist Church and give the enrollment information necessary to the committee, Mrs. H. W. Wiseman, Mrs. B. L. Cogdill or Miss Lula Hubbard next Monday morning at 10 o'clock before the school can be established.

An enrollment of 20 is required. However, a larger number may be enrolled.

Preference will be given to homes where parents are unemployed, or where it is necessary for the mother to work, or to children who are underprivileged.

Rural children are eligible to attend.

A good response will be necessary to put this school into effect, so the committee are anxious to get the names at once of those who are interested in seeing such a school established here. The school will continue throughout the fall months, and will be under the supervision of the Supt. of the local schools. Lecturers for the parents on child welfare will be secured whenever a Federal lecturer is available. The school will be conducted as a Demonstration School of its kind, and is designed for the purpose of promoting both a better type of citizenship and social conditions for the child in the home.

Two Grammar School Teachers Recently Resign

As announced by Prof. A. B. Sanders, Harvey Pool and Troy Foster, teachers in the Littlefield Grammar School, have resigned.

Mr. Sanders said that the Board would elect efficient teachers to fill their places in the near future.

Christian Endeavor Meet At Church

The Christian Endeavor met Sunday evening on the steps of the Presbyterian Church for their regular services. The program for the evening was led by Alcia Jones. The topic was "What Have I To Share?"

Another interesting and inspirational program will be given next Sunday evening at 7:30 at the Presbyterian Church.

Young People enjoy "Sing Song". The young people of the Presbyterian Church gathered at the Church for a "sing song" last Thursday night.

Between songs, table games were played.

Later in the evening watermelon was served.

After playing a few more games the meeting was adjourned.

School Equalization Board in Session

An Equalization Board for the Littlefield Independent School District, composed of Lee Bruce, George Ross and J. P. Ware, met Tuesday, Wednesday and Thursday of this week for the purpose of equalizing and in some cases reducing the taxes.

According to H. C. Arnold, Secretary, a number of reductions will be made.

POLITICAL ANNOUNCEMENTS

For Congress, 19th District: GEORGE MAHON, CLARK MULLICAN

For County Superintendent of Schools: F. O. BOLES, L. D. ROCHELLE

For County Judge: O. H. REEVES, SIMON D. HAY

For Commissioner, Precinct No. 3: G. M. VANN, ROY L. GATTIS

A Statement of Facts!

—OF VITAL INTEREST
—TO EVERY PARENT IN
—LAMB COUNTY

In 1931 Mr. Rochelle made a trip to Austin and urged A. B. Tarwater, State Representative of this district, to introduce measures that would change the State Aid Law so that all school buses would draw state aid. This was done while Rochelle was in office and has brought to Lamb County approximately \$100,000 in Additional State Aid.

With the large number of buses now operating for the schools of Lamb County, every boy and girl in the county now has the opportunity to ride to school, every day, on school buses FREE OF CHARGE! Every boy and girl in Lamb County has the opportunity to attend a full term of school, and every boy and girl in Lamb County has the privilege of attending high school.

Mr. Rochelle does not take credit for all of this, since some of the schools were operating buses before he took office, but he did do his part in securing state aid for the schools so that the buses could continue to run during the depression.

Mr. Rochelle made ten trips to Austin to help Lamb County GET MORE STATE AID THAN ANY OTHER COUNTY ON THE SOUTH PLAINS. Six of those trips were made at his own expense, three were financed by the school districts, and one time by the County Board.

THROUGH MR. ROCHELLE'S CONSISTANT WORK LAMB COUNTY IS GETTING MORE STATE AID THAN ANY OTHER COUNTY ON THE SOUTH PLAINS!

In the first primary, Rochelle led both of his opponents in the Amherst school district which includes both Amherst and Sod House voting boxes. Rochelle and Moore received a majority over Boles in the Littlefield School District which includes both Littlefield and Bainer Switch voting boxes.

AND READ THIS

In the first official count by officials in the first primary Rochelle was credited with only 128 votes in the Olton box. THIS WAS AN ERROR! A check by officials showed that Rochelle received 228 votes in the Olton box. Here's the proof:

TO WHOM IT MAY CONCERN:

There seems to have been some mistake made in the publishing or reporting of the official ballots cast in the July Democratic Primary as to the votes cast in the County School Superintendent Race in Precinct No. 1, of Lamb County, Texas.

