### Janitor Needs Everyone's Help

Mornings when I arrive early at school, I often notice Mr. Massey, the Littlefield High School janitor. He speaks of it, and I once thought how we students regard him. Is he part of the fixtures we notice or associate with the school or is someone we respect and revere? What about the janitor which we know so little about, yet are used to taking for granted as in this case maybe by an abstract individual that one notices? The question arises: Well, so what? What difference does it make? What can I do about it?

forms a specialized task; highly necessary to the school. Organizations or clubs within the school have an integral part as structurally and essentially they make up a good student body. Not completely different, though, is the work of our janitor. The work of students progresses, grows and ends with the nine months we attend school. Mr. Massey has an unending, monotonous, and extensive responsibility which none of us as students are yet familiar. To begin and enumerate every phase and work of the janitor would more than fill a column. Most of us have some idea of the janitor's work. He cleans, waxes, and mops floors

in corridors, classrooms, stairs and the gym. He repairs, cleans, and moves desks in every classroom. He cleans windows, changes light bulbs, empties waste paper baskets, disposes of all trash, and keeps the grounds clean. All of these tasks in addition to work in the boiler room, lunchroom, and the problem of heating and ventilating the entire building.

You may say, "Yes, that may be true, but he is hired to do his work and what difference can it make to me?" There is of course no responsibility we have in comparison to Mr. Massey's, although it might make some difference how we take care of our building. It is how much pride and respect we have for our school which generates enthusiasm in helping to keep our building new.

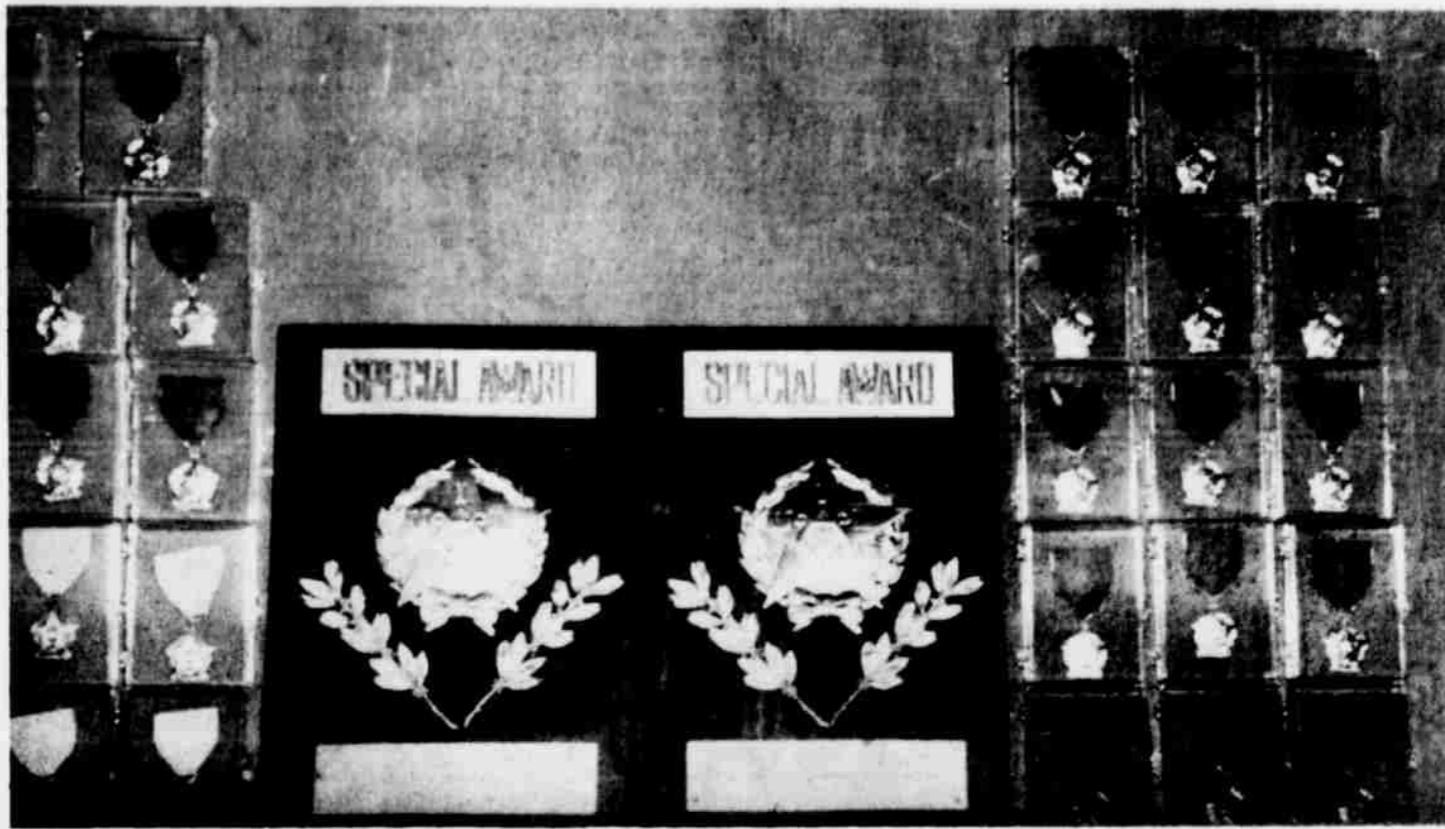

Are you going to take any of this personal responsibility? By helping to keep paper off the grounds, by being careful not to mar or scratch the building and by cleanly and carefully using all facilities provided for our sakes. We can help our janitor and thus show him the respect he and his work should receive. At the same time we are lengthening the life of the building which our children will someday use.

