#### int It The Truth By Ab Gunter

Do you ever read more than one book at a time? No, I don't mean reading more than one book at once but what I do is get a book or two and read awhile in one and then read from another. Maybe foolish but it sort of keeps me thinkin a bit. I am about in the middle of Charles Dickens story of David Copperfield. I am at the end of C.L. Sonnichens Mescalero Apache and then I am about a third way through Rudyard Kiplings Sea to Sea. Confus-

ing ain't it? Some years ago Junior Johnson, a neighbor, and I found a tree that was hollowed out by nature that had been cut down by some woodcutters and left as it wasn't much use as firewood. Ibelieve the wood is sycamore. I asked Jr. if I could have a couple of chunks of this wood and he agreed. I cut two pieces about 3 ft. long and than another. We loaded them in my or our pickup and hauled them home. Now this was a few years ago and they have been dryin for some further use. Day before yesterday I decided to make a sort of lamp table out of one of the pieces and that is what I am workin on at this time. I have trued them up by cuttin each end so it would stand straight an have a flat top. I plan on putting a rawhide top on the thing so it will look like an Indian drum and then I will burn some sort of Indian designs

Now this doins I'm workin on is just a hobby. Mama and I have a bit of baby sittin to do on occasions, the garden to work, the lawn to mow and the usual things around the place.

on the sides and carve some legs at

The tornado that hit the Panhandle of Texas on June 8th (my birthday) damaged many homes in and around Wheeler where I grew up. The large feed lot west of town was heavily damaged and many livestock were lost. Some homes were just gobbled up and little left to recognize it was ever a home. To me the worst part of these things is the loss of irreplaceable treasures such as pictures and personable things such as Granddads violin or Grandmas hooked rug she made many years ago. Here on our desk there are many things that would mean nothing to you, but are keepsakes to Mama and I. We have little trinkets the granchildren have made even a half shell of an ostrich egg that agood friend gave us. This lady raises those long legged chickens and we have watched these folks nurture the little ones, stay away from the grown ones, for good reason, and even carefully handle the eggs. I never realized there is so much work in this business. Wish you all could see the operation, maybe you could. I noticed there are some folks near Wheeler that lost many of their birds. Golly I never knew birds like that grow in the Panhandle. Will try and get their address for anyone interested.

We have a widow friend that is in her late 80s and she is at home during the day by herself and we enjoy her visit. She will only stay a short while but we have invited her to visit our yard and garden when and if she pleases. She does and enjoys the flowers an the small so called garden.

At times she will be with us as Mama sort of tells the tomatoes to hurry up and start producin tomatoes or maybe Mama will be pinchin off certain blooms on the squash to get them to givin us some squash to fry or bake. This lady was raised on a farm and we feel that seein the produce from our tiny garden lets her sort of reminisce about the many years she too had a garden to bring forth food for her family there in Southern Indiana.

We sort of treat this friend as a Grandmother as we have many times in the past. Our children felt as if Grandma and Granddad Sechrist were their grandparents and we feel that these two wonderful folks felt as if our children were their grandchildren. In New Mexico we had a couple that lived in one of our cabins that were truly just like grandparents. Grandma and Granddad Boone are still in our fond memories. Hope you had such friends. Ab and Mama

Harvey and Jackie North, and Taw have been to Moab, Utah, where they visited her father Dave Wimer.

Ray and Doris Smith went to Owasso to see Gene and Kim, Kelly and Ryan Smith. Then on to Rogers, Arkansas where they visited a cousin, Mildred Graves. Came home the sce-

Had a nice letter from Violet Page of CA. Marvin and Dewey were coming by to take her to Prescott, AZ where niece and husband Wanda and Dewey were celebrating their 50th anniversary. Several of the folks from here were going too.

Went down to Elk Thursday to see Dr. Morrison. Got my teeth counted and all those good things. Had lunch at Hardees and came back by Sayre to fill the pill bottles. We visited with Howard Metcalf, Verda Meissner, Debbie Hall, Louise Stone.

Saturday we went to Cheyenne for Joe to get his curls trimmed. I bought some things at Hanawalts and wrote a check. Started to write another one at Youngbloods for my groceries and there was my other check. Wouldn't say I'm not all there. Told Mr. Hanawalt not to fire his wife. It was my mistake. We were eating at the B and H and in walked our neighbor Roy Holland. Others we saw were Joe Frank Moad, Robert Barton, Joann Harrison, and Lester Davis. He said Clara was slowly recovering from her knee surgery.

Our sister in law Rosie (Paul's wife) is very ill in a Norman hospital. Bertha Coffey has been on the puny list. Cal and Sylvia Rogers are home from the Sayre hospital, Virginia Miller has been in the Wheeler Hospital. Eva Atkinson's mother Fave Moore is in the hospital. Eva spent the week with her.