The following is the vote cast for each candidate in the race for office of County School Superintendent as shown by the check of the vote cast in Precinct No. One Lamb County, Texas.

T. M. Moore Received	175 Votes
L. D. Rochelle Received	228 Votes
F. O. Boles Received	294 Votes

This statement is made by the undersigned for the purpose of correcting any erroneous report or mis-print heretofore made.

Respectfully,
GUY WILLIS, Chairman,
Democratic Executive Committee, Lamb County.

For REPRESENTATIVE, 120th DISTRICT

The July Primary disclosed the fact that a majority did not favor A. B. Tarwater; that several thousand voters did not vote; that promises made and not fulfilled will reverse the votes of A. B. Tarwater; that many votes in the Legislature would not be approved by the voters if they had a way to know the facts; that his promises to get highways designated and constructed by the Commission failed.

He failed in all his efforts to get over the "Oleomargarine Bill". Several claim the distinction of getting over the gas refund to the farmers. Tarwater has never explained the bill in full to any audience. He never explained his efforts in redistricting the State for Senators and Representatives.

He has never explained why so many sessions of the Legislature in matters of the relief bonds. He has never explained why certain interests with headquarters at Austin wrote many letters to voters in his favor. He does not and cannot show by the records any great constructive measure he introduced and passed in his six years at Austin. Six years is too long a term. Elect a new Representative.

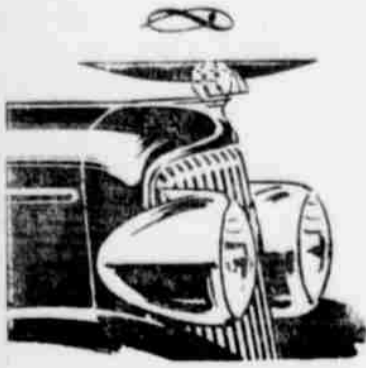

Mr. Tarwater has never explained why he voted to refund all counties that had constructed highways before constructing highways in counties that have none. Mr. Tarwater never discusses his vote on pari-mutuel race betting. (H. B. No. 12, Nov. 3, 1933, House Journal, Second Called Session, 43rd Legislature). In the gasoline refund to farmers, Mr. Tarwater has never explained that other interests receive more refund than the farmers.

If you want to build highways in the counties of this district.

Chicago, Ill., August 16. (Special)—Seven years ago today, backed by the faith and the financing of Frank Phillips, Oklahoma oil man, an unknown movie stunt flyer headed west from San Francisco's Golden Gate on a flight which was to perch him on the pinnacle of popularity. The unknown stunt flyer was Art Goebel. After flying for 26 hours over the Pacific, Goebel landed in Hawaii, winner of the \$25,000 Dole prize and an international aviation hero. He is shown above, (left) as he appears today. In the center are Goebel and his backer and friend, Frank Phillips, standing by the Woolaroc, the monoplane which carried Goebel on his historic hop. At the right is Phillips, president of the Phillips Petroleum Company, after whose ranch in Oklahoma's Osage hills the Woolaroc was named. Since winning the Dole prize, Goebel has been engaged in test, stunt and speed flying. He is now back with his friend and backer, skywriting with smoke the name of Phillips products over the crowds at A Century of Progress and elsewhere throughout the middle west.

CHURCHES

FIRST BAPTIST CHURCH Rev. Joe F. Grizzle, Pastor

Attention is called to the fact that Sunday closes another Associational year, it also closes the fifth year work of the pastor. The day's services will be as follows:

9:45 - Sunday School - Let's fill the departments Sunday Morning.

11:00 - Song program.

11:20 - Sermon, Rev. Sol L. Carpenter will be with us for the morning services and in the absence of the pastor will preach.

2:45 - The regular quarterly meeting of the West Plains Sunday School Association will be held.

7:30 - B. T. S.

8:30 - Evening worship. The pastor will be home for this service, every member of the church is urged to be present, as an important business session must be held.

We invite all who can and will to worship with us.