Maybe all this seems a little "far-fetched", but it's time we showed those around us a little kindness; it won't hurt us, and it might help our school.

### Bake Sale Planned By LHS Athletes

Members of the LHS Varsity football, basketball, and track teams are asked to bring their cakes to school Friday morning for the Wildcat Bake-sale to be held during fourth period Friday.

The purpose of the bakesale is to partly reimburse the Student Council for the expense of the Athletic Banquet held last February.

VOCAL AWARDS FROM DISTRICT -- Pictured above are just a part of the plaques and medals won by the LHS choirs, ensembles and individual soloists Saturday at the district In-

terscholastic League contest held in Levelland. Included in the winnings were two sweepstakes, 29 first divisions medals and several second division awards.

### 29 Firsts Counted By Singers

Littlefield choirs came home from Levelland with two sweepstakes awards and twenty-nine first divisions medals for solos, ensembles, and student conducting. Eighteen of the awards were for Class I solos and ensembles.

The greatest thrill of the contest came as the Girls Choir, composed of all the girls in the high school choral program, received a standing ovation from the representatives of the choirs participating in the festival. The success of this choir set the pace for the further triumphs of the day.

The Boys Choir and Junior High Choir both received two second divisions. Solos and ensembles receiving first division awards were:

First Madrigals, composed of Janey Blackmon, Jane Dunigan, Linda Walthall, Christi Smith, Phillip Hughes, Tim Chambers, Jackie Heffington, and Keith King; Girl's Trio, composed of Linda Williams, Cheryl Deaver, and Florine Grote; Girls Trio, composed of Brenda Perkins, Janelle Jensen, and Linda Dale; David Jones, student conducting; and solos, Bob Badger, Randy Hutson, Brenda Perkins, Christi Smith, Trudy Grizzle, Florine Grote, Joyce Thompson, Steve Lowe, Janelle Jensen, Fay Ivie, Jack Heffington, Sue Hebel, Eva Mae Davis, and Cleo Harrell.

Those receiving second division awards were:

Ruth Ann Zoth, Cheryl Deaver, Linda Williams, Clifford Smith, the Jackson trio, Patsy Russell, the Boys Quartet, Second Madrigal, Ray McKinney, David Jones, Melva Lynn Ross, Judy Penn, Janis Koller, Linda Dale, Keith King, Mike Cunningham, and Betty Jean Taylor.

### Band Contest Is Saturday At Lubbock

Saturday will be the climax of several months of work for many Wildcat and Junior High Band members. This group will travel to Monterey High School in Lubbock for the annual Interscholastic League Solo and Ensemble contest.

All entries were worked up by the student's time. Judges are not known at this time.

### King's Korner

BY KEITH KING

The Junior Play presented a week proved to be one of the most enjoyable evenings spent in a long time. I think all the actors did a fine job. Linn Kirby and Sharon seemed to feel a little out of home in their parts as did the others, but after they are high school girls acting as they played. Billy Simpson received a lot more than anyone else.

Day will be next Saturday. Sigafos and I did some research into this man for the Korner but found only a few facts since most of his life is clouded in legend. One fact which we found out was that St. Patrick was not only an Irishman, but he originally migrated from Walge, it seems he was driven out by the Druid priests and representatives of the local snake charmer's union.

I've always wanted to see a big St. Patrick's Day Parade. With their green banners, shamrocks and shillalah waving in the breezes they march proudly along the main streets of the town. Celebrating in the best Irish tradition, all the O'Casey's, Mulroony's, IRA veterans, and Rosanelis, adding to the spirit of the occasion. Well, as Sigafos has often said, "You must have kissed the Blarney Stone -- you've got moss all over your lips." Happy Erin-go-braughs to each and every one of you.