Judy Tipton came over and brought us a sack of lovely peaches. Her sister Carol Billingsley of Miami and grandkids Jacquelyn and Brandon had been to see them Saturday. They took the kids fishing, bird watching and

Mildred Allen said Wilbur and Theresa Nabors had been to see her and brought an apricot pie.

Guest minister at the Baptist Church Sunday was Ralph Chapman of Sayre. Folks over west had their phone service go to pot. The repairmen found that the gophers had been feasting on the cable lines. Who knows, perhaps

the gophers will inherit the earth! Cousin Clara Jaynes has retired from her work at Sayre after many years of service.

Norman Robison received an outstanding scholar award in auto body at Western Vo Tech, Burns Flat.

Leann and Lana Keathley, Matt Carlson, and Casey Drake are at the International Youth Rodeo Finals at Shawnee this week

Lindsey Coffey, Brandi Elam, and Teri Calverley are at Junior 4-H camp at Lugert this week. Dusty Elam is also there serving as a counselor.

Regis and Kathy Lee had our Vikki from One Life to Live on today. Been 24 years since it started. Most of the characters claimed to have come from Elk City, Oklahoma, and a little village to the west. Had to be Sweetwater! Now only two of the original are still

Funeral services were at the Methodist Church for George Champion Davis. Burial was in the Davis Cemetery north of Erick. Joe's Dad wrote a book A Bunch of Flowers about the early days. He said that the folks who owned the Davis Ranch were very kind and let the new settlers milk their cows in return for them taking care of the calf. To families who couldn't afford a milk cow, this was a Godsend.

Cattle are much cheaper right now. It is even showing up in the stores. Most think it is caused by NAFTA allowing so many Mexican cattle into

Georgia Johnson, Church Falls, VA. Sharon Loyd, Albuquerque, Lorita and Ladon Killingsworth, and grandchildren, OKC have been visiting Walter Fourier and went to church with him. Lorita and Ladon also attended the Killingsworth reunion at Elk. Gail and Kenneth Prather, Erick, and Kenneth and Wanda Fourier, McLean, visited during the week. The Prathers have

an ostrich farm over west of us. See Custer, Roger Mills, and Beckham Counties are getting storm and rain damages from the govern-

ment. A few more weeks of this and they will be eleigible for drouth relief. I took a very dim view of ten days of Wimbledon Tennis. I can't believe there were 100 people in Oklahoma

Iva Thompson visited Leroy and Peggy Dunlay. Dale, Sheri, and little Jake were there on their way home from an Arkansas reunion.

Wanda and Kenneth Fourier. McLean, were down to visit their aunt, Esther Dickey.

Mellie Stone tells me she has been making plum jelly. Guess the wild plums are getting ripe. Her granchildren Jerry and Carol Stone of Dallas had been up to bring their new baby girl Rillagene. She has two older sisters, Sara and Janie.

**FAMILY PREPAREDNESS FOR** DISASTERS

This is part IV in the Family Preparedness for Disasters. In addition to your family disaster supply kit, develop a family preparedness plan known to all family members. The basic plan has four steps: Do your Homework (discussed last week) Create a Family disaster plan, Make a Checklist, Periodically Update It and Practice and Maintain Your Plan.

TIPS TO CREATE A FAMILY DI-SASTER PLAN: Discuss with your family the need to prepare for disaster. Explain the danger of fire, severe weather (tornadoes, hurricanes and floods) to children. Develop a plan to share responsibilities and how to work together as a team.

\*Discuss the types of disasters that are most likely to occur and how to

\*Establish meeting places inside and outside your home, as well as outside the neighborhood. Make sure everyone knows when and how to

contact each other if separated... \*Decide on the best escape routes from your home. Identify two ways out

of each room. \*Plan how to take care of your pets. \*Establish a family contact out-oftown (friend or relative). Call this per-

son after the disaster to let them know where you are and if you are okay. Make sure everyone knows the contact's phone number.

\*Learn what to do if you are advised to evacuate. TIPS FOR MAKING A CHECKLIST AND PERIODICALLY UPDATE IT.

\*Post emergency telephone numbers by phones (fire, police, ambulance, etc.).

\*Teach your children how and when to call 911 or your local EMS number

\*Show each family member how to turn off the water, gas and electricity at the main valves or switches.

\*Teach each family member how to use a fire extinguisher (ABC type) and have a central place to keep it. Check it each year.

\*Install smoke detectors on each level of your home, especially near bedrooms.

\*Conduct a home hazard hunt. \*Stock emergency supplies and assemble a disaster supply kit.

\*Learn basic first aid. At the very least, each family member should know CPR, how to help someone who is choking and first aid for severe bleeding and shock. The Red Cross offers basic training of this nature.

'Identify safe places in your home to go for each type of disaster.

\*Check to be sure you have adequate insurance coverage. TIPS FOR PRACTICING AND MAINTAINING YOUR PLAN:

\*Test children's knowledge of the plan every 6 months so they remember what to do.