METHODIST CHURCH

JOHN W. HENDRIX, Pastor

The subject of the morning sermon is, "IS GOD BUSY?" if the God that made this world is busy, one of such energy and power, what is he doing? Where is he now laboring? Doesn't it seem some thoughts along this line would be of interest? The evening subject is, "THE RAGE OF CRIME." Wouldn't it be about the proper time to consider very thoughtfully, frankly, with sane approach, our present bent on gambling? Suppose we do this Sunday evening at 8:30. It was our fear we would have a time with our evening worship. But our attendance has held up even during the hottest weather. This is certainly appreciated very keenly.

Church school opens at 9:45 a. m. and closes 10:50 a. m.

Public Worship opens at 11 a. m. sharp and closes at high noon.

In the evening at 8:30 and closes at 9:30.

Leagues open at 7:45 p. m.

It isn't difficult to place these hours on your calendar for the sabbath. You can count out that time exactly. Out of seven days is it unreasonable to ask one dedicated to worship. Out of 168 hours, is it unreasonable to suppose one give two hours per week to public worship. The Lord and his Church seem very reasonable indeed.

THE FIRST PRESBYTERIAN CHURCH

Pastor - Hubert Travis

All Presbyterians and people who desire to worship with us are invited to all four services at our church next Sunday. Church School at 10 o'clock followed by the morning worship service at 11 o'clock and the Young people's meeting at 7:30 after which the evening Worship Service will be at 8:30.

Summer days are quickly drawing to a close so we are expecting a larger crowd next Sunday. Sunday night will probably be the last outside service for this year. Come out and help us make it a success.

Here's Ample Reason Why LAMB COUNTY Should Support

James V. Allred FOR GOVERNOR

STATE OF TEXAS, COUNTY OF LAMB.

TO THE FARMERS OF WEST TEXAS

We, the undersigned farmers of Lamb County, Texas, who know and appreciate what Attorney General James V. Allred has done for us desire to make this statement in view of the fact that his big oil man opponent, Tom P. Hunter, is charging that the big corporations and combines are for Allred.

All of you farmers of this section of the state will remember that about the middle of October, 1931, cotton seed was selling for \$6.00 per ton due to the monopoly of the oil mills. About the 10th day of October, 1931 three of us dirt farmers sent a telegram to Allred asking help in getting the price of cotton seed in this oil mill district in line with the prices that were being paid in other places over the state. This telegram was not sent by a corporation or the West Texas Chamber of Commerce or any of the big boys, but by poor cotton farmers in distress. On October 17, 1931, two investigators for the Attorney General came to J. W. James' farm on Route No. 2, Littlefield, Texas, and on this date cotton seed was selling for \$6.00 per ton. The investigators began their work on this monopoly, and on October 21, 1931 cotton seed rose to \$8.00 per ton and two days later, October 23 cotton seed rose to \$10.00 per ton, and on the next day cotton seed rose to \$11.00 per ton and a week or so later seed went to \$13.00 per ton. If you farmers doubt this look up your tickets and see. Lamb county that year ginned 72,000 bales of cotton and about 20,000 bales had been ginned before we farmers sent the telegram to Allred. James V. Allred's help to us in this county in that year meant in dollars and cents to us at least one hundred and twenty-five thousand dollars (\$125,000). We know that the farmers of this county and of West Texas when they learn this will be one hundred per cent for James V. Allred for Governor. Allred never failed to come to our aid when we asked him. Shall we permit the oil monopolies, trusts and corporations to destroy him now? Farmers, Let's Go Ahead With Allred.

Witness our hands this 14th day of August, 1934.

- W. J. CARTER J. W. JAMES F. H. GLAZNER

Allred does not favor a sales tax, such as his opponent - a wealthy oil man. The Sales Tax once proposed by Hunter in a letter to Allred would shift a large part of the taxes from the large oil companies on to the already over-taxed middle class.

Let's Put Jimmy Allred in the Governor's Chair... He has proven his friendship for Lamb County and West Texas... A Man who understands our problems... will discuss our problems WITH US and see that we get our just dues!

TODAY'S FASHION HINTS VERY LATEST By PATRICIA DOW

Designed in Sizes 1, 2, 3, 4 and 5 years. Size 4 requires 2 1/2 yards of 35 inch material for both dress and panties. 2 yards of 1/4 inch bias binding is required.