### Larry Ford Chosen Teacher Of The Week

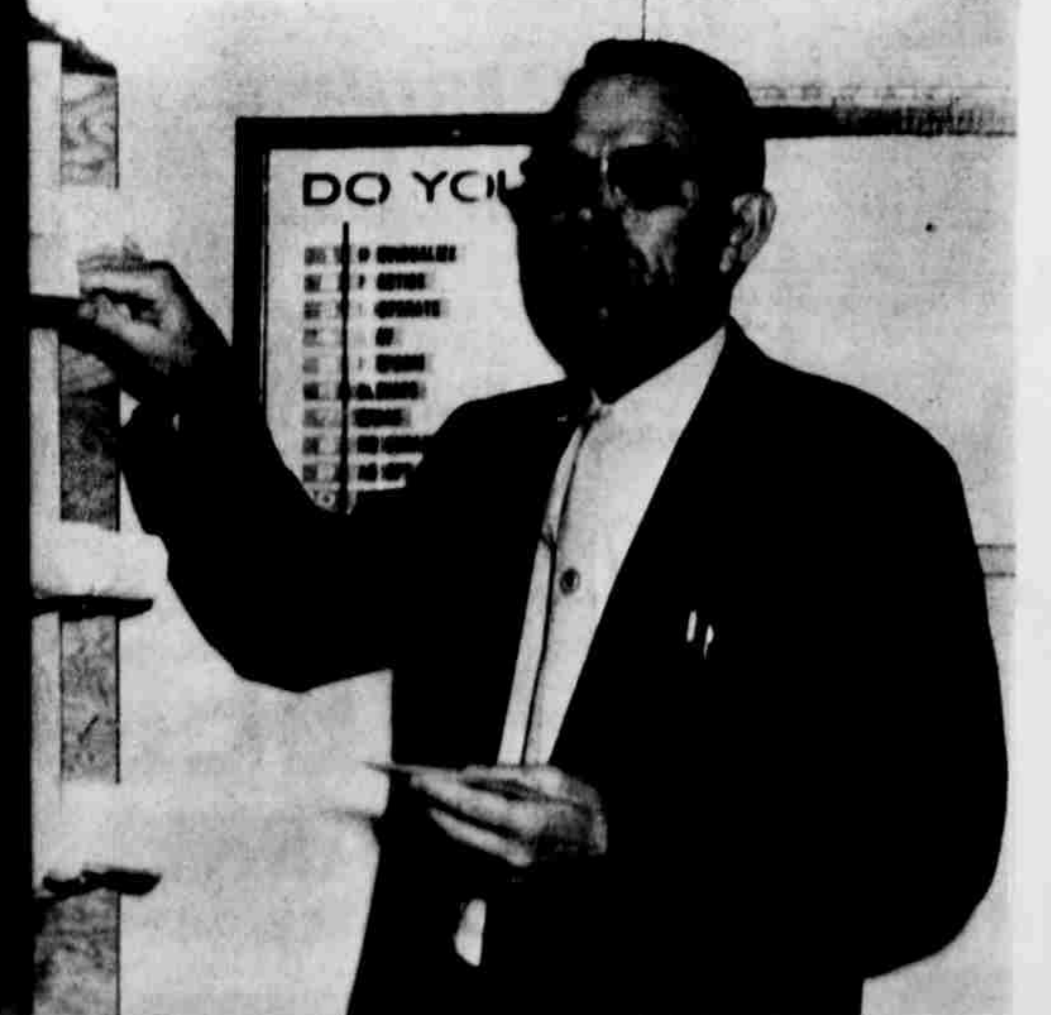

To drive a steam locomotive is my first ambition," stated Larry Ford, teacher of the week. "I suppose that had been my only concern. I decided to become a teacher by the time I finished high school."

Ford spends each of his summers in various and interesting ways. Last summer he spent his time working in medical research at the Veteran's Hospital in Oklahoma City. He commented, "Sometimes I go to school, but I always try to get off to Colorado fishing each summer. This plane geometry and physics teacher received his BS from Southern State College in Weatherford, Oklahoma

and his Masters from West Texas State.

When asked how he thought L. H. S. could be improved, Ford replied, "Hard work on the part of every citizen with each willing to do his part in every way is the best way to improve any school."

"No school ever reaches the point where there is no room for improvement. Let's try to make ours the best ever," he concluded.

I don't think Johnny and me will never go together again. I just have that feeling that we won't. To me it seems like we haven't ever broken up. But I know better than that.

Buddy, did you and Boots have fun at W. T.? Did you see the people you were supposed to see?

Congratulations Choirs! L. H. S. is proud of you. Frank, you're stuck-up! Can't you ever be nice to your best friend?

We have some new twisting postmen. Tables turned didn't they, Pat.

This was the week-end of travel for LHS'ers. Diane went to Arlington, Frank, Yogie, Bill Ed, and Billy went to North Texas.

Attention! Friday is the Wildcat Bake Sale. Start saving your money girls.

J. E., you should pay more attention in English class, when Mrs. Lynn is addressing you. Fern: Who did you ride around with Sunday night? Did you have fun Friday night?

Judy: Did you have fun honking that horn Saturday? Janet: Those are very interesting letters you write to Kenneth.

Ray: Who won the fight with the razor blades?

Joy: What do you think about Donna writing Raymond?

Randall, How many pounds have you lost???

### Menu

Monday: Hot dogs, tossed salad, chip-o, milk, cookies & fruit salad.

Tuesday: Chicken, scalloped potatoes, green beans, rolls, milk, pumpkin pie.

Wednesday: Soup, sandwiches, green salad, milk, donuts.

Thursday: Bar-B-Que, baked beans, potato salad, rolls, milk, apple sauce.

Friday: Beans, spinach, sour kraut, cornbread, milk, cobbler.

### LCC Gives Assembly Program

An assembly was presented to the students of Littlefield High Thursday by Lubbock Christian College. The band was directed by E. Joe Lee.

Among the selections played by the band were "Night Train," "Quiet Village," "St. Louis Blues," and "Highlights from South Pacific."

Soloists were Carol Vaughn, Carlsbad, New Mexico, Sharon Fields, Morenci, Arizona, and Ronnie Heuss, Belton, Texas.

Also taking part in the assembly were "The Wayfarers", a male quartet. The quartet consisted of Chris Ayers, Buckeye N. M., Danny Parker, Lamesa, Larry Kingsley, Spearman, and Bruce Casada, Boonesville, Ark. Sharon Fields sang a selection and a trio, consisting of Chris Ayers, Danny Parker, and Larry Kingsley, sang selections.

### Volleyball Gals Lose

Volleyball girls journeyed to Plainview Friday night to meet Seminole in defeat. They played against Plainview Saturday noon and were defeated.