\*Conduct fire and emergency evacuation drills.

\*Replace stored water and food every 6 months.

\*Test your smoke detectors monthly and change the batteries once a year. AND...In conjunction with the preparedness plan, working with neighbors can save lives and property. Meet with neighbors to plan how the neighborhood could work together after a

# Allison, Ft. Elliott, Kelton **Assist Wheeler School**

School finance has taken some strange turns over the past decade in Texas. One of the strangest that has . come to be ruled constitutional is a wealth sharing plan. Under this plan, districts which have wealth in excess of a certain amount per student are allowed certain choices in order to equal wealth per student. These districts may select four different options for equalizing wealth. Two of the options involve either buying attendance credits from other school districts or

buying credits from the state. During the past two years, Wheeler ISD has been very fortunate that Allison, Fort Elliott, and Kelton have elected to buy attendance credits from Wheeler. During these two years, Wheeler ISD has received approximately \$2,220,000 from these three districts. State funds were subtracted because of these agreements, but the amount of state funds withheld was far less than the amounts received.

Because of these agreements, Wheeler ISD has been able to upgrade facilities and programs. A new band hall is currently under construction. Two newschool buses have been ordered and should be delivered before the start of the 95-96 school year. Technology and science equipment and supplies have been added. Conversions are currently being made to have a single library/media center with computer check out and advanced media services. Elementary Spanish classes have been provided through TI-IN. Gifted/Talented programs have been added along with staff development and student enrichment programs. And, Career and Technology equipment has been purchased in order to upgrade vocational programs. Thus, instructional programs have definitely benefited.

Many of these projects would have been virtually impossible without the agreements between Allison, Fort Elliott, and Kelton. This decision is certainly appreciated by the Board and administration of Wheeler ISD. This gesture means so much to this community and to the future students, teachers, administrators, and taxpay-

# Chuck & Louise Hogan Observe 50th Anniv.

A reception honoring Chuck and Louise Hogan on the Fiftieth Anniversary was held in the Fellowship Hall at the First Baptist Church in Mobeetie.

The center table was set with a white four tiered cake with two doves encircled by a tulle heart on the top layer and iridescent beads on the side. The cut glass punch bowl had belonged to Mr. Hogan's mother, Minnie. The floral centerpiece consisted of yellow roses, purple iris, caspia, and astromeria lilies.

A serving table was covered with an ecru cut lace tablecloth that had belonged to Mr. Hogan's sister, Loreta. A silver coffee service and silver serving trays were used to serve the assorted cheese rolls and crackers. A framed copy of the couples wedding announcement was displayed.

A smaller table was placed alongside to serve the white sheet cake and the punch bowl used on this table was given to the couple many years before by their son, Robert. A third table was used to display the many beautiful cards the Hogans had received congratulating them. Also placed on the table was a photo taken on the couples wedding day and the Bride's book.

We are also going to be entertaining this weekend in Wheeler. I should have warned you to get ready for a shock-our staying home over the weekend. The family bluegrassers, the Arnolds, will be here to visit during their free time between bluegrassing.

We are also expecting other visitors. I have to get the lawn mowed and the croquet court laid out. Maybe we won't get too loud for the neighbors.

And, we will have to get the ice cream freezer cranked up.

ATTEND CAMP: Four Wheeler County residents recently participated in an electricity camp sponsored by Southwestern Public Service Company. More than 120 4-H'ers from throughout the Texas Panhandle attended the camp June 19-23 at Camp Scott Able, near Cloudcroft, New Mexico. The camp featured demonstrations and lectures on basic electricity, safety, energy conservation, wiring and electrical terminology. The students also completed hands-on projects. County agents and SPS representatives served as advisers and instructors. SPS sponsors the camp each year so that students are more knowledgeable about electricity and electrical safety. One of the most famous film clips

from World War II was the one that showed Adolph Hitler "Jig" when he learned that France had surrendered to Germany. In the clip, Hitler was shown jumping up and down, expressing fiendish delight that another nation had fallen to the Third

The intended implications of this film clip was that Hitler was a diabolical, mad man. While this implication was probably true, it was deviously derived because the film was a phony. At the conclusion of the war, a film editor admitted that he "looped" the film clip. Hitler really made one slight jumping motion, But when the editor "looped" the film clip, this slight jumping motion recurred several times, creating the famous but fictitious "jig".

None of us probably has much sympathy for Hitler. We would say: "What difference does it make that the clip was misleading? No one cares. What was the harm?"

Truth was harmed! Regardless of the issue, it is always wrong to modify or edit truth.

truthful perspective are the descriptions that are recorded in the Bible of certain people. These descriptions carefully reveal the entire truth about these people. For example, none of the failures of David, Moses, Abraham, Noah, and Jacob are omitted. Yet these people are presented in the Bible as righteous people.