FOR WEE MODERNS

Pattern 8284 — Wee moderns have a great deal to say about what they will wear these days and they invariably choose a clever outfit like the one pictured with simple and pretty dress and even more simple panties to match. The pleats are held in place by cross stitching on the shoulders and the full sleeves are gathered into the armholes and trimmed with bias binding which also trims the neck.

The little panties are cut in one piece and held in place by an elastic inserted in the hem at upper edge. Small daughter will love this set and look exceedingly sweet in it.

BUSINESS MEN PUT ON STEAM-WIN FROM OILERS IN SNAPPY AFFAIR FRIDAY

Last week, Friday night, the oilers and businessmen strutted their best to capture a well played contest in good form, with the Businessmen coming out with flying colors.

After holding the enemy to no runs for three frames Baize, Oiler chunker, weakened as did his cohorts on the field with their ragged play at critical stages that looked quite uncalculated for, and paved the way for the Stone team.

Things remained unsettled until the last man was out with the Oilers going strong in the 7th, only to fall short with apparent victory in their hands.

I. R. Eagan, was credited with the win though he got himself into more than one tight spot, before the game ended.

Antonites Cop Tilt With Oilers To Tune of 9-5

The Antonites Wednesday of last week invaded the local softball orchard matched with the Hawthorne Oilers as their hosts. The Oilers drew first blood when they pushed a score in the first round of play. In the second however the siege guns of the Mackley crew got their range on pitcher Baize and shelled hits to all corners of the lot amassing a very nice lead of four tallies. They continued their winning ways by counting in the 3rd, 4th, and 6th stanzas, while the Oilers made their final gestures in the 3rd, 6th and 7th innings to fall short of the game. The Antonites handled themselves well under the lights and hustled to top the score.

Lutherans Step On Legion And Win; Score 8-7

Last week, Wednesday night, Aug. 15, the Lutherans gave themselves a surprise, when they rallied at the expense of the Legion forces in the 5th inning registering four scores after the veterans were coasting along envisioning another win, but when the smoke and dust had cleared away the cellar holders were in complete possession of their first-victory.

Wade Potter, Legion hurler fared well until the fatal 5th, when all things worked together for the good of the Lutherans. The game was filled with a general assortment of both good and bad plays, and the outcome won favor with fans who were eager to see the cellar occupants get into the win column.

School Faculty Win From Allstars By Score 11-8

The School Faculty Thursday night continued their pace as leaders in the second half when they put on a final spurt to grab a hard fought tussle with the Davenport crew.

Both clubs alternated in taking the lead at different stages of the game by staging abbreviated rallies in the 2nd, 3rd and 7th innings. It was a contest that was filled with color and class with the faculty showing up best and untying the count in their behalf of the 7th. Cotton Eagan and Jim Davenport opposed each other on the hill for their respective clubs.

Local Band To Give Concert Saturday Afternoon

The Littlefield High School Band under the leadership of A. B. Taylor, will give a concert Saturday afternoon, August 25 about five o'clock on Phelps Avenue.

Mr. Taylor reports a number of new members have been added to the group, making it a bigger and better band. They have been putting in considerable practice, and are doing splendid work.

According to the band master, a number of the boys have been absent during the summer, but they are now returning, and with the number of additions recently he, he expects to have a fine organization by September 1.

Sunnydale Takes Hot Contest From Firemen, Score 4-3

In a contest Thursday night marked with all the fire and dash of a championship contest, and with all the scores being made in the first frame by both clubs, the battle raged the other six innings without another score being made by either club.

Cate was on the mound for Sunnydealers with Lyle Brandon catching and Scott firing their across with Captain Bob Cox directing play as the receiver.

A change in the lineup of the firemen due to injuries spelled the difference of winning and losing for the firemen. Future clashes between these two clubs will hold the spot light with all the fans.

School Faculty Eek Out Win Over Oilers Monday Night 4-3

Last Monday night the Hawthorne Oilers and Earl Hobbs with his Educators locked horns on the soft-bull grounds in a hard fought tussle to see if a jinx may overtake the fast travelling School outfit or not. Things looked favorable until the final verse was sung when the School boys had the last say and came out one to the good. This put them out ahead of the field by a nice lead and they will be the target to shoot at for at least another week or two to say the least.