The girls who played are: Nell Johnson, Lola Rankin, Carol Black, Joann Rhodes, Barbara Brown, Wynona Grote, Pat Thornton, Rebecca Villa, Cindy Phillips, Olga Silvas, Joyce Zy-bura, and Skippy Davis. They were accompanied by Molly A-beyta, Linda Walker, Manuela Rodriguez, Rudene Williams, Gloria Martinez, and Eloya Gonzalez.

The next game is scheduled in the Levelland tournament. The exact date and time is not known as this time.

### Editorial Education Important

High School educations are a must for young people of today.

Some of our young people think an education is not important to them. It is very important to every person who plans to do anything worthwhile in life.

It is becoming more and more difficult to acquire a job if you (See Education on Page 8)

DE SPOTLIGHT -- Randy Ammons has been chosen as this week's D. E. Spotlight. He is the son of Mr. and Mrs. Rex Gilstrap at 1021 Duncan Ave., Randy is a Senior this year. He is photographer of the D. E. Club and is presently employed at the Littlefield Press.

### Pickrell, Williams Are Students Of The Week

The students of the week this week are Twila Pickrell and Bobby Williams.

Twila is one of the seniors who is hoping to graduate soon. Her favorite color is blue and her favorite food is steak. Twila's exceptional class is Government.

After graduation, she plans to attend Texas Women's University. She is employed at Ray Keeling Buick as a book-keeper. She can usually be found on the road between Littlefield and Fieldton or downtown.

Bobby is also hoping to graduate. His favorite food is broil-

ed steak and his favorite color is black. His favorite class is Vocational Agriculture.

Bobby plans to attend West Texas next year. When not killing time doing something else, he is running around or working on his car.

## Sandhills Philosopher

### Philosopher Looks At Educational System, Backs Off In Fright

Editor's note: The Sandhills Philosopher on his Johnson grass farm looks at education this week, but not for long. Dear editor:

I'll admit before I get started that some people will say a farmer hasn't got any business trying to solve the educational problem when he can't even solve the agricultural problem, but actually the very time to switch to some other problem is when you can't handle your own.

I read in a newspaper last night that educators have been looking closely at the educational system in this country and in

a meeting in Chicago the other day an expert from the U. S. Office of Education said the traditional 12 years of public education should be increased to 14.

He said the reason is that 12 years is not long enough to prepare a boy or girl for modern life, even if they're going on to college.

"The present 12-year program of elementary and secondary education is not strong enough for an era in which the body of man's knowledge doubles every 15 years," he explained.

I have been thinking this over

and have come to the conclusion that this expert is wrong. The way I figure it, if the body of man's knowledge doubles every 15 years, a 14 year school period is far too short. If a boy learned everything there was to know in 14 years, the year after he graduated he'd still have to do all over again, as the body of knowledge would have doubled by then. Even if he stayed in school all his life and made 100 on every subject on every report card, he couldn't keep up and would die a comparatively ignorant man.

Also, if total knowledge dou-

bles every 15 years, what about the teachers? If they don't stay in school themselves full time, 12 months a year, no time out for teaching, every 15 years they're 100 percent behind.

And also, when you consider the fact that knowledge is mounting up even on Saturdays and Sundays and during summers when kids aren't even in school you can see it's impossible for anybody to ever be truly educated for longer than possibly ten or fifteen minutes at a time.

In the future, I think I will stick with solving the farm problem.

Yours faithfully,

J. A.

## Pecan Trees Planted At Foundation

Seven varieties of pecans were planted in a new research project at the High Plains Research Foundation on February 17. One hundred pecan trees were supplied by John Speck and Robert Meincke from their nursery near Olton.

The varieties included were: Western Slyde; Improved San Saba; Burkett; Wichita; Barton; and Peroque. Two year tops, grafted on five year root systems were used in the planting. The trees were planted forty feet apart, twenty-seven trees to the acre in this experimental orchard. They were planted south of the new headquarters building and greenhouse, west to the Farm to Market Highway 1070.

There are several commercial pecan orchards in the area, most of them in the experimental stage, just beginning to bear.

Dr. Thomas C. Longnecker, Director of the Foundation said, "The pecan testing will be observed through the years to see if pecan raising can become a cash crop in this area."

## Soil Is Measured By Its Productivity

The true measure of an agricultural soil is its productivity. The object of the Lamb Co. Soil Conservation District is to encourage the application of conservation practices. This encourages the using of the best possible combinations of soil qualities and cropping systems for economic sustained production. Soil Fertility is the quality that enables the soil to provide compounds in the proper amounts and balance for the growth of plants. Other factors such as light, temperature, moisture, and physical condition of the soil must also be favorable.

Sometimes nutrient deficiencies can be masked and can be induced by other factors. One of these limiting factors is the Organic Matter status of your soil. One-third of the organic matter has been lost in the Great Plains over what was originally present. We are beginning to see soils that will react to nitrogen but soil organic matter is so low that we do not have good soil structure. Fertilizer is nearly always needed regardless of the soil or crop, espec-

ially on irrigated soils, the real efficiency of fertilizers can only be increased by better management practices such as the carrying out of good crop rotations or applications of mulches to maintain the organic matter level of your soil.

Organic matter is an essential constituent of all normal productive soil. It is the natural source of soil nitrogen. Nitrogen is necessary for the soil organisms that live on crop residues, breaking them down and releasing the plant foods for crop use. Organic ac-

ids and carbon dioxides are released, which in turn act on the soil minerals, making soluble the essential mineral plant foods. In addition organic matter promotes soil organizations and permeability.

Barnyard manure is one of the most valuable sources of organic matter. A ton of barnyard manure contains about 10 pounds of nitrogen, 5 pounds of phosphoric acid, and 10 pounds of potash. The value of barnyard manure as a soil conditioner far exceeds its value as a fertilizer. It promotes aeration, soil aggregation and permeability of the soil, as well as increasing the bacterial activity. Manure makes a clay soil more stable.

Alternative methods for in-

creasing organic content in soils is the growing of fertilized high residue crops. Fertilizers applied to residue crops such as sorghums and small grain will promote rapid and heavier growth. Thus putting a higher tonnage of residues back in the soil.

### The 4 that goes around acting like a V-8... Tempest!

Used to be that people swore by V-8's and V-8's alone. And then along came Tempest's punky 4 to steal their thunder. The hottest version\* of this 4 (166 hp) puts out more horsepower than any other production 4 in the world. More torque, too. And every version, standard 10 hp on up, is smooth and silent and effortless. About the only thing Tempest doesn't share with the big boys is its appetite for gasoline and spare parts. Try a drive in a Tempest soon, hear? You might as well save while you're swinging! **Pontiac Tempest**

STATE CAPITAL Highlights AND Sidelights by Vern Sanford

AUSTIN, Tex. -- State campaign headquarters for candidates for Congressman - at-Large report that considerable confusion exists about this particular race.

Many voters seem to think that the various candidates for Congressman - at-Large are running against present office holders. Namely the Congressmen now representing the various Congressional districts in the State.

They are not! This is a statewide race wherein Texas gets an extra Congressman -- representing all the people of Texas, not just a district.

This office is being created because the population of Texas has increased sufficient to entitle it to an additional representative in Washington.

The Texas Legislature has the right to re-district the state to provide for an extra Congressman. But the Legislature has not yet done so. Alternative therefore is to create a statewide position.

Therefore, the following candidates are competing against each other for his high post and not against any present office holder: DEMOCRATIC PRIMARY: Judge Woodrow Wilson Bean of El Paso; Manley Head of Austin; Warren G. Moore of Tyler; Joe R. Pool of Dallas; Charles H. Stevenson, Jr., of Corpus Christi; Russell T. Van Keuren of Houston; and Phil Wil-

lis of Scurry. REPUBLICAN PRIMARY: Desmond Barry of Houston; Giles E. Miller of Dallas; and Joe B. Phillips of Lubbock. A Congressman - at-Large race is not without precedent in Texas. The same thing happened in 1952. Martin Dies was elected and served from 1952 to 1958.

THUNDER FROM THE TOP -- When GOP's from all over the state gathered in Austin for the State Republican Executive Committee meeting Monday, democratic pressure to hold primaries in every precinct was a topic of conversation.

Jim Leonard, GOP executive director, criticized the SDEC for urging county clerks to refuse to place Republican candidates on the November ballot unless the Republicans held a primary in every precinct. Leonard charged that it was the same as asking them to break the election laws.

He likened the democratic announcement to "thunder from the top," and called the issue a tempest in a teapot and a compliment to the growth of his party in Texas.

TEXTBOOK CHOICES POSTPONED -- The State Board of Education voted to postpone the decision of whether to reorder high school solid geometry, economics and shop texts, as well as one on driver education, until the matter or revising these courses is decided. Several board members also

Rehearsals Are Underway For Senior Play

Members of the cast for the Senior Class play have been named and rehearsals are underway for the event to be presented March 23. Price of admission will be \$1.00 for reserved seats; 75¢ for general admission, and 25¢ for the afternoon matinee.

Named to the cast have been Sue Lynch, W. B. Gwyn, Kay Austin, Jan Fisher, Randy Humphreys, Minerva Padilla, Anita Whitmire, Scrapy Wingo, Dale Masten, Doris Holt, Ramon May, Gale Masten, Karen May, Butch Dykes, Zelma Conley. Student stage directors are Jimmy Ford, Damon May, Lonnie Narramore.

In charge of the rehearsals for the play "Reserve Two For Murder" are class sponsors, Mary Tollett, and Dempsey Watkins.

The members of the Student Council of Sudan High School met recently when delegates to the State Convention to be held in San Antonio, March 28, 29, 30, were named. Those selected to go were Jim Savage, Ramon May, Candace Mudgett, Kathy Barnett.

asked a committee to read the economics textbook, because they objected to its content. Objectors all were attorneys. Penrose Mercalle of San Angelo asked to hold up on the drivers' course text, because he questions a recent decision to change this class from eighth to ninth grade.

He said some West Texas superintendents want it kept in the eighth grade, since most of their students drive by that time, anyway. He will ask for a vote at the April meeting, to put the course back in the eighth grade.

WATER WORK DIVIDED -- After 10 years, Vice President Lyndon Johnson finally got an answer as to who will do what toward implementing the \$4,000,000,000 plan to provide for Texas water and soil conservation, flood control, navigation, water supply and irrigation projects.

Federal agencies now have agreed that the Army Corps of Engineers, and the U. S. Bureau of Reclamation each will take on about \$1,000,000,000 worth of dam and conveyance construction; local and state agencies will assume \$1,000,000,000 worth of work; and the U. S. Soil Conservation Service will handle \$200,000,000 worth of small dam and soil conservation work.

Balance of the project is navigation, irrigation, recreation and local flood protection.