The Oilers made several strong bids to cause the downfall of the School forces but their punch was lacking at the proper time. Cotton Eagan and Baize were the opposing mound artists with Eagan getting the edge in the duel.

Firemen Grab Win From Legion Boys By Score 8-5

Last Monday night the second contest between Bob Cox and his Firemen and Art Mueller and the American Legion Club defied each other for a lively seven rounds of soft ball. With the game lead being in favor of the Legion in the early innings, and then as the 5th inning rally ended the firemen let it be known that they were in need of a victory to keep in pace with the first division group. The Legion forces failed to click the last two innings to over-take the three run lead gained by their adversaries.

Wade Potter, had the firemen hitting in the dirt for five innings but in the 5th misplays a base on balls and a safety or two spelled his downfall. Scott who got off to a weak start shook off his early jinx and survived with another scalp dangling from his belt.

Businessmen Nab Contest From Sunnydale, 4-3

The rejuvenated businessmen's soft-ball entry dug their spurs into the sides of the smooth working Sunnydale team and came out ahead by a nose in a very warmly played game in Tuesday's program under the lights.

This win for the businessmen put four teams in a tie for second place in the league standings. The Firemen Legion, Businessmen, and Sunnydale have each won four contests and lost three to date.

With Bob McKnight, newly converted pitcher, who was transferred from the School Team for Coach Barksdale a catcher, put Stones' team up on an even keel with other clubs in the league and will make them dangerous contenders for the second half of play.

Won't You PLEASE Make This Test—

WE KNOW IT WILL SAVE YOU MONEY — AND YOU'LL THANK US FOR CALLING IT TO YOUR ATTENTION!

In justice to yourself we urge you to try a Hi-Test gasoline that's sold by a LOCAL INDEPENDENT DEALER that we KNOW to be as good as you can buy from any large oil company.

We are speaking of Hi-Test Bronze Gasoline. It's a product that WE WILL STAKE OUR REPUTATION ON. We know that it's the best that money can buy, and it cost you only 17c per gallon.

Don't let the low price scare you. Sure it's lower than the higher priced gasoline sold by the larger companies . . . and we GUARANTEE it to be as good, but we can sell it lower because we cut out HIGHPOWERED operating expense.

We have no high-powered executives that draw thousands of dollars per year salaries. We buy direct from the refiners, sell direct to the consumer, and save money by DOING OUR OWN WORK.

Won't you drive by and try a tank full . . . we know you'll say there's none better . . . and thank us for calling your attention to HI-TEST BRONZE GASOLINE.

ATTENTION! VOTERS!

This is an earnest plea from voters of the Rural school Districts of Lamb County, or from voters of the only four schools now operating outside of incorporated towns, to the voters in the Sudan, Amherst, Littlefield, and Olton school districts. Let us show you by actual figures from The Lamb County Democratic Executive Committees official tabulation of votes from the first primary that we overwhelmingly favor a change in County Superintendents. Our school districts comprise approximately the six voting precincts listed below:

	For L. D. Rochelle	For His Opponents
SPADE	75	233
HART CAMP	9	86
FIELDTON	39	114
SOUTH OLTON	15	27
CENTER	22	33
SPRING LAKE	91	176
TOTALS	251	669

In other words, the present County Superintendent received—
ONLY 27 PER CENT

of the votes in our districts. (F. O. Boles received more than half of the remainder.)

Ours are the districts that need the services of a County Superintendent most. The present County Superintendent has served FOUR YEARS. We are ready for a change as our votes in the first primary clearly indicate.

WE WANT YOU TO HELP US MAKE A CHANGE

Furthermore, we want to call your attention to the facts that four years ago when the present County Superintendent was elected, that—

1. Our schools were operating on a full term basis as at the present time.
2. We had high schools in every community where we now have them;
3. The schools which are now transporting rural pupils were doing so at that time.
4. The county superintendent has no power to reduce taxes or expenses, nor does he have the power to grant State Aid.

F. O. Boles has convinced us that his pledge to serve all schools of Lamb County with absolute impartiality will be carried out to the letter.