Mrs. Donnie Polk and children of Whitharral visited relatives here Sunday, including the Willie Williams family, and Mr. and Mrs. Ed Williams.

Mr. and Mrs. Marvin May spent a number of days last week at their cabin in the mountains of New Mexico.

Visiting Sunday in the home of Mr. and Mrs. R. E. Lowery was their daughter, and family, Mr. and Mrs. Joe R. Shipman of Muleshoe. The Lowerys visited during the afternoon with their son and family, the Reese Lowerys in Littlefield.

Mr. and Mrs. Dale Young of Lubbock visited Sunday in the home of her mother, Mrs. Beulah Wiseman.

Home to visit her parents, the L. F. Meeks during the weekend was Jane Meeks, student at Hardin Simmons. Accompanying her home for the visit were a number of her classmates, including Martha Perry, Judy Johnson, Maudine Berry.

REHABILITATION CENTER HOLDS ON -- Gov. Price Daniel reports that directors of the Texas Rehabilitation Center at Gonzales have rescinded their order to close the center. They will keep it open at least until May 5, to wait the outcome of a campaign to raise \$100,000 through private donations.

Governor Daniel called for public support of the drive, and said he will recommend action by the Legislature to continue the services the center offers to victims of crippling accidents and diseases.

Fifty-four patients now are under treatment at "Gonzales Warm Springs." If operating funds were available, the foundation could care for 120 patients.

SHORT SHORT SNORTS -- U. S. Secretary of Commerce Luther H. Hodges has told Governor Daniel he will speak at the "Visit USA" Tourist Conference in Dallas, April 9. Governors and representatives from several Southwestern states will attend. District and county attorneys, judges,

### Veterans Ask

Q — What educational benefits have been provided for peacetime veterans?

A — Although Congress has considered several types of educational benefits for peacetime veterans, none have passed into legislation as yet.

Q — Are peacetime disability compensation payments the same as those received by wartime veterans?

A — Peacetime disability compensation rates are paid at 50 per cent of the corresponding wartime rates.

Q — As a World War II veteran with 30 term disability, can I convert part of my \$30,000 term insurance to a permanent plan?

A — You may convert at little as \$1,000 or more in monthly benefits of \$500 or as much as \$1,500 or \$2,500 at one time.

Q — I am the widow of a World War I veteran. In January, 1960, I was told I was not eligible for VA pension because my husband did not have a compensable service-connected injury when he died. I have heard that requirement has been changed. Is that true?

A — Yes. Since July 1, 1960, you are eligible for pension if your husband had 90 days of active service in World War I, and was discharged under other than dishonorable conditions.

Mrs. Pete O'Hair was in charge of the program, "Help Us, Oh, God, to Witness to the Afflicted, the Wanderers and the Jews" when the WMO of the First Baptist Church of Earth met at 10:15 a.m. at the home of Mrs. Louise Wuerflein.

The program was one of a week long series in which the group observed the Anti-Apartheid week of Prayer for some individuals. Also participating Tuesday were the following and their partners: Mrs. Elton Schaefer and Mrs. Gerald Inglis, "Responsive Readings," Mrs. Clarence Kelley, "Prayer," Calendar, Mrs. Louise Wuerflein, "Meditation," Mrs. O'Hair, "Prayer With the Dead," Mrs. Guy F. Kelley, "Only a Migrant," and Mrs. Raeman Cole, "Clothing Meditation."

Special music, a vocal solo, "Jesus Calls Us" was presented by Mrs. Jimmy O'Grady.

Following the meeting, the hostess was honored with a surprise "Grandmother" sweater. Layette gifts were presented to the pastor's daughter, Mrs. Betty Morgan who lives near Farmington, Tenn.

For the program, Mrs. Pete O'Hair gave an interpretive reading, "The Glad 7 Ribbed Shoulders Wait You."

Refreshments were served.

A Billy Graham film entitled "Outpost Berlin" was shown by N. C. Womack at the Sunday evening services of the First Baptist Church of Earth. Womack, with the Brotherhood Department with offices in Dallas, Tex. and Rudy Sanchez, aide of the department, were to conduct a Royal Ambassador and Brotherhood clinic at the Earth church Monday, Tuesday and Wednesday night of this week.

Charles Ansell, Don Curtis and Nancy Cooper attended a band concert held Sunday afternoon at West Texas State College.

Attending funeral services for Mrs. F. W. Lamberth Tuesday in Midway were Mr. and Mrs. Joanne Mabeber. The Mabebers also visited with Mrs. John Mabeber in hereford.

Mrs. Nat Bearden and Mrs. Gerald Inglis, Tom and Terri were in Friona Wednesday morning where Mrs. Bearden received a medical check-up.

Lynn and Lee Watson spent the past week with their grandparents, the Truman Stokes, Earth, and Lowell Watson, Springlake.

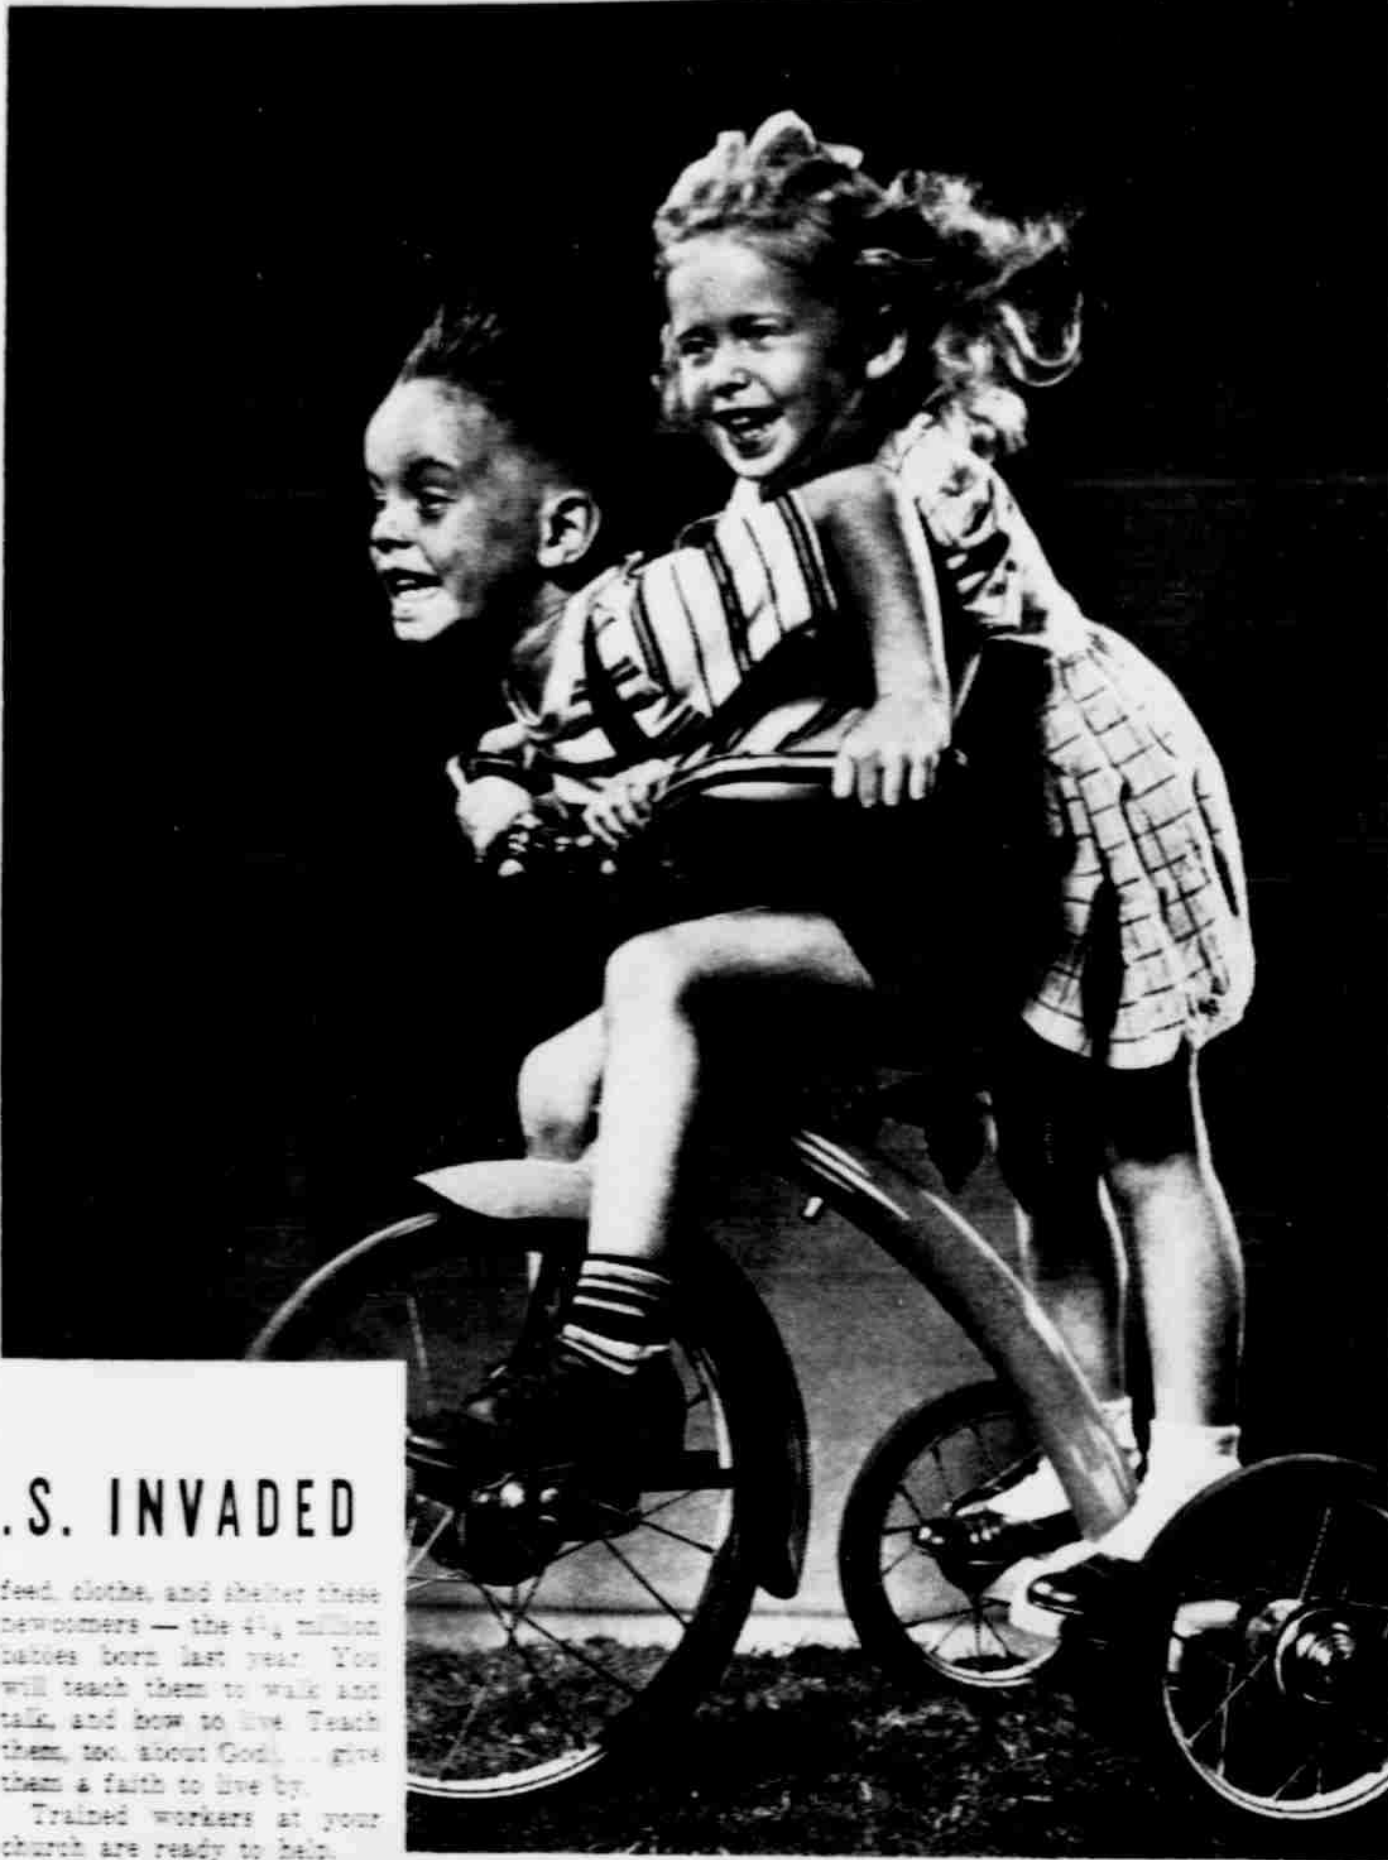

Mrs. Raeman Cole left Thursday morning to visit her daughter and family, Mr. and Mrs. Claude Davis and infant son, Rodney Lynn of Lovington, N. M.

A number from the local Methodist church were in Ft. Worth last Wednesday to attend a meeting of pastors and Area Commission on Missions members.

Those going from here were Mr. and Mrs. Joe Salem, Mrs. Joe Burr Marriam, Mrs. W. V. Terry, and Rev. Frank Weir, leaving their vehicles inspected now.

Johnson stressed the importance of car owners having their annual safety check at a licensed inspection station as soon as possible. The DPS captain cautioned that motorists are likely to experience last minute traffic jams at inspection stations if they don't move without delay. "As spring approaches, we face the possibility of wet weather, which means that most inspection stations cannot utilize all of the working days left. Take advantage of this pretty weather and take your vehicle in now for the state inspection," Captain Johnson concluded.

## NEWS NOTE WARNING: U.S. INVADED

More than 4 1/2 million invade United States in past year! Now scattered throughout every city, village, and farm. Totally dependent on others for every need. None can read, write, or speak our language. They know nothing about any religion. Similar invasion expected this year — and next. Immediate action imperative! PARENTS, you are helping feed, clothe, and shelter these newcomers — the 4 1/2 million babies born last year. You will teach them to walk and talk, and how to live. Teach them, too, about God. ... give them a faith to live by. Trained workers at your church are ready to help. The future of your country — and your children — rests with you. Join hands with your church to give them a faith, and a future — TODAY.

### THE CHURCH FOR ALL ALL FOR THE CHURCH

The Church is the greatest factor on earth for the building of character and good citizenship. It is a storehouse of spiritual values. Without a strong Church, neither democracy nor civilization can survive. There are four sound reasons why every person should attend services regularly and support the Church. They are: (1) For his own sake. (2) For his children's sake. (3) For the sake of his community and nation. (4) For the sake of the Church itself, which needs his moral and material support. Plan to go to church regularly and read your Bible daily.

### One Month Left For Car Inspections

Texas drivers have approximately one month in which to have their vehicles inspected before the April 15 deadline. "After that date," said Captain Alan Johnson, Motor Vehicle Inspection Service of the Texas Department of Public Safety, "enforcement officers will begin to issue tickets to those drivers who fail to display the new 1961 safety stickers." There are over 325,000 vehicles in the Northwest Texas Region of the DPS that must be inspected before the April 15 deadline. Although there are 61 approved inspection stations in this 60 county region, these stations will be hard pressed to finish before the deadline, unless the motorists start

do not have a high school diploma. Without one, you will be turned away from jobs with pay and with pleasant working conditions.

Have you ever investigated senior class to see what enrollment was in the 10th grade? You would find that has declined considerably in the twelve years. Why do we want to quit school? Do we realize the importance of education, or do we just care? How can we make realize its importance?

High school education is most and college education becoming a must also. We show students the importance both. Using others as examples might be a means of showing them, but they may need to take time to explain to them and show them what an education will mean to them in the future, to their life as well as in the world. Take the time to explain!
